Reading Comprehension

(40 minutes)

Section A

Directions: *In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

It's well known that physical exercise is beneficial not just to physical health but also to mental health. Yet whereas most countries have 26, evidence-backed guidelines on the type and intensity of exercise 27 for various physical health benefits, such guidelines do not yet exist for exercise and mood. This is 28 due to a lack of necessary evidence. However, a new systematic review brings us usefully up to-date on the current findings in this area.

Before 29 into some of the key take-aways, an important 30 made in the review is between aerobic exercise and anaerobic. The former 31 such things as walking, jogging and cycling and means exercising in such a way that your body is able to use oxygen to burn fat for energy. In contrast, anaerobic exercise—such as lifting heavy weights—is of such 32 intensity that your body does not have time to use oxygen to create energy and so instead it breaks down glucose(葡萄糖) in your blood or muscles.

Beginning first with the influence of exercise intensity on the mood benefits of aerobic exercise, the researchers, led by John Chan at Shenzhen University, found 33 results from 19 relevant studies. Some favoured higher intensity, others low, while seven studies found that intensity made no 34 to mood benefits.

In relation to the intensity of anaerobic exercise, however, the results were far clearer—the optimum(最佳选择) for improving mood is 35 intensity, perhaps because low intensity is too dull while high intensity is too unpleasant.

Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Why Do Americans Work So Much?

A) How will we all keep busy when we only have to work 15 hours a week? That was the question that worried the British economist John Maynard Keynes when he wrote his short essay "Economic Possibilities for Our Grandchildren" in 1930. Over the next century, he predicted, the economy would become so productive that people would barely need to work at all. For a while, it looked like Keynes was right. In 1930 the average working week was 47 hours in the United States. But by 1970, the number of hours Americans worked on average had fallen to slightly less than 39.

- B) But then something changed. Instead of continuing to decline, the duration of the working week remained stable. It has stayed at just below 40 hours for nearly five decades. So what happened? Why are people working just as much today as in 1970?
- C) There would be no mystery in this if Keynes had been wrong about the power of technology to increase the economy's productivity, which he thought would lead to a standard of living "between four and eight times as high as it is today." But Keynes got that right: Technology has made the economy massively more productive. According to Benjamin M. Friedman, an economist at Harvard, the U.S. economy is right on track to reach Keynes's eight-fold(八倍) multiple by 2029. That is a century after the last data Keynes would have had access to.
- D) In a new paper, Friedman tries to figure out why that increased productivity has not translated into increased leisure time. Perhaps people just never feel materially satisfied, always wanting more money to buy the next new thing. This is a theory that appeals to many economists. "This argument is, at best, far from sufficient," he writes. If that were the case, why did the duration of the working week decline in the first place?
- E) Another theory Friedman considers is that, in an era of ever fewer settings that provide effective opportunities for personal connections and relationships, people may place more value on the socializing that happens at work. There is support for this theory. Many people today consider colleagues as friends. But Friedman argues that the evidence for this theory is far from conclusive. Many workers report that they would like to spend more time with family, rather than at work. Furthermore, this theory cannot explain the change in trend in the U.S. working week in the 1970s.
- F) A third possibility proves more convincing for Friedman. That is: American inequality means that the gains of increasing productivity are not widely shared by everyone. In other words, most Americans are too poor to work less. Unlike the other two explanations Friedman considers, this one fits chronologically(按年代). Inequality declined in America during the period following World War II, along with the duration of the working week. But since the early 1970s it has risen dramatically.
- G) Keynes's prediction of a shorter working week rests on the idea that the standard of living would continue rising for everyone. But Friedman says that this is not what has happened. Although Keynes's eight-fold figure holds up for the economy as a whole, it is not at all the case for the median(中位数的) American worker. For them, output by 2029 is likely to be around 3.5 times what it was when Keynes was writing. This is a bit below his four-to eight-fold predicted range.
- H) This can be seen in the median worker's income over this time period, complete with a shift in 1973 that fits in precisely with when the working week stopped shrinking. According to Friedman, between 1947 and 1973 the average hourly wage for normal workers (those who were not in management roles) in private industries other than agriculture nearly doubled in terms of what their money could buy. But by 2013 the average hourly wage for ordinary workers had fallen 5 percent from the 1973 level in terms of actual purchasing power. Thus, though American incomes may have gone up since 1973, the amount that American workers can actually buy with their money has gone down. For most Americans, then, the magic of increasing productivity stopped working around 1973. Thus, they had to keep working just as much in order to maintain their standard of living.
- I) What Keynes predicted was a very optimistic version of what economists call technological unemployment. This is the idea that less labor will be necessary because machines can do so much. In Keynes's vision, the resulting unemployment would be distributed more or less evenly across society in the form of increased leisure. But Friedman says that, for Americans, reality is much darker. Americans now have a labor market in

which millions of people—those with fewer skills and less education—are seeking whatever poorly paid work they can get. This is confirmed by a recent poll that found that, for half of hourly workers, their top concern is not that they work too much but that they work too little. This is most likely not because they like their jobs so much. Rather, we can assume it is because they need the money.

J) This explanation leaves an important question. If the very rich—the workers who have reaped above-average gains from the increased productivity since Keynes's time—can afford to work less, why do they continue to work so much? (Indeed, research has shown that the highest earners in America tend to work the most.) Friedman believes that for many top earners, work is a labor of love. They are doing work they care about and are interested in, and doing more of it is not necessarily a burden. For them, it may even be a pleasure. These top earners derive meaning from their jobs and work is an important part of how they think of themselves. And, of course, they are compensated for it at a level that makes it worth their while.

K) Friedman concludes that the prosperity(繁荣) Keynes predicted is here. After all, the economy as a whole has grown even more brilliantly than he expected. But for most Americans, that prosperity is nowhere to be seen. And, as a result, neither are those shorter working weeks.

36. Some people view socializing at the workplace as a chance to develop personal relationships.

37. As ordinary American workers' average hourly pay had decreased despite increasing productivity, they had to work just as many hours as before to keep their living standards.

38. American workers' average weekly working time has not changed for nearly half a century.

39. Friedman believes inequality in the U.S. largely explains why increasing productivity has not resulted in reduced working hours.

40. Many economists assume people's thirst for material things has prevented them from enjoying more leisure time.

41. An economist's prediction about a shorter average working week seemed to be correct for a time in the 20th century.

42. In the U.S. labor market, the primary concern of people with less schooling and fewer skills is to secure any employment even if it is low-paid.

43. Keynes was right in predicting that technology would make the economy much more productive.

44. Many of the highest earners have a keen interest in and love for what they are doing.

45. According to Keynes, there would be a shorter working week with everyone's standard of living continuing to rise.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

Lao Zi once said, "Care about what other people think and you will always be their prisoner."

People-pleasing, or seeking self-worth through others' approval, is unproductive and an exhausting way to go through life. Why do we allow what others think of us to have so much power over how we feel about ourselves? If it's true that you can't please all people all of the time, wouldn't it make sense to stop trying?

Unfortunately, sense often isn't driving our behavior. For social beings who desire love and belonging, wanting to be liked, and caring about the effect we have on others, is healthy and allows us to make connections. However, where we get into trouble is when our self-worth is dependent upon whether we win someone's approval or not.

This need to be liked can be traced back to when we were children and were completely dependent on others to take care of us: Small children are not just learning how to walk and communicate, they are also trying to learn how the world works. We learn about who we are and what is expected of us based on interactions with others, so, to a four-year-old, if Mommy or Daddy doesn't like him or her, there is the danger that they will abandon them. We need to understand that when we desperately want someone to approve of us, it's being driven by that little kid part of us that is still terrified of abandonment.

As you become more capable of providing yourself with the approval you seek, your need for external validation will start to vanish, leaving you stronger, more confident, and yes, happier in your life. Imagine how much time we lose each moment we restrain our authentic selves in an effort to be liked.

If we base our worth on the opinions of others, we cheat ourselves of the power to shape our experiences and embrace life not only for others but also for ourselves, because ultimately, there is no difference. So embrace the cliché(老话) and love yourself as it's highly doubtful that you'll regret it.

46. What can we conclude from Lao Zi's quotation?

- A) We should see through other people's attempt to make a prisoner of us.
- B) We can never really please other people even if we try as hard as we can.
- C) We can never be truly free if taking to heart others' opinion of us.
- D) We should care about other people's view as much as they care about our own.

47. What will happen if we base our self-worth on other people's approval?

- A) Our desire to be loved will be fulfilled.
- B) Our life will be unfruitful and exhausting.
- C) Our identity as social beings will be affected.
- D) Our sense of self will be sharpened and enhanced.

48. What may account for our need to be liked or approved of?

- A) Our desperate longing for interactions with others.
- B) Our understanding of the workings of the world.
- C) Our knowledge about the pain of abandonment.
- D) Our early childhood fear of being deserted.

49. What can we do when we become better able to provide ourselves with the desired approval?

- A) Enjoy a happier life.
- B) Exercise self-restraint.
- C) Receive more external validation.
- D) Strengthen our power of imagination.

50. What does the author advise us to do in the last paragraph?

- A) Embrace life for ourselves and for others.
- B) Base our worth on others' opinions.
- C) See our experiences as assets.
- D) Love ourselves as we are.

Passage Two

Questions 51 to 55 are based on the following passage.

Some people have said aging is more a slide into forgetfulness than a journey towards wisdom. However, a growing body of research suggests that late-in-life learning is possible. In reality, education does an aging brain good.

Throughout life, people's brains constantly renovate themselves. In the late 1960s, British brain scientist Geoffrey Raisman spied growth in damaged brain regions of rats through an electron microscope; their brains were forging new connections. This meant brains may change every time a person learns something new.

Of course, that doesn't mean the brain isn't affected by the effects of time. Just as height usually declines over the years, so does brain volume: Humans lose about 4 percent every decade starting in their 40s. But that reduction doesn't necessarily make people think slower; as long as we are alive and functioning, we can alter our brains with new information and experiences.

In fact, scientists now suspect accumulating novel experiences, facts, and skills can keep people's minds more flexible. New pathways can strengthen our ever-changing mental structure, even as the brain shrinks.

Conventional fixes like word puzzles and brain-training apps can contribute to mental durability. Even something as simple as taking a different route to the grocery store or going somewhere new on vacation can keep the brain healthy.

A desire for new life challenges can further boost brainpower. Research about aging adults who take on new enterprises shows improved function and memory as well as a reduced risk of mental disease. Openness—a characteristic defined by curiosity and a desire for knowledge—may also help folks pass brain tests. Some folks are born with this take-in-the-world attitude, but those who aren't as genetically gifted aren't necessarily out of luck. While genes can encourage an interest in doing new things, a 2012 study in the journal *Psychology and Aging* found completing reasoning tasks like puzzles and number games can enhance that desire for novel experiences, which can, in turn, refresh the brain. That's why brain scientist Richard Kennedy says "It's not that old dogs can't learn new tricks. It's that maybe old dogs don't realize why they should."

51. What do some people think of aging adults?
- A) Their wisdom grows as time goes by.
 - B) Their memory gradually deteriorates.
 - C) They can benefit from late-in-life learning.
 - D) They are likely to have mental health issues.
52. What can we conclude from Geoffrey Raisman's finding?
- A) Brain damage seriously hinders one's learning.
 - B) Brain power weakens slower than we imagine.
 - C) Brains can refresh and improve with learning.
 - D) Brains forge connections under new conditions.
53. What is one thing that helps maintain the health of our brain even as it shrinks?
- A) Doing daily routines by conventional means.
 - B) Avoiding worrying about our mental durability.
 - C) Imitating old dogs' way of learning new tricks.
 - D) Approaching everyday tasks in novel ways.
54. What does the author say can contribute to the improvement of brain function?
- A) Being curious and desiring knowledge.
 - B) Being eager to pass brain tests at an old age.
 - C) Rising to life's challenges and avoiding risks.
 - D) Boosting immunity to serious mental diseases.
55. What is the finding of the 2012 study in the journal *Psychology and Aging*?
- A) Wishing to solve puzzles enhances one's reasoning power.
 - B) Playing number games unexpectedly stimulates one's memory.
 - C) Desiring new experiences can help to renovate the brain.
 - D) Learning new tricks should not be confined to old dogs only.

Part I

Directions: Suppose your university is seeking students' opinions on whether university libraries should be open to the public. You are now to write an essay to express your view. You will have 30 minutes for the task. You should write at least 120 words but no more than 180 words.

【参考范文·158词】 写作无唯一标准答案，以下为达标示范

Whether university libraries should open their doors to the public has sparked heated debate in recent years. In my view, these libraries should indeed be accessible to ordinary citizens, provided that reasonable management measures are in place.

Two reasons support my position. Firstly, opening university libraries promotes the sharing of knowledge. Many valuable books and academic resources sit idle on the shelves, and allowing the public to use them turns campus libraries into vibrant centers of lifelong learning. Moreover, such openness enriches the cultural life of the whole community. For instance, a retired worker or a curious teenager could freely explore fields they never studied at school, which narrows the gap between universities and society.

Admittedly, outside visitors may strain limited seats and disturb students. Yet this problem can be eased by setting fixed visiting hours and registration rules. Therefore, I firmly believe university libraries should welcome the public, so long as students' study needs are fully protected.

近年来，大学图书馆是否应向公众开放，引发了热烈讨论。在我看来，这些图书馆确实应当向普通市民开放，前提是要有合理的管理措施。

有两条理由支撑我的立场。首先，开放大学图书馆能促进知识共享。许多有价值的图书和学术资源在书架上闲置，让公众使用它们，能把校园图书馆变成充满活力的终身学习场所。此外，这样的开放能丰富整个社区的文化生活。例如，一位退休工人或一个好奇的少年，可以自由探索他们从未在学校学过的领域，从而缩小大学与社会之间的距离。

诚然，外来访客可能会挤占有限的座位、打扰在校生。但这一问题可以通过设定固定的开放时段和登记制度来缓解。因此，我坚定地认为，只要在校生的学习需求得到充分保障，大学图书馆就应当欢迎公众进入。

【第1段】引争议+表态一步到位。本段落落实「开门见山亮立场」：第一句 Whether ... has sparked heated debate 抛出争议话题，第二句 In my view ... provided that ... 立即表态并加上「合理管理」前提，既兑现 express your view 的选边要求，又为尾段让步埋线。

【第2段】两理由各按点理例收。本段兑现「点—理—例—收」：Firstly 领出知识共享这一分论点，用「藏书闲置→盘活」给出后果；Moreover 递进到公共文化，用「退休工人/好奇少年」这个具体例子落地，最后 which narrows the gap 一句把话题收回中心，避免空喊口号。

【第3段】先让步再驳回收尾。本段落落实「让步后重申」：Admittedly 承认挤占座位的顾虑，Yet 转折给出限时与登记的解决办法，Therefore 重申立场并用 so long as 补上折中条件，呼应首段的「有条件开放」。

ANALYSIS • 审题与立意

这道题到底要写什么、立意是什么

动笔前先钉死本题的核心写作任务与读者语域，再定中心立意与要展开的要点——这些是本题特有的内容判断，不是通用套路。

核心任务

选边论说图书馆是否对外开放

本题的核心任务：就 whether university libraries should be open to the public 这一争议，write an essay to express your view。关键在 express your view——不是罗列「有人赞成有人反对」的中立分析，而是自己选定一方并论证。所以第一句就要亮出「我支持」或「我反对」，全篇围绕这一立场展开。

读者 • 语域

面向阅卷人的正式议论文

题目要求 write an essay，是议论文而非书信，因此没有具体收信人，也不需要称呼语和落款。虽然背景说学校在 seeking students' opinions，但真正的读者是阅卷老师，语域取客观、正式的书面议论口吻：多用第三人称与表态句式，少用「I think」堆叠和口语化表达。

中心立意

赞成有条件对外开放

本篇立场：大学图书馆应当向公众开放，但要配上合理的管理措施。这样既正面回应了 express your view 的选边要求，又用「有条件」给后文的让步段留了出口，避免被反方的「挤占资源」轻易驳倒。

要展开的要点

1. 促进知识共享

使用者层面的理由：许多藏书和学术资源长期闲置，向公众开放能盘活它们，把校园图书馆变成全民终身学习的场所。

2. 提升公共文化

社会层面的理由：普通市民能免费接触到平时接触不到的知识领域，缩小大学与社会之间的鸿沟，丰富整个社区的文化生活。

3. 配套管理化解隐忧

预留的让步点：承认外来人流可能挤占座位、打扰在校生，但可通过限定开放时段、登记预约等措施化解，从而守住「有条件开放」的立场。

STRUCTURE • 谋篇与逐段

怎么分段、每段写什么、能套哪些句架

按写作家族给出现成的段落框架（每段承担什么功能），并为每段配可直接套用的 功能句架（留出填本题内容的空位）。段序与上方参考范文——对应。

第 1 段 引争议+亮立场

首段：先点出「图书馆是否该对公众开放」这一争议话题，随即用一句话亮明本篇立场——支持有条件开放。

第 2 段 分论点论证

主体段：给出两条支撑理由（促进知识共享、提升公共文化），每条配一句展开或具体后果，用连接词串成论证链。

第 3 段 让步+重申

尾段：先承认反方顾虑（挤占资源），再转折提出管理办法化解，最后重申立场收尾。

第 1 段 抛争议并表态支持

落到本题：先点出 whether university libraries should be open to the public 是当下热议话题，再明确表态——支持开放，但附上「合理管理」这一前提，为第三段的让步埋下伏笔。

引入争议 · Whether ____ should ____ has sparked heated debate in recent years.

表明立场 · In my view, ____ should ____, provided that ____.

第 2 段 两条理由各配后果

本段落两点：其一，开放能盘活闲置藏书、让图书馆成为终身学习场所（知识共享）；其二，普通市民能免费探索陌生领域、缩小大学与社会的距离（公共文化）。每条都跟一个具体的人或后果，而不是停在「开放很重要」这种空话上。

分论点主题句 · Firstly, opening ____ promotes ____.

举例落地 · For instance, ____ could ____, which ____.

递进连接 · Moreover, such ____ enriches/strengthens ____.

第 3 段 认顾虑再驳回重申

本段承认外来人流可能挤占座位、打扰在校生，随即用「限定时段+登记预约」把顾虑化解，最后重申：图书馆应向公众开放，只要在校生的学习需求得到保障。

让步转折 · Admittedly, ____ may _____. Yet this problem can be eased by ____.

重申收尾 · Therefore, I firmly believe ____ should ____, so long as ____.

本题在四个评分维度怎样算达标、容易在哪丢分

按阅卷四维（内容切题 / 结构连贯 / 语言准确 / 字数格式）给出本题达标要点，并把最容易踩的低分写法摆出来 + 给改法 —— 这是写作版的「狠拆诱人错项」。

内容切题

必须选边不做中立

本题最易在切题上翻车：题目要 express your view，若写成「有人赞成、有人反对」的中立分析就丢分。达标关键是首句就选定一方，全篇不动摇。

结构连贯

三段各司其职

本题达标要点：三段分别是亮观点、给理由、让步重申，段内用连接词分层。最易失分处是主体段几条理由并排堆放、缺过渡，读起来像散点而非论证链。

语言准确

议论口吻少口语

本题达标要点是保持客观议论口吻，用 should / provided that 等结构表态；易失分处是把「让公众进来」写成 let people come in 这类过口语的直译，显得不够正式。

字数格式

essay 不加称呼落款

本题要求 write an essay，是议论文，切勿加「Dear...」称呼或署名落款——那是应用文格式，用错即偏离体裁。字数须落在 at least 120 words but no more than 180 words 的区间内，写前心里有数。

典型低分写法 • 反面示例与改法

中立不表态

反面示例：「Some people think libraries should open to the public, while others disagree. Both sides have their own reasons.」——通篇中立、没选边，丢掉 express your view。改成：「In my view, university libraries should be open to the public.」先亮立场，再展开理由。

空泛喊口号

反面示例：「Opening libraries is very important and good for everyone.」——空洞无据。改成：「Opening libraries benefits ordinary citizens, for a retired worker could borrow academic books he has no other access to.」用具体的人和后果把理由撑起来。

误当应用文写信

反面示例：开头写「Dear Sir, I am writing to express my view...」，结尾加「Yours sincerely, Li Ming」。本题要写 essay，应删去这些书信元素，改为直接以「Whether university libraries should open to the public has sparked heated debate.」开篇。

Part II

Listening Comprehension

(25 minutes)

Section A

Directions: In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 1 and 2 are based on the news report you have just heard.

1 Six people had to move away from their home to another place after a fire broke out in a building on Main Street Saturday, officials said. Firefighters responded to the three-story building shortly after 1 p.m. for a reported structure fire, according to Norwalk Deputy Fire Chief Adam Markowitz.

官员称,周六Main Street一栋建筑发生火灾后,六人不得不从家中搬到另一个地方。据Norwalk消防副局长Adam Markowitz称,消防员在下午1点刚过就接到建筑物火灾报告后赶到了这栋三层建筑。

2 Markowitz said crews encountered heavy smoke coming from the second floor when they arrived. A team of about 25 firefighters then spent about 25 minutes extinguishing the flames. Officials described the structure as a mixed-use building that features commercial businesses on the first floor and residential on the second and third floors.

Markowitz说,消防人员到达时遇到从二楼冒出的浓烟。随后约25名消防员组成的队伍花了大约25分钟扑灭了火焰。官员将该建筑描述为一栋混合用途建筑,一楼为商业店铺,二楼和三楼为住宅。

3 Town records list four apartments in the building. Due to smoke and heat damage, the four apartments were declared uninhabitable, and the six residents had to move to another place, officials said. No

injuries were reported in connection with the fire. The Norwalk Fire Marshal is investigating the cause and origin of the fire.

城镇记录显示该建筑内有四套公寓。官员称,由于烟雾和高温破坏,这四套公寓被宣布不适宜居住,六名居民不得不搬到另一个地方。没有关于火灾造成人员伤亡的报告。Norwalk消防局长正在调查火灾的原因和起源。

1. A) Due to a fire alarm in their apartments.
B) Because of the smoke and heat damage.
C) Due to the water used to extinguish the flames.
D) Because of the collapse of the three-story building.

【题目】 Why did the six residents have to find another place to stay?

【翻译】 为什么六名居民不得不另寻住处?

- A) 由于他们公寓里的火警警报。 B) 因为烟雾和高温造成的损坏。
C) 由于用来灭火的水。 D) 因为这栋三层建筑的倒塌。

【答案】 B (细节题) Because of the smoke and heat damage.

【定位】 Due to smoke and heat damage, the four apartments were declared uninhabitable, and the six residents had to move to another place, officials said.

由于烟雾和高温造成的损坏,这四套公寓被判定为不适宜居住,六位居民因此不得不搬到别处,官方表示。

【信号】 因果信号 Due to 引出原因。 答案句以 Due to smoke and heat damage 开头, Due to 是明确的因果信号,紧接着就是结果 the six residents had to move to another place ——「原因 + 结果」同句出现,这一句就是答案句。

【替换】 Due to smoke and heat damage ↔ **Because of the smoke and heat damage**

Due to 与 Because of 同义替换

【排除】 A) 原词陷阱

A 说因 a fire alarm in their apartments (公寓里的火警铃)。录音确实通篇讲 fire (火灾)，但从没说居民因为「火警铃响」才搬走，搬离的真正原因是烟热损坏。它借你对 fire 的耳熟来骗选。

借用原文：a fire broke out in a building

C) 原词陷阱

C 说因 the water used to extinguish the flames (灭火用的水)。录音里确有 extinguishing the flames (扑灭火焰) 这个动作，但只讲了灭火过程，从没说「水渍」让公寓不能住。它盗用 extinguish the flames 制造熟悉感。

借用原文：extinguishing the flames

D) 原词陷阱

D 说因 the collapse of the three-story building (三层楼坍塌)。录音确有 the three-story building (三层楼) 这个词，但全文只字未提坍塌，反而说 No injuries were reported (无人受伤)。它盗用 three-story building，再编一个没发生的「坍塌」。

借用原文：the three-story building

-
2. A) Investigating the cause of the incident.
B) Helping search for the suspect of the crime.
C) Rescuing the businessmen trapped in the building.
D) Checking town records for the property developer.

【题目】 What does the news report say the Norwalk Fire Marshal is doing?

【翻译】 新闻报道称Norwalk消防局长正在做什么？

- A) 调查事件的原因。 B) 协助搜寻犯罪嫌疑人。 C) 营救被困在建筑物内的商人。
D) 查阅该房产开发商的城镇记录。

【答案】 A (细节题) Investigating the cause of the incident.

【定位】 The Norwalk Fire Marshal is investigating the cause and origin of the fire.

诺沃克消防局长正在调查这场火灾的起因和源头。

【信号】 主体名 Fire Marshal 后的动作。 录音末句直接出现题目要找的主体 The Norwalk Fire Marshal，紧跟其后的动词 is investigating the cause and origin of the fire 就是它正在做的事——主体名 + 进行时动作，这句即答案句。

【替换】 investigating the cause and origin of the fire ↔ **Investigating the cause of the incident**
the fire 概括为 the incident

【排除】 B) 未提及

B 说在 Helping search for the suspect of the crime (帮忙搜捕嫌犯)。录音通篇是火灾事故, 没有任何「嫌犯 / 犯罪」字眼, 消防局长做的是调查起因, 不是抓人。

C) 原词陷阱

C 说在 Rescuing the businessmen trapped in the building (营救被困商人)。录音确实提到一楼有 commercial businesses (商铺), 但明说 No injuries were reported (无人受伤), 根本没人被困需救。它借 businesses 谐音想出 businessmen 来诱选。

借用原文: commercial businesses

D) 张冠李戴

D 说在 Checking town records for the property developer (为开发商查市镇记录)。录音确有 Town records list four apartments (市镇记录列有四套公寓) 这一句, 但 town records 只是新闻引用的信息来源, 消防局长做的是调查起因, 没人「为开发商查记录」。

借用原文: Town records list four apartments in the building

Questions 3 and 4 are based on the news report you have just heard.

1 A new study has cast doubt on historic research suggesting that the season or month of someone's birth is associated with an increased risk of certain mental health conditions. The study looks at symptoms of anxiety and depression among more than 70,000 older adults in Europe.

一项新研究对历史研究提出了质疑, 这些历史研究认为某人的出生季节或月份与某些心理健康状况的风险增加有关。该研究调查了欧洲超过7万名老年人的焦虑和抑郁症状。

2 A number of past studies have found the link between season of birth and mental health diagnoses. Researchers have suggested that such links could arise from various things. These include nutrient intake, sun exposure, climate, and disease exposure varying across the course of the year. However, evidence has been mixed. More recent studies have suggested that factors such as social class or economic background have more to do with these diagnoses than month of birth.

过去的许多研究发现了出生季节与心理健康诊断之间的联系。研究人员认为, 这种联系可能源于各种因素。这些因素包括全年不同时期的营养摄入、阳光照射、气候和疾病暴露的变化。然而, 证据一直是混杂的。最近的研究表明, 社会阶层或经济背景等因素与这些诊断的关系比出生月份更大。

3 Overall, the new study found no significant relationship between participants' month of birth and symptoms of depression or anxiety. There was some variability in some countries. In Poland, depressive symptoms fluctuated a little depending on birth month. In the Czech Republic, the same was true of anxiety symptoms. But on the whole, there was no systematic pattern.

总体而言, 这项新研究发现参与者的出生月份与抑郁或焦虑症状之间没有显著关系。在一些国家存在一些变化。在波兰, 抑郁症状根据出生月份有轻微波动。在捷克共和国, 焦虑症状也是如此。但总的来说, 没有系统性模式。

3. A) It plays a less important role in one's health than nutrient intake.
B) It impacts people's health to a lesser degree than sun exposure.
C) It is associated with people's mental health conditions.
D) It is linked with older adults' symptoms of depression.

【题目】 What have a number of past studies found about season of birth?

【翻译】 过去的许多研究发现出生季节有什么影响？

- A) 它对健康的作用不如营养摄入重要。 B) 它对人们健康的影响程度低于阳光照射。
C) 它与人们的心理健康状况相关。 D) 它与老年人的抑郁症状相关。

【答案】 C (细节题) It is associated with people's mental health conditions.

【定位】 A number of past studies have found the link between season of birth and mental health diagnoses.

若干过往研究已发现出生季节与心理健康诊断之间存在关联。

【信号】 主语原样复现作信号。题干主语 a number of past studies 在录音第 2 段以 A number of past studies have found 几乎原样出现，这一「问谁就听谁」的主体复现就是定位信号：被问主体一出现，紧跟其后的 found the link... 即为答案句。

【替换】 the link between season of birth and mental health diagnoses ↔

associated with people's mental health conditions

link=associated、diagnoses≈conditions

【排除】 A) 原词陷阱

A 用了录音第 2 段确实念到的 nutrient intake 一词，但录音只是把它列为「关联可能的成因之一」，从没说出生季节「在健康中作用不及营养摄入」。A 把它编成一句子虚乌有的轻重比较，是听到原词就想选的陷阱。

借用原文：These include nutrient intake, sun exposure, climate, and disease exposure

B) 原词陷阱

B 借用录音里同样念到的 sun exposure，谎称出生季节「对健康的影响不及日晒」。录音把 sun exposure 与 nutrient intake 并列为可能成因，并未拿它和出生季节比影响大小，属偷换概念式的原词陷阱。

借用原文：These include nutrient intake, sun exposure, climate, and disease exposure

D) 张冠李戴

D 说关联的是 older adults' symptoms of depression。录音中「老年人」与「抑郁/焦虑症状」出现在介绍新研究样本 (more than 70,000 older adults) 与总结处，并非「过往研究就出生季节发现的关联对象」；过往研究发现的是更宽的 mental health diagnoses。

D 把答案的范围从「心理健康」窄化到「老年人的抑郁症状」，张冠李戴。

借用原文：symptoms of anxiety and depression among more than 70,000 older adults

4. A) It was indefinite.
B) It was systematic.
C) It was straightforward.
D) It was insignificant.

【题目】 What did the new study find about the relationship between participants' month of birth and symptoms of depression?

【翻译】 这项新研究发现参与者的出生月份与抑郁症状之间存在什么关系？

A) 关系不确定。 B) 关系系统性。 C) 关系直接明了。 D) 关系不显著。

【答案】 D (细节题) It was insignificant.

【定位】 Overall, the new study found no significant relationship between participants' month of birth and symptoms of depression or anxiety.

总体而言，这项新研究发现参与者的出生月份与抑郁或焦虑症状之间没有显著关联。

【信号】 总结词 Overall + 否定 no significant。段首的 Overall 是结论信号，提示这句是新研究的总判断；其后的 no significant relationship 用「否定 + 程度词」给出定性——这种「Overall/否定句」往往就是答案落点，前面铺垫的别国小波动都是干扰。

【替换】 no significant relationship ↔ It was insignificant.

no significant=insignificant

【排除】 A) 过度推断

A 说 It was indefinite. (不确定的)。录音其实给出了明确结论——「没有显著关联」「没有系统性规律」，态度是确定的「无」，并非含糊不定。把「确定地没有」错听成「不确定」，是对结论性质的误判。

B) 与原文相反

B 用了录音末句确实念到的 systematic，可原文是 no systematic pattern (没有系统性规律)，带否定。B 抹掉 no，单取 systematic 说成「它是系统性的」，正好与原文意思相反，是典型听到原词就选、却漏听否定词的陷阱。

借用原文：there was no systematic pattern

C) 未提及

C 说 It was straightforward. (直接明了的)。录音从未用「直接/明了」评价这关系，只说「无显著关联、无系统规律，部分国家有些小波动」。这个定性原文根本没出现，属凭空臆造。

Questions 5 to 7 are based on the news report you have just heard.

1 Genetic researchers in China have made a clone of a star police dog. The clone was born in a laboratory in Beijing in December. Tests show that the clone and her mother are almost identical

genetically. The mother dog helped solve multiple murders and many other crimes. The clone has already performed better than traditionally bred dogs on several tests.

中国的遗传研究人员克隆了一只明星警犬。该克隆犬于12月在北京的一个实验室出生。测试显示,克隆犬与其母犬在基因上几乎完全相同。母犬曾协助侦破多起谋杀案和许多其他犯罪案件。克隆犬已经在多项测试中表现得优于传统繁育的犬只。

2 If the clone continues to perform as well as expected, it could mean a huge reduction in the training time for police dogs, which usually takes about five years. The ultimate goal of scientists is to produce clones of talented police dogs that can be trained in months instead of years. However, this goal is not yet possible due to the current costs of the technology.

如果克隆犬继续按预期表现良好,这可能意味着警犬训练时间的大幅缩减,而警犬训练通常需要约五年时间。科学家的最终目标是培育出优秀警犬的克隆体,使其能够在数月而非数年内完成训练。然而,由于目前该技术的成本,这一目标尚无法实现。

3 This is not the first time a clone has been made of a star police dog. In South Korea, six clones began working with the police in 2008.

这并非首次克隆明星警犬。在韩国,六只克隆犬于2008年开始与警方合作。

5. A) It has helped solve several murder cases.
B) It has become a star office dog in Beijing.
C) It has surpassed its mother in performance.
D) It has done better than naturally born dogs.

【题目】 What do the researchers' tests show about the cloned dog?

【翻译】 研究人员的测试表明克隆犬有什么特点?

- A) 它已帮助侦破了数起谋杀案。 B) 它已成为北京的明星办公室犬。
C) 它的表现已超过其母犬。 D) 它的表现优于自然出生的犬。

【答案】 D (细节题) It has done better than naturally born dogs.

【定位】 The clone has already performed better than traditionally bred dogs on several tests.

这只克隆犬在几项测试中已经表现得比传统繁育的狗更好。

【信号】 tests一词复现即落点。 题干问的是 tests 显示什么, 录音第一段末句 performed better than traditionally bred dogs on several tests 正好出现 tests, 又给出明确比较结果, 这种'题干关键词在原文复现+给出结论'的句子就是答案句。

【替换】 traditionally bred dogs ↔ naturally born dogs

传统繁育=自然出生

performed better ↔ done better

performed=done同义

【排除】 A) 张冠李戴

It has helped solve several murder cases. 偷用了录音里 helped solve multiple murders 的'破案'信息, 但原文说破案的是 The mother dog (母亲), 不是这只克隆犬, 把母亲的功劳安到了克隆犬头上。

借用原文: The mother dog helped solve multiple murders and many other crimes.

B) 原词陷阱

It has become a star office dog in Beijing. 拼接了录音里的 star (明星) 和 Beijing (北京) 两个原词, 但原文只说克隆犬生于北京实验室、母亲是明星警犬, 从没说克隆犬变成了'办公室明星狗', 属拼凑+无中生有。

借用原文: The clone was born in a laboratory in Beijing in December.

C) 偷换概念

It has surpassed its mother in performance. 利用了原文反复提到的 mother (母亲), 但录音说克隆犬与母亲 almost identical genetically (基因几乎相同), 并没说它在表现上'超过'了母亲; 它超过的是普通狗, 不是母亲。

借用原文: the clone and her mother are almost identical genetically

6. A) To speed up investigation into criminal cases.

B) To test the feasibility of cloning technology.

C) To cut down training expenses.

D) To reduce their training time.

【题目】 What is the scientists' purpose in cloning police dogs?

【翻译】 科学家克隆警犬的目的是什么?

A) 加快刑事案件的侦查速度。 B) 测试克隆技术的可行性。 C) 削减训练费用。

D) 缩短它们的训练时间。

【答案】 D (目的题) To reduce their training time.

【定位】 The ultimate goal of scientists is to produce clones of talented police dogs that can be trained in months instead of years.

科学家的最终目标是培育出有天赋的警犬克隆体, 使它们能在几个月内、而不是几年内完成训练。

【信号】 ultimate goal点出目的句。录音第二段 The ultimate goal of scientists is to produce clones 用 goal (目标) 直接亮明目的, 这正是目的题要等的那句话; 其中 in months instead of years (几个月而非几年) 点出意图是缩短时间。

【替换】 trained in months instead of years ↔ reduce their training time

几月而非几年=缩短时间

【排除】 A) 未提及

To speed up investigation into criminal cases. 借了第一段 crimes (犯罪) 的余味, 但录音讲的目的是缩短训练时间, 从没说克隆是为了'加快案件调查', 属无中生有。

B) 未提及

To test the feasibility of cloning technology. 听起来很像科研口吻, 但录音里克隆的目的是缩短训练时间, 并没说'是为了测试克隆技术是否可行', 是凭常识想当然添上的目的。

C) 偷换概念

To cut down training expenses. 与正解只差一个词: 录音说的是省'时间' (months instead of years), 不是省'费用'。原文里 costs (成本) 出现在最后一句、说的是'技术成本高导致目标暂不可行', 是障碍、不是目的, 被挪来当目的了。

借用原文: this goal is not yet possible due to the current costs of the technology

7. A) Cloning is too complicated a process.

B) The technology is yet to be accepted.

C) Cloning is ethically controversial.

D) The technology is too expensive.

【题目】 Why does the news report say the scientists' goal is not yet possible?

【翻译】 为什么新闻报道称科学家的目标尚不可能实现?

- A) 克隆过程过于复杂。 B) 该技术尚未被接受。 C) 克隆在伦理上存在争议。
D) 该技术成本过高。

【答案】 D (细节题) The technology is too expensive.

【定位】 However, this goal is not yet possible due to the current costs of the technology.

然而, 由于目前这项技术的成本问题, 这个目标还无法实现。

【信号】 However转折加due to因果。 录音第二段末句先用 However 转折 (前面说目标美好、这里说还做不到), 再用 due to the current costs of the technology 给出原因, 转折+因果双信号叠在一句, 正是 Why 题的标准答案句。

【替换】 the current costs of the technology ↔ The technology is too expensive.

成本高=太贵

【排除】 A) 未提及

Cloning is too complicated a process. 听上去像个合理障碍，但录音明确把原因归到'成本' (costs)，从没说过程'太复杂'，是凭常识猜的障碍。

B) 偷换概念

The technology is yet to be accepted. 借用了录音 not yet possible (还不可行) 里 yet 的语感，但原文说做不到是因为贵，不是因为'还没被接受'，属偷换原因。

借用原文：this goal is not yet possible due to the current costs of the technology

C) 未提及

Cloning is ethically controversial. 是一般人一提'克隆'就联想到的伦理争议，但本则新闻只说障碍是成本，完全没提伦理，是被话题带偏的想当然选项。

Section B

Directions: In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 8 to 11 are based on the conversation you have just heard.

1 W: Tom, did you see the article online about the new TV series based on the book *The Three Body Problem*?

W: Tom, 你看到网上关于根据《三体》这本书改编的新电视剧的文章了吗?

2 M: A colleague mentioned the book, but I've been so busy writing my thesis that I haven't been able to read for pleasure in months.

M: 有同事提到过这本书，但我一直忙着写论文，已经好几个月没能读闲书了。

3 W: Well, sounds like if you're going to read anything for fun, this is the book. It's written by a Chinese science fiction writer. I can't remember his name, but he's written three books in all, and *The Three Body Problem* is the first in the series. I don't want to say too much and spoil it for you, but it's definitely got some amazing technological and sociological concepts in it.

W: 听起来如果你要读点消遣的东西，就该读这本书。它是一位中国科幻作家写的。我记不得他的名字了，但他一共写了三本书，《三体》是系列的第一部。我不想说太多剧透，但里面确实有一些很棒的技术和社会学概念。

4 M: It does sound like it would suit my taste, but if they are making a TV series based on it now, I don't know if I should read the book or watch the show first.

M: 听起来确实符合我的口味，但如果他们现在要根据它拍电视剧，我不知道该先读书还是先看剧。

5 W: I think it's better to read the book first. It's rare for the show or movie to be better than the book. And then, you just end up ruining the book for yourself, if the show isn't very good.

W: 我觉得最好先读书。电视剧或电影比书好的情况很少见。而且如果剧拍得不好，你就把书给毁了。

6 M: When is the show supposed to start? I'm a bit overwhelmed with the amount of data I still need to collect to finish my thesis. But I still need to relax sometimes.

M: 这个剧什么时候开播? 我现在还有大量数据要收集才能完成论文, 有点应接不暇。但我还是需要偶尔放松一下。

7 W: I can't remember exactly. It's pretty soon, and it's going to be quite long. There are 24 episodes. Well, maybe you could download an electronic copy of the book and try to read it before the show starts.

W: 我记不太清了。挺快的, 而且会很长。有24集。也许你可以下载电子版的书, 在剧开播前试着读完。

8 M: That's a good idea. And then, maybe we can watch the series together. Thanks for the tip, Alice.

M: 这主意不错。然后也许我们可以一起看这部剧。谢谢你的建议, Alice。

9 W: No problem.

W: 不客气。

8. A) He read it somewhere online.

B) He heard about it from a coworker.

C) He read an article reviewing it.

D) He watched a TV series based on it.

【题目】 How did the man get to know about the book The Three Body Problem?

【翻译】 这位男士是如何了解到《三体》这本书的?

A) 他在网上某处读到过它。 B) 他从一位同事那里听说的。

C) 他读了一篇评论它的文章。 D) 他看了根据它改编的电视剧。

【答案】 B (细节题) He heard about it from a coworker.

【定位】 A colleague mentioned the book, but I've been so busy writing my thesis that I haven't been able to read for pleasure in months.

一个同事提到过这本书, 但我一直忙着写论文, 好几个月都没能读点闲书了。

【信号】 被问者的直接应答。 上一句女士问起这书, 男士开口第一句就是 A colleague mentioned the book——对话题里答案就落在被问者的应答上, 这句正面回答了「怎么知道的」, 是答案句。

【替换】 A colleague mentioned the book ↔ **He heard about it from a coworker**
colleague 等于 coworker

【排除】 A) 原词陷阱

女士开场说 did you see the article online, 选项 He read it somewhere online. 把这个 online 搬过来, 但「网上看到」的主语是女士的提问、说的是那篇文章, 不是男士得知书的途径, 属答非所问。

借用原文: did you see the article online

C) 偷换概念

录音里的 the article online about the new TV series 是讲改编剧的报道, 选项 He read an article reviewing it. 偷换成「读了一篇评论这本书的文章」, 且读文章的是女士不是男士, 既偷换内容又张冠李戴。

借用原文: the article online about the new TV series

D) 与原文相反

录音通篇说剧还没看、甚至还没开播 (When is the show supposed to start?), 选项 He watched a TV series based on it. 说他「看了改编剧」与事实相反, 男士并没看过剧。

借用原文: the new TV series based on the book

9. A) His publications.

B) His first book.

C) His address.

D) His name.

【题目】 What does the woman say she can't remember about the book's author?

【翻译】 这位女士说她记不得这本书作者的什么?

A) 他的出版物。 B) 他的第一本书。 C) 他的地址。 D) 他的名字。

【答案】 D (细节题) His name.

【定位】 It's written by a Chinese science fiction writer. I can't remember his name, but he's written three books in all, and The Three Body Problem is the first in the series.

它是一位中国科幻作家写的。我记不清他的名字了, 不过他一共写了三本书, 《三体》是这个系列的第一本。

【信号】 题干原词 can't remember 直接命中。 题干问 can't remember, 录音里女士原话就有 I can't remember his name——can't remember 这个词组是直接信号, 它后面紧跟的 his name 就是答案。

【替换】 I can't remember his name ↔ **His name.**

原句直接点名 name

【排除】 A) 答非所问

选项 His publications. 对应录音 he's written three books in all——但作者的著作女士记得清清楚楚（连写了三本、《三体》是第一本都说得出），她记不清的不是这个。

借用原文：he's written three books in all

B) 答非所问

选项 His first book. 对应录音 The Three Body Problem is the first in the series, 女士明确说得出第一本是《三体》，可见她记得，并非记不清的那一项。

借用原文：The Three Body Problem is the first in the series

C) 未提及

选项 His address. 的 address 听起来像录音里某个词，但全篇女士只字未提作者的「住址」或「演讲」，这是无中生有。

10. A) Collect a lot more data.

B) Relax a bit less often.

C) Clarify many new concepts.

D) Read more reference books.

【题目】 What does the man have to do to finish his thesis?

【翻译】 这位男士需要做什么来完成他的论文？

A) 收集更多的数据。 B) 少放松一些。 C) 阐明许多新概念。 D) 阅读更多参考书。

【答案】 A （细节题） Collect a lot more data.

【定位】 I'm a bit overwhelmed with the amount of data I still need to collect to finish my thesis.

为了完成论文，我还有大量数据要收集，这让我有点应付不过来。

【信号】 still need to + 题干同词 finish thesis. 男士说 the amount of data I still need to collect to finish my thesis, still need to（还得）是「不得不做」的信号词，且 finish my thesis 与题干 finish his thesis 撞词，这句正面回答了「为完成论文要做什么」。

【替换】 the amount of data I still need to collect ↔ **Collect a lot more data.**

still collect 等于 collect more

【排除】 B) 与原文相反

录音里男士说 But I still need to relax sometimes.——他强调「仍然需要放松」，选项 Relax a bit less often. 却说「少放松一点」，把 relax 这个原词拿走后反着说，与原意相反。

借用原文：I still need to relax sometimes

C) 原词陷阱

选项 Clarify many new concepts. 的 concepts 来自女士说书里有 some amazing technological and sociological concepts，那是夸书内容精彩，跟男士完成论文要做的事毫无关系。

借用原文：some amazing technological and sociological concepts

D) 未提及

选项 Read more reference books. 蹭录音里反复出现的 read/book，但全篇说的「读」是读《三体》这本闲书，没有任何「读参考书做论文」的内容，属无中生有。

借用原文：read the book first

11. A) Find out the show's most interesting episodes.

B) Watch the series together with the woman.

C) Get an e-copy of the book to read.

D) Check to see when the show starts.

【题目】 What will the man most probably do first after the conversation?

【翻译】 对话结束后这位男士最有可能先做什么？

A) 找出这部剧最有趣的几集。 B) 和这位女士一起看这部剧。

C) 获取这本书的电子版来阅读。 D) 查看这部剧什么时候开始播出。

【答案】 C (推断题) Get an e-copy of the book to read.

【定位】 Well, maybe you could download an electronic copy of the book and try to read it before the show starts.

嗯，也许你可以下载一本电子版的书，试着在剧开播之前把它读了。

【信号】 建议句 + before the show starts 定先后。女士给出建议 maybe you could download an electronic copy of the book and try to read it before the show starts，建议句是落点；before the show starts (在开播前) 明确点出「先读书」的次序，男士随即 That's a good idea. 接受，故「先弄电子书读」被敲定。

【替换】 download an electronic copy of the book and try to read it ↔ Get an e-copy of the book to read
download e-copy 等于 get e-copy
before the show starts ↔ Get an e-copy of the book to read
开播前读定下了先后

【排除】 A) 原词陷阱

选项 Find out the show's most interesting episodes. 蹭了录音里 There are 24 episodes. 的 episodes, 但女士只说有 24 集, 从没提「找最精彩的几集」, 属无中生有。

借用原文: There are 24 episodes

B) 答非所问

男士确实说 maybe we can watch the series together, 但那是「然后(and then)」 「也许」之后的安排, 要等读完书、剧开播。题目问 first (最先), 先做的是读书不是看剧。

借用原文: maybe we can watch the series together

D) 原词陷阱

选项 Check to see when the show starts. 来自男士问 When is the show supposed to start?, 但女士回 I can't remember exactly, 且最终敲定的下一步是「先读书」, 并没有让他去查开播时间。

借用原文: When is the show supposed to start?

Questions 12 to 15 are based on the conversation you have just heard.

1 W: Hello, good afternoon. I have an inquiry to make. It's about the vegetarian food festival you are holding on the 19th of August at the Newcastle City Hall.

W: 你好, 下午好。我有个问题想咨询一下。是关于你们8月19日在纽卡斯尔市政厅举办的素食美食节的。

2 M: Yes, of course. My name's Philip. How can I help you?

M: 好的, 当然可以。我叫Philip。有什么可以帮您的吗?

3 W: It says on your website that you are still looking for vendors, and I grow organic vegetables on my farm, as well as doing my own home baking. Would I be able to sell both the vegetables and items baked from them at the festival?

W: 你们网站上说还在招募摊主, 我在自己的农场种植有机蔬菜, 同时也自己在家烘焙。我能在美食节上同时售卖蔬菜和用这些蔬菜烘焙的食品吗?

4 M: That's exactly the type of thing we are looking for. We're getting close to the deadline, however. Do you prefer to fill out an application on the web, or to print it out and fill it in by hand and then post it back to us? Remember that you will have to have all your certificates to hand when you are filling out the forms, as the standards are high and they'll be carefully checked before anyone will be able to sell their produce at the event.

M: 这正是我们在寻找的。不过我们快到截止日期了。您是想在网上填写申请表, 还是打印出来手工填写然后邮寄给我们? 请注意, 填表时您需要准备好所有的证书, 因为标准很高, 在任何人能够在活动上售卖产品之前, 这些证书都会被仔细审核。

5 W: I should be fine with doing it on your website, and I already have all my certificates, as we run a small farm shop too. But can you give me your details anyway?

W: 我在你们网站上填应该没问题, 而且我已经有所有证书了, 因为我们也经营一家小型农场商店。不过你还是能把邮寄地址给我吗?

6 M: Sure. Please address it to the Organic Organization, Vendor Applications, 112 Queens Road, Newcastle, Northumbria. The postcode is NU 29 3LJ. Remember that the closing date is next Tuesday, the 28th of June.

M: 当然。请寄到Organic Organization, Vendor Applications, 112 Queens Road, Newcastle, Northumbria。邮编是NU 29 3LJ。请记住截止日期是下周二, 6月28日。

7 W: That's absolutely wonderful. Thank you so much for your help. Goodbye.

W: 太好了。非常感谢你的帮助。再见。

12. A) To check the prices of his farm produce.

B) To ask the way to the Newcastle City Hall.

C) To inquire about the vegetarian food festival.

D) To seek the man's help with her work on the farm.

【题目】 Why does the woman call the man?

【翻译】 女士为什么给男士打电话?

A) 查看他农场产品的价格。 B) 询问去Newcastle市政厅的路。

C) 询问素食美食节的相关情况。 D) 寻求男士在农场工作方面的帮助。

【答案】 C (目的题) To inquire about the vegetarian food festival.

【定位】 I have an inquiry to make. It's about the vegetarian food festival you are holding on the 19th of August at the Newcastle City Hall.

我有件事想咨询。是关于你们将在8月19日于纽卡斯尔市政厅举办的素食美食节的。

【信号】 开场自报来意。 女方一上来就说 I have an inquiry to make (我要咨询一件事), 紧接着点明 It's about the vegetarian food festival——开场"我打电话是为了....."的自述就是目的题的答案句信号。

【替换】 an inquiry to make ↔ inquire about

名词换动词同义

the vegetarian food festival ↔ the vegetarian food festival

话题对象一致

【排除】 A) 未提及

录音里女方说自己 I grow organic vegetables on my farm, A借"农产品"做文章编出 To check the prices of his farm produce."查菜价", 但全程没人提价格, 属凭印象的臆造。

B) 原词陷阱

录音确实念到 the Newcastle City Hall, B便顺势编成 To ask the way to the Newcastle City Hall."问去市政厅的路"。但市政厅只是节日地点, 女方从没问路, 这是"听到地名就选"的原词陷阱。

借用原文: the Newcastle City Hall

D) 偷换概念

录音里 I grow organic vegetables on my farm 提到了农场, D便编成 To seek the man's help with her work on the farm."求男方帮她干农活"。实际是她想在节上卖货, 不是求人帮农活, 方向反了。

借用原文: I grow organic vegetables on my farm

13. A) Bakers.

B) Vendors.

C) Vegetarians.

D) Organisers.

【题目】 What is the man still looking for?

【翻译】 男士还在寻找什么?

A) 面包师。 B) 摊主。 C) 素食者。 D) 组织者。

【答案】 B (细节题) Vendors.

【定位】 It says on your website that you are still looking for vendors, and I grow organic vegetables on my farm, as well as doing my own home baking.

你们网站上说你们还在找摊主, 而我在自家农场种有机蔬菜, 也自己在家做烘焙。

【信号】 still looking for直接给出招募对象。 女方转述网站内容 you are still looking for vendors, still looking for 正是"还在招"的信号, 紧跟其后的 vendors 就是答案对象。

【替换】 vendors ↔ Vendors.

原词对应

【排除】 A) 原词陷阱

女方说自己 doing my own home baking (在家做烘焙), A便顺手把她说成 Bakers."面包师"。但她只是会烘焙的摊主之一, 男方招的是"摊主"不是"面包师", 属听到 baking 就联想的误选。

借用原文: doing my own home baking

C) 原词陷阱

节日叫 vegetarian food festival, C便取 Vegetarians."素食者"充数。但"素食"是节日主题, 不是男方招募的人群, 男方招的是卖货的摊主。

借用原文: vegetarian food festival

D) 张冠李戴

男方一方正是办活动的组织者, D取 Organisers."组织者"反而是他们自己的身份, 不是"还在找"的对象, 角色装反了。

-
14. A) The issuing of certificates to vendors.
B) The completion of the baking task.
C) The festival they are organising.
D) The deadline for application.

【题目】 What does the man say they are getting close to?

【翻译】 男士说他们正在接近什么?

- A) 向摊主颁发证书。 B) 完成烘焙任务。 C) 他们正在组织的美食节。
D) 申请截止日期。

【答案】 D (细节题) The deadline for application.

【定位】 That's exactly the type of thing we are looking for. We're getting close to the deadline, however.

这正是我们想要的那种摊位。不过, 我们快到截止日期了。

【信号】 getting close to紧跟落点。 男方说 We're getting close to the deadline, getting close to 这一"临近"信号后面紧跟 the deadline, 即他们正逼近的那件事。

【替换】 the deadline ↔ **The deadline for application.**

概括补全为完整短语

【排除】 A) 原词陷阱

录音确有 all your certificates 和 certificates will be checked 之说, A拼成 The issuing of certificates to vendors."给摊主发证书"。但证书是报名时要备齐、会被审核, 录音并没说"快到发证书", 且"发证"也非原文之意, 是借证书原词的拼凑。

借用原文: all your certificates

B) 原词陷阱

女方提过 home baking, B据此编成 The completion of the baking task."烘焙任务完成"。但录音从没说"快完成烘焙", 且"close to"接的是 deadline 不是 baking。

借用原文: home baking

C) 答非所问

The festival they are organising. 取了贯穿全程的话题 the vegetarian food festival, 但"快到美食节"并不是男方所说, 他说的是快到截止日。话题对、答非所问。

借用原文: the vegetarian food festival

15. A) The closing date of submission.

B) The website of his company.

C) The details of the ceremony.

D) The organiser's address.

【题目】 What does the man finally ask the woman to remember?

【翻译】 男士最后要求女士记住什么?

A) 提交的截止日期。 B) 他公司的网站。 C) 仪式的细节。 D) 组织者的地址。

【答案】 A (细节题) The closing date of submission.

【定位】 Remember that the closing date is next Tuesday, the 28th of June.

记住, 截止日期是下周二, 也就是6月28日。

【信号】 结尾Remember领出叮嘱。 男方在对话末尾说 Remember that the closing date is next Tuesday, Remember that 是"特意叮嘱"的信号, 其后的 the closing date 即他要她记住的事。

【替换】 the closing date ↔ The closing date of submission.

补出提交语境

【排除】 B) 原词陷阱

录音前面女方提过 It says on your website, B便取 The website of his company."他公司的网址"。但网址出现在对话前段、且不是男方让她记住的事, Remember 点的是截止日不是网址。

借用原文: It says on your website

C) 未提及

The details of the ceremony."典礼细节"录音里压根没出现过 ceremony 这个事, 是凭空捏造的干扰。

D) 原词陷阱

男方确实在同段报了地址 Please address it to the Organic Organization, D据此取 The organiser's address.。但地址是应女方"give me your details"的请求顺带给的, 被 Remember 单独叮嘱的是"截止日", 不是地址, 属"听到地址就选"的原词陷阱。

借用原文: Please address it to the Organic Organization

Section C

Directions: In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 16 to 18 are based on the passage you have just heard.

1 Supporters call it "wild camping"; opponents call it "illegal camping". What both sides accept is that there has been a boom in the past few months, with increasing numbers of visitors pitching their tents on any bit of land they fancy in the UK. In part, this reflects the fact that official campsites have been wholly or partially closed, or are overflowing in a summer when fewer people are going abroad. It is also cheap, at a time when many are worried about what the economic future holds. But it may also be an expression of a desire for going outdoors—a response to the months of lockdown.

支持者称之为"野外露营"; 反对者称之为"非法露营"。双方都承认的是, 过去几个月出现了激增现象, 越来越多的游客在英国任何他们看中的土地上搭起帐篷。这在一定程度上反映了一个事实, 即官方露营地已经全部或部分关闭, 或者在这个出国人数较少的夏天已经人满为患。在许多人担心未来经济前景的时候, 这也很便宜。但这也可能是一种对户外活动渴望的表达——一种对数月封锁的回应。

2 Most of the coverage of the boom in wild camping has been negative. Camping in public parks has now been banned for August and the early part of September because campers dump litter, human waste, and even their tents on the grassland. Similar action has been taken even in Scotland, where camping is usually permitted on most of its open land.

关于野外露营热潮的大部分报道都是负面的。由于露营者在草地上倾倒垃圾、人类排泄物甚至他们的帐篷, 公共公园现已禁止在8月和9月初进行露营。即使在苏格兰也采取了类似的行动, 而那里通常允许在其大部分开放土地上露营。

3 Clearly there have to be rules. It would make sense that wild campers need to ask for permission to camp from landowners, especially outside Scotland, where the law is far more restrictive. It would be common sense for people to use small tents and leave no trace of their visit. They have been attracted by a patch of land this close to wilderness, and it is their responsibility to keep it that way.

显然必须有规则。野外露营者需要向土地所有者征求露营许可是合理的,特别是在苏格兰以外的地区,那里的法律要严格得多。人们使用小帐篷并不留下任何访问痕迹是常识。他们被这片如此接近荒野的土地所吸引,保持其原貌是他们的责任。

16. A) Most scenic sites have been closed.
B) Access to official campsites is limited.
C) Health experts advise going outdoors.
D) People have more time during the summer.

【题目】 Why has wild camping become popular in the UK?

【翻译】 为什么野外露营在英国变得流行了?

- A) 大多数风景名胜已经关闭。 B) 官方露营地的使用受到限制。
C) 健康专家建议去户外活动。 D) 人们在夏季有更多时间。

【答案】 B (细节题) Access to official campsites is limited.

【定位】 In part, this reflects the fact that official campsites have been wholly or partially closed, or are overflowing in a summer when fewer people are going abroad.

在一定程度上,这反映出一个事实:正规营地已经全部或部分关闭,或者在出国人数减少的这个夏天人满为患。

【信号】 原因信号 **this reflects the fact that**. this reflects the fact that 是典型的解释原因句式,后面紧跟的 official campsites have been wholly or partially closed, or are overflowing 就是"野营为何流行"的直接答案。这种"反映出/源于"的句子,正是原因题该锁定的答案句。

【替换】 official campsites have been wholly or partially closed, or are overflowing ↔

Access to official campsites is limited.

"关闭/人满"概括为"使用受限"

【排除】 A) 偷换概念

录音关闭的是 official campsites (正规露营地), 不是 scenic sites (风景景点)。A 把"营地"偷换成"景点", 听着相似却不是同一回事。

借用原文: official campsites have been wholly or partially closed

C) 原词陷阱

录音确实提到 a desire for going outdoors (向往户外), C 也写 going outdoors, 原词重合很诱人。但录音说的是"普通人的一种向往", 从没说是 Health experts (健康专家) 建议的; 且这只是次要补充原因 (it may also be), 不是题干所问的主因。听到 going outdoors 就选 C, 正中原词陷阱。

借用原文: an expression of a desire for going outdoors

D) 原词陷阱

录音里 in a summer (夏天) 确实出现, 让 D 的 during the summer 显得耳熟。但录音从未说人们"有更多时间 (more time)", 这是凭空添加的原因。盗了"夏天"一个词, 就编出一个录音没讲的理由。

借用原文: in a summer when fewer people are going abroad

17. A) It is strongly opposed by nearby residents.

B) It leads to much waste of public money.

C) It has caused environmental concerns.

D) It has created conflicts among campers.

【题目】 Why is camping banned for part of the summer in public parks?

【翻译】 为什么公共公园在夏季部分时间禁止露营?

A) 遭到附近居民的强烈反对。 B) 导致大量公共资金浪费。 C) 引发了环境方面的担忧。

D) 在露营者之间制造了冲突。

【答案】 C (细节题) It has caused environmental concerns.

【定位】 Camping in public parks has now been banned for August and the early part of September because campers dump litter, human waste, and even their tents on the grassland.

公园露营如今已在八月和九月上旬被禁, 因为露营者把垃圾、人体排泄物、甚至帐篷都丢弃在草地上。

【信号】 因果信号 because. because 直接引出禁露营的原因: campers dump litter, human waste, and even their tents on the grassland. because 后面的内容就是答案句的核心, 因果题听到 because 就该锁定。

【替换】 campers dump litter, human waste, and even their tents on the grassland ↔

It has caused environmental concerns.

乱丢垃圾的具体行为概括为环境问题

【排除】 A) 未提及

录音只说禁露营是因乱丢垃圾，全程没提 nearby residents（附近居民）反对。这是录音根本没说的内容，凭常识"居民会嫌吵"补上去就错了。

B) 未提及

录音讲的是垃圾污染草地，从没提 waste of public money（浪费公共资金）。这是凭空添加的后果，与禁露营的真实原因无关。

D) 原词陷阱

录音反复出现 campers（露营者），D 也写 campers，原词重合很诱人。但录音说的是露营者"破坏环境"，从没说他们"彼此起冲突（conflicts among campers）"。听到 campers 就选 D，正中原词陷阱。

借用原文：campers dump litter, human waste, and even their tents on the grassland

-
18. A) Look for open land in Scotland.
B) Leave no trace of their camping.
C) Avoid getting close to wilderness.
D) Ask for permission from authorities.

【题目】 What does the speaker suggest campers do?

【翻译】 说话者建议露营者做什么？

- A) 在Scotland寻找开阔地带。 B) 不留下任何露营痕迹。 C) 避免靠近荒野地区。
D) 向有关部门征求许可。

【答案】 B（细节题） Leave no trace of their camping.

【定位】 It would be common sense for people to use small tents and leave no trace of their visit.

人们使用小帐篷、不留下到访的任何痕迹，是合乎常理的做法。

【信号】 建议信号 It would be common sense for...to. It would be common sense for people to 是劝告做法的句式，后面 leave no trace of their visit 就是说话人给露营者的核心建议。建议题该锁定这类"应当/合乎常理去做"的句子。

【替换】 leave no trace of their visit ↔ **Leave no trace of their camping.**

visit换成camping，近乎同义改写

【排除】 A) 原词陷阱

录音提到 especially outside Scotland (尤其在苏格兰以外), A 也写 Scotland, 原词重合很诱人。但录音是说"在苏格兰以外法律更严、要请求许可", 根本没建议人们"去苏格兰找开放土地"。听到 Scotland 就选 A, 正中原词陷阱。

借用原文: to camp from landowners, especially outside Scotland, where the law is far more restrictive

C) 与原文相反

录音出现 close to wilderness (靠近荒野), C 也写 wilderness, 但录音是说人们"被这块靠近荒野的土地吸引、有责任维护它", 绝不是叫人 Avoid getting close to wilderness (避开荒野)。意思被反着说了, 盗了原词却背道而驰。

借用原文: They have been attracted by a patch of land this close to wilderness

D) 原词陷阱

录音确说要 ask for permission to camp from landowners (向地主请求许可), D 写 Ask for permission 原词重合很像。但录音的对象是 landowners (土地所有者), D 却换成了 authorities (官方当局), 把请求对象偷换了。听到 ask for permission 就选 D, 正中原词陷阱。

借用原文: wild campers need to ask for permission to camp from landowners

Questions 19 to 21 are based on the passage you have just heard.

1 Imagine boating down the Amazon River, minding your own business—calmly keeping an eye out for alarmingly large snakes—and a curious pink dolphin appears to swim alongside. While this may seem like a mythical creature, pink dolphins do exist in the Amazon region.

想象一下, 你正在亚马逊河上划船, 专心做着自己的事——平静地留意着那些大得惊人的蛇——这时一只好奇的粉红色海豚出现在你身边游动。虽然这看起来像是神话中的生物, 但粉红色海豚确实存在于亚马逊地区。

2 The Amazon river dolphin is a giant among its species. It can measure up to 2 meters long and weigh around 204 kilograms. Size isn't the only thing that sets the Amazon river dolphin apart. Thriving in South American rivers and temporary lakes caused by seasonal flooding, this freshwater dolphin is sometimes shockingly pink.

亚马逊河豚是其物种中的巨型成员。它的体长可达2米, 体重约204千克。体型并不是亚马逊河豚与众不同的唯一特征。这种淡水豚栖息在南美洲的河流和季节性洪水形成的临时湖泊中, 有时会呈现出令人震惊的粉红色。

3 Although born gray, males of the species are easily identified as they enter adulthood by a decisive pink shade. Their unusual coloring is believed to be the result of scar tissue from dolphin fights—whether playful fighting or a serious bid for a mate. The deeper the pink, the more attractive the males are believed to be, and the older the male, the more pink it will have.

虽然出生时是灰色的, 但该物种的雄性在进入成年期后很容易通过明显的粉红色阴影来识别。它们不寻常的颜色被认为是海豚打斗留下的疤痕组织的结果——无论是嬉戏打闹还是为争夺配偶的激烈竞争。粉红色越深, 雄性被认为越有吸引力, 而雄性年龄越大, 粉红色就越多。

4 There's also a theory that this color helps the dolphins more readily blend in with their surroundings. During heavy rains, rivers along the Amazon rainforest turn a pink shade, and with it male dolphins are harder to detect. The Amazon wetland system, fed by the Amazon River, is a crucial place for pink dolphins to breed, and since 2018 has been granted internationally protected status.

还有一种理论认为，这种颜色有助于海豚更容易地与周围环境融为一体。在大雨期间，亚马逊雨林沿岸的河流会呈现粉红色，雄性海豚也因此更难被发现。由亚马逊河滋养的亚马逊湿地系统是粉红色海豚繁殖的关键场所，自2018年以来已被授予国际保护地位。

19. A) They outcompete mythical creatures.
B) They usually mind their own business.
C) They truly exist in the Amazon region.
D) They resemble alarmingly large snakes.

【题目】 What does the passage say about pink dolphins?

【翻译】 文章关于粉红海豚说了什么？

- A) 它们在竞争中胜过神话生物。 B) 它们通常不管闲事。
C) 它们确实存在于亚马逊地区。 D) 它们看起来像大得惊人的蛇。

【答案】 C (细节题) They truly exist in the Amazon region.

【定位】 While this may seem like a mythical creature, pink dolphins do exist in the Amazon region.

虽然这看上去像是神话中的生物，但粉色海豚确实存在于亚马逊地区。

【信号】 转折 while + 强调 do。信号有两层：让步转折 While this may seem like a mythical creature 先抑（看似神话），转折后才是真意；再加强调助动词 pink dolphins do exist 中的 do，把存在性钉死。转折之后、带强调语气的那句正是答案句。

【替换】 pink dolphins do exist in the Amazon region ↔ They truly exist in the Amazon region.
do exist 同义改写为 truly exist

【排除】 D) 原词陷阱

录音里 alarmingly large snakes 说的是船客在河上提防的大蛇，是另一种动物，根本不是在说海豚像蛇。选项 They resemble alarmingly large snakes. 原封盗用 alarmingly large snakes 这个词组，把蛇安到海豚头上，听到原词就想选正中下怀。

借用原文：calmly keeping an eye out for alarmingly large snakes

B)

录音 minding your own business 描述的是划船的你在专心赶路，不是海豚的习性。选项 They usually mind their own business. 把这句原话改成海豚不爱招惹别人，主语偷换成海豚，且原文从未说海豚的脾性，属答非所问。

借用原文：minding your own business

A)

录音只说海豚 may seem like a mythical creature（看似神话生物），并未把海豚和神话生物放在一起比高下。选项 They outcompete mythical creatures. 凭一个 mythical creature 编出胜过神话生物的说法，原文无此意，属过度推断。

借用原文：While this may seem like a mythical creature

-
20. A) Scar tissue from dolphins' fighting.
B) Skin infection from water pollution.
C) Unhealed wounds from snake bites.
D) Swimming along in seasonal floods.

【题目】 What is the unusual coloring of pink dolphins believed to originate in?

【翻译】 粉红海豚不寻常的颜色被认为源于什么？

- A) 海豚打斗留下的疤痕组织。 B) 水污染导致的皮肤感染。 C) 蛇咬伤后未愈合的伤口。
D) 在季节性洪水中游动。

【答案】 A（细节题） Scar tissue from dolphins' fighting.

【定位】 Their unusual coloring is believed to be the result of scar tissue from dolphin fights—whether playful fighting or a serious bid for a mate.

它们这种奇特的颜色，被认为是海豚打斗留下的疤痕组织造成的——无论是嬉戏打闹还是为争夺配偶的认真争斗。

【信号】 因果 the result of. 答案信号是因果短语 is believed to be the result of，它后面接的正是颜色的来源。题干问 originate in，原文用 result of 应答，听到 result of 立刻锁定其后内容。

【替换】 scar tissue from dolphin fights ↔ Scar tissue from dolphins' fighting.
fights 改写为 fighting

【排除】 D) 原词陷阱

选项 Swimming along in seasonal floods. 里的 seasonal floods 来自第 2 段讲栖息地的 temporary lakes caused by seasonal flooding, 与颜色来源无关。它盗用了原文出现过的 seasonal flood 制造耳熟, 但答的不是本题问的成因。

借用原文: temporary lakes caused by seasonal flooding

B) 未提及

选项 Skin infection from water pollution. 说颜色来自水污染引起的皮肤感染, 可原文讲来源时只字未提 pollution 或 infection, 是凭空捏造的成因, 属未提及。

C)

选项 Unhealed wounds from snake bites. 把成因说成蛇咬的未愈伤口, 借第 1 段的 snakes 联想造势, 但原文讲颜色来源从未说被蛇咬, 属未提及加错接。

21. A) It has been shrinking at an astonishing pace.

B) It has been placed under international protection.

C) It has been appealing to both freshwater and sea dolphins.

D) It has been abandoned as a battleground for male dolphins.

【题目】 What has become of the Amazon wetland system since 2018?

【翻译】 自2018年以来亚马逊湿地系统发生了什么变化?

A) 它一直在以惊人的速度缩小。 B) 它已被置于国际保护之下。

C) 它一直吸引着淡水海豚和海洋海豚。 D) 它已被雄性海豚放弃作为争斗场所。

【答案】 B (细节题) It has been placed under international protection.

【定位】 The Amazon wetland system, fed by the Amazon River, is a crucial place for pink dolphins to breed, and since 2018 has been granted internationally protected status.

由亚马逊河滋养的亚马逊湿地系统, 是粉色海豚繁殖的关键之地, 并自 2018 年起被授予国际保护地位。

【信号】 时间锚 since 2018. 答案信号是时间状语 since 2018, 它与题干的 since 2018 完全对应, 后面紧跟的 has been granted internationally protected status 就是答案。听到年份与题干同步, 立即抓其后内容。

【替换】 has been granted internationally protected status ↔

It has been placed under international protection.

granted protected status 改写为 placed under protection

【排除】 C) 原词陷阱

选项 It has been appealing to both freshwater and sea dolphins. 里的 freshwater 取自第 2 段 this freshwater dolphin, 且原文只有淡水海豚、根本没提海水海豚或湿地吸引两类海豚, 属盗用原词加未提及。

借用原文: this freshwater dolphin is sometimes shockingly pink

A)

选项 It has been shrinking at an astonishing pace. 说湿地在惊人缩小, 方向与原文相反——原文说它自 2018 年起 granted internationally protected status, 是受到保护、向好, 绝非缩小。这正是预读时提醒过的正反对立陷阱。

借用原文: since 2018 has been granted internationally protected status

D)

选项 It has been abandoned as a battleground for male dolphins. 借第 3 段 dolphin fights 与雄性海豚的字眼, 编出湿地被弃为雄海豚战场的说法, 可原文恰说湿地是繁殖关键地、被保护, 从未说被弃用, 属张冠李戴加相反。

借用原文: scar tissue from dolphin fights

Questions 22 to 25 are based on the passage you have just heard.

1 In a new Merrill Lynch/Age Wave survey, a full 70% of the early adults said they received financial support from their parents in the past year and 58% said they couldn't afford their current lifestyles without it. The most common types of financial support include cell phone plans, food, school costs and car expenses. Parental financial support of early adults, said Ken Dychtwald, CEO of Age Wave, is "the new normal".

在 Merrill Lynch/Age Wave 的一项新调查中, 70% 的年轻成年人表示他们在过去一年中得到了父母的经济支持, 58% 的人表示如果没有这些支持, 他们无法负担目前的生活方式。最常见的经济支持类型包括手机套餐、食物、学费和汽车开支。Age Wave 首席执行官 Ken Dychtwald 表示, 父母对年轻成年人的经济支持是“新常态”。

2 But 64% of the young adults surveyed said parents' financial support to children age 25 to 34 is "a bad thing", because it makes those kids dependent. By contrast, only 29% thought supporting men and women age 18 to 24 is bad; the remaining 71% think that assistance "helps the adult children get ahead".

但 64% 接受调查的年轻成年人表示, 父母对 25 至 34 岁子女的经济支持是“坏事”, 因为这会让这些孩子产生依赖性。相比之下, 只有 29% 的人认为支持 18 至 24 岁的男性和女性是坏事; 其余 71% 的人认为这种援助“帮助成年子女取得进步”。

3 Dychtwald believes the young women and men surveyed were saying that by 25, younger adults ought to be financially independent. In fact, the respondents said, financial independence defines adulthood. "Financial independence is something they were struggling with and challenged by. And it scared them a bit," Dychtwald said. One big reason they're struggling is attributed to college loans, of which the average amounts to \$37,000. Many of the parents have taken on college loans for the kids, too,

sometimes at the expense of their own finances. In the survey, 60% of early adults define financial success as being debt-free. Whether that's likely, or even possible, anytime soon is anyone's guess.

Dychtwald 认为,接受调查的年轻女性和男性表达的意思是,到 25 岁时,年轻成年人应该在经济上独立。事实上,受访者表示,经济独立定义了成年。"经济独立是他们正在努力应对和面临挑战的事情。这让他们有点害怕," Dychtwald 说。他们面临困难的一个重要原因归结于大学贷款,平均金额为 37,000 美元。许多父母也为孩子承担了大学贷款,有时以牺牲自己的财务状况为代价。在调查中,60% 的年轻成年人将经济成功定义为无债务。这是否可能,甚至是否有可能在短期内实现,谁也说不准。

22. A) About 58% of young adults call parental support the new normal.
B) Most adult children enjoy increasing sources of financial support.
C) A full 70% of the young adults cannot afford to buy a car by themselves.
D) Most early adults cannot sustain their lifestyles without parental support.

【题目】 What do we learn from a new survey by Merrill Lynch/Age Wave?

【翻译】 从美林证券/Age Wave 的一项新调查中我们了解到什么?

- A) 大约58%的年轻成年人称父母支持是新常态。
B) 大多数成年子女享有越来越多的经济支持来源。
C) 整整70%的年轻成年人无法独自负担购车费用。
D) 大多数初成年人如果没有父母支持就无法维持其生活方式。

【答案】 D (细节题) Most early adults cannot sustain their lifestyles without parental support.

【定位】 In a new Merrill Lynch/Age Wave survey, a full 70% of the early adults said they received financial support from their parents in the past year and 58% said they couldn't afford their current lifestyles without it.

在美林/年龄浪潮的一项新调查中,整整 70% 的年轻成年人表示,过去一年里他们得到了父母的经济资助,而 58% 的人表示,没有这份资助他们就负担不起当前的生活方式。

【信号】 开篇报数据即调查发现落点。录音一开篇就给出 a full 70% of the early adults said they received financial support 与 58% said they couldn't afford their current lifestyles without it 两组数据,篇章独白"开头点题报核心发现",这两句就是承载答案的句子,关键在把每个数字拴到它说明的那件事。

【替换】 58% said they couldn't afford their current lifestyles without it ↔

Most early adults cannot sustain their lifestyles without parental support

同义改写且 58% 即"多数"

【排除】 A) 原词陷阱

选项把 58% 与 the new normal 拼在一起，但原文里 58% 对应的是"撑不起生活"，而 the new normal 是 CEO 个人的评价、根本没说"58% 的人这么叫它"，属盗用真实数字后乱配对象。

借用原文：58% said they couldn't afford their current lifestyles without it

B) 未提及

enjoy increasing sources of financial support 凭空加了"资助来源在增加"且带正面色彩 enjoy，原文只列了 cell phone plans, food, school costs and car expenses 几类资助、从未说它们在"增多"，更没说年轻人"乐享"，是无中生有式改写。

C) 原词陷阱

选项把真实的 70% 接到 cannot afford to buy a car by themselves 上，但原文 70% 说的是 received financial support from their parents，"车"只是 car expenses 作为资助类别被顺带提到，并没有"70% 的人买不起车"这回事，是典型的数字配错对象。

借用原文：a full 70% of the early adults said they received financial support from their parents

-
23. A) It renders them dependent.
B) It causes them to lose dignity.
C) It makes them mentally immature.
D) It hinders them from getting ahead.

【题目】 Why did most young adults in the survey say financial support to children aged 25 to 34 is a bad thing?

【翻译】 为什么调查中大多数年轻成年人说对25至34岁子女的经济支持是件坏事？

- A) 这使他们产生依赖性。 B) 这导致他们失去尊严。 C) 这使他们在心理上不成熟。
D) 这妨碍他们取得进步。

【答案】 A (细节题) It renders them dependent.

【定位】 But 64% of the young adults surveyed said parents' financial support to children age 25 to 34 is "a bad thing", because it makes those kids dependent.

但是，64% 的受访年轻人表示，父母对 25 至 34 岁子女的经济资助是"一件坏事"，因为它让这些孩子变得依赖。

【信号】 因果词 because 后即答案。 本句用 because it makes those kids dependent 直接给出理由，because 是最硬的因果信号，紧跟其后的 makes those kids dependent 就是答案落点，前半句只是在陈述"是坏事"这一立场。

【替换】 it makes those kids dependent ↔ **It renders them dependent**

make 与 render 同义、them 回指 kids

【排除】 B) 未提及

It causes them to lose dignity. 听上去也像"坏处", 但原文给的理由只有"变依赖", 从未提到 dignity (尊严), 是顺着"坏事"语境编出的合理化干扰。

C) 过度推断

It makes them mentally immature. 把"依赖"过度引申成"心智不成熟", 原文只说 dependent、没说 mentally immature, 属于在原意上加码的推断, 超出文本。

D) 与原文相反

It hinders them from getting ahead. 盗用了原文的 get ahead, 但原文 helps the adult children get ahead 是讲资助 18-24 岁"好处"时说的、且是"helps (帮助) 出人头地", 选项却反成"hinders (阻碍)"并安到"坏事"这边, 既偷原词又正话反说、还把对象张冠李戴。

借用原文: the remaining 71% think that assistance "helps the adult children get ahead"

24. A) It challenges one's willpower.

B) It results from education.

C) It calls for due assistance.

D) It defines adulthood.

【题目】 What did the respondents in the survey say regarding financial independence?

【翻译】 调查中的受访者对经济独立有何看法?

A) 它挑战一个人的意志力。 B) 它源于教育。 C) 它需要适当的帮助。

D) 它界定了成年状态。

【答案】 D (细节题) It defines adulthood.

【定位】 In fact, the respondents said, financial independence defines adulthood.

事实上, 受访者表示, 经济独立定义了成年。

【信号】 the respondents said 后的直接定性。 题干问受访者说了什么, 原文 the respondents said, financial independence defines adulthood 用"受访者表示"直接引出他们的定性, 主语应答方明确、又含"下定义"的 defines, 正是承载答案的句子。

【替换】 financial independence defines adulthood ↔ **It defines adulthood**

It 回指经济独立、defines 原词保留

【排除】 A) 原词陷阱

It challenges one's willpower. 借了原文 challenged by 的影子，但原文 challenged 出现在 CEO 转述"经济独立让年轻人感到挣扎、受挑战"处，谈的是"被它难住"而非"它考验意志力"，且这不是题干要的"受访者对经济独立的定性"。

借用原文：Financial independence is something they were struggling with and challenged by

B) 未提及

It results from education. 把"经济独立"归因于教育，原文从未谈两者的来源关系；education 一词在原文压根没出现，是凭空捏造的因果。

C) 与原文相反

It calls for due assistance. (需要适当帮助) 与受访者的态度正好相反——他们认为 by 25, younger adults ought to be financially independent, 强调的是"应当独立"，而非"需要援助"，方向反了。

借用原文：by 25, younger adults ought to be financially independent

25. A) Current lifestyles.

B) Poor budgeting.

C) College loans.

D) Emergency expenses.

【题目】 What is one big reason young adults are struggling?

【翻译】 年轻成年人陷入困境的一个重要原因是什么？

A) 当前的生活方式。 B) 预算能力差。 C) 大学贷款。 D) 紧急开支。

【答案】 C (细节题) College loans.

【定位】 One big reason they're struggling is attributed to college loans, of which the average amounts to \$37,000.

他们之所以挣扎，一个大原因被归结为助学贷款，其平均金额高达 37000 美元。

【信号】 one big reason... attributed to 双因果信号。 本句 One big reason they're struggling is attributed to college loans 与题干几乎同形，one big reason 与 attributed to 是叠加的因果信号，attributed to 后点出的 college loans 就是答案落点。

【替换】 attributed to college loans ↔ College loans

答案原词直现、近乎照搬

【排除】A) 原词陷阱

Current lifestyles 盗用了第 1 段 current lifestyles, 但那是讲"没资助就撑不起当前生活"时说的, 与本题问的"挣扎的原因"无关, 纯粹靠耳熟设饵。

借用原文: 58% said they couldn't afford their current lifestyles without it

B) 未提及

Poor budgeting (不善理财) 像是一个合情合理的"挣扎原因", 但原文归因明确指向 college loans, 从未提及预算或理财问题, 是凭常识脑补的干扰。

D) 未提及

Emergency expenses (应急开销) 与正确项 college loans 同属"花钱"类、极易混淆, 但原文归因只点了助学贷款, 根本没提 emergency expenses, 是同类干扰。

Six people had to move away from their home to another place after a fire broke out in a building on Main Street Saturday, officials said.

第1段, 第1句

"officials said + 宾语从句" 是新闻报道和四六级阅读中的高频句式; 时间状语从句修饰主要动作也是常考结构; "have to" 表示被迫义务的用法和 "break out" 这类动词短语在真题中反复出现, 整体句式具有较强的典型性和迁移价值

Due to smoke and heat damage, the four apartments were declared uninhabitable, and the six residents had to move to another place, officials said.

第3段, 第2句

句子涵盖主语、谓语、宾语从句、宾语补足语、原因状语、地点状语多种成分, 宾语从句内部还有并列结构, 成分种类丰富; 被动语态的宾语补足语和情态动词结构是常见易错点, 训练价值较高。

A new study has cast doubt on historic research suggesting that the season or month of someone's birth is associated with an increased risk of certain mental health conditions.

第1段，第1句

本句结构在学术类阅读中极为常见：主句陈述研究结论，宾语从句说明研究内容，后置定语增加信息密度。这种 主句 + 分词后置定语 + 宾语从句 的组合是四六级和考研英语阅读的高频句式，学习后可广泛迁移。

The study looks at symptoms of anxiety and depression among more than 70,000 older adults in Europe.

第1段，第2句

简单句主谓宾加状语的结构在学术英语和真题中很常见，特别是描述研究对象和范围时。虽然结构简单，但这种表达方式具有一定代表性，学生掌握后可迁移到类似句式。

However, evidence has been mixed.

第2段，第4句

主系表结构加现在完成时是四六级和考研英语阅读中的常见句式，However 作句首转折副词也频繁出现，句式有一定代表性；但由于过于简短、无从句修饰，复杂度不及真题中常考的多层修饰或嵌套结构，典型性中等。

Overall, the new study found no significant relationship between participants' month of birth and symptoms of depression or anxiety.

第3段，第1句

主谓宾结构在四六级和考研英语阅读中极为常见，且科研类文章中「研究发现某结果」这一表达非常典型。但本句过于简单，缺少真题中常见的从句嵌套或复杂修饰，作为结构范例的代表性处于中等水平。

But on the whole, there was no systematic pattern.

第3段，第5句

there be 存在句是四六级和考研英语阅读中频繁出现的句式，本句还包含了句首状语 on the whole 和转折连词 But 的用法，这些都是真题中的常见结构。但本句没有从句或复杂修饰，与真题中常考的"there be + 定语从句"或"there be + 并列结构"等变体相比，典型性相对一般。仍有一定代表性，但不属于最典型的复杂句式。

If the clone continues to perform as well as expected, it could mean a huge reduction in the training time for police dogs, which usually takes about five years.

第2段，第1句

句首条件状语从句加主句加非限制性定语从句,是四六级和考研英语阅读中极为常见的复合句模式;情态动词表推测、定语从句补充说明、条件句使用一般现在时表将来,都是高频考点句式,掌握后可大量复用

Cloning is too complicated a process.

第7题，A

虽为简单句，但表语部分 "too complicated a process" 采用了 "too + 形容词 + a + 名词" 的特殊语序，这是初学者容易混淆的固定结构，具有一定的成分划分练习价值。

M: A colleague mentioned the book, but I've been so busy writing my thesis that I haven't been able to read for pleasure in months.

第2段，第1句

覆盖主谓宾、主系表两种基本句型,包含表语、现在分词短语作状语、结果状语从句等多种成分,尤其 so that 结构和 have been able to 的成分划分有较好练习价值,适合训练复杂表语和状语从句的识别。

I don't want to say too much and spoil it for you, but it's definitely got some amazing technological and sociological concepts in it.

第3段，第4句

两个主句并列、用 but 转折是常见句式，现在完成时和不定式作宾语在考试中频繁出现。整体结构具有一定代表性，但不属于高频长难句类型。

M: It does sound like it would suit my taste, but if they are making a TV series based on it now, I don't know if I should read the book or watch the show first.

第4段，第1句

but连接的并列转折主句、if引导的条件状语从句、宾语从句嵌套,都是四六级和考研英语阅读中的高频句式。特别是"主句 + but + 条件从句 + 主句(含宾语从句)"这种结构在真题对话和阅读中反复出现。整体结构具有很强的代表性和复用价值。

M: When is the show supposed to start?

第6段，第1句

"be supposed to" 结构在口语和考试阅读中出现频率较高，疑问句形式也是常见句式。掌握该结构对理解安排、计划类表达有较好的迁移性，具有一定典型性。

Well, maybe you could download an electronic copy of the book and try to read it before the show starts.

第7段，第4句

情态动词 + 并列谓语 + 时间状语从句的结构在四六级和考研中非常常见,是典型的口语化建议句式,学习后可迁移到大量类似表达中,代表性较强。

Thanks for the tip, Alice.

第8段，第3句

虽为常见口语表达，但结构过于简单，不具备考试真题中常见的复杂句式特征，迁移价值有限。

Do you prefer to fill out an application on the web, or to print it out and fill it in by hand and then post it back to us?

第4段，第3句

宾语部分由 or 连接两个不定式短语,且第二个短语内部又包含 and 连接的多个动词(print, fill, post),对于练习识别并列宾语、理解省略 to 的不定式并列有一定价值。但整体成分种类有限,缺少定语、状语等其他典型成分。

Remember that you will have to have all your certificates to hand when you are filling out the forms, as the standards are high and they'll be carefully checked before anyone will be able to sell their produce at the event.

第4段，第4句

覆盖祈使句、宾语从句、多层状语从句、系表结构、被动语态、情态动词结构等丰富成分，并列谓语和多重嵌套都是高频考点，适合训练分句归属和成分识别

But can you give me your details anyway?

第5段，第2句

情态动词疑问句在四六级和考研真题中较为常见，双宾语结构也是典型考点。但本句结构过于简单，缺少从句或复杂修饰，代表性中等。

Thank you so much for your help.

第7段，第2句

祈使句在日常口语和应用文（如说明书、请求信）中常见，但在四六级、考研阅读理解的长难句中出现频率较低。本句结构虽典型，但代表性偏向口语化表达，对攻克考试长难句的迁移价值不高。

What both sides accept is that there has been a boom in the past few months, with increasing numbers of visitors pitching their tents on any bit of land they fancy in the UK.

第1段，第2句

本句涵盖丰富的成分类型：主语从句、表语从句、定语从句、with 复合结构作状语、介词短语作时间和地点状语。特别是主系表结构中主语和表语都是从句，以及定语从句省略关系代词的用法，都是考试常考且易错的点。there be 存在句、现在完成时、with 伴随结构也是重要的练习素材，训练价值高。

It is also cheap, at a time when many are worried about what the economic future holds.

第1段，第4句

本句体现的「主句 + 介词短语引出定语从句修饰时间名词 + 从句内嵌套宾语从句」是四六级和考研阅读中的高频句式。时间背景的定语从句修饰、宾语从句表达抽象内容，都是真题常考结构，典型性很强，掌握后可广泛迁移。

Similar action has been taken even in Scotland, where camping is usually permitted on most of its open land.

第2段，第3句

非限制性定语从句 + 被动语态是四六级和考研阅读中的高频句式，本句结构清晰典型，掌握后可迁移到大量类似句子，代表性较强。

It would make sense that wild campers need to ask for permission to camp from landowners, especially outside Scotland, where the law is far more restrictive.

第3段，第2句

句子涵盖了形式主语、主语从句、定语从句、不定式作宾语、地点状语等多种成分，且形式主语结构是易错点。学生需要区分形式主语与真正主语，识别 "that" 引导的从句充当主语，以及理解 "where" 引导的非限制性定语从句的修饰对象，这些都是高价值的训练内容。

Health experts advise going outdoors.

第16题，C

主谓加动名词宾语是四六级和考研阅读中的常见句式（如 suggest doing、enjoy doing 等），掌握后可迁移到大量类似结构。

Imagine boating down the Amazon River, minding your own business—calmly keeping an eye out for alarmingly large snakes—and a curious pink dolphin appears to swim alongside.

第1段，第1句

本句包含祈使句主谓宾结构、宾语从句、动名词作宾语、现在分词作状语、不定式作表语等多种成分，且 and 的连接作用容易被误判（易误认为并列主句），适合训练成分识别和结构层次分析。

While this may seem like a mythical creature, pink dolphins do exist in the Amazon region.

第1段，第2句

"While" 引导让步状语从句 + 主句的结构在四六级和考研阅读中高频出现，是表达转折对比的典型句式。主句使用 "do" 强调也是书面语中常见的语气手段。掌握这种结构后可广泛应用于理解类似的让步转折句

Although born gray, males of the species are easily identified as they enter adulthood by a decisive pink shade.

第3段，第1句

本句结合了让步状语从句、时间状语从句、被动语态和状语从句主语省略等多个四六级和考研真题中的高频句式特征；让步转折 + 被动语态的组合在科技说明文和议论文中常见，掌握后可大量复用。

The deeper the pink, the more attractive the males are believed to be, and the older the male, the more pink it will have.

第3段，第3句

该句是成分划分的优质练习材料。涵盖了主谓宾、主系表两种基本句型，包含被动语态、不定式、倒装语序、代词回指等多种成分识别难点。尤其 "the 比较级 ..., the 比较级 ..." 结构中的倒装和省略，以及 "are believed to be" 中被动加不定式的嵌套，都是考试常见易错点，训练价值高。

In a new Merrill Lynch/Age Wave survey, a full 70% of the early adults said they received financial support from their parents in the past year and 58% said they couldn't afford their current lifestyles without it.

第1段，第1句

并列句结构和 "said" 引导的宾语从句（省略 that）是四六级和考研阅读中的高频句式，情态动词表达能力或可能性的用法也很常见。句子结构具有较强的代表性和可迁移性，掌握后可应用于大量类似句型。

By contrast, only 29% thought supporting men and women age 18 to 24 is bad; the remaining 71% think that assistance "helps the adult children get ahead".

第2段，第2句

并列主句各带宾语从句的结构在四六级和考研阅读中非常常见，尤其是用于呈现对比观点或调查数据；掌握后可大量复用，具有较高的典型性

In fact, the respondents said, financial independence defines adulthood.

第3段，第2句

"主语 + said + 宾语从句" 是四六级和考研阅读中非常常见的引述结构，宾语从句省略 "that" 也是高频现象，掌握后可直接迁移到大量类似句型。

"Financial independence is something they were struggling with and challenged by. And it scared them a bit," Dychtwald said.

第3段，第3句

句中涵盖主谓宾、主系表、定语从句、并列谓语、程度状语、引述句宾语前置等多种成分和结构。定语从句省略关系代词且谓语为并列结构，是易错点；引述句的倒装结构也需专门练习。成分种类丰富且包含实用难点，作为划分练习句价值较高

One big reason they're struggling is attributed to college loans, of which the average amounts to \$37,000.

第3段，第4句

本句展示了四六级和考研阅读中的高频结构：主句使用被动语态，主语内嵌限制性定语从句，状语后附非限制性定语从句补充信息，且定语从句使用 "of which" 引导。这种 "核心陈述 + 定语从句层层修饰" 的句式在学术写作和考试真题中极为常见，掌握后可大量复用。

Many of the parents have taken on college loans for the kids, too, sometimes at the expense of their own finances.

第3段，第5句

本句涵盖主语、谓语（短语动词）、宾语、目的状语、方式状语等多种成分，成分种类较为丰富。短语动词 take on 与介词 on 的搭配、以及句末长状语的划分，对基础学习者有一定练习价值。但整体结构仍较简单，未涉及宾补、双宾语、复杂定语等易错点。

In the survey, 60% of early adults define financial success as being debt-free.

第3段，第6句

"数字% of 名词 + 动词"作主语，以及"define A as B"这种带宾语补足语的动词搭配，都是四六级、考研阅读中围绕调查数据展开论述时非常常见的句式，学会后可以直接迁移到大量同类统计类句子。

Whether that's likely, or even possible, anytime soon is anyone's guess.

第3段，第7句

本句覆盖的成分种类丰富：主语从句作主语、系动词作谓语、名词短语作表语、并列表语、时间状语。特别是主语从句作主语这一结构，是名词性从句的常见考点，且容易被学生误判为其他从句类型。本句可以很好地训练学生识别名词性从句在句中的位置和功能，以及理解并列表语的结构。

A full 70% of the young adults cannot afford to buy a car by themselves.

第22题，C

简单句结构常见，情态动词 cannot afford 和不定式宾语 to buy 都是考试中高频出现的搭配，百分比作主语也时常出现在数据类阅读文章中，具有较好的代表性和可迁移性。

Most early adults cannot sustain their lifestyles without parental support.

第22题, D

简单句配合情态动词和介词短语状语是四六级阅读中常见的基础句式, 体现否定情态的表达方式, 有一定代表性, 但结构过于简单, 不涉及从句或复杂修饰, 典型性中等。

It calls for due assistance.

第24题, C

"calls for"表示"需要、要求"是四六级、考研阅读中很常见的表达方式, 这种主语加短语动词加宾语的句式在类似语境里反复出现, 学生掌握这类识别方法后可以直接迁移到大量同类句子上。

Part III Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

It's well known that physical exercise is beneficial not just to physical health but also to mental health. Yet whereas most countries have 26, evidence-backed guidelines on the type and intensity of exercise 27 for various physical health benefits, such guidelines do not yet exist for exercise and mood. This is 28 due to a lack of necessary evidence. However, a new systematic review brings us usefully up to-date on the current findings in this area.

众所周知,体育锻炼不仅有益于身体健康,也有益于心理健康。然而,尽管大多数国家都有详细的、有证据支持的指南,说明各种身体健康益处所需的运动类型和强度,但针对运动与情绪的此类指南尚不存在。这部分是由于缺乏必要的证据。然而,一项新的系统性综述有效地让我们了解了该领域的最新研究发现。

Before 29 into some of the key take-aways, an important 30 made in the review is between aerobic exercise and anaerobic. The former 31 such things as walking, jogging and cycling and means exercising in such a way that your body is able to use oxygen to burn fat for energy. In contrast, anaerobic exercise—such as lifting heavy weights—is of such 32 intensity that your body does not have time to use oxygen to create energy and so instead it breaks down glucose(葡萄糖) in your blood or muscles.

在深入探讨一些关键要点之前,综述中做出的一个重要区分是有氧运动和无氧运动之间的区别。前者包括步行、慢跑和骑自行车等活动,意味着以这样一种方式进行锻炼,即你的身体能够利用氧气燃烧脂肪来产生能量。相比之下,无氧运动——如举重——强度非常剧烈,以至于你的身体没有时间利用氧气来产生能量,因此它会分解你血液或肌肉中的葡萄糖。

Beginning first with the influence of exercise intensity on the mood benefits of aerobic exercise, the researchers, led by John Chan at Shenzhen University, found 33 results from 19 relevant studies.

Some favoured higher intensity, others low, while seven studies found that intensity made no 34 to mood benefits.

首先从运动强度对有氧运动情绪益处的影响开始,由深圳大学John Chan领导的研究人员从19项相关研究中发现了相互矛盾的结果。一些研究支持较高强度,另一些支持低强度,而七项研究发现强度对情绪益处没有影响。

In relation to the intensity of anaerobic exercise, however, the results were far clearer—the optimum(最佳选择) for improving mood is 35 intensity, perhaps because low intensity is too dull while high intensity is too unpleasant.

然而,关于无氧运动的强度,结果要清晰得多——改善情绪的最佳选择是中等强度,这可能是因为低强度太枯燥而高强度太令人不适。

26. most countries have (26), evidence-backed guidelines on the type and intensity of exercise

【答案】 **D) detailed** 形容词

【词性槽】 have __, evidence-backed guidelines, 修饰 guidelines

【依据】 与 **evidence-backed** 并列修饰"指南", 最贴的是"详细的"

guidelines 的常见修饰是"详细的、有循证支撑的"——detailed, evidence-backed guidelines 正是常见地道搭配; 且与下文 such guidelines do not yet exist for exercise and mood 形成"运动健身的指南详尽, 但情绪方向还没有"的对比。

【竞争词】 B) **contradictory** "相互矛盾的指南"逻辑不通

contradictory 表"自相矛盾的", 作者要赞大多数国家有靠谱的指南, 不会说"自相矛盾"。

J) **moderate** moderate 修饰"强度"而非"指南"

moderate 在本文专指"中等强度"(见 35 题), 用来修饰 guidelines 既不搭配也无意义。

O) **vigorous** vigorous 修饰"运动", 不修饰"指南"

vigorous 常与 exercise/activity 搭配表"剧烈的", 无法形容指南文本。

27. guidelines on the type and intensity of exercise __ (27) __ for various physical health benefits

【答案】 **M) required** (动词)

【词性槽】 the type and intensity of exercise __ for various..., 后置定语动词

【依据】 **be required for = 为.....所必需**

原句要表达"为获得各种身体健康益处所需要的运动种类与强度"——guidelines on the type and intensity of exercise required for...physical health benefits, required for 与 "for various physical health benefits" 自然搭配。

【竞争词】 **K) notified notify 的对象是人, 不是"运动"**

notify 表"通知(某人)", 主语通常是"通知的内容", 而"运动被通知"语义荒谬; 且 notified for 也非地道搭配, 应是 notified of/about。

28. This is __ (28) __ due to a lack of necessary evidence.

【答案】 **L) partly** (副词)

【词性槽】 be 动词 + __ + due to, 空处修饰整个表语

【依据】 **下文转折"However"暗示"部分原因"而非全部**

空后是 due to a lack of necessary evidence. However, a new systematic review brings us usefully up to-date on the current findings in this area., "However" 表明证据并非全无、综述已带来更新, 所以缺乏证据只是"部分"原因, partly 与下文逻辑天然吻合。

【竞争词】 **N) traditionally "传统上"与上文"目前还没有指南"矛盾**

上文 such guidelines do not yet exist for exercise and mood 讲的是"目前"的状况, traditionally 意为"传统上、历来", 时间指向错位; 况且"传统上由于缺证据"读起来也不符合科学综述的客观语气。

【易错】 最具迷惑性的错误词是 **N)** —— traditionally 与"due to"看似自然, 但与下文 However 矛盾。traditionally 单看本句"传统上是由于缺乏证据"也成立, 副词位、句法都对; 防坑: 副词空务必读到下一句的逻辑词——However, a new systematic review brings us usefully up to-date 已部分推翻"缺证据"的说法, 所以只能是"部分原因"partly。

29. Before __(29)__ into some of the key take-aways

【答案】 **F) dipping** (动词)

【词性槽】 介词 Before 后 + __ into, 需动名词

【依据】 **dip into = 涉足、稍稍探讨某话题**

下文 Before __(29)__ into some of the key take-aways, an important __(30)__ made in the review is between aerobic exercise and anaerobic. 是过渡句——"在涉足/简略谈及这些要点之前, 先要....."。dip into 正是"稍微进入、涉足"的固定搭配, 与"key take-aways (关键点)"搭配自然, 且贴合综述类文章的口吻。

【竞争词】 H) **falling fall into** 意为"陷入/掉入", 多含被动或贬义

fall into 常表"陷入(困境/陷阱/分类)", 逻辑上不是作者主动"探讨"key take-aways, 而是"掉进去", 与作者掌控话题节奏的语气不符。

30. an important __(30)__ made in the review is between aerobic exercise and anaerobic.

【答案】 **G) distinction** (名词)

【词性槽】 an important __ made...between A and B

【依据】 **make a distinction between A and B = 区分 A 与 B**

空前明确是 between aerobic exercise and anaerobic——在"有氧与无氧之间作"区分"。make a distinction between 是地道搭配, 且下文整段都在分别解释两类运动的差别, 正是"区分"在展开。

【竞争词】 C) **decision make a decision** 不与 between A and B 这样接"两类区分"

make a decision 一般搭 about/on, 且表"在 A 与 B 之间作决定"时是二选一, 本文并不是要"在"有氧和无氧之间二选一", 而是要把它们"区分开"以便分别讨论。语义指向不符。

31. The former __(31)__ such things as walking, jogging and cycling...

【答案】 **I) involves** (动词)

【词性槽】 The former __ such things as..., 主语后缺谓语

【依据】 **involve such things as = 包括诸如.....这样的事物**

involve + such things as 是地道搭配, 表"包括、涉及(举例)"。文中要表达"前者(有氧运动)包括走路、慢跑、骑车这样的项目", involve 既符合搭配又符合"举例罗列"的语义。

【竞争词】 A) **constitutes constitute** 表"构成整体", 与"列举若干例"不符

constitute 的逻辑是"A、B、C 这些东西构成 X"或"X 由 A、B、C 构成"——把列举对象当成 X 的全部组分。但本句只是举"诸如"走路、慢跑、骑车这类的例子, 并非穷举构成有氧运动的全部内容, constitute 语气过死。

32. anaerobic exercise—such as lifting heavy weights—is of such __(32)__ intensity that your body does not have time to use oxygen

【答案】 **O) vigorous** (形容词)

【词性槽】 of such __ intensity that..., 定语修饰 intensity

【依据】 举例"举重"+结果"来不及用氧"=高强度

原句 anaerobic exercise—such as lifting heavy weights—is of such __(32)__ intensity that your body does not have time to use oxygen to create energy: 以"举重"为例, 强度大到身体来不及用氧——只有"剧烈的"vigorous 能既匹配举例又匹配结果。

【竞争词】 B) contradictory contradictory 不修饰"强度"

contradictory 用于"陈述/观点/结果"等, 搭配 intensity 不成立; 且语义上"自相矛盾的强度"也不解释"来不及用氧"。

33. the researchers, led by John Chan at Shenzhen University, found __(33)__ results from 19 relevant studies.

【答案】 **B) contradictory** (形容词)

【词性槽】 found __ results, 作 results 的前置定语

【依据】 下文"有的偏高、有的偏低、还有的无差别"=互相矛盾

紧接的具体说明 Some favoured higher intensity, others low, while seven studies found that intensity made no __(34)__ to mood benefits. 一句话三种立场互相冲突——这正是 contradictory results"相互矛盾的研究结果"。

34. seven studies found that intensity made no __(34)__ to mood benefits.

【答案】 **E) difference** (名词)

【词性槽】 made no __ to, 固定搭配 make a difference

【依据】 make no difference to = 对.....毫无影响

上文 Some favoured higher intensity, others low, while seven studies found that intensity made no __(34)__ to mood benefits."有些研究偏高强度、有些偏低、还有七项发现强度对情绪益处无影响"——difference 正好表达"无差别/无影响"的语义。

35. the optimum(最佳选择) for improving mood is __(35)__ intensity

【答案】 **J) moderate** (形容词)

【词性槽】 is __ intensity, 作 intensity 的定语

【依据】 下文"低太闷、高太难受"夹出中间值

紧接的解释 perhaps because low intensity is too dull while high intensity is too unpleasant. 给了一道送分题——既排斥 low (太枯燥) 又排斥 high (太难受), 那"最佳选择"自然是介于两者之间的 moderate (中等)。

【竞争词】 O) vigorous vigorous = 剧烈, 与"高强度太 unpleasant"矛盾

vigorous intensity 等同于 high intensity, 而下文直接否定了 high intensity, 故 vigorous 反而是命题人最爱埋的诱惑项。

B) contradictory "自相矛盾的强度"不通

contradictory 修饰"结论/说法", 不修饰"强度", 搭配错位、语义也无法解读。

【易错】 最具迷惑性的错误词是 O) —— vigorous 与 intensity 搭配地道, 最易误选。vigorous 修饰 intensity 在搭配上完全成立 (vigorous intensity 与 vigorous exercise 都常见), 不读后半句的考生很容易顺手选它; 防坑: 读完 high intensity is too unpleasant 后再回头——高强度被否, vigorous=高强度, 必排除。

全文主旨

运动强度与情绪改善的关系综述

本文综述近期研究, 讨论有氧/无氧运动的强度与情绪改善之间的关系。开篇即定调: It's well known that physical exercise is beneficial not just to physical health but also to mental health., 紧接着指出 such guidelines do not yet exist for exercise and mood, 引出综述要解决的问题; 结论上, 有氧研究结果不一, 而无氧运动以中等强度最利于情绪。

这 5 个词始终没被任何空选用

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边，却不该填进任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

A) **constitutes** 最像 31 题，迷惑点是同为单三动词

constitutes 与 involves 同为单三、可作 The former 的谓语，词性完全合规；但语义“构成全部”与原文 such things as walking, jogging and cycling 的“举例”基调不符——识破方法：看到 such...as... 列举结构，优先 involves/includes。

C) **decision** 最像 30 题，迷惑点是 make a decision 也可与 between 沾边

make a decision between 表“在 A、B 间作决定”在语法上能成立，但本文是“区分”而非“二选一”；识破方法：看后文是“分别展开 A 与 B”还是“只选 A 或 B”，前者用 distinction，后者才用 decision。

H) **falling** 最像 29 题，迷惑点是 fall into 也算固定短语

fall into 与 dip into 形式相近，且 fall into a topic/category 偶尔出现；但 fall into 的常见义是“陷入”或“归入某类”，语气被动；识破方法：作者作为综述者主动“探讨”要点，应选 dip into。

K) **notified** 最像 27 题，迷惑点是同为过去分词形态

notified 与 required 形态相同（-ed 过去分词作后置定语），词性合规；但 notify 的对象通常是“人”，且搭配 notified of/about 而非 notified for；识破方法：看空后介词，required for 才与上下文“为获得健康益处”的目的语义对得上。

N) **traditionally** 最像 28 题，迷惑点是同为副词且都能修饰 due to

traditionally 词性、位置都对得上 28 空；但本文谈的是“目前还没指南”，时间指向“当下”而非“传统上”；识破方法：读完整逻辑句，看下文 However, a new systematic review——However 信号说明只是“部分”原因，应选 partly。

Yet whereas most countries have detailed, evidence-backed guidelines on the type and intensity of exercise required for various physical health benefits, such guidelines do not yet exist for exercise and mood.

第1段，第2句

"whereas" 引导的让步状语从句 + 主句 是学术写作和考试阅读中的高频句式,用于对比或让步说明。这种前置状语从句干扰主干识别的结构,在四六级和考研真题中反复出现,掌握后可大量复用。

This is partly due to a lack of necessary evidence.

第1段，第3句

主系表结构是常见基础句型, "be due to" 表原因的用法在考试中也时有出现, 但整体句式过于简单, 不足以代表四六级或考研中更高频的复杂长句结构。

The former involves such things as walking, jogging and cycling and means exercising in such a way that your body is able to use oxygen to burn fat for energy.

第2段，第2句

本句体现了说明文或科普文章中的典型句式: 主句用并列谓语列举和解释概念 ("involves ... and means ..."), 嵌套一个状语从句补充细节。"such ... that" 结构在四六级和考研阅读中频繁出现, 用于说明因果或方式。并列谓语、动名词作宾语、不定式作目的状语都是常考点。掌握本句结构后可复用到大量科普、健康、教育类文章的长难句分析。

In contrast, anaerobic exercise—such as lifting heavy weights—is of such vigorous intensity that your body does not have time to use oxygen to create energy and so instead it breaks down glucose(葡萄糖) in your blood or muscles.

第2段，第3句

"such ... that ..." 引导结果状语从句是四六级和考研阅读中的高频句式,用于表达程度与结果的逻辑关系。本句还展示了同位语、不定式定语、并列谓语等常考结构的组合方式,具有很强的代表性和复用价值。

Beginning first with the influence of exercise intensity on the mood benefits of aerobic exercise, the researchers, led by John Chan at Shenzhen University, found contradictory results from 19 relevant studies.

第3段，第1句

本句涵盖了主语、谓语、宾语、状语、定语等多种成分，特别是现在分词短语作状语和过去分词短语作插入性定语，是容易混淆的考点。适合训练学生识别非谓语动词修饰成分、区分状语与定语、以及在插入成分干扰下定位主干的能力。

In relation to the intensity of anaerobic exercise, however, the results were far clearer—the optimum(最佳选择) for improving mood is moderate intensity, perhaps because low intensity is too dull while high intensity is too unpleasant.

第4段，第1句

破折号连接主句并用原因状语从句解释，是四六级和考研真题中常见的说明型长句结构，嵌套层级和逻辑关系都具有一定代表性，掌握后可迁移到类似句式。

Why Do Americans Work So Much?

A) How will we all keep busy when we only have to work 15 hours a week? That was the question that worried the British economist John Maynard Keynes when he wrote his short essay "Economic Possibilities for Our Grandchildren" in 1930. Over the next century, he predicted, the economy would become so productive that people would barely need to work at all. For a while, it looked like Keynes was right. In 1930 the average working week was 47 hours in the United States. But by 1970, the number of hours Americans worked on average had fallen to slightly less than 39.

当我们每周只需要工作15小时时,我们将如何让自己忙碌起来?这是英国经济学家约翰·梅纳德·凯恩斯在1930年撰写短文《我们后代的经济前景》时所担忧的问题。他预测,在接下来的一个世纪里,经济将变得如此高效,以至于人们几乎不需要工作。有一段时间,凯恩斯的预测似乎是正确的。1930年,美国的平均工作周为47小时。但到1970年,美国人平均工作时长已降至略低于39小时。

B) But then something changed. Instead of continuing to decline, the duration of the working week remained stable. It has stayed at just below 40 hours for nearly five decades. So what happened? Why are people working just as much today as in 1970?

但随后情况发生了变化。工作周时长并未继续下降,而是保持稳定。近五十年来,它一直保持在略低于40小时的水平。那么发生了什么?为什么人们今天的工作时长与1970年一样多?

C) There would be no mystery in this if Keynes had been wrong about the power of technology to increase the economy's productivity, which he thought would lead to a standard of living "between four and eight times as high as it is today." But Keynes got that right: Technology has made the economy massively more productive. According to Benjamin M. Friedman, an economist at Harvard,

the U.S. economy is right on track to reach Keynes's eight-fold(八倍) multiple by 2029. That is a century after the last data Keynes would have had access to.

如果凯恩斯对技术提高经济生产率的力量判断错误的话,这就不会是个谜了,他认为这种力量会带来"比今天高四到八倍"的生活水平。但凯恩斯在这一点上是对的:技术使经济的生产率大幅提高。根据哈佛大学经济学家本杰明·M·弗里德曼的说法,美国经济正按计划在2029年达到凯恩斯预测的八倍增长。那是在凯恩斯所能获取的最后数据之后的一个世纪。

- D) In a new paper, Friedman tries to figure out why that increased productivity has not translated into increased leisure time. Perhaps people just never feel materially satisfied, always wanting more money to buy the next new thing. This is a theory that appeals to many economists. "This argument is, at best, far from sufficient," he writes. If that were the case, why did the duration of the working week decline in the first place?

在一篇新论文中,弗里德曼试图弄清楚为什么生产率的提高没有转化为休闲时间的增加。也许人们在物质上永远不会感到满足,总是想要更多的钱来购买下一件新东西。这是一个吸引许多经济学家的理论。"这个论点充其量远远不够,"他写道。如果是这样的话,为什么工作周时长一开始会下降呢?

- E) Another theory Friedman considers is that, in an era of ever fewer settings that provide effective opportunities for personal connections and relationships, people may place more value on the socializing that happens at work. There is support for this theory. Many people today consider colleagues as friends. But Friedman argues that the evidence for this theory is far from conclusive. Many workers report that they would like to spend more time with family, rather than at work. Furthermore, this theory cannot explain the change in trend in the U.S. working week in the 1970s.

弗里德曼考虑的另一个理论是,在一个为个人联系和关系提供有效机会的场所越来越少的时代,人们可能更重视工作中发生的社交活动。这一理论有其支持依据。今天许多人把同事视为朋友。但弗里德曼认为,支持这一理论的证据远非确凿。许多员工表示,他们希望花更多时间与家人在一起,而不是在工作中。此外,这一理论无法解释20世纪70年代美国工作周趋势的变化。

- F) A third possibility proves more convincing for Friedman. That is: American inequality means that the gains of increasing productivity are not widely shared by everyone. In other words, most Americans are too poor to work less. Unlike the other two explanations Friedman considers, this one fits chronologically(按年代). Inequality declined in America during the period following World War II, along with the duration of the working week. But since the early 1970s it has risen dramatically.

第三种可能性对弗里德曼来说更具说服力。那就是:美国的不平等意味着生产率提高的成果并非由每个人广泛分享。换句话说,大多数美国人太穷而无法减少工作。与弗里德曼考虑的其他两种解释不同,这种解释在时间顺序上是吻合的。在第二次世界大战后的时期,美国的不平等现象有所下降,工作周时长也随之下降。但自20世纪70年代初以来,不平等现象急剧上升。

- G) Keynes's prediction of a shorter working week rests on the idea that the standard of living would continue rising for everyone. But Friedman says that this is not what has happened. Although Keynes's eight-fold figure holds up for the economy as a whole, it is not at all the case for the median(中位数的) American worker. For them, output by 2029 is likely to be around 3.5 times what it was when Keynes was writing. This is a bit below his four-to eight-fold predicted range.

凯恩斯关于缩短工作周的预测基于这样一个理念:每个人的生活水平将继续提高。但弗里德曼说,事实并非如此。尽管凯恩斯的八倍数字对整体经济而言是成立的,但对于美国中位数工人来说,情况完全不同。对他们而言,到2029年的产出可能只是凯恩斯写作时的约3.5倍。这略低于他预测的四到八倍范围。

- H) This can be seen in the median worker's income over this time period, complete with a shift in 1973 that fits in precisely with when the working week stopped shrinking. According to Friedman, between 1947 and 1973 the average hourly wage for normal workers (those who were not in management roles) in private industries other than agriculture nearly doubled in terms of what their money could buy. But by 2013 the average hourly wage for ordinary workers had fallen 5 percent from the 1973 level in terms of actual purchasing power. Thus, though American incomes may have gone up since 1973, the amount that American workers can actually buy with their money has gone down. For most Americans, then, the magic of increasing productivity stopped working around 1973. Thus, they had to keep working just as much in order to maintain their standard of living.

这可以从这一时期中位数工人的收入中看出,其中包括1973年的转变,这恰好与工作周停止缩短的时间相吻合。根据弗里德曼的说法,在1947年至1973年间,农业以外的私营行业普通工人(那些不担任管理职务的人)的平均小时工资,就其货币购买力而言,几乎翻了一番。但到2013年,普通工人的平均小时工资就实际购买力而言,比1973年的水平下降了5%。因此,尽管自1973年以来美国人的收入可能有所增加,但美国工人用他们的钱实际能购买的数量却下降了。因此,对于大多数美国人来说,生产率提高的魔力在1973年左右停止发挥作用。因此,他们不得不继续工作同样长的时间以维持生活水平。

- I) What Keynes predicted was a very optimistic version of what economists call technological unemployment. This is the idea that less labor will be necessary because machines can do so much. In Keynes's vision, the resulting unemployment would be distributed more or less evenly across society in the form of increased leisure. But Friedman says that, for Americans, reality is much darker. Americans now have a labor market in which millions of people—those with fewer skills and less education—are seeking whatever poorly paid work they can get. This is confirmed by a recent poll that found that, for half of hourly workers, their top concern is not that they work too much but that they work too little. This is most likely not because they like their jobs so much. Rather, we can assume it is because they need the money.

凯恩斯预测的是经济学家所称的技术性失业的一个非常乐观的版本。这个理念是,由于机器可以做很多事情,所需的劳动力将会减少。在凯恩斯的设想中,由此产生的失业将以增加休闲时间的形式或多或少均匀地分布在整个社会。但弗里德曼说,对美国人而言,现实要黑暗得多。美国现在的劳动力市场中,数百万人——那些技能较少、教育水平较低的人——正在寻找任何他们能得到的低薪工作。最近的一项民意调查证实了这一点,该调查发现,对于一半的按小时计酬的工人来说,他们最关心的不是工作太多,而是工作太少。这很可能不是因为他们如此喜欢自己的工作。相反,我们可以推测这是因为他们需要钱。

- J) This explanation leaves an important question. If the very rich—the workers who have reaped above-average gains from the increased productivity since Keynes's time—can afford to work less, why do they continue to work so much? (Indeed, research has shown that the highest earners in America tend to work the most.) Friedman believes that for many top earners, work is a labor of love. They are doing work they care about and are interested in, and doing more of it is not necessarily a burden. For them, it may even be a pleasure. These top earners derive meaning from their jobs and work is an important part of how they think of themselves. And, of course, they are compensated for it at a level that makes it worth their while.

这一解释留下了一个重要问题。如果非常富有的人——那些从凯恩斯时代以来生产率提高中获得高于平均水平收益的工人——能够负担得起减少工作,为什么他们继续工作那么多?(事实上,研究表明,美国收入最高的人往往工作最多。)弗里德曼认为,对许多高收入者来说,工作是一种热爱的劳动。他们正在做自己关心和感兴趣的工作,做更多这样的工作不一定是负担。对他们来说,这甚至可能是一种乐趣。这些高

收入者从工作中获得意义,工作是他们如何看待自己的重要组成部分。当然,他们获得的报酬水平使这一切变得值得。

K) Friedman concludes that the prosperity(繁荣) Keynes predicted is here. After all, the economy as a whole has grown even more brilliantly than he expected. But for most Americans, that prosperity is nowhere to be seen. And, as a result, neither are those shorter working weeks.

弗里德曼得出结论,凯恩斯预测的繁荣已经到来。毕竟,整体经济的增长甚至比他预期的还要辉煌。但对大多数美国人来说,这种繁荣无处可见。因此,那些更短的工作周也无处可见。

陈述句与逐句解析

36. Some people view socializing at the workplace as a chance to develop personal relationships.

有些人将职场社交视为发展个人关系的机会。

【答案】 E 段 (强锚点)

【锚点】 把职场社交当作发展私人关系的机会

【定位】 Another theory Friedman considers is that, in an era of ever fewer settings that provide effective opportunities for personal connections and relationships, people may place more value on the socializing that happens at work.

弗里德曼考察的另一种理论是: 在一个能提供有效私人联结与关系机会的场合越来越少的时代, 人们可能更看重发生在工作场所的社交。

【改写】 socializing at the workplace ↔ the socializing that happens at work

同义替换

a chance to develop personal relationships ↔

effective opportunities for personal connections and relationships

上位概括 + 名词转动词

37. As ordinary American workers' average hourly pay had decreased despite increasing productivity, they had to work just as many hours as before to keep their living standards.

尽管生产率不断提高,普通美国工人的平均时薪却有所下降,因此他们不得不像以前一样工作同样长的时间来维持生活水平。

【答案】 H 段 (强锚点)

【锚点】 时薪下降但生产率上升、为维持生活水平不得不维持工时

【定位】 Thus, though American incomes may have gone up since 1973, the amount that American workers can actually buy with their money has gone down. For most Americans, then, the magic of increasing productivity stopped working around 1973. Thus, they had to keep working just as much in order to maintain their standard of living.

因此，尽管 1973 年以来美国人的收入或许有所增加，但美国工人实际能用这些钱买到的东西却变少了。对大多数美国人而言，生产率上升的魔力大约在 1973 年前后就不再奏效，所以为了维持生活水平，他们不得不一如既往地继续工作。

【改写】 ordinary American workers' average hourly pay had decreased ↔

the average hourly wage for ordinary workers had fallen 5 percent from the 1973 level in terms of actual purchasing power

数字弱化 + 同义替换

despite increasing productivity ↔

the magic of increasing productivity stopped working around 1973

尽管/即便的逻辑等值

they had to work just as many hours as before to keep their living standards ↔

they had to keep working just as much in order to maintain their standard of living

同义词替换 + 句式同构

【辨邻】 **G** G 段虽然也涉及生产率与生活水平，但说的是 output by 2029 is likely to be around 3.5 times what it was when Keynes was writing 这种产出倍数口径，没有 average hourly pay had decreased 的时薪下降事实，也没有 work just as many hours as before to keep their living standards 的工时结论，只覆盖一部分。

output by 2029 is likely to be around 3.5 times what it was when Keynes was writing

F F 段虽然也回答工时为什么没缩短，但用的解释是 American inequality means that the gains of increasing productivity are not widely shared by everyone 与 most Americans are too poor to work less，没有出现陈述句要求的 average hourly pay had decreased 这一时薪下降事实，话题接近但事实点不同。

most Americans are too poor to work less

38. American workers' average weekly working time has not changed for nearly half a century.

美国工人的平均每周工作时间近半个世纪以来没有变化。

【答案】 **B** 段（强锚点）

【锚点】 周工时近半个世纪没变

【定位】 Instead of continuing to decline, the duration of the working week remained stable. It has stayed at just below 40 hours for nearly five decades.

周工时没有继续下降，而是保持稳定，在略低于 40 小时的水平上保持了将近五十年。

【改写】 American workers' average weekly working time ↔ **the duration of the working week**

同义替换 + 默认主语

has not changed for nearly half a century ↔

remained stable 与 It has stayed at just below 40 hours for nearly five decades

否定式同义改写 + 数字单位换算

【辨邻】 **A** A 段虽然也讲美国周工时，但描述的是 by 1970, the number of hours Americans worked on average had fallen to slightly less than 39 这一段下降史实，方向是下降而不是 has not changed for nearly half a century 的停滞，时间段也不同。

by 1970, the number of hours Americans worked on average had fallen to slightly less than 39

39. Friedman believes inequality in the U.S. largely explains why increasing productivity has not resulted in reduced working hours.

Friedman 认为美国的不平等现象在很大程度上解释了为什么生产率提高没有导致工作时间减少。

【答案】 **F** 段（强锚点）

【锚点】 弗里德曼用不平等解释生产率上升却没换来更少工时

【定位】 A third possibility proves more convincing for Friedman. That is: American inequality means that the gains of increasing productivity are not widely shared by everyone. In other words, most Americans are too poor to work less.

第三种可能性对弗里德曼来说更有说服力——美国的不平等意味着生产率上升的收益并没有被所有人广泛分享；换句话说，大多数美国人穷得没办法少工作。

【改写】 Friedman believes inequality in the U.S. largely explains why increasing productivity has not resulted in reduced working hours

↔ **A third possibility proves more convincing for Friedman**

态度强度同义

inequality in the U.S. ↔ **American inequality**

形容词与介词短语互换

why increasing productivity has not resulted in reduced working hours ↔

the gains of increasing productivity are not widely shared by everyone 与 most Americans are too poor to work less

因果链改写 + 结果同义

【辨邻】 D 段同样涉及弗里德曼的解释体系，但讨论的是 people just never feel materially satisfied 这种物欲假说，弗里德曼对它的态度是 far from sufficient，与陈述句的 inequality 主张与 Friedman believes 的强度都不一致。

people just never feel materially satisfied, always wanting more money to buy the next new thing

E 段讨论的是 people may place more value on the socializing that happens at work 这一社交价值假说，弗里德曼的态度是 the evidence for this theory is far from conclusive，与陈述句要的 inequality 不平等假说不是同一维度。

people may place more value on the socializing that happens at work

40. Many economists assume people's thirst for material things has prevented them from enjoying more leisure time.

许多经济学家认为人们对物质的渴望使他们无法享受更多的休闲时间。

【答案】 D 段（强锚点）

【锚点】 许多经济学家认为对物质的渴望挡住了人享受闲暇

【定位】 Perhaps people just never feel materially satisfied, always wanting more money to buy the next new thing. This is a theory that appeals to many economists.

也许是人在物质上从不会感到满足，总想要更多的钱去买下一件新东西。这是一种让许多经济学家信服的理论。

【改写】 Many economists assume ↔ This is a theory that appeals to many economists

持有理论 = 认为

people's thirst for material things ↔

people just never feel materially satisfied, always wanting more money to buy the next new thing

名词化概括

prevented them from enjoying more leisure time ↔

why that increased productivity has not translated into increased leisure time

因果反向同义

【辨邻】 E 段虽然也是弗里德曼考察的另一种解释，但观点是 people may place more value on the socializing that happens at work，关键词是社交不是物质，不符合陈述句的 thirst for material things。

people may place more value on the socializing that happens at work

F 段的核心解释是 American inequality means that the gains of increasing productivity are not widely shared by everyone，归因落在不平等，与 thirst for material things 的物欲归因不是同一种解释。

American inequality means that the gains of increasing productivity are not widely shared by everyone

41. An economist's prediction about a shorter average working week seemed to be correct for a time in the 20th century.

一位经济学家关于平均工作周缩短的预测在20世纪的一段时间内似乎是正确的。

【答案】 A 段 (强锚点)

【锚点】 某位经济学家关于更短周工时的预测在 20 世纪曾一度看似正确

【定位】 How will we all keep busy when we only have to work 15 hours a week? That was the question that worried the British economist John Maynard Keynes when he wrote his short essay "Economic Possibilities for Our Grandchildren" in 1930. Over the next century, he predicted, the economy would become so productive that people would barely need to work at all. For a while, it looked like Keynes was right. In 1930 the average working week was 47 hours in the United States. But by 1970, the number of hours Americans worked on average had fallen to slightly less than 39.

当我们一周只需工作 15 小时时，我们要拿什么来打发时间？这是 1930 年英国经济学家凯恩斯在写下短文《我们孙辈的经济可能性》时心里担忧的问题。他预言在接下来的一个世纪里，经济会变得高产到人几乎不必工作。有一段时间看起来凯恩斯说对了——1930 年美国的平均周工时是 47 小时，但到 1970 年已下降到略低于 39 小时。

【改写】 An economist's prediction about a shorter average working week ↔

he predicted, the economy would become so productive that people would barely need to work at all

概括上位 + 名词化

seemed to be correct for a time in the 20th century ↔

For a while, it looked like Keynes was right 与 In 1930 the average working week was 47 hours 与 by 1970, the number of hours Americans worked on average had fallen to slightly less than 39

时间副词换 + 具体年份概括为世纪

【辨邻】 C C 段同样肯定凯恩斯的预测，但对的是 Technology has made the economy massively more productive 这条技术-生产率预测，而非陈述句要 a shorter average working week 周工时缩短预测。

Technology has made the economy massively more productive

42. In the U.S. labor market, the primary concern of people with less schooling and fewer skills is to secure any employment even if it is low-paid.

在美国劳动力市场,受教育程度较低、技能较少的人首要关注的是获得任何工作,即使报酬很低。

【答案】 I 段 (强锚点)

【锚点】 受教育与技能较少者最在意能找到任何工作、哪怕低薪

【定位】 Americans now have a labor market in which millions of people—those with fewer skills and less education—are seeking whatever poorly paid work they can get. This is confirmed by a recent poll that found that, for half of hourly workers, their top concern is not that they work too much but that they work too little.

美国现在的劳动力市场上，数以百万计的人——技能较少、受教育较少的人——正在寻找任何能找到的低薪工作。最近一项民意调查也证实了这一点：在时薪工人中，有一半人最担心的不是自己工作太多，而是工作太少。

【改写】 people with less schooling and fewer skills ↔ **those with fewer skills and less education**

同义词替换 + 语序互换

the primary concern ↔ **their top concern**

同义词替换

to secure any employment even if it is low-paid ↔

seeking whatever poorly paid work they can get 与 their top concern is ... that they work too little

同义动词替换 + 让步逻辑同义

【辨邻】 **H** H 段虽然也讲美国普通劳动者，但用的描述是 normal workers (those who were not in management roles) 与 ordinary workers，讨论的是时薪购买力下降，与陈述句要的人 people with less schooling and fewer skills 与 to secure any employment even if it is low-paid 不在一个对象与目标上。

between 1947 and 1973 the average hourly wage for normal workers

43. Keynes was right in predicting that technology would make the economy much more productive.

Keynes 预测技术将使经济的生产率大幅提高，这一预测是正确的。

【答案】 **C** 段（强锚点）

【锚点】 凯恩斯关于技术让经济大幅增产的预测被证实

【定位】 There would be no mystery in this if Keynes had been wrong about the power of technology to increase the economy's productivity, which he thought would lead to a standard of living "between four and eight times as high as it is today." But Keynes got that right: Technology has made the economy massively more productive.

如果凯恩斯关于技术能提升经济生产率的判断是错的，那这件事就没什么神秘的了——他当年认为这种技术力量会让生活水平比今天高四到八倍。但凯恩斯这一点说对了：技术已经让经济的生产率大幅提升。

【改写】 Keynes was right in predicting ↔ **But Keynes got that right**

同义短语

technology would make the economy much more productive ↔

Technology has made the economy massively more productive

时态切换 + 副词同义

【辨邻】 A A 段虽然也涉及凯恩斯，但对的是 he predicted, the economy would become so productive that people would barely need to work at all 这一工时预测的早期成立期；陈述句要的是技术-生产率本身被证实，对位的是 C 段的 Technology has made the economy massively more productive。

he predicted, the economy would become so productive that people would barely need to work at all

G G 段虽然也提凯恩斯，但讨论的是 Keynes's prediction of a shorter working week rests on the idea that the standard of living would continue rising for everyone 与该预测对中位数工人不成立的反例，态度是部分否定；陈述句要的是技术-生产率预测被肯定，方向相反。

But Friedman says that this is not what has happened

44. Many of the highest earners have a keen interest in and love for what they are doing.

许多高收入者对自己所从事的工作有着浓厚的兴趣和热爱。

【答案】 J 段（强锚点）

【锚点】 许多最高收入者对自己所做的工作抱有浓厚兴趣与热爱

【定位】 Friedman believes that for many top earners, work is a labor of love. They are doing work they care about and are interested in, and doing more of it is not necessarily a burden.

弗里德曼认为，对很多顶层高收入者来说，工作就是出于爱的劳动；他们在做自己关心、感兴趣的事，多做一点也未必是负担。

【改写】 Many of the highest earners ↔ the highest earners in America 与 for many top earners
同义词替换

a keen interest in and love for what they are doing ↔

work is a labor of love 与 They are doing work they care about and are interested in
习语展开 + 同义改写

【辨邻】 I I 段讨论的是 those with fewer skills and less education，他们的态度是 we can assume it is because they need the money——出于需要钱，而非陈述句要的 a keen interest in and love for what they are doing 出于热爱。

we can assume it is because they need the money

45. According to Keynes, there would be a shorter working week with everyone's standard of living continuing to rise.

根据Keynes的观点,在每个人的生活水平持续提高的同时,工作周将会缩短。

【答案】 G 段（强锚点）

【锚点】 凯恩斯认为周工时缩短的同时所有人生活水平继续上升

【定位】 Keynes's prediction of a shorter working week rests on the idea that the standard of living would continue rising for everyone.

凯恩斯关于周工时会缩短的预测，建立在所有人生活水平会持续上升这一前提之上。

【改写】 According to Keynes, there would be a shorter working week ↔

Keynes's prediction of a shorter working week

态度归属 + 名词化

everyone's standard of living continuing to rise ↔

the standard of living would continue rising for everyone

句式重构 + 主语位置互换

【辨邻】 A A 段虽然也讲凯恩斯与更短周工时，但表达的是 For a while, it looked like Keynes was right 与 he predicted, the economy would become so productive that people would barely need to work at all, 没有出现 everyone's standard of living continuing to rise 这一前提条件。

he predicted, the economy would become so productive that people would barely need to work at all

C C 段虽然也提到凯恩斯所谓的生活水平 between four and eight times as high as it is today, 但主线是 Technology has made the economy massively more productive 这一技术-生产率预测的成立，没有把 a shorter working week 与 everyone's standard of living continuing to rise 这两块信息绑在一起。

Technology has made the economy massively more productive

11 个段落各讲了什么

逐段一句主旨 + 该段最具区分度的「信息指纹」，是逐句回扫定位的工作台。

A 引出英国经济学家凯恩斯 1930 年的旧文与预言——技术会让经济极度高产、人每周只需工作很少；并给出 1930 年到 1970 年美国周工时确实从 47 小时降到不足 39 小时这一段历史佐证。

信息指纹 凯恩斯 1930 年旧文与早期周工时下降史实

B 1970 年之后周工时不再下降，而是稳定在略低于 40 小时、维持了将近 50 年，提出本文核心疑问：为什么今天的人工时和 1970 年差不多？

信息指纹 周工时停滞近五十年这一关键事实

C 肯定凯恩斯关于技术能极大提升生产率的判断没有错——美国经济正按 eight-fold 的轨道在 2029 年前后实现凯恩斯当年预测的八倍增长。

信息指纹 凯恩斯对技术与生产率的预测被证实

D 弗里德曼讨论第一种解释——人在物质上从不满足、总想要更多新东西，所以宁愿继续工作；但他认为这一被许多经济学家接受的理论远不充分。

信息指纹 物欲不满足假说及其被否定

E 弗里德曼讨论第二种解释——在能建立私人联结的场合越来越少的时代，人们可能更看重职场里的社交，所以选择继续在工作中度过时间。

信息指纹 工作社交价值假说

F 弗里德曼更认可的第三种解释——美国的不平等让生产率增长的收益没有惠及大多数人，大多数美国人穷得没法少工作；并指出不平等的时间走向恰好和工时停滞吻合。

信息指纹 不平等假说与时间走向吻合

G 凯恩斯关于周工时缩短的预测建立在所有人生活水平都同步上升的假设上；但对美国中位数劳动者而言，到 2029 年产出大约只有 1930 年的 3.5 倍，低于凯恩斯四到八倍的预测区间。

信息指纹 中位数劳动者只达到 3.5 倍、跑不出凯恩斯区间

H 用中位数劳动者的工资数据落地不平等论：1947 到 1973 年普通工人时薪购买力近乎翻倍，1973 后却下滑，到 2013 年比 1973 年低 5%，所以普通人必须继续多工作才能维持生活水平。

信息指纹 1973 年这一拐点与时薪购买力下滑 5%

I 把凯恩斯所谓的技术性失业放在美国的现实里看：劳动力市场上技能与受教育程度较低者只能去抢任何能找到的低薪工作；调查显示一半时薪工人最担心的不是工作太多，而是工作太少。

信息指纹 技能不足者抢低薪工作、担心做得不够多

J

回答另一个悬而未决的问题——已经因生产率收益受益的高收入者为何还要拼命工作？弗里德曼认为，对许多顶层赚得最多的人来说，工作是出于热爱、是身份认同的一部分，并且回报丰厚。

信息指纹 高收入者把工作当作热爱与身份认同

K

结论段——凯恩斯预测的繁荣对整个经济体而言确实到来了，甚至超过他的预期；但对大多数美国人来说看不到这份繁荣，因此更短的周工时也看不到。

信息指纹 结论性总括：繁荣有、但对大多数人看不见

Over the next century, he predicted, the economy would become so productive that people would barely need to work at all.

A段，第3句

覆盖插入语识别、宾语从句、结果状语从句、系表结构、不定式作宾语、程度状语等多种成分，且"so...that"结构是考试常见考点。句中"barely"和"at all"的搭配、插入语的位置都是值得练习的易错点，训练价值较高。

Instead of continuing to decline, the duration of the working week remained stable.

B段，第2句

本句涵盖主语（含后置定语）、系动词谓语、表语及句首状语（介词短语，内含动名词及不定式），成分种类有一定覆盖面。句首状语中"continuing to decline"的动名词与不定式搭配，可作为非谓语动词辨识的练习点。但因无从句、无复杂修饰或易混淆结构，训练价值中等。

There would be no mystery in this if Keynes had been wrong about the power of technology to increase the economy's productivity, which he thought would lead to a standard of living "between four and eight times as high as it is today."

C段，第1句

全句包含四层结构：主句、条件状语从句、非限制性定语从句（修饰条件从句中的宾语成分）、比较从句（嵌套在定语从句的宾语中）。定语从句修饰的对象位于条件从句内部，比较从句又嵌在定语从句的宾语短语里，层层咬合，需反复回读才能理清各层归属关系。

According to Benjamin M.Friedman, an economist at Harvard, the U.S. economy is right on track to reach Keynes's eight-fold(八倍) multiple by 2029.

C段，第3句

典型的主系表结构，配合句首介词短语作状语，是四六级和考研阅读中常见的陈述句式；"According to" 引出来源、"on track to do" 表达进展状态，都是高频句式，掌握后可在大量句子中复用

That is a century after the last data Keynes would have had access to.

C段，第4句

本句涵盖了主系表结构、省略关系代词的定语从句、介词短语作定语、固定搭配 have access to 等多种成分。特别是定语从句中关系代词的省略和宾语前置，以及虚拟语气的谓语结构，都是考试常见且易错的考点。对于练习成分划分和从句识别很有价值。

In a new paper, Friedman tries to figure out why that increased productivity has not translated into increased leisure time.

D段，第1句

主句 + 宾语从句 是四六级和考研阅读中的高频句式。句中 try to do 结构、why 引导的宾语从句、现在完成时的使用都是考试常见考点。句子长度适中,复杂度适当,非常适合作为典型例句进行学习和迁移。

"This argument is, at best, far from sufficient," he writes.

D段，第4句

直接引语作宾语从句是学术写作和新闻报道的常见句式，插入语at best的用法也频繁出现在议论文中；这种引述结构在考研和四六级阅读中反复出现，典型性较高

If that were the case, why did the duration of the working week decline in the first place?

D段，第5句

条件状语从句 + 疑问主句的组合是常见的反问句式，虚拟语气在条件从句中的应用也是考试高频考点。该句式在议论文和学术写作中常用于质疑假设，具有较高的代表性和可迁移性。

Another theory Friedman considers is that, in an era of ever fewer settings that provide effective opportunities for personal connections and relationships, people may place more value on the socializing that happens at work.

E段，第1句

本句成分丰富:主句包含主系表结构,定语从句考查关系代词省略,表语从句考查从句作表语,内部含多个状语(时间背景状语、介词短语状语)和定语从句。涉及省略关系代词、从句嵌套、状语位置识别等多个易错点,覆盖面广,适合作为综合划分练习句。

But Friedman argues that the evidence for this theory is far from conclusive.

E段，第4句

"argue/claim/believe + that 从句" 是学术写作和考试阅读中的高频句式，转折连词引出反驳观点也是议论文常见结构，典型性较强，掌握后迁移价值高。

Many workers report that they would like to spend more time with family, rather than at work.

E段，第5句

主句带宾语从句的结构是四六级和考研阅读中的高频句式，特别是 "report/say/think + that从句" 这类表达。"would like to" 和 "rather than" 也是常考搭配，具有较强的代表性和迁移价值。

Furthermore, this theory cannot explain the change in trend in the U.S. working week in the 1970s.

E段，第6句

结构具有较高的典型性。情态动词 + 动词原形 + 宾语的结构，以及宾语后接多层介词短语定语的模式，在学术写作和考试阅读中非常常见，尤其是在表达能力、可能性、评价等语义时。这种结构简单但实用性强，学生掌握后可以在大量类似句子中快速识别主干和修饰关系，具有良好的迁移价值。

In other words, most Americans are too poor to work less.

F段，第3句

"主语 + 系动词 + 表语(含 too...to... 结构)" 是四六级和考研阅读中的常见句式。"too...to..." 表示 "太...以至于不能..." 是高频考点。插入语 "In other words" 也是学术和正式文体的典型过渡表达。掌握本句结构可迁移到大量类似句子。

Although Keynes's eight-fold figure holds up for the economy as a whole, it is not at all the case for the median(中位数的) American worker.

G段，第3句

让步状语从句搭配主句的转折对比结构在四六级和考研阅读中非常常见，是典型的论证句式。掌握这种 "Although... 从句, 主句" 的模式对理解学术文本和议论文有较高的迁移价值。

For them, output by 2029 is likely to be around 3.5 times what it was when Keynes was writing.

G段，第4句

"be likely to be" 表达可能性、"倍数 + what" 引导比较结构、时间状语从句修饰过去状态，这些都是四六级和考研阅读中常见的句式。尤其倍数比较和 "what" 引导的名词性结构在真题中频繁出现，掌握后可复用于大量类似句子，典型性较高。

This can be seen in the median worker's income over this time period, complete with a shift in 1973 that fits in precisely with when the working week stopped shrinking.

H段，第1句

本句成分丰富：主句包含主语、情态被动谓语、两个状语（地点状语和补充说明状语）；定语从句包含关系代词主语、谓语、方式状语、介词状语；宾语从句包含时间状语引导词、主语、谓语。覆盖了情态被动、定语从句主语、介词宾语从句、短语动词、方式状语等多种易错点，适合作为成分划分练习句。

But by 2013 the average hourly wage for ordinary workers had fallen 5 percent from the 1973 level in terms of actual purchasing power.

H段，第3句

本句结构为 "主语(带定语) + 时间状语 + 谓语(过去完成时) + 程度状语 + 参照状语 + 方式状语", 这种 "一个主句 + 多个状语修饰谓语" 的模式在四六级和考研阅读中非常常见, 尤其是描述统计数据、事实变化的句子。学习者掌握这一句式后可广泛迁移到类似语境, 典型性较高。

For most Americans, then, the magic of increasing productivity stopped working around 1973.

H段，第5句

简单句在四六级和考研阅读中较为常见，尤其是句首带状语、主语含后置定语、谓语为动词短语这种结构。'stop doing' 结构也是高频考点。但简单句本身在真题中占比不如复合句和长难句高，且本句缺少从句、并列等更典型的考试句式特征，因此典型性中等偏上。

Thus, they had to keep working just as much in order to maintain their standard of living.

H段，第6句

本句的 have to do 表示必要性、keep doing 表示持续动作、in order to do 表示目的，这三种结构都是四六级和考研阅读中的高频句式。句子整体结构简洁但包含典型用法，学习者掌握后可以在大量类似句子中复用这些模式。

What Keynes predicted was a very optimistic version of what economists call technological unemployment.

I段，第1句

主系表结构配合主语从句和嵌套的宾语从句是四六级和考研阅读中的高频句式，what 引导的名词性从句尤其常见。本句结构典型、可迁移性强，掌握后可应用于大量类似句子的分析。

Americans now have a labor market in which millions of people—those with fewer skills and less education—are seeking whatever poorly paid work they can get.

I段，第5句

本句涵盖主谓宾、时间状语、地点状语、同位语、定语从句、宾语从句等多种成分，且定语从句中"in which"结构、宾语从句中"whatever"引导的特殊用法、破折号引出同位语等都是值得练习的常见难点，成分种类丰富，适合作为综合训练材料。

This is confirmed by a recent poll that found that, for half of hourly workers, their top concern is not that they work too much but that they work too little.

I段，第6句

句子包含四层嵌套：主句→定语从句→宾语从句→两个并列表语从句。宾语从句内部还插入了for half of hourly workers状语，并在表语位置使用not...but...并列结构，多个层级咬合紧密，需要反复确认各that的归属才能理清关系。

If the very rich—the workers who have reaped above-average gains from the increased productivity since Keynes's time—can afford to work less, why do they continue to work so much?

J段，第2句

条件从句包含主语同位语（内嵌定语从句）、情态动词谓语、不定式宾语，定语从句涵盖关系代词主语、现在完成时谓语、宾语及两类状语，主句展示疑问句的主谓倒装及不定式宾语配程度状语；成分种类丰富，破折号插入与关系代词作主语是值得练习的易错点

(Indeed, research has shown that the highest earners in America tend to work the most.)

J段，第3句

主句加 that 引导的宾语从句是四六级和考研阅读中的高频句式, research has shown that 这类学术表达非常典型。从句中一般现在时表趋势也是常见用法, 整体结构代表性强, 学生掌握后可迁移到大量类似句子。

After all, the economy as a whole has grown even more brilliantly than he expected.

K段，第2句

比较级 + "than" 引导的比较从句是四六级和考研阅读中的常见句式, 掌握后可以大量复用。现在完成时表示过去动作对现在影响的用法也是常考时态。整体结构虽不复杂, 但具有较高的代表性, 适合作为基础训练材料。

But for most Americans, that prosperity is nowhere to be seen.

K段，第3句

简单句结构在考试中常见, "for + 对象" 引出范围状语和 "be + 不定式" 表被动状态的用法在阅读理解中时有出现, 具有一定代表性, 但不算高频难点句式。

And, as a result, neither are those shorter working weeks.

K段，第4句

本句作为成分划分练习句具有较高价值: 它包含了倒装结构(neither 引起的主谓倒装)、系表结构、状语等多种成分, 且倒装是学习者常见的易错点, 能有效训练识别非常规语序中的主谓关系。

As ordinary American workers' average hourly pay had decreased despite increasing productivity, they had to work just as many hours as before to keep their living standards.

第37题 题干

"As" 引导原因或背景状语从句、主句中 "have to" 表示客观必要性、目的状语不定式 "to keep"、让步状语 "despite + 动名词", 都是四六级和考研阅读中的高频句式, 学习后可迁移到大量类似句子。

Many economists assume people's thirst for material things has prevented them from enjoying more leisure time.

第40题 题干

主句加宾语从句(引导词省略)是四六级和考研阅读中的高频结构, assume/believe/think等动词接从句的句式非常典型, 从句内部"名词+现在完成时+固定搭配"的组合也常见, 掌握后可大量迁移到同类句式。

According to Keynes, there would be a shorter working week with everyone's standard of living continuing to rise.

第45题 题干

涵盖 there be 句型的主语识别、with 复合结构作状语、现在分词短语作宾语补足语等多个易错点, 成分种类丰富, 适合训练学生辨析谓语与非谓语、识别真正主语、划分状语结构等能力。

Part III Section C (1)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

P1 Lao Zi once said, "Care about what other people think and you will always be their prisoner."
老子曾说过："在意他人的看法,你就永远是他们的囚徒。"

P2 People-pleasing, or seeking self-worth through others' approval, is unproductive and an exhausting way to go through life. Why do we allow what others think of us to have so much power over how we feel about ourselves? If it's true that you can't please all people all of the time, wouldn't it make sense to stop trying?

讨好他人,或通过他人的认可来寻求自我价值,是低效的,也是一种令人精疲力竭的生活方式。为什么我们要让他人对我们的看法对我们的自我感觉拥有如此大的影响力?如果你不可能在所有时候取悦所有人是真的,那么停止尝试难道不是更合理吗?

P3 Unfortunately, sense often isn't driving our behavior. For social beings who desire love and belonging, wanting to be liked, and caring about the effect we have on others, is healthy and allows us to make connections. However, where we get into trouble is when our self-worth is dependent upon whether we win someone's approval or not.

不幸的是,理性往往并不能驱动我们的行为。对于渴望爱与归属感的社会性生物来说,想要被喜欢,以及在意我们对他人产生的影响,是健康的,并使我们能够建立联系。然而,当我们的自我价值取决于我们是否赢得某人的认可时,我们就陷入了困境。

P4 This need to be liked can be traced back to when we were children and were completely dependent on others to take care of us: Small children are not just learning how to walk and communicate, they are also trying to learn how the world works. We learn about who we are and what is expected of us based on interactions with others, so, to a four-year-old, if Mommy or Daddy doesn't like him or her, there is the danger that they will abandon them. We need to understand that when we desperately want someone to approve of us, it's being driven by that little kid part of us that is still terrified of abandonment.

这种需要被喜欢的需求可以追溯到我们还是孩子的时候,那时我们完全依赖他人来照顾我们:年幼的孩子不仅在学习如何走路和交流,他们也在试图学习这个世界是如何运作的。我们通过与他人的互动来了解自己是誰以及别人对我们的期望,所以,对一个四岁的孩子来说,如果妈妈或爸爸不喜欢他或她,就存在他们会抛弃自己的危险。我们需要明白,当我们迫切希望某人认可我们时,驱动这种渴望的是我们内心那个仍然害怕被抛弃的孩子的部分。

P5 As you become more capable of providing yourself with the approval you seek, your need for external validation will start to vanish, leaving you stronger, more confident, and yes, happier in your life. Imagine how much time we lose each moment we restrain our authentic selves in an effort to be liked.

当你变得更有能力为自己提供你所寻求的认可时,你对外部认可的需求将开始消失,让你在生活中变得更强大、更自信,是的,也更快乐。想象一下,我们为了被喜欢而克制真实的自己,每时每刻浪费了多少时间。

P6 If we base our worth on the opinions of others, we cheat ourselves of the power to shape our experiences and embrace life not only for others but also for ourselves, because ultimately, there is no difference. So embrace the cliché(老话) and love yourself as it's highly doubtful that you'll regret it. 如果我们将自己的价值建立在他人的看法之上,我们就剥夺了自己塑造经历和拥抱生活的力量,不仅为了他人,也为了我们自己,因为归根结底,两者并无区别。所以拥抱这句老话,爱你自己,因为你极不可能为此后悔。

题目与逐题解析

46. What can we conclude from Lao Zi's quotation?

- A) We should see through other people's attempt to make a prisoner of us.
- B) We can never really please other people even if we try as hard as we can.
- C) We can never be truly free if taking to heart others' opinion of us.
- D) We should care about other people's view as much as they care about our own.

我们能从老子的引文中得出什么结论?

- A) 我们应该看穿他人试图囚禁我们的企图。 B) 即使我们竭尽全力,也永远无法真正取悦他人。
- C) 如果我们把他人对我们的看法放在心上,就永远无法获得真正的自由。
- D) 我们应该像他人关心我们的看法一样关心他人的看法。

【答案】 C (推断题)

【判型】 题干What can we conclude from Lao Zi's quotation?含conclude, 要求由引语推出结论, 而非复述字面。

【拆句】 题干What can we conclude from Lao Zi's quotation?是常规 wh- 疑问句，主干为 What can we conclude, from 介词短语修饰 conclude，结构平直，无陷阱。

【定位】 Lao Zi once said, "Care about what other people think and you will always be their prisoner." 老子曾说：在意别人怎么想，你就会永远做他们的囚徒。

【选项】 A) **把比喻当字面属偷换概念**

see through other people's attempt to make a prisoner of us把 prisoner 当成真有人想囚禁我们，原文是比喻、不是有人主动加害。

B) **张冠李戴**

We can never really please other people even if we try as hard as we can.说的是讨好不可能成功，这是If it's true that you can't please all people all of the time的内容，不是P1老子那句引语的结论。

C) **✓ 正确**

Care about what other people think ↔ **taking to heart others' opinion of us**

you will always be their prisoner ↔ **can never be truly free**

We can never be truly free if taking to heart others' opinion of us.同时覆盖了原文 if-then 链条的两端，是定位句的完整同义改写。

D) **无中生有**

as much as they care about our own提出一种对等关心的主张，但P1引语只说在意他人会失自由，根本未涉及对方是否在意我们。

47. What will happen if we base our self-worth on other people's approval?

- A) Our desire to be loved will be fulfilled.
- B) Our life will be unfruitful and exhausting.
- C) Our identity as social beings will be affected.
- D) Our sense of self will be sharpened and enhanced.

如果我们将自我价值建立在他人的认可之上,会发生什么?

- A) 我们被爱的渴望将得到满足。 B) 我们的生活将变得毫无成果且令人疲惫。
- C) 我们作为社会存在的身份将受到影响。 D) 我们的自我意识将被强化和增强。

【答案】 **B** (细节题)

【判型】 题干What will happen if we base our self-worth on other people's approval?问的是一种行为的直接后果，答案应来自原文对应描述句的客观转述。

【拆句】 题干What will happen if we base our self-worth on other people's approval?是 if 引导条件状语从句的疑问句，主干 What will happen, base A on B 是固定搭配，意为以B为基础。

【定位】 People-pleasing, or seeking self-worth through others' approval, is unproductive and an exhausting way to go through life.

讨好他人，或者说通过他人的认可来寻求自我价值，是一种无成效且令人疲惫的活法。

【选项】 A) 与原文相反

原文将该行为定性为 unproductive、exhausting, 选项 Our desire to be loved will be fulfilled. 却说愿望被满足, 与原文极性相反。

B) ✓ 正确

unproductive ↔ **unfruitful**

an exhausting way to go through life ↔ **exhausting**

Our life will be unfruitful and exhausting. 同时覆盖了原文两个评价形容词 unproductive 与 exhausting, 正合预判。

C) 无中生有

For social beings who desire love and belonging 是描述人之常情, 原文并未说 social beings 这一身份会因 people-pleasing 而被影响。

D) 与原文相反

where we get into trouble is when our self-worth is dependent upon whether we win someone's approval or not 说明此举使自我陷入麻烦, Our sense of self will be sharpened and enhanced. 却说自我被强化, 正好相反。

48. What may account for our need to be liked or approved of?

- A) Our desperate longing for interactions with others.
- B) Our understanding of the workings of the world.
- C) Our knowledge about the pain of abandonment.
- D) Our early childhood fear of being deserted.

什么可以解释我们需要被喜欢或认可?

- A) 我们对与他人互动的强烈渴望。
- B) 我们对世界运作方式的理解。
- C) 我们对被抛弃之痛的认知。
- D) 我们早期童年时对被遗弃的恐惧。

【答案】 D (细节题)

【判型】 题干 What may account for our need to be liked or approved of? 问一种心理需求的成因, 原文若给出明确解释句, 答案即其同义改写。

【拆句】 题干 What may account for our need to be liked or approved of? 主语是 What, 谓语 may account for, 宾语为 our need to be liked or approved of。be liked 与 be approved of 是两个并列被动不定式, approved of 中 of 不可省, 因 approve of 是固定及物动词短语。

【定位】 This need to be liked can be traced back to when we were children and were completely dependent on others to take care of us... We need to understand that when we desperately want someone to approve of us, it's being driven by that little kid part of us that is still terrified of abandonment.

这种想被喜欢的需求可以追溯到我们还是孩子、完全依赖他人照料的时候.....我们要明白, 当我们极度渴望得到他人认可时, 背后真正驱动的, 是那个仍然害怕被遗弃的小孩子。

【选项】 A) 偷换概念

We learn about who we are and what is expected of us based on interactions with others里 interactions 是孩子学习自我的途径，不是渴望被喜欢的成因。

B) 偷换概念

they are also trying to learn how the world works说孩子在学习世界运转方式，这是孩子在做的事，不是想被喜欢的成因。

C) 偷换概念

knowledge about the pain of abandonment说我们已经知道被遗弃的痛苦；原文实际说的是儿童害怕被遗弃 still terrified of abandonment，是恐惧而非已掌握的知识。

D) ✓ 正确

when we were children ↔ early childhood

terrified of abandonment ↔ fear of being deserted

Our early childhood fear of being deserted.同时锁住了童年这个时间端与害怕被遗弃这个情感端，与原文因果链根源端完全对应。

49. What can we do when we become better able to provide ourselves with the desired approval?

- A) Enjoy a happier life.
- B) Exercise self-restraint.
- C) Receive more external validation.
- D) Strengthen our power of imagination.

当我们更有能力为自己提供所渴望的认可时,我们能做什么?

A) 享受更幸福的生活。 B) 实行自我克制。 C) 获得更多外部认可。 D) 增强我们的想象力。

【答案】 A (细节题)

【判型】 题干What can we do when we become better able to provide ourselves with the desired approval?问的是某条件下发生的事/可获得的结果，属直接的客观陈述。

【拆句】 题干What can we do when we become better able to provide ourselves with the desired approval?主句是 What can we do, when 引导时间状语从句。从句主干 we become...able to..., better 修饰形容词 able。provide sb. with sth. 是固定搭配，意为给...提供...。

【定位】 As you become more capable of providing yourself with the approval you seek, your need for external validation will start to vanish, leaving you stronger, more confident, and yes, happier in your life.

当你越来越能给自己所寻求的认可时，你对外部认可的需要会开始消退，让你变得更强大、更自信、并且——是的——在生活中更幸福。

【选项】 A) ✓ 正确

happier in your life ↔ **happier life**

Enjoy a happier life.精准对应三个并列结果中的最后一项 happier in your life, 且最直白、无歧义。

B) 与原文相反

原文we restrain our authentic selves是把克制真实自我描述为浪费时间的行为, 不是该条件下我们应做的事; Exercise self-restraint.反而把原文要批判的行为当成了结果。

C) 与原文相反

your need for external validation will start to vanish明确说对外部认可的需求会消退, Receive more external validation.却说获得更多, 方向相反。

D) 偷换概念

Imagine how much time we lose...是作者修辞性祈使, 引导读者去想象浪费的时间, 并不是说我们会去强化想象力。

50. What does the author advise us to do in the last paragraph?

A) Embrace life for ourselves and for others.

B) Base our worth on others' opinions.

C) See our experiences as assets.

D) Love ourselves as we are.

作者在最后一段建议我们做什么?

A) 为自己和他人拥抱生活。 B) 将我们的价值建立在他人的看法之上。 C) 将我们的经历视为财富。

D) 爱现在的自己。

【答案】 D (细节题)

【判型】 题干What does the author advise us to do in the last paragraph?限定段落+问具体建议, 按位置直接精读末段祈使句即可。

【拆句】 题干What does the author advise us to do in the last paragraph?是 wh- 疑问句, 主干 What does the author advise us to do, advise sb. to do sth. 是固定搭配, in the last paragraph 是地点状语限定范围。

【定位】 So embrace the cliché(老话) and love yourself as it's highly doubtful that you'll regret it. 所以拥抱这句老话——爱自己吧, 你几乎不可能后悔。

【选项】 A) 偷换概念

embrace life not only for others but also for ourselves说不仅为他人也为自己拥抱生活，是过渡论述，不是末段 So 之后给出的最终建议；选项 Embrace life for ourselves and for others. 把它包装成建议，越权代替了真正的祈使句。

B) 与原文相反

If we base our worth on the opinions of others, we cheat ourselves of the power to shape our experiences明确指出以他人评价为基础是自我欺骗，作者反对这一做法，Base our worth on others' opinions. 反而把它当建议。

C) 无中生有

原文 the power to shape our experiences 说的是塑造自身体验的力量，不是把体验视为财富。See our experiences as assets. 借 experiences 一词制造表层相似，实则原文从未把它定义为 assets。

D) ✓ 正确

love yourself ↔ Love ourselves as we are

Love ourselves as we are. 忠实保留了原文祈使动作 love+反身代词的结构，是末段建议的直译版。

真题卷第1套(2024-06) • 英语四级

Part III Section C (2)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage Two

Questions 51 to 55 are based on the following passage.

P1 Some people have said aging is more a slide into forgetfulness than a journey towards wisdom. However, a growing body of research suggests that late-in-life learning is possible. In reality, education does an aging brain good.

有人说衰老更像是滑向健忘，而非通往智慧的旅程。然而，越来越多的研究表明，晚年学习是可能的。实际上，教育对衰老的大脑有益。

P2 Throughout life, people's brains constantly renovate themselves. In the late 1960s, British brain scientist Geoffrey Raisman spied growth in damaged brain regions of rats through an electron microscope; their brains were forging new connections. This meant brains may change every time a person learns something new.

人的大脑在一生中不断自我更新。20世纪60年代末，英国脑科学家Geoffrey Raisman通过电子显微镜观察到大鼠受损脑区的生长；它们的大脑正在建立新的连接。这意味着每当一个人学习新事物时，大脑都可能发生变化。

P3 Of course, that doesn't mean the brain isn't affected by the effects of time. Just as height usually declines over the years, so does brain volume: Humans lose about 4 percent every decade starting in

their 40s. But that reduction doesn't necessarily make people think slower; as long as we are alive and functioning, we can alter our brains with new information and experiences.

当然，这并不意味着大脑不受时间影响。正如身高通常会随着岁月流逝而下降，脑容量也是如此：人类从40多岁开始每十年减少约4%。但这种减少并不一定会使人思考变慢；只要我们活着并保持功能正常，我们就能用新信息和新经历改变大脑。

P4 In fact, scientists now suspect accumulating novel experiences, facts, and skills can keep people's minds more flexible. New pathways can strengthen our ever-changing mental structure, even as the brain shrinks.

事实上，科学家现在认为积累新颖的经历、事实和技能可以使人的思维更加灵活。即使在大脑萎缩的情况下，新的神经通路也能强化我们不断变化的心理结构。

P5 Conventional fixes like word puzzles and brain-training apps can contribute to mental durability. Even something as simple as taking a different route to the grocery store or going somewhere new on vacation can keep the brain healthy.

像字谜和脑力训练应用程序这样的传统方法可以增强心理耐久性。甚至像去杂货店走不同的路线或度假时去新地方这样简单的事情也能保持大脑健康。

P6 A desire for new life challenges can further boost brainpower. Research about aging adults who take on new enterprises shows improved function and memory as well as a reduced risk of mental disease. Openness—a characteristic defined by curiosity and a desire for knowledge—may also help folks pass brain tests. Some folks are born with this take-in-the-world attitude, but those who aren't as genetically gifted aren't necessarily out of luck. While genes can encourage an interest in doing new things, a 2012 study in the journal *Psychology and Aging* found completing reasoning tasks like puzzles and number games can enhance that desire for novel experiences, which can, in turn, refresh the brain. That's why brain scientist Richard Kennedy says "It's not that old dogs can't learn new tricks. It's that maybe old dogs don't realize why they should."

对新生活挑战的渴望可以进一步增强脑力。关于接受新事业的老年人的研究显示，他们的功能和记忆力得到改善，患精神疾病的风险也有所降低。开放性——一种以好奇心和求知欲为特征的特质——也可能帮助人们通过大脑测试。有些人天生就有这种接纳世界的态度，但那些在基因上不那么幸运的人也不一定就没有希望。虽然基因可以激发对做新事物的兴趣，但2012年发表在《心理学与衰老》杂志上的一项研究发现，完成像谜题和数字游戏这样的推理任务可以增强对新颖经历的渴望，而这反过来又能刷新大脑。这就是为什么脑科学家Richard Kennedy说“并非老狗学不会新把戏，而是也许老狗没有意识到为什么应该学。”

题目与逐题解析

51. What do some people think of aging adults?

- A) Their wisdom grows as time goes by.
- B) Their memory gradually deteriorates.
- C) They can benefit from late-in-life learning.
- D) They are likely to have mental health issues.

有些人对老年人有什么看法？

- A) 他们的智慧随着时间推移而增长。 B) 他们的记忆力逐渐衰退。 C) 他们可以从晚年学习中获益。

D) 他们很可能出现心理健康问题。

【答案】 **B** (细节题)

【判型】 What do some people think of aging adults? 用 what do ... think of 直接问看法，且明确限定主语 some people，属于对原文具体观点的事实复述。

【拆句】 Q51 主干为 What do some people think of aging adults, think of 表示「对.....的看法」，think 与 of 分立但语义绑定，基础薄弱考生易把 think of 拆开理解为「想到」，注意它是「评价」之义。

【定位】 Some people have said aging is more a slide into forgetfulness than a journey towards wisdom.

某些人说，衰老与其说是一段通向智慧的旅程，不如说是一步步滑向健忘。

【选项】 A) 与原文相反

题干问 some people 的看法，原文 some people 恰恰用 more A than B 否定了「通向智慧」这一端，Their wisdom grows as time goes by. 正好与之相反。

B) ✓ 正确

a slide into forgetfulness ↔ memory gradually deteriorates

预判「记性变差」与 Their memory gradually deteriorates. 的语义完全一致，且整句都被原文 slide into forgetfulness 覆盖，无添加成分。

C) 张冠李戴

They can benefit from late-in-life learning. 是作者及研究方的观点 (a growing body of research suggests that late-in-life learning is possible)，不属于题干所问的 some people。

D) 无中生有

首段并未提及 some people 认为衰老会导致 mental health issues (心理健康问题)，原文只说「健忘」(forgetfulness)，健忘不等于心理疾病。

52. What can we conclude from Geoffrey Raisman's finding?

A) Brain damage seriously hinders one's learning.

B) Brain power weakens slower than we imagine.

C) Brains can refresh and improve with learning.

D) Brains forge connections under new conditions.

我们能从Geoffrey Raisman的发现中得出什么结论？

A) 大脑损伤严重阻碍人的学习。 B) 脑力衰退的速度比我们想象的要慢。

C) 大脑可以通过学习得到更新和改善。 D) 大脑在新条件下建立连接。

【答案】 **C** (推断题)

【判型】 What can we conclude from Geoffrey Raisman's finding? 出现 conclude，要求从已述事实再推一步得出结论。

【拆句】 Q52 句中 what 是 conclude 的宾语，from Geoffrey Raisman's finding 是状语，结构平铺直叙，无陷阱。

【定位】 In the late 1960s, British brain scientist Geoffrey Raisman spied growth in damaged brain regions of rats through an electron microscope; their brains were forging new connections. This meant brains may change every time a person learns something new.

上世纪 60 年代末，英国脑科学家 Geoffrey Raisman 用电子显微镜观察到老鼠受损脑区长出新生组织；它们的大脑正在缔结新连接。这意味着，每当一个人学到新东西，大脑都可能发生改变。

【选项】 A) 无中生有

原文只说 Raisman 在「受损脑区」观察到新连接，并未谈论 brain damage 对 learning 的影响，更没有 hinders 这种负向判断。

B) 无中生有

原文未做「比想象慢/快」的速度比较，brain power weakens slower 这种比较关系在 Raisman 段并不存在。

C) ✓ 正确

brains may change every time a person learns something new ↔

Brains can refresh and improve with learning.

预判核心是「学习—大脑改变/更新」，Brains can refresh and improve with learning. 用 refresh、improve 概括 change + forging new connections 的双层含义，且 with learning 直接对应「每当学新东西」，整句无溢出。

D) 答非所问

Brains forge connections under new conditions. 几乎照搬 their brains were forging new connections，但题干问的是 conclude（结论意义），而该选项只重复了实验事实，没把意义说出来。

53. What is one thing that helps maintain the health of our brain even as it shrinks?

- A) Doing daily routines by conventional means.
- B) Avoiding worrying about our mental durability.
- C) Imitating old dogs' way of learning new tricks.
- D) Approaching everyday tasks in novel ways.

即使大脑萎缩,有什么能帮助维持大脑健康?

- A) 用传统方式进行日常事务。
- B) 避免担心我们的心智持久性。
- C) 模仿老狗学新把戏的方式。
- D) 用新颖的方式处理日常任务。

【答案】 D (细节题)

【判型】 What is one thing that helps maintain the health of our brain 用 one thing that ... 直接问一件具体做法，属事实复述。

【拆句】 Q53 主干 What is one thing, 其后 that ... 是定语从句修饰 thing; even as it shrinks 是让步状语, as 此处等于 although, it 指代 brain, 须留意 it 的指代关系不要错认成 health。

【定位】 Even something as simple as taking a different route to the grocery store or going somewhere new on vacation can keep the brain healthy.

哪怕是像换条路去超市、或换个地方度假这样简单的事, 也能让大脑保持健康。

【选项】 A) 与原文相反

原文强调要「换新方式」做日常事, 而 Doing daily routines by conventional means. 强调用 conventional means (常规方式), 方向完全相反。

B) 无中生有

Avoiding worrying about our mental durability. 提到「避免担忧脑力耐久度」, 但原文 P5 谈的是「具体做法」, 从未谈论「担忧」或「避免担忧」这个心理层面。

C) 偷换概念

原文末段 It's not that old dogs can't learn new tricks. It's that maybe old dogs don't realize why they should. 中的 old dogs 是比喻人, 不是真的「狗的学习方式」; Imitating old dogs' way of learning new tricks. 把比喻当字面, 且并非 P5 的护脑手段。

D) ✓ 正确

taking a different route to the grocery store or going somewhere new on vacation ↔

Approaching everyday tasks in novel ways.

预判的两个关键语义点「日常事」和「新方式」在 Approaching everyday tasks in novel ways. 中——对应, 没有任何额外成分。

54. What does the author say can contribute to the improvement of brain function?

- A) Being curious and desiring knowledge.
- B) Being eager to pass brain tests at an old age.
- C) Rising to life's challenges and avoiding risks.
- D) Boosting immunity to serious mental diseases.

作者认为什么有助于改善大脑功能?

- A) 保持好奇心和求知欲。 B) 渴望在年老时通过大脑测试。 C) 迎接生活挑战并避免风险。
- D) 增强对严重精神疾病的免疫力。

【答案】 A (细节题)

【判型】 What does the author say can contribute to the improvement of brain function? 直接问 author 提出的「促进项」, 是对原文表述的事实复述。

【拆句】 Q54 主干为 What does the author say can contribute to ..., what 既作 say 的宾语, 又作 can contribute to 的逻辑主语 (省略关系代词的嵌套从句结构), 基础薄弱考生易在两个谓语间断错语义, 建议拆为「作者说, [什么]能促进脑功能提升」。

【定位】 Openness—a characteristic defined by curiosity and a desire for knowledge—may also help folks pass brain tests.

「开放性」——一种由好奇心和求知欲所定义的特质——也可以帮助人们顺利通过脑力测试。

【选项】 A) ✓ 正确

curiosity and a desire for knowledge ↔ **Being curious and desiring knowledge.**

预判的两个核心要素「好奇心」和「求知欲」在 Being curious and desiring knowledge. 中由同根词分别承接，且选项整体只表达这两点，无多余成分，无遗漏。

B) 偷换概念

原文说 openness 能帮助 pass brain tests，是「特质 → 通过测试」的因果；Being eager to pass brain tests at an old age. 把「通过测试」偷换成「渴望通过测试」，把结果偷换成动机，方向不同。

C) 无中生有

原文 A desire for new life challenges can further boost brainpower. 只说「迎接新挑战」能提升脑力，从未提到 avoiding risks（规避风险）；C 项硬加了「规避风险」这一成分。

D) 偷换概念

原文 improved function and memory as well as a reduced risk of mental disease 中，reduced risk of mental disease 是 take on new enterprises 带来的「结果之一」，而非「促进脑功能的手段」；Boosting immunity to serious mental diseases. 把这一结果倒置成促进手段。

55. What is the finding of the 2012 study in the journal Psychology and Aging?

- A) Wishing to solve puzzles enhances one's reasoning power.
- B) Playing number games unexpectedly stimulates one's memory.
- C) Desiring new experiences can help to renovate the brain.
- D) Learning new tricks should not be confined to old dogs only.

2012年《心理学与衰老》期刊研究的发现是什么？

- A) 想要解决谜题能增强人的推理能力。
- B) 玩数字游戏会意外刺激人的记忆力。
- C) 渴望新体验有助于更新大脑。
- D) 学习新把戏不应该只限于老狗。

【答案】 C (细节题)

【判型】 What is the finding of the 2012 study 直接问研究发现内容，属定位+复述型问法。

【拆句】 Q55 主干为 What is the finding, of the 2012 study 与 in the journal Psychology and Aging 都是修饰 finding 的介词短语，结构平铺直叙，无陷阱。

【定位】 While genes can encourage an interest in doing new things, a 2012 study in the journal Psychology and Aging found completing reasoning tasks like puzzles and number games can enhance that desire for novel experiences, which can, in turn, refresh the brain.

尽管基因能在一定程度上鼓励一个人对新事物的兴趣，但 2012 年发表在《Psychology and Aging》期刊上的一项研究发现，完成像谜题、数字游戏这样的推理任务能够强化「想要新体验」的欲望，而这种欲望反过来又能刷新大脑。

【选项】 A) 偷换概念

原文是「做推理任务（含 puzzles）→ 强化对新体验的欲望 → 刷新大脑」，Wishing to solve puzzles enhances one's reasoning power. 反过来变成「想做谜题 → 提升推理力」，方向被颠倒，且原文从未谈 enhance reasoning power。

B) 无中生有

原文链条终点是 refresh the brain（刷新大脑），不是 stimulates one's memory（刺激记忆）；且 unexpectedly（出乎意料地）也不在原文里。

C) ✓ 正确

that desire for novel experiences, which can, in turn, refresh the brain ↔

Desiring new experiences can help to renovate the brain.

预判的落脚点「对新体验的欲望能刷新大脑」与 Desiring new experiences can help to renovate the brain. 在主语、动作、对象上——对位，无添加成分。

D) 张冠李戴

Learning new tricks should not be confined to old dogs only. 改写自结尾的 Richard Kennedy 引语，是 brain scientist Kennedy 的比喻金句，而非 2012 年那项研究的 finding。

However, a growing body of research suggests that late-in-life learning is possible.

第1段，第2句

"主句 + that 引导的宾语从句"是四六级和考研阅读中的高频句式，常见于学术陈述和研究结论的表达。本句的结构（某研究/报告/数据 + suggests/shows/indicates + that 从句）是典型的学术写作模式，掌握后可以大量迁移到类似句子。唯一不足是句子较短、嵌套简单，没有展示更复杂的变体。

Of course, that doesn't mean the brain isn't affected by the effects of time.

第3段，第1句

"主句 + 宾语从句" 是四六级和考研阅读中高频出现的句式,且 "doesn't mean" 这种否定表达也很常见;从句内使用被动语态也是典型搭配。掌握此句式后可迁移到大量类似结构,代表性较强

Just as height usually declines over the years, so does brain volume: Humans lose about 4 percent every decade starting in their 40s.

第3段，第2句

结构具有高度典型性。「just as ... so ...」的类比结构是四六级和考研阅读中的常见句式,用于建立对比或类比关系;冒号引出具体的解释的用法也很常见;倒装结构「so + 助动词 + 主语」是语法考点之一;从句作状语、分词短语作定语都是高频句式。掌握本句结构后可以迁移到大量类似的学术或说明性文本中。

But that reduction doesn't necessarily make people think slower; as long as we are alive and functioning, we can alter our brains with new information and experiences.

第3段，第3句

句子结构非常典型:分号连接并列句、条件状语从句修饰主句、使役动词用法,都是四六级和考研阅读中的常见句式。掌握这个句子的结构分析方法,可以直接应用到大量类似的长难句中,迁移性强

In fact, scientists now suspect accumulating novel experiences, facts, and skills can keep people's minds more flexible.

第4段，第1句

Research about aging adults who take on new enterprises shows improved function and memory as well as a reduced risk of mental disease.

第6段，第2句

Some folks are born with this take-in-the-world attitude, but those who aren't as genetically gifted aren't necessarily out of luck.

第6段，第4句

并列句加定语从句的组合在四六级和考研真题中非常常见，“but”连接的转折并列是高频句式，定语从句修饰主语也是典型结构。掌握后可迁移到大量类似句子，代表性较强。

While genes can encourage an interest in doing new things, a 2012 study in the journal Psychology and Aging found completing reasoning tasks like puzzles and number games can enhance that desire for novel experiences, which can, in turn, refresh the brain.

第6段，第5句

本句成分丰富，涵盖让步状语从句、宾语从句、定语从句、动名词短语作主语、介词短语作定语等多种结构。宾语从句省略引导词 that 是常见考点，非限制性定语从句的识别（逗号加 which）也是重点。此外，句中存在多个修饰层级，需要准确划分主干与修饰成分，训练价值较高。

That's why brain scientist Richard Kennedy says "It's not that old dogs can't learn new tricks. It's that maybe old dogs don't realize why they should."

第6段，第6句

本句成分丰富且层次分明：主系表结构、表语从句、宾语从句、主语从句（含形式主语 It）、否定结构、情态动词、省略现象（why they should 的承前省略）等都有涉及。特别是 It is that 结构和 that 引导的多种从句，以及情态动词的识别，都是考试常考且易错的点。

四合院(sihyuan)是中国一种传统的住宅建筑，其特点是房屋建造在一个院子的四周，将院子合围在中间。四合院通常冬暖夏凉，环境舒适，尤其适合大家庭居住。四合院在中国各地有多种类型，其中以北京的四合院最为典型。如今，随着现代城市的发展，传统的四合院已逐渐减少，但因其独特的建筑风格，四合院对中国文化的传承和中国历史的研究具有重要意义。

The siheyuan is a traditional Chinese residential building, characterized by houses built on the four sides of a courtyard, enclosing it in the middle. It is usually warm in winter and cool in summer, providing a comfortable environment that is especially suitable for large families. There are various types of siheyuan across China, among which the ones in Beijing are the most typical. Nowadays, with the development of modern cities, traditional siheyuan have gradually decreased; however, owing to their unique architectural style, they remain of great significance to the inheritance of Chinese culture and the study of Chinese history.

【衔接】第1、2句之间：用 It 承接避免重复主语

第二句中文又出现主语 四合院通常冬暖夏凉，紧跟在第一句之后。英文里第二句改用代词 It 承接，不重复 The siheyuan，读起来更顺、避免名词堆砌。

第3句之后另起一层：用 Nowadays 标出时间转折

第四句开头的 如今 把话题从「四合院的固有特征」切到「当下的变化与意义」，英文用句首 Nowadays 显式标出这一时间层次的转换，让整篇从「介绍特征」自然过渡到「现状与价值」。

第4句内部：用 however 显化转折逻辑

中文 但因其独特的建筑风格 的「但」是减少与意义之间的转折，英文用分号加 however 把这层「虽然减少、但仍重要」的逻辑明确显出来，不让两个意思平铺。

逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

【主旨】客观介绍中国传统住宅四合院

整段在介绍一种中国传统民居：开篇 四合院(siheyuan)是中国一种传统的住宅建筑 就把它定义清楚，随后讲它的特点、舒适度、地域类型与文化意义。这属于「中国文化/民居介绍」类客观说明文，不是讲某段历史故事，语体平实、面向读者科普。

【时态】一般现在时

全篇是在客观陈述四合院「现在仍然如此」的特征与现状——是什么、有什么特点、适合谁住、哪种最典型，都是不随时间变的事实性介绍，如 其特点是房屋建造在一个院子的四周、四合院通常冬暖夏凉，故以一般现在时为主时态。只有末句 传统的四合院已逐渐减少 表「已经发生并持续到现在的变化」，那一处才偏离基调改用现在完成时。

【译法】四合院

原文已自带括号注音 四合院(siheyuan)，故全篇统一译为音译加同位语解释 the siheyuan (a traditional Chinese courtyard house)，首次出现时给出解释，之后统一用 siheyuan 或 courtyard house，不要一会儿 siheyuan 一会儿又另造别的拼法。

北京

对应 北京的四合院，用国际通用约定俗成译名 Beijing，全篇统一，不要写成 Peking 或拼错。

大家庭

对应 大家庭，指几代同堂的大家族，统一译为 large families（含老少几代人之意），不要误解成「伟大的家庭」。

1. 四合院(siheyuan)是中国一种传统的住宅建筑，其特点是房屋建造在一个院子的四周，将院子合围在中间。

【主干】四合院是一种传统住宅建筑（主语策略：原句主语）

中文已有明确主语「四合院」，核心判断动词是「是」，故主干直接定为 The siheyuan is a traditional Chinese residential building（主 siheyuan + 系动词 is + 表语 a traditional residential building）。引 四合院(siheyuan)是中国一种传统的住宅建筑 提为主干，后面「其特点是...」整块都是对它的补充说明，先不进主干。

【降级】用 characterized by 收编特点从句

主干之外有一大块 其特点是房屋建造在一个院子的四周，将院子合围在中间，若照中文直译成 its characteristic is that... 会显得啰嗦中式。更地道的降级办法是把它改写成过去分词短语 characterized by houses built on four sides of a courtyard，挂在主干后作状语；「将院子合围在中间」是前面布局的自然结果，用现在分词 enclosing the courtyard in the middle 接上，避免再起一句。

【语法】时态

回指全篇基调，客观介绍用一般现在时，is，不要用过去时。

冠词与单复数

泛指这一类建筑，可用 The siheyuan 作类指，或用复数 Siheyuan are...；表语 a traditional residential building 是单数可数名词，必须带不定冠词 a。

单复数

「房屋」建在四周不止一间，译 houses 用复数；「一个院子」是单数特指，a courtyard。

介词搭配

「在院子的四周」用 on four sides of a courtyard；「在中间」用 in the middle，介词不要漏。

【译文】 The siheyuan is a traditional Chinese residential building, characterized by houses built on the four sides of a courtyard, enclosing it in the middle.

2. 四合院通常冬暖夏凉，环境舒适，尤其适合大家庭居住。

【主干】四合院冬暖夏凉（主语策略：原句主语）

主语仍是「四合院」，承前可用代词 It 承接。本句中文是三个并列的状态描述，核心落在「冬暖夏凉、环境舒适」，主干定为 It is warm in winter and cool in summer（主 It + 系动词 is + 并列表语）。引 四合院通常冬暖夏凉 作主干来源。

【降级】舒适并列、适合居住降级为分词

「环境舒适」与「冬暖夏凉」是并列状态，用 and comfortable 接上即可。尤其适合大家庭居住不另起一句，改写成现在分词短语 making it especially suitable for large families 作结果状语挂在后面，体现「正因冬暖夏凉舒适，所以适合大家庭住」的因果。

【语法】时态

通常性、习惯性的特征，回指基调用一般现在时 is。

副词与表达

「通常」用 usually 置于 be 动词后；「冬暖夏凉」是中文四字格，拆成 warm in winter and cool in summer 两组对仗，不要生造单词。

单复数

「大家庭」指多个这样的家庭，用复数 large families；「尤其」用 especially。

【译文】 It is usually warm in winter and cool in summer, providing a comfortable environment that is especially suitable for large families.

3. 四合院在中国各地有多种类型，其中以北京的四合院最为典型。

【主干】 存在多种类型（主语策略：There be）

「四合院有多种类型」表「存在」，最贴切的英文结构是 There be。主干定为 There are various types of siheyuan across China（存在 + various types + 地点状语）。引 四合院在中国各地有多种类型，用 There be 把「有多种类型」译出存在感，比直译 Siheyuan has many types 更地道。

【降级】 最典型从句降级为定语从句

其中以北京的四合院最为典型 里的「其中」承接前面的「多种类型」，用 among which 引导的非限定性定语从句 among which the ones in Beijing are the most typical 挂在主句后，既接住「其中」又避免另起一句重复主语。

【语法】 时态

陈述客观分布现状，用一般现在时 are。

单复数

「多种类型」用复数 various types；故 There 后接 are 而非 is。

最高级

「最为典型」用最高级 the most typical，前面别漏定冠词 the。

介词搭配

「在中国各地」用 across China 或 throughout China；「北京的四合院」用 the ones / those in Beijing。

【译文】 There are various types of siheyuan across China, among which the ones in Beijing are the most typical.

4. 如今，随着现代城市的发展，传统的四合院已逐渐减少，但因其独特的建筑风格，四合院对中国文化的传承和中国历史的研究具有重要意义。

【主干】 四合院减少但意义重大（主语策略：原句主语）

这是「但」连接的转折复句，有两个主干。前半 传统的四合院已逐渐减少：主语 traditional siheyuan，谓语 have gradually decreased；后半 四合院...具有重要意义：主语 they/siheyuan，谓语 是 are of great significance / play an important role。整句用 but / however 把两个主干连成转折关系。

【降级】 时间、伴随、原因状语各就各位

三个修饰成分分别降级安放：如今 译时间状语 Nowadays 置句首；随着现代城市的发展 用介词短语 with the development of modern cities 作伴随状语；因其独特的建筑风格 用 due to / because of its unique architectural style 作原因状语，挂在后半句前。对中国文化的传承和中国历史的研究 用并列介词宾语 the inheritance of Chinese culture and the study of Chinese history 接在 significance 之后。

【语法】时态

「已逐渐减少」表已发生且延续至今的变化，偏离基调用现在完成时 have gradually decreased / declined；后半「具有重要意义」是当下事实，回到一般现在时 are。

单复数与主谓一致

traditional siheyuan 视作复数群体，谓语用 have；后半 they are of great significance。

介词搭配

「具有重要意义」用 be of great significance to 或 play an important role in；「对...的传承」the inheritance of，「对...的研究」the study of，介词 to / of / in 不要混。

用词

「独特的建筑风格」译 unique architectural style，architectural 是形容词形式，别误用名词 architecture 作定语。

【译文】 Nowadays, with the development of modern cities, traditional siheyuan have gradually decreased; however, owing to their unique architectural style, they remain of great significance to the inheritance of Chinese culture and the study of Chinese history.
