

四级·真题卷第3套·2024年12月

Part I

Writing

(30 minutes)

Directions: Suppose the university newspaper is inviting submissions from the students for its coming edition on how the students can contribute to a green campus. You are now to write an essay for submission. You will have 30 minutes to write the essay. You should write at least 120 words but no more than 180 words.

Part II

Listening Comprehension

(25 minutes)

Section A

本部分与 2024年12月第2套 共用，[点此查看](#)

Section B

本部分与 2024年12月第2套 共用，[点此查看](#)

Section C

本部分与 2024年12月第2套 共用，[点此查看](#)

Part III

Reading Comprehension

(40 minutes)

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

Super realistic masks are made from flexible materials such as silicone and are designed to imitate real human face—down to every last detail.

In a study by the Universities of York and Kyoto, researchers asked participants to look at pairs of photographs and decide which showed a 26 face and which showed a person wearing a mask.

Surprisingly, participants made the wrong call in one-in-five cases.

The 20% error rate 27 in the study likely underestimates the extent to which people would struggle to tell an 28 face from the real thing outside of the lab.

The researchers collected data from participants from both the UK and Japan to 29 any differences according to race. When trial participants were asked to choose between photographs of faces of a different race from theirs, response times were slower and selections were 5% less 30.

There are now dozens of criminal cases in which offenders have 31 themselves off as people of a different age, race or gender, sending police investigations down the wrong path.

In one recent case, an international gang used an 32 realistic mask to pose as a French minister, 33 business executives out of millions of pounds.

Dr Jet Sanders, who worked on the study while a PhD student at the University of York, said: "Failure to detect synthetic faces may have important implications for security and crime prevention as super realistic masks may 34 the key characteristics of a person's appearance to be 35 identified."

- | | |

| C) artificial | K) observed |
| D) cheating | L) passed |
| E) deserted | M) reminding |
| F) establish | N) reparable |
| G) extremely | O) resolve |
| H) immediately | |

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Stop thinking and start doing

- A) Most people have a dream in life, a vision of who or what they'd like to be in the future. At a minimum, everyone has interests and values that determine what they want out of their lives. Even so, trying to set achievable goals that you'll work for over the course of many years can be extremely challenging. It can be hard to know where to even begin, and the things you hope to achieve may seem impossible. But, if you're well prepared you may be able to set goals for your life that are just as fulfilling to work toward as to achieve.
- B) We all have goals that we want to achieve in our lives. These goals may include learning a new language, eating healthier and losing weight, becoming a better parent, saving more money, and so on. It can be easy to assume that the gap between where you are now and where you want to be in the future is caused by a lack of knowledge. This is why we buy courses on how to start a business or how to lose weight fast or how to learn a new language in three months. We assume that if we knew about a better strategy, then we would get better results. We believe that a new result requires new knowledge.
- C) What I'm starting to realize, however, is that new knowledge does not necessarily drive new results. In fact, learning something new can actually be a waste of time if your goal is to make progress and not simply gain additional knowledge.
- D) It all comes down to the difference between learning and practicing. Thomas Sterner, in his book **The Practicing Mind**, explains the key difference between practicing and learning. He says: "When we practice something, we are involved in the deliberate repetition of a process with the intention of reaching a specific goal." Here the words "deliberate" and "intention" are key, because they define the difference between actively practicing something and passively learning it.

- E) Learning something new and practicing something new may seem very similar, but these two methods can have profoundly different results. Here are some additional ways to think about the difference. Let's say your goal is to get stronger and more fit. You can research the best instructions on weight lifting technique, but the only way to build strength is to practice lifting weights. Let's say your goal is to grow your startup. You can learn about the best way to make a sales pitch, but the only way to actually land customers is to practice making sales calls. Let's say your goal is to write a book. You can talk to a best-selling author about writing, but the only way to become a better writer is to practice publishing consistently.
- F) Passive learning creates knowledge. Active practice creates skill. Let's consider a couple more reasons to prioritize active practice over passive learning. First, passive learning can be a stick that supports inaction. In many cases, learning is actually a way to avoid taking action on the goals and interests that we say are important to us. For example, let's say you want to learn a foreign language. Reading a book on how to learn a foreign language quickly allows you to feel like you are making progress ("Hey, I'm figuring out the best way to do this!"). Of course, you're not actually practicing the action that would deliver your desired outcome (speaking the foreign language).
- G) In situations like this one, we often claim that we are preparing or researching the best method, but these rationalizations allow us to feel like we are moving forward when we are merely spinning our wheels. We make the mistake of being in motion rather than taking action. Learning is valuable until it becomes a form of procrastination(拖延).
- H) Another point to consider is that practice is learning, but learning is not practice. Passive learning is not a form of practice because although you gain new knowledge, you are not discovering how to apply that knowledge. Active practice, meanwhile, is one of the greatest forms of learning because the mistakes you make while practicing reveal important insights.
- I) Even more importantly, practice is the only way to make a meaningful contribution with your knowledge. You can watch an online course about how to build a business or read an article about a terrible disaster in a developing nation, but that knowledge is unproductive unless you actually launch your business or donate to those in need. Learning by itself can be valuable for you, but if you want to be valuable to others, then you have to express your knowledge in some way.
- J) The last important point to consider is that practice focuses your energy on the process. Thomas Sterner once said, "Progress is a natural result of staying focused on the process of doing anything." The state of your life right now is a result of the habits and beliefs that you have been practicing each day. When you realize this and begin to direct your focus toward practicing better habits day-in and day-out, continual progress will be the logical outcome. It is not the things we learn nor the dreams we visualize that determine our results, but rather the habits that we practice each day. Fall in love with boredom and focus your energy on the process, not the product.
- K) What does this all mean? Is passive learning useless? Of course not. In many cases, learning for the sake of learning can be a beautiful thing. Not to mention that soaking up new information can help you make more informed decisions when you do decide to take action. That said, the main point of this article is that learning by itself does not lead to progress. We often hide behind information and use learning as an excuse to delay the more difficult and more important choice of actually doing something. Spend less time passively learning and more time actively practicing. Stop thinking and start doing.

36. Acquisition of new knowledge may not guarantee the progress that you aim to make.

37. Your current situation in life is built on the beliefs and habits you have been practicing daily.
38. Knowing the best way to learn a foreign language will not enable you to speak it without actual practice.
39. People may find it demanding to create a goal which will take a long time to achieve.
40. Learning and practicing seem to be very much alike, but the two processes can lead to quite different outcomes.
41. Absorbing new information is helpful in making better decisions prior to action.
42. Sometimes we may feel like we are making progress by doing some research or making preparations, but actually we are staying at the starting point.
43. We are inclined to think that a lack of knowledge prevents us from advancing to a better future.
44. Learning can benefit you by itself, but only practice can turn what you learn into meaningful contributions.
45. Practice involves repeating a process intentionally to attain a particular objective.

Section C

Directions: *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

Passage One

Questions 46 to 50 are based on the following passage.

Research in human-vehicle interaction has shown even systems designed to automate driving are far from being error-proof. Recent evidence points to drivers' limited understanding of what these systems can and cannot do as a contributing factor to system misuse. A recent study tackles the issue of over-trusting drivers and the resulting system misuse from a legal viewpoint. It looks at what the manufacturers of self-driving cars should legally do to ensure that drivers understand how to use the vehicles appropriately.

One solution suggested in the study involves requiring buyers to sign end-user license agreements (EULAs), similar to the terms and conditions that require agreement when using new software products. But this is far from ideal. The agreement may not provide enough information to the driver, leading to confusion about the nature of the requests for agreement and their implications. Further, most end users don't read EULAs. A 2017 study shows 91 percent of people agree to them without reading. Among young people, 97 percent agree without reviewing the terms.

The issue is that, unlike using a smartphone app, operating a car has serious safety risks, whether the driver is human or software. And human drivers need to consent to take responsibility for the outcomes of the software and hardware.

"Warning fatigue" and distracted driving are also causes for concern. For example, a driver, annoyed after receiving continuous warnings, could decide to just ignore the message. Or, if the message is presented while the vehicle is in motion, it could represent a distraction. Given these limitations and concerns, even if this mode of obtaining consent is to move forward, it likely won't fully protect automakers from their legal liability should the system malfunction(发生故障) or an accident occur.

Driver training for self-driving vehicles can help ensure that drivers fully understand system capabilities and limitations. This needs to occur beyond the vehicle purchase. Recent evidence shows even relying on the information provided by the seller is not going to answer many questions. All of this considered, the road forward for self-driving cars is not going to be a smooth ride after all.

46. What do we learn from research in human-vehicle interaction?
- A) Automatic driving systems are by no means immune to errors.
 - B) Driverless vehicles are likely to be misused by some people.
 - C) Self-driving car manufacturers are not aware of the legal matters involved.
 - D) There is a long way to go before humans can interact with driverless vehicles.
47. What is the problem with requiring buyers to sign end-user license agreements?
- A) End users, young and old alike, find the terms complex to interpret.
 - B) Most end users sign them without bothering to read the terms.
 - C) Many people are often confused by the wording of the terms.
 - D) Most end users do not understand the terms after reading them through.
48. What would drivers do when they suffer from "warning fatigue"?
- A) Waste no time keeping the car moving.
 - B) Rest a while to avoid fatigue driving.
 - C) Take no action despite repeated warnings.
 - D) Take note of the message though fatigued.
49. What does the author think of continuing to ask buyers to sign end-user license agreements?
- A) It will probably not guarantee the safety of drivers in case of accidents.
 - B) It likely won't ensure that the automatic driving system functions properly.
 - C) It likely won't fully protect automakers against accusations of deliberate cheating.
 - D) It will probably not provide manufacturers adequate protection from legal responsibilities.
50. What should be done to help drivers fully understand system capabilities and limitations?
- A) Training them to be experts in vehicle automation.
 - B) Familiarizing them with the systems through training.
 - C) Broadening their knowledge of accident-prevention mechanisms.
 - D) Facilitating their access to the information provided by the seller.

Passage Two

Questions 51 to 55 are based on the following passage.

Do you ever blend up a protein drink for breakfast, or grab a protein bar following an afternoon workout? If so, you are likely among the millions of people in search of more protein-rich diets.

Protein-enriched products are found everywhere. But contrary to all the publicity that everyone needs more protein, most Americans get twice as much as they need.

Many of us living in the most developed countries are buying into a myth of protein deficiency created by food companies and self-identified health experts. Global retail sales of protein supplement products reached an

astonishing US\$18.9 billion in 2020.

But are we really in need of more protein? Physicians in the U.S. have never actually examined a patient with protein deficiency because simply by eating an adequate number of daily calories we are also most likely getting enough protein.

In fact, Americans currently consume almost twice the National Academy of Medicine's recommended daily intake of protein although the most desirable protein intake may vary depending on age and activity level.

For example, if you're a dedicated athlete you might need to consume higher quantities of protein. Generally, though, a 140-pound person should not exceed 120 grams of protein per day, particularly because a high protein diet can strain kidney and liver function and increase risks of developing heart disease and cancer.

While fats and sugar have taken the beating in turns since over a century ago, protein has managed to remain our red-hot favorite.

In the 1970s through the 1990s, protein products remained visible but moved back somewhat with the dietary spotlight firmly fixed on low-calorie, low-fat, sugar-free snack foods and beverages following the publication of studies linking sugar and saturated(饱和的) fat consumption to heart disease.

Later research in 2003, however, suggested high-protein diets could aid in weight loss, and protein quickly regained its former nutrient-superstar status.

Now most people living in high-income nations are consuming enough protein. When we replace meals with a protein bar or drink, we also risk missing out on the rich sources of antioxidants(抗氧化剂), vitamins and many other benefits of real food.

51. What do we learn about publicity over protein in America?

- A) It has helped to create the myth of protein deficiency.
- B) It has helped Americans in search of protein-rich diets.
- C) It has raised a lot of health concerns among the public.
- D) It has been funded by food companies and health experts.

52. Why have physicians in the U.S. never actually examined a patient with protein deficiency?

- A) Americans can purchase many kinds of protein-rich foods everywhere.
- B) Americans can absorb the number of calories recommended by food experts.
- C) Americans can get sufficient protein just by eating adequate foods daily.
- D) Americans can rely on food supplements to prevent protein deficiency.

53. What should people take into consideration in deciding on the most preferable protein intake?

- A) How healthy they are and what food they eat.
- B) How old they are and what activities they do.
- C) How much protein they consume and what their body weight is.
- D) How serious their protein deficiency is and what remedies they use.

54. What foods have been largely out of favor for more than a century?
- A) Sugar-free snacks.
 - B) Protein-rich foods.
 - C) Both red and white meats.
 - D) Sugary and fatty foods.
55. What does the author imply people in developed countries should do to keep healthy?
- A) Enjoy natural food.
 - B) Eat vegetarian diets.
 - C) Consume enough protein daily.
 - D) Replace meals with protein bars.

Part IV

Translation

(30 minutes)

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on *Answer Sheet 2*.

敦煌莫高窟 (Mogao Grottoes) 数字展示中心于2014年开放启用, 是莫高窟保护利用工程的重要组成部分。展示中心采用数字技术和多媒体展示手段, 使游客进入洞窟参观之前就能了解莫高窟的历史文化, 鉴赏莫高窟的艺术经典。这将减少开放洞窟的数量, 缩短游客在洞窟内的逗留时间, 减轻参观对莫高窟造成的影响, 以使这一世界文化遗产得到妥善保护、长久利用。

2024年12月·第3套英语四级写作·题目、范文与解析

PROMPT & MODEL ESSAY • 写作题和范文

写作题和范文

本页写作题面、参考范文与逐段解析由懒笔记基于2024年12月·第3套 英语四级写作原卷整理。与试卷排版同一卷面：完整写作要求（Directions，含主题、文体、词数与署名约束）连续排印。写作是生产性任务、无 ABCD 标准答案——题面即整道题；卷面下方直接给出满足全部硬约束的参考范文、整篇中译与逐段拆解。

真题卷第3套(2024-12) • 英语四级

Part I

Directions: Suppose the university newspaper is inviting submissions from the students for its coming edition on how the students can contribute to a green campus. You are now to write an essay for submission. You will have 30 minutes to write the essay. You should write at least 120 words but no more than 180 words.

【参考范文·152词】 写作无唯一标准答案，以下为达标示范

A green campus is no longer a slogan but a shared responsibility, and students play a key role in making it real. As members of the campus, we can turn small daily habits into real changes.

There are several practical things we can do. First, we should sort our rubbish and recycle paper, bottles and cans, which cuts waste and saves resources. Second, saving water and switching off lights and computers when they are not in use can greatly reduce the energy our campus consumes. Moreover, choosing to walk, cycle or share bikes for short trips lowers carbon emissions, and passing used textbooks on to younger students gives them a second life instead of being thrown away.

In short, a green campus grows out of these everyday actions rather than empty talk. If every student takes one small step, our campus will surely become cleaner, greener and more livable for us all.

【参考译文】

绿色校园不再是一句口号，而是一份共同的责任，学生在把它变为现实的过程中扮演着关键角色。作为校园的一员，我们能把日常的小习惯变成真正的改变。

我们能做的实事有好几件。第一，我们应当对垃圾进行分类，回收纸张、瓶子和易拉罐，这既减少了浪费，也节约了资源。第二，节约用水、在不使用时随手关掉电灯和电脑，能大大降低校园的能耗。此外，短途出行选择步行、骑车或共享单车能减少碳排放，而把用过的教材传给学弟学妹，则让它们获得第二次生命，而不是被扔掉。

总之，绿色校园源于这些日常的行动，而非空谈。只要每个学生都迈出一小步，我们的校园必将变得更干净、更绿色，也更宜居，让我们所有人受益。

【第1段】两句总起点题。本段落实第一段「总起点题」的功能：用 "A green campus is no longer a slogan but a shared responsibility" 一句拔高意义，再用 "we can turn small daily habits into real changes" 引出学生能做的事，正好套用了『点明意义』与『引出话题』两条句架。

【第2段】分点加效果的主体。本段落实「分述具体做法」：先 "There are several practical things we can do" 总起，再用 First / Second / Moreover 领出垃圾分类、节水节电、绿色出行与二手书三条做法，每条都跟一句效果如 "which cuts waste and saves resources"，做到动作配效果、不空洞。

【第3段】收束加号召。本段落实「总结呼吁升华」："In short, a green campus grows out of these everyday actions rather than empty talk" 回扣开头的行动主题，末句 "If every student takes one small step" 用条件句发出号召并给出更宜居的前景。

ANALYSIS • 审题与立意

这道题到底要写什么、立意是什么

动笔前先钉死本题的核心写作任务与读者语域，再定中心立意与要展开的要点——这些是本题特有的内容判断，不是通用套路。

核心任务

写学生怎样建设绿色校园的投稿短文

核心任务是写一篇投稿校报的短文，主题被 how the students can contribute to a green campus 一句钉死：写的是学生能为绿色校园做什么，而不是泛谈环保重要性。要求明确说 write an essay for submission，所以产物是一篇 essay，不是别的文体。

读者 • 语域

面向校报读者的正式短文

身份是投稿的学生，读者是校报读者——the university newspaper is inviting submissions from the students。这是面向公开出版物的正式书面语，用第一人称 we/students 拉近距离即可；但它是 essay 不是信，所以不要写 Dear editor 这类称呼，也不要再在结尾署名落款。

中心立意

绿色校园靠学生日常行动建成

本篇中心：绿色校园不是空话，而是由每个学生可落地的日常行动汇聚而成——正面回应 how the students can contribute to a green campus，把焦点牢牢放在学生自己能做的事上。

要展开的要点

1. 垃圾分类与回收

分类投放垃圾、回收纸张瓶罐，减少浪费、节约资源——这是学生每天举手之劳就能做到的第一条具体行动。

2. 节水节电

随手关灯关电脑、节约用水，直接降低校园能耗——配上「用完就关」这样的具体场景，理由清楚。

3. 绿色出行与二手书循环

短途步行、骑车或共享单车减少碳排放，把用过的教材传给学弟学妹循环使用——两条小而实的做法，扣紧学生身份。

STRUCTURE • 谋篇与逐段

怎么分段、每段写什么、能套哪些句架

按写作家族给出现成的段落框架（每段承担什么功能），并为每段配可直接套用的 功能句架（留出填本题内容的空位）。段序与上方参考范文——对应。

第 1 段 总起点题

开篇点明绿色校园的意义，引出「学生能贡献什么」这个话题，为下文铺路。

第 2 段 分述具体做法

主体段集中给出 2-3 条学生可落地的具体行动，每条配一句理由或效果，用过渡词串联。

第 3 段 总结呼吁升华

重申中心、发出行动号召，把落点从个人小事升华到共同的绿色校园。

第 1 段 点明绿色校园是学生的共同责任

落点：绿色校园不再是口号而是共同责任，学生在其中扮演关键角色，日常小习惯能汇成真正的改变——直接引出 how the students can contribute to a green campus 这一话题。

点明意义 · ... is no longer a slogan but a shared responsibility, and ... play a key role in ... (用来一句话拔高话题的重要性)

引出话题 · As members of ..., we can turn ... into ... (把宏大意义落回「我们能做」，自然带出下文)

第 2 段 垃圾分类、节水节电、绿色出行加二手书

落点：分类回收纸瓶罐以减少浪费；随手关灯关电脑、节约用水以降低能耗；步行骑车共享单车减碳、旧教材传给学弟学妹循环使用——每条做法都配一句效果，覆盖立意里的三条要点。

总起引出做法 · There are several practical things we can do. (一句话领起主体段，告诉读者下面要分点)

分点过渡 · First, we should ...; Second, ...; Moreover, ... (用序数词与递进词把并列做法串成有序的一段)

动作配效果 · ..., which cuts ... and saves ... / ... can greatly reduce ... (在做法后补一句它带来的好处，让要点不空洞)

第3段 小行动汇成更绿更宜居的校园

落点：绿色校园源于这些日常行动而非空谈，只要每个学生迈出一小步，校园就会更干净、更绿色、更宜居——把主题从个人小事升华到共同家园。

收束回扣 · In short, ... grows out of these everyday actions rather than empty talk. (一句话把中心拎回来，与开头呼应)

条件式号召 · If every ... takes one small step, ... will surely become ... (用假设句发出行
动倡议并给出积极前景)

REVIEW · 自检避坑

本题在四个评分维度怎样算达标、容易在哪丢分

按阅卷四维（内容切题 / 结构连贯 / 语言准确 / 字数格式）给出本题达标要点，并把最容易踩的低分写法摆出来 + 给改法 —— 这是写作版的「狠拆诱人错项」。

内容切题

紧扣学生能做的具体行动

本题达标关键是全程扣住 how the students can contribute to a green campus，写学生具体能做的事；最易失分是只泛谈环保重要性、不落到具体行动。

结构连贯

总分总加序数词串联

本题达标要点是总分总三段清晰、主体段用序数词把并列做法串起来；易失分是做法堆成清单却无衔接、段落松散。

语言准确

善用环保高频词并变换句式

本题宜多用 reduce/recycle/conserve/eco-friendly 等环保表达，句式适度变化（陈述句配 which 从句、条件句）；易失分是通篇简单句加中式直译。

字数格式

守住词数区间且是essay不是信

本题硬约束是 You should write at least 120 words but no more than 180 words，且要求写 an essay for submission；最易失分是字数越界，或误加称呼署名把投稿写成书信。

误加称呼署名当书信

反面示例：开头写 "Dear Editor," 结尾署 "Yours sincerely, Li Ming"。这偏离了 essay 体裁。改法：删掉称呼和落款，直接以 "A green campus is no longer a slogan but a shared responsibility" 这样的正文开篇。

只谈重要性不落行动

反面示例："Environmental protection is very important. We should all pay attention to it and love our green campus." 全是口号无行动。改法："We should sort our rubbish and switch off lights when they are not in use." 给出具体可做的动作。

做法堆砌成清单无衔接

反面示例："We can recycle. We can save water. We can ride bikes." 三个短句并列、无理由无过渡。改法："First, we should recycle paper and bottles, which cuts waste and saves resources." 加序数词与效果，逻辑立刻连贯。

重复同一观点注水

反面示例："A green campus is important. Yes, a green campus is really very important for us all." 同一意思重复凑数。改法：删掉重复句，换成新内容 "Moreover, we can pass used textbooks on to younger students to give them a second life."

真题卷第3套(2024-12) • 英语四级

Part III Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

Super realistic masks are made from flexible materials such as silicone and are designed to imitate real human face—down to every last detail.

超级逼真的面具由硅胶等柔性材料制成,旨在模仿真实的人脸——精确到每一个细节。

In a study by the Universities of York and Kyoto, researchers asked participants to look at pairs of photographs and decide which showed a 26 face and which showed a person wearing a mask.

在York大学和京都大学的一项研究中,研究人员要求参与者观看成对的照片,并判断哪张显示的是正常面孔,哪张显示的是戴着面具的人。

Surprisingly, participants made the wrong call in one-in-five cases.

令人惊讶的是,参与者在五分之一的情况下做出了错误的判断。

The 20% error rate 27 in the study likely underestimates the extent to which people would struggle to tell an 28 face from the real thing outside of the lab.

研究中观察到的20%的错误率很可能低估了人们在实验室外区分人造面孔和真实面孔的困难程度。

The researchers collected data from participants from both the UK and Japan to 29 any differences according to race. When trial participants were asked to choose between photographs of faces of a different race from theirs, response times were slower and selections were 5% less 30.

研究人员从英国和日本的参与者那里收集数据,以确定种族方面的差异。当试验参与者被要求在与自己不同种族的面孔照片之间进行选择时,反应时间更慢,准确率降低了5%。

There are now dozens of criminal cases in which offenders have 31 themselves off as people of a different age, race or gender, sending police investigations down the wrong path.

现在有数十起刑事案件,犯罪者冒充不同年龄、种族或性别的人,将警方的调查引向错误的方向。

In one recent case, an international gang used an 32 realistic mask to pose as a French minister, 33 business executives out of millions of pounds.

在最近一起案件中,一个国际犯罪团伙使用极其逼真的面具冒充一位法国部长,从企业高管那里骗取了数百万英镑。

Dr Jet Sanders, who worked on the study while a PhD student at the University of York, said: "Failure to detect synthetic faces may have important implications for security and crime prevention as super realistic masks may 34 the key characteristics of a person's appearance to be 35 identified."

Jet Sanders博士在York大学攻读博士学位期间参与了这项研究,他说:"无法检测出合成面孔可能对安全和犯罪预防产生重要影响,因为超级逼真的面具可能会导致一个人外貌的关键特征被错误识别。"

| B) allow | J) normal |
| C) artificial | K) observed |
| D) cheating | L) passed |
| E) deserted | M) reminding |
| F) establish | N) reparable |
| G) extremely | O) resolve |
| H) immediately | |

26. researchers asked participants to look at pairs of photographs and decide which showed a __ (26) __ face and which showed a person wearing a mask.

【答案】 **J) normal** (形容词)

【词性槽】 showed a + __ + face, 名词 face 前缺修饰词

【依据】 与 'a person wearing a mask' 形成「真脸 vs 戴面具」对照

decide which showed a __ (26) __ face and which showed a person wearing a mask 后半句已经指明对照面是「戴面具的人」, 前半句必然是「没戴面具、正常人脸」的意思, normal (正常的) 正好表达「未经面具伪装的真实人脸」。

【竞争词】 A) accurate accurate 修饰判断/数据, 不修饰 face

accurate 意为「准确的」, 常修饰 description、answer、data, 搭配 face 极其别扭, 且无法与「戴面具」形成对照。

C) artificial 方向反了, artificial 反而是面具一侧

artificial (人造的、假的) 应当对应「面具脸」, 但这里要的恰恰是与「戴面具」相对的「真脸」, 方向反了; artificial 会留给后面 __ (28) __ 用。

E) deserted deserted 修饰场所, 与 face 不搭

deserted 多指「废弃的街道/房子」, 不和 face 搭配, 主体考生只要记住它常修饰地点就能排掉。

N) reparable 「可修复的」修饰损坏物, 不修饰人脸

reparable 意为「可修复的」, 对象是机器、损伤、错误, 跟「真人脸」语义毫无连接。

27. The 20% error rate __ (27) __ in the study likely underestimates the extent ...

【答案】 **K) observed** (动词)

【词性槽】 名词短语 + __ + in the study, 过去分词作后置定语

【依据】 observe sth. in the study 是研究类文本的常见说法, 被动语义贴合

「研究中观察到的 20% 误差率」直接对应 'The 20% error rate observed in the study', observed 是 observe (观察/注意到) 的过去分词, 与 in the study 构成自然的「在研究中被观察到的」语义; 下文 participants made the wrong call in one-in-five cases 正是这一数据的实验来源。

【竞争词】 L) passed passed 与 error rate 搭配不合理

passed 常搭 pass an exam/test 或 pass sth. off as (冒充), 与「误差率」无法构成「pass + in the study」的合理被动结构; 它会留到 __ (31) __ 那里发挥 passed sb. off as 的固定搭配作用。

28. The 20% error rate __(27)__ in the study likely underestimates the extent to which people would struggle to tell an __(28)__ face from the real thing outside of the lab.

【答案】 **C) artificial** (形容词)

【词性槽】 an + __ + face, 再一次「冠词 + 空 + 名词」的形容词槽

【依据】 与 the real thing 形成「假 vs 真」精准对照

tell an __(28)__ face from the real thing 字面就是「把 __ 脸与真东西区分开」, 与 the real thing 直接相对的就是 artificial (人造的、假的); 上下文 Super realistic masks ... designed to imitate real human face 一直在讨论「人造仿真脸」这一主题, 呼应完美。

【竞争词】 A) accurate accurate 不与 real 形成对照

accurate 是「准确的」, 与 the real thing 没有反义关系, 构成不了 tell A from B 的对照逻辑。

E) deserted deserted 修饰场所, 与 face 搭配不当

deserted (废弃的) 几乎只修饰地点/建筑, 配 face 既不搭配也不形成对照。

N) reparable 「可修复的脸」语义荒诞

reparable (可修复的) 对象是损坏物, 不修饰人脸; 且与 real 不构成对照。

【易错】 最具迷惑性的错误词是 A) —— 看到 'an __ face' 误认 accurate 「精确的脸」。考生若忽视 tell an __(28)__ face from the real thing 的 tell A from B 对照, 就可能凭 a + 形容词 + face 直接抓 accurate; 防坑: 先找 from 后面的已知端 (the real thing), 再到候选里挑它的反义形容词 artificial。

29. The researchers collected data from participants from both the UK and Japan to __(29)__ any differences according to race.

【答案】 **F) establish** (动词)

【词性槽】 to + __ + any differences, 不定式 to 后缺动词原形

【依据】 establish + differences: 查明/确认是否存在差异

The researchers collected data from participants from both the UK and Japan to __(29)__ any differences according to race 表「研究者收集两国数据, 以便查明是否存在因种族不同而产生的差异」, establish 有「确立、查明、证实」之义, 与「研究目的」直接对应; 后文 response times were slower and selections were 5% less __(30)__ 即「查明后得出的差异」。

【竞争词】 O) resolve resolve 是「解决问题」, 不是「查明差异」

resolve 意为「解决/化解」, 搭配是 resolve a problem/conflict; 「解决差异」与研究语境不符——研究者是要「弄清是否存在差异」, 而非「化解差异」。

30. response times were slower and selections were 5% less __(30)___

【答案】 **A) accurate** (形容词)

【词性槽】 be 动词 were + 5% less + ___, less 后修饰程度的形容词

【依据】 **selections 5% less accurate: 选择结果准确率低 5%**

response times were slower and selections were 5% less __(30)___ 与前半句「反应时间更慢」是并列两项负面表现; accurate (准确的) 正好对接「判断/选择」类主语, 整体语义是「跨种族判断时选择准确率低 5%」, 呼应 participants made the wrong call in one-in-five cases 的误判主线。

【竞争词】 **E) deserted deserted 修饰场所, 与 selections 风马牛不相及**

deserted (废弃的) 只搭配地点/建筑, 「废弃的选择」语义不通。

N) reparable 「可修复的选择」不成立, 且与对照逻辑无关

reparable (可修复的) 对象是损坏物, 搭 selections 完全说不通; 本题要的是「准确度高低」的对照。

31. offenders have __(31)___ themselves off as people of a different age, race or gender

【答案】 **L) passed** (动词)

【词性槽】 have + ___ + themselves off as, 完成时被动后接 off as 的固定搭配

【依据】 **passed themselves off as: 把自己冒充成另一种身份**

offenders have passed themselves off as people of a different age, race or gender 译为「罪犯把自己冒充成不同年龄、种族或性别的人」, 与下文 sending police investigations down the wrong path 「误导警方调查」的逻辑链条扣得严丝合缝。

32. In one recent case, an international gang used an __(32)___ realistic mask to pose as a French minister, __(33)___ business executives out of millions of pounds.

【答案】 **G) extremely** (副词)

【词性槽】 an + ___ + 形容词 realistic, 缺一个修饰形容词的副词

【依据】 **唯一能合理修饰 realistic 程度的程度副词**

整篇文章一直在强调面具「逼真到极致」的特点, imitate real human face—down to every last detail, an __(32)___ realistic mask 自然取「极其逼真」之意, extremely 是程度副词, 与 realistic 直接构成 'extremely realistic' (极其逼真) 这一高频搭配。

【竞争词】 **H) immediately 时间副词, 与 realistic 语义不搭**

immediately 表「立刻、立即」, 是时间副词, 用来修饰动作的发生时点, an __(32)___ realistic mask 这里不是说面具「立刻」逼真, 逻辑不通。

I) incorrectly 方式副词且方向相反, 不可能修饰 realistic

incorrectly 是「错误地、不正确地」, 本身和 realistic (逼真的) 方向相反, 「错误地逼真」语义自相矛盾; 它后面要修饰的应是动作类成分, 这里也派不上用场。

33. an international gang used an __(32)__ realistic mask to pose as a French minister, __(33)__ business executives out of millions of pounds.

【答案】 **D) cheating** (动词)

【词性槽】 逗号后紧贴主句的伴随性动名词短语，缺一个 -ing 形式动词

【依据】 正好套进 **cheat sb. out of money** 的固定搭配，且与「冒充行骗」逻辑吻合

__(33)__ business executives out of millions of pounds 完全是 'cheat sb. out of sth.' (骗某人钱财) 的固定结构，意思是「骗走商界高管数百万英镑」；offenders have __(31)__ themselves off as people of a different age, race or gender 上下文也明确指向「行骗」这条主线。

【竞争词】 M) reminding 搭配是 **remind sb. of sth.**，不接 **out of money**

reminding 意为「提醒、使想起」，常见搭配是 'remind sb. of/about sth.'，不可能搭 'out of millions of pounds'；与「行骗」语义也不符。

34. super realistic masks may __(34)__ the key characteristics of a person's appearance to be __(35)__ identified.

【答案】 **B) allow** (动词)

【词性槽】 情态动词 may 后缺动词原形

【依据】 **allow sth. to be done**：使关键特征得以被（错误地）识别

masks may __(34)__ the key characteristics of a person's appearance to be __(35)__ identified 完整成「面具可能让一个人外表的关键特征被错误地识别」，对应「allow + 宾 + to be done」固定搭配；且 Failure to detect synthetic faces may have important implications for security and crime prevention 的「负面后果」语义也由 allow 承担——是面具「使得」误识别成为可能。

【竞争词】 F) establish 不接 **sth. to be done** 结构，语义也偏正面

establish 意为「确立、查明」，搭配 establish sth. (事实/制度)，不能跟 'sth. to be done' 这种使役结构；且 establish 强调「确认正确的事实」，与下文「被错误识别」语义冲突。

O) resolve resolve 是「解决问题」，与「让特征被识别」无关

resolve 意为「解决（问题/争端）」，常搭 resolve a problem/dispute，与本句「面具让特征被识别」逻辑无连接，且也不接 'sth. to be done'。

35. the key characteristics of a person's appearance to be __(35)__ identified

【答案】 **I) incorrectly** (副词)

【词性槽】 to be + __ + identified, 被动语态里修饰过去分词需要副词

【依据】 与「面具威胁识别、辨认失败」的负面主旨完全对齐

Failure to detect synthetic faces may have important implications for security and crime prevention 已经定调是「识别失败」；面具会让关键面部特征被 incorrectly (错误地) 识别，正是「认错人」的核心威胁；与 participants made the wrong call in one-in-five cases 「误判率高」的实验数据也相互呼应。

【竞争词】 H) immediately immediately 表「立刻」，与文章「识别错误」主旨不符

immediately (立刻、立即) 只表时间速度，「特征被立刻识别」反而是好事，与 Failure to detect synthetic faces 的负面忧虑方向反了。

【易错】 最具迷惑性的错误词是 H) —— 看到 to be __ identified 误选 immediately 「立刻被识别」。to be __(35)__ identified 中 immediately 词性也对、语义看着合理，但与 Failure to detect synthetic faces may have important implications for security and crime prevention 的负面主旨方向相反；防坑：在词性已定的两个副词之间，看段落是「担忧/批评」还是「赞扬」，担忧场景取负面 incorrectly。

WORD BANK · 词库分类表

15 个候选词 · 词性与词义

选词填空文后的共享词库共 **15** 个词 (A-O)，为 10 个空各选一个、每词最多用一次。下面给出每个词的词性与中文词义；标注「用于第 N 空」的 10 个为答案，其余 5 个为干扰词。

A) **accurate** (形容词)

准确的、精确的

用于第 30 空

B) **allow** (动词)

允许、使得 (某事) 可能

用于第 34 空

C) **artificial** (形容词)

人造的、假的、非自然的

用于第 28 空

D) **cheating** (动词) (名词)

诈骗、欺骗 (动名词/现在分词)

用于第 33 空

E) **deserted** 形容词 动词

废弃的、荒凉的；遗弃（过去式/过去分词）

干扰词 · 未选用

F) **establish** 动词

建立；查明、确认

用于第 29 空

G) **extremely** 副词

极其、非常

用于第 32 空

H) **immediately** 副词

立刻、立即

干扰词 · 未选用

I) **incorrectly** 副词

错误地、不正确地

用于第 35 空

J) **normal** 形容词

正常的、普通的（这里指真实/未戴面具的）

用于第 26 空

K) **observed** 动词 形容词

观察到的；观察、注意到（过去式/过去分词）

用于第 27 空

L) **passed** 动词

passed sb. off as: 把（自己）冒充为（过去式/过去分词）

用于第 31 空

M) **reminding** 动词 形容词

提醒、使想起（动名词/现在分词）

干扰词 · 未选用

N) **reparable** 形容词

可修复的、可补救的

干扰词 · 未选用

O) **resolve** 动词 名词

解决（问题/争端）；决心

干扰词 · 未选用

全文主旨

超逼真硅胶面具能骗过人眼，给安保与刑侦带来真实风险

全文围绕一项跨国研究展开：超逼真面具几乎能以假乱真，Super realistic masks are made from flexible materials such as silicone and are designed to imitate real human face—down to every last detail. 受试者在实验中仍有约两成把面具看成真人脸，Surprisingly, participants made the wrong call in one-in-five cases.; 现实里已被罪犯滥用，There are now dozens of criminal cases in which offenders have __(31)__ themselves off as people of a different age, race or gender, sending police investigations down the wrong path.。把握住「面具 vs 真脸难辨 → 后果严重」这条主线，每个空的取词都要朝它对齐。

这 5 个词始终没被任何空选用

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边，却不该填进任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

E) **deserted** 最像 __ (26)__: a __ face, 骗你「孤独的脸」

考生在 showed a __ (26)__ face 里若不抓「与 wearing a mask 的对照」，可能凭「deserted（被遗弃的）也是形容词」就误选；识破点是它几乎只修饰 street/building/island，不修饰 face，且对照逻辑要的是「真实/正常」。

H) **immediately** 最像 __ (35)__: to be __ identified, 骗你「立即被识别」

to be __ (35)__ identified 里 immediately 词性也对、语法也通，但全段在讲「面具威胁识别」的负面方向，Failure to detect synthetic faces 已经定调；识破点是按段落感情色彩取负面副词 incorrectly。

M) **reminding** 最像 __ (33)__: 动名词形式骗你套伴随状语

__ (33)__ business executives out of millions of pounds 里若只看「需要 -ing 形式」就会和 cheating 抢；识破点是 remind 的搭配是 remind sb. of sth.，根本接不上 out of money 这个介词框架。

N) **reparable** 最像 __ (28)__: 与 real 对照时假装是「可修复 vs 真实」

tell an __ (28)__ face from the real thing 中考生若不认识 reparable，会被它「形容词、看起来高级」吸引；识破点是它的对象只能是损坏物，无法和「真脸」形成 tell A from B 的反义对照。

O) **resolve** 最像 __ (29)__: to __ any differences, 骗你「解决差异」

to __ (29)__ any differences according to race 里 resolve 是动词原形、宾语也是抽象名词，看起来很合身；识破点是 resolve 搭 problem/conflict，是「解决」而非「查明」，与研究目的方向不符——研究者要的是 establish（确认是否存在差异）。

4 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

In a study by the Universities of York and Kyoto, researchers asked participants to look at pairs of photographs and decide which showed a normal face and which showed a person wearing a mask.

第2段，第1句

"ask somebody to do something" 结构和宾语从句并列使用是四六级、考研英语阅读中常见的句式,研究场景陈述也很典型,掌握后有较强的迁移性,适合作为中等复杂度的练习句。

The 20% error rate observed in the study likely underestimates the extent to which people would struggle to tell an artificial face from the real thing outside of the lab.

第4段，第1句

本句展示了学术写作和考试中的典型结构:主句带修饰、宾语含限制性定语从句、介词加关系代词引导从句、不定式表目的。这种 "名词 + 介词 + 关系代词" 的定语从句形式在四六级和考研英语阅读中频繁出现,掌握后可广泛迁移。

There are now dozens of criminal cases in which offenders have passed themselves off as people of a different age, race or gender, sending police investigations down the wrong path.

第6段，第1句

涵盖了 there be 存在句、限制性定语从句、"pass sb off as sth" 固定搭配(含宾语和宾语补足语)、以及现在分词短语作伴随状语。这些成分种类丰富,特别是宾语补足语和非谓语动词状语是学生容易混淆的点,适合作为成分划分的训练句

Dr Jet Sanders, who worked on the study while a PhD student at the University of York, said: "Failure to detect synthetic faces may have important implications for security and crime prevention as super realistic masks may allow the key characteristics of a person's appearance to be incorrectly identified."

第8段，第1句

覆盖主谓宾、主系表、宾语补足语、定语(含不定式后置定语和定语从句)、状语(含时间和原因状语从句)等多种成分,抽象名词作主语、情态动词结构、allow 的宾补结构都是常见易错点,训练价值高

真题卷第3套(2024-12) · 英语四级

Part III Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Stop thinking and start doing

A) Most people have a dream in life, a vision of who or what they'd like to be in the future. At a minimum, everyone has interests and values that determine what they want out of their lives. Even so, trying to set achievable goals that you'll work for over the course of many years can be extremely challenging. It can be hard to know where to even begin, and the things you hope to achieve may seem impossible. But, if you're well prepared you may be able to set goals for your life that are just as fulfilling to work toward as to achieve.

大多数人在生活中都有一个梦想,对未来自己想成为什么样的人或想做什么有一个憧憬。至少,每个人都有决定自己想从生活中得到什么的兴趣和价值观。即便如此,试图设定你将在许多年中为之努力的可实现目标可能极具挑战性。很难知道从哪里开始,而你希望实现的目标可能看起来不可能。但是,如果你准备充分,你也许能够为自己的人生设定这样的目标:朝着它们努力的过程与实现它们一样令人满足。

B) We all have goals that we want to achieve in our lives. These goals may include learning a new language, eating healthier and losing weight, becoming a better parent, saving more money, and so on. It can be easy to assume that the gap between where you are now and where you want to be in the future is caused by a lack of knowledge. This is why we buy courses on how to start a business or how to lose weight fast or how to learn a new language in three months. We assume that if we knew about a better strategy, then we would get better results. We believe that a new result requires new knowledge.

我们都有想在生活中实现的目标。这些目标可能包括学习一门新语言、更健康地饮食和减肥、成为更好的父母、存更多的钱,等等。人们很容易认为,你现在所处的位置与你未来想要达到的位置之间的差距

是由于缺乏知识造成的。这就是为什么我们购买关于如何创业、如何快速减肥或如何在三个月内学会一门新语言的课程。我们认为如果我们知道更好的策略,那么我们会获得更好的结果。我们相信新的结果需要新的知识。

- C) What I'm starting to realize, however, is that new knowledge does not necessarily drive new results. In fact, learning something new can actually be a waste of time if your goal is to make progress and not simply gain additional knowledge.

然而,我开始意识到,新知识并不一定带来新结果。事实上,如果你的目标是取得进步而不仅仅是获得额外知识,那么学习新东西实际上可能是浪费时间。

- D) It all comes down to the difference between learning and practicing. Thomas Sterner, in his book *The Practicing Mind*, explains the key difference between practicing and learning. He says: "When we practice something, we are involved in the deliberate repetition of a process with the intention of reaching a specific goal." Here the words "deliberate" and "intention" are key, because they define the difference between actively practicing something and passively learning it.

这一切归结为学习和练习之间的区别。Thomas Sterner在他的书《练习的心态》中解释了练习和学习之间的关键区别。他说:"当我们练习某件事时,我们在有意识地重复一个过程,意图达到一个特定的目标。"这里"有意识"和"意图"这两个词是关键,因为它们定义了主动练习某事和被动学习它之间的区别。

- E) Learning something new and practicing something new may seem very similar, but these two methods can have profoundly different results. Here are some additional ways to think about the difference. Let's say your goal is to get stronger and more fit. You can research the best instructions on weight lifting technique, but the only way to build strength is to practice lifting weights. Let's say your goal is to grow your startup. You can learn about the best way to make a sales pitch, but the only way to actually land customers is to practice making sales calls. Let's say your goal is to write a book. You can talk to a best-selling author about writing, but the only way to become a better writer is to practice publishing consistently.

学习新东西和练习新东西可能看起来非常相似,但这两种方法可能产生截然不同的结果。以下是一些思考这种区别的其他方式。假设你的目标是变得更强壮、更健康。你可以研究关于举重技术的最佳指导,但增强力量的唯一方法是练习举重。假设你的目标是发展你的初创企业。你可以学习关于如何做销售推介的最佳方法,但真正获得客户的唯一方法是练习打销售电话。假设你的目标是写一本书。你可以和一位畅销书作家谈论写作,但成为更好作家的唯一方法是练习持续发表作品。

- F) Passive learning creates knowledge. Active practice creates skill. Let's consider a couple more reasons to prioritize active practice over passive learning. First, passive learning can be a stick that supports inaction. In many cases, learning is actually a way to avoid taking action on the goals and interests that we say are important to us. For example, let's say you want to learn a foreign language. Reading a book on how to learn a foreign language quickly allows you to feel like you are making progress ("Hey, I'm figuring out the best way to do this!"). Of course, you're not actually practicing the action that would deliver your desired outcome (speaking the foreign language).

被动学习创造知识。主动练习创造技能。让我们再考虑几个优先选择主动练习而不是被动学习的理由。首先,被动学习可能成为支持不作为的拐杖。在很多情况下,学习实际上是一种避免对我们声称对自己重要的目标和兴趣采取行动的方式。例如,假设你想学习一门外语。阅读一本关于如何快速学习外语的书让你感觉自己正在取得进步("嘿,我正在找出做这件事的最佳方法!")。当然,你实际上并没有在练习能带来你期望结果的行动(说这门外语)。

- G) In situations like this one, we often claim that we are preparing or researching the best method, but these rationalizations allow us to feel like we are moving forward when we are merely spinning our wheels. We make the mistake of being in motion rather than taking action. Learning is valuable until it becomes a form of procrastination(拖延).

在这样的情况下,我们经常声称自己正在准备或研究最佳方法,但这些合理化借口让我们在仅仅原地打转时感觉自己正在前进。我们犯了处于运动状态而不是采取行动的错误。学习是有价值的,直到它变成一种拖延形式。

- H) Another point to consider is that practice is learning, but learning is not practice. Passive learning is not a form of practice because although you gain new knowledge, you are not discovering how to apply that knowledge. Active practice, meanwhile, is one of the greatest forms of learning because the mistakes you make while practicing reveal important insights.

另一个需要考虑的要点是,练习是学习,但学习不是练习。被动学习不是一种练习形式,因为尽管你获得了新知识,但你没有发现如何应用那些知识。与此同时,主动练习是最伟大的学习形式之一,因为你在练习时犯的错误揭示了重要的见解。

- I) Even more importantly, practice is the only way to make a meaningful contribution with your knowledge. You can watch an online course about how to build a business or read an article about a terrible disaster in a developing nation, but that knowledge is unproductive unless you actually launch your business or donate to those in need. Learning by itself can be valuable for you, but if you want to be valuable to others, then you have to express your knowledge in some way.

更重要的是,练习是用你的知识做出有意义贡献的唯一方式。你可以观看关于如何创业的在线课程,或阅读一篇关于发展中国家可怕灾难的文章,但除非你真正启动你的业务或向有需要的人捐款,否则那些知识是无用的。学习本身对你来说可能是有价值的,但如果你想对他人有价值,那么你必须以某种方式表达你的知识。

- J) The last important point to consider is that practice focuses your energy on the process. Thomas Sterner once said, "Progress is a natural result of staying focused on the process of doing anything." The state of your life right now is a result of the habits and beliefs that you have been practicing each day. When you realize this and begin to direct your focus toward practicing better habits day-in and day-out, continual progress will be the logical outcome. It is not the things we learn nor the dreams we visualize that determine our results, but rather the habits that we practice each day. Fall in love with boredom and focus your energy on the process, not the product.

最后一个需要考虑的重要要点是,练习将你的精力集中在过程上。Thomas Sterner曾经说过:"进步是保持专注于做任何事情的过程的自然结果。"你现在生活的状态是你每天一直在练习的习惯和信念的结果。当你意识到这一点并开始将注意力导向日复一日地练习更好的习惯时,持续进步将是合乎逻辑的结果。决定我们结果的不是我们学到的东西,也不是我们想象的梦想,而是我们每天练习的习惯。爱上无聊,将你的精力集中在过程上,而不是产品上。

- K) What does this all mean? Is passive learning useless? Of course not. In many cases, learning for the sake of learning can be a beautiful thing. Not to mention that soaking up new information can help you make more informed decisions when you do decide to take action. That said, the main point of this article is that learning by itself does not lead to progress. We often hide behind information and use learning as an excuse to delay the more difficult and more important choice of actually doing

something. Spend less time passively learning and more time actively practicing. Stop thinking and start doing.

这一切意味着什么?被动学习是无用的吗?当然不是。在很多情况下,为了学习而学习可能是一件美好的事情。更不用说吸收新信息可以帮助你做出更明智的决定。也就是说,本文的主要观点是,学习本身并不能带来进步。我们经常躲在信息背后,用学习作为借口来延迟实际做某事这个更困难、更重要的选择。少花时间被动学习,多花时间主动练习。停止思考,开始行动。

陈述句与逐句解析

36. Acquisition of new knowledge may not guarantee the progress that you aim to make.

获取新知识可能无法保证你实现所追求的进步。

【答案】 **C** 段 (强锚点)

【锚点】 new knowledge ↔ progress 的否定连接

【定位】 What I'm starting to realize, however, is that new knowledge does not necessarily drive new results.

然而, 我开始意识到的是: 新的知识未必能带来新的结果。

【改写】 Acquisition of new knowledge ↔ **new knowledge**

名词化等价

may not guarantee ↔ **does not necessarily drive**

弱否定同义替换

the progress that you aim to make ↔ **new results**

上下位等价

【辨邻】 **B** B 段是 We assume that if we knew about a better strategy, then we would get better results, 只是把 大众的设想 摆出来; 陈述句要的是 不能保证 的判断, 这一判断只出现在 C 段。

We believe that a new result requires new knowledge

K K 段的 the main point of this article is that learning by itself does not lead to progress 是 收束重申, 本文 反直觉新结论 的首次提出在 C 段。

learning by itself does not lead to progress

37. Your current situation in life is built on the beliefs and habits you have been practicing daily.

你当前的生活状况建立在你每天践行的信念和习惯之上。

【答案】 **J** 段 (强锚点)

【锚点】 current situation = beliefs and habits

【定位】 The state of your life right now is a result of the habits and beliefs that you have been practicing each day.

你此刻的人生状态, 是你每天所践行的习惯和信念的结果。

【改写】 Your current situation in life ↔ **The state of your life right now**

同义短语替换

beliefs and habits ↔ **habits and beliefs**

并列项顺序调换

practicing daily ↔ **practicing each day**

副词与短语等值

38. Knowing the best way to learn a foreign language will not enable you to speak it without actual practice.

了解学习外语的最佳方法并不能使你在没有实际练习的情况下说这门语言。

【答案】 **F** 段 (强锚点)

【锚点】 foreign language 案例

【定位】 For example, let's say you want to learn a foreign language. Reading a book on how to learn a foreign language quickly allows you to feel like you are making progress ("Hey, I'm figuring out the best way to do this!"). Of course, you're not actually practicing the action that would deliver your desired outcome (speaking the foreign language).

比如，假设你想学一门外语。读一本 怎样快速学外语 的书会让你觉得自己在进步（嘿，我正在搞清楚最好的方法！）。但其实，你并没有在实际练习那能带来你想要的结果的那个动作——说这门外语。

【改写】 Knowing the best way to learn a foreign language ↔

Reading a book on how to learn a foreign language quickly

学习手段同位替换

will not enable you to speak it without actual practice ↔

you're not actually practicing the action that would deliver your desired outcome (speaking the foreign language)

否定关系等价

【辨邻】 **E** E 段的例子是 get stronger and more fit、grow your startup、write a book，与 foreign language 无关。

Let's say your goal is to get stronger and more fit

39. People may find it demanding to create a goal which will take a long time to achieve.

人们可能会发现创建一个需要很长时间才能实现的目标很困难。

【答案】 **A** 段 (强锚点)

【锚点】 长时间才能达成的目标 + demanding

【定位】 Even so, trying to set achievable goals that you'll work for over the course of many years can be extremely challenging.

即便如此，要为你需要奋斗多年才能达成的目标设立可实现的方案，可能极其困难。

【改写】 create a goal ↔ **to set achievable goals**

动宾同义替换

which will take a long time to achieve ↔ **over the course of many years**

时长表达同义替换

demanding ↔ **extremely challenging**

形容词等价

40. Learning and practicing seem to be very much alike, but the two processes can lead to quite different outcomes.

学习和练习似乎非常相似,但这两个过程可能会导致截然不同的结果。

【答案】 **E** 段 (强锚点)

【锚点】 alike but different outcomes

【定位】 Learning something new and practicing something new may seem very similar, but these two methods can have profoundly different results.

学新东西与练新东西看起来非常相似，但这两种方式可能带来极为不同的结果。

【改写】 Learning and practicing seem to be very much alike ↔

Learning something new and practicing something new may seem very similar

同义重述

the two processes can lead to quite different outcomes ↔

these two methods can have profoundly different results

整句同义重述

【辨邻】 **H** H 段是 Another point to consider is that practice is learning, but learning is not practice——讨论的是包含关系，不是 看起来相似但结果不同。

practice is learning, but learning is not practice

41. Absorbing new information is helpful in making better decisions prior to action.

吸收新信息有助于在行动之前做出更好的决策。

【答案】 **K** 段 (强锚点)

【锚点】 absorbing information → better decisions

【定位】 Not to mention that soaking up new information can help you make more informed decisions when you do decide to take action.

更不用说，吸收新的信息有助于你在真正决定行动时做出更明智的决策。

【改写】 Absorbing new information ↔ **soaking up new information**

动词族同义替换

helpful in making better decisions ↔ **help you make more informed decisions**

形容词转动词同义

prior to action ↔ **when you do decide to take action**

时间状语同义

42. Sometimes we may feel like we are making progress by doing some research or making preparations, but actually we are staying at the starting point.

有时我们可能会觉得通过做一些研究或准备工作正在取得进步,但实际上我们还停留在起点。

【答案】 **G** 段 (强锚点)

【锚点】 feel like progress but actually staying at starting point

【定位】 In situations like this one, we often claim that we are preparing or researching the best method, but these rationalizations allow us to feel like we are moving forward when we are merely spinning our wheels.

在这种情形下, 我们常声称自己在做准备或研究最佳方法, 但这些自我合理化让我们觉得自己在前进, 其实只是原地空转。

【改写】 doing some research or making preparations ↔ **preparing or researching the best method**

并列动词同义替换

feel like we are making progress ↔ **feel like we are moving forward**

短语等价

staying at the starting point ↔ **spinning our wheels**

比喻与字面同义

【辨邻】 **F** F 段的 Reading a book on how to learn a foreign language quickly allows you to feel like you are making progress 是具体例子, 陈述句 Q42 的 评论性概括 出现在承接段 G。

Reading a book on how to learn a foreign language quickly allows you to feel like you are making progress

43. We are inclined to think that a lack of knowledge prevents us from advancing to a better future.

我们倾向于认为缺乏知识阻碍我们走向更美好的未来。

【答案】 **B** 段 (强锚点)

【锚点】 lack of knowledge 阻碍进步

【定位】 It can be easy to assume that the gap between where you are now and where you want to be in the future is caused by a lack of knowledge.

我们很容易这样设想：你当下所处的位置与你将来想到达的位置之间的差距，是由知识不足造成的。

【改写】 We are inclined to think ↔ **It can be easy to assume**

倾向表达同义

a lack of knowledge prevents us from advancing to a better future ↔

the gap between where you are now and where you want to be in the future is caused by a lack of knowledge

因果链对位

【辨邻】 **C** C 段以 What I'm starting to realize, however 开头是 反驳的转折，与陈述句 倾向于认为 的口吻相反。

What I'm starting to realize, however, is that new knowledge does not necessarily drive new results

44. Learning can benefit you by itself, but only practice can turn what you learn into meaningful contributions.

学习本身可以使你受益,但只有练习才能将你所学的东西转化为有意义的贡献。

【答案】 **I** 段 (强锚点)

【锚点】 for you vs meaningful contributions

【定位】 Learning by itself can be valuable for you, but if you want to be valuable to others, then you have to express your knowledge in some way.

学习本身对你自己可能有价值，但如果你想对他人产生价值，就必须以某种方式把你所学的表达出来。

【改写】 Learning can benefit you by itself ↔ **Learning by itself can be valuable for you**

同义重述

only practice can turn what you learn into meaningful contributions ↔

practice is the only way to make a meaningful contribution with your knowledge

唯一路径同义重述

【辨邻】 **H** H 段的 Passive learning is not a form of practice 是 包含关系判断，不涉及 meaningful contribution 这一价值出口。

Passive learning is not a form of practice because although you gain new knowledge, you are not discovering how to apply that knowledge

45. Practice involves repeating a process intentionally to attain a particular objective.

练习涉及有意识地重复一个过程以达到特定目标。

【答案】 **D** 段 (强锚点)

【锚点】练习的定义：重复以达目标

【定位】He says: "When we practice something, we are involved in the deliberate repetition of a process with the intention of reaching a specific goal."

他说：当我们练习某事时，我们是在带着达成某个具体目标的意图，刻意地重复一个过程。

【改写】repeating a process ↔ **repetition of a process**

动名词与名词同义

intentionally ↔ **deliberate repetition of a process with the intention of reaching a specific goal**

副词与原文 deliberate/intention 对应

to attain a particular objective ↔ **reaching a specific goal**

动宾同义替换

PARAGRAPH MAP • 段落主旨图

11 个段落各讲了什么

逐段一句主旨 + 该段最具区分度的「信息指纹」，是逐句回扫定位的工作台。

A 开篇引入：人都有梦想与目标，但 trying to set achievable goals that you'll work for over the course of many years can be extremely challenging——为多年才能实现的目标做规划是非常困难的。

信息指纹 长期目标难设立

B 提出错误归因：我们以为现状与理想之间的差距源于知识不足，于是去买课、找方法——It can be easy to assume that the gap between where you are now and where you want to be in the future is caused by a lack of knowledge.

信息指纹 误把差距归因于知识不足

C 作者亮观点：新知识不必然带来新结果——new knowledge does not necessarily drive new results；学新东西若只为攒知识，反而可能是浪费时间。

信息指纹 新知识 ≠ 新结果

D 引用 Thomas Sterner 给 practice 下定义: When we practice something, we are involved in the deliberate repetition of a process with the intention of reaching a specific goal——刻意地、为某个具体目标重复一个过程。

信息指纹 practice 的定义: 刻意重复达目标

E 用三个例子 (举重、销售、写书) 说明: 学习和练习看起来像, but these two methods can have profoundly different results——两条路结果差别巨大。

信息指纹 学练相像但结果迥异

F 首条原因: 被动学习常成为 不行动 的拐杖——读 怎样快速学外语 的书让你觉得在进步, 可你并没在 speaking the foreign language。

信息指纹 学外语案例: 读书 ≠ 开口说

G 承接上段: 声称 在准备/研究最佳方法 其实是原地打转——we feel like we are moving forward when we are merely spinning our wheels, 学习一旦变成拖延就失去价值。

信息指纹 原地打转 / 学习沦为拖延

H 辨析两者关系: 练习本身就是学习, 但学习并不等于练习——Passive learning is not a form of practice because although you gain new knowledge, you are not discovering how to apply that knowledge。

信息指纹 练含学, 学不含练

I 更进一步: 练习是让知识对他人产生贡献的唯一途径——Learning by itself can be valuable for you, but if you want to be valuable to others, then you have to express your knowledge in some way。

信息指纹 对自己有益 vs 对人有用

J 练习的另一好处: 把能量聚焦于过程; The state of your life right now is a result of the habits and beliefs that you have been practicing each day——你当下的人生状态由每日所练的习惯与信念决定。

信息指纹 当下状态 = 每日所练的习惯信念

K

收尾平衡：被动学习并非无用，soaking up new information can help you make more informed decisions when you do decide to take action；但学习本身不会带来进步，少学多练、停下空想、动起来。

信息指纹 学习有用但需先于行动而服务行动

Stop thinking and start doing

标题

祈使句是英语中的常见句式，且并列谓语结构在日常表达和考试中均有一定出现频率，但本句过于简短，无法体现复杂句式的典型特征，迁移价值中等。

Even so, trying to set achievable goals that you'll work for over the course of many years can be extremely challenging.

A段，第3句

主句包含较长的动名词短语作主语（trying to set achievable goals that you'll work for over the course of many years），系动词谓语（can be），形容词短语作表语（extremely challenging），以及让步状语（Even so）。定语从句中有主语、谓语、宾语（关系代词 that）和时间状语。全句覆盖动名词主语、定语从句、情态动词、关系代词作宾语等多个知识点，且主语部分较长易混淆，作为划分成分的练习句有较高价值。

But, if you're well prepared you may be able to set goals for your life that are just as fulfilling to work toward as to achieve.

A段，第5句

本句包含主句的主谓宾结构、条件状语从句、定语从句修饰宾语，以及定语从句内部的比较结构 "as ... as"。成分种类较丰富，条件状语从句插入主句主干的位置是易错点，定语从句对宾语的修饰关系也值得练习，适合训练成分识别能力。

It can be easy to assume that the gap between where you are now and where you want to be in the future is caused by a lack of knowledge.

B段，第3句

形式主语 + 不定式真正主语 + 宾语从句 + 介词短语内嵌从句,这是四六级和考研英语阅读中的高频句式。掌握本句的分析方法,可以直接迁移到大量类似长难句,典型性极高。

We assume that if we knew about a better strategy, then we would get better results.

B段，第5句

"主句 + 宾语从句（内嵌条件状语从句）+ 虚拟语气" 是四六级和考研英语阅读中的高频结构。该句型展示了宾语从句与虚拟条件句的经典组合方式，掌握后可直接迁移到大量类似句式。

What I'm starting to realize, however, is that new knowledge does not necessarily drive new results.

C段，第1句

主系表结构配合主语从句和表语从句是四六级和考研英语阅读中的高频句式,What 引导主语从句、that 引导表语从句都是典型用法,掌握后可广泛复用到类似结构,代表性强。

In fact, learning something new can actually be a waste of time if your goal is to make progress and not simply gain additional knowledge.

C段，第2句

主句 + 条件状语从句的结构在四六级和考研英语阅读中非常常见，是典型的主从复合句式。动名词作主语、情态动词表达可能性、if 引导条件从句这些都是高频考点和常见句式。掌握本句结构后，可以迁移到大量类似句子的理解和分析中。唯一略显特殊的是从句中并列不定式的否定形式（not simply gain），但这也是考试中会出现的表达方式。

It all comes down to the difference between learning and practicing.

D段，第1句

本句涵盖了主语、谓语、宾语、状语、定语五种成分，且包含两个值得练习的点：一是短语动词"come down to"作谓语的识别（需要整体把握而不是拆开理解），二是介词短语"between learning and practicing"作后置定语的判断（需要区分它是修饰名词还是作状语）。这两个点在四六级和考研英语阅读中较为常见，适合作为成分划分练习。

He says: "When we practice something, we are involved in the deliberate repetition of a process with the intention of reaching a specific goal."

D段，第3句

句子覆盖成分丰富:直接引语作宾语、时间状语从句、be involved in 被动结构、长介词短语作状语、介词短语套嵌。特别是引语作宾语和状语从句的组合是常考易错点,适合训练学生识别复杂宾语和从句的能力。

Here the words "deliberate" and "intention" are key, because they define the difference between actively practicing something and passively learning it.

D段，第4句

"主句 + because 原因状语从句"是四六级和考研阅读中的高频句式，用于解释概念或论证观点。宾语中"the difference between A and B"结构也是常考的对比表达，句式典型且实用。

You can research the best instructions on weight lifting technique, but the only way to build strength is to practice lifting weights.

E段，第4句

本句采用 "but" 连接的并列转折结构，前半部分用情态动词表达可能性，后半部分用 "the only way to do ... is to do ..." 句式强调方法的唯一性，这种对比论证的句式在四六级和考研写作、阅读中频繁出现，具有较高的典型性和实用性。

First, passive learning can be a stick that supports inaction.

F段，第4句

"主句+嵌套定语从句"是四六级和考研阅读中的高频句式,系表结构配合情态动词也常见于议论文表达观点。本句结构规整、具有较强代表性,掌握后可迁移到大量类似句子的分析中。

Reading a book on how to learn a foreign language quickly allows you to feel like you are making progress ("Hey, I'm figuring out the best way to do this!").

F段，第7句

本句覆盖了多种成分类型:动名词短语作主语 (Reading a book...)、谓语 (allows)、宾语 (you)、宾语补足语 (to feel...)、宾语从句 (you are making progress)。动名词短语作主语是学生常见的易错点,需要识别整个短语作为一个整体。allow sb to do sth 句型和 feel like 从句的搭配也是实用的句型。插入句虽不影响主干,但练习时可训练学生区分主要结构和补充说明的能力。整体而言,成分丰富且包含值得练习的重点。

Of course, you're not actually practicing the action that would deliver your desired outcome (speaking the foreign language).

F段，第8句

主句 + 限制性定语从句的结构在四六级和考研阅读中极为常见，定语从句修饰宾语的句式是典型考点。情态动词 "would" 表假设的用法也频繁出现，结构具有较高的代表性和复用价值。

We make the mistake of being in motion rather than taking action.

G段，第2句

"make the mistake of doing sth"是四六级和考研阅读中常见的固定搭配句式，"rather than"连接并列成分也是高频结构，学习后可迁移到大量类似表达。

Learning is valuable until it becomes a form of procrastination(拖延).

G段，第3句

主句加时间状语从句是四六级和考研阅读中的常见句式，"until" 引导的时间状语从句也是高频结构，具有较好的迁移性，但整体结构相对基础，代表性中等。

Passive learning is not a form of practice because although you gain new knowledge, you are not discovering how to apply that knowledge.

H段，第2句

本句展示了典型的"主句+原因状语从句"结构，且原因从句内嵌套让步从句，这种"转折中的让步"是四六级和考研阅读中常见的论证句式。结构代表性强，掌握后可迁移到大量类似句型。

Active practice, meanwhile, is one of the greatest forms of learning because the mistakes you make while practicing reveal important insights.

H段，第3句

本句展示了常见的因果论证结构：主句观点加 because 从句支撑，定语从句修饰名词，时间状语从句限定动作背景，这些都是四六级和考研阅读中的高频句式。三层嵌套在真题长难句中具有代表性，掌握后可迁移到大量类似结构，典型性很高。

Even more importantly, practice is the only way to make a meaningful contribution with your knowledge.

I段, 第1句

主系表加后置定语的结构在四六级和考研阅读中较为常见, 句首状语修饰全句的用法也是常规考点。但本句整体偏短、层次单一, 不如带从句的复杂句更具真题代表性, 典型性中等。

You can watch an online course about how to build a business or read an article about a terrible disaster in a developing nation, but that knowledge is unproductive unless you actually launch your business or donate to those in need.

I段, 第2句

本句涵盖多种成分类型:并列谓语(can watch ... or read 与 launch ... or donate)、并列宾语(an online course 与 an article)、系表结构(is unproductive)、条件状语从句、嵌入的疑问词加不定式结构作宾语、介词短语状语(to those in need);成分种类丰富,且存在并列结构易混淆的坑点(如 "or" 连接的两个动宾结构共用主语和情态动词),适合作为成分划分练习材料

Learning by itself can be valuable for you, but if you want to be valuable to others, then you have to express your knowledge in some way.

I段, 第3句

句式为"主句A + but + 主句B(含if条件从句)"的并列转折加条件嵌套,是四六级和考研阅读中的常见结构。情态动词、动名词主语、不定式宾语、条件状语从句都是高频考点,典型性较强,掌握后可迁移到大量类似句子

The last important point to consider is that practice focuses your energy on the process.

J段, 第1句

主系表结构加表语从句是考试中常见的句式,尤其在议论文和说明文中频繁出现,用于定义概念或阐述观点。主语带不定式后置定语也是典型用法。这种结构在四六级和考研阅读中反复出现,掌握后可以迁移到大量类似句子的理解上,具有较高的复用价值。

It is not the things we learn nor the dreams we visualize that determine our results, but rather the habits that we practice each day.

J段，第5句

"not ... but ..." 否定转折对比结构、形式主语 "It is" 句型、定语从句修饰名词、关系代词省略，这些都是四六级和考研阅读中的高频句式。全句整体呈现 "强调某一因素而否定其他因素" 的论证逻辑，是议论文和说明文中的典型表达模式，学生掌握后可在大量真题和文章中复用。

In many cases, learning for the sake of learning can be a beautiful thing.

K段，第4句

本句体现了考试中常见的几个结构特点：动名词短语作主语、情态动词加系动词的谓语、介词短语作状语和后置定语。这种 "抽象概念作主语 + 情态动词 + 系动词 + 评价性表语" 的模式在议论文写作和阅读理解中频繁出现，尤其是表达观点、可能性或价值判断的句子。掌握这一句式后，学习者可以迁移到大量类似表达中，实用性较高。

Not to mention that soaking up new information can help you make more informed decisions when you do decide to take action.

K段，第5句

本句涵盖主语（动名词短语）、谓语（情态动词结构）、宾语、宾语补足语（动词原形短语）、时间状语从句等多种成分，结构较为丰富。动名词作主语、"help sb do sth" 结构、强调助动词 "do" 的使用都是值得练习的知识点，具有较高的训练价值。

Spend less time passively learning and more time actively practicing.

K段，第8句

祈使句在四六级写作建议类题目和口语指令中常见，spend time doing 是高频搭配。结构本身典型性中等：学了可以套用到其他建议句，但不如复合句那样覆盖面广。

Stop thinking and start doing.

K段，第9句

本句可用于练习祈使句的谓语识别、并列谓语的划分、以及动名词作宾语的判定。虽然成分种类有限（只有谓语和宾语），但并列谓语各带宾语的结构能帮助学生理解并列关系中的归属问题，具有一定训练价值。

Your current situation in life is built on the beliefs and habits you have been practicing daily.

第37题 题干

句子体现了考试高频结构:被动语态主句+限制性定语从句(关系代词省略)+现在完成进行时;这种"结果被...所致,而...是持续进行的行为"的因果表达在四六级和考研阅读中极为常见,掌握后可直接迁移到大量类似长句的理解和写作中。

Knowing the best way to learn a foreign language will not enable you to speak it without actual practice.

第38题 题干

动名词短语作主语、及物动词加宾语及宾补的结构,以及"enable somebody to do something"这一句型,在四六级和考研阅读中频繁出现。本句还体现了"仅有知识不够,需要实践"这一常考逻辑关系,句式典型性强,掌握后可迁移到大量类似句子。

Learning and practicing seem to be very much alike, but the two processes can lead to quite different outcomes.

第40题 题干

并列句中一句使用系表结构、另一句使用情态动词加动词原形的搭配,这种对比陈述的句式在四六级和考研阅读中较为常见,且动名词作主语、"lead to"搭配也是高频考点,结构具有较强的典型性和复用价值。

We are inclined to think that a lack of knowledge prevents us from advancing to a better future.

第43题 题干

"主句 + that 引导的宾语从句"是四六级和考研阅读中极为常见的句式,"prevent sb from doing"也是高频搭配。"be inclined to do"表达心理倾向,在学术和议论文中经常出现。句子的整体结构(陈述普遍观点 + 宾语从句展开具体内容)是典型的议论或说明句式,学习者掌握后可以在大量真题和阅读材料中复用。典型性较高。

Learning can benefit you by itself, but only practice can turn what you learn into meaningful contributions.

第44题 题干

本句结构非常典型：并列主句用 but 转折，宾语从句用 what 引导，turn...into 搭配表示转化。这些都是四六级和考研真题中高频出现的句式。掌握本句的分析方法可以直接迁移到大量类似句子，代表性强。

阅读理解题和解析 · 46-50 题

本页 46-50 题的答案与逐题解析由懒笔记基于2024年12月·第3套 英语四级阅读理解（四选一）原卷逐题核对整理。与试卷排版同一卷面：先是 Directions 与 5 段原文（段首标 P1-P5 段号、逐段附中文翻译）；之后 5 道题逐题排列，每题英文题干与选项后紧接本题解析——题干与选项中译、答案、题型判定、题干拆句、定位句中英对照与逐选项对错归因。

真题卷第3套(2024-12) · 英语四级

Part III Section C (1)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

P1 Research in human-vehicle interaction has shown even systems designed to automate driving are far from being error-proof. Recent evidence points to drivers' limited understanding of what these systems can and cannot do as a contributing factor to system misuse. A recent study tackles the issue of over-trusting drivers and the resulting system misuse from a legal viewpoint. It looks at what the manufacturers of self-driving cars should legally do to ensure that drivers understand how to use the vehicles appropriately.

人机交互研究表明,即使是为自动驾驶设计的系统也远非万无一失。最近的证据表明,驾驶员对这些系统能做什么和不能做什么的理解有限,是导致系统误用的一个因素。最近的一项研究从法律角度探讨了驾驶员过度信任以及由此导致的系统误用问题。该研究审视了自动驾驶汽车制造商在法律上应采取什么措施,以确保驾驶员理解如何正确使用车辆。

P2 One solution suggested in the study involves requiring buyers to sign end-user license agreements (EULAs), similar to the terms and conditions that require agreement when using new software products. But this is far from ideal. The agreement may not provide enough information to the driver, leading to confusion about the nature of the requests for agreement and their implications. Further, most end users don't read EULAs. A 2017 study shows 91 percent of people agree to them without reading. Among young people, 97 percent agree without reviewing the terms.

研究中提出的一个解决方案是要求购买者签署最终用户许可协议,类似于使用新软件产品时需要同意的条款和条件。但这远非理想。该协议可能无法向驾驶员提供足够的信息,导致对同意请求的性质及其含义产生混

淆。此外,大多数最终用户不会阅读最终用户许可协议。2017年的一项研究显示,91%的人在未阅读的情况下就同意了这些协议。在年轻人中,97%的人在未审查条款的情况下就表示同意。

P3 The issue is that, unlike using a smartphone app, operating a car has serious safety risks, whether the driver is human or software. And human drivers need to consent to take responsibility for the outcomes of the software and hardware.

问题在于,与使用智能手机应用程序不同,操作汽车具有严重的安全风险,无论驾驶员是人类还是软件。而且人类驾驶员需要同意对软件和硬件的结果承担责任。

P4 "Warning fatigue" and distracted driving are also causes for concern. For example, a driver, annoyed after receiving continuous warnings, could decide to just ignore the message. Or, if the message is presented while the vehicle is in motion, it could represent a distraction. Given these limitations and concerns, even if this mode of obtaining consent is to move forward, it likely won't fully protect automakers from their legal liability should the system malfunction(发生故障) or an accident occur.

"警告疲劳"和分心驾驶也是令人担忧的原因。例如,驾驶员在持续收到警告后感到恼火,可能决定直接忽略这些信息。或者,如果信息在车辆行驶时呈现,它可能会造成分心。鉴于这些局限性和担忧,即使这种获得同意的模式得以推进,它也可能无法在系统发生故障或事故发生时完全保护汽车制造商免受法律责任。

P5 Driver training for self-driving vehicles can help ensure that drivers fully understand system capabilities and limitations. This needs to occur beyond the vehicle purchase. Recent evidence shows even relying on the information provided by the seller is not going to answer many questions. All of this considered, the road forward for self-driving cars is not going to be a smooth ride after all.

针对自动驾驶车辆的驾驶员培训可以帮助确保驾驶员充分理解系统的能力和局限性。这需要在车辆购买之外进行。最近的证据表明,即使依赖销售商提供的信息也无法回答许多问题。考虑到所有这些因素,自动驾驶汽车的前进道路毕竟不会一帆风顺。

题目与逐题解析

46. What do we learn from research in human-vehicle interaction?

- A) Automatic driving systems are by no means immune to errors.
- B) Driverless vehicles are likely to be misused by some people.
- C) Self-driving car manufacturers are not aware of the legal matters involved.
- D) There is a long way to go before humans can interact with driverless vehicles.

我们从人机交互研究中了解到什么?

- A) 自动驾驶系统绝非不会出错。
- B) 无人驾驶车辆可能会被某些人滥用。
- C) 自动驾驶汽车制造商没有意识到所涉及的法律问题。
- D) 人类与无人驾驶车辆实现交互还有很长的路要走。

【答案】 A (细节题)

【判型】 What do we learn from research in human-vehicle interaction? 直接问研究告诉了我们什么, 答案必然是原文一句陈述的客观转述, 不需要跨段推理。

【拆句】 结构平铺直叙: 主句是 What do we learn from research in human-vehicle interaction, from 引导的介宾短语限定信息来源, 无从句、无否定、无陷阱。

【定位】 Research in human-vehicle interaction has shown even systems designed to automate driving are far from being error-proof.

人车交互领域的研究表明，即便是为自动驾驶而设计的系统，也远远谈不上无差错。

【选项】 A) ✓ 正确

systems designed to automate driving ↔ Automatic driving systems

far from being error-proof ↔ by no means immune to errors

预判要的是系统并非无差错，A 项 Automatic driving systems are by no means immune to errors 是对 systems designed to automate driving are far from being error-proof 的逐部分同义替换，无添加无减少，锁定 A。

B) 偷换概念

Driverless vehicles are likely to be misused by some people 谈的是车被滥用，而题干问的是研究发现，定位句结论是系统易出错，两者不在同一语义层；滥用确实在 system misuse 中提到但只是后续展开，并非首句的研究结论。

C) 无中生有

Self-driving car manufacturers are not aware of the legal matters involved 称厂商对法律毫无意识，而原文 A recent study tackles the issue...from a legal viewpoint 只是说有研究从法律角度切入，从未说厂商不知情。

D) 偷换概念

There is a long way to go before humans can interact with driverless vehicles 把研究结论说成人车交互本身遥不可及，而原文人车交互只是研究领域名，研究真正的发现是系统易错，与是否能交互无关。

47. What is the problem with requiring buyers to sign end-user license agreements?

A) End users, young and old alike, find the terms complex to interpret.

B) Most end users sign them without bothering to read the terms.

C) Many people are often confused by the wording of the terms.

D) Most end users do not understand the terms after reading them through.

要求购买者签署最终用户许可协议存在什么问题？

A) 无论老少,最终用户都觉得条款难以理解。 B) 大多数最终用户签署时根本不会费心阅读条款。

C) 许多人经常对条款的措辞感到困惑。 D) 大多数最终用户即使通读后也不理解这些条款。

【答案】 B (细节题)

【判型】 What is the problem with requiring buyers to sign end-user license agreements? 询问一个具体做法的问题所在，属于对原文局部反面描述的提取。

【拆句】 结构清晰：What is the problem with... 主句问的是 problem，with 后跟动名词短语 requiring buyers to sign end-user license agreements 作 problem 的定语，整体无难点。

【定位】 Further, most end users don't read EULAs. A 2017 study shows 91 percent of people agree to them without reading.

更何况，大多数终端用户根本不读 EULA。2017 年的一项研究表明，91% 的人未读就同意了。

【选项】 A) 无中生有

End users, young and old alike, find the terms complex to interpret 说所有人都觉得条款难以解读，但原文只说大家压根不读，从未说他们读了之后觉得难懂。

B) ✓ 正确

most end users don't read EULAs ↔

Most end users sign them without bothering to read the terms

91 percent of people agree to them without reading ↔ **Most end users**

预判要的是签前不读，B 项 Most end users sign them without bothering to read the terms 正是这一行为的标准表述，与原文双句合并对应，锁定 B。

C) 偷换概念

Many people are often confused by the wording of the terms 说人们被措辞搞晕，但原文 leading to confusion about the nature of the requests for agreement and their implications 说的是对协议性质与含义的困惑，且这是协议信息不足的后果，不是本题题干问的 EULA 整体的根本问题。

D) 与原文相反

Most end users do not understand the terms after reading them through 隐含的前提是用户把条款读完了，只是不懂；而原文 most end users don't read EULAs 的事实是用户根本没读，两者前提相反。

48. What would drivers do when they suffer from "warning fatigue"?

- A) Waste no time keeping the car moving.
- B) Rest a while to avoid fatigue driving.
- C) Take no action despite repeated warnings.
- D) Take note of the message though fatigued.

当驾驶员遭受“警告疲劳”时会怎么做？

- A) 毫不拖延地保持汽车行驶。
- B) 休息一会儿以避免疲劳驾驶。
- C) 尽管反复警告也不采取行动。
- D) 虽然疲劳但仍注意警告信息。

【答案】 C (细节题)

【判型】 What would drivers do when they suffer from "warning fatigue"? 问的是在某情境下司机机会做出何种动作，属于对原文具体情境的事实提取。

【拆句】 主句 What would drivers do 是常规疑问句，when 引导的时间状语从句 when they suffer from "warning fatigue" 限定情境，suffer from 意为遭受、深受其扰，无陷阱。

【定位】 For example, a driver, annoyed after receiving continuous warnings, could decide to just ignore the message.

举例来说，一名司机在接到接连不断的警告后心生厌烦，可能干脆决定无视这条信息。

【选项】 A) **无中生有**

Waste no time keeping the car moving 是 抓紧时间让车继续走，与原文 ignore the message 描述的不作为完全不是一回事。

B) **偷换概念**

Rest a while to avoid fatigue driving 在谈疲劳驾驶要休息，但原文 "Warning fatigue" 指对警告厌烦，并非生理疲劳。

C) **✓ 正确**

could decide to just ignore the message ↔ **Take no action despite repeated warnings**

预判要的是无视警告这一行为，C 项 Take no action despite repeated warnings 把无视 = 不作为、反复警告 = 重复警告两端都精准对位，锁定 C。

D) **与原文相反**

Take note of the message though fatigued 是 虽然疲惫但仍留意警告，与原文 just ignore the message 完全相反。

49. What does the author think of continuing to ask buyers to sign end-user license agreements?

- A) It will probably not guarantee the safety of drivers in case of accidents.
- B) It likely won't ensure that the automatic driving system functions properly.
- C) It likely won't fully protect automakers against accusations of deliberate cheating.
- D) It will probably not provide manufacturers adequate protection from legal responsibilities.

作者如何看待继续要求购买者签署最终用户许可协议？

- A) 这可能无法保证发生事故时驾驶员的安全。
- B) 这可能无法确保自动驾驶系统正常运行。
- C) 这可能无法充分保护汽车制造商免受蓄意欺诈的指控。
- D) 这可能无法为制造商提供充分的法律责任保护。

【答案】 D (细节题)

【判型】 What does the author think of continuing to ask buyers to sign end-user license agreements? 虽问作者看法，但锁定于 EULAs 这一局部做法，仍以一句明确表态句为答案依据，属细节题。

【拆句】 What does the author think of continuing to ask buyers to sign end-user license agreements? 中 think of 后接动名词 continuing, continuing 再接动词不定式 to ask buyers to sign..., 是动名词+不定式连用的链式结构，意为对继续要求买家签 EULA 这件事，作者怎么看。

【定位】 Given these limitations and concerns, even if this mode of obtaining consent is to move forward, it likely won't fully protect automakers from their legal liability should the system malfunction(发生故障) or an accident occur.

鉴于这些局限与担忧，即使继续推行这种取得同意的方式，万一系统发生故障或事故发生，它也很可能无法在法律责任上充分保护汽车制造商。

【选项】 A) 张冠李戴

It will probably not guarantee the safety of drivers in case of accidents 谈的是事故中司机的安全保障，但原文 protect automakers from their legal liability 谈的是保护厂商免于法律责任，对象与内容都错位。

B) 偷换概念

It likely won't ensure that the automatic driving system functions properly 谈的是系统能否正常运行，但原文谈的是法律层面对厂商的保护，二者根本不是一回事。

C) 偷换概念

It likely won't fully protect automakers against accusations of deliberate cheating 谈的是免于被指故意欺诈，但原文 legal liability 仅指法律责任，未涉及 deliberate cheating 故意欺诈这一更窄、更带主观恶意的范畴。

D) ✓ 正确

it likely won't fully protect automakers from their legal liability ↔

It will probably not provide manufacturers adequate protection from legal responsibilities
automakers ↔ **manufacturers**

预判要的是不能充分保护厂商的法律责任，D 项 It will probably not provide manufacturers adequate protection from legal responsibilities 与定位句逐字对位，锁定 D。

50. What should be done to help drivers fully understand system capabilities and limitations?

- A) Training them to be experts in vehicle automation.
- B) Familiarizing them with the systems through training.
- C) Broadening their knowledge of accident-prevention mechanisms.
- D) Facilitating their access to the information provided by the seller.

应该做什么来帮助驾驶员充分了解系统的功能和局限性？

- A) 培训他们成为车辆自动化方面的专家。
- B) 通过培训使他们熟悉这些系统。
- C) 拓宽他们对事故预防机制的了解。
- D) 便利他们获取销售方提供的信息。

【答案】 B (细节题)

【判型】 What should be done to help drivers fully understand system capabilities and limitations? 直接问该做什么以达成目的，属于对原文解决方案句的提取。

【拆句】 主句 What should be done 是被动疑问句，to help 引导的不定式作目的状语，help drivers 后接动词原形 fully understand...，整句意思是：为帮司机充分理解系统能力与局限，应该做什么。

【定位】 Driver training for self-driving vehicles can help ensure that drivers fully understand system capabilities and limitations.

针对自动驾驶汽车的司机培训，能够帮助确保司机充分了解系统的能力与局限。

【选项】 A) 过度推断

Training them to be experts in vehicle automation 把目标拔到成为车辆自动化领域专家的高度，而原文只要求 fully understand system capabilities and limitations，是理解层级而非专家层级。

B) ✓ 正确

Driver training for self-driving vehicles can help ensure that drivers fully understand system capabilities and limitations

↔ Familiarizing them with the systems through training

fully understand system capabilities and limitations ↔ Familiarizing them with the systems

预判要的是通过培训让司机熟悉系统，B项 Familiarizing them with the systems through training 与定位句双层等值，锁定 B。

C) 无中生有

Broadening their knowledge of accident-prevention mechanisms 谈的是扩大防事故机制的知识面，但原文谈的是理解系统的能力与局限，accident-prevention mechanisms 在文中并未出现。

D) 与原文相反

Facilitating their access to the information provided by the seller 主张方便司机获取卖家信息，但原文 even relying on the information provided by the seller is not going to answer many questions 明确指出哪怕依赖卖家信息也无法解答许多问题，二者方向相反。

SENTENCE INSIGHTS • 句子精讲

13 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

Research in human-vehicle interaction has shown even systems designed to automate driving are far from being error-proof.

第1段，第1句

本句的“主句 + 省略that的宾语从句”结构在四六级和考研阅读中非常典型，类似has shown/proved/indicated等动词引出从句的句式高频出现。宾语从句内部的“主语 + 后置定语 + 系表结构”也是常见搭配。学习者掌握此句式后可迁移到大量类似真题句子中。

It looks at what the manufacturers of self-driving cars should legally do to ensure that drivers understand how to use the vehicles appropriately.

第1段，第4句

本句展示了典型的多层宾语从句嵌套结构,"what" 从句作宾语和 "that" 从句作宾语都是四六级和考研高频句式,且不定式表目的、疑问词加不定式作宾语等结构也常见于真题,具有很强的代表性和可迁移性。

But this is far from ideal.

第2段，第2句

主系表结构是英语中的基本句型之一，在各类考试中常见，但本句过于简短且无修饰语或从句，不足以代表四六级或考研阅读中常考的复杂句式；作为句式样本的典型性和迁移价值较低。

A 2017 study shows 91 percent of people agree to them without reading.

第2段，第5句

宾语从句省略引导词that的结构在考试中较常见,且主句谓语为"show/say/think"类动词引出从句是典型句式。但整体结构较简单,没有更复杂的嵌套或特殊句式,典型性中等偏上。

The issue is that, unlike using a smartphone app, operating a car has serious safety risks, whether the driver is human or software.

第3段，第1句

"主句 + that 引导的表语从句 + 从句内嵌套状语从句" 是四六级和考研阅读中高频出现的句式；表语从句内部的动名词短语作主语、方式状语插入、"whether" 引导让步或条件从句，都是真题常考结构。掌握本句的分析方法可以直接迁移到大量类似句型，典型性很强

Given these limitations and concerns, even if this mode of obtaining consent is to move forward, it likely won't fully protect automakers from their legal liability should the system malfunction(发生故障) or an accident occur.

第4段，第4句

句子涵盖主语、谓语、宾语、多种状语（原因状语、让步条件状语、条件状语）、介词短语作状语、独立主格结构等丰富成分；特别是 should 倒装结构和 be to do 结构是考试常见易错点，适合作为成分划分练习

All of this considered, the road forward for self-driving cars is not going to be a smooth ride after all.

第5段，第4句

主系表句型 + 后置定语 + 独立主格状语，是四六级和考研阅读中常见的组合。独立主格在学术写作和新闻报道中频繁出现，"be going to" 表将来也是高频结构。比喻用法（road 喻指发展过程）在考试文章中常见。掌握本句的结构可迁移到大量类似句式。

Automatic driving systems are by no means immune to errors.

第46题，A

主系表结构配否定副词是四六级和考研阅读中常见的句式，"by no means" 等否定副词的用法也是考点之一。虽然本句是简单句，但这种表达方式在学术和正式语境中出现频率较高，具备一定的代表性。

Driverless vehicles are likely to be misused by some people.

第46题，B

"be likely to do" 结构在四六级和考研真题中频繁出现，是表示可能性的典型句式。被动语态也是考试中的常见考点。本句结构简洁、代表性强，学生掌握后可以直接迁移到大量类似句子，具有较高的学习迁移价值。

There is a long way to go before humans can interact with driverless vehicles.

第46题，D

there be 句型加时间状语从句是四六级和考研阅读中的高频结构，用于陈述客观存在并设定时间背景，句式简洁且实用性强，掌握后可迁移到大量类似表达，具有较高的典型性。

What would drivers do when they suffer from "warning fatigue"?

第48题题干

特殊疑问句加时间状语从句是四六级和考研阅读中的高频句式。"情态动词 + do" 表示假设或推测，"when" 引导时间状语从句都是考试常见结构，句式代表性强，掌握后可迁移到大量类似句子。

Take note of the message though fatigued.

第48题，D

句子涉及祈使句的主谓宾结构、让步状语从句及其省略形式、系表结构中的表语成分，成分种类有一定覆盖面。状语从句的省略是一个值得练习的点，能帮助学生理解省略规则和完整结构的对应关系。

It likely won't fully protect automakers against accusations of deliberate cheating.

第49题，C

覆盖主语、谓语、宾语、多个状语（程度、方式）、后置定语等多种成分，且介词短语 against accusations of deliberate cheating 内部有两层修饰（of 短语作定语），适合练习成分层次分析，但无复杂易错点如宾补、双宾或形式主语。

阅读理解题和解析 · 51-55 题

本页 51-55 题的答案与逐题解析由懒笔记基于2024年12月·第3套 英语四级阅读理解（四选一）原卷逐题核对整理。与试卷排版同一卷面：先是 Directions 与 10 段原文（段首标 P1-P10 段号、逐段附中文翻译）；之后 5 道题逐题排列，每题英文题干与选项后紧接本题解析——题干与选项中译、答案、题型判定、题干拆句、定位句中英对照与逐选项对错归因。

真题卷第3套(2024-12) · 英语四级

Part III Section C (2)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage Two

Questions 51 to 55 are based on the following passage.

P1 Do you ever blend up a protein drink for breakfast, or grab a protein bar following an afternoon workout? If so, you are likely among the millions of people in search of more protein-rich diets.

你是否曾在早餐时调制蛋白质饮料,或在下午锻炼后拿一根蛋白棒?如果是这样,你很可能是数百万寻求更多富含蛋白质饮食的人之一。

P2 Protein-enriched products are found everywhere. But contrary to all the publicity that everyone needs more protein, most Americans get twice as much as they need.

富含蛋白质的产品随处可见。但与所有宣传每个人都需要更多蛋白质的说法相反,大多数美国人摄入的蛋白质是他们所需量的两倍。

P3 Many of us living in the most developed countries are buying into a myth of protein deficiency created by food companies and self-identified health experts. Global retail sales of protein supplement products reached an astonishing US\$18.9 billion in 2020.

我们中许多生活在最发达国家的人正在接受由食品公司和自封的健康专家制造的蛋白质缺乏神话。2020年全球蛋白质补充剂产品的零售额达到了惊人的189亿美元。

P4 But are we really in need of more protein? Physicians in the U.S. have never actually examined a patient with protein deficiency because simply by eating an adequate number of daily calories we are also most likely getting enough protein.

但我们真的需要更多蛋白质吗?美国的医生实际上从未检查过蛋白质缺乏症患者,因为只要摄入足够的每日卡路里,我们很可能也在获得足够的蛋白质。

P5 In fact, Americans currently consume almost twice the National Academy of Medicine's recommended daily intake of protein although the most desirable protein intake may vary depending on age and activity level.

事实上,美国人目前摄入的蛋白质几乎是美国国家医学院推荐每日摄入量的两倍,尽管最理想的蛋白质摄入量可能因年龄和活动水平而异。

P6 For example, if you're a dedicated athlete you might need to consume higher quantities of protein. Generally, though, a 140-pound person should not exceed 120 grams of protein per day, particularly because a high protein diet can strain kidney and liver function and increase risks of developing heart disease and cancer.

例如,如果你是一名专业运动员,你可能需要摄入更多蛋白质。但通常情况下,一个140磅重的人每天摄入的蛋白质不应超过120克,特别是因为高蛋白饮食会给肾脏和肝脏功能带来压力,并增加患心脏病和癌症的风险。

P7 While fats and sugar have taken the beating in turns since over a century ago, protein has managed to remain our red-hot favorite.

尽管自一个多世纪前以来脂肪和糖分轮流遭受抨击,但蛋白质一直是我们最受欢迎的营养素。

P8 In the 1970s through the 1990s, protein products remained visible but moved back somewhat with the dietary spotlight firmly fixed on low-calorie, low-fat, sugar-free snack foods and beverages following the publication of studies linking sugar and saturated(饱和的) fat consumption to heart disease. In the 1970s through the 1990s, protein products remained visible but moved back somewhat with the dietary spotlight firmly fixed on low-calorie, low-fat, sugar-free snack foods and beverages following the publication of studies linking sugar and saturated fat consumption to heart disease. In the 1970s through the 1990s, protein products remained visible but moved back somewhat with the dietary spotlight firmly fixed on low-calorie, low-fat, sugar-free snack foods and beverages following the publication of studies linking sugar and saturated fat consumption to heart disease.

P9 Later research in 2003, however, suggested high-protein diets could aid in weight loss, and protein quickly regained its former nutrient-superstar status.

然而,2003年后来的研究表明高蛋白饮食可以帮助减肥,蛋白质迅速恢复了其以前的营养超级明星地位。

P10 Now most people living in high-income nations are consuming enough protein. When we replace meals with a protein bar or drink, we also risk missing out on the rich sources of antioxidants(抗氧化剂), vitamins and many other benefits of real food.

现在大多数生活在高收入国家的人摄入了足够的蛋白质。当我们用蛋白棒或饮料代替正餐时,我们也有可能错过真正食物中丰富的抗氧化剂、维生素和许多其他益处。

题目与逐题解析

51. What do we learn about publicity over protein in America?

- A) It has helped to create the myth of protein deficiency.
- B) It has helped Americans in search of protein-rich diets.
- C) It has raised a lot of health concerns among the public.
- D) It has been funded by food companies and health experts.

关于美国对蛋白质的宣传,我们了解到什么?

- A) 它帮助制造了蛋白质缺乏的神话。
- B) 它帮助美国人寻找富含蛋白质的饮食。
- C) 它在公众中引发了许多健康担忧。
- D) 它得到了食品公司和健康专家的资助。

【答案】 A (细节题)

【判型】 What do we learn about publicity over protein in America? 是一个 What...learn about 的事实型问句, 直接问关于某对象 (publicity) 的某一事实, 没有 infer/suggest/imply 等推断信号。

【拆句】 句式平铺直叙: What do we learn about publicity over protein in America? 主干是 What do we learn about X, 介词短语 over protein 是 publicity 的范围限定, in America 限定地域, 无陷阱。

【定位】 Many of us living in the most developed countries are buying into a myth of protein deficiency created by food companies and self-identified health experts.

我们这些生活在大多数发达国家的人, 正在接受一个由食品公司和自封的健康专家制造出来的"蛋白质缺乏"神话。

【选项】 A) ✓ 正确

buying into a myth of protein deficiency created by food companies and self-identified health experts

↔ It has helped to create the myth of protein deficiency.

contrary to all the publicity that everyone needs more protein ↔

the myth of protein deficiency

预判说"宣传促成了蛋白缺乏的迷思", helped to create the myth of protein deficiency 一字不差地落到这个语义上, 是定位句的直接同义替换。

B) 与原文相反

原文用 buying into a myth 表明宣传是在"骗"美国人, 并非"帮"他们; 选项 helped Americans in search of protein-rich diets 把负面后果包装成正面服务, 与原作者态度相反。

C) 无中生有

原文从未说 publicity "raised health concerns"——P6 的健康风险讲的是高蛋白饮食本身, 而非舆论造成的恐慌; 选项 raised a lot of health concerns among the public 在文中无落点。

D) 偷换概念

原文说迷思是 created by food companies and self-identified health experts, 主语是"食品公司和自封专家"在制造迷思; 选项 funded by food companies and health experts 把 created 偷换成 funded (资助), 且把 publicity 当受资助对象, 主体与动作都被改写。

52. Why have physicians in the U.S. never actually examined a patient with protein deficiency?

- A) Americans can purchase many kinds of protein-rich foods everywhere.
- B) Americans can absorb the number of calories recommended by food experts.
- C) Americans can get sufficient protein just by eating adequate foods daily.
- D) Americans can rely on food supplements to prevent protein deficiency.

为什么美国医生从未真正诊治过蛋白质缺乏症患者?

- A) 美国人可以在各处购买到多种富含蛋白质的食品。
- B) 美国人能够摄入食品专家推荐的卡路里量。
- C) 美国人只需每天摄入足够的食物就能获得充足的蛋白质。
- D) 美国人可以依靠食品补充剂来预防蛋白质缺乏。

【答案】 C (细节题)

【判型】 Why have physicians in the U.S. never actually examined a patient with protein deficiency? 用 Why 直问原因, 要求按原文给出的解释作答, 不需要自行推断。

【拆句】 现在完成时 have...never actually examined, never 是关键否定词, actually 加强语气, 提示原文给出的解释是"压根没机会见到"层面的原因; 理解时把 never examined 当作"从未见过"即可。

【定位】 Physicians in the U.S. have never actually examined a patient with protein deficiency because simply by eating an adequate number of daily calories we are also most likely getting enough protein.

美国医生从未真正诊治过蛋白缺乏的病人，因为只要每天摄入足够的卡路里，我们也就极可能获得了足够的蛋白质。

【选项】 A) **答非所问**

原文给出的原因是"日常热量摄入足够蛋白也就够了"，与"能否买到"无关；选项 purchase many kinds of protein-rich foods everywhere 谈购买便利性，是另一回事。

B) **偷换概念**

原文说的是 an adequate number of daily calories "日常足量的卡路里"，选项 absorb the number of calories recommended by food experts 偷换为"食品专家推荐的卡路里数"——多了"food experts recommended"这一未出现的限定，且 absorb 与 eating 含义偏移。

C) **✓ 正确**

simply by eating an adequate number of daily calories we are also most likely getting enough protein

↔ **Americans can get sufficient protein just by eating adequate foods daily.**

预判说"靠正常饮食的热量就够蛋白"，get sufficient protein just by eating adequate foods daily 几乎逐字对应，是 because 句的同义替换。

D) **与原文相反**

原文的因果是"正常饮食就够蛋白，所以不必靠补剂"；选项 rely on food supplements to prevent protein deficiency 反过来说"靠补剂预防缺乏"，正是全文批判的对象。

53. What should people take into consideration in deciding on the most preferable protein intake?

- A) How healthy they are and what food they eat.
- B) How old they are and what activities they do.
- C) How much protein they consume and what their body weight is.
- D) How serious their protein deficiency is and what remedies they use.

人们在决定最理想的蛋白质摄入量时应考虑什么？

- A) 他们有多健康以及他们吃什么食物。
- B) 他们的年龄以及他们从事什么活动。
- C) 他们摄入多少蛋白质以及他们的体重是多少。
- D) 他们的蛋白质缺乏有多严重以及他们使用什么补救措施。

【答案】 B (细节题)

【判型】 What should people take into consideration in deciding on the most preferable protein intake? 在问决策依据，原文必会以并列形式给出依据项，照搬即可。

【拆句】 in deciding on... 是 in doing 结构作状语，表"在做某事的时候"；主干是 What should people take into consideration，把状语剥掉，问句就回归"应考虑什么"，简单。

【定位】 Americans currently consume almost twice the National Academy of Medicine's recommended daily intake of protein although the most desirable protein intake may vary depending on age and activity level.

尽管最理想的蛋白摄入量可能因年龄和活动量不同而有所差异，美国人现在的蛋白摄入仍接近美国医学科学院推荐摄入量的两倍。

【选项】 A) **无中生有**

原文只列了 age and activity level，并未把"现在健康程度"或"吃什么食物"列入考虑因素；选项 How healthy they are and what food they eat 是凭常识自造的因素。

B) **✓ 正确**

depending on age and activity level ↔ **How old they are and what activities they do.**

预判的"年龄+活动量"两项，与 How old they are and what activities they do 一一对齐，是最直接的同义替换。

C) **偷换概念**

原文要讨论的是"理想蛋白摄入量"本身，选项 How much protein they consume and what their body weight is 反过来把"已经摄入多少蛋白"和"体重"作为考量因素，循环定义且无文本依据；P6 提到 140-pound 只是举例上限，并非"决定理想摄入量的因素"。

D) **与原文相反**

选项 How serious their protein deficiency is and what remedies they use 默认存在"protein deficiency"，但原文 P4 明确说美国医生从未见过蛋白缺乏患者，根本不存在这样的前提。

54. What foods have been largely out of favor for more than a century?

- A) Sugar-free snacks.
- B) Protein-rich foods.
- C) Both red and white meats.
- D) Sugary and fatty foods.

哪些食物在一个多世纪以来基本上不受欢迎？

A) 无糖零食。 B) 富含蛋白质的食物。 C) 红肉和白肉。 D) 含糖和高脂肪食物。

【答案】 D (细节题)

【判型】 What foods have been largely out of favor for more than a century? 是事实型问句，答案就在原文某句的事实陈述里。

【拆句】 现在完成时 have been largely out of favor 表过去到现在的持续状态；largely 是程度副词，表"在很大程度上"，提醒不要选"完全/彻底"等绝对化误读。

【定位】 While fats and sugar have taken the beating in turns since over a century ago, protein has managed to remain our red-hot favorite.

一个多世纪以来，脂肪和糖轮流挨批，而蛋白质却始终是我们的红人。

【选项】 A) 与原文相反

原文 dietary spotlight firmly fixed on low-calorie, low-fat, sugar-free snack foods 说"无糖零食"是 1970-90 年代受追捧的对象，不是被嫌弃的对象；选项 Sugar-free snacks 把追捧对象当成 out of favor，颠倒立场。

B) 与原文相反

原文 protein has managed to remain our red-hot favorite 明说蛋白质始终是 favorite (红人)，选项 Protein-rich foods 反过来说它失宠，180 度反向。

C) 无中生有

原文 P7-P9 整段都在讲脂肪、糖和蛋白质这几类宏量营养素，从未提到"红肉/白肉"被批的话题；选项 Both red and white meats 是凭健康常识填空。

D) ✓ 正确

fats and sugar ↔ **Sugary and fatty foods.**

taken the beating in turns since over a century ago ↔

largely out of favor for more than a century

预判"脂肪和糖被批了一百多年"，Sugary and fatty foods 对齐对象，题干本身对齐时间与态度，三要素全合。

55. What does the author imply people in developed countries should do to keep healthy?

A) Enjoy natural food.

B) Eat vegetarian diets.

C) Consume enough protein daily.

D) Replace meals with protein bars.

作者暗示发达国家的人们应该做什么来保持健康？

A) 享用天然食物。 B) 吃素食。 C) 每天摄入足够的蛋白质。 D) 用蛋白质棒代替正餐。

【答案】 A (推断题)

【判型】 What does the author imply people in developed countries should do to keep healthy? 题干直接用 imply，是推断题的标准句式。

【拆句】 句式较长但分层清晰：主干 What does the author imply X should do，宾语从句的主语是 people in developed countries，目的状语 to keep healthy；抓住"作者+暗示+发达国家民众+保持健康"四要素即可。

【选项】 A) ✓ 正确

rich sources of antioxidants(抗氧化剂), vitamins and many other benefits of real food ↔

Enjoy natural food.

When we replace meals with a protein bar or drink, we also risk missing out on... ↔

Enjoy natural food.

预判作者推荐"回到真实食物", Enjoy natural food 正是这条推断的最贴文表达, 且不超过一步推。

B) 过度推断

原文只说不要靠补剂代餐、要享受真实食物的好处, 从未要求 vegetarian diets (素食); 从"少吃加工补剂"推不到"完全吃素", 跨度过大。

C) 与原文相反

全文一直在反驳"应该多吃蛋白"的舆论, Americans currently consume almost twice the National Academy of Medicine's recommended daily intake of protein 明示已经摄入过量; 选项 Consume enough protein daily 仍劝读者每天摄入足够蛋白, 与作者立场相反。

D) 与原文相反

尾段明确告诫 When we replace meals with a protein bar or drink, we also risk missing out on...——"代餐"被定性为风险行为; 选项 Replace meals with protein bars 反过来把它当成建议, 立场颠倒。

SENTENCE INSIGHTS • 句子精讲

13 句真题句逐层精讲

下列真题句各有独立的句子解析页——中文翻译、结构树逐层拆解、成分与时态、考点讲解与真题高频词。点击句子进入完整解析。

If so, you are likely among the millions of people in search of more protein-rich diets.

第1段, 第2句

"If" 引导的条件状语从句 + 主句是四六级和考研中的常见结构。主句使用 "be likely" 表示可能性判断, 介词短语 "in search of" 作后置定语修饰名词, 这些都是典型用法。但省略形式 "If so" 相对不那么常见, 整体典型性中等偏上。

But contrary to all the publicity that everyone needs more protein, most Americans get twice as much as they need.

第2段，第2句

覆盖状语（含介词短语和嵌套从句）、同位语从句、比较从句、承前省略的宾语等多种成分和结构，涉及同位语从句与定语从句的辨析、比较结构的识别、省略成分的补全等多个易错点。作为划分句子成分的练习句，训练价值较高。

Many of us living in the most developed countries are buying into a myth of protein deficiency created by food companies and self-identified health experts.

第3段，第1句

本句结构在四六级和考研真题中具有较高代表性：简单句主干 + 多层后置定语是阅读理解中的常见模式，特别是宾语带长修饰语的结构频繁出现在议论文和说明文中。掌握此类句式可大幅提升长句理解能力，迁移性强。

But are we really in need of more protein?

第4段，第1句

疑问句中的主系表结构和 "in need of" 固定搭配在四六级阅读中较为常见，疑问句倒装也是基础句式，具有一定代表性，但整体结构过于简单，不如复合句典型

Physicians in the U.S. have never actually examined a patient with protein deficiency because simply by eating an adequate number of daily calories we are also most likely getting enough protein.

第4段，第2句

主句加原因状语从句的结构是四六级和考研阅读中的高频句式，现在完成时表示 "从未" 的用法也很常见。从句中通过摄入某物获得某物的因果逻辑表达，以及 "by doing" 作方式状语的用法，都是典型的学术说明文句式，迁移价值较高。

In fact, Americans currently consume almost twice the National Academy of Medicine's recommended daily intake of protein although the most desirable protein intake may vary depending on age and activity level.

第5段，第1句

该句展示了四六级和考研阅读中常见的长宾语结构（多层定语叠加）和让步状语从句（although 引导），且主句插入副词和时间状语、从句使用情态动词和分词短语，句式典型，掌握后可大量迁移至类似长难句的分析。

For example, if you're a dedicated athlete you might need to consume higher quantities of protein.

第6段，第1句

条件状语从句搭配情态动词表达可能性，是英语中非常常见的句式，尤其在说明文、议论文中频繁出现。这种 "if + 条件从句，主句 + 情态动词" 的结构在四六级和考研阅读中具有较高的代表性，掌握后可迁移到大量类似句子。

While fats and sugar have taken the beating in turns since over a century ago, protein has managed to remain our red-hot favorite.

第7段，第1句

While 引导的时间对比状语从句 + 主句的结构是四六级和考研阅读中的高频句式，用于呈现对比或转折关系。现在完成时与 since 的搭配也是考试常见考点。主句中的 manage to do 结构和 remain 作系动词的用法都是典型的英语表达方式，学习后可以在大量真题和实际阅读中复用。

In the 1970s through the 1990s, protein products remained visible but moved back somewhat with the dietary spotlight firmly fixed on low-calorie, low-fat, sugar-free snack foods and beverages following the publication of studies linking sugar and saturated(饱和的) fat consumption to heart disease.

第8段，第1句

本句涵盖主语、并列谓语、表语、时间状语、程度状语、独立主格方式状语、现在分词作后置定语等多种成分，尤其独立主格和分词短语的层级归属是易错点，作为成分划分练习句训练价值较高。

Now most people living in high-income nations are consuming enough protein.

第10段，第1句

简单句配后置定语是考试中常见的基础句式，现在进行时表示当前趋势的用法在阅读和写作中频繁出现，具有较好的代表性和可迁移性。

When we replace meals with a protein bar or drink, we also risk missing out on the rich sources of antioxidants(抗氧化剂), vitamins and many other benefits of real food.

第10段，第2句

When 引导时间状语从句的句式在四六级和考研阅读中高频出现，主句包含动名词作宾语的结构也是常考点，具有较强的代表性和复用价值

What should people take into consideration in deciding on the most preferable protein intake?

第53题 题干

疑问句 + 情态动词 + 固定搭配 + 介词短语状语的组合在四六级和考研阅读中频繁出现，是典型的学术性疑问句式，掌握后可迁移到大量类似句型

Replace meals with protein bars.

第55题，D

涵盖谓语、宾语、方式状语三种核心成分，结构清晰，但成分种类较少，且无定语、补语、多重修饰等易错点，作为划成分练习的收益有限。

2024年12月·第3套英语四级汉译英（段落翻译）·客观介绍敦煌莫高窟数字展示中心 参考译文与解析

PASSAGE & TRANSLATION • 题和解析

汉译英真题、参考译文与逐句解析

本页整篇参考英译与逐句解析由懒笔记基于2024年12月·第3套 英语四级汉译英（段落翻译）原卷题干译审整理。与试卷排版同一卷面：Directions 与一整段中文原文连续排印——整段连排、无段落标记无题号，把它切成一句句翻译单元本身就是解题动作。卷面之后先给整篇参考英译定稿，再按自切句序逐句拆分：定英文主干、降级修饰成分、逐项落实语法点、句内定稿英译，答案直显。

真题卷第3套(2024-12) • 英语四级

Part IV

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

敦煌莫高窟 (Mogao Grottoes) 数字展示中心于2014年开放启用，是莫高窟保护利用工程的重要组成部分。展示中心采用数字技术和多媒体展示手段，使游客进入洞窟参观之前就能了解莫高窟的历史文化，鉴赏莫高窟的艺术经典。这将减少开放洞窟的数量，缩短游客在洞窟内的逗留时间，减轻参观对莫高窟造成的影响，以使这一世界文化遗产得到妥善保护、长久利用。

参考译文

整篇参考英译是复盘资产，考卷上只印中文原文——四六级 Part IV 翻译按整篇「表达通顺连贯、用词准确、语法正确」四档评分。

The Mogao Grottoes Digital Exhibition Center, which opened in 2014, is an important part of the project for the protection and utilization of the Mogao Grottoes. The center adopts digital technology and multimedia means, enabling visitors to learn about the history and culture of the Mogao Grottoes and appreciate its artistic classics before they enter the caves. This will reduce the number of open caves, shorten the time visitors stay inside, and lessen the impact of visits on the Mogao Grottoes, so that this World Cultural Heritage site can be properly protected and used over the long term.

【衔接】第1句到第2句：用 the center 承接避免重复全称

第1句已给出全称 The Mogao Grottoes Digital Exhibition Center，第2句再说展示中心时不必重复整串，改用 The center 承接即可，简洁又不歧义。

第2句到第3句：用 This 指代承接前句做法

第3句中文主语这将减少开放洞窟的数量的"这"，指代第2句"中心采用数字技术使游客提前了解"这一整套做法，英文用 This 开头承接，把两句的因果/递进关系自然带出，读者一看就知道"这"指什么。

逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

【主旨】客观介绍敦煌莫高窟数字展示中心

全篇是一段客观说明文，介绍一个文化设施的功能与作用：敦煌莫高窟 (Mogao Grottoes) 数字展示中心于2014年开放启用，是莫高窟保护利用工程的重要组成部分。语体属四级最常考的中国文化/文化遗产介绍类，全程客观陈述事实，不带主观情感，用词应平实、正式。

【时态】一般现在时

全篇主体在客观陈述展示中心当下的功能与作用——展示中心采用数字技术和多媒体展示手段描述的是它现在持续做的事，属普遍事实，故以一般现在时为主时态。只有"2014年开放启用"这一已完成的历史动作一般过去时，"这将减少……"表对未来的预期用 will，均属基调之外的合理偏离。

【译法】敦煌莫高窟

敦煌莫高窟 (Mogao Grottoes)——原文已给出约定俗成的官方译名 the Mogao Grottoes (也作 the Mogao Caves)，考生直接照用即可，全篇统一，不要自己另译成 Dunhuang Cave 之类。

数字展示中心

数字展示中心——定为 the Digital Exhibition Center，全篇反复出现，统一用此译法；下文再次提到"展示中心"时可用 the center 承接，但首次给出全称。

世界文化遗产

这一世界文化遗产——固定译法 World Cultural Heritage (site)，此处指莫高窟本身，译作 this World Cultural Heritage site，前后只用这一种说法。

1. 敦煌莫高窟 (Mogao Grottoes) 数字展示中心于2014年开放启用，是莫高窟保护利用工程的重要组成部分。

【主干】中心于2014年开放、是工程组成部分（主语策略：原句主语）

中文主语明确就是敦煌莫高窟 (Mogao Grottoes) 数字展示中心。这句其实有两层意思："开放启用"和"是……组成部分"。挑"是……重要组成部分"作主干（主系表：The Digital Exhibition Center is an important part of...），把"于2014年开放启用"降级处理；也可反过来。主语英文定为 The Mogao Grottoes Digital Exhibition Center。

【降级】开放启用降级为状语从句

把于2014年开放启用降级成时间/插入信息，有两种地道办法：① 用同位语或定语从句——The Center, which opened in 2014, is an important part...；② 拆成两个并列分句但用从属关系而非纯 and。推荐用 which 引导的非限制性定语从句，既交代了开放时间，又让"是……组成部分"稳稳作主干，避免写成 The Center opened in 2014 and is an important part 这种松散平接。

【语法】时态

"开放启用"是2014年已完成的动作→用一般过去时 opened in 2014; 主句"是.....组成部分"是延续至今的事实→用一般现在时 is。一句之内两个时态各有所指, 不矛盾。

冠词

展示中心是特指的唯一机构→前面加定冠词 the; an important part 中"重要组成部分"是泛指其中一个部分→用不定冠词 an (part 以元音音素开头前面用 a 不用 an? part 以辅音 /p/ 开头, 故是 an important 因 important 以元音开头)。

单复数

Grottoes 本身是"洞窟"的复数 (grotto→grottoes), 是约定俗成的专名一部分, 照抄即可, 不要误写成单数 grotto。

【译文】 The Mogao Grottoes Digital Exhibition Center, which opened in 2014, is an important part of the project for the protection and utilization of the Mogao Grottoes.

2. 展示中心采用数字技术和多媒体展示手段, 使游客进入洞窟参观之前就能了解莫高窟的历史文化, 鉴赏莫高窟的艺术经典。

【主干】 中心采用技术, 使游客能了解、鉴赏 (主语策略: 原句主语)

中文主语是展示中心。主干动词是"采用"——The center adopts digital technology and multimedia means。后面"使游客.....了解.....鉴赏....."是"采用"带来的结果, 用 enable/allow 句型挂接: ...adopts..., enabling visitors to learn... and appreciate....

【降级】 使...降级为enable句型与现在分词

"使游客进入洞窟参观之前就能了解莫高窟的历史文化, 鉴赏莫高窟的艺术经典"整体是"采用"的结果, 用现在分词 enabling 引导作结果状语: enabling visitors to learn about the history and culture and appreciate the artistic classics。"进入洞窟参观之前"是时间, 用 before 状语从句降级: before they enter the caves。三个动作(了解、鉴赏)并列时, 由 enable sb. to do 统辖: to learn... and appreciate..., 共用一个 to。

【语法】时态

回指全篇基调一般现在时: 中心"采用"技术是现在持续的常态→adopts; 时间状语从句 before they enter 也用现在时。

主谓一致

主语 The center 是第三人称单数→谓语用 adopts, 别漏掉词尾 s。

介词搭配

"了解某事物"用 learn about/understand; "鉴赏艺术"用 appreciate (及物, 直接跟宾语, 不加介词)。“进入洞窟”是 enter the caves, enter 及物不加 into。

单复数

"游客"泛指一类人→用复数 visitors, 相应代词用 they; "洞窟"不止一个→caves 复数; "艺术经典"是多件作品→the artistic classics 复数。

【译文】 The center adopts digital technology and multimedia means, enabling visitors to learn about the history and culture of the Mogao Grottoes and appreciate its artistic classics before they enter the caves.

3. 这将减少开放洞窟的数量, 缩短游客在洞窟内的逗留时间, 减轻参观对莫高窟造成的影响, 以使这一世界文化遗产得到妥善保护、长久利用。

【主干】 这将减少数量、缩短时间、减轻影响 (主语策略: 原句主语)

中文主语是"这" (指代上句展示中心的做法), 译为 This/This approach。主干是"这将减少....."——This will reduce..., 谓语"减少""缩短""减轻"是三个并列动作, 共用主语 This will, 用 reduce..., shorten..., and lessen... 三个动词并列。"以使....."是目的, 单独降级。

【降级】 以使...降级为so as to目的状语

前三项"减少开放洞窟的数量, 缩短游客在洞窟内的逗留时间, 减轻参观对莫高窟造成的影响"作并列谓语。末尾以使这一世界文化遗产得到妥善保护、长久利用是目的, 降级为目的状语: so that this World Cultural Heritage site can be properly protected and used for a long time, 或 so as to ensure...。"参观造成的影响"中"参观造成的"作定语: the impact of visits on the Mogao Grottoes。

【语法】 时态

"这将....."明确表对未来的预期/效果→用 will + 动词原形 reduce/shorten/lessen, 这是基调一般现在时之外的合理偏离。

语态

"遗产得到妥善保护、长久利用"——遗产是"被保护、被利用"的承受者, 中文的"得到"提示这里要用英文被动: can be properly protected and used。这是汉译英最易漏的点: 中文不显的被动, 英文要显化。

单复数

"开放洞窟的数量"→the number of open caves (caves 复数); "逗留时间"是不可数→the time visitors stay, 不加复数。

介词搭配

"参观对莫高窟造成的影响"用 the impact of... on... (impact on 固定搭配); "减少.....的数量"用 reduce the number of...。

【译文】 This will reduce the number of open caves, shorten the time visitors stay inside, and lessen the impact of visits on the Mogao Grottoes, so that this World Cultural Heritage site can be properly protected and used over the long term.
