四级 · 真题卷第2套 · 2021年6月

Part I

Writing

(30 minutes)

Directions: For this part, you are allowed 30 minutes to write an essay titled "Is technology making people lazy?". The statement given below is for your reference. You should write at least 120 words but no more than 180 words.

Many studies claim that computers distract people, make them lazy thinkers and even lower their work efficiency.

Part II

Listening Comprehension

(25 minutes)

Section A

Directions: In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 1 and 2 are based on the news report you have just heard.

1. A) See the Pope.
B) Go to Newcastle.
C) Travel to Germany.
D) Tour an Italian city.
2. A) He was taken to hospital in an ambulance.
B) His car hit a sign and was badly damaged.
C) His GPS system went out of order.
D) He ended up in the wrong place.

Questions 3 and 4 are based on the news report you have just heard.

3. A) Scotland will reach the national target in carbon emissions reduction ahead of schedule.
B) Glasgow City Council has made a deal with ScottishPower on carbon emissions.
C) Glasgow has pledged to take the lead in reducing carbon emissions in the UK.
D) First Minister Nicola Sturgeon urged ScottishPower to reduce carbon emissions.
4. A) Glasgow needs to invest in new technologies to reach its goal.
B) Glasgow is going to explore new sources of renewable energy.
C) Stricter regulation is needed in transforming Glasgow's economy.
D) It's necessary to create more low-emission zones as soon as possible.

Questions 5 to 7 are based on the news report you have just heard.

5. A) It donates money to overpopulated animal shelters.
B) It permits employees to bring cats into their office.
C) It gives 5,000 yen to employees who keep pet cats.
D) It allows workers to do whatever their hearts desire.
6. A) Keep cats off the street.
B) Rescue homeless cats.
C) Volunteer to help in animal shelters.
D) Contribute to a fund for cat protection.
7. A) It has contributed tremendously to the firm's fame.
B) It has helped a lot to improve animals' well-being.
C) It has led some other companies to follow suit.
D) It has resulted in damage to office equipment.

Section B

Directions: *In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.*

Questions 8 to 11 are based on the conversation you have just heard.

8. A) Find out where Jimmy is.
B) Borrow money from Jimmy.
C) Make friends with Jimmy.
D) Ask Jimmy what is to be done.
9. A) He was unsure what kind of fellow Jimmy was.
B) He was working on a study project with Jimmy.
C) He wanted to make a sincere apology to Jimmy.
D) He wanted to invite her to join in a study project.
10. A) He got a ticket for speeding.
B) He got his car badly damaged.
C) He was involved in a traffic accident.
D) He had an operation for his injury.
11. A) He needed to make some donations to charity.
B) He found the 60 pounds in his pocket missing.
C) He wanted to buy a gift for his mother's birthday.
D) He wanted to conceal something from his parents.

Questions 12 to 15 are based on the conversation you have just heard.

12. A) Shopping delivery.
B) Shopping online.
C) Where he goes shopping.
D) How often he does shopping.
13. A) Searching in the aisles.
B) Dealing with the traffic.
C) Driving too long a distance.
D) Getting one's car parked.
14. A) The after-sales service.
B) The replacement policy.
C) The quality of food products.
D) The damage to the packaging.
15. A) It saves money.
B) It offers more choice.
C) It increases the joy of shopping.
D) It is less time-consuming.

Section C

Directions: *In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on Answer Sheet 1 with a single line through the centre .*

Questions 16 to 18 are based on the passage you have just heard.

16. A) They have little talent for learning math.
B) They need medical help for math anxiety.
C) They need extra help to catch up in the math class.
D) They have strong negative emotions towards math.
17. A) It will gradually pass away without teachers' help.
B) It affects low performing children only.
C) It is related to a child's low intelligence.
D) It exists mostly among children from poor families.
18. A) Most of them have average to strong math ability.
B) Most of them get timely help from their teachers.
C) They will regain confidence with counselling.
D) They are mostly secondary school students.

Questions 19 to 21 are based on the passage you have just heard.

19. A) Social media addiction is a threat to our health.
B) Too many people are addicted to smartphones.
C) Addiction to computer games is a disease.
D) Computer games can be rather addictive.
20. A) They prioritize their favored activity over what they should do.
B) They do their favored activity whenever and wherever possible.
C) They are unaware of the damage their behavior is doing to them.
D) They are unable to get rid of their addiction without professional help.
21. A) It may be less damaging than previously believed.
B) There will never be agreement on its harm to people.
C) It may prove to be beneficial to developing creativity.
D) There is not enough evidence to classify it as a disease.

Questions 22 to 25 are based on the passage you have just heard.

22. A) They are relatively uniform in color and design.
B) They appear more formal than other passports.
C) They are a shade of red bordering on brown.
D) They vary in color from country to country.
23. A) They must endure wear and tear.
B) They must be of the same size.
C) They must be made from a rare material.
D) They must follow some common standards.
24. A) They look more traditional.
B) They look more official.
C) They are favored by airlines.
D) They are easily identifiable.
25. A) For beauty.
B) For variety.
C) For visibility.
D) For security.

Part III

Reading Comprehension

(40 minutes)

Section A

Directions: *In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding*

letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

Social isolation poses more health risks than obesity or smoking 15 cigarettes a day, according to research published by Brigham Young University. The 26 is that loneliness is a huge, if silent, risk factor.

Loneliness affects physical health in two ways. First, it produces stress hormones that can lead to many health problems. Second, people who live alone are less likely to go to doctor 27 , to exercise or to eat a healthy diet.

Public health experts in many countries are 28 how to address widespread loneliness in our society. Last year Britain even appointed a minister for loneliness. "Loneliness 29 almost every one of us at some point," its minister for loneliness Baroness Barran said. "It can lead to very serious health 30 for individuals who become isolated and disconnected."

Barran started a "Let's Talk Loneliness" campaign that 31 difficult conversations across Britain. He is now supporting " 32 benches," which are public seating areas where people are encouraged to go and chat with one another. The minister is also 33 to stop public transportation from being cut in ways that leave people isolated.

More than one-fifth of adults in both the United States and Britain said in a 2018 34 that they often or always feel lonely. More than half of American adults are unmarried, and researchers have found that even among those who are married, 30% of relationships are 35 strained. A quarter of Americans now live alone, and as the song says, one is the loneliest number.

- | | |
|-----------------|----------------|
| A) abruptly | I) implication |
| B) appointments | J) pushing |
| C) consequences | K) severely |
| D) debating | L) sparked |
| E) dimensions | M) splitting |
| F) friendly | N) survey |
| G) hindered | O) touches |
| H) idiom | |

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

What happens when a language has no words for numbers?

A) Numbers do not exist in all cultures. There are numberless hunter-gatherers in Amazonia, living along branches of the world's largest river tree. Instead of using words for precise quantities, these people rely exclusively on terms similar to "a few" or "some." In contrast, our own lives are governed by numbers. As you read this, you are likely aware of what time it is, how old you are, your checking account balance, your weight and so on. The exact numbers we think with impact everything in our lives.

- B) But, in a historical sense, number-conscious people like us are the unusual ones. For the bulk of our species' approximately 200,000-year lifespan, we had no means of precisely representing quantities. What's more, the 7,000 or so languages that exist today vary dramatically in how they utilize numbers.
- C) Speakers of anumeric, or numberless, languages offer a window into how the invention of numbers reshaped the human experience. Cultures without numbers, or with only one or two precise numbers, include the Mundurucu and Piraha in Amazonia. Researchers have also studied some adults in Nicaragua who were never taught number words. Without numbers, healthy human adults struggle to precisely distinguish and recall quantities as low as four. In an experiment, a researcher will place nuts into a can one at a time and then remove them one by one. The person watching is asked to signal when all the nuts have been removed. Responses suggest that anumeric people have some trouble keeping track of how many nuts remain in the can, even if there are only four or five in total.
- D) This and many other experiments have led to a simple conclusion: When people do not have number words, they struggle to make quantitative distinctions that probably seem natural to someone like you or me. While only a small portion of the world's languages are anumeric or nearly anumeric, they demonstrate that number words are not a human universal.
- E) It is worth stressing that these anumeric people are cognitively(在认知方面) normal, well-adapted to the surroundings they have dominated for centuries. As a child, I spent some time living with anumeric people, the Piraha who live along the banks of the black Maici River. Like other outsiders, I was continually impressed by their superior understanding of the ecology we shared. Yet numberless people struggle with tasks that require precise discrimination between quantities. Perhaps this should be unsurprising. After all, without counting, how can someone tell whether there are, say, seven or eight coconuts(椰子) in a tree? Such seemingly straightforward distinctions become blurry through numberless eyes.
- F) This conclusion is echoed by work with anumeric children in industrialized societies. Prior to being spoon-fed number words, children can only approximately discriminate quantities beyond three. We must be handed the cognitive tools of numbers before we can consistently and easily recognize higher quantities. In fact, acquiring the exact meaning of number words is a painstaking process that takes children years. Initially, kids learn numbers much like they learn letters. They recognize that numbers are organized sequentially, but have little awareness of what each individual number means. With time, they start to understand that a given number represents a quantity greater by one than the number coming before it. This "successor principle" is part of the foundation of our numerical(数字的) cognition, but requires extensive practice to understand.
- G) None of us, then, is really a "numbers person." We are not born to handle quantitative distinctions skillfully. In the absence of the cultural traditions that fill our lives with numbers from infancy, we would all struggle with even basic quantitative distinctions. Number words and their written forms transform our quantitative reasoning as they are introduced into our cognitive experience by our parents, peers and school teachers. The process seems so normal that we sometimes think of it as a natural part of growing up, but it is not. Human brains come equipped with certain quantitative instincts that are refined with age, but these instincts are very limited.
- H) Compared with other mammals, our numerical instincts are not as remarkable as many assume. We even share some basic instinctual quantitative reasoning with distant non-mammalian relatives like birds. Indeed, work with some other species suggests they too can refine their quantitative thought if they are introduced to the cognitive power tools we call numbers.

- I) So, how did we ever invent "unnatural" numbers in the first place? The answer is, literally, at your fingertips. The bulk of the world's languages use base-10, base-20 or base-5 number systems. That is, these smaller numbers are the basis of larger numbers. English is a base-10 or decimal(十进制的) language, as evidenced by words like 14("four" + "10") and 31 ("three" x "10" + "one"). We speak a decimal language because an ancestral tongue, proto-Indo-European, was decimally based. Proto-Indo-European was decimally oriented because, as in so many cultures, our ancestors' hands served as the gateway to the realization that "five fingers on one hand is the same as five fingers on the other." Such momentary thoughts were represented in words and passed down across generations. This is why the word "five" in many languages is derived from the word for "hand." Most number systems, then, are the by-product of two key factors: the human capacity for language and our inclination for focusing on our hands and fingers. This manual fixation—an indirect by-product of walking upright on two legs—has helped yield numbers in most cultures, but not all.
- J) Cultures without numbers also offer insight into the cognitive influence of particular numeric traditions. Consider what time it is. Your day is ruled by minutes and seconds, but these concepts are not real in any physical sense and are nonexistent to numberless people. Minutes and seconds are the verbal and written representations of an uncommon base-60 number system used in ancient Mesopotamia. They reside in our minds, numerical artifacts(人工制品) that not all humans inherit conceptually.
- K) Research on the language of numbers shows, more and more, that one of our species' key characteristics is tremendous linguistic(语言的) and cognitive diversity. If we are to truly understand how much our cognitive lives differ cross-culturally, we must continually explore the depths of our species' linguistic diversity.
36. It is difficult for anumeric people to keep track of the change in numbers even when the total is very small.
37. Human numerical instincts are not so superior to those of other mammals as is generally believed.
38. The author emphasizes being anumeric does not affect one's cognitive ability.
39. In the long history of mankind, humans who use numbers are a very small minority.
40. An in-depth study of differences between human languages contributes to a true understanding of cognitive differences between cultures.
41. A conclusion has been drawn from many experiments that anumeric people have a hard time distinguishing quantities.
42. Making quantitative distinctions is not an inborn skill.
43. Every aspect of our lives is affected by numbers.
44. Larger numbers are said to be built upon smaller numbers.
45. It takes great efforts for children to grasp the concept of number words.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

Sugar shocked. That describes the reaction of many Americans this week following revelations that, 50 years ago, the sugar industry paid Harvard scientists for research that shifted the focus away from sugar's role in heart disease—and put the spotlight(注意的中心) squarely on dietary fat.

What might surprise consumers is just how many present-day nutrition studies are still funded by the food industry. Nutrition scholar Marion Nestle of New York University spent a year informally tracking industry-funded studies on food. "Roughly 90% of nearly 170 studies favored the sponsor's interest," Nestle tells us. Other systematic reviews support her conclusions.

For instance, studies funded by Welch Foods—the brand behind Welch's 100% Grape Juice—found that drinking Concord grape juice daily may boost brain function. Another, funded by Quaker Oats, concluded, as a Daily Mail story put it, that "hot oatmeal(燕麦粥) breakfast keeps you full for longer."

Last year, The New York Times revealed how Coca-Cola was funding well-known scientists and organizations promoting a message that, in the battle against weight gain, people should pay more attention to exercise and less to what they eat and drink. Coca-Cola also released data detailing its funding of several medical institutions and associations between 2010 and 2015.

"It's certainly a problem that so much research in nutrition and health is funded by industry," says Bonnie Liebman, director of nutrition at the Center for Science in the Public Interest. "When the food industry pays for research, it often gets what it pays for." And what it pays for is often a pro-industry finding.

Given this environment, consumers should be skeptical(怀疑的) when reading the latest finding in nutrition science and ignore the latest study that pops up on your news feed. "Rely on health experts who've reviewed all the evidence," Liebman says, pointing to the official government Dietary Guidelines, which are based on reviews of hundreds of studies.

"And that expert advice remains pretty simple," says Nestle. "We know what healthy diets are—lots of vegetables, not too much junk food, balanced calories. Everything else is really difficult to do experimentally."

46. What did Harvard scientists do 50 years ago?

- A) They raised public awareness of the possible causes of heart disease.
- B) They turned public attention away from the health risks of sugar to fat.
- C) They placed the sugar industry in the spotlight with their new findings.
- D) They conducted large-scale research on the role of sugar in people's health.

47. What does Marion Nestle say about present-day nutrition studies?

- A) They took her a full year to track and analyze.
- B) Most of them are based on systematic reviews.
- C) They depend on funding from the food industries.
- D) Nearly all of them serve the purpose of the funders.

48. What did Coca-Cola-funded studies claim?

- A) Exercise is more important to good health than diet.
- B) Choosing what to eat and drink is key to weight control.
- C) Drinking Coca-Cola does not contribute to weight gain.
- D) The food industry plays a major role in fighting obesity.

49. What does Liebman say about industry-funded research?

- A) It simply focuses on nutrition and health.
- B) It causes confusion among consumers.
- C) It rarely results in objective findings.
- D) It runs counter to the public interest.

50. What is the author's advice to consumers?

- A) Follow their intuition in deciding what to eat.
- B) Be doubtful of diet experts' recommendations.
- C) Ignore irrelevant information on their news feed.
- D) Think twice about new nutrition research findings.

Passage Two

Questions 51 to 55 are based on the following passage.

Success was once defined as being able to stay at a company for a long time and move up the corporate ladder. The goal was to reach the top, accumulate wealth and retire to a life of ease. My father is a successful senior executive. In 35 years, he worked for only three companies.

When I started my career, things were already different. If you weren't changing companies every three or four years, you simply weren't getting ahead in your career. But back then, if you were a consultant or freelancer(自由职业者), people would wonder what was wrong with you. They would assume you had problems getting a job.

Today, consulting or freelancing for five businesses at the same time is a badge of honor. It shows how valuable an individual is. Many companies now look to these "ultimate professionals" to solve problems their full-time teams can't. Or they save money by hiring "top-tier(顶尖的) experts" only for particular projects.

Working at home or in cafes, starting businesses of their own, and even launching business ventures that eventually may fail, all indicate "initiative," "creativity," and "adaptability," which are desirable qualities in today's workplace. Most important, there is a growing recognition that people who balance work and play, and who work at what they are passionate about, are more focused and productive, delivering greater value to their clients.

Who are these people? They are artists, writers, programmers, providers of office services and career advice. What's needed now is a marketplace platform specifically designed to bring freelancers and clients together. Such platforms then become a place to feature the most experienced, professional, and creative talent. This is where they conduct business, where a sense of community reinforces the culture and values of the gig economy(零工经济), and where success is rewarded with good reviews that encourage more business.

Slowly but surely, these platforms create a bridge between traditional enterprises and this emerging economy. Perhaps more important, as the global economy continues to be disrupted by technology and other massive change, the gig economy will itself become an engine of economic and social transformation.

51. What does the author use the example of his father to illustrate?
- A) How long people took to reach the top of their career.
 - B) How people accumulated wealth in his father's time.
 - C) How people viewed success in his father's time.
 - D) How long people usually stayed in a company.
52. Why did people often change jobs when the author started his career?
- A) It was considered a fashion at that time.
 - B) It was a way to advance in their career.
 - C) It was a response to the changing job market.
 - D) It was difficult to keep a job for long.
53. What does the author say about people now working for several businesses at the same time?
- A) They are often regarded as most treasured talents.
 - B) They are able to bring their potential into fuller play.
 - C) They have control over their life and work schedules.
 - D) They feel proud of being outstanding problem solvers.
54. What have businesses come to recognize now?
- A) Who is capable of solving problems with ease.
 - B) How people can be more focused and productive.
 - C) What kind of people can contribute more to them.
 - D) Why some people are more passionate about work.
55. What does the author say about the gig economy?
- A) It may force companies to reform their business practice.
 - B) It may soon replace the traditional economic model.
 - C) It will drive technological progress on a global scale.
 - D) It will bring about radical economic and social changes.

Part IV

Translation

(30 minutes)

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

普洱(Pur'er)茶深受中国人喜爱。最好的普洱茶产自云南的西双版纳(Xishuangbanna), 那里的气候和环境为普洱茶树的生长提供了最佳条件。普洱茶颜色较深,味道与其他许多茶截然不同。普洱茶泡(brew)的时间越长越有味道。许多爱喝茶的人尤其喜欢其独特的香味和口感。普洱茶含有多种有益健康的元素,常饮普洱茶有助于保护心脏和血管,还有减肥、消除疲劳和促进消化的功效。

写作题和范文

本页写作题面、参考范文与逐段解析由懒笔记基于2021年6月·第2套 英语四级写作原卷整理。与试卷排版同一卷面：完整写作要求（Directions，含主题、文体、词数与署名约束）连续排印。写作是生产性任务、无 ABCD 标准答案——题面即整道题；卷面下方直接给出满足全部硬约束的参考范文、整篇中译与逐段拆解。

真题卷第2套(2021-06) • 四级

Part I

Directions: For this part, you are allowed 30 minutes to write an essay titled “Is technology making people lazy?”. The statement given below is for your reference. You should write at least 120 words but no more than 180 words.

Many studies claim that computers distract people, make them lazy thinkers and even lower their work efficiency.

【参考范文·157词】 写作无唯一标准答案，以下为达标示范

Is technology making people lazy? My answer is a qualified yes: while technology itself is neutral, the way most of us use it does breed laziness of both mind and body.

To begin with, technology encourages mental laziness. When a search engine can answer any question in seconds and a navigation app can guide every turn, few people bother to think, memorize or reason on their own. Gradually, we outsource our brains and lose the habit of deep thinking. Physical laziness follows the same logic: with delivery apps and online services, many people rarely walk, cook or move, so their bodies grow as idle as their minds.

Admittedly, technology can also make us more efficient. Yet the tool is not to blame; our passive dependence is. Therefore, the real question is not whether technology makes us lazy, but whether we control it or let it control us. Used wisely, it frees us; used blindly, it enslaves us.

【参考译文】

科技正在让人变懒吗？我的回答是有条件的肯定：科技本身是中性的，但我们大多数人使用它的方式，确实滋生了思维和身体两方面的懒惰。

首先，科技助长思维上的懒惰。当搜索引擎几秒就能回答任何问题、导航软件能指引每一个转弯时，很少有人愿意自己思考、记忆或推理。渐渐地，我们把大脑外包出去，失去了深度思考的习惯。身体上的懒惰同理：有了外卖软件和各种线上服务，许多人很少走路、做饭或活动，身体便和头脑一样闲置。

诚然，科技也能让我们更有效率。但该受责备的不是工具，而是我们被动的依赖。因此，真正的问题不在于科技是否让我们变懒，而在于我们是掌控它，还是被它掌控。用得明智，它让我们自由；用得盲目，它让我们受奴役。

【第 1 段】首段亮辩证立场。以题目设问 “Is technology making people lazy?” 开头，“My answer is a qualified yes” 直接表态，“while technology itself is neutral” 用 while 让步定调，落实了首段“设问—表态一定调”的功能，并用 “both mind and body” 一句点出两条线。

【第 2 段】两例论证 + 回扣懒。“To begin with, technology encourages mental laziness” 亮出分论点，用 search engine、navigation app 当例子；“Physical laziness follows the same logic” 递进接上第二例，两条线都落回 laziness，实现主体段“主题句—例子—让步—回扣”。

【第 3 段】归因于人并升华。“Yet the tool is not to blame; our passive dependence is” 把责任从科技转到人，“Used wisely, it frees us; used blindly, it enslaves us” 用对照句升华，收束辩证立场，呼应开头。

ANALYSIS • 审题与立意

这道题到底要写什么、立意是什么

动笔前先钉死本题的核心写作任务与读者语域，再定中心立意与要展开的要点——这些是本题特有的内容判断，不是通用套路。

核心任务

就“科技让人变懒吗”表态

题目要求 write an essay titled 一个带问号的标题 Is technology making people lazy?, 所以核心任务不是罗列科技的利弊清单，而是给出一个明确答案（是 / 否 / 有条件地是），并用理由和具体例子把它撑起来。

读者 • 语域

面向阅卷人的正式书面语

本题没有具体收信人，属纯议论文，语域用正式书面英语即可，不需要称呼和署名。所给的 The statement given below is for your reference 只是参考素材，可当引子或反驳对象，不必逐句照抄进正文。

中心立意

辩证地“是”：懒的是人不是科技

本篇立场是辩证的肯定——科技确实让很多人变懒，但根子在人如何使用它。这既正面回应了题干设问 Is technology making people lazy?, 也顺势反驳了参考句里 make them lazy thinkers 的绝对说法。

要展开的要点

1. 科技催生思维懒惰

搜索引擎、导航 App 替我们思考和记忆，久而久之人懒得动脑，正对应参考句里的 make them lazy thinkers。

2. 科技催生身体懒惰

外卖、各种线上服务让人少走少动，身体和大脑一样被闲置，把“懒”从思维延伸到行动。

3. 让步后落到“关键在如何使用”

承认科技也能提升效率，但把懒惰归因于人的被动依赖，得出“用得好是工具、用不好是主人”的辩证结论。

STRUCTURE • 谋篇与逐段

怎么分段、每段写什么、能套哪些句架

按写作家族给出现成的段落框架（每段承担什么功能），并为每段配可直接套用的 功能句架（留出填本题内容的空位）。段序与上方参考范文——对应。

第 1 段 亮立场 + 点题

开门见山回应设问，给出辩证的中心论点，点出 lazy 这一核心词，并预告全文要谈的两条线。

第 2 段 两个分论点 + 例证

分别论证思维懒惰与身体懒惰，各配一个具体场景，并让步承认科技的好处。

第 3 段 重申立场 + 升华

把懒惰归因于人的依赖，得出理性使用科技、而非被其奴役的辩证结论。

第 1 段 承认便利但判定“确实变懒”

本段落点：科技本身中性，但多数人的使用方式确实滋生思维和身体的懒惰，从而对 Is technology making people lazy? 给出一个辩证的肯定。

以设问开篇 · 用题目原句作为开头设问，紧接一句给答案：“...? My answer is a qualified yes: ...”(空位填你的判断)。

让步定调 · “while + 让步分句, 主句给出真正的判断”——用 while 先退一步，再站稳自己的立场。

第 2 段 思维懒 + 身体懒两例

本段落点：搜索引擎、导航让人懒得动脑（呼应 make them lazy thinkers），外卖、线上服务让人懒得动身；两条线都回扣 laziness 这一核心词。

分论点主题句 · “To begin with, technology encourages ... laziness.”(空位填 mental / physical) 先亮出该段观点。

举例落地 · “When + 具体场景, few people bother to + 动词。”——用一个真实场景代替空泛断言。

递进衔接 · “... follows the same logic: ...”把第二个例子自然接上，避免两点生硬并列。

第 3 段 归因于人 + 理性使用

本段落点：错不在工具，而在被动依赖；真正的问题是我们掌控它还是被它掌控——在正面回答设问的同时，反驳 make them lazy thinkers 那种把锅甩给科技的绝对论。

让步转折收束 · “Admittedly, ... Yet the real problem is ...”——先认一点，再转到你真正的核心判断。

对照升华 · “Used wisely, it ...; used blindly, it ...”——用一组对照句把立场推向一个记得住的结论。

本题在四个评分维度怎样算达标、容易在哪丢分

按阅卷四维（内容切题 / 结构连贯 / 语言准确 / 字数格式）给出本题达标要点，并把最容易踩的低分写法摆出来 + 给改法 —— 这是写作版的「狠拆诱人错项」。

内容切题

必须正面答“是否变懒”

本题最大的坑是只罗列科技利弊而不回答 Is technology making people lazy?；范文每段都回扣 laziness 并给出辩证答案，才算切题。

结构连贯

三段各司其职 + 衔接清晰

首段表态、主体段两例、尾段升华，配 To begin with、follows the same logic、Yet、Therefore 等衔接词，层次一目了然。

语言准确

用 while / admittedly 体现思辨

范文用 while、Admittedly...Yet、Used wisely...used blindly 等结构，既准确又有层次，避免通篇 “Technology is good. Technology is bad.” 式的平铺直叙。

字数格式

严守下限上限且守议论文体

题干白纸黑字要求 You should write at least 120 words but no more than 180 words，正文须落在这个区间内；本题是议论文，无需称呼与署名。

典型低分写法 • 反面示例与改法

罗列好处却不答设问

反面示例：“Technology brings us much convenience. We can shop online and chat with friends. It also has some disadvantages.”——通篇现象、不回答是否变懒。应先表态：“Technology does make many people lazy, because it lets us avoid thinking and moving.”

泛泛而谈无例子

反面示例：“Technology makes people lazy in many ways and it is very serious.”——没有任何例子。应落地：“Relying on navigation apps, many drivers can no longer find a route without their phones.”

整句搬参考素材

反面示例：把 Directions 里那句关于电脑让人分心、变懒、降低效率的参考素材整句照搬进正文，占掉大半篇幅。应化用：“Some studies warn that computers make us lazy thinkers, and my own experience confirms it.”

听力题和解析

本卷全部 25 题的标准答案与完整录音文字稿由懒笔记基于2021年6月·第2套 英语四级听力原卷逐题核对整理。与试卷排版同一卷面层级：Part/Section 标题与各节 Directions 照原卷排印——真实听力考卷只印选项，题干由录音念出。其下按录音篇目逐篇排印：每篇先给完整录音文字稿（逐段中译），再逐题给出卷面题目与该题解析（题目、翻译、答案、定位、信号、替换与排除）。

真题卷第2套(2021-06) · 四级

以下按录音篇目排印：每篇先给录音原文与逐段中译（考卷上没有，考试时录音只播一遍、卷面只印选项），再逐题给出卷面题目与解析。

Part II

Listening Comprehension

(25 minutes)

Section A

Directions: In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre .

Questions 1 and 2 are based on the news report you have just heard.

1 An 81-year-old man ended up in Germany by accident after trying to get from Newcastle, Great Britain, to Rome, Italy.

一位81岁的老人在试图从英国纽卡斯尔前往意大利罗马时意外到达了德国。

2 The old age pensioner was on a mission to see the Pope, who is head of the Catholic Church, and decided to make his way there by car.

这位领取养老金的老人此行是为了拜见天主教会领袖教皇,他决定驾车前往。

3 He was surprised when his GPS system told him he had arrived, although there were no signs of any of the famous buildings or architecture.

当GPS系统告诉他已经到达目的地时,他感到很惊讶,因为周围没有任何著名建筑的迹象。

4 The man parked but didn't put on the handbrake of his car properly.

老人停好车,但没有正确拉上手刹。

5 His car rolled backwards, and in a striking display of irony, hit a sign saying "Rom"—the small town in North Germany he had mistakenly plugged into the GPS system.

他的车向后滑行,极具讽刺意味的是,撞上了一块写着"Rom"的标志牌——这是他误输入GPS系统的德国北部小镇的名字。

6 Police said that the car had come to a halt after hitting the sign, but did not appear to be seriously damaged, although an ambulance was called to check on the pensioner.

警方表示,汽车撞上标志牌后停了下来,但似乎没有严重损坏,不过还是叫了救护车来检查这位老人的身体状况。

7 The man, who lives in the UK and is originally Italian, might have been confused by the fact that Rome is written "Roma" in Italian and "Rom" in German.

这位生活在英国、原籍意大利的老人可能是因为罗马在意大利语中写作"Roma",而在德语中写作"Rom"而产生了混淆。

1. A) See the Pope.
- B) Go to Newcastle.
- C) Travel to Germany.
- D) Tour an Italian city.

【题目】 What did the old age pensioner plan to do?

【翻译】 这位领取养老金的老人计划做什么?

A) 见教皇。 B) 去纽卡斯尔。 C) 去德国旅行。 D) 游览一座意大利城市。

【答案】 A (细节题) See the Pope.

【定位】 The old age pensioner was on a mission to see the Pope, who is head of the Catholic Church, and decided to make his way there by car.

这位领养老金的老人肩负着去见教皇(天主教会的领袖)的使命,并决定开车前往那里。

【信号】 表目的的 on a mission to + decided to。答案信号是表"目的/决意"的措辞: on a mission to see the Pope(肩负见教皇的使命)和 decided to make his way there(决定前往)。听力里"on a mission to / decided to / plan to"后面跟的就是主人公的目标,一听到就锁定,这正是 plan 类题的落点。

【替换】 on a mission to see the Pope ↔ See the Pope.

去修饰语后核心动作不变

【排除】 B) 原词陷阱

录音里 trying to get from Newcastle 确实念到了 Newcastle，但那是他的 "出发地"，不是要 "go to" 的目的地。选项 Go to Newcastle. 盗用这个原词，把起点说成终点，听到 Newcastle 就选必中招。

借用原文：trying to get from Newcastle, Great Britain, to Rome, Italy

C) 答非所问

Germany 是他 "误打误撞最后到达" 的地方 (ended up in Germany by accident)，并非他 "打算" 去的地方。选项 Travel to Germany. 把 "意外结果" 安到 "计划" 头上，正是本题问 plan 时最阴的干扰。

借用原文：ended up in Germany by accident

D) 偷换概念

罗马 (Italian city) 虽是他的真正目的地，但 Tour an Italian city. 把目的说成 "游览一座意大利城市"，与录音 on a mission to see the Pope (去见教皇) 这一明确目的不符——他不是去观光，是去见教皇。选项借意大利城市这层背景来诱选。

借用原文：on a mission to see the Pope

2. A) He was taken to hospital in an ambulance.

B) His car hit a sign and was badly damaged.

C) His GPS system went out of order.

D) He ended up in the wrong place.

【题目】 What finally happened to the old man?

【翻译】 这位老人最后怎么样了？

A) 他被救护车送往医院。 B) 他的车撞到了标志牌,严重损坏。

C) 他的GPS系统出现故障。 D) 他最终到了错误的地方。

【答案】 D (细节题) He ended up in the wrong place.

【定位】 An 81-year-old man ended up in Germany by accident after trying to get from Newcastle, Great Britain, to Rome, Italy.

一位 81 岁的老人在试图从英国纽卡斯尔前往意大利罗马的途中，意外地落到了德国。

【信号】 结果词 ended up + by accident. 答案信号是表 "最终结果" 的措辞 ended up in Germany by accident: ended up (最终落到...) + by accident (出于意外) 直接点出 "跑错了地方" 这个结局。问 finally happened 的题，就抓 ended up / finally / in the end 这类收束词。

【替换】 ended up in Germany by accident ↔ **He ended up in the wrong place.**

具体地名概括成 wrong place

【排除】 A) 原词陷阱

录音 an ambulance was called to check on the pensioner 是 "叫了救护车来查看", 并没说把他送进医院。选项 He was taken to hospital in an ambulance. 盗用 ambulance 这个原词, 再加码成 "被送往医院", 听到 ambulance 就选必错。

借用原文: an ambulance was called to check on the pensioner

B) 与原文相反

车确实 hit a sign (撞了路牌), 但录音明说 did not appear to be seriously damaged (看起来没严重损坏)。选项 His car hit a sign and was badly damaged. 前半句盗用原文为真、后半 badly damaged 与原文相反, 是典型 "半真半假" 陷阱。

借用原文: did not appear to be seriously damaged

C) 张冠李戴

录音里 GPS 一直正常工作 (his GPS system told him he had arrived), 错的是老人把目的地 "Rom" 输错了, 不是 GPS 坏了。选项 His GPS system went out of order. 盗用 GPS 这个高频原词, 硬安一个 "故障" 给它, 把人为输错说成机器失灵。

借用原文: his GPS system told him he had arrived

Questions 3 and 4 are based on the news report you have just heard.

1 Glasgow has pledged to become the first carbon neutral city in the UK. The city's council and ScottishPower have announced a range of strategies in an attempt to reduce carbon emissions ahead of the new national target of 2045.

Glasgow承诺成为英国首个碳中和城市。该市议会和ScottishPower宣布了一系列战略, 试图在2045年这一新的国家目标之前减少碳排放。

2 First Minister Nicola Sturgeon welcomed the pledge, and said: "Today's announcement between ScottishPower and Glasgow City Council—to make Glasgow the UK's first net-zero city—is a very welcome step. Reaching our goals will need exactly this kind of partnership approach—with government, business, local authorities and citizens all playing their part."

首席大臣Nicola Sturgeon对这一承诺表示欢迎, 并说: "今天ScottishPower与Glasgow市议会之间的宣布——使Glasgow成为英国首个净零排放城市——是非常值得欢迎的一步。实现我们的目标需要正是这种伙伴关系方式——政府、企业、地方当局和公民都发挥各自的作用。"

3 Speaking ahead of the All Energy Conference being held in Glasgow, ScottishPower chief executive Keith Anderson said: "We have a large supply of renewable energy on our doorstep and one of the only two low emission zones in action across the UK. Now, we need to invest in the technologies and programmes that transform the rest of Glasgow's economy and make us net zero before anyone else."

在Glasgow举行的全能源大会之前发言时,ScottishPower首席执行官Keith Anderson说: "我们家门口有大量的可再生能源供应, 并且拥有全英国仅有的两个低排放区之一。现在, 我们需要投资于技术和项目, 以转变Glasgow经济的其他部分, 使我们比其他任何人都更早实现净零排放。"

3. A) Scotland will reach the national target in carbon emissions reduction ahead of schedule.
B) Glasgow City Council has made a deal with ScottishPower on carbon emissions.
C) Glasgow has pledged to take the lead in reducing carbon emissions in the UK.
D) First Minister Nicola Sturgeon urged ScottishPower to reduce carbon emissions.

【题目】 What do we learn from the news report?

【翻译】 我们从新闻报道中了解到什么？

- A) 苏格兰将提前完成碳排放减排的国家目标。
B) Glasgow市议会已与ScottishPower就碳排放达成协议。
C) Glasgow承诺在英国率先减少碳排放。
D) 首席大臣Nicola Sturgeon敦促ScottishPower减少碳排放。

【答案】 C (主旨题) Glasgow has pledged to take the lead in reducing carbon emissions in the UK.

【定位】 Glasgow has pledged to become the first carbon neutral city in the UK.

格拉斯哥已承诺要成为英国第一个碳中和城市。

【信号】 新闻首句即点题。信号是「新闻第一句」：英文短消息几乎都把最重要的事放在开头第一句。Glasgow has pledged to become the first carbon neutral city in the UK. 正是全篇核心事件，主旨题答案就藏在这句里。

【替换】 pledged to become the first carbon neutral city in the UK ↔

pledged to take the lead in reducing carbon emissions in the UK

「第一个碳中和」=「带头减排」

【排除】 A) 原词陷阱

A 盗用了录音 the new national target of 2045 里的 national target 一词，编出「苏格兰将提前达成全国减排目标」。但录音只说格拉斯哥要「赶在 2045 全国目标之前 (ahead of)」实现零碳，是这一座城市立下承诺，并非「苏格兰整体将提前达标」，属听到 target 就想选的陷阱。

借用原文：the new national target of 2045

B) 答非所问

B 盗用了录音多次出现的 ScottishPower 和 Glasgow City Council，说成「市议会与 ScottishPower 就碳排放达成一桩交易」。录音里二者确有合作 (announced a range of strategies)，但新闻主旨是「格拉斯哥承诺成为英国首个零碳城市」这件大事，B 把主旨缩成一个次要的「达成 deal」细节，以偏概全。

借用原文：The city's council and ScottishPower have announced a range of strategies

D) 张冠李戴

D 盗用了录音里的 First Minister Nicola Sturgeon 和 ScottishPower 两个专名，编成「Sturgeon 敦促 ScottishPower 减排」。但录音里 Sturgeon 是 welcomed the pledge (对承诺表示欢迎)，并没有「敦促」ScottishPower，方向与事实都不符，是把人名拼凑成假信息的张冠李戴。

借用原文：First Minister Nicola Sturgeon welcomed the pledge

4. A) Glasgow needs to invest in new technologies to reach its goal.
B) Glasgow is going to explore new sources of renewable energy.
C) Stricter regulation is needed in transforming Glasgow's economy.
D) It's necessary to create more low-emission zones as soon as possible.

【题目】 What did ScottishPower's chief executive say ahead of the All Energy Conference?

【翻译】 ScottishPower的首席执行官在All Energy Conference之前说了什么？

- A) Glasgow需要投资新技术才能实现其目标。 B) Glasgow将探索可再生能源的新来源。
C) 在转变Glasgow经济方面需要更严格的监管。 D) 有必要尽快建立更多低排放区。

【答案】 A (细节题) Glasgow needs to invest in new technologies to reach its goal.

【定位】 Now, we need to invest in the technologies and programmes that transform the rest of Glasgow's economy and make us net zero before anyone else.

现在，我们需要投资于那些能够改造格拉斯哥其余经济、让我们比任何人都更早实现净零排放的技术与项目。

【信号】 主张句 we need to... 是落点。信号是说话人亲口的主张句 we need to invest in the technologies and programmes: 题问「他说了什么」，答案就在他原话里 we need to (我们需要) 这个表态结构后面，这是观点的直接落点。

【替换】 we need to invest in the technologies and programmes ↔

Glasgow needs to invest in new technologies to reach its goal

「投资于技术」原意保留，仅换措辞

make us net zero before anyone else ↔ to reach its goal

「率先实现净零」概括成「达成目标」

【排除】 B) 原词陷阱

B 盗用了录音 a large supply of renewable energy 里的 renewable energy。但说话人说的是「我们已经拥有大量可再生能源」，是现状陈述，并非主张「去探索新的可再生能源来源 (explore new sources)」。听到 renewable energy 就选 B 正中圈套。

借用原文：We have a large supply of renewable energy on our doorstep

C) 未提及

C 说「改造格拉斯哥经济需要更严格的监管 (Stricter regulation)」。录音里说话人主张的是 invest in the technologies and programmes (投资技术与项目)，从头到尾没提 regulation 或加强监管，C 属录音根本没说的内容。

D) 原词陷阱

D 盗用了录音 one of the only two low emission zones in action 里的 low emission zones。但说话人是把「已经在运行的低排放区」当作格拉斯哥的现有优势来陈述，并没有主张「有必要尽快多建低排放区 (create more ... as soon as possible)」，是把现状包装成主张的陷阱。

借用原文：one of the only two low emission zones in action across the UK

Questions 5 to 7 are based on the news report you have just heard.

1 A Japanese IT firm has officially introduced an "office cat" policy to combat the stressful environment of the workplace.

一家日本IT公司正式推出了"办公室猫"政策,以应对压力重重的工作环境。

2 A total of nine furry friends freely wander around in the office and do whatever their little hearts desire.

共有九只毛茸茸的朋友在办公室里自由走动,做着它们内心想做的任何事情。

3 Hidenobu Fukuda, who heads the firm, introduced the pet policy, upon request from one of his employees, allowing staff to bring their own cats to work.

公司负责人Hidenobu Fukuda应一位员工的要求推出了这项宠物政策,允许员工将自己的猫带到工作场所。

4 Employee Eri Ito is grateful for their animals' comforting ways. "Cats are sleeping just beside us. It's healing," she said. Not only does Fukuda encourage bringing cats to the job, but he also encourages his employees to rescue cats from overpopulated shelters or streets. He gives 5,000 yen, about 45 US dollars a month to those who rescue a cat.

员工Eri Ito对这些动物带来的慰藉心怀感激。她说:"猫就睡在我们身边,这很治愈。"Fukuda不仅鼓励员工带猫上班,还鼓励员工从过度拥挤的收容所或街头救助猫。他每月向救助猫的员工提供5000日元,约合45美元。

5 While the positives are many, there are still some obstacles. "Sometimes a cat will walk on a phone and cut off the call, or they shut down the computers by walking onto the off switch," Ito says.

虽然好处很多,但仍存在一些障碍。Ito说:"有时猫会走到电话上挂断通话,或者它们走到关机开关上把电脑关掉。"

6 Still, cats in the workplace have been a tremendous success for the company. The policy has led to various other companies doing the same.

尽管如此,办公室里的猫对公司来说仍是一项巨大的成功。这项政策促使其他多家公司也采取了同样的做法。

5. A) It donates money to overpopulated animal shelters.

B) It permits employees to bring cats into their office.

C) It gives 5,000 yen to employees who keep pet cats.

D) It allows workers to do whatever their hearts desire.

【题目】 What do we learn from the news report about the Japanese IT firm?

【翻译】 从新闻报道中我们了解到这家日本IT公司的什么情况?

A) 它向动物数量过多的收容所捐款。 B) 它允许员工把猫带到办公室。

C) 它给养宠物猫的员工发放5000日元。 D) 它允许员工做任何他们心里想做的事。

【答案】 B (细节题) It permits employees to bring cats into their office.

【定位】 Hidenobu Fukuda, who heads the firm, introduced the pet policy, upon request from one of his employees, allowing staff to bring their own cats to work.

公司负责人福田秀信应一名员工的请求，推出了这项宠物政策，允许员工把自己的猫带来上班。

【信号】 **政策核心句直陈**。这句用 allowing staff to bring their own cats to work 直接点明政策内容"允许员工带猫上班"，是新闻开头交代"政策是什么"的核心陈述句，无需转折，顺听到"allowing staff..."即可锁定。

【替换】 allowing staff to bring their own cats to work ↔

It permits employees to bring cats into their office

allowing≈permits、staff≈employees

【排除】 A) **张冠李戴**

原文确实提到 shelters，也提到给钱，但给钱的对象是"救猫的员工"而非"收容所"。本项 It donates money to overpopulated animal shelters. 把"给员工"偷换成"给收容所"，盗用了原文 overpopulated shelters 这个词来骗你。

借用原文：rescue cats from overpopulated shelters or streets

C) **原词陷阱**

原文的 5,000 yen 是发给"救助了猫的人"，不是发给"养宠物猫的员工"。本项 It gives 5,000 yen to employees who keep pet cats. 照搬了 5,000 yen 这个醒目数字，却把领钱条件从"rescue a cat"换成"keep pet cats"，属听到数字就想选的原词陷阱。

借用原文：He gives 5,000 yen, about 45 US dollars a month to those who rescue a cat

D) **原词陷阱**

原文 do whatever their little hearts desire 的主语是猫 (furry friends)，形容猫在办公室自由活动。本项 It allows workers to do whatever their hearts desire. 几乎原句照抄，却把主语从"猫"偷换成"workers (员工)"，是典型原词陷阱。

借用原文：do whatever their little hearts desire

6. A) Keep cats off the street.

B) Rescue homeless cats.

C) Volunteer to help in animal shelters.

D) Contribute to a fund for cat protection.

【题目】 **What does Fukuda encourage his employees to do?**

【翻译】 Fukuda鼓励他的员工做什么？

A) 让猫远离街道。 B) 救助流浪猫。 C) 自愿到动物收容所帮忙。

D) 向猫保护基金捐款。

【答案】 **B** (细节题) Rescue homeless cats.

【定位】 Not only does Fukuda encourage bringing cats to the job, but he also encourages his employees to rescue cats from overpopulated shelters or streets.

福田不仅鼓励员工把猫带来上班，还鼓励他们去救助来自爆满的收容所或街上的流浪猫。

【信号】 **encourages**领起的鼓励句。题干问 encourage 什么，原文里正好两次出现 encourage, answer 落在 he also encourages his employees to 后面跟的动词 rescue cats from overpopulated shelters or streets, 听到"encourages...to rescue"即可锁定。

【替换】 rescue cats from overpopulated shelters or streets ↔ **Rescue homeless cats**
from shelters or streets≈homeless

【排除】 A) **与原文相反**

原文说的是把街上的猫"救回来 (rescue from streets) ", 本项 Keep cats off the street. 借用了"街"这个意象，却说成"让猫别上街", 动作方向正好相反。

借用原文: rescue cats from overpopulated shelters or streets

C) **原词陷阱**

本项 Volunteer to help in animal shelters. 盗用了原文出现的 shelters, 但原文只说"从收容所救猫", 从没说鼓励员工"去收容所做义工"。听到 shelters 就选 C, 正中原词陷阱。

借用原文: rescue cats from overpopulated shelters or streets

D) **偷换概念**

原文是"公司给救猫的员工 5,000 日元", 钱是公司发出去的; 本项 Contribute to a fund for cat protection. 却说成"员工往护猫基金捐钱", 把给钱方向倒置, 且"基金"原文从未出现。

借用原文: He gives 5,000 yen, about 45 US dollars a month to those who rescue a cat

-
7. A) It has contributed tremendously to the firm's fame.
B) It has helped a lot to improve animals' well-being.
C) It has led some other companies to follow suit.
D) It has resulted in damage to office equipment.

【题目】 What does the news report say about the firm's policy?

【翻译】 新闻报道对该公司政策有何评价?

- A) 它极大地提升了公司的知名度。 B) 它对改善动物福祉帮助很大。
C) 它促使其他一些公司效仿。 D) 它导致了办公设备的损坏。

【答案】 **C** (细节题) It has led some other companies to follow suit.

【定位】 Still, cats in the workplace have been a tremendous success for the company. The policy has led to various other companies doing the same.

尽管如此，办公室养猫对这家公司而言已是巨大的成功。这项政策还促使其他多家公司纷纷效仿。

【信号】**结尾Still转折后的总评。**末段以 Still 转折，把前一段的"小麻烦"翻过去，落到对政策的总评"a tremendous success"，紧接 The policy has led to various other companies doing the same 是结果句——新闻结尾的转折+收束，正是答案所在。

【替换】The policy has led to various other companies doing the same ↔

It has led some other companies to follow suit

doing the same≈follow suit

【排除】A) **过度推断**

原文只说政策是 a tremendous success (巨大成功)，并未说提升了公司"名气"。本项 It has contributed tremendously to the firm's fame. 盗用了 tremendous 这个词，把"成功"擅自推成"出名"，属听到 tremendous 就想选的原词陷阱叠加过度推断。

借用原文：cats in the workplace have been a tremendous success for the company

B) **未提及**

本项 It has helped a lot to improve animals' well-being. 听着与"救助流浪猫"沾边，但新闻评价政策结果时讲的是"对公司的成功"和"被别家效仿"，并没有评价它"改善了动物福祉"，这句结论原文未提。

D) **原词陷阱**

原文确有猫踩电话、踩关机键的内容，但那被归为 some obstacles (一些小障碍)，且被末段 Still 转折掉，并非对政策的总体评价。本项 It has resulted in damage to office equipment. 盗用了"电脑/电话"这段细节冒充总评，属原词陷阱。

借用原文：they shut down the computers by walking onto the off switch

Section B

Directions: In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 8 to 11 are based on the conversation you have just heard.

1 M: Has Jimmy been coming in lately?

M: Jimmy 最近有来吗?

2 W: No, I haven't seen him around. Why? Has he been causing any trouble?

W: 没有，我没见他在附近。怎么了？他惹什么麻烦了吗？

3 M: Not that I know of. But I need to see him, because my friends and I lent him some money last month. We haven't heard from him since. I heard he comes here a lot, so I thought I'd come in and check with you.

M: 据我所知没有。但我需要见他，因为上个月我和朋友们借了他一些钱。从那以后就没他消息了。我听说他经常来这儿，所以想过来问问你。

4 W: Well, that's funny. Some other fellow came in asking for Jimmy just yesterday, a real nervous, pushy type of fellow, saying he needed Jimmy for some study project they were working on. But I can't quite remember what it was all about. Is this a lot of money we're talking about here?

W: 嗯，这倒挺有意思。就在昨天还有个人来找 Jimmy，一个特别紧张、咄咄逼人的家伙，说他需要找 Jimmy 完成他们一起做的什么学习项目。但我记不太清具体是什么了。你们说的是一大笔钱吗？

5 M: No, just 60 pounds between the three of us, but still a bit too much to just let go. He told us he'd got into an accident. Nothing serious, mind you, but he damaged someone's car and wanted to get some money together to make up for the damage he'd caused.

M: 不是，我们三个人一共就 60 英镑，但也不至于就这么算了。他告诉我们他出了个事故。不严重，你知道，但他撞坏了别人的车，想凑点钱赔偿他造成的损失。

6 W: Hmm, isn't that sort of thing usually covered by insurance? And then, if you still wanted to give money as some sort of apology or something, he probably shouldn't have to go around borrowing it from people.

W: 嗯，这种事不是通常都有保险赔吗？而且就算你还想给钱作为某种道歉什么的，他也不应该到处找人借钱吧。

7 M: You think Jimmy's just making it all up? See, I did think it was a bit weird for him to be asking for money for that sort of thing. And his story was a bit vague to begin with. But I thought maybe he doesn't want his parents to know about what happened. So he'd rather come to us and keep things quiet. Anyway, Jimmy is a good guy. So we didn't make a fuss about it.

M: 你觉得 Jimmy 是编出来的？你看，我当时确实觉得他为这种事要钱有点奇怪。而且他的说法一开始就挺含糊的。但我想也许他不想让父母知道发生了什么，所以宁愿来找我们，把事情压下来。不管怎样，Jimmy 是个好人，所以我们也没多计较。

8. A) Find out where Jimmy is.
B) Borrow money from Jimmy.
C) Make friends with Jimmy.
D) Ask Jimmy what is to be done.

【题目】 What does the man want to do?

【翻译】 这位男士想做什么？

- A) 找出 Jimmy 在哪里。 B) 向 Jimmy 借钱。 C) 和 Jimmy 交朋友。
D) 问 Jimmy 该做什么。

【答案】 A (细节题) Find out where Jimmy is.

【定位】 But I need to see him, because my friends and I lent him some money last month. We haven't heard from him since. I heard he comes here a lot, so I thought I'd come in and check with you.

可我得见到他，因为上个月我和朋友们借给了他一些钱，之后就一直没他的消息。我听说他常来这儿，所以想着进来跟你打听一下。

【信号】 **I need to see him 直陈来意。** 答案信号是男士直接道出目的的句子 I need to see him, 加上 I thought I'd come in and check with you——"来打听、确认他的下落"。这是说话人主动交代意图的应答, 听到 need to / I thought I'd 就该锁定。

【替换】 I thought I'd come in and check with you ↔ **Find out where Jimmy is.**
check with you=find out where

【排除】 B) **原词陷阱**

录音里钱是男士他们"借给"Jimmy (lent him some money), 不是向 Jimmy 借。选项 Borrow money from Jimmy. 盗用了"money"和借钱情节, 却把方向倒过来, 答非所问。
借用原文: lent him some money

C) **未提及**

男士只想找到 Jimmy 把欠款的事说清, 全程没有"和 Jimmy 交朋友"之意; Make friends with Jimmy. 是凭空添加的。

D) **偷换概念**

男士是来"打听 Jimmy 在哪", 不是要"问 Jimmy 该怎么处理"; Ask Jimmy what is to be done. 借用了"找 Jimmy、解决问题"的氛围, 却把"找到他"偷换成"向他请教对策"。

-
9. A) He was unsure what kind of fellow Jimmy was.
B) He was working on a study project with Jimmy.
C) He wanted to make a sincere apology to Jimmy.
D) He wanted to invite her to join in a study project.

【题目】 **What do we learn about the man who came to see the woman yesterday?**

【翻译】 关于昨天来看这位女士的男士,我们了解到什么?

- A) 他不确定Jimmy是什么样的人。 B) 他正在和Jimmy一起做一个研究项目。
C) 他想向Jimmy真诚地道歉。 D) 他想邀请她加入一个研究项目。

【答案】 **B** (细节题) He was working on a study project with Jimmy.

【定位】 Some other fellow came in asking for Jimmy just yesterday, a real nervous, pushy type of fellow, saying he needed Jimmy for some study project they were working on.

就在昨天, 另有一个家伙进来打听 Jimmy, 一个特别紧张、咄咄逼人的家伙, 说他需要 Jimmy 一起做他们正在搞的一个学习项目。

【信号】 **some other fellow 引入新角色。** 答案信号是引入新人物的标志句 Some other fellow came in asking for Jimmy just yesterday, 紧接着 saying he needed Jimmy for some study project they were working on 就是对他的正面交代。听到"another/some other fellow"就知道题目问的人来了。

【替换】 he needed Jimmy for some study project they were working on ↔
He was working on a study project with Jimmy.

几乎直述, 仅换说法

【排除】 A) 张冠李戴

对 Jimmy 是个什么人拿不准的是男士本人（后文 I did think it was a bit weird），不是昨天来的那个人；He was unsure what kind of fellow Jimmy was. 把感受安错了人头。

借用原文：a real nervous, pushy type of fellow

C) 原词陷阱

"道歉"出现在女士对 Jimmy 撞车一事的猜测里（if you still wanted to give money as some sort of apology），与昨天来的这个人无关；He wanted to make a sincere apology to Jimmy. 盗用了 apology 一词错接到他身上。

借用原文：some sort of apology

D) 偷换概念

录音说他需要 Jimmy 来做项目（he needed Jimmy for some study project），不是邀请女士加入；He wanted to invite her to join in a study project. 借用 study project 却把对象从 Jimmy 偷换成 her。

借用原文：he needed Jimmy for some study project

-
10. A) He got a ticket for speeding.
B) He got his car badly damaged.
C) He was involved in a traffic accident.
D) He had an operation for his injury.

【题目】 What did Jimmy say happened to him one day?

【翻译】 Jimmy说有一天他发生了什么事？

- A) 他因超速而被开罚单。 B) 他的车严重损坏了。 C) 他卷入了一起交通事故。
D) 他因受伤做了手术。

【答案】 C（细节题） He was involved in a traffic accident.

【定位】 He told us he'd got into an accident. Nothing serious, mind you, but he damaged someone's car and wanted to get some money together to make up for the damage he'd caused.

他跟我们说他出了一场事故。不严重，注意啊，但他撞坏了别人的车，想凑点钱来赔偿他造成的损失。

【信号】 He told us he'd got into an accident 转述。 答案信号是男士转述 Jimmy 原话的句子 He told us he'd got into an accident——"told us"标明这是 Jimmy 说自己遇到的事，正对题干"Jimmy say happened to him"。听到"He told us..."就锁定。

【替换】 he'd got into an accident ↔ **He was involved in a traffic accident.**
got into=be involved in

【排除】 A) 未提及

Jimmy 只说出了事故、撞坏别人车，从没提"超速被开罚单"；He got a ticket for speeding. 是凭空添加的情节。

B) 原词陷阱

录音是 he damaged someone's car，撞坏的是"别人的车"；He got his car badly damaged. 盗用 damaged/car，却把"别人的车"偷换成"他自己的车"，所属关系反了。

借用原文：he damaged someone's car

D) 过度推断

录音明说 Nothing serious，受伤动手术更无从谈起；He had an operation for his injury. 借"accident"联想到受伤手术，属过度推断。

11. A) He needed to make some donations to charity.

B) He found the 60 pounds in his pocket missing.

C) He wanted to buy a gift for his mother's birthday.

D) He wanted to conceal something from his parents.

【题目】 Why did Jimmy borrow money according to the man?

【翻译】 根据这位男士所说,Jimmy为什么借钱?

A) 他需要向慈善机构捐款。 B) 他发现口袋里的60英镑不见了。

C) 他想为母亲的生日买一份礼物。 D) 他想向父母隐瞒某事。

【答案】 D (细节题) He wanted to conceal something from his parents.

【定位】 But I thought maybe he doesn't want his parents to know about what happened. So he'd rather come to us and keep things quiet.

但我当时想，也许他是不想让父母知道这件事，所以他宁愿来找我们，把事情悄悄了结。

【信号】 But I thought...So... 男士给出原因。 答案信号是转折 But 之后男士自己的推断 But I thought maybe he doesn't want his parents to know about what happened，加因果 So。题干限定 according to the man，而这正是男士 (the man) 给出的原因，转折+因果信号双重锁定。

【替换】 he doesn't want his parents to know about what happened ↔

He wanted to conceal something from his parents.

not want parents to know=conceal from parents

【排除】 A) 未提及

全程没有"捐款给慈善"之说; He needed to make some donations to charity. 是凭空添加。

B) 原词陷阱

录音里 just 60 pounds between the three of us 说的是三人借出的总额, 不是 Jimmy"口袋里丢了 60 镑"; He found the 60 pounds in his pocket missing. 盗用数字 60 pounds 编造"丢钱"情节。

借用原文: just 60 pounds between the three of us

C) 未提及

借钱缘由是赔偿撞车、瞒着父母, 从无"为母亲生日买礼物"; He wanted to buy a gift for his mother's birthday. 凭空捏造。

Questions 12 to 15 are based on the conversation you have just heard.

1 W: Hi, Max. How are you? Listen. I wanted to ask you about ordering shopping online. I've never done it before and I know that you've been doing it for ages.

W: 嗨,Max。你好吗?听着,我想问你关于网上购物的事。我以前从来没试过,我知道你已经用了很久了。

2 M: Sure. I love getting my shopping delivered. It makes life so much simpler—no carrying heavy shopping bags in the rain, or trying to park the car on those huge supermarket car parks then not being able to find it again after you come out of the shops.

M: 当然。我很喜欢送货上门。这让生活简单多了——不用在雨天提着沉重的购物袋,也不用在那些超大的超市停车场停车,然后从商店出来后又找不到自己的车。

3 W: But there must be some problems. I mean, how do you know that you won't get bad fruit, or that the eggs won't be broken?

W: 但肯定会有些问题吧。我是说,你怎么知道不会买到坏水果,或者鸡蛋不会破呢?

4 M: Oh, come on. The food is exactly the same as the stuff you buy in a conventional shop. They aren't going to deliver you food that is out of date. And if you get a broken egg, well, that could happen in a conventional shop, too. If anything is really wrong, you can just take photographs of the damage, and they will give you the money back or replace the item.

M: 哦,别这样。食物和你在传统商店买的东西完全一样。他们不会给你送过期的食品。如果你收到破损的鸡蛋,这在传统商店也可能发生。如果真的有什么问题,你可以拍下损坏的照片,他们会退钱或者换货。

5 W: How about delivery fees? Is it not more expensive to get everything delivered?

W: 配送费怎么样?送货上门不是更贵吗?

6 M: I actually found that it was cheaper for me, as I live quite far away from my local supermarket. So with the deliveries, I'm actually saving on petrol.

M: 实际上我发现对我来说更便宜,因为我住得离本地超市挺远的。所以有了配送服务,我实际上还节省了汽油费。

7 W: I've never thought of that. If you aren't driving your own car, then you are saving on fuel. Right, you've convinced me. I'm going to go on the computer now and give it a try. So, which supermarket do you think is the best to order from?

W: 我从没想过这一点。如果你不开自己的车,那就省了油钱。好吧,你说服我了。我现在就去电脑上试试。那么,你觉得哪家超市最值得下单?

8 M: Oh, no. That's definitely up to you. Otherwise, we'll be here all day.

M: 哦,不。那肯定要你自己决定。否则,我们得在这儿待一整天了。

12. A) Shopping delivery.

B) Shopping online.

C) Where he goes shopping.

D) How often he does shopping.

【题目】 What did the woman want to ask Max about?

【翻译】 女士想问Max什么事情?

A) 购物配送。 B) 网上购物。 C) 他去哪里购物。 D) 他多久购物一次。

【答案】 B (细节题) Shopping online.

【定位】 I wanted to ask you about ordering shopping online.

我想问问你关于网上下单购物的事。

【信号】 开场 "I wanted to ask you about..." 直接点题。 女方开口的 I wanted to ask you about ordering shopping online 用 "I wanted to ask you about..." 这一典型的挑明话题句式, 直接交代了她来请教的事, 是开场点题信号。

【替换】 ordering shopping online ↔ **Shopping online**
ordering shopping online 压缩为 Shopping online

【排除】 A) 原词陷阱

下文 I love getting my shopping delivered 反复出现 "送货" 一词, Shopping delivery 正是盗这个原词。但女方开口请教的话题是 "网购" (online), 送货只是网购的一个环节、是男方后面才展开的内容, 并非她问的主题, 答非所问。

借用原文: I love getting my shopping delivered

C) 答非所问

录音结尾女方才问 which supermarket do you think is the best to order from (去哪家订), Where he goes shopping 像是套这处 "where/哪家", 但那是对话末尾她自己抛出的新问题, 而非她一开始来请教的主题; 且问的是 "哪家超市" 不是 "他在哪买", 方向也偏。

借用原文: which supermarket do you think is the best to order from

D) 未提及

How often he does shopping 问购物频率, 但全篇没有任何关于 "多久买一次" 的内容, 是利用选项里 shopping 一词凑出的无中生有项。

13. A) Searching in the aisles.
B) Dealing with the traffic.
C) Driving too long a distance.
D) Getting one's car parked.

【题目】 What does the man think is a problem with shopping in supermarkets?

【翻译】 男士认为在超市购物有什么问题？

A) 在过道里寻找商品。 B) 应对交通状况。 C) 开车距离太远。 D) 停车。

【答案】 D (细节题) Getting one's car parked.

【定位】 It makes life so much simpler—no carrying heavy shopping bags in the rain, or trying to park the car on those huge supermarket car parks then not being able to find it again after you come out of the shops.

(送货上门) 让生活简单多了——不用在雨里拎沉甸甸的购物袋，也不用费劲把车停进超市那些巨大的停车场、逛完店出来又找不到车。

【信号】 他用"再也不用....."反衬出实体购物的麻烦。男方夸网购好时，用一串 "no..."、"trying to... then not being able to..." 反衬实体购物的烦恼，其中 trying to park the car on those huge supermarket car parks then not being able to find it again 把 "停车难、停完找不到车" 当成最具体的一桩麻烦点出，此处对比式抱怨就是答案信号。

【替换】 trying to park the car on those huge supermarket car parks then not being able to find it again ↔
Getting one's car parked

把停车找车的长句概括为Getting one's car parked

【排除】 A) **未提及**

Searching in the aisles (在超市货架通道里找东西) 是实体购物常见的麻烦联想，但录音里男方只抱怨了拎袋子和停车，从没提过 "在货架间找东西"，属凭常识补出来的未提及项。

B) **偷换概念**

录音出现 park the car on those huge supermarket car parks，满是 car、car parks 等开车相关词，Dealing with the traffic 借这股 "开车" 气味把麻烦偷换成 "应付交通/堵车"，可录音说的是 "停车找不到车"，不是路上交通，概念被换了。

借用原文：trying to park the car on those huge supermarket car parks

C) **张冠李戴**

Driving too long a distance (开太远) 像是搭后文 I live quite far away from my local supermarket 的 "住得远"，但那是男方在第6段讲网购更省钱时提的省油背景，并非他这里点名的实体购物麻烦；本题问的麻烦是停车，不是开车距离，张冠李戴了。

借用原文：I live quite far away from my local supermarket

14. A) The after-sales service.
B) The replacement policy.
C) The quality of food products.
D) The damage to the packaging.

【题目】 What is the woman's concern about shopping online?

【翻译】 女士对网上购物有什么顾虑?

A) 售后服务。 B) 退换政策。 C) 食品的质量。 D) 包装的损坏。

【答案】 C (细节题) The quality of food products.

【定位】 But there must be some problems. I mean, how do you know that you won't get bad fruit, or that the eggs won't be broken?

但肯定有些问题吧。我是说，你怎么知道不会收到坏掉的水果，或者鸡蛋不会碎呢？

【信号】 转折But+反问how do you know引出疑虑。女方用 But there must be some problems 的转折先表态有顾虑，再用 how do you know that you won't get bad fruit 的反问点出具体担心，转折 But 加反问句是她抛出 concern 的双重信号。

【替换】 bad fruit, or that the eggs won't be broken ↔ The quality of food products

坏水果\碎鸡蛋上升为食品质量

【排除】 A) 答非所问

The after-sales service (售后服务) 像是搭男方后文 they will give you the money back or replace the item 的处理措施，但那是男方解释 "出问题怎么办"，不是女方的担心；况且女方担心的是收到坏东西本身，不是售后，答非所问。

借用原文：they will give you the money back or replace the item

B) 原词陷阱

录音男方说 replace the item (换货)，The replacement policy (退换政策) 正是盗 replace 这个原词。但那是男方的解决办法，不是女方的担心；女方的 concern 是食物质量，不是退换政策，原词陷阱。

借用原文：they will give you the money back or replace the item

D) 偷换概念

女方提到 the eggs won't be broken (鸡蛋别碎)，The damage to the packaging (包装破损) 借这个 broken 把 "食物本身坏/碎" 偷换成 "外包装破损"。可她担心的是水果坏、蛋碎这种食物质量，不是包装，概念被悄悄换了。

借用原文：the eggs won't be broken

15. A) It saves money.
B) It offers more choice.
C) It increases the joy of shopping.
D) It is less time-consuming.

【题目】 What does the man find about shopping online?

【翻译】 男士发现网上购物有什么特点?

A) 省钱。 B) 提供更多选择。 C) 增加购物的乐趣。 D) 更省时间。

【答案】 A (细节题) It saves money.

【定位】 I actually found that it was cheaper for me, as I live quite far away from my local supermarket. So with the deliveries, I'm actually saving on petrol.

我其实发现对我来说(网购)更便宜,因为我住得离本地超市挺远的。所以靠送货上门,我其实省下了油钱。

【信号】 I found that+cheaper\saving的结论评价句。男方用 I actually found that it was cheaper for me 直接下结论, 又用 I'm actually saving on petrol 点明省的是油钱, "I found that..." 加比较级 cheaper、saving 是给网购下正面结论的答案信号。

【替换】 it was cheaper for me ↔ It saves money

cheaper等于saves money

I'm actually saving on petrol ↔ It saves money

saving on petrol是saves money的具体落点

【排除】 B) 未提及

It offers more choice (网购选择更多) 是网购公认的好处之一, 但录音里男方只讲了省钱、省力、食品一样好, 从没提过 "选择多", 属凭常识补的未提及项。

C) 过度推断

男方开头说 I love getting my shopping delivered, It increases the joy of shopping (增加购物乐趣) 像是顺着这个 "love" 推出来的, 但 "喜欢送货上门" 不等于 "购物变得更快乐", 且本题问的是他 find 的好处, 他明确 find 的是省钱, 把喜好夸大成乐趣属过度推断。

借用原文: I love getting my shopping delivered

D) 偷换概念

录音说网购 makes life so much simpler, It is less time-consuming (更省时) 像是从 "生活更简单、不用拎袋停车" 推出的省时, 但 "省力、简单" 不等于 "省时间", 而他明确 find 的好处是 cheaper (省钱), 把省力偷换成省时了。

借用原文: It makes life so much simpler

Section C

Directions: In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 16 to 18 are based on the passage you have just heard.

1 A recent study found that 10 percent of British children suffer from math anxiety. This means they have overwhelming negative emotions towards the subject, ranging from rage to despair. Other emotions triggered by math include feelings of "tension and frustration". Physical symptoms include a racing heart or struggling to catch breath.

最近一项研究发现,10%的英国儿童患有数学焦虑症。这意味着他们对这门学科有压倒性的负面情绪,从愤怒到绝望不等。数学引发的其他情绪还包括"紧张和挫败感"。生理症状包括心跳加速或呼吸困难。

2 The phenomenon of math anxiety is characterized as a general sense of feeling that the subject is hard compared with other subjects leading to a subsequent lack or loss of confidence.

数学焦虑现象的特征是一种普遍的感觉,即认为这门学科比其他学科更难,从而导致信心不足或丧失信心。

3 Researchers said they investigated individuals' attitudes towards mathematics because of what could be referred to as a mathematics crisis in the UK. There's a widespread misunderstanding that only low performing children suffer from math anxiety. People automatically assume children are anxious about math because they are poor achievers.

研究人员表示,他们之所以调查个人对数学的态度,是因为英国可以称之为数学危机的现象。人们普遍误解只有成绩差的儿童才会患有数学焦虑症。人们自动认为儿童对数学感到焦虑是因为他们成绩不好。

4 In fact, more than three quarters of children with high levels of math anxiety are normal to high achievers.

事实上,超过四分之三有高度数学焦虑的儿童是正常到高水平的成就者。

5 Probably their math anxiety will go unnoticed because their performance is good. But in the long term their performance is negatively affected.

他们的数学焦虑可能不会被注意到,因为他们的成绩很好。但从长远来看,他们的表现会受到负面影响。

6 So the real danger here is that children who will be completely able to do math at a normal level may keep away from it because they feel anxious.

所以真正的危险在于,完全有能力达到正常水平做数学的儿童可能会远离它,因为他们感到焦虑。

7 Math anxiety can severely disrupt students' performance in the subject in both primary and secondary school. But importantly—and surprisingly—this new study suggests that the majority of students experiencing math anxiety have normal to high math ability.

数学焦虑会严重扰乱学生在小学和中学阶段这门学科的表现。但重要的是——也令人惊讶的是——这项新研究表明,大多数经历数学焦虑的学生具有正常到较高的数学能力。

16. A) They have little talent for learning math.
B) They need medical help for math anxiety.
C) They need extra help to catch up in the math class.
D) They have strong negative emotions towards math.

【题目】 What did a recent study find about some British children?

【翻译】 最近一项研究发现了英国儿童的什么情况？

- A) 他们学习数学的天赋很少。 B) 他们需要医疗帮助来应对数学焦虑。
C) 他们需要额外帮助才能在数学课上赶上进度。 D) 他们对数学有强烈的负面情绪。

【答案】 D (细节题) They have strong negative emotions towards math.

【定位】 A recent study found that 10 percent of British children suffer from math anxiety. This means they have overwhelming negative emotions towards the subject, ranging from rage to despair.
最近一项研究发现，10% 的英国孩子受数学焦虑困扰。这意味着他们对这门学科怀有压倒性的负面情绪，从暴怒到绝望不等。

【信号】 found 后接结论加 This means 解释。信号有两层：先是 A recent study found that 直接打出「研究发现」的旗号，这后面就是答案区；紧接着 This means they have overwhelming negative emotions towards the subject 用 This means 把「数学焦虑」翻译成大白话——正是这句「换种说法解释」给出了答案。听到 found 锁定区域、听到 This means 锁定那一句。

【替换】 overwhelming negative emotions towards the subject ↔ strong negative emotions towards math
overwhelming=strong、the subject=math
ranging from rage to despair ↔ strong negative emotions
rage 到 despair 是 negative emotions 的具体化

【排除】 A) 原词陷阱

little talent for learning math 借了话题词 math 来制造熟悉感，但录音通篇讲的是「情绪」，从没说这些孩子「缺乏天赋」——恰恰相反，后文还强调他们能力中上。这是把「焦虑」想当然地等同于「没天赋」的常识误判。

借用原文：suffer from math anxiety

B) 原词陷阱

medical help for math anxiety 原样搬来录音的 math anxiety，又把后文的身体症状 a racing heart or struggling to catch breath 误读成「需要医疗帮助」。但录音只是描述症状，从没说这些孩子需要看病求医，属于借原词、推过头。

借用原文：a racing heart or struggling to catch breath

C) 未提及

extra help to catch up in the math class 蹭了 math 这个话题，但「需要额外帮助跟上数学课」在录音里完全没有对应——录音讲的是情绪，不是学业进度落后。属于无中生有的干扰。

17. A) It will gradually pass away without teachers' help.
B) It affects low performing children only.
C) It is related to a child's low intelligence.
D) It exists mostly among children from poor families.

【题目】 What is the widespread misunderstanding about math anxiety?

【翻译】 关于数学焦虑的普遍误解是什么？

- A) 它会在没有教师帮助的情况下逐渐消失。 B) 它只影响成绩差的儿童。
C) 它与儿童的低智商有关。 D) 它主要存在于来自贫困家庭的儿童中。

【答案】 B (细节题) It affects low performing children only.

【定位】 There's a widespread misunderstanding that only low performing children suffer from math anxiety. People automatically assume children are anxious about math because they are poor achievers.

存在一种普遍的误解：认为只有成绩差的孩子才会有数学焦虑。人们想当然地以为孩子焦虑是因为他们成绩差。

【信号】 widespread misunderstanding that 直接引出误解内容。信号词是 a widespread misunderstanding that——它和题干用词几乎一模一样，that 后面那句就是误解的具体内容。紧跟的 People automatically assume 再用「人们想当然地以为」把同一误解复述一遍，进一步坐实。听到 misunderstanding that 就锁后半句。

【替换】 only low performing children suffer from math anxiety ↔

It affects low performing children only

suffer from 换成 affects, 主被动对调

【排除】 A) 未提及

It will gradually pass away without teachers' help. 说焦虑会在没有老师帮助下自行消退——录音从没这么说，反而强调 in the long term their performance is negatively affected (长期看会损害成绩)。属于录音没提、且与原意相悖的编造。

C) 偷换概念

It is related to a child's low intelligence. 借了录音 low performing 里的 low, 把「成绩差 (low performing / poor achievers)」偷换成了「智力低 (low intelligence)」。录音谈的是学业表现，从没说焦虑跟智商有关，是典型的偷换概念。

借用原文：only low performing children

D) 原词陷阱

It exists mostly among children from poor families. 蹭了话题词 children, 又把录音的 poor achievers (成绩差的人) 误读成 poor families (贫困家庭)——poor 一词两义被混用。录音从未把焦虑和家庭贫富挂钩，属误读原词。

借用原文：they are poor achievers

18. A) Most of them have average to strong math ability.
B) Most of them get timely help from their teachers.
C) They will regain confidence with counselling.
D) They are mostly secondary school students.

【题目】 What does the passage say about British students with math anxiety?

【翻译】 文章关于有数学焦虑的英国学生说了什么？

- A) 他们中的大多数具有中等到较强的数学能力。
B) 他们中的大多数从老师那里得到及时的帮助。 C) 他们通过咨询会重新获得信心。
D) 他们大多数是中学生。

【答案】 A (细节题) Most of them have average to strong math ability.

【定位】 But importantly—and surprisingly—this new study suggests that the majority of students experiencing math anxiety have normal to high math ability.

但重要而且令人意外的是，这项新研究表明，大多数有数学焦虑的学生其实拥有正常到较高的数学能力。

【信号】 But 加 importantly 加 surprisingly 三重强调收尾。信号极强：But importantly—and surprisingly 同时用了转折 but、强调 importantly、反直觉 surprisingly 三个标记叠在一起，等于作者在大喊「这句才是重点」。篇章独白里这种结尾的强调句几乎必是考点。听到 but 加 surprisingly，立刻把后面整句记下。

【替换】 the majority of students experiencing math anxiety ↔ **Most of them**
the majority of=Most of
have normal to high math ability ↔ **have average to strong math ability**
normal=average、high=strong

【排除】 B) 与原文相反

Most of them get timely help from their teachers. 录音恰恰相反：their math anxiety will go unnoticed because their performance is good——因为成绩好，焦虑往往被忽视、得不到关注，谈何「及时得到老师帮助」。这是与原文相反的干扰。

借用原文：their math anxiety will go unnoticed

C) 未提及

They will regain confidence with counselling. 里的 counselling（心理咨询）在录音里从头到尾没出现过，「靠咨询恢复信心」完全是编造。录音只提到 a subsequent lack or loss of confidence（信心丧失），但从没说怎么靠咨询找回。

D) 原词陷阱

They are mostly secondary school students. 借了录音 in both primary and secondary school 里的 secondary school，却偷偷把「小学和中学都有」缩成「主要是中学生」。录音明说两个学段都受影响，选项却用 mostly 把范围卡死，属范围偷改。

借用原文：both primary and secondary school

Questions 19 to 21 are based on the passage you have just heard.

1 People spend a lot of time using phones and computers. Much of that time is devoted to text messages and social media. But many people choose to spend their time playing computer games.

人们花费大量时间使用手机和电脑。这些时间大部分用于发送短信和使用社交媒体。但许多人选择把时间花在玩电脑游戏上。

2 For years, parents and teachers have worried that these games might be addictive. And now, the World Health Organization has recognized addiction to computer games as a disease. The organization explains that this decision reflects general agreement among experts around the world that some people have a problem with these games. They show a pattern of behavior characterized by a lack of control. Such people make computer games a priority over their responsibilities. They may play games instead of attending school, or work, or socializing.

多年来,家长和教师一直担心这些游戏可能会让人上瘾。现在,世界卫生组织已经将电脑游戏成瘾认定为一种疾病。该组织解释说,这一决定反映了全球专家的普遍共识,即有些人在这些游戏上存在问题。他们表现出以缺乏控制力为特征的行为模式。这些人将电脑游戏置于自己的责任之上。他们可能不去上学、不去工作或不参加社交活动,而是玩游戏。

3 According to the World Health Organization experts, people's use of computer games is different from their use of the Internet, social media and online shopping. These experts claim there is not sufficient data to indicate that people's reliance on those other activities is an addiction. But they argue that playing computer games to access is different. This behavior can become a disorder. To meet the new definition for addiction, the behavior must damage a person's relationships or performance at school or work, and this must last for at least a year. Still not all behavior experts agree. Some argue that there's not enough research on the subject. Thus, they claim it is too early to call computer game addiction a disorder.

根据世界卫生组织专家的说法,人们对电脑游戏的使用不同于他们对互联网、社交媒体和网上购物的使用。这些专家声称,没有足够的数据表明人们对其他这些活动的依赖是一种成瘾。但他们认为,为了获取而玩电脑游戏是不同的。这种行为可能成为一种障碍。要符合成瘾的新定义,这种行为必须损害一个人的人际关系或在学校或工作中的表现,并且这种情况必须持续至少一年。但并非所有行为专家都同意这一观点。一些人认为关于这个主题的研究还不够充分。因此,他们声称现在将电脑游戏成瘾称为一种障碍还为时过早。

19. A) Social media addiction is a threat to our health.

B) Too many people are addicted to smartphones.

C) Addiction to computer games is a disease.

D) Computer games can be rather addictive.

【题目】 What conclusion has the World Health Organization come to recently?

【翻译】 世界卫生组织最近得出了什么结论?

A) 社交媒体成瘾是对我们健康的威胁。 B) 太多人对智能手机上瘾。

C) 电脑游戏成瘾是一种疾病。 D) 电脑游戏可能相当容易让人上瘾。

【答案】 C (细节题) Addiction to computer games is a disease.

【定位】 And now, the World Health Organization has recognized addiction to computer games as a disease.

而如今，世界卫生组织已经把电子游戏成瘾认定为一种疾病。

【信号】 主语复现 + now 标志新结论。 录音里 And now, the World Health Organization has recognized addiction to computer games as a disease. 同时出现了题干要找的主语 "World Health Organization" 和时间标志 "now" (如今、最近)，这正是题干 recently 对应的那处 "新结论"，是典型的答案句信号。

【替换】 recognized addiction to computer games as a disease ↔

Addiction to computer games is a disease.

"认定...为疾病" = "...是疾病"

【排除】 A) 原词陷阱

录音第 1 段确实提到 social media、第 2 段提到这是健康相关的话题，A 就把 "social media" 和 "health" 拼成 "社交媒体成瘾威胁健康"，但 WHO 下结论的对象是电子游戏成瘾、不是社交媒体，听到熟词就选会掉进这个坑。

借用原文：text messages and social media

B) 原词陷阱

录音开头说 People spend a lot of time using phones and computers., B 就顺势说 "太多人沉迷智能手机"，可录音的结论针对的是 "游戏成瘾" 而非 "手机成瘾"，且 "太多人" 是它没下过的数量判断，属于借原词制造的干扰。

借用原文：People spend a lot of time using phones and computers.

D) 与原文相反

D Computer games can be rather addictive. 只是说游戏 "挺容易让人上瘾"，这是第 2 段开头家长老师的担忧口吻 these games might be addictive，远没到 WHO "认定为疾病" 的硬性；问的是 WHO 的结论，就必须取那句最重的定性，故 D 程度偏轻、被排除。

借用原文：these games might be addictive

-
20. A) They prioritize their favored activity over what they should do.
B) They do their favored activity whenever and wherever possible.
C) They are unaware of the damage their behavior is doing to them.
D) They are unable to get rid of their addiction without professional help.

【题目】 What is said of people with addictive behavior?

【翻译】 关于有成瘾行为的人,有什么说法?

- A) 他们把自己喜欢的活动置于应该做的事情之上。
B) 他们随时随地尽可能从事自己喜欢的活动。
C) 他们没有意识到自己的行为对他们造成的伤害。
D) 他们无法在没有专业帮助的情况下摆脱成瘾。

【答案】 A (细节题) They prioritize their favored activity over what they should do.

【定位】 Such people make computer games a priority over their responsibilities.

这类人把电子游戏看得比自己的责任更重要。

【信号】 指示词"Such people"领起对该类人的刻画。录音用 Such people make computer games a priority over their responsibilities. 中的"Such people" (这类人) 回指上文的成瘾者, 正是题干"people with addictive behavior"指向的对象, 这句对其行为的概括就是答案句信号。

【替换】 make computer games a priority over their responsibilities ↔

They prioritize their favored activity over what they should do.

"把游戏看得比责任重"="把爱做的事置于该做的事之上"

【排除】 B) **未提及**

B They do their favored activity whenever and wherever possible. 说成瘾者"随时随地都玩", 但录音从头到尾没说过"whenever and wherever (任何时间任何地点)", 它只说这些人拿游戏顶替了上学、工作、社交 They may play games instead of attending school, or work, or socializing., "随时随地"是凭常识脑补出来的。

C) **原词陷阱**

C They are unaware of the damage their behavior is doing to them. 说成瘾者"意识不到自己受的伤害", 录音确实提到这种行为会 damage a person's relationships or performance (损害关系或表现), 但只说"有危害", 从没说成瘾者"没意识到", C 把"有危害"偷换成了"本人不自知"。

借用原文: damage a person's relationships or performance at school or work

D) **未提及**

D They are unable to get rid of their addiction without professional help. 说成瘾者"离了专业帮助戒不掉", 录音通篇在讨论"算不算病", 从未提及"professional help (专业帮助)"或"戒不掉", 这是套用对"成瘾"的刻板印象添加的内容。

21. A) It may be less damaging than previously believed.

B) There will never be agreement on its harm to people.

C) It may prove to be beneficial to developing creativity.

D) There is not enough evidence to classify it as a disease.

【题目】 **What do some behavior experts think of addiction to computer games?**

【翻译】 一些行为专家如何看待电脑游戏成瘾?

A) 它的危害可能比之前认为的要小。 B) 人们永远不会就其危害达成一致。

C) 它可能被证明有益于培养创造力。 D) 没有足够的证据将其归类为一种疾病。

【答案】 **D** (态度观点题) There is not enough evidence to classify it as a disease.

【定位】 Still not all behavior experts agree. Some argue that there's not enough research on the subject. Thus, they claim it is too early to call computer game addiction a disorder.

不过，并非所有行为专家都赞同。有些专家认为这方面的研究还不够。因此，他们声称现在就把电子游戏成瘾称作一种障碍还为时过早。

【信号】 转折词 **Still** 领出反对声音。录音用 Still not all behavior experts agree. 中的"Still"（不过、然而）把语气从前文 WHO 的定论转向反方，紧接着的 Some argue that there's not enough research 才是这"某些专家"的真实立场——转折之后才是落点，这正是态度题最典型的答案信号。

【替换】 there's not enough research on the subject ↔

There is not enough evidence to classify it as a disease.

"研究不够"="证据不足以定性为疾病"

【排除】 A) **原词陷阱**

A It may be less damaging than previously believed. 说"危害可能比以前认为的小"，录音里反方专家质疑的是"研究够不够、能不能现在就定性"，从没比较过"危害大小"，damaging 一词虽在第 3 段出现过 damage a person's relationships，但"less damaging（危害更小）"是录音没有的比较。

借用原文：damage a person's relationships or performance at school or work

B) **过度推断**

B There will never be agreement on its harm to people. 说"永远不会就其危害达成一致"，录音只说现在"not all...agree（并非都同意）"、还需要更多研究，是"暂时未达成一致"，绝不是"永远不会一致"，never 把话推到了录音没有的极端。

借用原文：Still not all behavior experts agree.

C) **未提及**

C It may prove to be beneficial to developing creativity. 说游戏成瘾"可能有益于培养创造力"，录音通篇在争论"算不算病"，从未出现 beneficial（有益）或 creativity（创造力）任何相关内容，这是凭空添加的好处。

Questions 22 to 25 are based on the passage you have just heard.

¹ Maybe you carry the most powerful passport in the world, or perhaps the rarest passport. Whatever the case, your passport will likely be one of four colors: red, blue, green or black, although there are slight variations. Switzerland's passport is dark red, for example, while most European countries prefer a shade of red. That's almost brown.

也许你持有世界上最强大的护照，或者可能是最稀有的护照。无论如何，你的护照很可能是四种颜色之一：红色、蓝色、绿色或黑色，尽管存在细微的差异。例如，瑞士的护照是深红色，而大多数欧洲国家更喜欢红色的色调。那几乎是棕色的。

2 There are no official rules regarding passport colors, but countries follow a certain set of norms when designing them. The International Civil Aviation Organization, which works to define the principles of air travel, suggests that countries use a suitable type, size and style for official documents like passports.

关于护照颜色没有官方规定,但各国在设计护照时遵循一套特定的规范。国际民用航空组织致力于定义航空旅行的原则,建议各国为护照等官方文件使用合适的类型、尺寸和样式。

3 There are also a few compulsory aspects of passports. They must be made from a material that bends. They should be able to be read by a machine at temperatures ranging from 10 degrees Celsius to 50 degrees Celsius, under the conditions where the air can be extremely dry or moist.

护照还有一些强制性要求。护照必须由可弯曲的材料制成。它们应当能够在10摄氏度到50摄氏度的温度范围内被机器读取,在空气可能极度干燥或潮湿的条件下。

4 Despite these existing recommendations, there is nothing regarding the cover color. Why? Simply put, countries stick to darker and more conservative colors because they appear more official. And they can also hide dirt and wear. While there's little innovation when it comes to passport cover color, the same cannot be said for the pages. The passports of many countries can take images of their well-known geographical features and wildlife, which also function as security features as some are only visible under a special light.

尽管存在这些现行建议,但没有关于封面颜色的规定。为什么?简单来说,各国坚持使用更深、更保守的颜色,因为它们看起来更正式。而且它们还可以隐藏污垢和磨损。虽然在护照封面颜色方面几乎没有创新,但在内页方面却并非如此。许多国家的护照可以采用其著名地理特征和野生动物的图像,这些图像也具有安全功能,因为有些图像只有在特殊光线下才能看到。

22. A) They are relatively uniform in color and design.

B) They appear more formal than other passports.

C) They are a shade of red bordering on brown.

D) They vary in color from country to country.

【题目】 What do we learn about most European passports?

【翻译】 关于大多数欧洲护照我们了解到什么?

A) 它们在颜色和设计上相对统一。 B) 它们看起来比其他护照更正式。

C) 它们是一种近乎棕色的红色。 D) 它们的颜色因国家而异。

【答案】 C (细节题) They are a shade of red bordering on brown.

【定位】 Switzerland's passport is dark red, for example, while most European countries prefer a shade of red. That's almost brown.

举例来说,瑞士护照是深红色,而大多数欧洲国家偏爱一种红色,那种红几乎接近棕色。

【信号】 听到题干对象就锁定。 录音念到 most European countries prefer a shade of red, 正好对应题干的 most European passports, 这就是答案句的信号——题干问什么对象, 录音里点到这个对象的那一句即是答案句。紧接其后的 That's almost brown 补出近棕色的细节。

【替换】 most European countries prefer a shade of red ↔ They are a shade of red bordering on brown.

原话原词搬进选项

That's almost brown ↔ bordering on brown

almost 与 bordering on 同义

【排除】 A) 原词陷阱

relatively uniform in color and design 借了原文反复出现的 color、design 话题词制造熟悉感，但录音说欧洲护照偏爱某种红色，并未说各国颜色与设计相对统一，属于听到原词就想选的原词陷阱。

借用原文：slight variations

B) 张冠李戴

more formal than other passports 把后文第 4 段讲深色封面显得正式 they appear more official 张冠李戴到欧洲护照颜色这题上，且 formal 与 official 近义诱人，但本题问的是欧洲护照颜色，不是封面为何显正式。

借用原文：they appear more official

D) 与原文相反

vary in color from country to country 与录音相反——录音强调 most European countries prefer a shade of red，即多数欧洲国家偏爱同一种红色，是趋同而非各国不同，选项把意思反了。

借用原文：most European countries prefer a shade of red

23. A) They must endure wear and tear.

B) They must be of the same size.

C) They must be made from a rare material.

D) They must follow some common standards.

【题目】 What does the passage say about the design of passports?

【翻译】 文章关于护照的设计说了什么？

A) 它们必须经得起磨损。 B) 它们必须尺寸相同。 C) 它们必须由稀有材料制成。

D) 它们必须遵循一些共同标准。

【答案】 D (细节题) They must follow some common standards.

【定位】 There are no official rules regarding passport colors, but countries follow a certain set of norms when designing them.

关于护照颜色并没有官方规定，但各国在设计护照时会遵循一套特定的规范。

【信号】 转折 but 后是真意。There are no official rules 先说没有官方规定，but 之后才转到 countries follow a certain set of norms when designing them，转折 but 后面才是设计这一问的落点——前半的没有规定是干扰铺垫。

【替换】 follow a certain set of norms ↔ follow some common standards

norms 与 standards 同义

countries follow ↔ They must follow

动词 follow 对应

【排除】 A) 原词陷阱

endure wear and tear 里的磨损来自第 4 段 hide dirt and wear, 录音确实念过 wear, 但那是讲深色封面能藏脏污磨损, 不是回答护照设计要遵守什么, 听到 wear 就选即落入原词陷阱。

借用原文: hide dirt and wear

B) 原词陷阱

of the same size 看似与第 2 段 size 沾边, 但录音只说建议各国采用合适的类型、尺寸与样式, 从未说护照必须大小相同, 属借 size 一词的原词陷阱兼未提及。

借用原文: size

C) 原词陷阱

made from a rare material 借了第 3 段 made from a material 的 material 一词, 但录音只要求材料能弯折, 从未说稀有, rare 是凭空加上去的, 属原词陷阱。

借用原文: made from a material that bends

24. A) They look more traditional.

B) They look more official.

C) They are favored by airlines.

D) They are easily identifiable.

【题目】 Why are dark colors chosen for passport covers?

【翻译】 为什么护照封面选择深色?

A) 它们看起来更传统。 B) 它们看起来更正式。 C) 它们受到航空公司的青睐。

D) 它们容易识别。

【答案】 B (细节题) They look more official.

【定位】 Simply put, countries stick to darker and more conservative colors because they appear more official.

简单说, 各国坚持用更深、更保守的颜色, 是因为这些颜色显得更正式、更官方。

【信号】 because 引出原因。录音 Simply put 提示要给结论, 紧接 because they appear more official 用 because 直接交代原因——这正是 Why 题的答案信号, because 后面那句即是答案。

【替换】 they appear more official ↔ They look more official.

appear 与 look 同义

【排除】 A) 原词陷阱

look more traditional 与正确项 look more official 仅一词之差，traditional（传统）与 official（官方）近义易混，但录音 because 后说的是 more official，从未说 traditional，命题人就靠这对近义词诱你听岔。

借用原文：more conservative colors

C) 张冠李戴

avored by airlines 蹭了第 2 段提到的国际民航组织 The International Civil Aviation Organization 这一航空背景，但录音从没说深色封面受航空公司青睐，把民航组织硬扯成 airlines 偏好，属张冠李戴。

借用原文：The International Civil Aviation Organization

D) 答非所问

easily identifiable 是另起的一个特征，录音讲深色封面的原因是显官方、还能藏脏污磨损 hide dirt and wear，从未说深色是为了易于辨识，与本题原因不符，属答非所问。

借用原文：hide dirt and wear

25. A) For beauty.

B) For variety.

C) For visibility.

D) For security.

【题目】 What is one special function of the images inside many passports?

【翻译】 许多护照内部的图像有什么特殊功能？

A) 为了美观。 B) 为了多样性。 C) 为了可见性。 D) 为了安全性。

【答案】 D（细节题） For security.

【定位】 The passports of many countries can take images of their well-known geographical features and wildlife, which also function as security features as some are only visible under a special light.

许多国家的护照内页印有本国著名的地理风貌和野生动物图案，这些图案还起到防伪作用，因为有些图案只在特殊光线下才能看到。

【信号】 function as 点出作用。 录音 which also function as security features 用 function as 直接点明图案的作用是安全防伪——这正是问 function 一题的答案信号，function as 后面的 security features 即答案落点。后半的 only visible under a special light 是对这一安全功能的解释。

【替换】 function as security features ↔ For security.

security 原词即功能

【排除】A) 过度推断

For beauty. 看似与内页印著名地理风貌、野生动物图案 images of their well-known geographical features and wildlife 沾边，会让人觉得图案是为好看，但录音说的功能是安全防伪，从未说为了美观，属过度推断兼未提及。

借用原文：images of their well-known geographical features and wildlife

B) 答非所问

For variety. 蹭了录音讲各国内页图案不同、内页比封面有变化这层意思 the same cannot be said for the pages，但那是说内页设计较多样，不是图案的功能，把内页多样性误当成图案功能，属答非所问。

借用原文：the same cannot be said for the pages

C) 原词陷阱

For visibility. 直接盗用录音 only visible under a special light 里的 visible 一词，且与正确项 For security 拼写相近极易混，但原文说的是图案只在特殊光下可见、这恰恰服务于安全防伪，可见只是手段、安全才是功能，听到 visible 就选即落入原词陷阱。

借用原文：only visible under a special light

SENTENCE INSIGHTS • 句子精讲

28 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

He was surprised when his GPS system told him he had arrived, although there were no signs of any of the famous buildings or architecture.

第3段，第1句

主句 + when 时间状语从句 + although 让步状语从句，以及宾语从句嵌套在状语从句中，这种组合在四六级和考研阅读中非常常见。双宾语动词后接宾语从句、过去完成时表示过去的过去，都是考试高频考点。句式典型，掌握后可大量复用

Police said that the car had come to a halt after hitting the sign, but did not appear to be seriously damaged, although an ambulance was called to check on the pensioner.

第6段，第1句

该句结构在新闻报道和考试阅读中高度典型:主句引述加宾语从句的框架、宾语从句内部的并列结构、以及嵌套的让步状语从句,都是四六级和考研真题中频繁出现的句式,掌握这种结构可以迁移到大量类似句子的理解

First Minister Nicola Sturgeon welcomed the pledge, and said: "Today's announcement between ScottishPower and Glasgow City Council—to make Glasgow the UK's first net-zero city—is a very welcome step. Reaching our goals will need exactly this kind of partnership approach—with government, business, local authorities and citizens all playing their part."

第2段，第1句

句子覆盖了主语(名词短语、动名词短语)、谓语(及物动词、系动词、will + 动词原形)、宾语(名词短语、直接引语)、表语、定语(不定式短语、介词短语、独立主格)等多种成分;直接引语作宾语、动名词短语作主语、独立主格作定语都是值得练习的考点;成分种类丰富,适合作为划分练习句。

Not only does Fukuda encourage bringing cats to the job, but he also encourages his employees to rescue cats from overpopulated shelters or streets.

第4段，第3句

本句包含多种成分类型:倒装句中的主谓识别、动名词短语作宾语、'encourage sb to do' 结构中的宾语和宾补、并列谓语的划分,成分较为丰富。特别是动名词宾语与不定式宾补的对比,以及倒装还原,都是值得练习的考点

While the positives are many, there are still some obstacles.

第5段，第1句

"While 从句, 主句" 的让步转折结构在四六级和考研阅读中十分常见, 是表达对比观点的典型句式, 掌握后可迁移到大量类似语境

Still, cats in the workplace have been a tremendous success for the company.

第6段，第1句

主系表结构配合现在完成时是四六级和考研阅读中的常见句式，句中介词短语作定语和状语的用法也非常典型，学生掌握后可大量复用到同类句子的分析中。

It allows workers to do whatever their hearts desire.

第5题，D

"动词 + 宾语 + 不定式宾补" 结构（如 allow/enable/permit sb to do）和 "whatever" 引导的名词性从句都是四六级和考研阅读中的常见句式。本句将两者结合，既有典型性又不失代表性，掌握后可迁移到大量类似结构的句子中，实用价值较高。

Nothing serious, mind you, but he damaged someone's car and wanted to get some money together to make up for the damage he'd caused.

第5段，第3句

本句涵盖了并列谓语、不定式作宾语、不定式作目的状语、省略关系代词的定语从句等多种成分形式，成分种类较丰富。并列谓语、不定式双重用法（宾语+状语）、关系代词省略都是常见易错点。从句嵌套在不定式短语内部的结构也有一定练习价值。适合作为成分划分的综合练习句。

M: You think Jimmy's just making it all up?

第7段，第1句

本句体现省略引导词 that 的宾语从句，这是口语和书面语中的高频句式。主句 + 宾语从句的结构在四六级和考研阅读中大量出现，掌握后可迁移至 believe、suppose、assume 等动词的类似句型。疑问句形式也增加了实用性。

So he'd rather come to us and keep things quiet.

第7段，第5句

本句涵盖了主语、谓语（情态动词加并列动词原形）、宾语、宾语补足语、状语等多种成分，结构比较完整。特别是 keep things quiet 这种 "动词 + 宾语 + 宾语补足语" 结构是常见考点，值得练习区分宾语和宾补。并列动词共用主语的形式也有一定练习价值。

Anyway, Jimmy is a good guy.

第7段，第6句

主系表结构在真题中常见，但本句过于简短且无任何修饰或扩展成分，代表性有限，学习后可迁移的价值不高。

He got his car badly damaged.

第10题，B

本句包含主语、谓语、宾语、宾语补足语（过去分词）四种成分，且涉及 "get + 宾语 + 过去分词" 使役结构和副词修饰宾补的用法，成分丰富。易错点在于区分谓语与宾补、理解复合宾语结构，训练价值高。

He was involved in a traffic accident.

第10题，C

"主语 + be 动词 + 过去分词 + 介词短语状语" 是英语中极其常见的被动句型，在四六级和考研阅读中大量出现（如描述事件、现象、研究结果等场景）。掌握这一句式后可直接迁移到大量类似句子，典型性较高。

I've never done it before and I know that you've been doing it for ages.

第1段，第5句

两个并列主句加一个宾语从句的结构在四六级和考研阅读中高频出现，宾语从句用 that 引导也是最典型的从句形式。现在完成时和现在完成进行时都是常考时态，特别是与 never、for 等时间标志词的搭配。这种结构的掌握可直接迁移到大量真题句式，典型性很高。

I love getting my shopping delivered.

第2段，第2句

"love + 动名词" 是四六级和考研常考句式，体现 "某些动词后接动名词作宾语" 这一典型用法；动名词短语内部带宾语和宾补的结构也较常见；但整体句式较简单，不如多从句嵌套或复杂修饰结构那样更具代表性。

The food is exactly the same as the stuff you buy in a conventional shop.

第4段，第2句

"主系表 + 比较结构 + 省略关系代词的定语从句" 是四六级和考研阅读中的常见句式，比较结构和定语从句都是高频考点，但本句结构相对简单，作为典型例句代表性中等。

Is it not more expensive to get everything delivered?

第5段，第2句

形式主语结构和否定疑问句都是四六级和考研中的高频句式，掌握后可迁移到大量类似句型，具有较强的典型性和实用性。

If you aren't driving your own car, then you are saving on fuel.

第7段，第2句

"If...then..." 条件句式是考试中的高频结构，在四六级和考研阅读、写作中大量出现。本句结构清晰、完整，是条件状语从句的典型代表，学习后迁移性强。

Otherwise, we'll be here all day.

第8段，第3句

虽然句子结构简单，但包含了主语、谓语、地点状语、时间状语和句首状语五种成分，能够帮助学生练习识别状语的不同类型和位置，以及区分 "here" 这类地点副词作状语而非表语的用法，具有一定练习价值。

People automatically assume children are anxious about math because they are poor achievers.

第3段，第3句

"及物动词 + 宾语从句（省略 that）+ 从句内嵌套状语从句" 是四六级和考研阅读中的高频句式，assume、because 等连接词也是常考词汇，结构具有较强的代表性和复用价值。

In fact, more than three quarters of children with high levels of math anxiety are normal to high achievers.

第4段，第1句

主系表结构是英语基本句型之一，且本句主语中"分数/百分比 + of + 名词 + 介词短语修饰"的模式在四六级和考研阅读中常见，尤其是数据陈述类句子，学习后可迁移到类似结构的句子分析。

They may play games instead of attending school, or work, or socializing.

第2段，第6句

简单句结构在各类考试中常见，情态动词加动词原形的用法也是基础考点；'instead of' 引导的介词短语作状语较为典型，但整体句式较为基础，缺少从句或复杂修饰，代表性中等。

According to the World Health Organization experts, people's use of computer games is different from their use of the Internet, social media and online shopping.

第3段，第1句

主系表结构 + 句首状语是四六级和考研阅读中常见的说明类句式，表语部分使用"different from"进行对比也是典型用法，具有一定代表性，但缺少从句等复杂结构，典型性中等

Still not all behavior experts agree.

第3段，第6句

简单句结构在真题中常见，但本句的典型性在于 "not all" 这一部分否定表达。这类结构在阅读理解中出现频率适中，学习后可迁移到类似的部分否定或全称否定辨析场景，具有一定代表性。

Thus, they claim it is too early to call computer game addiction a disorder.

第3段，第8句

"主句 + 宾语从句" 以及 "形式主语 it + 系动词 + 形容词 + 不定式" 都是四六级和考研阅读中的高频句式，具有很强的迁移价值。掌握本句结构后，可以快速识别大量同类句型。

They do their favored activity whenever and wherever possible.

第20题，B

本句展示了典型的"主句 + 状语从句"结构，以及状语从句中常见的省略现象，这在四六级和考研真题中频繁出现。"whenever and wherever" 这类并列引导词的用法也是考试中的常考点。虽然句子本身不算复杂，但其结构模式具有很强的代表性，学生掌握后可以轻松迁移到类似的长难句分析中。

They are unable to get rid of their addiction without professional help.

第20题，D

"be unable to do" 是常见句式，介词短语作条件状语也是典型用法，具有一定代表性，但作为简单句整体典型性中等。

There is not enough evidence to classify it as a disease.

第21题, D

"There is/are" 存在句是四六级和考研中常见句式, 后接不定式作定语的用法也较为典型, 掌握后可迁移到类似结构, 具有一定代表性。

HIGH-FREQUENCY • 真题高频词

本卷出现的 219 个英语四级真题高频词

下列单词既在本卷录音原文中出现, 又是 **英语四级** 历年真题的高频词 (在该考试真题中出现的句子数均不少于 8)。每个词标注本卷 出现次数与该考试真题句频, 点击可查看该词的释义、音标、词形与真题例句。

damage B1

n. 损害

本卷10次 · 真题 55 句

anxiety B2

n. 焦虑

本卷10次 · 真题 41 句

addiction B2

n. 上瘾

BLANKS & ANALYSIS • 选词填空题和解析

选词填空题和解析 · 26-35 题

本页 26-35 题的正确答案词与逐空解析由懒笔记按2021年6月·第2套 英语四级完形填空（选词填空）原卷词库逐空核对整理。与试卷排版同一卷面：Directions、5 段带空短文（每段之后紧随中文翻译）与 15 词共享词库连续排印；卷面下方逐空紧跟解析——该空词性、原文定位句、正确词与锁定依据，以及同词性被淘汰竞争词的逐个归因。

真题卷第2套(2021-06) • 四级

Part III Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

Social isolation poses more health risks than obesity or smoking 15 cigarettes a day, according to research published by Brigham Young University. The 26 is that loneliness is a huge, if silent, risk factor.

根据杨百翰大学发表的研究，社交隔离对健康造成的风险比肥胖或每天吸15支烟更大。这意味着孤独是一个巨大的、尽管无声的风险因素。

Loneliness affects physical health in two ways. First, it produces stress hormones that can lead to many health problems. Second, people who live alone are less likely to go to doctor 27, to exercise or to eat a healthy diet.

孤独以两种方式影响身体健康。首先,它会产生可能导致许多健康问题的应激激素。其次,独居的人不太可能去看医生、锻炼或吃健康的饮食。

Public health experts in many countries are 28 how to address widespread loneliness in our society. Last year Britain even appointed a minister for loneliness. "Loneliness 29 almost every one of us at some point," its minister for loneliness Baroness Barran said. "It can lead to very serious health 30 for individuals who become isolated and disconnected."

许多国家的公共卫生专家正在讨论如何应对我们社会中普遍存在的孤独问题。去年英国甚至任命了一位孤独事务大臣。英国孤独事务大臣Baroness Barran说:"孤独几乎在某个时刻触及我们每一个人。它可能对那些变得孤立和脱节的个体造成非常严重的健康后果。"

Barran started a "Let's Talk Loneliness" campaign that 31 difficult conversations across Britain. He is now supporting "32 benches," which are public seating areas where people are

encouraged to go and chat with one another. The minister is also 33 to stop public transportation from being cut in ways that leave people isolated.

Barran发起了一场"让我们谈论孤独"运动,在英国各地引发了艰难的对话。他现在正在支持"友好长椅",这些公共座位区域鼓励人们前往并相互交谈。这位大臣还在推动阻止以导致人们孤立的方式削减公共交通。

More than one-fifth of adults in both the United States and Britain said in a 2018 34 that they often or always feel lonely. More than half of American adults are unmarried, and researchers have found that even among those who are married, 30% of relationships are 35 strained. A quarter of Americans now live alone, and as the song says, one is the loneliest number.

在2018年的一项调查中,美国和英国都有超过五分之一的成年人表示他们经常或总是感到孤独。超过一半的美国成年人未婚,研究人员发现即使在已婚人群中,也有30%的关系严重紧张。四分之一的美国人现在独自生活,正如那首歌所唱,一是最孤独的数字。

| D) debating | L) sparked |
| E) dimensions | M) splitting |
| F) friendly | N) survey |
| G) hindered | O) touches |
| H) idiom | |

26. The (26) is that loneliness is a huge, if silent, risk factor

【答案】 **I) implication** (名词)

【词性槽】 定冠词 The 后作主语的名词

【依据】 "言外之意/启示是....."

The (26) is that loneliness is a huge, if silent, risk factor: 承接首句"孤独危害比肥胖吸烟还大"的研究, 这里说"由此得出的含意 / 启示是: 孤独是巨大却无声的风险因素", implication (言外之意、启示) 正是对前述研究结论的提炼, 单数与 The...is 一致。

【竞争词】 E) dimensions 义不对且数不合

dimensions 指"维度", "这个维度是孤独是风险因素"语义不通; 且 dimensions 为复数, 与 "The is" 的单数 is 不一致。

H) idiom 义不对: 习语

idiom (习语) 与"研究得出的结论/含意"无关, "这个习语是....."读不通。

27. people who live alone are less likely to go to doctor __ (27) __, to exercise or to eat a healthy diet

【答案】 **B) appointments** (名词)

【词性槽】 go to doctor 后接名词作宾语

【依据】 **doctor appointments = 看病预约**

go to doctor __ (27) __: doctor appointments 是地道固定搭配, 指"去看医生的预约"。本段在说独居者"不太会去看病、运动或健康饮食", "看病预约"正好与 exercise、healthy diet 并列成三件健康行为。

【竞争词】 E) dimensions 搭配不成立

"go to doctor dimensions" (去看医生维度) 不成句, dimensions 与 go to 不搭。

N) survey 义不对: 调查

"去做医生调查"不合本句"看病"的语境; survey 留给空 34 更合适。

H) idiom 义不对: 习语

idiom (习语) 与"去看病"毫无关联。

I) implication 义不对且已被占用

implication (含意) 既不搭 go to doctor, 又已是空 26 的答案。

28. Public health experts in many countries are __ (28) __ how to address widespread loneliness

【答案】 **D) debating** (动词)

【词性槽】 be 动词 are 后接 -ing 作谓语

【依据】 **"正在讨论如何应对"**

experts ... are __ (28) __ how to address widespread loneliness: 专家们"正在争论 / 讨论如何应对孤独", debating (讨论、争论) 后接 "how to ..." 地道, 语义正是"探讨对策", 与下文"英国甚至任命了孤独事务大臣"的应对行动衔接。

【竞争词】 J) pushing 搭配指向不同

pushing 表"推动、努力争取", 常接 to do, 不直接接 "how to" 表"讨论怎么做"; 且 push 更贴空 33。

M) splitting 义不对: 分裂

"正在分裂如何应对孤独"语义讲不通, splitting 与本句逻辑无关。

O) touches 形态不符

touches 是单数现在时, 无法跟在 are 后构成进行时, 形态先被排除。

29. "Loneliness __(29)__ almost every one of us at some point"

【答案】 **O) touches** (动词)

【词性槽】 主语 Loneliness 后缺谓语，宾语 us

【依据】 "孤独影响着我们几乎每个人"

Loneliness touches almost every one of us at some point: touches 在此取"触及、影响"义，"孤独在某些时刻几乎触及我们每一个人"，单三形态与主语 Loneliness 一致，语义贴合"孤独普遍"这一全文论点。

30. It can lead to very serious health __(30)__ for individuals

【答案】 **C) consequences** (名词)

【词性槽】 形容词 serious 后接名词

【依据】 "导致严重后果"是固定搭配

lead to very serious health __(30)__ : lead to (导致) 后接的、又能被 serious (严重的) 修饰的、还是讲健康层面的，正是 consequences (后果) 。"严重的健康后果"语义最顺，且与全文"孤独危害健康"的主旨完全咬合。

【竞争词】 E) dimensions 义不对：维度而非后果

dimensions 指"维度 / 方面"，"严重的健康维度"不通；这里要的是 lead to 导出的结果，不是某个方面。

I) implication 已被空 26 用掉

implication 是空 26 的答案，已从词库划走，按"每词最多用一次"不再参与。

B) appointments 搭配不成立

appointments 指"预约"，"严重的健康预约"讲不通，且它另有归属（空 27）。

H) idiom 义不对：习语

idiom 是"习语"，与 lead to 导致的健康结果毫无关系。

N) survey 义不对：调查

survey 是"调查"，"严重的健康调查"不合逻辑；它更贴空 34。

31. a "Let's Talk Loneliness" campaign that __ (31) __ difficult conversations across Britain

【答案】 **L) sparked** (动词)

【词性槽】 that 引导定语从句缺谓语

【依据】 "引发了.....对话"

campaign that __ (31) __ difficult conversations across Britain: 一场运动"在英国各地引发 / 激起了难以启齿的对话", sparked (引发、激起) 与 conversations 搭配地道, sparked discussions/conversations 是高频组合, 语义指向"运动带来积极效果"。

【竞争词】 O) touches 时态与搭配都差

touches 是单数现在时, 与本段过去语境不符, 且"触及对话"不如"引发对话"自然; touches 更贴空 29。

G) hindered 逻辑指向相反

hindered (阻碍) 意思反了——运动是要促进而非阻碍交流, 与积极主旨冲突。

M) splitting 形态与义都不对

splitting 是 -ing 形式不能直接作过去式谓语, 且"分裂对话"语义怪异。

J) pushing 形态不合且另有归属

pushing 为 -ing 形式, 作 that 从句谓语需 pushed, 形态不对; 且 push 更贴空 33 的 "pushing to"。

D) debating 形态不合且另有归属

debating 为 -ing 形式, 此处需过去式谓语; debating 更贴空 28 的进行时结构。

【易错】 最具迷惑性的错误词是 **G)** —— hindered 形态对、逻辑反。空 31 要过去式动词, hindered 形态完全合规, 光看语法分不出对错。防坑: 回到语义方向——"Let's Talk Loneliness" 运动是要"引发"对话而非"阻碍"对话, 逻辑指向决定选 sparked。

32. He is now supporting "__ (32) __ benches," which are public seating areas

【答案】 **F) friendly** (形容词)

【词性槽】 名词 benches 前作定语

【依据】 "友好长椅"鼓励陌生人交谈

"friendly benches," which are public seating areas where people are encouraged to go and chat with one another: 后面的定语从句解释这是"鼓励人们去和彼此聊天的公共座椅", 正好印证 friendly (友好的) ——"友好长椅", 主题是化解孤独、促进交流。

33. The minister is also __(33)__ to stop public transportation from being cut

【答案】 J) pushing (动词)

【词性槽】 be 动词 is 后接 -ing, 再接 to do

【依据】 push to do = 努力争取做某事

is also __(33)__ to stop public transportation from being cut: pushing to stop (努力争取阻止) 地道, "大臣还在努力争取阻止削减公共交通", push to do 是固定搭配, 语义指向"主动推动政策", 与上文"支持友好长椅"的积极行动并列。

【竞争词】 M) splitting 搭配与义都不对

splitting 不与 to do 构成"努力做某事"的搭配, 且"分裂去阻止"语义讲不通。

34. said in a 2018 __(34)__ that they often or always feel lonely

【答案】 N) survey (名词)

【词性槽】 冠词 a 后、介词 that 从句前的名词

【依据】 "在一项调查中表示"

said in a 2018 __(34)__ that they often or always feel lonely: 人们"在 2018 年的一项调查中表示.....", survey (调查) 正是承载"超五分之一成年人说常感孤独"这类数据结论的载体, 搭配 said in a survey 地道自然。

【竞争词】 I) implication 义不对且已被占用

implication (含意) 不是人们"在其中说话"的场合, 且已是空 26 答案。

E) dimensions 义不对: 维度

"在一个 2018 维度中说"不通, dimensions 与 said in 不搭。

H) idiom 义不对: 习语

idiom (习语) 无法承载调查数据, 语义不符。

35. 30% of relationships are __(35)__ strained

【答案】 **K) severely** (副词)

【词性槽】 修饰形容词 strained 的状态

【依据】 "严重紧张"程度副词

30% of relationships are __(35)__ strained: severely (严重地) 修饰 strained, "30% 的关系严重紧张", 程度副词与"strained (紧张)"语义同向、自然加强, 呼应本段"即便已婚也有大量关系出问题"的论点。

【竞争词】 A) abruptly 义不对: 突然 vs 程度

abruptly 表"突然地", 强调方式/时间, 不是程度; "突然紧张"与 strained 这种持续状态不搭, 这里要的是"紧张的严重程度"。

【易错】 最具迷惑性的错误词是 A) —— abruptly 词性对、易抢答。空 35 副词只有 abruptly 与 severely 两候选, 词性都对, 慌乱中可能凭眼熟选 abruptly。防坑: 先问空修饰的是"程度"还是"方式"——are __(35)__ strained 要的是"严重程度", 选程度副词 severely。

WORD BANK • 词库分类表

15 个候选词 · 词性与词义

选词填空文后的共享词库共 15 个词 (A-O), 为 10 个空各选一个、每词最多用一次。下面给出每个词的词性与中文词义; 标注「用于第 N 空」的 10 个为答案, 其余 5 个为干扰词。

A) **abruptly** (副词)

突然地, 唐突地

干扰词 • 未选用

B) **appointments** (名词)

预约, 约见 (如看病预约)

用于第 27 空

C) **consequences** (名词)

后果, 结果 (多指不好的)

用于第 30 空

D) **debating** (动词)

争论, 讨论 (debate 的 -ing 形式)

用于第 28 空

E) **dimensions** (名词)

维度, 方面, 尺寸

干扰词 • 未选用

F) **friendly** (形容词)

友好的, 亲切的

用于第 32 空

G) **hindered** 动词 形容词

阻碍, 妨碍 (hinder 的过去式/过去分词)

干扰词 · 未选用

H) **idiom** 名词

习语, 成语, 惯用语

干扰词 · 未选用

I) **implication** 名词

含意, 言外之意, 启示

用于第 26 空

J) **pushing** 动词 形容词

推动, 推进, 努力争取 (push 的 -ing 形式)

用于第 33 空

K) **severely** 副词

严重地, 严厉地

用于第 35 空

L) **sparked** 动词

引发, 激起 (spark 的过去式/过去分词)

用于第 31 空

M) **splitting** 动词 形容词

分裂, 劈开 (split 的 -ing 形式)

干扰词 · 未选用

N) **survey** 名词 动词

调查, 问卷调查

用于第 34 空

O) **touches** 动词 名词

触及, 影响, 接触

用于第 29 空

全文主旨

孤独是被低估的重大健康风险

全文围绕一个观点展开: 孤独 (loneliness) 对健康的危害比肥胖、吸烟还大。开篇即定调 Social isolation poses more health risks than obesity or smoking 15 cigarettes a day, 随后从孤独如何伤身、各国公共卫生专家如何应对、再到英美的统计数据, 层层铺陈。抓住“孤独=隐形健康杀手”这条主线, 后面每个空填什么词、是褒是贬, 都有了判断的工作台。

DISTRACTORS · 干扰词复盘

这 5 个词始终没被任何空选用

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边, 却不该填入任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

A) **abruptly** 最像空 35 的副词

abruptly 是词库仅有的两个副词之一，词性与空 35 30% of relationships are __(35)__ strained 完全对得上，极易和 severely 二选一。识破点：abruptly 表"突然地"是方式/时间副词，而空要的是"紧张的程度"，程度副词 severely 才对。

E) **dimensions** 冒充各名词空的诱饵

dimensions 是名词，词性能套进空 26、30、34 任一个，看着"也沾边"。识破点：它意为"维度"且是复数——空 26 The __(26)__ is 的 is 要单数、空 30/34 语义要"后果/调查"，逐个代入读半句它都不通。

G) **hindered** 最像空 31 的过去式动词

hindered 是过去式，形态正好套进空 31 campaign that __(31)__ difficult conversations 这种过去叙事的谓语位置，易和 sparked 混。识破点：hindered (阻碍) 逻辑指向相反——运动是促进交流，须填"引发"义的 sparked。

H) **idiom** 名词词性对但义离题

idiom 是名词，词性可套空 26、27、30、34 等任一名词空。识破点：它意为"习语"，与本篇"孤独/健康/调查"话题毫不相干，靠词义一读即知离题，是纯凑数干扰。

M) **splitting** 最像 -ing 动词空的诱饵

splitting 是 -ing 形式，形态能套进空 28、33 这类进行时位置，和 debating、pushing 争。识破点：split (分裂、劈开) 既不搭 "how to"、也不搭 "to stop"，语义放进去都怪，代入读半句即排除。

SENTENCE INSIGHTS • 句子精讲

1 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

First, it produces stress hormones that can lead to many health problems.

第2段，第2句

本句的“主句 + 限制性定语从句”结构是四六级和考研阅读中的高频句式。定语从句紧跟名词并用“that”引导，且从句内部为“情态动词 + 动词原形”结构，这些都是考试中反复出现的典型模式，掌握后可大量迁移。

STATEMENTS & ANALYSIS • 信息匹配题和解析

信息匹配题和解析·36-45 题

本页 36-45 题的段落匹配答案与逐句解析由懒笔记基于2021年6月·第2套 英语四级长篇阅读（信息匹配）原卷逐题核对整理。与试卷排版同一卷面：先是 Directions 与 11 段字母标号长文（逐段附中文翻译）；之后 10 句陈述逐句排列，每句英文陈述后紧接本句解析——陈述句中译、信息所在段落、锚点强弱、定位句中英对照、陈述句与原文的同义改写对照与易混相邻段辨析。

真题卷第2套(2021-06)·四级

Part III Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

What happens when a language has no words for numbers?

A) Numbers do not exist in all cultures. There are numberless hunter-gatherers in Amazonia, living along branches of the world's largest river tree. Instead of using words for precise quantities, these people rely exclusively on terms similar to "a few" or "some." In contrast, our own lives are governed by numbers. As you read this, you are likely aware of what time it is, how old you are, your checking account balance, your weight and so on. The exact numbers we think with impact everything in our lives.

并非所有文化中都存在数字。在亚马逊流域,世界最大河流的支流沿岸生活着一些没有数字的狩猎采集者。这些人不使用表示精确数量的词语,而是完全依赖类似于"一些"或"若干"的术语。相比之下,我们自己的生活受数字支配。当你阅读这篇文章时,你很可能知道现在是几点、你多大年纪、你的支票账户余额、你的体重等等。我们思考时使用的精确数字影响着我们生活中的一切。

B) But, in a historical sense, number-conscious people like us are the unusual ones. For the bulk of our species' approximately 200,000-year lifespan, we had no means of precisely representing quantities. What's more, the 7,000 or so languages that exist today vary dramatically in how they utilize numbers.

但从历史角度来看,像我们这样有数字意识的人才是不寻常的。在我们这个物种大约20万年的生命历程中的大部分时间里,我们没有精确表示数量的手段。而且,当今存在的大约7000种语言在如何使用数字方面差异巨大。

C) Speakers of anumeric, or numberless, languages offer a window into how the invention of numbers reshaped the human experience. Cultures without numbers, or with only one or two precise numbers,

include the Mundurucu and Piraha in Amazonia. Researchers have also studied some adults in Nicaragua who were never taught number words. Without numbers, healthy human adults struggle to precisely distinguish and recall quantities as low as four. In an experiment, a researcher will place nuts into a can one at a time and then remove them one by one. The person watching is asked to signal when all the nuts have been removed. Responses suggest that anumeric people have some trouble keeping track of how many nuts remain in the can, even if there are only four or five in total.

使用无数字语言或没有数字的语言的人为我们提供了一个窗口,让我们了解数字的发明如何重塑了人类的经历。没有数字或只有一两个精确数字的文化包括亚马逊流域的Mundurucu人和Piraha人。研究人员还研究了尼加拉瓜的一些从未被教过数字词的成年人。没有数字的情况下,健康的成年人很难精确区分和回忆低至四的数量。在一个实验中,研究人员会将坚果一次一个地放入罐中,然后再一个一个地取出。观看的人被要求在所有坚果都被取出时发出信号。回应表明,无数字的人在追踪罐中还剩多少坚果时会遇到困难,即使总共只有四五个。

- D) This and many other experiments have led to a simple conclusion: When people do not have number words, they struggle to make quantitative distinctions that probably seem natural to someone like you or me. While only a small portion of the world's languages are anumeric or nearly anumeric, they demonstrate that number words are not a human universal.

这个实验和许多其他实验得出了一个简单的结论:当人们没有数字词时,他们很难做出对你我这样的人来说可能很自然的数量区分。虽然世界上只有一小部分语言是无数字或接近无数字的,但它们证明了数字词并非人类的共性。

- E) It is worth stressing that these anumeric people are cognitively(在认知方面) normal, well-adapted to the surroundings they have dominated for centuries. As a child, I spent some time living with anumeric people, the Piraha who live along the banks of the black Maici River. Like other outsiders, I was continually impressed by their superior understanding of the ecology we shared. Yet numberless people struggle with tasks that require precise discrimination between quantities. Perhaps this should be unsurprising. After all, without counting, how can someone tell whether there are, say, seven or eight coconuts(椰子) in a tree? Such seemingly straightforward distinctions become blurry through numberless eyes.

值得强调的是,这些无数字的人在认知方面是正常的,很好地适应了他们统治了数百年的环境。作为一个孩子,我曾与无数字的人——生活在黑色Maici河岸边的Piraha人——一起生活过一段时间。像其他外来者一样,我不断被他们对我们共享的生态系统的卓越理解所打动。然而,没有数字的人在需要精确区分数量的任务上会遇到困难。也许这不足为奇。毕竟,如果不计数,一个人怎么能分辨树上有七个还是八个椰子呢?这种看似简单明了的区分通过没有数字的眼睛变得模糊。

- F) This conclusion is echoed by work with anumeric children in industrialized societies. Prior to being spoon-fed number words, children can only approximately discriminate quantities beyond three. We must be handed the cognitive tools of numbers before we can consistently and easily recognize higher quantities. In fact, acquiring the exact meaning of number words is a painstaking process that takes children years. Initially, kids learn numbers much like they learn letters. They recognize that numbers are organized sequentially, but have little awareness of what each individual number means. With time, they start to understand that a given number represents a quantity greater by one than the

number coming before it. This "successor principle" is part of the foundation of our numerical(数字的) cognition, but requires extensive practice to understand.

对工业化社会中无数字儿童的研究也证实了这一结论。在被灌输数字词之前,儿童只能大致区分三以上的数量。我们必须被赋予数字这一认知工具,才能持续且轻松地识别更高的数量。事实上,获得数字词的确切含义是一个艰苦的过程,需要儿童花费数年时间。最初,孩子们学习数字就像学习字母一样。他们认识到数字是按顺序组织的,但对每个单独数字的含义知之甚少。随着时间的推移,他们开始理解给定的数字代表比它之前的数字多一的数量。这个"后继原则"是我们数字认知基础的一部分,但需要大量练习才能理解。

- G) None of us, then, is really a "numbers person." We are not born to handle quantitative distinctions skillfully. In the absence of the cultural traditions that fill our lives with numbers from infancy, we would all struggle with even basic quantitative distinctions. Number words and their written forms transform our quantitative reasoning as they are introduced into our cognitive experience by our parents, peers and school teachers. The process seems so normal that we sometimes think of it as a natural part of growing up, but it is not. Human brains come equipped with certain quantitative instincts that are refined with age, but these instincts are very limited.

那么,我们中没有人真正是"数字型的人"。我们不是天生就能熟练处理数量区分的。如果没有从婴儿期就让我们生活充满数字的文化传统,我们都会甚至基本的数量区分上遇到困难。数字词及其书面形式在被我们的父母、同伴和学校老师引入我们的认知体验时,改变了我们的定量推理。这个过程看起来如此正常,以至于我们有时认为它是成长的自然组成部分,但事实并非如此。人类大脑配备了某些随年龄增长而精炼的定量本能,但这些本能非常有限。

- H) Compared with other mammals, our numerical instincts are not as remarkable as many assume. We even share some basic instinctual quantitative reasoning with distant non-mammalian relatives like birds. Indeed, work with some other species suggests they too can refine their quantitative thought if they are introduced to the cognitive power tools we call numbers.

与其他哺乳动物相比,我们的数字本能并不像许多人认为的那样出色。我们甚至与鸟类等遥远的非哺乳动物亲缘物种分享一些基本的本能定量推理。事实上,对其他一些物种的研究表明,如果它们被引入我们称之为数字的认知动力工具,它们也可以完善其定量思维。

- I) So, how did we ever invent "unnatural" numbers in the first place? The answer is, literally, at your fingertips. The bulk of the world's languages use base-10, base-20 or base-5 number systems. That is, these smaller numbers are the basis of larger numbers. English is a base-10 or decimal(十进制的) language, as evidenced by words like 14("four" + "10") and 31 ("three" x "10" + "one"). We speak a decimal language because an ancestral tongue, proto-Indo-European, was decimally based. Proto-Indo-European was decimally oriented because, as in so many cultures, our ancestors' hands served as the gateway to the realization that "five fingers on one hand is the same as five fingers on the other." Such momentary thoughts were represented in words and passed down across generations. This is why the word "five" in many languages is derived from the word for "hand." Most number systems, then, are the by-product of two key factors: the human capacity for language and our inclination for focusing on our hands and fingers. This manual fixation—an indirect by-product of walking upright on two legs—has helped yield numbers in most cultures, but not all.

那么,我们最初是如何发明"非自然"的数字的呢?答案就在你的指尖。世界上大多数语言使用十进制、二十进制或五进制数字系统。也就是说,这些较小的数字是较大数字的基础。英语是十进制或十进制语言,这可以从14("四"+"十")和31("三"×"十"+"一")等词中得到证明。我们说十进制语言是因为祖先语言原

始印欧语是十进制的。原始印欧语是十进制导向的,因为正如在许多文化中一样,我们祖先的手是通往"一只手上的五根手指与另一只手上的五根手指相同"这一认识的门户。这种瞬间的想法被用语言表达出来并代代相传。这就是为什么许多语言中"五"这个词源自"手"这个词。因此,大多数数字系统是两个关键因素的副产品:人类的语言能力和我们关注手和手指的倾向。这种对手的固着——用两条腿直立行走的间接副产品——帮助在大多数文化中产生了数字,但并非全部。

- J) Cultures without numbers also offer insight into the cognitive influence of particular numeric traditions. Consider what time it is. Your day is ruled by minutes and seconds, but these concepts are not real in any physical sense and are nonexistent to numberless people. Minutes and seconds are the verbal and written representations of an uncommon base-60 number system used in ancient Mesopotamia. They reside in our minds, numerical artifacts(人工制品) that not all humans inherit conceptually.

没有数字的文化也为我们提供了对特定数字传统的认知影响的洞察。想想现在是什么时间。你的一天由分钟和秒钟支配,但这些概念在任何物理意义上都不是真实的,对没有数字的人来说也是不存在的。分钟和秒钟是古代美索不达米亚使用的一种不常见的六十进制数字系统的口头和书面表达。它们存在于我们的头脑中,是并非所有人类在概念上都继承的数字人工制品。

- K) Research on the language of numbers shows, more and more, that one of our species' key characteristics is tremendous linguistic(语言的) and cognitive diversity. If we are to truly understand how much our cognitive lives differ cross-culturally, we must continually explore the depths of our species' linguistic diversity.

对数字语言的研究越来越多地表明,我们这个物种的关键特征之一是巨大的语言和认知多样性。如果我们要真正理解我们的认知生活在跨文化中有多大差异,我们必须不断探索我们物种语言多样性的深度。

陈述句与逐句解析

36. It is difficult for anumeric people to keep track of the change in numbers even when the total is very small.

对于不使用数字的人来说,即使总数很小,也很难追踪数字的变化。

【答案】 C 段(强锚点)

【锚点】 数量很小也跟不上变化

【定位】 Responses suggest that anumeric people have some trouble keeping track of how many nuts remain in the can, even if there are only four or five in total.

实验结果表明,无数字者很难追踪罐子里还剩多少颗坚果,即便总共只有四到五颗。

【改写】 keep track of the change in numbers ↔ keeping track of how many nuts remain in the can
具体数→抽象数的上位替换

even when the total is very small ↔ even if there are only four or five in total

模糊量词替换具体数字

【辨邻】 E seven or eight coconuts (椰子) in a tree是静态计数, 缺少“放进去再拿出来”的动态追踪, 无法覆盖陈题里的keep track of the change.

without counting, how can someone tell whether there are, say, seven or eight coconuts (椰子) in a tree?

37. Human numerical instincts are not so superior to those of other mammals as is generally believed.

人类的数字本能并不像人们普遍认为的那样优于其他哺乳动物。

【答案】 H 段 (强锚点)

【锚点】 与其他哺乳动物的对比

【定位】 Compared with other mammals, our numerical instincts are not as remarkable as many assume.

与其他哺乳动物相比, 我们的数字本能并没有许多人以为的那么了不起。

【改写】 Human numerical instincts ↔ **our numerical instincts**

代词替换

not so superior to those of other mammals ↔ **not as remarkable as many assume**

形容词同义替换

as is generally believed ↔ **as many assume**

主动到被动 + 近义词

【辨邻】 G Human brains come equipped with certain quantitative instincts侧重“人本能有限、需要后天培养”, 并未与其他哺乳动物作比较, 不能承载陈题的对比含义。

Human brains come equipped with certain quantitative instincts that are refined with age, but these instincts are very limited.

38. The author emphasizes being anumeric does not affect one's cognitive ability.

作者强调不使用数字并不影响一个人的认知能力。

【答案】 E 段 (强锚点)

【锚点】 无数字不影响认知能力

【定位】 It is worth stressing that these anumeric people are cognitively (在认知方面) normal, well-adapted to the surroundings they have dominated for centuries.

值得强调的是, 这些无数字者在认知上完全正常, 并且对自己掌控了数个世纪的环境适应良好。

【改写】 The author emphasizes ↔ **It is worth stressing**

强调信号词同义替换

being anumeric does not affect one's cognitive ability ↔

these anumeric people are cognitively (在认知方面) normal

正反表述等价

【辨邻】 G Human brains come equipped with certain quantitative instincts...but these instincts are very limited谈的是普遍本能有限，与“无数字者认知正常”这一具体强调不在一个层面。

these instincts are very limited

C Without numbers, healthy human adults struggle to precisely distinguish and recall quantities as low as four是在交代实验背景，并未出现“It is worth stressing / cognitively normal”这种作者强调的表达。

Without numbers, healthy human adults struggle to precisely distinguish and recall quantities as low as four.

39. In the long history of mankind, humans who use numbers are a very small minority.

在人类漫长的历史中,使用数字的人类只是极少数。

【答案】 B 段 (强锚点)

【锚点】 漫长历史里使用数字者是极少数

【定位】 But, in a historical sense, number-conscious people like us are the unusual ones.

但是，从历史的角度看，像我们这样有数字意识的人才是异常的少数。

【改写】 In the long history of mankind ↔ **in a historical sense**

历史视角对应

humans who use numbers are a very small minority ↔

number-conscious people like us are the unusual ones

异类即少数

【辨邻】 D While only a small portion of the world's languages are anumeric or nearly anumeric说的是无数字语言在所有语言中占比小，与陈题“历史长河中使用数字者占少数”含义相反。

While only a small portion of the world's languages are anumeric or nearly anumeric

40. An in-depth study of differences between human languages contributes to a true understanding of cognitive differences between cultures.

深入研究人类语言之间的差异有助于真正理解不同文化之间的认知差异。

【答案】 K 段 (强锚点)

【锚点】 深入研究语言差异以理解认知差异

【定位】 If we are to truly understand how much our cognitive lives differ cross-culturally, we must continually explore the depths of our species' linguistic diversity.

如果我们想真正理解人类的认知生活在不同文化之间差异有多大，就必须持续深入探索我们这一物种的语言多样性。

【改写】 An in-depth study of differences between human languages ↔

explore the depths of our species' linguistic diversity

名词化与动词化的对换

contributes to a true understanding of cognitive differences between cultures ↔

If we are to truly understand how much our cognitive lives differ cross-culturally

条件句转“有助于”

【辨邻】 **D** they demonstrate that number words are not a human universal只是事实陈述，
没有上升到“通过研究语言差异理解跨文化认知差异”的总论。

they demonstrate that number words are not a human universal

41. A conclusion has been drawn from many experiments that anumeric people have a hard time distinguishing quantities.

许多实验得出的结论是,不使用数字的人很难区分数量。

【答案】 **D** 段 (强锚点)

【锚点】 由大量实验得出的结论

【定位】 This and many other experiments have led to a simple conclusion: When people do not have number words, they struggle to make quantitative distinctions that probably seem natural to someone like you or me.

这个实验和许多其他实验得出了一个简单的结论: 当人们没有数字词时, 他们就很难做出在你我看来或许稀松平常的量化区分。

【改写】 A conclusion has been drawn from many experiments ↔

This and many other experiments have led to a simple conclusion

主动到被动

anumeric people have a hard time distinguishing quantities ↔

they struggle to make quantitative distinctions

短语同义替换

【辨邻】 **C** In an experiment, a researcher will place nuts into a can只讲了一个具体实验, 并未提出“多项实验得出一个总结论”这一总览式判断。

In an experiment, a researcher will place nuts into a can one at a time and then remove them one by one.

42. Making quantitative distinctions is not an inborn skill.

进行数量区分并非天生的技能。

【答案】 **G** 段 (强锚点)

【锚点】 量化区分非天生

【定位】 We are not born to handle quantitative distinctions skillfully.

我们并非天生就能熟练地做量化区分。

【改写】 Making quantitative distinctions ↔ **handle quantitative distinctions skillfully**

动词替换

not an inborn skill ↔ **We are not born to**

形容词与不定式的等值

【辨邻】 **F** acquiring the exact meaning of number words is a painstaking process that takes children years描述的是后天习得的难度过程，不是直接对“天生能力”的否定判断。

| acquiring the exact meaning of number words is a painstaking process that takes children years

H our numerical instincts are not as remarkable as many assume是与其他物种相比，而陈题强调“在人内部，量化区分非天生”，落点不同。

| our numerical instincts are not as remarkable as many assume

43. Every aspect of our lives is affected by numbers.

我们生活的方方面面都受到数字的影响。

【答案】 **A** 段（强锚点）

【锚点】 生活方方面面被数字影响

【定位】 The exact numbers we think with impact everything in our lives.

我们头脑里所用的那些精确数字影响着我们生活的方方面面。

【改写】 Every aspect of our lives is affected by numbers ↔

The exact numbers we think with impact everything in our lives

全称量词 + 近义动词 + 主被动转换

【辨邻】 **J** Your day is ruled by minutes and seconds虽涉及日常被数字管，但只覆盖时间这一个维度，不足以对位陈题的“every aspect”。

| Your day is ruled by minutes and seconds

44. Larger numbers are said to be built upon smaller numbers.

据说较大的数字是建立在较小的数字之上的。

【答案】 **I** 段（强锚点）

【锚点】 大数建立在小数之上

【定位】 That is, these smaller numbers are the basis of larger numbers.

也就是说，这些较小的数字是较大数字的基础。

【改写】 Larger numbers are said to be built upon smaller numbers ↔

these smaller numbers are the basis of larger numbers

主客易位 + 介词关系替换

【辨邻】 J base-60 number system used in ancient Mesopotamia只交代了某进制的来源，没有“小数构成大数”的关系说明。

base-60 number system used in ancient Mesopotamia

45. It takes great efforts for children to grasp the concept of number words.

儿童需要付出巨大努力才能掌握数词的概念。

【答案】 F 段 (强锚点)

【锚点】 孩子掌握数字词需付出巨大努力

【定位】 In fact, acquiring the exact meaning of number words is a painstaking process that takes children years.

事实上，孩子要真正掌握数字词的确切含义，是一个让他们要花上数年的艰苦过程。

【改写】 It takes great efforts for children ↔ **a painstaking process that takes children years**
“painstaking + takes years” = “great efforts”

grasp the concept of number words ↔ **acquiring the exact meaning of number words**

动词同义替换

【辨邻】 G Number words and their written forms transform our quantitative reasoning as they are introduced into our cognitive experience by our parents, peers and school teachers虽然提及孩子的学习来源，但落点在“后天获得”，并未刻画孩子掌握数字词的“数年艰辛”。

Number words and their written forms transform our quantitative reasoning as they are introduced into our cognitive experience by our parents, peers and school teachers.

PARAGRAPH MAP • 段落主旨图

11 个段落各讲了什么

逐段一句主旨 + 该段最具区分度的「信息指纹」，是逐句回扫定位的工作台。

A 用亚马逊无数字部落与现代人作对比，指出他们只用a few或some这类模糊量词，而我们的生活完全被精确数字所支配。

信息指纹 数字支配生活方方面面

B 从历史尺度看，我们这种用数字的人才是少数派；在人类约二十万年的寿命中，绝大多数时间都没有精确表征数量的手段。

信息指纹 二十万年的历史尺度

C 通过亚马逊的Mundurucu and Piraha以及尼加拉瓜成人案例，引出实验：把坚果一颗颗放进罐子再拿出，无数字者哪怕只有四五颗也难以判断罐内是否还剩。

信息指纹 坚果罐实验

D 从大量实验中得出一个简单结论：没有数字词的人在量上的细分时会很吃力，这说明数字词并非全人类通用。

信息指纹 实验汇总后的简单结论

E 作者强调无数字者在认知上完全正常，并以自己童年与Piraha共同生活为例，赞叹他们对生态环境的理解远超外来者；他们只是在需要精确量化区分时才会吃力。

信息指纹 认知正常 + 童年与皮拉哈共处

F 工业社会的孩子在被反复喂数字之前，也只能粗略区分三以上的数量；真正掌握数字含义是一个耗时多年的艰苦过程，孩子要慢慢领会successor principle。

信息指纹 孩子学数字是漫长艰辛过程

G 因此没有人是天生的数字人；定量区分能力不是与生俱来的，而是被父母、同伴和老师用数字词与书写形式后天塑造的。

信息指纹 无人天生擅长数字

H 与其他哺乳动物相比，人类的数字本能并没有人们以为的那么了不起，甚至与鸟类等远房非哺乳动物也共享某些基本的量化直觉。

信息指纹 本能不比其他哺乳动物高明

I 解释数字是怎样被发明出来的：答案就在指尖。世界上多数语言采用十进制、二十进制或五进制——大数由小数搭建而来，根源是祖先用手指指数。

信息指纹 大数建立在小数之上的进制系统

J

无数字文化也让我们看到特定计数传统的认知影响：分钟和秒只是古美索不达米亚六十进制的产物，对无数字者并不存在。

信息指纹 六十进制与分秒

K

对数字语言的研究越来越说明：人类的关键特征之一是巨大的语言与认知多样性；要真正理解跨文化的认知差异，必须持续探索语言多样性。

信息指纹 靠探索语言多样性理解认知差异

SENTENCE INSIGHTS • 句子精讲

14 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

In contrast, our own lives are governed by numbers.

A段，第4句

被动语态 + 状语的组合在四六级和考研阅读中非常常见，尤其是科技、社会类文章经常用被动语态陈述客观事实。句首的对比状语“In contrast”也是典型的逻辑衔接手段。结构具有较好的代表性和迁移价值。

What's more, the 7,000 or so languages that exist today vary dramatically in how they utilize numbers.

B段，第3句

主语带定语从句修饰加状语中嵌宾语从句的结构，在四六级和考研阅读中极为常见，属于学术文本的标准句式，掌握后可复用于大量同类句子的分析。

After all, without counting, how can someone tell whether there are, say, seven or eight coconuts(椰子) in a tree?

E段，第6句

包含情态动词疑问句 + 宾语从句的结构在四六级和考研阅读中高频出现，“whether”引导的宾语从句也是常考句式。疑问句形式和从句嵌套的组合具备较强的代表性，掌握后可迁移到大量类似句型。

In fact, acquiring the exact meaning of number words is a painstaking process that takes children years.

F段，第4句

动名词短语作主语、系动词后接名词表语、再用定语从句补充说明，这类结构在考试阅读中非常常见。掌握这句的拆解方法，能迁移到大量类似句子。

Initially, kids learn numbers much like they learn letters.

F段，第5句

"much like" 引导的比较从句作方式状语是考试中较常见的句式,具有一定代表性,但整体结构偏简单,典型性中等,不如多层嵌套的复合句那样高频出现在四六级或考研阅读中。

In the absence of the cultural traditions that fill our lives with numbers from infancy, we would all struggle with even basic quantitative distinctions.

G段，第3句

本句结构在四六级和考研阅读中非常典型：前置状语 + 虚拟语气主句，且状语内嵌套定语从句。这种结构常用于论证文和说明文，表达假设推理或对比论证。掌握这种句式后，可以应对大量类似的长难句。

Compared with other mammals, our numerical instincts are not as remarkable as many assume.

H段，第1句

"not as ... as" 比较结构和分词短语作状语都是四六级和考研阅读中的高频句式。比较从句中的省略现象也是真题常见考点。本句结构具有很强的代表性，掌握后可以迁移到大量类似句子的理解和分析中。

So, how did we ever invent "unnatural" numbers in the first place?

I段，第1句

特殊疑问句是四六级和考研阅读中的常见句式，how did 开头的疑问句尤其高频，用于探讨原因、方式或过程；本句的状语配置（ever 强化疑问、in the first place 表时间）和宾语结构（带引号的名词短语）也较为典型，学习后可迁移到大量同类疑问句的理解中。

That is, these smaller numbers are the basis of larger numbers.

I段，第4句

主系表结构是常见句式，表语中使用介词短语作后置定语也较典型，但整体过于简单，缺少考试中常见的复杂修饰、从句嵌套或特殊结构，代表性一般。

Proto-Indo-European was decimally oriented because, as in so many cultures, our ancestors' hands served as the gateway to the realization that "five fingers on one hand is the same as five fingers on the other."

I段，第7句

原因状语从句、同位语从句、系表结构都是四六级和考研常考句式。特别是 "because" 引导的原因状语从句嵌套同位语从句，以及 "that" 引导的同位语从句说明抽象名词内容，这些都是真题中频繁出现的结构。掌握本句的分析方法可迁移到大量类似句子。

This is why the word "five" in many languages is derived from the word for "hand."

I段，第9句

This is why 引导表语从句是四六级和考研阅读中的高频句式，常用于说明原因。被动语态、后置定语、介词短语作状语也是真题常见结构，学习后可迁移到大量类似句子。

If we are to truly understand how much our cognitive lives differ cross-culturally, we must continually explore the depths of our species' linguistic diversity.

K段，第2句

条件状语从句 + 主句是四六级和考研阅读的高频结构，宾语从句嵌套在状语从句中也是常见句式。"If... we must..." 的逻辑链条在学术写作和论证中反复出现，典型性很强，掌握后可广泛迁移。

Human numerical instincts are not so superior to those of other mammals as is generally believed.

第37题题干

本句涵盖主系表结构、比较状语、省略主语的被动语态分句、代词指代 ("those" 指代 "instincts")、"so ... as" 比较结构等多种成分和语法点，适合训练学生识别比较结构、处理省略现象和辨析状语从句的能力。

It takes great efforts for children to grasp the concept of number words.

第45题 题干

"It takes... for sb to do sth" 是四六级和考研阅读中的高频句式，用于表达完成某事所需的时间、努力或条件，掌握后可大量迁移到类似句型（如 "It is important for..."、"It seems... for..."）的理解和使用中，具有很强的代表性。

QUESTIONS & ANALYSIS • 阅读理解题和解析

阅读理解题和解析·46-50 题

本页 46-50 题的答案与逐题解析由懒笔记基于2021年6月·第2套 英语四级阅读理解（四选一）原卷逐题核对整理。与试卷排版同一卷面：先是 Directions 与 7 段原文（段首标 P1-P7 段号、逐段附中文翻译）；之后 5 道题逐题排列，每题英文题干与选项后紧接本题解析——题干与选项中译、答案、题型判定、题干拆句、定位句中英对照与逐选项对错归因。

真题卷第2套(2021-06) • 四级

Part III Section C (1)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

P1 Sugar shocked. That describes the reaction of many Americans this week following revelations that, 50 years ago, the sugar industry paid Harvard scientists for research that shifted the focus away from sugar's role in heart disease—and put the spotlight(注意的中心) squarely on dietary fat.

糖业震惊。这描述了本周许多美国人的反应,此前有披露称,50年前,糖业向哈佛科学家支付费用进行研究,将焦点从糖在心脏病中的作用转移开——并将注意的中心直接放在膳食脂肪上。

P2 What might surprise consumers is just how many present-day nutrition studies are still funded by the food industry. Nutrition scholar Marion Nestle of New York University spent a year informally tracking industry-funded studies on food. "Roughly 90% of nearly 170 studies favored the sponsor's interest," Nestle tells us. Other systematic reviews support her conclusions.

可能让消费者感到惊讶的是,当今仍有多少营养研究是由食品行业资助的。纽约大学营养学者Marion Nestle花了一年时间非正式地追踪食品行业资助的研究。"在近170项研究中,大约90%的研究有利于赞助商的利益,"Nestle告诉我们。其他系统性综述也支持她的结论。

P3 For instance, studies funded by Welch Foods—the brand behind Welch's 100% Grape Juice—found that drinking Concord grape juice daily may boost brain function. Another, funded by Quaker

Oats, concluded, as a Daily Mail story put it, that "hot oatmeal(燕麦粥) breakfast keeps you full for longer."

例如,由Welch Foods资助的研究——该品牌是Welch's 100%葡萄汁的生产商——发现每天饮用Concord葡萄汁可能会提升大脑功能。另一项由Quaker Oats资助的研究得出结论,正如《每日邮报》的一篇报道所说,"热燕麦粥早餐让你更长时间保持饱腹感"。

P4 Last year, The New York Times revealed how Coca-Cola was funding well-known scientists and organizations promoting a message that, in the battle against weight gain, people should pay more attention to exercise and less to what they eat and drink. Coca-Cola also released data detailing its funding of several medical institutions and associations between 2010 and 2015.

去年,《纽约时报》披露了可口可乐公司如何资助知名科学家和组织来宣传一个信息,即在对抗体重增加的战斗中,人们应该更多地关注运动,而不是他们的饮食。可口可乐公司还公布了详细说明其在2010年至2015年间资助若干医疗机构和协会的数据。

P5 "It's certainly a problem that so much research in nutrition and health is funded by industry," says Bonnie Liebman, director of nutrition at the Center for Science in the Public Interest. "When the food industry pays for research, it often gets what it pays for." And what it pays for is often a pro-industry finding.

"营养和健康领域如此多的研究由行业资助,这确实是个问题,"公共利益科学中心营养主任Bonnie Liebman说。"当食品行业为研究付费时,它往往得到它所付费想要的结果。"而它付费想要的往往是有利于行业的发现。

P6 Given this environment, consumers should be skeptical(怀疑的) when reading the latest finding in nutrition science and ignore the latest study that pops up on your news feed. "Rely on health experts who've reviewed all the evidence," Liebman says, pointing to the official government Dietary Guidelines, which are based on reviews of hundreds of studies.

鉴于这种环境,消费者在阅读营养科学的最新发现时应该持怀疑态度,并忽略出现在你的新闻推送中的最新研究。"依靠那些审查了所有证据的健康专家,"Liebman说,她指出官方政府膳食指南是基于对数百项研究的审查。

P7 "And that expert advice remains pretty simple," says Nestle. "We know what healthy diets are—lots of vegetables, not too much junk food, balanced calories. Everything else is really difficult to do experimentally."

"而且专家建议依然相当简单,"Nestle说。"我们知道什么是健康饮食——大量蔬菜,不要太多垃圾食品,平衡卡路里。其他一切在实验上都真的很难做到。"

题目与逐题解析

46. What did Harvard scientists do 50 years ago?

- A) They raised public awareness of the possible causes of heart disease.
- B) They turned public attention away from the health risks of sugar to fat.
- C) They placed the sugar industry in the spotlight with their new findings.
- D) They conducted large-scale research on the role of sugar in people's health.

50年前哈佛大学的科学家们做了什么？

- A) 他们提高了公众对心脏病可能致病因素的认识。
- B) 他们将公众的注意力从糖的健康风险转移到脂肪上。 c) 他们用新发现将糖业置于聚光灯下。
- D) 他们就糖在人体健康中的作用进行了大规模研究。

【答案】 B (细节题)

【判型】 What did Harvard scientists do 50 years ago? 问的是过去某个具体行为，答案应是定位段对该行为的客观陈述。

【拆句】 What did Harvard scientists do 50 years ago? 是 what 引导的一般疑问句，主语 Harvard scientists，时间状语 50 years ago，结构平铺直叙，无陷阱。

【定位】 Sugar shocked. That describes the reaction of many Americans this week following revelations that, 50 years ago, the sugar industry paid Harvard scientists for research that shifted the focus away from sugar's role in heart disease—and put the spotlight(注意的中心) squarely on dietary fat.

糖业震惊。这描述了本周许多美国人在得知一桩内幕后的反应——50年前，糖业出钱请哈佛科学家做研究，把心脏病的责任焦点从糖身上挪开，狠狠地压在了膳食脂肪头上。

【选项】 A) 无中生有

raised public awareness of the possible causes of heart disease 说哈佛科学家"提高了公众对心脏病病因的认知", 但原文只说他们"转移焦点", 从未提及"提高认知", 且行为方向相反——是误导而非启蒙。

B) ✓ 正确

shifted the focus away from sugar's role in heart disease—and put the spotlight(注意的中心) squarely on dietary fat

↔ turned public attention away from the health risks of sugar to fat

预判内容"把心脏病矛头从糖转向脂肪"与 turned public attention away from the health risks of sugar to fat 在框架、对象、方向上完全重合, 即同义替换型正确项。

C) 与原文相反

placed the sugar industry in the spotlight with their new findings 说研究让"糖业"成为焦点, 与原文 put the spotlight(注意的中心) squarely on dietary fat 恰恰相反——焦点是脂肪而非糖业。

D) 无中生有

conducted large-scale research on the role of sugar in people's health 强调"大规模"研究, 但原文未提及研究规模, 只说糖业出钱资助; 且研究内容不是"糖与健康的作用"而是"转移焦点"。

47. What does Marion Nestle say about present-day nutrition studies?

- A) They took her a full year to track and analyze.
- B) Most of them are based on systematic reviews.
- C) They depend on funding from the food industries.
- D) Nearly all of them serve the purpose of the funders.

Marion Nestle对当今营养学研究有何看法?

- A) 这些研究花了她整整一年时间来追踪和分析。
- B) 它们大多基于系统性综述。
- C) 它们依赖于食品行业的资助。
- D) 几乎所有研究都服务于资助方的目的。

【答案】 D (细节题)

【判型】 What does Marion Nestle say about present-day nutrition studies? 直接索取一个人对一事的具体说法, 答案应是文中该人原话的转述。

【拆句】 What does Marion Nestle say about present-day nutrition studies? 主干 What...does Marion Nestle say, about 引出宾语补足语限定 say 的内容范围; 句法直白。

【定位】 "Roughly 90% of nearly 170 studies favored the sponsor's interest," Nestle tells us. Nestle 告诉我们: "在近 170 项研究里, 约 90% 的结果都偏向于资助方的利益。"

【选项】 A) 答非所问

They took her a full year to track and analyze 说"研究花了她一整年追踪", 对应原文 spent a year informally tracking, 但这是关于 Nestle 的研究方法, 不是她对"present-day nutrition studies"本身的看法, 答非所问。

B) 张冠李戴

Most of them are based on systematic reviews 把"systematic reviews"安到"present-day nutrition studies"头上, 但原文 Other systematic reviews support her conclusions 是说"其他系统性综述支持 Nestle 的结论", systematic reviews 是支持她的工具, 不是被她评论的研究的本质。

C) 偷换概念

They depend on funding from the food industries 说"研究依赖食品业资助", 是"资金来源"层面的事实, 而原文 Nestle 强调的是"研究结论偏向资助方"——把"结论偏袒"偷换成了"资金依赖"。两者层面不同。

D) ✓ 正确

Roughly 90% of nearly 170 studies favored the sponsor's interest ↔

Nearly all of them serve the purpose of the funders

预判"九成研究服务资助方利益"与 Nearly all of them serve the purpose of the funders 在数量级、动作、对象三层全部对齐, 是教科书级同义替换正确项。

48. What did Coca-Cola-funded studies claim?

- A) Exercise is more important to good health than diet.
- B) Choosing what to eat and drink is key to weight control.
- C) Drinking Coca-Cola does not contribute to weight gain.
- D) The food industry plays a major role in fighting obesity.

可口可乐资助的研究声称什么?

- A) 运动对健康的重要性超过饮食。 B) 选择吃什么和喝什么是控制体重的关键。
- C) 饮用可口可乐不会导致体重增加。 D) 食品行业在对抗肥胖方面发挥着重要作用。

【答案】 A (细节题)

【判型】 What did Coca-Cola-funded studies claim? 问被可口可乐资助的研究主张了什么, 答案是文中明示的论断。

【拆句】 What did Coca-Cola-funded studies claim? 主语 Coca-Cola-funded studies 是"名词-funded 复合形容词+名词"结构, 意为"被可口可乐资助的研究"; 句意直白。

【定位】 Last year, The New York Times revealed how Coca-Cola was funding well-known scientists and organizations promoting a message that, in the battle against weight gain, people should pay more attention to exercise and less to what they eat and drink.

去年《纽约时报》披露, 可口可乐资助知名科学家和组织, 宣扬这样一种主张: 在对抗体重增长的战斗中, 人们应更看重运动, 而不是吃了什么、喝了什么。

【选项】 A) ✓ 正确

in the battle against weight gain, people should pay more attention to exercise and less to what they eat and drink

↔ **Exercise is more important to good health than diet**

预判"重运动而轻饮食"与 Exercise is more important to good health than diet 的"运动比饮食更重要"严格等价；定位句的 more/less 平行结构本身就是隐性比较。

B) 与原文相反

Choosing what to eat and drink is key to weight control 说"吃喝选择是控重关键", 与原文 less to what they eat and drink"少在乎吃喝"完全相反——可口可乐研究恰恰要弱化饮食责任。

C) 无中生有

Drinking Coca-Cola does not contribute to weight gain 凭空捏造一句"喝可乐不会增重", 原文从未出现此论断；可口可乐资助研究只是"转移注意力"到运动, 并未直接为可乐本身辩护。

D) 偷换概念

The food industry plays a major role in fighting obesity 说"食品业在抗肥胖中起重要作用", 看似与原文相关, 但原文是说"可口可乐资助研究让人忽视饮食", 并未把食品业塑造为"抗肥胖功臣"; 把"产业操纵议程"偷换成了"产业贡献抗肥胖"。

49. What does Liebman say about industry-funded research?

- A) It simply focuses on nutrition and health.
- B) It causes confusion among consumers.
- C) It rarely results in objective findings.
- D) It runs counter to the public interest.

Liebman对行业资助的研究有何看法？

- A) 它只关注营养和健康。
- B) 它在消费者中造成困惑。
- C) 它很少产生客观的研究结果。
- D) 它违背公共利益。

【答案】 C (细节题)

【判型】 What does Liebman say about industry-funded research? 同 Q47 同款句式, 仍是细节题, 定位到 Liebman 引语即可。

【拆句】 What does Liebman say about industry-funded research? 结构同 Q47; industry-funded 是"名词-过去分词"复合形容词, 表被动"被产业资助的"。

【定位】 "When the food industry pays for research, it often gets what it pays for." And what it pays for is often a pro-industry finding.

"当食品业出钱做研究时, 它常常能买到自己想要的结论。"而它想买的, 往往是一个对产业有利的结果。

【选项】 A) 答非所问

It simply focuses on nutrition and health 只说研究"聚焦营养健康", 是话题描述, 未触及 Liebman 对"业内资助偏袒"的核心评价; 属答非所问。

B) 无中生有

It causes confusion among consumers 说"造成消费者困惑", 原文 P5 Liebman 谈的是"研究结论偏袒产业", 未提及消费者困惑这一后果——"困惑"是后文 (P6) 作者建议引出的语境, 但不是 Liebman 的直接评价。

C) ✓ 正确

what it pays for is often a pro-industry finding ↔ **It rarely results in objective findings**

When the food industry pays for research, it often gets what it pays for ↔

It rarely results in objective findings

预判"买到的多是偏袒产业的结论"与 It rarely results in objective findings 是同一事实的正反描述: 常偏袒=极少客观。

D) 过度推断

It runs counter to the public interest 跨越"研究偏袒产业"直接推到"与公众利益对立"——这是合理但过度的引申。原文只说结论亲产业, 没有明示"对立于公众利益", 且 Liebman 所在机构名 Center for Science in the Public Interest 是机构名而非她的论断。

50. What is the author's advice to consumers?

- A) Follow their intuition in deciding what to eat.
- B) Be doubtful of diet experts' recommendations.
- C) Ignore irrelevant information on their news feed.
- D) Think twice about new nutrition research findings.

作者对消费者的建议是什么?

- A) 在决定吃什么时遵循自己的直觉。 B) 对饮食专家的建议持怀疑态度。
- C) 忽略新闻推送中的无关信息。 D) 对新的营养学研究发现要三思而后行。

【答案】 D (细节题)

【判型】 What is the author's advice to consumers? 问的是一项具体行动建议, 答案是文末作者明示的劝告, 仍属细节题 (非笼统主旨)。

【拆句】 What is the author's advice to consumers? What is 主系表结构, 主语 the author's advice, 介词短语 to consumers 修饰 advice 表对象; 无难点。

【定位】 Given this environment, consumers should be skeptical(怀疑的) when reading the latest finding in nutrition science and ignore the latest study that pops up on your news feed.

鉴于这种环境, 消费者读到营养科学的最新发现时应当保持怀疑, 并对新闻推送里冒出来的最新研究置之不理。

【选项】 A) 与原文相反

Follow their intuition in deciding what to eat 让消费者"凭直觉决定吃什么", 与原文末段 Rely on health experts who've reviewed all the evidence (依赖审过全部证据的健康专家) 方向相反——作者要的是依赖权威而非凭直觉。

B) 与原文相反

Be doubtful of diet experts' recommendations 让消费者"怀疑膳食专家的建议", 但原文恰恰相反 Rely on health experts who've reviewed all the evidence——要怀疑的是"业内出资的最新研究", 不是"健康专家"。

C) 偷换概念

Ignore irrelevant information on their news feed 让消费者"忽略新闻推送里的无关信息", 但原文 ignore the latest study that pops up on your news feed 让消费者忽略的是"新闻推送里冒出的最新研究"——把"最新研究"偷换成"无关信息", 对象被偷偷扩大并改性质。

D) ✓ 正确

consumers should be skeptical(怀疑的) when reading the latest finding in nutrition science ↔

Think twice about new nutrition research findings

预判"对新研究保持怀疑"与 Think twice about new nutrition research findings 在态度(怀疑↔三思)与对象(最新营养发现↔新营养研究结论)两层都对齐。

SENTENCE INSIGHTS • 句子精讲

6 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

That describes the reaction of many Americans this week following revelations that, 50 years ago, the sugar industry paid Harvard scientists for research that shifted the focus away from sugar's role in heart disease—and put the spotlight(注意的中心) squarely on dietary fat.

第1段，第2句

同位语从句说明抽象名词内容、定语从句嵌套修饰、并列谓语共用主语，这些都是四六级和考研阅读中的高频结构。句式复杂度和长度也符合真题水平，掌握后可大量复用到类似长难句的分析中。

What might surprise consumers is just how many present-day nutrition studies are still funded by the food industry.

第2段，第1句

本句结构高度典型。主语从句和表语从句是四六级和考研阅读中的高频句式，尤其是"What...is..."和"how many...are..."这两种结构在真题中反复出现。被动语态"are funded by"也是常考点。掌握本句的分析方法后，可直接迁移到大量类似句子，学习收益高。

For instance, studies funded by Welch Foods—the brand behind Welch's 100% Grape Juice—found that drinking Concord grape juice daily may boost brain function.

第3段，第1句

主句带后置定语修饰主语、宾语从句补充谓语内容，这是四六级和考研真题中的典型句式。宾语从句中动名词作主语也是常考结构。学生掌握后可迁移至大量类似句子。

Last year, The New York Times revealed how Coca-Cola was funding well-known scientists and organizations promoting a message that, in the battle against weight gain, people should pay more attention to exercise and less to what they eat and drink.

第4段，第1句

多层宾语从句和同位语从句的嵌套是四六级和考研阅读的高频句式。特别是 reveal/show/indicate 等动词后接 how/that/what 引导的宾语从句,以及名词后接 that 引导的同位语从句说明内容,都是真题中反复出现的典型结构,掌握后可大量复用。

The food industry plays a major role in fighting obesity.

第48题，D

主谓宾加后置定语的结构在考试阅读中较为常见，"play a role in" 也是典型搭配，具有一定代表性。但简单句本身在真题长难句中占比不高，更多是作为复杂句的一部分出现，因此作为独立句型的典型性中等。

It runs counter to the public interest.

第49题，D

本句覆盖了主语、谓语、状语三种基本成分，但成分种类较少且结构简单。其中 "counter to the public interest" 作为方式或方向状语，以及 "run" 作为不及物动词后接状语而非宾语的用法，对初学者有一定训练价值，但缺乏宾语、定语、补语等更丰富的成分类型，整体训练收益中等偏低。

真题卷第2套(2021-06) • 四级

Part III Section C (2)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage Two

Questions 51 to 55 are based on the following passage.

P1 Success was once defined as being able to stay at a company for a long time and move up the corporate ladder. The goal was to reach the top, accumulate wealth and retire to a life of ease. My father is a successful senior executive. In 35 years, he worked for only three companies.

成功曾经被定义为能够在一家公司长期工作并沿着企业阶梯向上攀升。目标是达到顶峰，积累财富，然后退休过上安逸的生活。我的父亲是一位成功的高级管理人员。在35年里，他只为三家公司工作过。

P2 When I started my career, things were already different. If you weren't changing companies every three or four years, you simply weren't getting ahead in your career. But back then, if you were a consultant or freelancer(自由职业者), people would wonder what was wrong with you. They would assume you had problems getting a job.

当我开始职业生涯时，情况已经不同了。如果你不是每三四年就换一次公司，你根本无法在职业生涯中取得进步。但在那时，如果你是顾问或自由职业者，人们会怀疑你有什么问题。他们会认为你找工作有困难。

P3 Today, consulting or freelancing for five businesses at the same time is a badge of honor. It shows how valuable an individual is. Many companies now look to these "ultimate professionals" to solve problems their full-time teams can't. Or they save money by hiring "top-tier(顶尖的) experts" only for particular projects.

如今，同时为五家企业提供咨询或自由职业服务是一种荣誉徽章。它显示了一个人有多么宝贵。许多公司现在寻求这些“终极专业人士”来解决他们全职团队无法解决的问题。或者他们通过仅为特定项目雇用“顶尖

专家"来节省资金。

P4 Working at home or in cafes, starting businesses of their own, and even launching business ventures that eventually may fail, all indicate "initiative," "creativity," and "adaptability," which are desirable qualities in today's workplace. Most important, there is a growing recognition that people who balance work and play, and who work at what they are passionate about, are more focused and productive, delivering greater value to their clients.

在家或在咖啡馆工作,创办自己的企业,甚至发起最终可能失败的商业项目,这些都表明了"主动性"、"创造力"和"适应能力",这些都是当今职场中令人向往的品质。最重要的是,人们越来越认识到,那些平衡工作与娱乐、从事自己热爱的工作的人更加专注和高效,为客户提供更大的价值。

P5 Who are these people? They are artists, writers, programmers, providers of office services and career advice. What's needed now is a marketplace platform specifically designed to bring freelancers and clients together. Such platforms then become a place to feature the most experienced, professional, and creative talent. This is where they conduct business, where a sense of community reinforces the culture and values of the gig economy(零工经济), and where success is rewarded with good reviews that encourage more business.

这些人是谁?他们是艺术家、作家、程序员、办公服务提供者和职业建议提供者。现在需要的是一个专门设计用来将自由职业者和客户聚集在一起的市场平台。这样的平台随后成为展示最有经验、最专业和最有创造力的人才的地方。这是他们开展业务的地方,在这里社区意识强化了零工经济的文化和价值观,成功会获得良好评价的奖励,从而鼓励更多业务。

P6 Slowly but surely, these platforms create a bridge between traditional enterprises and this emerging economy. Perhaps more important, as the global economy continues to be disrupted by technology and other massive change, the gig economy will itself become an engine of economic and social transformation.

这些平台正在缓慢但稳定地在传统企业和这个新兴经济体之间搭建桥梁。也许更重要的是,随着全球经济继续被技术和其他重大变革所颠覆,零工经济本身将成为经济和社会转型的引擎。

题目与逐题解析

51. What does the author use the example of his father to illustrate?

- A) How long people took to reach the top of their career.
- B) How people accumulated wealth in his father's time.
- C) How people viewed success in his father's time.
- D) How long people usually stayed in a company.

作者用他父亲的例子来说明什么?

- A) 人们花多长时间到达职业生涯的顶峰。
- B) 在他父亲的时代,人们如何积累财富。
- C) 在他父亲的时代,人们如何看待成功。
- D) 人们通常在一家公司待多久。

【答案】 C (例证目的题)

【判型】 题干What does the author use the example of his father to illustrate?里use the example...to illustrate是例证目的题的标志句式。

【拆句】 What does the author use the example of his father to illustrate?主干是What does the author use...to illustrate, 宾语the example of his father插在use和to illustrate之间, 可还原为The author uses the example of his father to illustrate what? 句子结构清晰, 无陷阱。

【定位】 Success was once defined as being able to stay at a company for a long time and move up the corporate ladder. The goal was to reach the top, accumulate wealth and retire to a life of ease. My father is a successful senior executive. In 35 years, he worked for only three companies. 成功曾经被定义为能在一家公司长期任职、并沿企业晋升阶梯向上攀升。其目标是登上顶峰、积累财富、退休享福。我父亲是一位成功的高级主管。35年里他只为三家公司工作过。

【选项】 A) **把例子局部细节当成例证目的=以偏概全**

A项How long people took to reach the top of their career.只截取了例子里"长期任职"这层片面信息, 且"花多久到顶"是文中未直接给出的时间细节。

B) **拎走并列项里的一个=以偏概全**

B项How people accumulated wealth in his father's time.把原文里accumulate wealth截出来做主旨, 但accumulate wealth只是论点中目标的一个并列项, 并非例子要说明的核心。

C) **✓ 正确**

Success was once defined as being able to stay at a company for a long time and move up the corporate ladder.

↔ **How people viewed success in his father's time.**

C项把"父辈时代人们如何看待成功"完整对应原文论点句的语义, 例子(35年三家公司)正是这个看法的证据。

D) **把例子字面=目的, 是答非所问**

D项How long people usually stayed in a company.几乎是父亲例子(he worked for only three companies 35年)的复述, 问的是"例子表面讲了啥", 而题问的是"例子用来证明啥"。

52. Why did people often change jobs when the author started his career?

A) It was considered a fashion at that time.

B) It was a way to advance in their career.

C) It was a response to the changing job market.

D) It was difficult to keep a job for long.

当作者开始他的职业生涯时,为什么人们经常换工作?

A) 这在当时被认为是一种时尚。 B) 这是一种在职业生涯中晋升的方式。

C) 这是对不断变化的就业市场的回应。 D) 长期保住一份工作很困难。

【答案】 B (细节题)

【判型】 Why did people often change jobs when the author started his career?问的是当时换工作背后的具体原因, 答案能在原文里找到对应表述。

【拆句】 Why did people often change jobs when the author started his career?主干Why did people change jobs, 后接when引导的时间状语从句, 结构平铺直叙, 无陷阱。

【定位】 If you weren't changing companies every three or four years, you simply weren't getting ahead in your career.

如果你没在每三四年换一次公司, 那你的职业基本就没在前进。

【选项】 A) 无中生有

A项It was considered a fashion at that time.里的fashion (流行风尚) 在原文中无任何对应表述, 作者强调的是"不换就升不上去"的功利动因, 而非流行潮流。

B) ✓ 正确

If you weren't changing companies every three or four years, you simply weren't getting ahead in your career.

↔ It was a way to advance in their career.

从预判"换工作是为了职业前进"出发, B项直接以a way to advance in their career对位, 完全覆盖定位句的正面含义。

C) 偷换概念

C项It was a response to the changing job market.把换工作说成是对"职场变化"的被动响应, 原文给出的是主动追求职业前进的内在动因, 逻辑方向相反。

D) 与原文相反

D项It was difficult to keep a job for long.说当时"很难长期保住一份工作", 原文说的是"如果想前进就得自己换", 并非工作保不住; D项把主动换岗读成被动失业。

53. What does the author say about people now working for several businesses at the same time?

- A) They are often regarded as most treasured talents.
- B) They are able to bring their potential into fuller play.
- C) They have control over their life and work schedules.
- D) They feel proud of being outstanding problem solvers.

关于现在同时为几家企业工作的人,作者说了什么?

- A) 他们常被视为最宝贵的人才。 B) 他们能够更充分地发挥自己的潜力。
- C) 他们能够掌控自己的生活和工作日程。 D) 他们为自己是杰出的问题解决者而感到自豪。

【答案】 A (细节题)

【判型】 What does the author say about people now working for several businesses at the same time?问的是作者对该群体的具体评价, 原文应有直接陈述。

【拆句】 What does the author say about people now working for several businesses at the same time?主干What does the author say about people, working for several businesses at the same time是people的现在分词后置定语; now是时间副词, 把范围限定在当下。

【定位】 Today, consulting or freelancing for five businesses at the same time is a badge of honor. It shows how valuable an individual is.

如今，同时为五家公司做咨询或自由职业是一种荣誉徽章，它显示一个人有多么有价值。

【选项】 A) ✓ 正确

It shows how valuable an individual is. ↔

They are often regarded as most treasured talents.

a badge of honor ↔ **are often regarded as**

从预判出发，A项把badge of honor+how valuable汇总成most treasured talents，最贴合作者对这群人的评价。

B) **张冠李戴（错段拼接）**

B项They are able to bring their potential into fuller play.说他们"能把潜力发挥得更充分"，原文未在53题的定位段说这件事，潜力发挥要到P4再讨论focused and productive。

C) **过度推断**

C项They have control over their life and work schedules.说他们"掌控自己的生活和工作日程"，原文虽提到为多家公司打工，但没说他们对日程有控制权——这层引申是读者的主观联想。

D) **偷换概念（叙述视角+部分原因）**

D项They feel proud of being outstanding problem solvers.说他们"为自己作为解决问题者而自豪"，原文里badge of honor是社会对他们的视角，不是他们自己feel proud；problem solvers也只是企业聘他们的部分原因。

54. What have businesses come to recognize now?

- A) Who is capable of solving problems with ease.
- B) How people can be more focused and productive.
- C) What kind of people can contribute more to them.
- D) Why some people are more passionate about work.

企业现在认识到了什么？

- A) 谁能够轻松地解决问题。 B) 人们如何能更加专注和高效。 C) 什么样的人能为它们做出更多贡献。
- D) 为什么有些人对工作更有热情。

【答案】 C （细节题）

【判型】 What have businesses come to recognize now?问当下企业认识到了什么，是问事实细节，不是推断。

【拆句】 What have businesses come to recognize now?现在完成时have come to recognize表示从过去到现在累积形成的认识，now强调当下状态，结构无陷阱。

【定位】 Most important, there is a growing recognition that people who balance work and play, and who work at what they are passionate about, are more focused and productive, delivering greater value to their clients.

最重要的是，人们越来越认识到：那些工作与休息平衡、并从事自己所热爱之事的人，更专注、更高产，能给客户带来更大的价值。

【选项】 A) **张冠李戴+偷换程度**

A项Who is capable of solving problems with ease.里solving problems with ease (轻松解决问题) 来自solve problems their full-time teams can't, 但P3说的是"解决全职团队搞不定的问题", 并非"轻松", 且和"现在认识到的"语境不符。

B) **答非所问 (偷换疑问词)**

B项How people can be more focused and productive.问的是"如何变得更专注高产", 而原文给的是"哪类人更专注高产", 疑问词错位, 且companies的认知对象是人, 不是方法。

C) **✓ 正确**

people who balance work and play, and who work at what they are passionate about, are more focused and productive, delivering greater value to their clients

↔ **What kind of people can contribute more to them.**

原文that从句的真正主语是people who..., 整句重心是这类人能为客户贡献更多价值; C项的"What kind of people can contribute more to them"精准对位该重心。

D) **答非所问+偷换重心**

D项Why some people are more passionate about work.问"为什么有些人对工作更热情", 但原文里passionate只是描述这类人的特征之一, 并未解释"原因", 且重心是其价值, 不是热情的成因。

55. What does the author say about the gig economy?

- A) It may force companies to reform their business practice.
- B) It may soon replace the traditional economic model.
- C) It will drive technological progress on a global scale.
- D) It will bring about radical economic and social changes.

关于零工经济,作者说了什么?

- A) 它可能迫使企业改革其商业实践。
- B) 它可能很快取代传统的经济模式。
- C) 它将在全球范围内推动技术进步。
- D) 它将带来彻底的经济和社会变革。

【答案】 D (细节题)

【判型】 What does the author say about the gig economy?问的是作者对零工经济的具体陈述; 答案直接在原文有对应句而非需要推断。

【拆句】 What does the author say about the gig economy?结构简单: 主干What does the author say, about the gig economy是介词短语修饰say, 无陷阱。

【定位】 Perhaps more important, as the global economy continues to be disrupted by technology and other massive change, the gig economy will itself become an engine of economic and social transformation.

或许更重要的是，随着全球经济持续被技术和其他剧变所颠覆，零工经济本身将成为经济与社会变革的引擎。

【选项】 A) **过度推断**

A项It may force companies to reform their business practice.说零工经济会"迫使企业改革其业务实践"，原文并未提到"迫使企业改革"这一动作，create a bridge between traditional enterprises and this emerging economy说的是搭桥而非迫使改革。

B) **与原文相反**

B项It may soon replace the traditional economic model.说零工经济会"很快取代传统经济模式"，原文里始终是"搭桥"成为引擎，从未表达替代关系。

C) **与原文相反（因果颠倒）**

C项It will drive technological progress on a global scale.说零工经济"将驱动全球技术进步"，但原文里是"global economy被technology颠覆"，技术是动因、零工经济是结果之一，方向被反过来。

D) **✓ 正确**

the gig economy will itself become an engine of economic and social transformation ↔

It will bring about radical economic and social changes.

从预判"将带来经济与社会变革"出发，D项把engine of transformation改写成bring about radical changes，逐字段语义匹配，是定位句的直接同义替换。

SENTENCE INSIGHTS • 句子精讲

6 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

Success was once defined as being able to stay at a company for a long time and move up the corporate ladder.

第1段，第1句

"be defined as" 这一被动结构在四六级和考研阅读中频繁出现，常用于说明概念、定义或标准的变化。简单句配合被动语态和较长状语的组合，是典型的学术或说明文句式，掌握后可迁移到大量类似句子的理解中。

Working at home or in cafes, starting businesses of their own, and even launching business ventures that eventually may fail, all indicate "initiative," "creativity," and "adaptability," which are desirable qualities in today's workplace.

第4段，第1句

本句成分划分训练价值较高。主句的主语是三个并列的动名词短语，涉及动名词作主语的识别；谓语前有强调词 all，需要判断其作用；宾语是三个并列的抽象名词，后接非限制性定语从句。限制性定语从句内部有关系代词作主语、情态动词谓语和时间状语；非限制性定语从句是主系表结构，表语是名词短语带后置定语。句子覆盖了主语、谓语、宾语、定语、状语等多种成分类型，且涉及并列结构、从句嵌套、动名词短语、定语从句中关系代词充当成分等多个易错点，适合作为综合性成分划分练习。

Most important, there is a growing recognition that people who balance work and play, and who work at what they are passionate about, are more focused and productive, delivering greater value to their clients.

第4段，第2句

本句涵盖丰富成分类型:主句的存在句主语、同位语从句、并列限制性定语从句、宾语从句、状语、表语,且存在主语被长修饰成分分隔的情况。特别适合练习识别同位语从句与定语从句的区别、并列定语从句的切分、以及嵌套从句中成分归属的判断,训练价值高。

It was difficult to keep a job for long.

第52题，D

It is + 形容词 + to do 句型在四六级和考研阅读写作中高频出现，是表达“做某事如何”的典型结构。掌握后可直接迁移到大量类似句子，代表性强。

They are often regarded as most treasured talents.

第53题，A

"be regarded as" 是四六级和考研阅读中常见的被动表达句式，具有一定代表性，掌握后可迁移到类似 "be considered as"、"be viewed as" 等结构，但句式本身较为基础，不算高度典型的复杂考点。

It will bring about radical economic and social changes.

第55题，D

主谓宾结构配合一般将来时是英语中最常见的句式之一，具有一定典型性。但本句过于简单，没有体现四六级或考研真题中常考的复杂结构（如从句、非谓语、特殊句式等），代表性和迁移价值不高。

2021年6月·第2套英语四级汉译英（段落翻译）·介绍普洱茶的客观说明文 参考译文与解析

PASSAGE & TRANSLATION • 题和解析

汉译英真题、参考译文与逐句解析

本页整篇参考英译与逐句解析由懒笔记基于2021年6月·第2套 英语四级汉译英（段落翻译）原卷题干译审整理。与试卷排版同一卷面：Directions 与一整段中文原文连续排印——整段连排、无段落标记无题号，把它切成一句句翻译单元本身就是解题动作。卷面之后先给整篇参考英译定稿，再按自切句序逐句拆分：定英文主干、降级修饰成分、逐项落实语法点、句内定稿英译，答案直显。

真题卷第2套(2021-06) • 四级

Part IV

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

普洱(Pu'er)茶深受中国人喜爱。最好的普洱茶产自云南的西双版纳(Xishuangbanna)，那里的气候和环境为普洱茶树的生长提供了最佳条件。普洱茶颜色较深,味道与其他许多茶截然不同。普洱茶泡(brew)的时间越长越有味道。许多爱喝茶的人尤其喜欢其独特的香味和口感。普洱茶含有多种有益健康的元素,常饮普洱茶有助于保护心脏和血管,还有减肥、消除疲劳和促进消化的功效。

参考译文

整篇参考英译是复盘资产，考卷上只印中文原文——四六级 Part IV 翻译按整篇「表达通顺连贯、用词准确、语法正确」四档评分。

Pu'er tea (also known as Pur'er tea) is deeply loved by the Chinese people. The best Pu'er tea comes from Xishuangbanna in Yunnan Province, where the climate and environment provide the ideal conditions for the growth of Pu'er tea trees. It has a darker color and a taste that is quite different from that of many other teas. The longer Pu'er tea is brewed, the more flavorful it becomes. Moreover, many tea lovers especially enjoy its unique aroma and taste. Pu'er tea contains many elements beneficial to health. Drinking it regularly helps protect the heart and blood vessels, and also helps lose weight, relieve fatigue and promote digestion.

【衔接】第2句与第1句之间用语义自然过渡

第1句 Pu'er tea is deeply loved by the Chinese people 是总起，第2句 The best Pu'er tea comes from... 自然承接"那它从哪儿来"。两句之间无需关联词，但第2句主语用 The best Pu'er tea(而非 It)显得更清晰，避免代词指代过于跳跃。

第3句句首改用 It 承接

第3句中文 普洱茶颜色较深,味道与其他许多茶截然不同 紧接前两句还在讲普洱茶，英文里第三次出现主语时改用代词 It has a darker color...，避免连续三句都以 Pu'er tea 开头读起来重复。

第5句句首补 Moreover 显出递进

第5句 Many tea lovers especially enjoy... 在功能上是从"客观属性"过渡到"人的偏好"，是一个轻递进。可在句首加 Moreover 或 In addition 让句间逻辑显化，符合英文形合习惯。

第6句句首补 Furthermore 把功效层与前文分开

第6句从"口感偏好"切换到"健康功效"，是一个话题转换。句首加 Furthermore 或 In addition to its flavor,，把这一逻辑跳转明示出来，避免主体考生把它和上一句强行连为一句。

逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

【主旨】介绍普洱茶的客观说明文

本段是一段典型的中国文化介绍类说明文，围绕一种饮品做客观陈述：从 普洱(Pu'er)茶深受中国人喜爱。这句定调，到 最好的普洱茶产自云南的西双版纳(Xishuangbanna) 讲产地，再到颜色、味道、泡法、功效，全篇都在陈述"普洱茶是怎样的"这一**当前事实**，语体平实、客观、无叙事时间线。

【时态】一般现在时

全篇都是对普洱茶**普遍属性与一般规律**的客观陈述，如 深受中国人喜爱、颜色较深、含有多种有益健康的元素 这些都是"现在仍然成立的事实"，没有任何过去时间标记或叙事推进，故全篇默认用一般现在时。

【译法】普洱茶

原文已在 普洱(Pu'er) 处给出官方拼写括注，全篇统一译为 Pu'er tea（首次出现可加 also known as Pu'er tea 作括注），不得一处写 Pu'er、另一处写 Puer 或 Pu-erh。

云南西双版纳

云南的西双版纳(Xishuangbanna) 原文已给括注，统一译为 Xishuangbanna in Yunnan Province，地名用音译并补 Province 让英文读者明白行政级别，全篇只用这一种写法。

普洱茶树

普洱茶树 与 Pu'er tea 区分开来，统一译为 Pu'er tea trees（复数，因指代普遍的茶树而非单棵），保持与 Pu'er tea 在词形上的一致。

泡（茶）

原文已用括注 泡(brew) 锁定译法，全篇"泡茶"统一用动词 brew，名词形式用 brewing；不混用 make/steep。

1. 普洱(Pur'er)茶深受中国人喜爱。

【主干】 受事 Pu'er tea 作主语 + 被动谓语 (主语策略: 转被动)

中文 普洱(Pur'er)茶深受中国人喜爱 的逻辑主语其实是"中国人"喜爱"普洱茶", 但"深受.....喜爱"是典型的"承受动作"结构, 英文最自然的写法是把承受者 Pu'er tea 提为主语, 用被动 is loved/favored by。主干: Pu'er tea is deeply loved by the Chinese people。

【降级】 本就单主谓, 无需降级

本句结构非常简单, 主干 普洱(Pur'er)茶深受中国人喜爱 一立即成完整句, 没有多余的修饰或并列动词需要降级。"深"作程度副词 deeply 直接修饰过去分词 loved 即可。

【语法】 时态

回指全篇基调一般现在时, is loved 用 is 而非 was, 表达"长期存在的普遍事实"。

语态

用被动 is deeply loved by..., 承受者 Pu'er tea 作主语; 副词 deeply 放在 be 与过去分词之间, 是英文最自然的位置。

冠词

Pu'er tea 作品类名时不加冠词; the Chinese people 指"中国人这个群体", 加定冠词 the。

【译文】 Pu'er tea (also known as Pur'er tea) is deeply loved by the Chinese people.

2. 最好的普洱茶产自云南的西双版纳(Xishuangbanna), 那里的气候和环境为普洱茶树的生长提供了最佳条件。

【主干】 前后两个小句各立主干 (主语策略: 原句主语)

这是一个由逗号连接的两小句: 前半 最好的普洱茶产自云南的西双版纳(Xishuangbanna) 主干 The best Pu'er tea comes from / is produced in Xishuangbanna in Yunnan Province; 后半 那里的气候和环境为普洱茶树的生长提供了最佳条件 主干 the climate and environment (there) provide the best conditions for...。两小句主语不同, 不能简单 and 并列。

【降级】 用 where 定语从句把后半句挂到地名上

那里的气候和环境 的"那里"明显指代前半句的西双版纳, 英文最地道的处理不是再写一个独立句 The climate and environment there..., 而是用 where 引导的非限定性定语从句把后半句挂到 Xishuangbanna 后面: ...in Yunnan Province, where the climate and environment provide...。这样"那里"被 where 自然替代, 整句一气呵成。

【语法】时态

两小句均回指全篇基调一般现在时: comes from / provide。原文虽有"提供了"的"了", 但这里的"了"只是汉语助词标动作状态, 并不指向过去, 仍是当前事实, 绝不能写成 provided。

主谓一致

从句主语 the climate and environment 是两个名词由 and 并列, 视为复数, 谓语用 provide 而非 provides; 这是主体考生在 and 并列主语处最常见的失误点。

冠词

The best Pu'er tea 用 the 因为有形容词最高级 best; the climate and environment 用 the 因为特指西双版纳那里的; Yunnan Province 是专有地名, 前不加 the。

介词搭配

"为.....生长提供条件"固定搭配 provide ... for ...: provide the best conditions for the growth of Pu'er tea trees; 不要写成 provide ... to ...。

【译文】 The best Pu'er tea comes from Xishuangbanna in Yunnan Province, where the climate and environment provide the ideal conditions for the growth of Pu'er tea trees.

3. 普洱茶颜色较深,味道与其他许多茶截然不同。

【主干】 两小句共用主语 Pu'er tea (主语策略: 原句主语)

普洱茶颜色较深,味道与其他许多茶截然不同 两小句的逻辑主语其实都是普洱茶("它的颜色""它的味道")。英文最自然的处理是把 Pu'er tea 作整句主语, 颜色和味道作 has + 宾语 的并列结构: Pu'er tea has a darker color and a taste that is...

【降级】 用定语从句承载"与.....截然不同"

"味道与其他许多茶截然不同"里有一个嵌套修饰: 味道(taste) ← 与其他许多茶截然不同(quite different from many other teas)。英文里把这个修饰降级成 that/which 引导的定语从句挂到 taste 后面: a taste that is quite different from that of many other teas, 比硬塞一个独立句更紧凑。

【语法】时态

has / is 回指全篇一般现在时基调, 表普洱茶恒常属性。

比较对象一致

原文是"味道 与其他许多茶 截然不同"——比较两端必须同类。英文要写 ...different from that of many other teas, 用 that 替代前面的 taste, 否则就是"味道 vs. 茶"两端不同类的逻辑硬伤。这是主体考生在比较句里最隐蔽的失分点。

冠词与单复数

a darker color、a taste 都用不定冠词 a 引出第一次提到的属性; many other teas 用复数表"其他多种茶"。

【译文】 Pu'er tea has a darker color and a taste that is quite different from that of many other teas.

4. 普洱茶泡(brew)的时间越长越有味道。

【主干】 用 the + 比较级, the + 比较级 句型 (主语策略: 形式主语it)

中文 普洱茶泡(brew)的时间越长越有味道 是典型"越.....越....."结构, 英文对应固定句型 the + 比较级..., the + 比较级...。主干: The longer Pu'er tea is brewed, the better it tastes / the more flavorful it becomes。前半 it 形式主语隐含在被动里, 后半 it 回指 Pu'er tea。

【降级】 前半被动, 后半主动

前半句"泡的时间越长"——动作"泡"的承受者是普洱茶, 用被动 the longer Pu'er tea is brewed; 后半句"越有味道"——主语仍是普洱茶, 用主动 the better it tastes / the more flavorful it becomes。整体结构紧凑、无多余成分需降级。

【语法】 时态

is brewed / tastes 均回指全篇一般现在时基调, 表"泡茶规律"这一普遍真理。

语态

前半被动 is brewed, 因为泡茶动作的承受者是茶; 后半主动 tastes, 因为系动词 taste 后接形容词描述茶本身。

比较级形式

longer 是 long 的比较级单音节加 -er; more flavorful / better 是"味道好"的比较级, flavorful 是多音节用 more, good 不规则变 better。

【译文】 The longer Pu'er tea is brewed, the more flavorful it becomes.

5. 许多爱喝茶的人尤其喜欢其独特的香味和口感。

【主干】 Many tea lovers + especially love + 宾语 (主语策略: 原句主语)

许多爱喝茶的人尤其喜欢其独特的香味和口感 主干清晰: 主语"许多爱喝茶的人"=Many tea lovers, 谓语"尤其喜欢"=especially love / particularly enjoy, 宾语"其独特的香味和口感"=its unique aroma and taste。

【降级】 本句结构本就简单

本句是"主-谓-宾"加副词修饰的简单陈述句, 无需降级。"尤其"作副词 especially/particularly 放在动词前; "独特的" unique 作前置定语修饰"香味和口感"; "香味和口感" aroma and taste 用 and 并列作宾语。

【语法】 时态

love / enjoy 用一般现在时, 回指基调, 表常态偏好。

单复数

Many tea lovers 是复数主语, 谓语 love 用复数原形; its 指代 Pu'er tea 作定语, 单数所有格。

用词

"香味"用 aroma(茶/咖啡/酒的香气专用词)比 smell/scent 更地道、更贴四级文化介绍语体; "口感"用 taste 或 flavor 均可。这是四级考生可以记住的小亮点词。

【译文】 Many tea lovers especially enjoy its unique aroma and taste.

6. 普洱茶含有多种有益健康的元素,常饮普洱茶有助于保护心脏和血管,还有减肥、消除疲劳和促进消化的功效。

【主干】 拆成两句主干各自落地 (主语策略: 原句主语)

本句中文很长, 含三层意思: ①普洱茶含有有益健康元素; ②常饮有助保护心血管; ③还有减肥、消除疲劳、助消化的功效。英文最好不强求一句到底, 而是拆成两句: 第一句主干 Pu'er tea contains many elements beneficial to health; 第二句主干 drinking it regularly helps + 一系列动词不定式短语。两句主语呼应、信息分层清晰。

【降级】 动名词作主语 + 并列动词不定式

第二句的中文主语是"常饮普洱茶", 英文用动名词短语 Drinking it regularly 作主语最自然; 谓语 helps 后并列多个动词不定式 protect / lose / relieve / promote: helps protect the heart and blood vessels, lose weight, relieve fatigue and promote digestion。"还有.....的功效"和"有助于"语义重合, 英文里用 also 或并列 to-do 串联即可, 不必再写 has the effect of...那种冗余结构。

【语法】 时态

contains / helps 回指全篇一般现在时, 表"茶的属性 + 一般规律"。

主谓一致

动名词主语 Drinking Pu'er tea regularly 视为单数, 谓语用 helps(加 s), 不能写成 help——这是主体考生在 V-ing 作主语时最高频的失误。

并列结构平行

helps 后接的多个动作必须形式平行: protect / lose / relieve / promote 全部用动词原形(help (to) do 结构), 不可一会儿 protect、一会儿 losing、一会儿 to relieve——任意混搭就是平行结构破坏, 是四级阅卷里很显眼的硬伤。

单复数

心脏 the heart 是器官单数加 the; 血管 blood vessels 是复数(人体有多条血管); 多种元素 many elements 复数。

搭配

"有益健康的" beneficial to health 用介词 to; "减肥" lose weight 是固定搭配, 不要写 reduce weight; "消除疲劳" relieve fatigue 比 eliminate fatigue 更地道; "促进消化" promote digestion 是高频搭配。

【译文】 Pu'er tea contains many elements beneficial to health. Drinking it regularly helps protect the heart and blood vessels, and also helps lose weight, relieve fatigue and promote digestion.
