Part III

Reading Comprehension

(40 minutes)

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

When people set out to improve their health, they usually take a familiar path: starting a healthy diet, getting better sleep, and doing regular exercise. Each of these behaviors is important, of course, but they all 26 on physical health—and a growing body of research suggests that social health is just as, if not more, important to 27 well-being.

One recent study published in the journal PLOS ONE, for example, found that the strength of a person's social circle was a better 28 of self-reported stress, happiness and well-being levels than fitness tracker data on physical activity, heart rate and sleep. That finding suggests that the " 29 self" represented by endless amounts of health data doesn't tell the whole 30.

There's also a qualified self, which is who I am, what are my activities, my social network, and all of these aspects are not 31 in any of these measurements.

This idea is supported by plenty of 32 research. Studies have shown that social support—whether it comes from friends, family members or a spouse—is 33 associated with better mental and physical health. A rich social life, these studies suggest, can lower stress levels, improve mood, encourage positive health behaviors and discourage damaging ones, boost heart health and improve illness 34 rates.

Social isolation, meanwhile, is linked to higher rates of physical diseases and mental health conditions. It's a significant problem, 35 since loneliness is emerging as a widespread public health problem in many countries.

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Teenagers and social networking

- A) As a parent of two boys at primary school, I worry about the issues associated with teenagers and social media. Newspapers are constantly filled with frightening accounts of drug addiction and aggressive behaviour supposedly caused by violent video games. But even when these accounts touch on real concerns, they do not really reflect the great mass of everyday teenage social behaviour: the online chat, the texting, the surfing, and the emergence of a new teenage sphere that is conducted digitally.
- B) New technologies always provoke generational panic, which usually has more to do with adult fears than with the lives of teenagers. In the 1930s, parents worried that radio was gaining "an irresistible hold of their children". In the 80s, the great danger was the Sony Walkman(随身听). When you look at today's digital activity, the facts are much more positive than you might expect.
- C) Indeed, social scientists who study young people have found that their digital use can be inventive and even beneficial. This is true not just in terms of their social lives, but their education too. So if you use a ton of social media, do you become unable, or unwilling, to engage in face-to-face contact? The evidence suggests not. Research by Amanda Lenhart of the Pew Research Centre, a US think tank, found that the most passionate texters are also the kids most likely to spend time with friends in person. One form of socialising doesn't replace the other. It expands it.
- D) "Kids still spend time face to face," Lenhart says. Indeed, as they get older and are given more freedom, they often ease up on social networking. Early on, the web is their "third space", but by the late teens, it's replaced in reaction to greater independence. They have to be on Facebook, to know what's going on among friends and family, but they are ambivalent(有矛盾心理的) about it, says Rebecca Eynon, a research fellow at the Oxford Internet Institute, who has interviewed about 200 British teenagers over three years. As they gain experience with living online, they begin to adjust their behaviour, struggling with new communication skills, as they do in the real world.

- E) Parents are wrong to worry that kids don't care about privacy. In fact, they spend hours changing Facebook settings or using quick-delete sharing tools, such as Snapchat, to minimise their traces. Or they post a photograph on Instagram, have a pleasant conversation with friends and then delete it so that no traces remain.
- F) This is not to say that kids always use good judgment. Like everyone else, they make mistakes—sometimes serious ones. But working out how to behave online is a new social skill. While there's plenty of drama and messiness online, it is not, for most teens, a cycle of non-stop abuse: a Pew study found only 15% of teens said someone had bullied them online in the last 12 months.
- G) But surely all this short-form writing is affecting literacy? Certainly, teachers worry. They say that kids use overly casual language and text-speak in writing, and don't have as much patience for long reading and complex arguments. Yet studies of first-year college papers suggest these anxieties may be partly based on misguided nostalgia(怀旧). When Stanford University scholar Andrea Lunsford gathered data on the rates of errors in "freshman composition" papers going back to 1917, she found that they were virtually identical to today.
- H) But even as error rates stayed stable, student essays have blossomed in size and complexity. They are now six times longer and, unlike older "what I did this summer" essays, they offer arguments supported by evidence. Why? Computers have vastly increased the ability of students to gather information, sample different points of view and write more fluidly.
- I) When linguist Naomi Baron studied students, instant messaging even there she found surprisingly rare usage of short forms such as "u" for "you", and as students got older, they began to write in more grammatical sentences. That is because they want to appear more adult, and they know how adults are expected to write. Clearly, teaching teens formal writing is still crucial, but texting probably isn't destroying their ability to learn it.
- J) It is probably true that fewer kids are heavy readers compared with two generations ago, when cheap paperbacks boosted rates of reading. But even back then, a minority of people—perhaps 20%—were lifelong heavy readers, and it was cable TV not the internet, that struck a blow at that culture in the 1980s. Still, 15% or more of kids are found to be deeply bookish. In fact, the online world offers kids remarkable opportunities to become literate and creative because young people can now publish ideas not just to their friends, but to the world. And it turns out that when they write for strangers, their sense of "authentic audience" makes them work harder, push themselves further, and create powerful new communicative forms.
- K) Few would deny that too much time online can be harmful. Some of the dangers are emotional: hurting someone from a distance is not the same as hurting them face to face. If we're lucky, the legal environment will change to make teenagers' online lives less likely to haunt them later on. Just last week, California passed a law allowing minors to demand that internet firms erase their digital past and the EU has considered similar legislation.
- L) Distraction is also a serious issue. When kids switch from chat to music to homework, they are indeed likely to have trouble doing each task well. And studies show that pupils don't fact-check information online—"smart searching" is a skill schools need to teach urgently. It's also true that too much social networking and game playing can cut into schoolwork and sleep. This is precisely why parents still need to set firm boundaries around it, as with any other distraction.

- M) So what's the best way to cope? The same boring old advice that applies to everything in parenting: moderation. Rebecca Eynon argues that it's key to model good behaviour. Parents who stare non-stop at their phones and don't read books are likely to breed kids who will do the same. As ever, we ought to be careful about our own behaviour.
36. Research has found the use of digital technology benefits not only teenagers' social lives but also their studies.
37. It is urgent that schools teach kids how to verify online information.
38. Students now write longer and more complex essays than their counterparts in previous decades while the error rates remain unchanged.
39. Newspaper reports of teenagers give a false picture of their behaviour.
40. Parents are advised to mind their own digital behaviour and set a good example for their kids.
41. Contrary to parents' belief, kids try hard to leave as few traces as possible on the web.
42. Students' ability to learn formal writing is unlikely to be affected by texting.
43. Historically, new technologies have always caused great fears among parents.
44. The reading culture was seriously affected by cable television some four decades ago.
45. Teachers say that kids' writing is too casual, using language characteristic of text messages.

Section C

Directions: *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

Passage One

Questions 46 to 50 are based on the following passage.

In the history of horse racing, few horses have captured the affection of the British public like Red Rum. Today, three decades after his retirement, he is still one of the best-known and most beloved racehorses of all time.

Red Rum was passed around to several owners before being purchased for Noel Le Mar. The agent who made the purchase was the now-legendary horse trainer Donald "Ginger" McCain.

It wasn't apparent at the time, but Red Rum had a serious bone disease in his foot. For many horses (and many trainers) this would mean the end of a racing career before it even began. For Ginger and Red Rum, though, it was just an obstacle to greatness that had to be overcome.

Red Rum's true talent came out in steeplechases(障碍赛马). His power, speed and jumping ability carried him to his first Grand National title in 1973. The very next year, Red Rum returned to take his second title. He was the first horse to take successive firsts since Reynoldstown in 1935-1936. Red Rum's spirit and grace had already begun to charm the leagues of Grand National fans.

In the following two years, Red Rum lost out on the title, coming in second both times. When he returned in 1977 to try again, he was largely regarded as past his prime. He was 12 years old and not expected to place highly. He surprised sporting fans around the world when he came in a remarkable 25 lengths ahead of the nearest horse, taking his third Grand National win. To this day, Red Rum's third win is known as one of the greatest moments in horse racing history.

Red Rum was headed for the Grand National once again in 1978 but suffered an injury in one of his heels shortly before the race. He was retired soon after, but his public life and fame by no means decreased with the end of his career. Red Rum traveled all over the country for various engagements. He often led pre-race parades at Aintree Racecourse and was a popular guest at charity benefits and public events.

46. What do we learn from the passage about Red Rum the racehorse?
- A) He captured public affection long before he won national titles.
 - B) He won enormous fame and love from British people.
 - C) He became a myth three decades after his retirement.
 - D) He owed his great success to several well-known horse trainers.
47. What did the serious bone disease in Red Rum's foot mean to himself and his trainer?
- A) It was simply a hindrance they had to get over to excel.
 - B) It was surely a disadvantage though not considered fatal.
 - C) It was actually the end of a racing career that had just begun.
 - D) It was really a major obstacle hard to overcome on their own.
48. What does the author say Red Rum did with his power, speed and jumping ability?
- A) He won his first Grand National title at 12.
 - B) He took two firsts successively in 1935-1936.
 - C) He surprised sporting fans worldwide in 1973.
 - D) He took three Grand National wins in the 1970s.
49. What did people generally think of Red Rum when he returned to the racecourse in 1977?
- A) He had already passed the peak of his racing life.
 - B) He would have no rival in Grand National steeplechases.
 - C) He had lost his charm with the leagues of Grand National fans.
 - D) He could be expected to repeat his glory in the prime of his career.
50. What became of Red Rum after his career ended?
- A) He suffered from severe pain in a heel.
 - B) He spent almost all his time traveling.
 - C) He lived on various charity benefits.
 - D) He remained famous and popular.

Passage Two

Questions 51 to 55 are based on the following passage.

People in business often make decisions based on their own personal feelings or instincts. It is quite horrifying to see people being guided by some unknown force. But how wise is it, really, to let your instincts

drive your decisions?

In the decision-making process, relying on instincts only makes sense when you have a vast experience to support you. Simply "feeling" that something is right or should be done is highly subjective and can drown you.

On the other hand, there is a more rational approach to making decisions. Data and analysis have long been associated with informed decisions. These reduce the likelihood of errors and increase the chances of success. Big, systematic data is mostly the foundation of most of our decisions, personal and business alike. But with its extreme usability comes a complication: what do you do if you strongly feel something should not be done, even if the data insists that it should?

This seemingly easy question is what drives the need to understand the relationship between instincts and data in the decision-making process. Without making things complicated, the solution to this dilemma is using data and instincts in conjunction to arrive at the best possible decisions.

Instinctive decisions are always backed by previous experiences or information, which acknowledges that instinctive decisions have worked in the past. Decisions are not about making the choice and braving the consequences because you want to blindly trust your instincts. They are about combining your inner wisdom with the knowledge of systematic data to make the best decisions.

Sometimes, rational analysis and data are impractical to be employed in certain situations. Absence of definitive criteria, and time and resource constraints, and novel situations are instances which limit the practicality of data. The only feasible option is to rely on what your instincts tell you. In these situations, instincts can help you make effective and quick decisions.

Combining instinctive and rational analysis produces well-rounded decisions. It reduces the chances of making mistakes, and has increasingly become a favorite approach to decision-making among leaders of today.

51. What does the author say businesspeople often do?

- A) Strive to make sense of some unknown forces.
- B) Avoid being driven by their own feeling.
- C) Draw on a vast wealth of past experience.
- D) Rely on instincts in decision-making.

52. What should we take into account in order to make informed decisions?

- A) The likelihood of errors.
- B) Systematic data and analysis.
- C) The complexity of circumstances.
- D) Personal feelings and business strategies

53. What should people do in a decision-making process if instincts disagree with data?

- A) Resolve the dilemma with previous experience.
- B) Figure out which of the two is more reliable.
- C) Combine the two together.
- D) Prioritize instincts over data.

54. What should we do when facing various factors that limit the practicality of data?

- A) Make a rational and systematic analysis.
- B) Explore the most feasible options.
- C) Resort to our inner wisdom.
- D) Apply definitive criteria.

55. What does it take for decisions to become the best according to the author?

- A) Applying instincts and data in conjunction.
- B) Assessing all factors when making a choice.
- C) Recalling what has actually worked in the past.
- D) Refraining from trusting instincts arbitrarily.

Part IV

Translation

(30 minutes)

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

改革开放以来，中国人民生活水平不断提高，这在人们的饮食 (diet)变化上得到充分体现。如今，人们不再满足于吃得饱，而是追求吃得更加安全、更加营养、更加健康，食物也愈来愈丰富多样，不再限于本地的农产品。物流业 (logistics industry)的发展使人们很容易品尝到全国各地的特产。毫无疑问，食品质量与饮食结构的改善为增进人们健康提供了有力的保障。

Part I

Directions: Suppose the university newspaper is inviting submissions from the students for its coming edition on what in their university impresses them most. You are now to write an essay for submission. You will have 30 minutes to write the essay. You should write at least 120 words but no more than 180 words.

【参考范文·165词】 写作无唯一标准答案，以下为达标示范

Among the many things on campus, it is the university library that has impressed me most. While my college offers modern labs and lively clubs, none of them stays in my heart as deeply as that quiet building.

Quiet and well-lit, the library offers a space where I can truly focus and lose myself in books. Surrounded by towering shelves, I felt the joy of learning for the very first time. What touched me even more was a small experience. I still remember the day when I was searching desperately for an out-of-print book. It was a gentle old librarian who spent half an hour helping me track it down, which made me realize that this place is warmed not only by knowledge but also by kindness.

Looking back, the library is more than a study room; it has taught me to seek knowledge actively rather than passively. That is why this quiet corner will always be the most unforgettable part of my university life.

【参考译文】

在校园众多事物之中，最让我印象深刻的是学校图书馆。尽管我的大学有现代化的实验室和活跃的社团，但没有一样像那座安静的楼那样深深留在我心里。

图书馆安静而明亮，给了我一个能真正专注、徜徉书海的空间。被高耸的书架环绕着，我第一次体会到学习的快乐。更让我感动的是一件小事。我仍记得那天，我焦急地到处找一本绝版书。是一位和蔼的老馆员花了半个小时帮我把它找到，这让我意识到，这个地方不仅被知识温暖着，也被善意温暖着。

回想起来，图书馆不只是一个自习室；它教会我主动而非被动地去求知。这就是为什么这个安静的角落将永远是我大学生活中最难忘的部分。

【第1段】由泛收缩、一句亮主角。首段用 Among the many things on campus, it is the university library that has impressed me most 由校园万物收缩到图书馆一个对象并表明态度，正面回应 what in their university impresses them most; 再用 none of them stays in my heart as deeply 把『最』写实。

【第2段】氛围 + 经历双层落实。主体段先用 Quiet and well-lit, the library offers a space 写氛围，再用 I still remember the day when 引出找绝版书受馆员相助的经历，并以强调句 + 定语从句 It was a gentle old librarian who ... which made me realize 升级表达，把它为何 impresses them most 写到可感。

【第3段】升华 + 首尾呼应。结尾用 the library is more than a study room; it has taught me 由事及己升华，再以 That is why this quiet corner will always be the most unforgettable part 回扣开头、定格『最』。

ANALYSIS • 审题与立意

这道题到底要写什么、立意是什么

动笔前先钉死本题的核心写作任务与读者语域，再定中心立意与要展开的要点——这些是本题特有的内容判断，不是通用套路。

核心任务

写一物如何最打动你

一句话钉死：聚焦大学里某一个具体对象，说清它 impresses them most 的原因。题面要求 write an essay for submission，写的内容是 what in their university impresses them most，关键在 what（一个对象）+ most（最，唯一），所以只能选一样东西写深，不能罗列学校的多个方面。

读者 • 语域

校报读者、第一人称略带感染力

读者是校报及全校师生读者，身份是投稿学生。因为是 submissions from the students 给 the university newspaper，语气可用第一人称、带一点个人色彩和感染力，但仍是书面文章——不要写称呼语、问候、署名这些书信/邮件要素。

中心立意

图书馆最打动我

选定中心：大学里最让我印象深刻的是学校图书馆，因为它既给我安静专注的环境，又有一次温暖的经历让我对它念念不忘——正面回应 what in their university impresses them most 中的单一对象与 most。

要展开的要点

1. 氛围让人沉静专注

要点一：图书馆安静明亮、书香环绕的氛围，让我第一次体会到沉浸学习的快乐，这是它打动我的第一层原因。

2. 一次借书受助的经历

要点二：用一次亲身经历支撑——一位馆员耐心帮我找到一本绝版书，让我感到被善意对待，把抽象的『印象深刻』写实。

3. 它改变了我对学习的态度

要点三：升华——图书馆让我从被动应付变成主动求知，成为我大学里最珍贵的角落，呼应 most。

STRUCTURE • 谋篇与逐段

怎么分段、每段写什么、能套哪些句架

按写作家族给出现成的段落框架（每段承担什么功能），并为每段配可直接套用的 功能句架（留出填本题内容的空位）。段序与上方参考范文——对应。

第 1 段 点对象 + 亮态度

首段：在校园众多事物中点出图书馆这一个对象，直接亮明它是 what in their university impresses them most 的答案，给全文定调。

第 2 段 细节 + 经历讲原因

主体段：用氛围细节 + 一次借书受助的亲身经历，具体说明它为何让我 impresses them most，把感受落到实处。

第 3 段 升华意义收尾

结尾段：把图书馆对我的意义升华一句——它如何改变了我，呼应开头并回扣 most。

第 1 段 众物之中独爱图书馆

本段落点：承认大学里值得说的东西很多，但唯独学校图书馆给我留下最深印象，呼应 what in their university impresses them most，为下文讲原因埋下话头。

由泛收缩到一物 · Among the many things on campus, it is _____ that has impressed me most. (把 _____ 换成你的对象，如 the library)

亮明主角并预告下文 · Whenever I think of my university, _____ is the first thing that comes to my mind. (_____ 填所选对象，引出下文原因)

第 2 段 安静书香 + 馆员相助

本段落点：先写图书馆安静明亮、书架林立的气氛让我沉下心来；再讲一次找绝版书时馆员耐心相助的经历，把它为何 impresses them most 写到具体可感。

描写氛围 · Quiet and well-lit, _____ offers a space where I can _____. (前段描写特征，后段说它给你什么)

引出一经历 · I still remember the day when _____. (填一件具体小事作为证据)

用从句升级表达 · It was _____ who _____, which made me realize _____. (强调句 + 定语从句，写出那件事的意义)

第3段 它让我爱上主动求知

本段落点：图书馆让我从被动应付学习变成主动求知，成为大学里我最珍视的角落，呼应
impresses them most 收尾。

由经历升华意义 · Looking back, _____ is more than _____; it has taught me _____. (把对象升华成对你的意义)

首尾呼应收束 · That is why _____ will always be _____ in my university life. (回扣开头，定格『最』)

REVIEW · 自检避坑

本题在四个评分维度怎样算达标、容易在哪丢分

按阅卷四维（内容切题 / 结构连贯 / 语言准确 / 字数格式）给出本题达标要点，并把最容易踩的低分写法摆出来 + 给改法 —— 这是写作版的「狠拆诱人错项」。

内容切题

锁死一物且讲透原因

本题必须紧扣 what in their university impresses them most 中的单一对象与 most：选定图书馆后，原因要靠细节和经历撑满，不能只喊『它最打动我』。

结构连贯

三段对应大纲不串味

本题三段须与大纲一一对应：首段亮对象、主体段细节 + 经历、结尾升华，避免把原因和升华混在一段。

语言准确

细节动词 + 少量复杂句

本题宜用 towering shelves、track it down 这类具体表达写实『印象深刻』，并用一处强调句 + 定语从句提升层次，主谓一致和时态要稳。

字数格式

守120至180、纯文章体

本题硬性要求 at least 120 words but no more than 180 words，且是 essay for submission，写成文章即可，不要加 Dear 或署名。

面面俱到无重点

反面示例：My university has a big library, a nice canteen, many clubs and kind teachers. They all impress me. 这是面面俱到、无一写透。改成只锁定图书馆，并补上一次具体经历来证明它为何最打动你。

只抒情不举证

反面示例：The library impresses me most. I love it so much. It is really really good and important to me. 全是形容词堆叠。改成写出『安静明亮的环境 + 馆员帮我找绝版书』这样的具体内容。

误加称呼署名

反面示例：Dear Editor, I want to tell you ... Yours, Li Ming. 这违背了 write an essay for submission 的文体。改成去掉称呼与署名，写成连贯的文章正文。

Part III Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

When people set out to improve their health, they usually take a familiar path: starting a healthy diet, getting better sleep, and doing regular exercise. Each of these behaviors is important, of course, but they all 26 on physical health—and a growing body of research suggests that social health is just as, if not more, important to 27 well-being.

当人们开始改善健康状况时,他们通常会采取一条熟悉的路径:开始健康饮食、获得更好的睡眠以及进行规律的锻炼。当然,这些行为中的每一种都很重要,但它们都集中在身体健康上——而越来越多的研究表明,社交健康同样重要,甚至对整体幸福感更为重要。

One recent study published in the journal PLOS ONE, for example, found that the strength of a person's social circle was a better 28 of self-reported stress, happiness and well-being levels than fitness tracker data on physical activity, heart rate and sleep. That finding suggests that the "29 self" represented by endless amounts of health data doesn't tell the whole 30.

例如,最近发表在PLOS ONE期刊上的一项研究发现,一个人社交圈的强度比健身追踪器上关于身体活动、心率和睡眠的数据更能预示自我报告的压力、幸福感和健康水平。这一发现表明,由无穷无尽的健康数据所代表的"量化自我"并不能说明问题的全部。

There's also a qualified self, which is who I am, what are my activities, my social network, and all of these aspects are not 31 in any of these measurements.

还有一个合格的自我,即我是谁,我的活动是什么,我的社交网络是什么,所有这些方面都没有在任何这些测量中得到反映。

This idea is supported by plenty of 32 research. Studies have shown that social support—whether it comes from friends, family members or a spouse—is 33 associated with better mental

and physical health. A rich social life, these studies suggest, can lower stress levels, improve mood, encourage positive health behaviors and discourage damaging ones, boost heart health and improve illness 34 rates.

这一观点得到了大量先前研究的支持。研究表明,社会支持——无论是来自朋友、家庭成员还是配偶——都与更好的心理和身体健康密切相关。这些研究表明,丰富的社交生活可以降低压力水平、改善情绪、鼓励积极的健康行为并抑制有害行为、促进心脏健康并提高疾病康复率。

Social isolation, meanwhile, is linked to higher rates of physical diseases and mental health conditions. It's a significant problem, 35 since loneliness is emerging as a widespread public health problem in many countries.

与此同时,社交孤立与更高的身体疾病和心理健康问题发生率相关。这是一个重大问题,尤其是因为孤独正在成为许多国家普遍存在的公共健康问题。

26. but they all (26) on physical health

【答案】 **D) focus** (动词)

【词性槽】 they 后缺谓语动词, 且空后紧跟介词 on

【依据】 **focus on** 表「关注/聚焦于」, 贴合「这些行为都只关注身体健康」

上文列举饮食、睡眠、运动后转折说 they all (26) on physical health, 意思是这些做法都「聚焦于」身体健康, 引出下文「但社交健康同样重要」的转折, focus on 语义最顺。

【竞争词】 A) base 搭配语义反了

base on 是「把.....建立在.....之上」, 需要「A base B on C」的及物结构(如 base a theory on facts), 这里 they all base on 缺宾语、语义也不通, 说「这些行为都把自己建立在身体健康上」不合逻辑。

27. important to __(27)__ well-being

【答案】 **F) overall** (形容词)

【词性槽】 空处在介词 to 后、名词 well-being 前，作定语，要形容词

【依据】 **overall well-being** 「整体健康/总体幸福」 搭配自然且切题

social health is just as, if not more, important to __(27)__ well-being 强调社交健康对「总体」的健康/幸福很重要，overall well-being 正是与前文 physical health (局部) 相对的「整体福祉」。

【竞争词】 H) prior 语义不搭

prior 「先前的」修饰 well-being 说「先前的幸福」既不通顺也不切题，prior 应留给 32 题 prior research 「先前的研究」。

28. the strength of a person's social circle was a better __(28)__ of self-reported stress

【答案】 **E) indicator** (名词)

【词性槽】 空处在 a better 后、of 前，作中心名词

【依据】 **a better indicator of** 「更好的.....指标」 契合「社交圈强度比体测数据更能预示压力幸福」

the strength of a person's social circle was a better __(28)__ of self-reported stress, happiness and well-being levels than fitness tracker data, 比较社交圈与体测数据谁更能「预示/反映」压力幸福，an indicator of 正是「.....的指标」。

【竞争词】 J) puzzle 语义不通

a better puzzle of 「更好的.....谜题」讲不通，本句要的是「衡量/预示」的标志物 indicator，而非 puzzle。

29. the "__(29)__ self" represented by endless amounts of health data

【答案】 **K) quantified** (形容词)

【词性槽】 空处在冠词 the 与名词 self 之间（带引号），作定语，要形容词

【依据】 **quantified self** 「量化自我」 呼应「海量健康数据」，并与下段 **qualified self** 形成对照

the "__(29)__ self" represented by endless amounts of health data 指「被海量数据量化出来的自我」，即 quantified self；下一段 There's also a qualified self 正与它对照，可反推此处为 quantified。

【竞争词】 M) reflected 语义不贴且占了别处

reflected self 「被反映的自我」不如 quantified self 切合「数据量化」之意，且 reflected 是 31 题 are not reflected in 的答案。

30. doesn't tell the whole __ (30) __

【答案】 **N) story** (名词)

【词性槽】 形容词 whole 后、动词 tell 的宾语位置，需要名词

【依据】 **the whole story** 是固定说法，意为「全部真相/全貌」

the "quantified self" represented by endless amounts of health data doesn't tell the whole __ (30) __ 说海量健康数据「说不出全貌」，tell the whole story 正是「道出全部真相」的固定表达。

【竞争词】 E) indicator 搭配不成立

没有 tell the whole indicator 「说出全部指标」这种说法，indicator 留给 28 题的 a better __ of 更合适。

J) puzzle 义近表象但搭配不对

puzzle 是「谜题」，tell the whole puzzle 不成搭配；表「全貌」的固定宾语是 story 而非 puzzle。

L) recovery 语义不沾边

recovery 「康复」与「数据说不出全貌」毫无关系，且它是 34 题 illness __ rates 的答案。

31. all of these aspects are not __ (31) __ in any of these measurements

【答案】 **M) reflected** (动词)

【词性槽】 空处在 are not 后、介词 in 前，作系表/被动的核心，是动词（过去分词）

【依据】 **are not reflected in** 「未被反映在……中」契合「这些方面没体现在测量数据里」

my social network, and all of these aspects are not __ (31) __ in any of these measurements, 说「我的社交网络等方面都没被这些测量反映出来」，be reflected in 正是「反映/体现在……中」的固定被动搭配。

32. supported by plenty of __(32)__ research

【答案】 **H) prior** (形容词)

【词性槽】空处在 plenty of 与名词 research 之间，作定语，要形容词

【依据】 **prior research** 「先前/已有的研究」契合「这一想法得到大量已有研究支持」

This idea is supported by plenty of __(32)__ research, 本段承接前文观点并用研究背书, prior research (已有研究) 语义最顺。

【竞争词】 **K) quantified** 语义被占且不切此处

quantified 「被量化的」修饰 self (量化自我) 成立, 但 quantified research 不是常见说法、也偏离此处「已有研究」之意; 它是 29 题答案。

M) reflected 语义不通

reflected research 「被反映的研究」讲不通, reflected 应留给 31 题 are not reflected in。

【易错】最具迷惑性的错误词是 **K)** —— quantified 词性也对、又是本篇出现过的词, 易误填。32 空 plenty of __(32)__ research 要形容词, quantified 正好是形容词、又在 29 题刚见过「量化」概念, 考生易顺手填它; 但 quantified research 不是常见搭配、也偏离「已有研究」之意, 正确的是 prior research——防坑点是别被刚出现的词带跑, 回到 research 的常见修饰词。

33. social support—whether it comes from friends, family members or a spouse—is __(33)__ associated with better mental and physical health

【答案】 **O) strongly** (副词)

【词性槽】空处在 is 与过去分词 associated 之间, 修饰形容词性成分, 要副词

【依据】 **strongly associated** 「密切相关」是固定搭配

is __(33)__ associated with better mental and physical health 要表达「社会支持与更好的身心健康密切相关」, strongly associated with 是论文里描述相关性的标准说法。

【竞争词】 **B) eagerly** 感情色彩不搭

eagerly 「急切地」修饰的是人主动的意愿 (eagerly waiting), 不能修饰 associated 「被关联」这种客观关系。

C) especially 语义指向错

especially 「尤其」用于举例强调, 不表示关联的「强度」, 且它是 35 题 especially since 的答案, 应留给那处。

34. improve illness __(34)__ rates

【答案】 **L) recovery** (名词)

【词性槽】 空处在名词 illness 与名词 rates 之间，构成复合名词修饰语，要名词

【依据】 **illness recovery rates** 「疾病康复率」契合「丰富社交能改善健康结果」

boost heart health and improve illness __(34)__ rates 与前面 lower stress、improve mood、boost heart health 并列，都是积极结果，improve illness recovery rates 「提高疾病康复率」语义最顺。

【竞争词】 **E) indicator** 搭配不成立

illness indicator rates 不是常见说法，且 improve indicator rates 语义空洞；indicator 应留给 28 题 a better ___ of。

【易错】 最具迷惑性的错误词是 **E)** —— indicator 名词性也对，易抢填到 34。34 空 illness ___ rates 要名词，indicator 是名词易被代入，但 illness indicator rates 不成搭配、且会害得 28 题 a better ___ of 没词可用；正确是 recovery，防坑点是看清并列里要的是「正向结果」的康复率，并为 28 题留出 indicator。

35. It's a significant problem, __(35)__ since loneliness is emerging as a widespread public health problem

【答案】 **C) especially** (副词)

【词性槽】 空处在逗号后、引导 since 从句前，作状语，要副词

【依据】 **especially since** 「尤其是因为」引出强化原因

It's a significant problem, __(35)__ since loneliness is emerging as a widespread public health problem, especially since 是常见连用，表「这问题很严重，尤其因为孤独正成为普遍的公共健康问题」。

【竞争词】 **B) eagerly** 语义与位置都不通

eagerly 「急切地」表人的态度，放在 since 从句前既无 eagerly since 的说法，也说不通「急切地因为」，逻辑不成立。

全文主旨

社交健康和体育健康同样重要，甚至更重要

全文开篇就把话题定死了：人们改善健康只想到饮食、睡眠、运动这些身体层面，但研究显示社交健康同样、甚至更重要——a growing body of research suggests that social health is just as, if not more, important。后文每段都在用研究证据支撑「社交圈子/社会支持影响身心健康」这一条主线。读懂这条主线，是后面每个空辨义的工作台。

DISTRACTORS · 干扰词复盘

这 5 个词始终没被任何空选用

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边，却不该填入任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

A) **base** 最像 26 题，base on 看着也像搭配

26 空 they all __(26)__ on physical health 后面正好是 on，base on 看着能拼，但 base on 需「base A on B」的及物结构、缺宾语不成立，识破点是「base on 不能直接接 on 做不及物」。

B) **eagerly** 最像 33 或 35 题的副词位

eagerly 是纯副词，词性对得上 33、35 两个副词空，但「急切地」表人的主动态度，无法修饰 associated 这种客观关系、也接不了 since，靠感情色彩与搭配即可排除。

G) **preached** 最像 26 或 31 题的动词位

preached 是动词过去式/分词，词性能进 26、31 的动词候选，但 preach「布道、宣讲」与本篇健康话题语义毫不相干，代入任何空都讲不通，靠词义直接淘汰。

I) **prompt** 最像 26 题的动词位

prompt「促使」是及物动词，看着能进动词空，但 prompt on 不成搭配、且语义不指向「关注身体健康」，搭配与语义双不过关。

J) puzzle 最像 30 题的名词位

puzzle「谜题」是名词，词性能进 30 的 the whole __, 但「全貌」的固定宾语是 story 不是 puzzle, tell the whole puzzle 不成搭配，靠习语整体识破。

6 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

When people set out to improve their health, they usually take a familiar path: starting a healthy diet, getting better sleep, and doing regular exercise.

第1段，第1句

句首时间状语从句加主句的结构在考试阅读中非常常见,属于典型的复合句模式,掌握这种结构对理解大量真题句子有直接帮助,典型性较高

Each of these behaviors is important, of course, but they all focus on physical health—and a growing body of research suggests that social health is just as, if not more, important to overall well-being.

第1段，第2句

并列主句 + 宾语从句的组合在四六级和考研阅读中非常常见，especially 转折 + 顺承引出新观点的逻辑链条是议论文的典型句式。宾语从句中的插入语比较结构 ("just as, if not more") 也是阅读中的高频难点。掌握本句结构可迁移到大量类似长句。

That finding suggests that the "quantified self" represented by endless amounts of health data doesn't tell the whole story.

第2段，第2句

主句 + 宾语从句的结构在四六级和考研阅读中极为常见，且从句主语带后置定语也是高频句式，学习后可大量复用于识别类似的"动词 + that从句"和"名词 + 过去分词短语"结构。

There's also a qualified self, which is who I am, what are my activities, my social network, and all of these aspects are not reflected in any of these measurements.

第3段，第1句

本句覆盖了主语、谓语、表语、状语等核心成分,更重要的是包含两个表语从句的识别(who和what引导),以及分句形式表语的判定,这些都是易错点。非限制性定语从句中四个并列表语成分的划分,对训练"识别并列结构"和"区分从句内外成分"很有价值。

Social isolation, meanwhile, is linked to higher rates of physical diseases and mental health conditions.

第5段，第1句

本句的 "主语 + be linked to + 名词短语" 结构在学术写作和考试阅读中高频出现，是描述因果关联、相关性的典型句式。被动语态的使用也符合学术语体的客观性要求，具有较强的迁移价值。掌握这一句式后，学习者可以快速识别和理解大量类似表达。

It's a significant problem, especially since loneliness is emerging as a widespread public health problem in many countries.

第5段，第2句

主句加原因状语从句是四六级和考研阅读中的常见结构。since 引导原因从句、现在进行时表示正在发展的趋势,都是典型用法,具有较好的代表性和迁移价值。

Part III Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Teenagers and social networking

A) As a parent of two boys at primary school, I worry about the issues associated with teenagers and social media. Newspapers are constantly filled with frightening accounts of drug addiction and aggressive behaviour supposedly caused by violent video games. But even when these accounts touch on real concerns, they do not really reflect the great mass of everyday teenage social behaviour: the online chat, the texting, the surfing, and the emergence of a new teenage sphere that is conducted digitally.

作为两个小学男孩的家长,我担心与青少年和社交媒体相关的问题。报纸上不断充斥着关于毒品成瘾和攻击性行为的可怕报道,这些行为据称是由暴力电子游戏引起的。但即使这些报道触及了真实的担忧,它们也并未真正反映青少年日常社交行为的主体:在线聊天、发短信、上网冲浪,以及一个以数字方式进行的新兴青少年领域的出现。

B) New technologies always provoke generational panic, which usually has more to do with adult fears than with the lives of teenagers. In the 1930s, parents worried that radio was gaining "an irresistible hold of their children". In the 80s, the great danger was the Sony Walkman(随身听). When you look at today's digital activity, the facts are much more positive than you might expect.

新技术总是引发代际恐慌,这种恐慌通常更多地与成年人的恐惧有关,而非青少年的生活。在20世纪30年代,家长担心收音机正在对他们的孩子产生"不可抗拒的控制"。在80年代,最大的危险是Sony Walkman。当你审视今天的数字活动时,事实比你预期的要积极得多。

C) Indeed, social scientists who study young people have found that their digital use can be inventive and even beneficial. This is true not just in terms of their social lives, but their education too. So if

you use a ton of social media, do you become unable, or unwilling, to engage in face-to-face contact? The evidence suggests not. Research by Amanda Lenhart of the Pew Research Centre, a US think tank, found that the most passionate texters are also the kids most likely to spend time with friends in person. One form of socialising doesn't replace the other. It expands it.

事实上,研究年轻人的社会科学家发现,他们对数字技术的使用可以是富有创造性的,甚至是有益的。这不仅体现在他们的社交生活方面,也体现在他们的教育方面。那么,如果你大量使用社交媒体,你会变得无法或不愿意进行面对面的接触吗?证据表明并非如此。美国智库Pew研究中心的Amanda Lenhart的研究发现,最热衷于发短信的人也是最有可能花时间与朋友当面相处的孩子。一种社交形式并不会取代另一种,它扩展了社交。

- D) "Kids still spend time face to face," Lenhart says. Indeed, as they get older and are given more freedom, they often ease up on social networking. Early on, the web is their "third space", but by the late teens, it's replaced in reaction to greater independence. They have to be on Facebook, to know what's going on among friends and family, but they are ambivalent(有矛盾心理的) about it, says Rebecca Eynon, a research fellow at the Oxford Internet Institute, who has interviewed about 200 British teenagers over three years. As they gain experience with living online, they begin to adjust their behaviour, struggling with new communication skills, as they do in the real world.

"孩子们仍然花时间面对面相处,"Lenhart说。事实上,随着他们年龄的增长并被赋予更多自由,他们往往会减少对社交网络的使用。早期,网络是他们的"第三空间",但到了十几岁后期,作为对更大独立性的反应,它被取代了。他们必须上Facebook,以了解朋友和家人之间发生的事情,但他们对此持矛盾态度,牛津互联网研究所的研究员Rebecca Eynon说,她在三年内采访了约200名英国青少年。随着他们获得在线生活的经验,他们开始调整自己的行为,努力掌握新的沟通技巧,就像他们在现实世界中所做的那样。

- E) Parents are wrong to worry that kids don't care about privacy. In fact, they spend hours changing Facebook settings or using quick-delete sharing tools, such as Snapchat, to minimise their traces. Or they post a photograph on Instagram, have a pleasant conversation with friends and then delete it so that no traces remain.

家长担心孩子不在乎隐私是错误的。事实上,他们花费数小时更改Facebook设置或使用快速删除的分享工具,如Snapchat,以最小化他们的痕迹。或者他们在Instagram上发布一张照片,与朋友进行愉快的对话,然后删除它,这样就不会留下任何痕迹。

- F) This is not to say that kids always use good judgment. Like everyone else, they make mistakes—sometimes serious ones. But working out how to behave online is a new social skill. While there's plenty of drama and messiness online, it is not, for most teens, a cycle of non-stop abuse: a Pew study found only 15% of teens said someone had bullied them online in the last 12 months.

这并不是说孩子们总是使用良好的判断力。像其他所有人一样,他们会犯错误——有时是严重的错误。但弄清楚如何在网上行事是一种新的社交技能。虽然网上有很多戏剧性和混乱的情况,但对大多数青少年来说,这并不是一个持续不断的虐待循环:Pew的一项研究发现,只有15%的青少年表示在过去12个月中有人在网上欺凌过他们。

- G) But surely all this short-form writing is affecting literacy? Certainly, teachers worry. They say that kids use overly casual language and text-speak in writing, and don't have as much patience for long reading and complex arguments. Yet studies of first-year college papers suggest these anxieties may be partly based on misguided nostalgia(怀旧). When Stanford University scholar Andrea Lunsford

gathered data on the rates of errors in "freshman composition" papers going back to 1917, she found that they were virtually identical to today.

但所有这些短格式写作肯定影响了读写能力吧?当然,教师们很担心。他们说孩子们在写作中使用过于随意的语言和短信用语,并且对长篇阅读和复杂论证没有那么多耐心。然而,对大学一年级论文的研究表明,这些焦虑可能部分基于误导性的怀旧。当Stanford大学学者Andrea Lunsford收集了可以追溯到1917年的"大一作文"论文错误率数据时,她发现它们与今天几乎相同。

- H) But even as error rates stayed stable, student essays have blossomed in size and complexity. They are now six times longer and, unlike older "what I did this summer" essays, they offer arguments supported by evidence. Why? Computers have vastly increased the ability of students to gather information, sample different points of view and write more fluidly.

但即使错误率保持稳定,学生论文在篇幅和复杂性上已经蓬勃发展。它们现在长了六倍,而且与旧式的"我这个夏天做了什么"的文章不同,它们提供由证据支持的论证。为什么?计算机极大地提高了学生收集信息、采样不同观点和更流畅地写作的能力。

- I) When linguist Naomi Baron studied students, instant messaging even there she found surprisingly rare usage of short forms such as "u" for "you", and as students got older, they began to write in more grammatical sentences. That is because they want to appear more adult, and they know how adults are expected to write. Clearly, teaching teens formal writing is still crucial, but texting probably isn't destroying their ability to learn it.

当语言学家Naomi Baron研究学生时,即使在即时通讯中,她也发现像用"u"代替"you"这样的缩写形式使用得出奇地少,而且随着学生年龄的增长,他们开始用更符合语法的句子写作。这是因为他们想显得更成熟,并且他们知道成年人应该如何写作。显然,教青少年正式写作仍然至关重要,但发短信可能并没有破坏他们学习它的能力。

- J) It is probably true that fewer kids are heavy readers compared with two generations ago, when cheap paperbacks boosted rates of reading. But even back then, a minority of people—perhaps 20%—were lifelong heavy readers, and it was cable TV not the internet, that struck a blow at that culture in the 1980s. Still, 15% or more of kids are found to be deeply bookish. In fact, the online world offers kids remarkable opportunities to become literate and creative because young people can now publish ideas not just to their friends, but to the world. And it turns out that when they write for strangers, their sense of "authentic audience" makes them work harder, push themselves further, and create powerful new communicative forms.

与两代人之前相比,现在重度阅读的孩子可能确实更少了,当时廉价的平装书提高了阅读率。但即使在那时,少数人——也许20%——是终身重度读者,而正是有线电视而非互联网在20世纪80年代对那种文化造成了打击。尽管如此,仍有15%或更多的孩子被发现非常爱读书。事实上,网络世界为孩子们提供了成为有文化素养和有创造力的人的非凡机会,因为年轻人现在不仅可以向他们的朋友发表想法,还可以向全世界发表。事实证明,当他们为陌生人写作时,他们对"真实受众"的感知使他们更加努力,推动自己更进一步,并创造出强大的新交流形式。

- K) Few would deny that too much time online can be harmful. Some of the dangers are emotional: hurting someone from a distance is not the same as hurting them face to face. If we're lucky, the legal environment will change to make teenagers' online lives less likely to haunt them later on. Just

last week, California passed a law allowing minors to demand that internet firms erase their digital past and the EU has considered similar legislation.

很少有人会否认在网上花太多时间可能是有害的。一些危险是情感上的:远距离伤害某人与面对面伤害他们是不同的。如果我们幸运的话,法律环境将会改变,使青少年的网络生活在以后不太可能困扰他们。就在上周,California通过了一项法律,允许未成年人要求互联网公司删除他们的数字过去,而欧盟也考虑了类似的立法。

- L) Distraction is also a serious issue. When kids switch from chat to music to homework, they are indeed likely to have trouble doing each task well. And studies show that pupils don't fact-check information online—"smart searching" is a skill schools need to teach urgently. It's also true that too much social networking and game playing can cut into schoolwork and sleep. This is precisely why parents still need to set firm boundaries around it, as with any other distraction.

分心也是一个严重的问题。当孩子们在聊天、音乐和家庭作业之间切换时,他们确实可能难以很好地完成每项任务。研究表明,学生不会在网上核实信息——"智能搜索"是学校需要紧急教授的技能。同样真实的是,过多的社交网络和游戏会占用学业和睡眠时间。这正是为什么家长仍然需要像对待任何其他干扰一样,在这方面设定明确的界限。

- M) So what's the best way to cope? The same boring old advice that applies to everything in parenting: moderation. Rebecca Eynon argues that it's key to model good behaviour. Parents who stare non-stop at their phones and don't read books are likely to breed kids who will do the same. As ever, we ought to be careful about our own behaviour.

那么应对的最佳方式是什么?适用于育儿中一切事物的同样无聊的老建议:适度。Rebecca Eynon认为,树立良好行为的榜样是关键。不停盯着手机看、不读书的父母很可能会培养出做同样事情的孩子。一如既往,我们应该对自己的行为保持谨慎。

陈述句与逐句解析

36. Research has found the use of digital technology benefits not only teenagers' social lives but also their studies.

研究发现,使用数字技术不仅有益于青少年的社交生活,也有益于他们的学习。

【答案】 C 段 (强锚点)

【锚点】 有益于社交与学业两方面

【定位】 Indeed, social scientists who study young people have found that their digital use can be inventive and even beneficial. This is true not just in terms of their social lives, but their education too.

事实上,研究年轻人的社会科学家发现,他们的数字使用可以富有创造性、甚至有益。这不仅体现在他们的社交生活上,也体现在他们的教育上。

【改写】 benefits ↔ beneficial

名词与形容词同源

their studies ↔ their education too

studies = education 同义

【辨邻】 H 段讲 student essays have blossomed in size and complexity, 只是教育/写作这一面的好处, 完全没有谈社交生活, 配不上陈述句的双重落点。

Computers have vastly increased the ability of students to gather information

37. It is urgent that schools teach kids how to verify online information.

学校迫切需要教会孩子如何验证在线信息。

【答案】 L 段 (强锚点)

【锚点】 学校教核查网上信息

【定位】 And studies show that pupils don't fact-check information online—"smart searching" is a skill schools need to teach urgently.

研究还显示, 学生不会核查网上信息——智能搜索是学校亟需教授的一项技能。

【改写】 verify online information ↔ **fact-check information online**

verify = fact-check

It is urgent ↔ **schools need to teach urgently**

urgent 与 urgently 同源

38. Students now write longer and more complex essays than their counterparts in previous decades while the error rates remain unchanged.

与前几十年的同龄人相比, 现在的学生写作的文章更长、更复杂, 而错误率保持不变。

【答案】 H 段 (强锚点)

【锚点】 论文更长更复杂但错误率不变

【定位】 But even as error rates stayed stable, student essays have blossomed in size and complexity. They are now six times longer and, unlike older "what I did this summer" essays, they offer arguments supported by evidence.

但即便错误率保持稳定, 学生的论文在篇幅和复杂度上却大大提升。它们如今长达六倍, 而且不同于以往那种我的暑假之类的作文, 它们能用证据支撑论点。

【改写】 longer and more complex essays ↔ **blossomed in size and complexity**

篇幅复杂度概括对应

the error rates remain unchanged ↔ **error rates stayed stable**

unchanged = stayed stable

【辨邻】 G 段结论是错误率 virtually identical to today, 只对错误率不变这一半, 没有讲论文更长更复杂, 缺了陈述句的核心一半。

she found that they were virtually identical to today

39. Newspaper reports of teenagers give a false picture of their behaviour.

报纸对青少年的报道给出了关于他们行为的错误印象。

【答案】 **A** 段 (强锚点)

【锚点】 报纸给出失真画面

【定位】 But even when these accounts touch on real concerns, they do not really reflect the great mass of everyday teenage social behaviour: the online chat, the texting, the surfing, and the emergence of a new teenage sphere that is conducted digitally.

但即便这些报道触及真实的担忧，它们也并未真正反映绝大多数青少年的日常社交行为：在线聊天、发短信、上网冲浪，以及一个以数字方式进行的新青少年领域的兴起。

【改写】 Newspaper reports ↔ **Newspapers**

同词指代报道

give a false picture of their behaviour ↔

do not really reflect the great mass of everyday teenage social behaviour

假象 = 未真实反映

40. Parents are advised to mind their own digital behaviour and set a good example for their kids.

建议家长注意自己的数字行为,为孩子树立良好榜样。

【答案】 **M** 段 (强锚点)

【锚点】 家长注意自身行为做榜样

【定位】 Rebecca Eynon argues that it's key to model good behaviour. Parents who stare non-stop at their phones and don't read books are likely to breed kids who will do the same. As ever, we ought to be careful about our own behaviour.

Rebecca Eynon 认为以身作则至关重要。整天盯着手机、不读书的家长，很可能养出同样的孩子。一如既往，我们应当注意自己的行为。

【改写】 set a good example for their kids ↔ **model good behaviour**

做榜样同义

mind their own digital behaviour ↔ **careful about our own behaviour**

注意自身行为同义

【辨邻】 **L** L 段说 parents still need to set firm boundaries, 是约束孩子的行为，而陈述句要的是家长注意自身、做榜样，两者落点不同。

parents still need to set firm boundaries around it

41. Contrary to parents' belief, kids try hard to leave as few traces as possible on the web.

与家长的看法相反,孩子们努力在网上留下尽可能少的痕迹。

【答案】 **E** 段 (强锚点)

【锚点】 孩子努力少留网上痕迹

【定位】 Parents are wrong to worry that kids don't care about privacy. In fact, they spend hours changing Facebook settings or using quick-delete sharing tools, such as Snapchat, to minimise their traces.

家长担心孩子不在乎隐私，这是错的。事实上，他们花数小时更改 Facebook 设置，或使用阅后即删的分享工具（如 Snapchat），以尽量减少自己留下的痕迹。

【改写】 Contrary to parents' belief ↔ **Parents are wrong to worry**

与家长想法相反 = 家长担心错了

leave as few traces as possible on the web ↔ **minimise their traces**

尽量少留 = minimise

42. Students' ability to learn formal writing is unlikely to be affected by texting.

学生学习正式写作的能力不太可能受到发短信的影响。

【答案】 I 段（强锚点）

【锚点】 学正式写作不受短信影响

【定位】 Clearly, teaching teens formal writing is still crucial, but texting probably isn't destroying their ability to learn it.

显然，教青少年正式写作仍然至关重要，但发短信大概并未毁掉他们学习它的能力。

【改写】 ability to learn formal writing ↔ **ability to learn it**

it 回指 formal writing

unlikely to be affected by texting ↔ **texting probably isn't destroying**

不太可能受影响 = 大概没毁掉

【辨邻】 G 段说 kids use overly casual language and text-speak in writing，落点是担忧，与陈述句的安抚结论方向相反，不是源头。

they don't have as much patience for long reading and complex arguments

43. Historically, new technologies have always caused great fears among parents.

从历史上看，新技术总是在家长中引起巨大恐慌。

【答案】 B 段（强锚点）

【锚点】 新技术历来引发家长恐惧

【定位】 New technologies always provoke generational panic, which usually has more to do with adult fears than with the lives of teenagers.

新技术总是引发代际恐慌，这通常更多与成人的恐惧有关，而非与青少年的生活有关。

【改写】 new technologies have always caused great fears ↔

New technologies always provoke generational panic

caused fears = provoke panic

among parents ↔ **adult fears**

parents 属于 adults

44. The reading culture was seriously affected by cable television some four decades ago.

大约四十年前,阅读文化受到有线电视的严重影响。

【答案】 J 段 (强锚点)

【锚点】 有线电视约四十年前重创阅读

【定位】 But even back then, a minority of people—perhaps 20%—were lifelong heavy readers, and it was cable TV not the internet, that struck a blow at that culture in the 1980s.

但即便那时,也只有少数人——也许 20%——是终身的重度读者,而真正打击那种文化的是有线电视而非互联网,发生在上世纪八十年代。

【改写】 cable television ↔ **cable TV**

同一专名缩写

seriously affected ↔ **struck a blow at that culture**

重创同义

some four decades ago ↔ **in the 1980s**

四十年前换算为八十年代

45. Teachers say that kids' writing is too casual, using language characteristic of text messages.

老师们说孩子们的写作过于随意,使用了短信特有的语言。

【答案】 G 段 (强锚点)

【锚点】 老师说写作太随意像短信

【定位】 They say that kids use overly casual language and text-speak in writing, and don't have as much patience for long reading and complex arguments.

他们说孩子写作时使用过于随意的语言和网络用语,对长篇阅读和复杂论证也没有那么多耐心。

【改写】 Teachers say ↔ **They say**

They 回指 teachers

too casual ↔ **overly casual language**

too = overly

language characteristic of text messages ↔ **text-speak**

短信式语言同义

【辨邻】 I 段是 Naomi Baron 发现 surprisingly rare usage of short forms, 说的是缩写罕见、偏安抚, 而非老师抱怨写作太随意, 主语与态度都不对。

she found surprisingly rare usage of short forms such as "u" for "you"

PARAGRAPH MAP • 段落主旨图

13 个段落各讲了什么

逐段一句主旨 + 该段最具区分度的「信息指纹」, 是逐句回扫定位的工作台。

A 作者以两个小学男孩家长的身份切入, 指出报纸总在渲染由暴力电子游戏引发的吸毒、攻击行为等可怕故事, 但这些报道并不能反映绝大多数青少年真实的日常网络社交。

信息指纹 报纸渲染 vs 真实日常

B 新技术总是引发代际恐慌, 这更多源于成人的恐惧而非青少年的真实生活; 并举了上世纪三年代的收音机、八十年代的随身听为例。

信息指纹 历史上的技术恐慌 (收音机/随身听)

C 社会科学家发现青少年的数字使用富有创造性甚至有益, 不仅利于社交也利于教育; 研究显示最热衷发短信的孩子也最常与朋友面对面相处。

信息指纹 数字使用利于社交也利于教育

D 孩子仍然花时间面对面相处; 随着年龄增长、独立性增强, 他们反而减少社交网络的使用; 牛津研究者 Eynon 访谈约两百名英国青少年, 发现他们对 Facebook 心态矛盾。

信息指纹 年长后反而减少使用、心态矛盾

E 家长担心孩子不在乎隐私是错的; 孩子们其实花大量时间改 Facebook 设置、用阅后即删工具, 或发完照片聊完天再删掉以不留痕迹。

信息指纹 孩子刻意不留隐私痕迹

F 并非说孩子总有好判断力，他们也会犯错甚至犯严重的错；但学会网上如何行事是一种新社交技能，且对多数青少年而言网络并非持续不断的霸凌——Pew 研究显示仅 15% 的青少年称过去一年被网络霸凌过。

信息指纹 网上犯错与 15% 被霸凌数据

G 短文写作是否损害读写能力？老师们确实担心，说孩子用过于随意的语言和网络用语写作、缺乏耐心读长文；但斯坦福学者 Lunsford 追溯到 1917 年的大一作文错误率，发现与今天几乎相同。

信息指纹 老师担忧写作太随意 + 1917 错误率

H 即便错误率稳定，学生论文在篇幅和复杂度上却大大提升，如今长达六倍且能用证据支撑论点；原因是计算机极大增强了学生收集信息、采样观点和流畅写作的能力。

信息指纹 论文长六倍、更复杂

I 语言学家 Baron 研究学生即时通讯，发现像 u 代替 you 这类缩写其实罕见，且学生年长后写得更合语法——因为他们想显得更成熟；教正式写作仍关键，但发短信大概不会毁掉学习它的能力。

信息指纹 短信不会毁掉学正式写作

J 如今重度阅读者或许比两代前少；但即便那时也只有约 20% 是终身重度读者，而真正打击阅读文化的是上世纪八十年代的有线电视而非互联网；网络反倒给孩子提供了面向世界发表、变得有文化和创造力的机会。

信息指纹 有线电视打击阅读文化

K 很少有人否认上网过多有害，部分危险是情感上的；若幸运，法律环境会改变以减少网络生活日后困扰青少年——加州刚通过法律允许未成年人要求互联网公司删除其数字过往，欧盟也在考虑类似立法。

信息指纹 立法允许删除数字过往

L 分心也是严重问题；孩子在聊天、音乐、作业间切换会每件都做不好，且研究显示学生不核查网上信息——学校亟需教智能搜索；社交和游戏过多会侵占学业和睡眠，所以家长仍需设定明确界限。

信息指纹 分心、不核查信息、亟需教智能搜索

M

最好的应对之道是育儿中适用于一切的老生常谈——适度；Eynon 主张关键是以身作则，整天盯手机不读书的家长会长养出同样的孩子，所以我们应当注意自己的行为。

信息指纹 适度 + 家长以身作则

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

But even when these accounts touch on real concerns, they do not really reflect the great mass of everyday teenage social behaviour: the online chat, the texting, the surfing, and the emergence of a new teenage sphere that is conducted digitally.

A段，第3句

本句结构高度典型：让步状语从句 + 主句 + 同位语解释 + 限制性定语从句，是四六级和考研阅读中常见的复合句模式；冒号引出同位语、“that”引导定语从句都是高频句式，学生掌握后可直接迁移到大量真题长难句

Indeed, social scientists who study young people have found that their digital use can be inventive and even beneficial.

C段，第1句

本句结构在四六级和考研阅读中高度典型：主句 + 定语从句修饰主语 + 宾语从句的组合是学术文章和新闻报道的常见句式。“found that...”引出研究结论的表达，以及用定语从句限定研究者范围的写法，都是考试常考句型。掌握本句结构后可大量迁移到其他含有研究发现、观点陈述的长句中

Indeed, as they get older and are given more freedom, they often ease up on social networking.

D段，第2句

“as”引导的时间状语从句 + 主句是四六级和考研阅读中的高频句式，常用于说明因果或时间关系。状语从句内部的并列谓语（主动 + 被动）也是常考结构。整体句式具有较强的代表性，掌握后可迁移到大量类似句子。

But working out how to behave online is a new social skill.

F段，第3句

动名词短语作主语、宾语从句嵌套在主语中、主系表结构陈述观点，这些都是四六级和考研英语中高频出现的句式。特别是动名词短语作主语且包含从句这一结构，在阅读和翻译题中常见。句子结构典型且具有较强的迁移性，学生掌握后可应用于大量类似句子的分析。

They are now six times longer and, unlike older "what I did this summer" essays, they offer arguments supported by evidence.

H段，第2句

并列句在四六级和考研真题中较为常见，尤其是用 "and" 连接两个主句、中间插入对比或补充成分的结构。本句的 "unlike" 插入成分以及宾语后置定语也是常考句式。但整体结构相对简单，没有复杂从句嵌套，典型性中等偏上。

But even back then, a minority of people—perhaps 20%—were lifelong heavy readers, and it was cable TV not the internet, that struck a blow at that culture in the 1980s.

J段，第2句

强调句型 "it is/was...that..." 是四六级和考研阅读中的高频句式，掌握后可大量迁移；并列主句结构和插入语也是常见考点；整体句式代表性强，适合作为典型例句反复练习。

Still, 15% or more of kids are found to be deeply bookish.

J段，第3句

"主语 + be found + to do" 是四六级和考研阅读中的高频被动结构，用于陈述研究发现或客观结论，具有较强的代表性和迁移价值。

Few would deny that too much time online can be harmful.

K段，第1句

宾语从句由 "that" 引导，跟在及物动词后，是四六级和考研阅读中的高频结构。情态动词 "would" 和 "can" 的用法也很常见。主句用否定意义的主语加否定动词来表达肯定观点(双重否定)，是英文中的典型表达方式，具有较强的代表性和迁移价值。

Some of the dangers are emotional: hurting someone from a distance is not the same as hurting them face to face.

K段, 第2句

第一个主句是标准主系表结构,成分单一;第二个主句包含动名词短语作主语和介词宾语,以及否定表语结构,覆盖了非谓语动词(动名词)、介词短语、否定词的使用等常见考点。成分种类有一定丰富度,但不算密集,适合作为动名词和主系表结构的基础练习句

When kids switch from chat to music to homework, they are indeed likely to have trouble doing each task well.

L段, 第2句

When 引导的时间状语从句加主句的结构在四六级和考研阅读中极为常见,属于典型的状语从句句式。主句采用 be likely to do 表示可能性,也是高频表达。掌握本句结构后可大量迁移到类似句型的理解中。

Research has found the use of digital technology benefits not only teenagers' social lives but also their studies.

第36题题干

本句结构高度典型:主句 + 宾语从句(省略 that)的组合在四六级和考研阅读中极为常见,not only ... but also 并列结构也是高频考点。掌握本句可以迁移到大量同类句型的理解和翻译中。

It is urgent that schools teach kids how to verify online information.

第37题题干

It is + 形容词 + that 从句(形式主语结构)以及 teach sb how to do sth(双宾语加宾语从句)都是四六级和考研常考句式,虚拟语气在 urgent/important/necessary 等形容词后也是高频考点。本句结构典型、考点密集,掌握后可大量迁移到类似句型。

Parents are advised to mind their own digital behaviour and set a good example for their kids.

第40题题干

be advised to do 是四六级和考研阅读中常见的被动建议句式,具有一定代表性,掌握后可迁移到类似表达。

Contrary to parents' belief, kids try hard to leave as few traces as possible on the web.

第41题 题干

本句展示了 "try to do sth" 这一高频动词搭配，以及介词短语作全句状语的常见用法 ("Contrary to..." 表对比)。简单句中包含不定式短语作宾语、副词作状语等典型成分，结构在四六级和考研英语阅读中较为常见。掌握本句结构后，可迁移到类似的 "动词 + 不定式" 和 "状语前置" 句式。

Part III Section C (1)

Directions: *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

Passage One

Questions 46 to 50 are based on the following passage.

P1 In the history of horse racing, few horses have captured the affection of the British public like Red Rum. Today, three decades after his retirement, he is still one of the best-known and most beloved racehorses of all time.

在赛马史上,很少有马能像Red Rum那样赢得英国公众的喜爱。如今,在它退役三十年后,它仍然是有史以来最知名、最受喜爱的赛马之一。

P2 Red Rum was passed around to several owners before being purchased for Noel Le Mar. The agent who made the purchase was the now-legendary horse trainer Donald "Ginger" McCain.

Red Rum在被Noel Le Mar购买之前曾被转手给几位马主。促成这次购买的经纪人是现已成为传奇的驯马师Donald "Ginger" McCain。

P3 It wasn't apparent at the time, but Red Rum had a serious bone disease in his foot. For many horses (and many trainers) this would mean the end of a racing career before it even began. For Ginger and Red Rum, though, it was just an obstacle to greatness that had to be overcome.

当时并不明显,但Red Rum的蹄部患有严重的骨病。对于许多马(以及许多驯马师)来说,这意味着赛马生涯甚至在开始之前就结束了。但对于Ginger和Red Rum来说,这只是通往伟大道路上必须克服的障碍。

P4 Red Rum's true talent came out in steeplechases(障碍赛马). His power, speed and jumping ability carried him to his first Grand National title in 1973. The very next year, Red Rum returned to

take his second title. He was the first horse to take successive firsts since Reynoldstown in 1935-1936. Red Rum's spirit and grace had already begun to charm the leagues of Grand National fans.

Red Rum的真正天赋在障碍赛马中显现出来。它的力量、速度和跳跃能力使它在1973年赢得了首个英国障碍赛马大赛冠军。第二年,Red Rum再次夺冠。它是自1935-1936年的Reynoldstown以来第一匹连续夺冠的马。Red Rum的精神和优雅已经开始征服众多英国障碍赛马大赛的粉丝。

P5 In the following two years, Red Rum lost out on the title, coming in second both times. When he returned in 1977 to try again, he was largely regarded as past his prime. He was 12 years old and not expected to place highly. He surprised sporting fans around the world when he came in a remarkable 25 lengths ahead of the nearest horse, taking his third Grand National win. To this day, Red Rum's third win is known as one of the greatest moments in horse racing history.

在接下来的两年里,Red Rum与冠军失之交臂,两次都获得第二名。当它在1977年再次参赛时,人们普遍认为它已经过了巅峰期。它已经12岁了,不被看好能取得好名次。当它以令人瞩目的25个马位领先于最近的马匹,赢得第三个英国障碍赛马大赛冠军时,它震惊了全世界的体育爱好者。直到今天,Red Rum的第三次胜利仍被认为是赛马史上最伟大的时刻之一。

P6 Red Rum was headed for the Grand National once again in 1978 but suffered an injury in one of his heels shortly before the race. He was retired soon after, but his public life and fame by no means decreased with the end of his career. Red Rum traveled all over the country for various engagements. He often led pre-race parades at Aintree Racecourse and was a popular guest at charity benefits and public events.

Red Rum原计划在1978年再次参加英国障碍赛马大赛,但在比赛前不久脚后跟受伤。它不久后退役,但它的公众生活和名气绝没有随着职业生涯的结束而减少。Red Rum走遍全国参加各种活动。它经常在Aintree赛马场带领赛前游行,并且是慈善活动和公共活动的热门嘉宾。

题目与逐题解析

46. What do we learn from the passage about Red Rum the racehorse?

- A) He captured public affection long before he won national titles.
- B) He won enormous fame and love from British people.
- C) He became a myth three decades after his retirement.
- D) He owed his great success to several well-known horse trainers.

从文章中我们了解到关于赛马Red Rum的什么信息?

- A) 他在赢得全国冠军之前很久就赢得了公众的喜爱。
- B) 他赢得了英国人民的巨大声誉和爱戴。
- C) 他在退役三十年后成为了一个传奇。
- D) 他的巨大成功归功于几位著名的驯马师。

【答案】 B (细节题)

【判型】 What do we learn from the passage about Red Rum the racehorse 问对赛马的整体了解, 落点仍是文中可直接找到的客观陈述, 而非要求读者跨段推断或归纳全文主旨。

【拆句】 What do we learn from the passage about Red Rum the racehorse 主干是 What do we learn, 介词短语 from the passage 表来源, about Red Rum the racehorse 表对象, 其中 the racehorse 是 Red Rum 的同位语, 仅起身份补充, 无陷阱。

【定位】 In the history of horse racing, few horses have captured the affection of the British public like Red Rum. Today, three decades after his retirement, he is still one of the best-known and most beloved racehorses of all time.

在赛马史上，很少有马像 Red Rum 那样赢得英国公众的喜爱。今天，距它退役已有三十年，它仍是有史以来最知名、最受爱戴的赛马之一。

【选项】 A) **无中生有**

He captured public affection long before he won national titles 凭空添加“夺冠之前就赢得公众喜爱”的时间先后关系，原文 P1 只说他广受喜爱，未提“夺冠之前”。

B) **✓ 正确**

few horses have captured the affection of the British public like Red Rum ↔

He won enormous fame and love from British people

the affection of the British public ↔ **love from British people**

预判说“他从英国公众那里获得巨大名声与喜爱”，He won enormous fame and love from British people 是这句话的同义复述，无需推断即可锁定。

C) **偷换概念**

原文 three decades after his retirement, he is still one of the best-known and most beloved racehorses of all time 只说退役三十年后他仍然知名；He became a myth three decades after his retirement 把 still well-known 偷换成 became a myth（成为一个神话/传说），属于程度与性质的偷换。

D) **以偏概全**

He owed his great success to several well-known horse trainers 说“他把成功归因于多位知名教练”；但原文 The agent who made the purchase was the now-legendary horse trainer Donald "Ginger" McCain 全文只突出一位教练 Ginger，没有 several。

47. What did the serious bone disease in Red Rum's foot mean to himself and his trainer?

- A) It was simply a hindrance they had to get over to excel.
- B) It was surely a disadvantage though not considered fatal.
- C) It was actually the end of a racing career that had just begun.
- D) It was really a major obstacle hard to overcome on their own.

Red Rum蹄部的严重骨病对他自己和他的驯马师意味着什么？

- A) 这只是他们必须克服才能出类拔萃的一个障碍。
- B) 这确实是一个劣势,尽管不被认为是致命的。
- C) 这实际上是一个刚刚开始赛马生涯的终结。
- D) 这确实是一个他们自己难以克服的主要障碍。

【答案】 A (细节题)

【判型】 题干问 the serious bone disease 对二者意味着什么，答案是一句可直接从原文复制的评价，不需要推断。

【拆句】 What did the serious bone disease in Red Rum's foot mean to himself and his trainer 主干是 the bone disease mean to whom, 其中 in Red Rum's foot 是 the serious bone disease 的后置定语, to himself and his trainer 是 mean 的对象。需留意 himself 在英语里指代上文出现的男性化主语, 这里回指 Red Rum。

【定位】 For Ginger and Red Rum, though, it was just an obstacle to greatness that had to be overcome.

然而对 Ginger 与 Red Rum 来说, 这(病情)不过是通往伟大路上的一道必须跨越的障碍。

【选项】 A) ✓ 正确

it was just an obstacle to greatness that had to be overcome ↔

It was simply a hindrance they had to get over to excel

had to be overcome ↔ **they had to get over**

It was simply a hindrance they had to get over to excel 几乎是 it was just an obstacle to greatness that had to be overcome 的逐词同义改写, 预判与选项几乎重合。

B) 无中生有

It was surely a disadvantage though not considered fatal 加了一个 not considered fatal 的让步, 原文从未拿“致命/非致命”来评价此病; 选项偷偷在原句外塞入新评价。

C) 与原文相反

原文 For many horses (and many trainers) this would mean the end of a racing career before it even began 用虚拟 would mean 描述“对很多马而言”的假设结果; It was actually the end of a racing career that had just begun 把这种他人假设包装成 himself and his trainer 身上的事实, 与原文相反。

D) 过度推断

It was really a major obstacle hard to overcome on their own 在 obstacle 之外加了 hard to overcome on their own 这种“难以靠自己克服”的修饰, 原文 had to be overcome 只说“必须翻越”, 未评价难度, 也未提是否需要外援。

48. What does the author say Red Rum did with his power, speed and jumping ability?

- A) He won his first Grand National title at 12.
- B) He took two firsts successively in 1935-1936.
- C) He surprised sporting fans worldwide in 1973.
- D) He took three Grand National wins in the 1970s.

作者说Red Rum用他的力量、速度和跳跃能力做了什么?

- A) 他在12岁时赢得了他的第一个Grand National冠军。
- B) 他在1935-1936年连续两次获得冠军。
- C) 他在1973年让全世界的体育迷感到惊讶。
- D) 他在20世纪70年代三次赢得Grand National冠军。

【答案】 D (细节题)

【判型】 What does the author say Red Rum did with his power, speed and jumping ability 问凭这三种能力做成了什么，原文里必有承接句直接给出结果。

【拆句】 What does the author say Red Rum did with his power, speed and jumping ability 句中 the author say 是插入性主语从句框架，真正的问题核心是 Red Rum did what with his power, speed and jumping ability，介词 with 引出工具。基础薄弱的考生容易被 does the author say 带偏去找作者观点，实质仍是问赛马本身的行为。

【定位】 Red Rum's true talent came out in steeplechases. His power, speed and jumping ability carried him to his first Grand National title in 1973. The very next year, Red Rum returned to take his second title. He was the first horse to take successive firsts since Reynoldstown in 1935-1936.

Red Rum 真正的才华在障碍赛中绽放。他的力量、速度与跳跃能力把他带向 1973 年第一座全国大赛冠军。次年他再度归来，拿下第二冠，成为自 1935-1936 年 Reynoldstown 之后第一匹蝉联的马。

【选项】 A) 张冠李戴

He won his first Grand National title at 12 把首冠年龄定为 12 岁；但 his first Grand National title in 1973 是首冠时间，而 He was 12 years old 是 1977 年第三冠时的年龄，选项把第三冠的年龄安到首冠头上。

B) 张冠李戴

He took two firsts successively in 1935-1936 把 1935-1936 连冠归到 Red Rum 名下，但原文 He was the first horse to take successive firsts since Reynoldstown in 1935-1936 明确 1935-1936 的连冠属于另一匹马 Reynoldstown。

C) 张冠李戴

He surprised sporting fans worldwide in 1973 把“worldwide 惊讶”与 1973 挂钩，但原文 He surprised sporting fans around the world 明确发生在 1977 年第三冠那次，与 in 1973 无关。

D) ✓ 正确

his first Grand National title in 1973 ↔ **three Grand National wins in the 1970s**

the first horse to take successive firsts ↔ **three Grand National wins in the 1970s**

taking his third Grand National win ↔ **three Grand National wins in the 1970s**

把 1973、1974、1977 三场冠军合并，正好对应 three Grand National wins in the 1970s，全部时间都落在 1970 年代。

49. What did people generally think of Red Rum when he returned to the racecourse in 1977?

- A) He had already passed the peak of his racing life.
- B) He would have no rival in Grand National steeplechases.
- C) He had lost his charm with the leagues of Grand National fans.
- D) He could be expected to repeat his glory in the prime of his career.

当Red Rum在1977年重返赛场时,人们普遍对他有什么看法?

- A) 他已经过了赛马生涯的巅峰期。 B) 他在Grand National障碍赛中将没有对手。
- C) 他已经失去了对Grand National众多粉丝的吸引力。
- D) 可以期待他在职业生涯的黄金时期重现辉煌。

【答案】 **A** (细节题)

【判型】 What did people generally think of Red Rum when he returned to the racecourse in 1977 问的是原文中直接表述过的公众看法, 不需要跨段推断。

【拆句】 What did people generally think of Red Rum when he returned to the racecourse in 1977 主干 What did people think of X, 时间状语从句 when he returned to the racecourse in 1977 用一般过去时锁定 1977 那次复出。考生注意 think of 在此是“对……有何看法”, 不是“想到”。

【定位】 When he returned in 1977 to try again, he was largely regarded as past his prime. He was 12 years old and not expected to place highly.

1977 年他再度归来尝试时, 普遍被认为已过巅峰; 他已 12 岁, 不被看好会拿到好名次。

【选项】 **A) ✓ 正确**

was largely regarded as past his prime ↔ **He had already passed the peak of his racing life**
原文 past his prime 与选项 passed the peak of his racing life 是同义改写, 且 was largely regarded as 完整对应题干 people generally think.

B) 与原文相反

He would have no rival in Grand National steeplechases 说他在大赛中无敌手; 原文 he was largely regarded as past his prime 表达的是相反的预期——大家觉得他过气了。

C) 与原文相反

He had lost his charm with the leagues of Grand National fans 说他对大赛粉丝失去了魅力; 但原文 Red Rum's spirit and grace had already begun to charm the leagues of Grand National fans 与 P5 处都未出现魅力消失的描述, 反而 his public life and fame by no means decreased 进一步否定这一说法。

D) 与原文相反

He could be expected to repeat his glory in the prime of his career 说“大家期待他在巅峰期再现辉煌”; 但原文 not expected to place highly 明说他不被看好, 且 past his prime 已说明他不在巅峰。

50. What became of Red Rum after his career ended?

- A) He suffered from severe pain in a heel.
- B) He spent almost all his time traveling.
- C) He lived on various charity benefits.
- D) He remained famous and popular.

Red Rum的职业生涯结束后情况如何？

- A) 他的脚后跟遭受剧烈疼痛。 B) 他几乎把所有时间都花在旅行上。 C) 他靠各种慈善救济生活。
D) 他依然著名和受欢迎。

【答案】 D (细节题)

【判型】 What became of Red Rum after his career ended 问退役后的整体情况，原文末段直接给出概括语句，无需跨段归纳。

【拆句】 What became of Red Rum after his career ended 主干 What became of Red Rum, become of 是固定搭配，意为“……后来怎样了”，时间状语从句 after his career ended 限定时间范围。考生容易把 became 理解成“成为”而读不懂句子，记住 became of 是整体短语，不可拆。

【定位】 He was retired soon after, but his public life and fame by no means decreased with the end of his career. Red Rum traveled all over the country for various engagements. He often led pre-race parades at Aintree Racecourse and was a popular guest at charity benefits and public events.

他随即退役，但他的公众生活与名气并未随职业结束而减退。他全国奔波出席各种活动，常在 Aintree 赛马场领跑赛前游行，也是慈善活动与公众活动上的常客。

【选项】 A) 答非所问

He suffered from severe pain in a heel 把蹄部受伤说成退役后的状态；原文 suffered an injury in one of his heels shortly before the race. He was retired soon after 明示受伤在退役前，且未提持续“severe pain”。

B) 过度推断

He spent almost all his time traveling 把 traveled all over the country for various engagements 夸大为“几乎所有时间都在旅行”，原文只说他经常奔波出席活动，没说“几乎所有时间”。

C) 偷换概念

He lived on various charity benefits 中 lived on 意为“靠.....生活”，把 was a popular guest at charity benefits 这种“出席慈善活动”误读为“靠慈善活动养活”，性质完全不同。

D) ✓ 正确

his public life and fame by no means decreased ↔ **He remained famous and popular**

Red Rum traveled all over the country for various engagements ↔

He remained famous and popular

P6 既有总括 by no means decreased 又有具体 popular guest，二者共同指向 He remained famous and popular。

Red Rum was passed around to several owners before being purchased for Noel Le Mar.

第2段，第1句

"主句 + before 引导的时间状语从句" 是四六级和考研阅读中的高频句式，被动语态在学术和正式文体中也极为常见。动名词被动式在从句中的使用体现了英语中常见的省略和简化手法，具有较强的代表性。掌握该句式后可迁移到大量同类句子的理解和分析。

He surprised sporting fans around the world when he came in a remarkable 25 lengths ahead of the nearest horse, taking his third Grand National win.

第5段，第4句

"主句 + when 时间状语从句 + 现在分词短语作伴随状语" 是四六级和考研阅读中高频出现的句式组合，时间状语从句与非谓语动词的配合使用是典型考点，学习后可广泛迁移到同类句型的理解中。

He was retired soon after, but his public life and fame by no means decreased with the end of his career.

第6段，第2句

并列句是四六级和考研阅读中的高频句式，本句通过 "but" 连接的转折关系也是典型的逻辑关系。被动语态和程度状语的使用都是真题中常见的考点，掌握本句的分析方法可以迁移到大量类似句子。

He owed his great success to several well-known horse trainers.

第46题，D

"owe A to B" 结构在考试阅读中较为常见，属于典型的及物动词加宾语再加介词短语的模式，掌握后可迁移到类似结构（如 attribute A to B），有一定代表性。

It was simply a hindrance they had to get over to excel.

第47题，A

本句涵盖主系表结构、省略关系代词的定语从句、情态意义的半情态结构（had to）、动词短语宾语（get over的宾语为省略关系代词）、不定式目的状语，成分种类较为丰富，尤其省略关系代词和从句宾语的识别是常见易错点，训练价值较高。

It was surely a disadvantage though not considered fatal.

第47题，B

主句搭配让步状语从句的结构在四六级和考研阅读中高频出现，"though" 引导的让步从句及其省略形式也是常考句式，掌握后可在大量类似句子中复用识别方法，具有较强的典型性。

It was actually the end of a racing career that had just begun.

第47题，C

主系表结构 + 限制性定语从句修饰表语中的名词，是四六级和考研阅读中的高频句式，过去完成时在定语从句中的使用也是典型用法，掌握后可迁移到大量类似句子。

Part III Section C (2)

Directions: *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

Passage Two

Questions 51 to 55 are based on the following passage.

P1 People in business often make decisions based on their own personal feelings or instincts. It is quite horrifying to see people being guided by some unknown force. But how wise is it, really, to let your instincts drive your decisions?

商业人士在做决策时经常基于自己的个人感觉或直觉。看到人们被某种未知力量引导是相当可怕的。但是，让你的直觉驱动你的决策，这到底有多明智呢？

P2 In the decision-making process, relying on instincts only makes sense when you have a vast experience to support you. Simply "feeling" that something is right or should be done is highly subjective and can drown you.

在决策过程中，依赖直觉只有在你拥有丰富经验支撑时才有意义。仅仅“感觉”某事是对的或应该做是高度主观的，可能会让你陷入困境。

P3 On the other hand, there is a more rational approach to making decisions. Data and analysis have long been associated with informed decisions. These reduce the likelihood of errors and increase the chances of success. Big, systematic data is mostly the foundation of most of our decisions, personal and business alike. But with its extreme usability comes a complication: what do you do if you strongly feel something should not be done, even if the data insists that it should?

另一方面，有一种更理性的决策方法。数据和分析长期以来一直与明智的决策相关联。这些能够减少错误的可能性，增加成功的机会。大量系统化的数据主要是我们大多数决策的基础，无论是个人决策还是商业

决策。但随着其极高的实用性而来的是一个复杂问题:如果你强烈感觉某事不应该做,即使数据坚持认为应该做,你该怎么办?

P4 This seemingly easy question is what drives the need to understand the relationship between instincts and data in the decision-making process. Without making things complicated, the solution to this dilemma is using data and instincts in conjunction to arrive at the best possible decisions.

这个看似简单的问题驱使人们需要理解决策过程中直觉与数据之间的关系。不把事情复杂化的话,这个困境的解决方案是将数据和直觉结合使用,以达成最佳决策。

P5 Instinctive decisions are always backed by previous experiences or information, which acknowledges that instinctive decisions have worked in the past. Decisions are not about making the choice and braving the consequences because you want to blindly trust your instincts. They are about combining your inner wisdom with the knowledge of systematic data to make the best decisions.

直觉决策总是有以往经验或信息作为支撑,这表明直觉决策在过去曾经奏效。决策不是做出选择并勇敢面对后果,因为你想盲目相信自己的直觉。决策是将你的内在智慧与系统化数据的知识相结合,以做出最佳决策。

P6 Sometimes, rational analysis and data are impractical to be employed in certain situations. Absence of definitive criteria, and time and resource constraints, and novel situations are instances which limit the practicality of data. The only feasible option is to rely on what your instincts tell you. In these situations, instincts can help you make effective and quick decisions.

有时,在某些情况下理性分析和数据不切实际。缺乏明确标准、时间和资源限制以及新颖情况都是限制数据实用性的例子。唯一可行的选择是依赖你的直觉告诉你什么。在这些情况下,直觉可以帮助你做出有效而快速的决策。

P7 Combining instinctive and rational analysis produces well-rounded decisions. It reduces the chances of making mistakes, and has increasingly become a favorite approach to decision-making among leaders of today.

将直觉和理性分析相结合能产生全面的决策。它减少了犯错的机会,并且已日益成为当今领导者最喜欢的决策方法。

题目与逐题解析

51. What does the author say businesspeople often do?

- A) Strive to make sense of some unknown forces.
- B) Avoid being driven by their own feeling.
- C) Draw on a vast wealth of past experience.
- D) Rely on instincts in decision-making.

作者说商界人士经常做什么?

- A) 努力理解某些未知力量。
- B) 避免被自己的感觉所驱使。
- C) 利用丰富的过往经验。
- D) 在决策时依赖直觉。

【答案】 D (细节题)

【判型】 What does the author say businesspeople often do? 问的是「商人通常做什么」这一可在原文逐字核实的客观行为，不含 infer/imply。

【拆句】 题干主干是 What does the author say businesspeople often do?, what 作宾语前置；the author say 是插入成分，可剥离；剥离后等价于「Businesspeople often do what?」结构平铺，无陷阱。

【定位】 People in business often make decisions based on their own personal feelings or instincts. 商界人士常常基于自己的个人感觉或直觉做决策。

【选项】 A) 无中生有

原文用 unknown force 比喻直觉的神秘性，并未让商人「弄清未知力量」；Strive to make sense of some unknown forces 凭空给出动作。

B) 与原文相反

原文说商人「常凭感觉决策」，Avoid being driven by their own feeling 却说「避免被感觉驱动」，完全反向。

C) 张冠李戴

relying on instincts only makes sense when you have a vast experience to support you 是作者给「合理使用直觉」开的条件，并非商人「实际正在做的事」。

D) ✓ 正确

make decisions based on their own personal feelings or instincts ↔

Rely on instincts in decision-making

预判「依赖直觉作决策」与 Rely on instincts in decision-making 高度重合，正确项锁定。

52. What should we take into account in order to make informed decisions?

- A) The likelihood of errors.
- B) Systematic data and analysis.
- C) The complexity of circumstances.
- D) Personal feelings and business strategies

为了做出明智的决策,我们应该考虑什么?

A) 出错的可能性。 B) 系统性的数据和分析。 C) 情况的复杂性。 D) 个人感受和商业策略。

【答案】 B (细节题)

【判型】 What should we take into account in order to make informed decisions? 问的是「为了做出明智决策应当考虑什么」，答案是原文直接陈述的因素。

【拆句】 题干主干 What should we take into account, what 作 take into account 的宾语前置；in order to make informed decisions 是表目的的不定式状语；句式简单。

【定位】 Data and analysis have long been associated with informed decisions.

数据与分析长期以来一直与明智的决策紧密相关。

【选项】 A) 答非所问

原文 These reduce the likelihood of errors 说数据与分析「降低出错概率」，The likelihood of errors 只是数据带来的「结果」，不是「应当考虑的因素」。

B) ✓ 正确

Data and analysis ↔ **Systematic data and analysis**

预判「依靠数据与分析」与 Systematic data and analysis 完全对应，且原文 Big, systematic data 进一步加固，正确项锁定。

C) 无中生有

原文从未出现 The complexity of circumstances（环境的复杂性）这一表述，与「明智决策的依靠」无关。

D) 偷换概念

原文把 personal feelings or instincts 视作「常被依赖却需谨慎」的对象，并未把它与 business strategies 并列为「做明智决策的因素」。

53. What should people do in a decision-making process if instincts disagree with data?

- A) Resolve the dilemma with previous experience.
- B) Figure out which of the two is more reliable.
- C) Combine the two together.
- D) Prioritize instincts over data.

在决策过程中,如果直觉与数据不一致,人们应该怎么做?

- A) 用以往的经验解决这个两难困境。
- B) 弄清楚两者中哪一个更可靠。
- C) 将两者结合起来。
- D) 让直觉优先于数据。

【答案】 C (细节题)

【判型】 What should people do in a decision-making process if instincts disagree with data?
问的是作者给出的具体做法，原文有 using data and instincts in conjunction 直陈方案。

【拆句】 题干 What should people do in a decision-making process if instincts disagree with data? 主句是 What should people do, in a decision-making process 介词短语作地点状语; if instincts disagree with data 是 if 引导的条件状语从句; 结构清楚。

【定位】 Without making things complicated, the solution to this dilemma is using data and instincts in conjunction to arrive at the best possible decisions.

简单来说，这一难题的解决方案是把数据和直觉结合起来使用，以达成最佳的决策。

【选项】 A) 张冠李戴

Instinctive decisions are always backed by previous experiences 是「直觉的支撑机制」，不是题干问的「矛盾时的解决办法」。

B) 无中生有

原文从未让人「比较谁更可靠」，Figure out which of the two is more reliable 是凭空增加的取舍动作。

C) ✓ 正确

using data and instincts in conjunction ↔ **Combine the two together**

预判「把数据与直觉结合使用」与 Combine the two together 完全等价，正确项锁定。

D) 与原文相反

原文明确反对盲目信任直觉 (you want to blindly trust your instincts 被作者否定)，Prioritize instincts over data 却把直觉摆在数据之上，反向。

54. What should we do when facing various factors that limit the practicality of data?

A) Make a rational and systematic analysis.

B) Explore the most feasible options.

C) Resort to our inner wisdom.

D) Apply definitive criteria.

当面对限制数据实用性的各种因素时,我们应该怎么做?

A) 进行理性和系统的分析。 B) 探索最可行的选择。 C) 求助于我们内在的智慧。

D) 应用明确的标准。

【答案】 C (细节题)

【判型】 What should we do when facing various factors that limit the practicality of data? 问的是特定情境下的做法，仍是定位 + 复述。

【拆句】 题干主句 What should we do, when facing various factors 是 when 引导的现在分词时间状语，省略主语 we; that limit the practicality of data 是定语从句，修饰 factors。基础薄弱的同学要看清「factors」才是从句修饰对象，而不是「we」。

【定位】 The only feasible option is to rely on what your instincts tell you.

唯一可行的办法，是依靠你的直觉告诉你的东西。

【选项】 A) 与原文相反

原文明说数据在此场合「不可行」，Make a rational and systematic analysis 反让你做理性系统分析，正好走反方向。

B) 偷换概念

原文说 The only feasible option is to rely on what your instincts tell you, 给出的是「唯一可行的办法」；Explore the most feasible options 把「唯一选项」偷换成「探索多个最可行选项」，且把动作偷换成「探索」。

C) ✓ 正确

rely on what your instincts tell you ↔ Resort to our inner wisdom

预判「依靠直觉」与 Resort to our inner wisdom（求助内在智慧）通过 P5 给出的等价关系完全对应，正确项锁定。

D) 与原文相反

原文 Absence of definitive criteria 指出此场合「没有明确标准」，Apply definitive criteria 反让你「应用明确标准」，与原文完全对立。

55. What does it take for decisions to become the best according to the author?

- A) Applying instincts and data in conjunction.
- B) Assessing all factors when making a choice.
- C) Recalling what has actually worked in the past.
- D) Refraining from trusting instincts arbitrarily.

根据作者的观点,决策要成为最佳决策需要什么?

- A) 结合运用直觉和数据。 B) 在做出选择时评估所有因素。 C) 回忆过去实际奏效的做法。
- D) 避免随意相信直觉。

【答案】 A (细节题)

【判型】 What does it take for decisions to become the best according to the author? 问的是「让决策成为最佳」的所需条件，是原文有明确句子可对应的细节，并非要从全文归纳的主旨。

【拆句】 题干 What does it take for decisions to become the best according to the author? 句型为「it takes sth for sb/sth to do sth」，what 替换 sth 提前；for decisions 是 take 的逻辑主语；to become the best 是真正的目的不定式。看懂这个句型是关键，否则容易把题干误读成主旨题。

【定位】 Combining instinctive and rational analysis produces well-rounded decisions.
把直觉与理性分析结合起来，能产出周全的决策。

【选项】 A) ✓ 正确

Combining instinctive and rational analysis ↔ **Applying instincts and data in conjunction**
using data and instincts in conjunction to arrive at the best possible decisions ↔

Applying instincts and data in conjunction

预判「直觉 + 理性分析联用」与 Applying instincts and data in conjunction 完全对应，且 P4 与 P7 双句佐证，正确项锁定。

B) 无中生有

原文从未要求「评估所有因素」，Assessing all factors when making a choice 是无来源的扩张表述。

C) 以偏概全

Instinctive decisions are always backed by previous experiences 只是说直觉以经验为后盾，并不等于「让决策变最佳」的充分条件，Recalling what has actually worked in the past 把直觉一侧的支撑当成全部条件。

D) 以偏概全

you want to blindly trust your instincts 提到「不要盲目相信直觉」，但这只是「最佳决策」的一个否定性前提，不是充分条件，Refraining from trusting instincts arbitrarily 把单一前提当成全部条件。

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

People in business often make decisions based on their own personal feelings or instincts.

第1段，第1句

"主语 + 谓语 + 宾语 + 方式状语" 是考试中常见的基本句式，过去分词短语作状语也是高频考点，具有一定代表性，但整体结构过于简单，缺少从句等更典型的考试难点

It is quite horrifying to see people being guided by some unknown force.

第1段，第2句

"It is + 形容词 + to do" 是四六级和考研阅读中的高频句式，形式主语后置真正主语的结构非常典型，掌握后可大量复用，具有很强的迁移性。

On the other hand, there is a more rational approach to making decisions.

第3段，第1句

结构较典型。"there be" 存在句和 "on the other hand" 转折状语都是四六级和考研英语阅读中的高频句式，学生掌握后可在大量句子中复用，具有较好的迁移性。

But with its extreme usability comes a complication: what do you do if you strongly feel something should not be done, even if the data insists that it should?

第3段，第5句

本句结构复杂度高、嵌套层级深、成分丰富、典型性强,且包含倒装和省略等易错点,非常适合作为句子结构和时态分析的进阶训练材料,优先级应当较高

Without making things complicated, the solution to this dilemma is using data and instincts in conjunction to arrive at the best possible decisions.

第4段，第2句

主系表结构 + 动名词作表语是四六级和考研英语阅读中的常见句式，尤其在说明性、议论性文本中频繁出现。句首状语 + 主句的框架也是典型学术写作和考试文章的常用结构。掌握本句的分析方法可以迁移到大量类似句子。

Strive to make sense of some unknown forces.

第51题，A

祈使句在考试中出现频率中等，"动词原形 + 不定式" 结构也比较常见。但本句整体较短、修饰成分少，不如带有复杂状语或从句的祈使句更具代表性。作为基础句式有练习价值，但迁移性有限。

Draw on a vast wealth of past experience.

第51题，C

祈使句在考试中常作为建议类话题的例句或写作素材出现,具有一定代表性,但相比复合句、被动句等高频难点句式,其作为结构训练重点的典型性中等。

What should we take into account in order to make informed decisions?

第52题 题干

涵盖疑问句中的主谓倒装、宾语前置、固定搭配短语动词 (take into account) 和目的状语 (in order to) , 成分类型较丰富, 且疑问句倒装和短语动词识别是常见易错点, 有一定练习价值。

Figure out which of the two is more reliable.

第53题，B

“动词 + 疑问词引导的内容部分”是很常见的考查结构，如 know、see、decide、find out 后面接这类内容。掌握这句的分析路径，能迁移到大量同类句式。

What does it take for decisions to become the best according to the author?

第55题题干

本句涵盖了疑问词作宾语、形式主语 "it"、真正主语（不定式结构）、目的状语、一般状语等多种成分，且疑问句的语序变化（宾语提前）是重要的训练点；特别适合练习形式主语与真正主语的识别、疑问词在句中充当成分的判断，训练价值较高

2023年12月·第3套英语四级汉译英（段落翻译）·改革开放以来饮食变化的社会介绍 参考译文与解析

PASSAGE & TRANSLATION • 题和解析

汉译英真题、参考译文与逐句解析

本页整篇参考英译与逐句解析由懒笔记基于2023年12月·第3套 英语四级汉译英（段落翻译）原卷题干译审整理。与试卷排版同一卷面：Directions 与一整段中文原文连续排印——整段连排、无段落标记无题号，把它切成一句句翻译单元本身就是解题动作。卷面之后先给整篇参考英译定稿，再按自切句序逐句拆分：定英文主干、降级修饰成分、逐项落实语法点、句内定稿英译，答案直显。

真题卷第3套(2023-12) • 四级

Part IV

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

改革开放以来，中国人民生活水平不断提高，这在人们的饮食 (diet)变化上得到充分体现。如今，人们不再满足于吃得饱，而是追求吃得更加安全、更加营养、更加健康，食物也愈来愈丰富多样，不再限于本地的农产品。物流业 (logistics industry)的发展使人们很容易品尝到全国各地的特产。毫无疑问，食品质量与饮食结构的改善为增进人们健康提供了有力的保障。

参考译文

整篇参考英译是复盘资产，考卷上只印中文原文——四六级 Part IV 翻译按整篇「表达通顺连贯、用词准确、语法正确」四档评分。

Since the reform and opening-up, the living standards of the Chinese people have improved steadily, which is fully reflected in the changes in people's diet. Today, people are no longer content with simply having enough to eat; instead, they pursue food that is safer, more nutritious and healthier. Food is also becoming more and more diverse, no longer being limited to local agricultural products. The development of the logistics industry makes it easy for people to taste specialties from all over the country. Undoubtedly, the improvement in food quality and diet structure provides a strong guarantee for improving people's health.

【衔接】第1句到第2句：用 Today 自然承接时间线

第1句以 Since the reform and opening-up 起头讲「以来的变化」，第2句 如今正好用 Today 起头收到当下，时间线从「改革开放以来」推进到「如今」，无需额外关联词，靠这两个时间状语本身就连贯。

第2句内部：用分号/instead 显出「不再...而是...」的转折

人们不再满足于吃得饱，而是追求的「不是...而是...」是对比转折，英文在 are no longer content... 与 they pursue... 之间用分号加 instead 承接，把「否定旧状态、肯定新追求」的对比显化出来，比一个 but 更清楚。

第3句到第4句：用 Undoubtedly 收束为结论

第3句讲物流让人尝到各地特产（饮食更丰富的原因之一），第4句 毫无疑问用 Undoubtedly 起头，把前文铺陈收束为一个总结性结论，语气上自然成为全篇收尾。

逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

【主旨】改革开放以来饮食变化的社会介绍

这段在客观介绍一个社会现象：改革开放以来，中国人民生活水平不断提高，这在人们的饮食 (diet) 变化上得到充分体现，属于四级最常见的「中国社会/经济变迁介绍」类语体。它陈述的是一个延续到今天、并仍在持续的事实状态，用词应平实客观，不需文学性。

【时态】一般现在时

通篇在客观陈述「如今的事实与现状」——如今，人们不再满足于吃得饱，而是追求吃得更加安全描述的是当下的普遍状态，物流业 (logistics industry) 的发展使人们很容易品尝到全国各地的特产也是现在仍成立的事实，故全篇以一般现在时为主。仅「改革开放以来.....不断提高」这一处表达「从过去延续到现在的持续变化」时，宜局部用现在完成时偏离基调。

【译法】改革开放

拟定统一译法 the reform and opening-up（约定俗成的官方固定译名，首字母小写、连字符连接 opening-up）。这是中国时政文化的标准译法，全篇只用这一种，不要自造成 the reform and open policy 之类。对应原文 改革开放以来。

物流业

原文已给出括注英文，统一用 the logistics industry（意译，logistics 不可数、行业整体加 the）。对应原文 物流业 (logistics industry) 的发展，括注里的英文就是命题人指定译法，照用即可。

饮食

原文已括注 diet，统一用 diet 指「饮食/膳食」。注意 这在人们的饮食 (diet) 变化上得到充分体现里 diet 指饮食习惯整体，与后文「饮食结构」的 diet 同源，全篇统一即可。

1. 改革开放以来，中国人民生活水平不断提高，这在人们的饮食 (diet)变化上得到充分体现。

【主干】 主干：生活水平不断提高 (living standards have improved) (主语策略：原句主语)

本句中文有两个分句，主信息是 中国人民生活水平不断提高，故主语取「中国人民的生活水平」the living standards of the Chinese people，谓语 have improved (不断提高)。后半句 这在人们的饮食 (diet)变化上得到充分体现的「这」回指前一整件事，宜单独处理，不挤进同一主干。

【降级】 「这.....得到充分体现」降级为关系从句

把 这在人们的饮食 (diet)变化上得到充分体现改写成非限制性定语从句 which is fully reflected in the changes in people's diet，用 which 回指前面「生活水平提高」这整件事挂到主干后面；改革开放以来作时间状语 Since the reform and opening-up 放句首。这样一句中文的三块 (时间状语 + 主干 + 评论) 就分了三个层级，而不是用 and 平铺。

【语法】 时态

「改革开放以来.....不断提高」是从过去延续到现在的持续变化，此处偏离全篇基调，用现在完成时 have improved；这是 tenseBaseline 允许的局部偏离。

语态

「得到充分体现」是被动含义 (被体现)，用被动 is fully reflected in，正好契合英文被动多于汉语的习惯。

单复数

「生活水平」用复数 living standards (英文习惯复数)；「变化」非一处，用复数 the changes。

介词搭配

「在.....上体现」搭配 be reflected in (不是 on)；「饮食的变化」用 changes in people's diet (in 表所属范围)。

【译文】 Since the reform and opening-up, the living standards of the Chinese people have improved steadily, which is fully reflected in the changes in people's diet.

2. 如今，人们不再满足于吃得饱，而是追求吃得更加安全、更加营养、更加健康，食物也愈来愈丰富多样，不再限于本地的农产品。

【主干】 两套主干：people (不再满足→而是追求) + food (愈丰富) (主语策略：原句主语)

本句信息量大，含两个不同主语：前半 人们不再满足于吃得饱，而是追求吃得更加安全主语是「人们」people (no longer content with... but pursue...)；后半 食物也愈来愈丰富多样主语切换为「食物」food (becomes more and more diverse)。这是一句中文里的两个独立主谓，宜拆成两句英文或用分号连接，不可硬塞一个主语。

【降级】 「更安全/营养/健康」并列形容词；「不再限于」降级为分词

更加安全、更加营养、更加健康改为 pursue food that is safer, more nutritious and healthier，用一个 that 定语从句带三个并列比较级，不必把 more 各重复成三个累赘结构。不再限于本地的农产品降级为现在分词作状语 no longer being limited to local agricultural products，挂在 food 主干后，避免再用 and 起一个残句。

【语法】时态

回指全篇基调，用一般现在时：are no longer content / pursue / is becoming，描述如今的普遍状态。

否定与含蓄否定

「不再满足于」用 are no longer content with；「不再限于」用 no longer limited to——「不再」统一用 no longer，比 not...anymore 更书面。

比较级

「更安全/营养/健康」：单音节 safe→safer、healthy→healthier，多音节 nutritious→more nutritious；「愈来愈丰富多样」用 more and more diverse。

单复数与冠词

food（食物）作物质名词整体不可数、不加复数不加冠词；agricultural products（农产品）用复数。

【译文】 Today, people are no longer content with simply having enough to eat; instead, they pursue food that is safer, more nutritious and healthier. Food is also becoming more and more diverse, no longer being limited to local agricultural products.

3. 物流业 (logistics industry)的发展使人们很容易品尝到全国各地的特产。

【主干】 主干：发展使人们能够品尝 (development enables people to taste) （主语策略：原句主语)

中文「A 使 B 做某事」是典型的「使役」结构，物流业 (logistics industry)的发展使人们很容易品尝到。主语是「物流业的发展」the development of the logistics industry，谓语用 enables / makes it easy for，宾语是「人们」people，再带 to taste。主干一立，使役关系就清楚了。

【降级】「全国各地的特产」作宾语后置定语

本句结构简单，主体即一个使役句。唯一要安放的是 全国各地的特产——译为 specialties from all over the country，用介词短语 from all over the country 作 specialties 的后置定语，不要前置堆成 all-over-the-country specialties。

【语法】主谓一致

主语核心是单数 the development，谓语用第三人称单数 enables / makes（不是 enable）。注意别被后面的 of the logistics industry 带偏成复数。

时态

回指全篇基调用一般现在时 enables，陈述现在仍然成立的事实。

单复数

「特产」不止一种，用复数 specialties。

冠词

特指物流业这一行业，用 the logistics industry；特指全国，用 the country。

【译文】 The development of the logistics industry makes it easy for people to taste specialties from all over the country.

4. 毫无疑问，食品质量与饮食结构的改善为增进人们健康提供了有力的保障。

【主干】 主干：改善提供保障 (improvement provides a guarantee) (主语策略：原句主语)

本句主语是 食品质量与饮食结构的改善 the improvement in food quality and diet structure, 谓语「提供了.....保障」 provides a strong guarantee。毫无疑问作评注性状语 Undoubtedly 放句首；为增进人们健康作目的，挂在 guarantee 之后。

【降级】 「毫无疑问」前置状语；「为增进健康」用 for 介词短语

毫无疑问降级为句首独立状语 Undoubtedly,; 为增进人们健康降级为介词短语 for improving people's health 作目的状语，挂在 a strong guarantee 之后，而不是另起句子。整句仍是一个清晰的简单句主干 + 修饰。

【语法】 时态

虽然中文带「提供了」的「了」，但此处陈述的是一个持续成立的普遍结论，回指全篇基调用一般现在时 provides, 而非过去时。

主谓一致与单复数

主语核心是单数 the improvement, 谓语用 provides; 「保障」可数、单数用 a strong guarantee (加 a)。

介词搭配

「...的改善」用 improvement in (in 表方面); 「为增进健康」用 for improving; 「提供保障」 provide a guarantee。

用词准确

「有力的保障」译 a strong / solid guarantee; 「增进健康」译 improve / promote people's health, 避免中式的 add health。

【译文】 Undoubtedly, the improvement in food quality and diet structure provides a strong guarantee for improving people's health.
