Reading Comprehension

(40 minutes)

Section A

Directions: *In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

One of the biggest controversies over the Industrial Revolution is how it affected the working class. The oldest debates were over whether the standards of living rose or fell. Those that believed they fell claimed that the capitalists 26 every ounce of surplus they could from the working class. Those that believed the standards of living rose claimed that the environment was consumer-friendly, with more and more goods 27 to the working class every year.

Today's historians agree that overall, the standards of living 28 . They do not agree, however, on when this improvement 29 .

In an effort to solve this controversy, historians have attempted to define 30 what "standard of living" means. They all seem to agree that it should mean happiness, but happiness is impossible to measure. Instead, historians 31 use "real income" as the measure for the standards of living. Real income is money 32 and then adjusted according to the cost of living. However, it does not take into account unemployment, pollution, health, life expectancy, or free time.

After 33 debate and analysis of the average income, historians have agreed to disagree on whether there was rapid or slow economic growth during the Industrial Revolution. Instead, they have decided to 34 how the Industrial Revolution was affected by other events. They have determined that the Industrial Revolution had an overall positive 35 , but it quite possibly was neutralized by negative events such as wars, high taxes, and rapid population growth.

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

The Star Quality of New Zealand's Great Barrier Island

- A) I was glad I had such terrible jetlag. Wide awake at 3:30 am with our nine-year-old daughter on our lodge balcony, I stared for hours at the most incredible night sky I've ever seen before the dawn slowly started to rub out the stars on the horizon and the multiple shooting stars faded away.
- B) We were going to my wife's big family reunion in Auckland, New Zealand, but when we found out that Great Barrier Island, just off the coast, had been recently awarded Dark Sky Sanctuary status—a typically

remote area that has an "exceptional or distinguished quality of starry nights"—we thought it would be the perfect place to relax before our busy schedule. It's the first island and only the fourth location in the world to achieve this status.

- C) After a 28-hour flight with two travel-sick children, our hearts sank when we saw the tiny twin engine 10-seater that was to take us the 90km across the Hauraki Gulf to Great Barrier Island. But we needn't have worried. Whether it was the gravity force of the plane climbing or the noise of the engine, it put our three-year-old daughter instantly to sleep until we bumped down on the grass at Claris Airport. Our first empty sick bag against all the odds...Things were looking up.
- D) Great Barrier Island has no public facilities and the 950 people living there (though only about half permanently) rely on solar and wind energy, and bottled gas for cooking. There are no streetlights. There are no cash machines or banks. The police force comprises a husband and wife, and there's one postman. It's not just the lack of light but the lack of noise that's so delightful on this unique and gorgeous scene. It was first discovered by East Polynesians about 700 years ago and the Maori name for the island is Aotea. Captain Cook gave the island its European name, because it acts as a barrier between the Pacific and the Hauraki Gulf.
- E) The climate here is subtropical(亚热带的) like Auckland's. The island boasts a beautiful wilderness with dense forests, glorious, unspoilt sandy beaches and plenty of bays and a few mountainous areas where there are good walking tracks among the wetlands and valleys. You can birdwatch, dive, surf and boat. The best beaches are on the eastern side of the island where the surf is better, too. The sheltered western side is where you'll find the best diving and boating. Lots of people come here for the fantastic fishing spots around the island. Like a lot of spots in New Zealand, there are whale-watching trips and you might just catch sight of sharks.
- F) It's rare to find an island that really does feel undiscovered—but this is it. When one of my wife's relations, who comes here regularly, found out that we'd been there, he whispered to us, only half-joking: "Shh—don't tell anyone!" The locals are a relaxed and friendly bunch—a lot of them told us that it's like what Waiheke Island (now in effect a suburb of Auckland) was in the 1970s when it was a commune of artists and people wanting to escape the city.
- G) Our guide for some of our stay was the inestimable Hilde Hoven, a Dark Sky ambassador who runs Good Heavens with Deborah Kilgallon and Orla Cumisky. They bring their Dobsonian telescope and beanbags (it's hard work staring up wide-eyed in wonder without neck support) and, our elder daughter was glad to hear, hot chocolate to wherever you are on the island. "It's odd but when the light readings were done," said Hilde, explaining how the island was awarded its special status, "they found there was more light pollution on the northern side coming from Fiji, which is about 3,000km away, than Auckland to the south. It's pretty dark!"
- H) Beginning their astronomical PowerPoint demonstration using a green laser pointer, Hilde and Orla showed us the Messier 4 spherical cluster(星团) with white dwarf stars(白矮星), Saturn and its rings, the Southern Cross and the Milky Way, which stretched across the sky. Our daughter was especially taken with Hilde's narrating of the Maori myth of Māui's fish hook to explain the shape of Scorpius. In the fable, Māui hauled the North Island of New Zealand from the bottom of the ocean with his hook.
- I) We stayed at Mount St Paul's Estate, a luxurious lodge run by the friendly Chris and Teara, both from Canada. Teara used to be a chef at the Langham in Auckland and so dinner, eaten around a huge circular

table (made of one of the most ancient trees in the world), was every bit as mouth-watering as you'd expect. Eating pancakes on the balcony overlooking the unspoilt white sandy beach was a great way to start the day.

- J) Another highlight was an hour-long walk to Kaitoke hot pools in the centre of the island, through wetlands and a forest, where we whiled away a good hour sitting in the pools shaded from the heat by layers of delicate umbrella-like plants.
- K) We also loved visiting the potter(陶艺家) Sarah Harrison, who showed us round her studio at Shoal Bay harbour, and her many pots and jugs, plates and bowls and colourful mosaics(马赛克). In her work, she also uses a lot of materials found on the beach. Our elder daughter loved the gorgeous hidden pool at Medlands beach where the water is separated from the sea in a private rock pool. Other high points were the ancient pōhutukawa trees and the incredible views of Okiwi Basin and Whangapoua beach from the top of Windy Canyon, just a 10-minute hike through a narrow valley up some steep wooden steps on the eastern side of the island.
- L) Apparently the island council turned down famous musician Paul McCartney's application to buy a property at Great Barrier Island because of the unwelcome attention he would have brought. You can see why he wanted to come here; equally, the island knows exactly what kind of star watching it prefers.

36. The author's daughter slept throughout the last leg of their flight to Great Barrier Island.
37. The lodge where the author stayed provided very delicious food.
38. Many people are attracted to Great Barrier Island because of the incredible fishing sites around it.
39. A well-known artist failed to purchase a house on Great Barrier Island.
40. Unable to fall asleep after a long flight, the author was pleased to enjoy the most gorgeous view of the night sky in his life.
41. Great Barrier Island is compared to another island which attracted a lot of artists and people who wished to stay away from city life half a century ago.
42. One most memorable part of the author's visit to Great Barrier Island was a one-hour walk to its centre's hot springs.
43. Great Barrier Island has officially been recognized for its extraordinary starry nights.
44. Great Barrier Island is not connected to any public power supply lines.
45. It is strange that light pollution on Great Barrier Island mainly comes from a faraway island to the north.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

Is organic food worth the higher price? It's the classic grocery store dilemma. On the one hand, your family dinner table deserves only the best. On the other hand, your wallet can only stretch so far.

Whether or not to buy organic is a personal decision, said Mike von Massow, professor of Food Agriculture.

Science won't give a clear-cut answer to the question of whether organic food is "better". There are often trade-offs(权衡) and answers become less definitive depending on the product under consideration.

One thing is definitive: Organic and conventionally grown food are equally nutritious. From a nutrition point of view, there is no difference between organic and traditionally grown products.

Organic products don't necessarily have fewer pesticides(杀虫剂)—in fact, they may have more. There is also no big difference between organic and non-organic products from a food-safety perspective. Even organic growers use pesticides. Testing shows little if any pesticide remains on conventionally grown products.

In fact, organic farmers often use larger quantities of pesticide because they can only use the natural variety of insect-killers. Chemical pesticides generally kill a much wider range of pests(害虫) than any single natural pesticide.

The use of animal waste in organic agriculture can also be a factor in the spread of bacteria like E. coli and salmonella. Over the past 10 years, Canada has seen more food-safety recalls for organic products, proportionally, than for conventional products.

On the whole, organic agriculture may have a smaller environmental footprint. That's mostly because the risk of groundwater contamination from organic farming is lower. Organic farmers never use neonics, the controversial pesticides that have been linked to shrinking bee populations worldwide.

Traditional agriculture has been making "dramatic improvements" to reduce its impact on the environment.

It isn't a black-and-white picture, though.

Organic farming is much less efficient when it comes to land use, although yields vary considerably depending on the crop.

On the other hand, advocates of organic farming argue yields and efficiency could be significantly improved if the food industry devoted as much research and money to organic farming as it does conventional agriculture.

46. What is the classic grocery store dilemma?

- A) Whether or not one should eat organic food.
- B) Whether or not one can stretch their wallet far.
- C) Organic food costs more but it certainly tastes better.
- D) One wants the best food but their budget is limited.

47. What do we learn about organic food from science?

- A) Whether it is any better remains uncertain.
- B) Whether it is healthier is under consideration.
- C) Whether it is more nutritious than conventional food is arguable.
- D) Whether it is going to replace conventional food is still unclear.

48. What does the passage say about organic and non-organic products as far as food safety is concerned?

- A) Their difference is the conventions used to test them.
- B) They differ in how much pesticide remains on them.
- C) One relies on pesticides whereas the other does not.
- D) There is no substantial difference between the two.

49. What does the author say about organic farming?

- A) It may be blamed for the shrinking bee populations in the world.
- B) It minimizes the use of controversial pesticides in its operations.
- C) It may impact the environment less than conventional farming.
- D) It contaminates groundwater as much as conventional farming.

50. What do advocates of organic farming argue about its yields and efficiency?

- A) They would increase quickly with the emergence of new technologies.
- B) They would improve remarkably with more research and investment.
- C) They would be achieved along with enormous health benefits.
- D) They would considerably lower the cost to the environment.

Passage Two

Questions 51 to 55 are based on the following passage.

It is still controversial whether we are fundamentally generous or selfish and whether these tendencies are shaped by our genes or environment.

Some evidence points to humans being born cooperative. At later stages in life we routinely work together to reach goals and help out in times of need.

Yet instances of selfish behavior are also plenty. One recent study tested people's willingness to set aside selfish interests to reach a greater good. It found that being selfish was more advantageous than cooperating. The benefit may be short-lived, however. Another study showed that players who cooperated did better in the long run.

It seems that human nature supports both pro-social and selfish traits(特征). Genetic studies have made some progress toward identifying their biological roots. By comparing identical twins, who share nearly 100 percent of their genes, and non-identical twins, who share about half, researchers have found overwhelming evidence for genetic effects on behaviors. In these twin studies, identical and non-identical twins are asked, for example, to split a sum of money with a peer. Such studies often also rely on careful psychological assessments and DNA analysis.

Other work highlights specific genes as key players. My colleagues and I recently identified a gene linked to altruistic(利他的) behavior and found that a particular variant of it was associated with more selfish behavior in preschoolers.

According to evolutionary scientists, cooperative behavior may have evolved first among relatives to promote the continuation of their genetic line. As communities diversified, mutual support could have broadened to include individuals not linked by blood. Another possibility is that humans cooperate to gain some advantage, such as boosting reputation. Finally, evolutionary processes take place at the group level. Groups of highly

cooperative individuals have higher chances of survival because they can work together to reach goals that are unattainable to less cooperative groups.

Yet almost no behavior is entirely genetic, even among identical twins. Culture, schooling and parenting are important determinants of cooperation. Thus, the degree to which we act cooperatively or selfishly is unique to each individual and depends on a variety of genetic and environmental influences.

51. What is the finding of one recent study about being selfish?
- A) It may bring certain benefits in the short term.
 - B) It usually yields more disadvantages than advantages.
 - C) It serves individual interest rather than a collective's.
 - D) It may give way to cooperating in the long run.
52. What have researchers found by studying identical and non-identical twins?
- A) They are overwhelmingly different in the amounts of genes.
 - B) One's behavior is largely determined by their genetic traits.
 - C) One's biological roots can be identified by their genes.
 - D) They differ from each other in their behavior patterns.
53. What did the author and colleagues identify in their recent research?
- A) A gene-related selfish behavior in preschool children.
 - B) Key factors that determine one's altruistic behavior.
 - C) A specific gene associated with altruistic behavior.
 - D) Roles played by genes in shaping one's character.
54. What do we learn from evolutionary scientists about cooperative behavior?
- A) It may have initially originated in individuals linked by blood.
 - B) It may have caused the diversification of communities.
 - C) It helps to build relationships among blood-related people.
 - D) It guarantees the achievement of goals otherwise unattainable.
55. What can we infer from the last paragraph?
- A) Cooperative behavior is evident among identical twins.
 - B) One is born either cooperative or non-cooperative.
 - C) Genes determine one's tendency to cooperate.
 - D) Cooperative behavior may be cultivated.

Requiring university students to take part in at least one research project is a proposal worth supporting, provided it is implemented flexibly and students can choose topics that interest them. From my perspective, such a policy is both necessary and practical for most undergraduates.

First, it is necessary because research experience bridges the gap between textbook knowledge and real-world problem solving. Through a well-designed project, students learn to ask meaningful questions, collect reliable data, and think critically. These abilities are essential for their future careers. Second, it is practical because universities already have laboratories, supervisors, and course projects in place. A single semester-long project can fit into the existing curriculum without placing too much burden on students.

Therefore, I support the proposal. It helps students develop practical skills that lectures alone cannot provide, and its flexible design makes it achievable for most universities.

要求大学生至少参与一项科研项目是一项值得支持的提案，前提是其能灵活实施，学生也能选择自己感兴趣的课题。在我看来，这项政策对大多数本科生而言既有必要又切实可行。

首先，它很有必要，因为科研经历能够弥合课本知识与现实问题解决之间的鸿沟。通过一个设计良好的项目，学生学习提出有意义的问题、收集可靠的数据并进行批判性思考。这些能力对他们未来的职业生涯至关重要。其次，它也很可行，因为高校已经拥有实验室、指导教师和课程项目等资源。一个为期一学期的项目可以嵌入现有课程体系，不会给学生造成过重负担。

因此，我支持这一提案。它帮助学生培养课堂讲授无法提供的实践技能，而灵活的设计也让大多数高校能够落实。

【第 1 段】同义转述+明确立场。首句用 Requiring university students to take part in... 转述了提案内容，避免机械照抄；第二句用 both necessary and practical 直接点出两个论证维度。

【第 2 段】分论点+例子支撑。用 First/Second 分别对应必要性与可行性，每个论点都给出具体的理由 (bridges the gap / universities already have...in place)，并加入 well-designed project 等具体场景。

【第 3 段】重申立场并收束。用 Therefore 回扣开头立场，用 practical skills that lectures alone cannot provide 总结双重价值，避免提出新观点。

错误：全篇只讲科研多重要，没提是否可行；应改为第二段分两小点：First, it is necessary... Second, it is practical...

立场模糊的流水账

错误：「Some people think... Others think... I think both sides have reasons.」；应改为明确表态：From my perspective, such a policy is both necessary and practical.

空喊口号

错误：「Research is very important and useful.」；应改为：Through a well-designed project, students learn to ask questions, collect data, and think critically.

Part II

Listening Comprehension

(25 minutes)

Section A

Directions: In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 1 and 2 are based on the news report you have just heard.

1 A man was left with a \$1,000 bill, after his 6-year-old son ordered a virtual buffet of food from several restaurants last weekend. This led to a string of unexpected deliveries, and maybe a starring role in an advertisement campaign.

上周末，一名男子的6岁儿子从多家餐厅订购了一顿“虚拟自助餐”，结果给他留下了一张1000美元的账单。这引发了一连串意外送餐，也可能让他在一场广告宣传活动中担任主角。

2 Keith Stonehouse said the food piled up quickly at his home Saturday night, after he let his son use his cell phone to play a game before bed. He said the youngster instead used his father's online food ordering account to order food from one restaurant after another. The boy's mother, Christine Stonehouse, said that the online food app has reached out to the family and offered them a \$1,000 gift card. The company also is considering using the family in an online promotional campaign.

基思·斯通豪斯说，上周六晚上，他让儿子睡前用自己的手机玩游戏，之后食物很快就堆满了家里。他说，孩子没有玩游戏，而是使用父亲的在线点餐账户，一家接一家地订购食物。男孩的母亲克里斯蒂娜·斯通豪斯说，这款在线点餐应用已经联系了他们一家，并向他们提供了一张价值1000美元的礼品卡。该公司还在考虑让这一家人参与一场线上宣传活动。

3 Most of the food went into the family's refrigerators. They also invited some neighbors over to eat some of it. The father is planning to change his password.

大部分食物都放进了家里的冰箱。他们还邀请了一些邻居来吃掉其中一部分。孩子的父亲打算更改密码。

1. A) He had bought meals with his online food ordering account.
- B) His son had used his cell phone to pay for playing a game.
- C) His son had ordered food from several restaurants.
- D) He had dined out at a famous five-star restaurant.

【题目】 Why was Keith Stonehouse left with a \$1,000 bill?

【翻译】 为什么Keith Stonehouse最后要支付一张1000美元的账单？

- A) 他曾使用自己的网上点餐账户购买餐食。
B) 他的儿子曾用他的手机支付玩游戏费用。 c) 他的儿子曾从几家餐馆订餐。
D) 他曾在一家著名的五星级餐厅用餐。

【答案】 C (细节题) His son had ordered food from several restaurants.

【定位】 A man was left with a \$1,000 bill, after his 6-year-old son ordered a virtual buffet of food from several restaurants last weekend.

上周末，一名男子的6岁儿子从多家餐馆点了一桌虚拟盛宴，结果他留下了一张1000美元的账单。

【信号】 after 因果链。 新闻首句用 after his 6-year-old son ordered... 直接交代了账单产生的原因：after 前面是结果 (\$1,000 bill) ，后面是原因 (儿子点餐) 。

【替换】 his 6-year-old son ordered a virtual buffet of food from several restaurants ↔

His son had ordered food from several restaurants.

概括式同义替换

【排除】 A) 原词陷阱

录音确实出现了 'online food ordering account'，但用该账户点餐的是儿子，不是父亲；A 把动作主体从 son 偷换成 He，属于典型的主体张冠李戴。

借用原文：his father's online food ordering account

B) 原词陷阱

录音提到父亲 'let his son use his cell phone to play a game'，但儿子实际上没玩游戏，而是去点餐了；B 把 'play a game' 偷换成 'pay for playing a game'，动作和目的都错了。

借用原文：let his son use his cell phone to play a game

D) 未提及

录音从未提到 'five-star restaurant'，也未说父亲外出就餐；D 用高档餐厅制造生活常识诱惑，属于录音中找不到依据的干扰。

2. A) Teach his son a lesson.
B) Change his password.
C) Ask his neighbors for help.
D) Buy a bigger refrigerator.

【题目】 What does the news report say Keith Stonehouse is planning to do?

【翻译】 新闻报道说Keith Stonehouse计划做什么?

- A) 给他的儿子一个教训。 B) 更改他的密码。 C) 向邻居求助。
D) 买一台更大的冰箱。

【答案】 B (细节题) Change his password.

【定位】 The father is planning to change his password.

这位父亲打算更改他的密码。

【信号】 **planning to** 直接对应题干。is planning to change his password 中的 'planning to' 与题干 'is planning to do' 完全同构，后面接的 'change his password' 即为答案动作。

【替换】 change his password ↔ **Change his password.**

原词复现 + 主语省略

【排除】 A) **未提及**

录音中没有出现 'teach his son a lesson' 或任何惩罚、教育的表述；A 是利用家长的'常识反应'编造的合理但无依据选项。

C) **原词陷阱**

录音确实提到 'invited some neighbors over to eat some of it', 但目的是分享食物，不是 'ask his neighbors for help'; C 盗用 'neighbors' 一词并改变了动作性质。

借用原文：invited some neighbors over to eat some of it

D) **原词陷阱**

录音提到 'Most of the food went into the family's refrigerators', 但完全没有 'buy a bigger refrigerator' 的计划；D 用 'refrigerator' 这个原词做诱饵，把'已有冰箱'偷换成'要买更大的冰箱'。

借用原文：refrigerators

Questions 3 and 4 are based on the news report you have just heard.

1 Animal behaviour experts looked at more than 100 research papers. They examined how visitors affected the behaviour of more than 250 species in zoos. They found that elephants socialised more with each other during public feeding times. After public feeding times, they were more likely to search for food and less likely to be inactive. In the presence of many visitors, elephants were less likely to use repetitive behaviours which often indicate boredom.

动物行为专家查阅了100多篇研究论文。他们研究了参观者如何影响动物园中250多种动物的行为。他们发现，在面向公众的喂食时段，大象彼此之间的社交活动更多。公众喂食时段结束后，大象更有可能寻找

食物，也不太可能处于不活动状态。在众多参观者在场时，大象较少表现出重复性行为，而这类行为通常表明它们感到无聊。

2 Visitors had a similar effect on some other species too, including polar bears, certain jungle cats and black-tailed plain dogs. Some animal species have been born and raised in zoos, and so have likely become used to the presence of humans. Zoo visitors are often aspects of a zoo animal's environment that animals cannot control, and as such can be stressful, although some species appear to show good adaptability to the changing conditions of visitors.

参观者对其他一些物种也产生了类似影响，包括北极熊、某些丛林猫科动物和黑尾草原犬。一些动物物种出生并成长于动物园，因此很可能已经习惯了人类的存在。对动物园里的动物而言，参观者通常是其环境中动物无法控制的要素，因此可能会造成压力，尽管有些物种似乎表现出对参观者状况变化的良好适应能力。

3. A) They examined how visitors affected animal behaviour in zoos.
B) They studied when the best time to feed animals in public was.
C) They studied how animals adapted themselves to life in zoos.
D) They examined what behaviours indicated animal boredom.

【题目】 What did animal behaviour experts do according to the news report?

【翻译】 根据新闻报道，动物行为专家做了什么？

- A) 他们研究了游客如何影响动物园中动物的行为。
B) 他们研究了在公众场合喂食动物的最佳时间。
C) 他们研究了动物如何适应动物园生活。 D) 他们研究了哪些行为表明动物感到无聊。

【答案】 A (细节题) They examined how visitors affected animal behaviour in zoos.

【定位】 They examined how visitors affected the behaviour of more than 250 species in zoos.
他们研究了游客如何影响动物园里250多个物种的行为。

【信号】 直接陈述研究内容的动作句。Paragraph 1 开头先说专家 looked at more than 100 research papers, 紧接着 They examined how visitors affected the behaviour of more than 250 species in zoos. 用 examined 直接回答题干；对新闻细节题，这种紧跟主题引入的动作句就是答案落点。

【替换】 They examined how visitors affected the behaviour of more than 250 species in zoos. ↔

They examined how visitors affected animal behaviour in zoos.

具体数量概括为 animal，研究对象一致

【排除】 B) 原词陷阱

录音提到 during public feeding times 与 After public feeding times, 但这是在说大象的行为变化, B 项把 public feeding times 改成 'the best time to feed animals', 既偷换概念又答非所问。

借用原文: public feeding times

C) 偷换概念

some species appear to show good adaptability to the changing conditions of visitors 讲的是适应游客变化, C 项改成 'adapted themselves to life in zoos', 对象从 visitors 变成 zoos, 属于偷换概念。

借用原文: good adaptability to the changing conditions of visitors

D) 原词陷阱

repetitive behaviours which often indicate boredom 只是研究中的一个发现细节, D 项把它上升为专家的研究主题 'what behaviours indicated animal boredom'。

借用原文: repetitive behaviours which often indicate boredom

4. A) They socialise with zookeepers as well as with each other.

B) They show good adaptability to living with humans.

C) They have been kept as pets by humans.

D) They have been born and raised in zoos.

【题目】 Why have some animal species likely become used to the presence of humans?

【翻译】 为什么有些动物物种很可能已经习惯了人类的存在?

A) 它们既与动物园饲养员交往, 也彼此交往。

B) 它们表现出与人类共同生活的良好适应性。 c) 它们曾被人类当作宠物饲养。

D) 它们出生并成长于动物园。

【答案】 D (细节题) They have been born and raised in zoos.

【定位】 Some animal species have been born and raised in zoos, and so have likely become used to the presence of humans.

有些动物物种在动物园出生、长大, 因此可能已经习惯了人类的存在。

【信号】 因果连词 and so 把原因和结果钉在一起。 题干中的 'become used to the presence of humans' 与答案句后半句完全对应, 前半句 'have been born and raised in zoos' 由 and so 引出, 正是问题要的 why。

【替换】 have been born and raised in zoos ↔ **They have been born and raised in zoos.**

原因部分被原样截取, 主语由 Some animal species 换成 They

【排除】 A) 张冠李戴

elephants socialised more with each other 是 Paragraph 1 中关于大象的发现，与题干问的 'some animal species' 习惯人类无关，且 zookeepers 在录音中从未出现。

借用原文：socialised more with each other

B) 答非所问

录音确实提到 some species appear to show good adaptability to the changing conditions of visitors，但这是习惯人类之后表现出的能力，是结果；题干问 why，B 项答非所问。

借用原文：good adaptability to the changing conditions of visitors

C) 未提及 录音只说 born and raised in zoos 导致习惯人类存在，从未提到 as pets。

Questions 5 to 7 are based on the news report you have just heard.

1 Denver is suspending its popular electric bike incentive program. The program was launched in April. It allowed Denver residents to apply for \$400 in government funds before buying an electric bike from a participating shop. Residents who met certain income qualifications could qualify for \$1,200. More than 3,000 Denver residents applied for incentives within the first 3 weeks.

丹佛暂停了广受欢迎的电动自行车激励计划。该计划于4月启动，允许丹佛居民在从参与计划的商店购买电动自行车之前，申请400美元的政府补助。符合特定收入条件的居民可获得1,200美元。启动后的前3周内，超过3,000名丹佛居民申请了补助。

2 The city then changed the program to limit the number of applications each month. On Monday, the city announced the pause. "We're honored to be a part of transforming the way Denver wants to move around," said Grace Rink, Denver's chief climate officer. "We exhausted three years' worth of funding in six months." The city said the program has put 4,400 electric bikes on the streets of Denver and invested \$8.6 million into the local economy. The city has provided 2,200 incentives to lower-income residents that represent 68% of the program funding. The city expects to resume the program early next year. It also plans design changes to make participation easier and increase access to the program.

随后，该市对计划进行了调整，限制每月的申请数量。周一，该市宣布暂停该计划。丹佛首席气候官格蕾丝·林克说：“我们很荣幸能够参与改变丹佛人出行的方式。”她说：“我们在6个月内用尽了原本可供3年使用的资金。”该市表示，这项计划已让4,400辆电动自行车行驶在丹佛街头，并向当地经济投入了860万美元。该市已向低收入居民提供2,200项补助，占计划资金的68%。该市预计明年年初恢复该计划，同时还计划进行设计调整，以便居民更容易参与并扩大计划的覆盖范围。

5. A) Adjusting it.
B) Suspending it.
C) Reevaluating it.
D) Expanding it.

【题目】 What is Denver doing with its popular electric bike incentive program?

【翻译】 丹佛正在如何处理其广受欢迎的电动自行车激励计划？

- A) 调整该计划。 B) 暂停该计划。 C) 重新评估该计划。 D) 扩大该计划。

【答案】 **B** (细节题) Suspending it.

【定位】 Denver is suspending its popular electric bike incentive program.

丹佛正在暂停其受欢迎的电动自行车激励项目。

【信号】 **新闻首句直接点题**。Denver is suspending its popular electric bike incentive program 位于新闻首句，直接回答了 What is Denver doing 的问题；suspending 与选项 B 的核心动词完全一致。

【替换】 is suspending ↔ **Suspending it**

现在进行时动作直接对应

【排除】 A) **答非所问**

选项 A 的 Adjusting 看似与原文 plans design changes 沾边，但 design changes 是 plan (计划)，不是当前正在做的动作，且题干问的是 doing (现在进行)。

借用原文：plans design changes to make participation easier

c) **未提及** 选项 C 的 Reevaluating 在录音中没有对应表述，属于凭空捏造。

D) **偷换概念**

选项 D 的 Expanding it 容易被 increase access to the program 诱惑，但 increase access 是 plans (未来设计目标)，且项目当前是暂停而非扩张。

借用原文：increase access to the program

6. A) They could buy an electric bike for \$400 in April.

B) They could buy their first electric bike at a discount.

C) They could enjoy free after-sale service for their purchase.

D) They could get \$1,200 from government funds if they qualified.

【题目】 **How did the electric bike incentive program benefit residents?**

【翻译】 电动自行车激励计划如何让居民受益？

A) 他们可以在四月份花400美元购买一辆电动自行车。

B) 他们可以以折扣价购买自己的第一辆电动自行车。

C) 他们可以享受所购电动自行车的免费售后服务。

D) 如果符合条件，他们可以从政府资金中获得1200美元。

【答案】 **D** (细节题) They could get \$1,200 from government funds if they qualified.

【定位】 It allowed Denver residents to apply for \$400 in government funds before buying an electric bike from a participating shop. Residents who met certain income qualifications could qualify for \$1,200.

它允许丹佛居民在从参与商店购买电动自行车之前申请400美元的政府资金。符合特定收入资格居民可以获得1,200美元。

【信号】居民获益的具体说明。题干 benefit residents 问居民如何受益，原文 allowed Denver residents to apply for \$400 和 Residents who met certain income qualifications could qualify for \$1,200 正是对居民所获资助的直接说明。

【替换】Residents who met certain income qualifications could qualify for \$1,200 ↔

They could get \$1,200 from government funds if they qualified

同义替换：资格条件与获得资助的改写

【排除】A) **原词陷阱**

选项 A 把 \$400 in government funds 和 launched in April 两个原词拼凑成 buy an electric bike for \$400 in April，但原文说的是申请 \$400 资金，不是花 \$400 买车；April 是项目启动时间，不是买车时间。

借用原文：\$400 in government funds before buying an electric bike; launched in April

B) **原词陷阱**

选项 B 盗用原文 buying an electric bike，但原文说的是申请政府补贴，不是直接打折；discount 在录音中并未出现。

借用原文：buying an electric bike from a participating shop

C) **未提及** 选项 C 的 after-sale service 在原文中没有对应内容，属于无中生有。

-
7. A) Put 400 more electric bikes on its streets.
B) Increase the program funding by 8 percent.
C) Resume its electric bike incentive program.
D) Invest millions of dollars into the local economy.

【题目】What does the city of Denver expect to do early next year?

【翻译】丹佛市预计明年年初会做什么？

- A) 在街头投放另外400辆电动自行车。 B) 将该计划的资金增加8%。
C) 恢复其电动自行车激励计划。 D) 向当地经济投入数百万美元。

【答案】C (细节题) Resume its electric bike incentive program.

【定位】The city expects to resume the program early next year.

该市预计将于明年年初恢复该项目。

【信号】题干关键词直接复现。原文 expects to resume the program early next year 与题干 expect to do early next year 的关键词 expects / early next year 直接对应，resume 就是答案动作。

【替换】expects to resume the program early next year ↔ **Resume its electric bike incentive program**

同义替换：resume the program = Resume its electric bike incentive program

【排除】 A) 原词陷阱

选项 A 把 \$400 和 put 4,400 electric bikes on the streets 拼凑成 Put 400 more electric bikes on its streets, 数字和时态都错了。

借用原文: \$400 in government funds; put 4,400 electric bikes on the streets of Denver

B) 偷换概念

选项 B 的 8 percent 在原文中没有依据, 可能是把 68% of the program funding 误听或篡改而来。

借用原文: 68% of the program funding

D) 与原文相反

选项 D 盗用原文 invested \$8.6 million into the local economy, 但原文用的是 invested (已完成), 而题干问的是 expect to do early next year (未来计划), 时态不符。

借用原文: invested \$8.6 million into the local economy

Section B

Directions: In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 8 to 11 are based on the conversation you have just heard.

1 W: Hey, Mike, what do you think of the museum you visited today?

W: 嘿, 迈克, 你觉得今天参观的博物馆怎么样?

2 M: Hey, Sue. The museum is great, very interesting. They have loads of stuff there on display. The primitive tools early humans used tell a lot about their life, but my favorite is the coin collection. They have some coins that are over 2,000 years old.

M: 嘿, 苏。这个博物馆很棒, 非常有意思。那里展出了很多东西。早期人类使用的原始工具能让我们了解到很多他们的生活情况, 不过我最喜欢的是钱币收藏。他们有些钱币已经有两千多年的历史了。

3 W: That sounds cool.

W: 听起来很酷。

4 M: Yeah, what did you do today?

M: 是啊, 你今天做了什么?

5 W: Kathy and I just wandered through the old city centre. The streets are narrow but beautiful with plenty of charm. We saw the Trevi Fountain, which is in all the guidebooks.

W: 我和凯西只是逛了逛老城区。街道虽然狭窄, 却很漂亮, 充满了魅力。我们看了特莱维喷泉, 所有旅游指南上都有介绍。

6 M: How do you like it?

M: 你觉得怎么样?

7 W: It's very pretty, but it was overcrowded with tourists.

W: 非常漂亮, 不过游客太多了, 挤得水泄不通。

8 M: Yeah, well, it's crowded everywhere. It is August after all, the busiest month of the year.

M: 是啊, 到处都很拥挤。毕竟现在是八月, 一年中最繁忙的月份。

9 W: Yes, it's like the whole world is here on holiday, including us. What will you do tomorrow?

W: 是啊, 感觉全世界的人都来这里度假了, 包括我们。你明天打算做什么?

10 M: I haven't decided yet. I was thinking of doing what you did today—wandering the old streets and taking pictures. I was also thinking of visiting the square with the Spanish steps.

M: 我还没决定。我在考虑做你今天做的事, 逛逛老街, 拍拍照。我还在考虑去看看有西班牙阶梯的那个广场。

11 W: What is that? I haven't heard of it.

W: 那是什么地方? 我没听说过。

12 M: It's a square where on one side, there are some very wide steps with flowers that go up to a church. It's also in all the tourist guidebooks. It's very famous and pretty. I was also thinking of seeing that tomorrow.

M: 那是一个广场, 广场一侧有一段很宽的台阶, 台阶上摆满了鲜花, 一直通向一座教堂。旅游指南上也都有介绍。那里非常有名, 也很漂亮。我也在考虑明天去看看。

13 W: It sounds very nice. Do you mind if Kathy and I join you tomorrow?

W: 听起来很不错。你介意明天我和凯西跟你一起去吗?

14 M: Not at all. I spent the whole day today pretty much alone. Doing tourist stuff with others would be a welcome change.

M: 当然不介意。我今天基本上独自待了一整天。和别人一起做些游客会做的事, 换换方式也挺不错的。

15 W: Let me ask her first, but I'm sure she'll be up for it.

W: 我先问问她, 不过我相信她会愿意去的。

8. A) The coin collection.

B) The primitive tools.

C) The ancient ornaments.

D) The 2,000-year-old clothes.

【题目】 What exhibits does the man like best in the museum he visited?

【翻译】 他最喜欢在参观的博物馆里看到哪些展品?

A) 硬币收藏。 B) 原始工具。 C) 古代饰品。 D) 有两千年历史的服装。

【答案】 A (细节题) The coin collection.

【定位】 The primitive tools early humans used tell a lot about their life, but my favorite is the coin collection.

早期人类使用的原始工具能告诉我们很多关于他们生活的信息, 但我最喜欢的是硬币收藏。

【信号】转折 but + favorite 点出最爱。男士先提 The primitive tools, 随即用 but my favorite is 把重点转向 coin collection, favorite 与题干 like best 同义。

【替换】my favorite is the coin collection ↔ The coin collection.
favorite = like best

【排除】B) 原词陷阱

The primitive tools. 确实出现在 The primitive tools early humans used..., 但它是 but 之前的铺垫, 与 like best 无关。

借用原文: The primitive tools early humans used tell a lot about their life

C) 未提及 录音中只提到 tools 与 coin collection, 完全没有 ornaments 这一展品。

D) 偷换概念

The 2,000-year-old clothes. 盗用了 over 2,000 years old 这一数字, 但原文说的是 coins, 不是 clothes。

借用原文: some coins that are over 2,000 years old

-
9. A) It is charming with narrow but beautiful streets.
B) It attracts visitors from every corner of the world.
C) It has flowers displayed around the Trevi Fountain.
D) It is more attractive than the pictures in guidebooks.

【题目】What does the woman say about the old city centre?

【翻译】关于老城区, 女士说了些什么?

- A) 这里虽然街道狭窄, 但很迷人美丽。 B) 它吸引着来自世界各地的游客。
C) 特莱维喷泉周围摆放着鲜花。 D) 它比旅游指南中的图片更有吸引力。

【答案】A (细节题) It is charming with narrow but beautiful streets.

【定位】The streets are narrow but beautiful with plenty of charm.

街道狭窄但很美, 充满了魅力。

【信号】直接描述 + but 强调 beautiful/charm。女士用 narrow but beautiful with plenty of charm 直接描述 old city centre 的街道, but 后的 beautiful 与 charm 是评价重心。

【替换】The streets are narrow but beautiful with plenty of charm ↔

It is charming with narrow but beautiful streets.

charm→charming, 同词保留 narrow but beautiful

【排除】 B) 张冠李戴

It attracts visitors from every corner of the world. 盗用 it's like the whole world is here on holiday, 但这是对整个城市旺季的感受, 不是 old city centre 本身。

借用原文: it's like the whole world is here on holiday

C) 原词陷阱

It has flowers displayed around the Trevi Fountain. 盗用 with flowers, 但 flowers 是在 Spanish steps 的台阶上, 不是 Trevi Fountain 周围。

借用原文: with flowers that go up to a church

D) 过度推断

It is more attractive than the pictures in guidebooks. 中的 guidebooks 出现在 in all the guidebooks, 但女士只说 Trevi Fountain 上了 guidebooks, 并未比较吸引力。

借用原文: in all the guidebooks

10. A) It is covered with wild grass.

B) It is very famous and pretty.

C) It is located away from an old church.

D) It is surrounded by Spanish-style houses.

【题目】 What does the man say about the square with the Spanish steps?

【翻译】 关于西班牙阶梯所在的广场, 男士说了些什么?

A) 广场上长满了野草。 B) 它非常著名, 也很漂亮。 C) 它远离一座古老的教堂。

D) 它周围环绕着西班牙风格的房屋。

【答案】 B (细节题) It is very famous and pretty.

【定位】 It's a square where on one side, there are some very wide steps with flowers that go up to a church. It's also in all the tourist guidebooks. It's very famous and pretty.

这是一个广场, 其中一侧有非常宽阔、饰满鲜花的台阶通向一座教堂。它也在所有旅游指南里。它非常有名而且漂亮。

【信号】 连续介绍后 famous/pretty 给出评价。 男士先说明 square 的物理特征, 再用 It's very famous and pretty. 给出总体评价, 这是问题的直接回答。

【替换】 It's very famous and pretty. ↔ **It is very famous and pretty.**

It's → It is 缩写展开, 形容词原词保留

【排除】A) **未提及** 录音提到 wide steps with flowers, 完全没有 wild grass。

C) **与原文相反**

It is located away from an old church. 与 steps with flowers that go up to a church 相反。

借用原文: steps with flowers that go up to a church

D) **原词陷阱**

It is surrounded by Spanish-style houses. 盗用 Spanish 一词, 但原文只说 square with the Spanish steps, 未提 surrounding houses。

借用原文: visiting the square with the Spanish steps

11. A) Ask Kathy what her plan is.

B) Tell Kathy Mike will join them.

C) Ask Kathy if she'd like to see the square.

D) Tell Kathy Mike would like to have a change.

【题目】What does the woman say she is going to do first?

【翻译】她说她打算先做什么?

A) 问凯茜有什么计划。 B) 告诉凯茜迈克会加入他们。

C) 问凯茜是否愿意去看看那个广场。 D) 告诉凯茜迈克想换换环境。

【答案】C (细节题) Ask Kathy if she'd like to see the square.

【定位】Let me ask her first, but I'm sure she'll be up for it.

让我先问问她, 但我相信她会愿意的。

【信号】first 直接对应题干 first。女士用 Let me ask her first 明确动作的先后顺序, first 与题干 first 同词对应。

【替换】Let me ask her first ↔ Ask Kathy if she'd like to see the square.

ask her → Ask Kathy; 语境指约她看 square

【排除】A) **答非所问**

Ask Kathy what her plan is. 把 ask her 曲解为询问计划, 但前文已计划去看 square, 实际问的是愿不愿意加入。

B) **偷换概念**

Tell Kathy Mike will join them. 把 ask 偷换成 tell, 且 Kathy 是否加入尚未确定, 不能提前告知。

D) **张冠李戴**

Tell Kathy Mike would like to have a change. 盗用 Doing tourist stuff with others would be a welcome change, 但这是 Mike 的想法, 不是女士要 first 做的事。

借用原文: Doing tourist stuff with others would be a welcome change

Questions 12 to 15 are based on the conversation you have just heard.

1 M: Can you give me advice about being successful at a new job? I start mine next week.

M: 你能给我一些关于如何在新工作中取得成功的建议吗？我下周就要开始工作了。

2 W: Sure. It's important not to undermine the significance of the first few days of your job, since this is the best time to create a solid first impression.

W: 当然。千万不要低估入职头几天的重要性，因为这段时间最适合树立良好的第一印象。

3 M: That's a good point. I'll need to collaborate with my coworkers and I'm very aware of just how important others are for my success at work.

M: 你说得有道理。我需要和同事合作，而且我非常清楚别人对我在工作中的成功有多么重要。

4 W: It's also important to understand your role thoroughly to gain a comprehensive picture of your job. The most important thing for you to do at first is to understand your role from multiple perspectives.

W: 彻底了解自己的职责也很重要，这样才能全面了解你的工作。你一开始最重要的事情，就是从多个角度了解自己的职责。

5 M: Why is that?

M: 为什么呢？

6 W: Well, what you do at work is not just limited to your job description. You need to consider how your work relates to other people within the organization.

W: 这个嘛，你在工作中做的事情并不只是局限于职位描述。你需要考虑自己的工作与组织内部其他人的工作有什么联系。

7 M: Oh, right. So, for example, certain reports that I create at the end of the month may be used by a team in another department.

M: 哦，对。比如说，我在月底制作的某些报告可能会被另一个部门的团队使用。

8 W: That's right. And in that respect, it's also important to learn about the business to see the big picture.

W: 没错。从这个角度来说，了解公司业务、掌握全局也很重要。

9 M: You mean like knowing about the history of the company.

M: 你的意思是要了解公司的历史之类的吗？

10 W: Kind of, but more like knowing the details of the products and services that the company exists to deliver. Learning about the business will give you a chance to understand how your role fits into the bigger picture.

W: 算是吧，不过更重要的是了解公司赖以存在的那些产品和服务的具体情况。了解公司业务能让你明白自己的职责是如何融入更大的整体的。

11 M: Okay. I'm feeling a bit uneasy about meeting my boss as well.

M: 好的。不过，想到要见我的老板，我还是有点不安。

12 W: That's to be expected. However, it's crucial that you get to know the people who have decision-making authority to gain insight regarding how the business is run and decisions are made.

W: 这是可以理解的。不过，了解那些拥有决策权的人至关重要，这样你才能深入了解公司是如何运营的，以及决策是如何做出的。

13 M: Great advice. Thanks.

M: 这个建议太好了。谢谢。

同义转写

【排除】 A) 原词陷阱

How to fit into the bigger picture. 中的 bigger picture 确实在 P10 出现，但它是女士后续建议的内容，不是男士最初想获得的建议。

How to get on with colleagues. 中的 colleagues 相关概念在 P3 出现，但那是男士表示意识到同事重要性，并非他向女士寻求的核心建议。

借用原文：collaborate with my coworkers

C) 张冠李戴

How to create a solid first impression. 几乎原样出现在 P2，但那是女士给的第一条建议，不是男士主动求的建议。

同义词替换

【排除】 A) 原词陷阱

Get familiar with all the details of his job description. 中的 job description 在 P6 原词出现，但录音说的是 what you do is not just limited to your job description，即「不局限于岗位描述」，恰恰否定了此项。

借用原文：job description

B) 偷换概念

Learn about the relations within the organization. 对应 how your work relates to other people within the organization，但那是解释「为什么要多角度理解角色」的原因，不是 the most important thing 本身。

借用原文：how your work relates to other people within the organization

C) 未提及

-

Learning history. 中的 history 在 P9 出现，但那是男士举例「了解公司历史」，并非他感到不安的对象。

借用原文：history of the company

C) 原词陷阱

Creating reports for other departments to use. 中的 reports 和 department 在 P7 出现，但那是男士用来举例说明工作关联性，与不安情绪无关。

借用原文：reports that I create at the end of the month may be used by a team in another department

D) 与原文相反

Leaving his coworkers in the present company. 中的 leaving 与录音中 collaborate with my coworkers 的「合作」态度相反，且录音未提及任何离职/离开含义。

然而，你必须去认识那些有决策权的人，以便了解企业是如何运作、决策是如何做出的。

【信号】建议句 + 目的状语。it's crucial that you get to know...to gain insight regarding... 中，主句给出建议动作，不定式给出目的，正好对应题干 to gain insight about the running of the business。

【替换】get to know the people who have decision-making authority ↔ Get to know the decision-makers.
名词化同义替换

【排除】B) 偷换概念

Acquire decision-making authority. 盗用 decision-making authority 原词，但原文说的是「认识拥有决策权的人」，而非男士自己去「获取」决策权。

借用原文：people who have decision-making authority

C) 原词陷阱

Promote its products and services. 中的 products and services 在 P10 出现，但那是「了解公司业务」的内容，不是「了解企业运作与决策」的建议。

借用原文：products and services that the company exists to deliver

D) 过度推断

Observe its overall management. 看似与 how the business is run 相关，但原文具体建议是「认识决策者」，而非泛泛地「观察整体管理」。

借用原文：how the business is run and decisions are made

Section C

Directions: In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 16 to 18 are based on the passage you have just heard.

1 Contrary to popular belief, consumers aren't as smart as they like to believe. Many consumers report comparing multiple competing brands and prices when evaluating a purchase. However, research indicates that this is not actually the case. What consumers really think or feel often contradicts what they say. A big reason is that they are driven by unconscious urges, the biggest of which is emotion.

与普遍看法相反，消费者并没有他们自认为的那么聪明。许多消费者表示，在评估一项购买时，他们会比较多个相互竞争的品牌及其价格。然而，研究表明，实际情况并非如此。消费者真正的想法或感受往往与他们所说的相矛盾。一个重要原因是，他们受到无意识冲动的驱使，其中最主要的就是情感。

2 Emotion is what really drives the purchasing behaviors, and also, decision making in general. Good marketers keep in mind this important fact all the time, and examples of emotion-based campaigns are everywhere. Think for a moment, what is actually being sold in most marketing campaigns? Luxury goods target our feelings of self-worth, acceptance, and status in the world. Communication devices

excite us by offering a connection to friends, family and a broader network of people. And many other products, such as rings, target emotions related to love and relationships.

真正驱动购买行为的，是情感；一般而言，决策也是如此。优秀的营销人员始终牢记这一重要事实，而以情感为基础的营销活动随处可见。请想一想，大多数营销活动实际上销售的是什么？奢侈品瞄准的是我们关于自我价值、认同感以及社会地位的感受。通信设备通过提供与朋友、家人以及更广泛人际网络的联系，使我们感到兴奋。许多其他产品，例如戒指，则瞄准与爱情和人际关系相关的情感。

3 As marketers, we should focus on the features of the product, but we must also sell the lifestyle and the feeling. The key is to highlight the emotional response a consumer will have by using the product. To achieve the highest emotional response, we should target our consumer through many different senses. A lot of what drives consumers is subconscious behavior. But this isn't a bad thing. There's nothing manipulative about helping consumers achieve desired states of emotion.

作为营销人员，我们应当关注产品的功能，但也必须销售一种生活方式和一种感受。关键在于突出消费者使用产品后将产生的情感反应。为了达到最强烈的情感反应，我们应当通过许多不同的感官来触达消费者。驱动消费者行为的诸多因素都属于潜意识行为。但这并不是一件坏事。帮助消费者获得期望的情感状态，并没有任何操纵性。

16. A) They do not tell marketers their feeling about a product.

B) They do not compare competing brands and prices.

C) They are not hesitant to contradict themselves.

D) They are not sure what they really like to buy.

【题目】 What does research indicate about many consumers when they evaluate a purchase?

【翻译】 关于许多消费者在评估一项购买时的情况，研究表明了什么？

- A) 他们不会告诉营销人员自己对某一产品的感受。 B) 他们不会比较竞争品牌和价格。
C) 他们毫不犹豫地自相矛盾。 D) 他们不确定自己真正喜欢购买什么。

【答案】 B (细节题) They do not compare competing brands and prices.

【定位】 Many consumers report comparing multiple competing brands and prices when evaluating a purchase. However, research indicates that this is not actually the case.

许多消费者声称自己在评估购买时会比较多个竞争品牌和价格。然而，研究表明事实并非如此。

【信号】 转折 **however** 否定前文自我报告。However, research indicates that this is not actually the case. 中的 however 把前一句消费者自我报告的内容推翻，research indicates 后的否定才是答案所在。

【替换】 research indicates that this is not actually the case ↔

They do not compare competing brands and prices.

否定前文的同义改写

【排除】 A) 偷换概念

原文讨论的是消费者真实想法与所说之间的矛盾，并非'是否告诉营销人员感受'，选项把话题偷换成 marketers。

C) 原词陷阱

They are not hesitant to contradict themselves. 盗用了原文 What consumers really think or feel often contradicts what they say. 中的 contradict，但原文是'所想/所感与所说矛盾'，并非'毫不犹豫地自相矛盾'。

借用原文：What consumers really think or feel often contradicts what they say.

D) 未提及

原文只说消费者被 unconscious urges / emotion 驱动，并未说他们'不确定自己喜欢买什么'，属于根据常识编造的选项。

17. A) Consumers are often attracted by new products.

B) Consumers tend to make decisions on the spot.

C) Consumers find it hard to resist temptation.

D) Consumers are actually driven by emotion.

【题目】 What do good marketers keep in mind all the time?

【翻译】 优秀的营销人员始终牢记什么？

A) 消费者常常会被新产品吸引。 B) 消费者往往会当场作出决定。

C) 消费者觉得很难抵制诱惑。 D) 消费者实际上是受情感驱动的。

【答案】 D (细节题) Consumers are actually driven by emotion.

【定位】 Emotion is what really drives the purchasing behaviors, and also, decision making in general. Good marketers keep in mind this important fact all the time, and examples of emotion-based campaigns are everywhere.

情感才是真正驱动购买行为、乃至一般决策的东西。优秀的营销人员始终牢记这一重要事实，基于情感的营销活动例子比比皆是。

【信号】 指代 this important fact 回指前句主旨。 Good marketers keep in mind this important fact all the time 中的 this important fact 明确回指上一句 Emotion is what really drives the purchasing behaviors, and also, decision making in general., 答案就在前一句。

【替换】 Emotion is what really drives the purchasing behaviors, and also, decision making in general. ↔
Consumers are actually driven by emotion.

主动变被动，drive 同根转换

【排除】 A) 未提及

原文提到 marketing campaigns 和各类产品，但从未说消费者'被新产品吸引'，属于无中生有。

B) 原词陷阱

Consumers tend to make decisions on the spot. 盗用了原文 decision making in general 中的 decision，但原文讲的是'决策一般被情感驱动'，不是'当场做决定'。

借用原文：decision making in general

C) 未提及

原文讲 emotion / unconscious urges 驱动消费者，但并未出现 temptation 或'难以抗拒诱惑'的表述。

18. A) Draw consumers' attention to the luxury goods symbolizing quality life.

B) Leave consumers the impression they are doing nothing manipulative.

C) Highlight the emotional response it will trigger in the consumer.

D) Remind consumers of the wide connections it can help to build.

【题目】 What should marketers do besides stressing the features of a product?

【翻译】 除了强调产品的特点外，营销人员还应该做什么？

A) 将消费者的注意力吸引到象征高品质生活的奢侈品上。

B) 让消费者觉得他们没有在进行任何操纵。 C) 强调产品将引发消费者的情感反应。

D) 提醒消费者产品可以帮助建立广泛的人际联系。

【答案】 C (细节题) Highlight the emotional response it will trigger in the consumer.

【定位】 As marketers, we should focus on the features of the product, but we must also sell the lifestyle and the feeling. The key is to highlight the emotional response a consumer will have by using the product.

作为营销人员，我们应该关注产品特性，但也必须推销生活方式和感觉。关键是突出消费者使用产品后产生的情感反应。

【信号】 but / also 补充 + The key is to 强调。 but we must also sell the lifestyle and the feeling 先补充应做之事，随后 The key is to highlight the emotional response... 用 The key is to 进一步加强核心动作，答案落在这里。

【替换】 highlight the emotional response a consumer will have by using the product ↔

Highlight the emotional response it will trigger in the consumer.

同义替换：have by using → trigger in

【排除】 A)

Draw consumers' attention to the luxury goods symbolizing quality life. 盗用原文
Luxury goods target our feelings of self-worth, acceptance, and status in the world.
中的 luxury goods, 但该句只是论证情感营销的例子, 不是题干问的'除了 features 还应该做什么'。

借用原文: Luxury goods target our feelings of self-worth, acceptance, and status in the world.

B) 原词陷阱

Leave consumers the impression they are doing nothing manipulative. 盗用原文
There's nothing manipulative about helping consumers achieve desired states of
emotion. 中的 manipulative, 但原文是在为情感营销辩护, 不是把它作为营销人员'应该做的事'。

借用原文: There's nothing manipulative about helping consumers achieve desired states
of emotion.

D)

Remind consumers of the wide connections it can help to build. 盗用原文
Communication devices excite us by offering a connection to friends, family and a
broader network of people. 中的 connection / broader network, 但这只是
communication devices 的例子, 不是营销人员的总体做法。

借用原文: Communication devices excite us by offering a connection to friends, family and a
broader network of people.

Questions 19 to 21 are based on the passage you have just heard.

1 Plastics have for years been used to make nearly everything that surrounds us. But along the way, they escaped the confines of packaging and objects and settled in the environment, the food we eat and the air we breathe.

多年来, 塑料一直被用于制造我们周围几乎所有的东西。但在这一过程中, 它们逃离了包装和物品的束缚, 进入了环境、我们所吃的食物以及所呼吸的空气中。

2 Americans are consuming and breathing in a lot of plastic. Based on available data, Americans take in an estimated 74,000 to 121,000 microplastic particles every year. However, scientists believe the true number is probably much higher, because for some likely sources of microplastics, there were no strong data available.

美国人正在摄入并吸入大量塑料。根据现有数据估算, 美国人每年摄入的微塑料颗粒数量在7.4万至12.1万之间。然而, 科学家认为真实数量可能高得多, 因为对于一些很可能的微塑料来源, 目前没有可靠的数据。

3 Microplastics get into food and air in several ways. Many start off as part of larger plastic objects, which over time fragment into smaller and smaller pieces until they become tiny: 5 millimeters or less in

diameter. They are breathed in or consumed by animals, and then become our food. The particles float through the air until people breathe them in. They also settle on the food that people eat.

微塑料通过多种方式进入食物和空气。许多微塑料最初是较大塑料物品的一部分，随着时间的推移逐渐碎裂成越来越小的碎片，最终变得十分微小，直径仅为5毫米或更小。它们会被动物吸入或摄入，随后成为我们的食物。这些颗粒漂浮在空气中，直到人们将其吸入。它们也会沉积在供人们食用的食物上。

4 Data shows that for Americans, air, bottled water and seafood were the biggest sources for breathed-in or consumed microplastics. Added sugars accounted for less, and salts, tap water and beer contributed minimal amounts. These estimates are conservative. The included foods only make up about 15% of the average American diet. It's not yet known how much plastic is contained in the remaining 85% of the typical diet.

数据显示，对于美国人来说，空气、瓶装水和海鲜是吸入或摄入微塑料的最大来源。添加糖所占比例较小，而盐、自来水和啤酒所贡献的数量极少。这些估算是保守的。所纳入的食物仅约占美国人平均饮食的15%。典型饮食中剩余的85%含有多少塑料，目前尚不清楚。

19. A) They are taking in a lot of plastic.
B) They are polluting the environment.
C) They consume much processed food.
D) They make everything with plastics.

【题目】 What does the passage say about Americans?

【翻译】 这篇文章说美国人什么情况？

- A) 他们摄入了大量塑料。 B) 他们正在污染环境。 C) 他们食用大量加工食品。
D) 他们用塑料制造一切东西。

【答案】 A (细节题) They are taking in a lot of plastic.

【定位】 Americans are consuming and breathing in a lot of plastic.

美国人正在摄入并吸入大量塑料。

【信号】 段首总领句。Americans are consuming and breathing in a lot of plastic. 是第二段首句，开门见山给出美国人摄入塑料的结论。

【替换】 Americans are consuming and breathing in a lot of plastic ↔ taking in a lot of plastic
同义概括

【排除】 B) 原词陷阱

原文 they escaped the confines of packaging and objects and settled in the environment 说的是塑料 escape 到环境中，而不是美国人正在污染环境。

借用原文：they escaped the confines of packaging and objects and settled in the environment

C) 未提及

短文只提到 food we eat、the average American diet，没有说美国人 consume much processed food。

D) 原词陷阱

原文 Plastics have for years been used to make nearly everything that surrounds us 的主语是 plastics，而不是 Americans。

借用原文：Plastics have for years been used to make nearly everything that surrounds us

-
20. A) Beer, salts and added sugars.
B) Tap water and take-away food.
C) Food packages and plastic bags.
D) Air, bottled water and seafood.

【题目】 What counted as the biggest sources for Americans breathing in or consuming microplastics?

【翻译】 对于美国人吸入或摄入微塑料而言，哪些被认为是最大的来源？

- A) 啤酒、盐和添加糖。 B) 自来水和外带食品。 C) 食品包装和塑料袋。
D) 空气、瓶装水和海鲜。

【答案】 D (细节题) Air, bottled water and seafood.

【定位】 Data shows that for Americans, air, bottled water and seafood were the biggest sources for breathed-in or consumed microplastics.

数据显示，对美国人而言，空气、瓶装水和海鲜是吸入或摄入微塑料的最大来源。

【信号】 Data shows + 最高级 biggest. Data shows that for Americans, air, bottled water and seafood were the biggest sources for breathed-in or consumed microplastics. 中 Data shows 引出结论，biggest sources 直接对应题干的 biggest sources。

【替换】 air, bottled water and seafood were the biggest sources for breathed-in or consumed microplastics

↔ **Air, bottled water and seafood**

原词复现

【排除】 A) 答非所问

原文 Added sugars accounted for less, and salts, tap water and beer contributed minimal amounts 说明啤酒、盐、添加糖所占比例更少或极小，不是 biggest sources。

借用原文：Added sugars accounted for less, and salts, tap water and beer contributed minimal amounts

B) 偷换概念

原文 salts, tap water and beer contributed minimal amounts 说明 tap water 是极小量，不是最大来源；take-away food 则根本没出现。

借用原文：salts, tap water and beer contributed minimal amounts

C) 未提及

Food packages and plastic bags 听起来像塑料来源，但原文说的是 larger plastic objects fragment into smaller pieces，并未把它们列为最大来源。

-
21. A) How much plastic there is in the remaining 85% of Americans' typical diet.
B) What measures can be taken to prevent plastic objects from fragmenting.
C) What harm microplastics may actually do to the average Americans.

C) 微塑料实际上可能对普通美国人造成多大危害。
D) 微塑料进入食物和空气的方式有多少种。

【答案】 A (细节题) How much plastic there is in the remaining 85% of Americans' typical diet.

【定位】 It's not yet known how much plastic is contained in the remaining 85% of the typical diet.
典型饮食中剩余 85% 含有多少塑料尚不清楚。

【信号】 not yet known 直接对应 unknown。 It's not yet known how much plastic is contained in the remaining 85% of the typical diet. 中的 not yet known 与题干 still unknown 同义。

【替换】 how much plastic is contained in the remaining 85% of the typical diet ↔

How much plastic there is in the remaining 85% of Americans' typical diet

同义改写

【排除】 B) 未提及

原文 Many start off as part of larger plastic objects, which over time fragment into smaller and smaller pieces until they become tiny 只讲碎片化过程，没有讲如何 prevent。

借用原文：Many start off as part of larger plastic objects, which over time fragment into smaller and smaller pieces until they become tiny

C) 未提及 短文只谈了微塑料的摄入量和来源，没有讲 harm 或实际危害。

D) 答非所问

原文 Microplastics get into food and air in several ways 已经说明有几种途径，因此“有多少种方式”不是 still unknown。

借用原文：Microplastics get into food and air in several ways

Questions 22 to 25 are based on the passage you have just heard.

1 People looking to stay well as they age may want to adopt a pet animal, according to new data from the University of Michigan National Poll on Healthy Aging. For the survey, researchers polled about 2,000 U.S. adults from ages 50 to 80. 55% said they owned at least one pet. Dogs were the most common pet, followed by cats. But whatever the type of animal, the vast majority of owners said their pets boosted their mental and physical health.

密歇根大学健康老龄化全国民意调查的最新数据显示，希望随着年龄增长保持健康的人或许可以考虑养一只宠物。调查中，研究人员询问了约2,000名年龄在50至80岁之间的美国成年人。55%的人表示自己至少养有一只宠物。狗是最常见的宠物，其次是猫。但无论饲养何种动物，绝大多数宠物主人都表示，宠物改善了他们的心理和身体健康。

2 Nearly 90% of older pet owners said their animals helped them enjoy life and feel loved; roughly 80% said their pets reduced stress; and almost three-quarters said their pets provided a sense of purpose. However, people did report a few disadvantages to pet ownership. This included difficulty traveling and financial strains. 6% of pet owners said they'd fallen or injured themselves as a result of having a pet.

近90%的老年宠物主人表示，宠物帮助他们享受生活并感受到关爱；约80%的人表示，宠物减轻了他们的压力；近四分之三的人表示，宠物让他们感到生活有目标。不过，人们确实也报告了养宠物带来的一些不利之处，包括出行困难和经济压力。6%的宠物主人表示，他们曾因养宠物而跌倒或受伤。

3 Still, plenty of research has shown that just about anyone can benefit from their pet, since animals can lower stress, reduce symptoms of depression and anxiety and encourage physical activity. The new poll suggests that pet ownership may be especially beneficial for older adults, given how common loneliness and social isolation are within this age group. Human social support comes with a host of health benefits—less stress, lower rates of long-term disease and more—and research shows that interacting with pets can bring many of the same benefits.

尽管如此，大量研究表明，几乎所有人都能从宠物身上受益，因为动物能够减轻压力，缓解抑郁和焦虑症状，并促进身体活动。这项新的民意调查表明，养宠物对老年人可能尤其有益，因为孤独和社会隔离在这一年龄群体中十分普遍。人类的社会支持能够带来一系列健康益处，包括减轻压力、降低长期疾病的发生率等；研究表明，与宠物互动也能带来许多相同的益处。

22. A) They planned to adopt a pet animal.
B) They kept not only a dog but a cat.
C) They had at least one pet.
D) They liked cats more than dogs.

【题目】 What did over half of the respondents say in the survey?

【翻译】 在调查中，超过半数的受访者说了什么？

- A) 他们计划养一只宠物。 B) 他们养的不仅有狗，还有猫。 C) 他们至少养有一只宠物。
D) 他们比起狗更喜欢猫。

【答案】 C (细节题) They had at least one pet.

【定位】 55% said they owned at least one pet.

55%的人说他们至少养了一只宠物。

【信号】 数字比例直接作答。题干问『超过半数受访者说了什么』，而55% said they owned at least one pet中55%正好对应over half，数字句就是答案句。

【替换】 55% ↔ over half

数字同义替换

owned at least one pet ↔ had at least one pet

同义词替换

【排除】 A) 原词陷阱

They planned to adopt a pet animal盗用了adopt a pet animal原词，但原文主语是People looking to stay well as they age（希望保持健康的老年人），且说的是may want to（可能想），并非调查中过半受访者的实际行为。

借用原文：People looking to stay well as they age may want to adopt a pet animal

B) 偷换概念

They kept not only a dog but a cat把原文Dogs were the most common pet, followed by cats曲解为『同时养狗和猫』，但原文只说明狗最常见、猫次之，并未说同一人同时养两种。

借用原文：Dogs were the most common pet, followed by cats

D) 与原文相反

They liked cats more than dogs与原文Dogs were the most common pet, followed by cats相反，原文表明狗比猫更常见，即人们更常养狗而非更喜欢猫。

借用原文：Dogs were the most common pet, followed by cats

-
23. A) A sense of pride.
B) A sense of duty.
C) A sense of purpose.
D) A sense of security.

【题目】 What did most older pet owners in the survey say their pets provided?

【翻译】在调查中，大多数年长的宠物主人说，他们的宠物提供了什么？

A) 自豪感。 B) 责任感。 C) 目标感。 D) 安全感。

【答案】C (细节题) A sense of purpose.

【定位】Nearly 90% of older pet owners said their animals helped them enjoy life and feel loved; roughly 80% said their pets reduced stress; and almost three-quarters said their pets provided a sense of purpose.

近90%的老年宠物主人表示，他们的动物帮助他们享受生活并感到被爱；约80%的人说宠物减轻了他们的压力；近四分之三的人说宠物给了他们一种目标感。

【信号】排比列举中的第三项。原文Nearly 90%...; roughly 80%...; and almost three-quarters said their pets provided a sense of purpose用排比列举宠物带来的三种好处，题干问『most』对应的是almost three-quarters (近四分之三) 这一组，其后的provided a sense of purpose即为答案。

【替换】almost three-quarters ↔ most

比例同义替换

their pets provided a sense of purpose ↔ A sense of purpose

原词复现

【排除】A) 未提及

A sense of pride中的pride在原文P2的排比列举中并未出现，原文只提到enjoy life、feel loved、reduced stress和a sense of purpose。

B) 未提及

A sense of duty中的duty在原文P2中未出现；虽然照顾宠物可能隐含责任，但原文并未把它作为宠物『提供』给主人的感受。

D) 未提及

A sense of security中的security在原文P2中未出现，原文只提到feel loved (感到被爱) 和reduced stress (减轻压力)，并未涉及安全感。

-
24. A) A few problems with keeping big animals.
B) Some disadvantages related to pet ownership.
C) A few cases of getting attacked by pet animals.
D) Some conflicts with neighbors due to pet keeping.

【题目】What does the passage say people did report in the survey?

【翻译】文章说人们在调查中确实报告了什么？

A) 饲养大型动物时遇到的一些问题。 B) 与养宠物有关的一些不利之处。
C) 少数遭到宠物攻击的案例。 D) 因养宠物而与邻居发生的一些冲突。

【答案】B (细节题) Some disadvantages related to pet ownership.

【定位】 However, people did report a few disadvantages to pet ownership.

然而，人们确实报告了一些养宠物的缺点。

【信号】 转折词however引出负面信息。前文P2讲宠物带来的种种好处，随后用However一转，引出people did report a few disadvantages to pet ownership，正好对应题干所问。

【替换】 a few disadvantages to pet ownership ↔ Some disadvantages related to pet ownership

同义替换+限定词替换

【排除】 A) 未提及

A few problems with keeping big animals中的big animals在原文P2中并未出现，原文只泛泛讨论pet ownership，未限定动物体型。

C) 偷换概念

A few cases of getting attacked by pet animals把原文6% of pet owners said they'd fallen or injured themselves as a result of having a pet中的injured偷换为attacked by pet animals，受伤不等于被动物攻击。

借用原文：6% of pet owners said they'd fallen or injured themselves as a result of having a pet

D) 未提及

Some conflicts with neighbors due to pet keeping中的neighbors和conflicts在原文P2中均未提及，原文提到的缺点是difficulty traveling和financial strains。

A) 像医疗帮助一样减轻同样多的抑郁症状。 B) 像体育活动一样改善人们的健康。

C) 像锻炼一样有效地减轻老年人的压力。 D) 带来许多与人的社会支持相同的益处。

【答案】 D (细节题) Bring many of the same benefits as human social support.

【定位】 Human social support comes with a host of health benefits—less stress, lower rates of long-term disease and more—and research shows that interacting with pets can bring many of the same benefits.

人类的社会支持带来诸多健康益处——压力更小、长期疾病发病率更低等等——研究表明，与宠物互动也能带来许多同样的益处。

【信号】 研究结论句直接作答。题干问research show interacting with pets can do，原文research shows that interacting with pets can bring many of the same benefits直接给出研究结论，是答案句。

【替换】 interacting with pets can bring many of the same benefits ↔

Bring many of the same benefits as human social support

原句概括+比较对象补全

【排除】 A) **原词陷阱**

Reduce as many symptoms of depression as medical help盗用了原文reduce symptoms of depression原词，但额外添加了as...as medical help这一原文没有的医疗帮助比较，属于强加了不存在的关系。

借用原文：animals can lower stress, reduce symptoms of depression and anxiety and encourage physical activity

B) **偷换概念**

Improve people's health as much as physical activities把原文encourage physical activity（鼓励身体活动）偷换成『与身体活动效果一样好』，并添加了as much as比较，原文并未将养宠物与physical activities作效果比较。

借用原文：animals can lower stress, reduce symptoms of depression and anxiety and encourage physical activity

C) **偷换概念**

Lower older people's stress as effectively as exercising把原文animals can lower stress和encourage physical activity两个独立好处拼接成『降低压力的效果与锻炼一样好』，但原文并未将lower stress与exercising进行效果比较。

借用原文：animals can lower stress, reduce symptoms of depression and anxiety and encourage physical activity

One of the biggest controversies over the Industrial Revolution is how it affected the working class. The oldest debates were over whether the standards of living rose or fell. Those that believed they fell claimed that the capitalists 26 every ounce of surplus they could from the working class. Those that believed the standards of living rose claimed that the environment was consumer-friendly, with more and more goods 27 to the working class every year.

围绕工业革命的最大争议之一，是它对工人阶级产生了怎样的影响。最早的争论集中在生活水平究竟是提高了还是下降了。认为生活水平下降的人声称，资本家从工人阶级身上榨取了他们能够榨取的每一分剩余价值。认为生活水平提高的人则声称，当时的环境有利于消费者，每年都有越来越多的商品面向工人阶级供应。

Today's historians agree that overall, the standards of living 28 . They do not agree, however, on when this improvement 29 .

如今的历史学家一致认为，总体而言，生活水平提高了。然而，他们对于这种改善发生在什么时候并不一致。

In an effort to solve this controversy, historians have attempted to define 30 what "standard of living" means. They all seem to agree that it should mean happiness, but happiness is impossible to measure. Instead, historians 31 use "real income" as the measure for the standards of living. Real income is money 32 and then adjusted according to the cost of living. However, it does not take into account unemployment, pollution, health, life expectancy, or free time.

为了化解这一争议，历史学家试图确切界定“生活水平”的含义。他们似乎都同意，生活水平应当意味着幸福，但幸福是无法衡量的。因此，历史学家通常使用“实际收入”来衡量生活水平。实际收入是挣得的钱，

再根据生活成本进行调整。不过，这一指标没有考虑失业、污染、健康、预期寿命或闲暇时间。

After 33 debate and analysis of the average income, historians have agreed to disagree on whether there was rapid or slow economic growth during the Industrial Revolution. Instead, they have decided to 34 how the Industrial Revolution was affected by other events. They have determined that the Industrial Revolution had an overall positive 35 , but it quite possibly was neutralized by negative events such as wars, high taxes, and rapid population growth.

在对平均收入进行了详尽的争论和分析之后，历史学家对于工业革命期间究竟是经济快速增长还是缓慢增长，已经同意彼此保留不同意见。相反，他们决定考察工业革命受到其他事件影响的情况。他们认定，工业革命总体上产生了积极影响，但战争、高税收和人口快速增长等负面事件很可能抵消了这种影响。

26. Those that believed they fell claimed that the capitalists __(26)__ every ounce of surplus they could from the working class.

【答案】 **N) squeezed** (动词)

【词性槽】 主语 the capitalists 后缺谓语，宾语从句用过去时 → 过去式及物动词

【依据】 **squeeze...from... 压榨搭配，贴合"生活水平下降"一方的控诉**

squeezed 填入得 the capitalists squeezed every ounce of surplus they could from the working class (资本家从工人阶级身上榨取每一盎司剩余) ——squeeze...from... 是"从.....中榨取"的固定搭配，空后的 from 正是它的信号。更关键的是语境：本句是"认为生活水平下降"一方的观点，Those that believed they fell claimed that...，控诉资本家压榨，squeezed 的负面感情色彩与控诉口吻完全一致。

【竞争词】 **C) earned 逻辑指向反：剩余价值是"榨"来的，不是资本家"挣"来的**

earned (挣得) 填入意为"资本家挣得每一分剩余"，把批判性的"压榨"说成了中性的"赚取"，且 earn 不接 from the working class；本句是批判资本家的观点句，需要带负面色彩的词，earned 色彩不符、搭配不通，双重出局。

I) increased 搭配不成立：increase 不接 from，且方向反

increased (增加) 是经济类文章高频词，看见 surplus 容易顺手选它——这是本空最大的坑。但 increase 从不与 from the working class 搭配；且"资本家增加剩余"是说资本家变富，与本句"工人被压榨所以生活水平下降"的论证方向相反。它真正的位置在 28 题。

K) occurred 不及物：带不动宾语 surplus

occurred (发生) 是不及物动词，后面不能接宾语 every ounce of surplus；"资本家发生了剩余"语法、语义双不通。它真正的位置在 29 题 (this improvement occurred) 。

【易错】 最具迷惑性的错误词是 **I)** —— increased 是经济文高频词，见 surplus 易顺手选。

increased (增加) 词性对、话题贴，"资本家增加每一分剩余"初读也顺——但它不接 from the working class，且本句是"认为生活水平下降"一方的控诉 (Those that believed they fell claimed that...)，需要负面词。防坑口诀：先定本句褒贬，再查空后介词——from 锁定 squeeze...from 搭配，squeezed 才是答案，increased 的真正归宿是 28 题。

27. with more and more goods __(27)__ to the working class every year

【答案】 **A) available** (形容词)

【词性槽】 with+名词+补足语结构，空后是介词 to → 形容词

【依据】 **available to sb. 固定搭配，且呼应 consumer-friendly**

available 填入得 more and more goods available to the working class (越来越多商品对工人阶级"可得") ——available to sb. 是四级核心搭配。句内更有铁证：前面说 the environment was consumer-friendly, "消费环境友好"正是"商品越来越买得到", 语义完全咬合。

【竞争词】 **B) deteriorating 逻辑指向反：与 consumer-friendly 矛盾**

deteriorating (恶化的) 若填入，意为"越来越多恶化的商品流向工人"，与本句 consumer-friendly (对消费者友好) 的正面语境直接冲突；且 deteriorate 是不及物义，deteriorating to the working class 搭配也不成立。

G) exhausting 搭配不当：exhausting 不接 to，也不修饰 goods

exhausting (令人筋疲力尽的) 修饰的是过程、工作、行程一类事物，说"令人疲惫的商品"不通；它也没有 exhausting to sb. 的用法，空后的 to the working class 无法安顿。

L) peculiar 无中生有：全文无"奇怪"语义支撑

peculiar (奇怪的) 填入意为"越来越多奇怪的商品"，文章通篇讨论生活水平升降，没有任何语境支持"奇怪"这一评价；它属于命题人放的纯凑数形容词，靠"词性对"诱选。

28. Today's historians agree that overall, the standards of living __(28)__.

【答案】 **I) increased** (动词)

【词性槽】 宾语从句主语 the standards of living 后缺谓语 → 动词

【依据】 **increased 呼应下句 this improvement，定调"总体上升"**

increased 填入得 overall, the standards of living increased (总体上生活水平上升了)。铁证在下一句：They do not agree, however, on when this improvement __(29)__.——this improvement (这一改善) 只能回指"上升"，若生活水平没升，improvement 一词无从谈起。overall 也与首段论战 whether the standards of living rose or fell 呼应：当代史学家给出的结论是 rose 一方。

【竞争词】 **C) earned 及物动词无宾语："生活水平挣得"不通**

earned (挣得) 是及物动词，必须带宾语 (earn money)，本空后无任何宾语；且"生活水平"不能发出"挣"的动作。earned 的真正位置在 32 题 money earned。

K) occurred 语义不搭配："发生"的是改善，不是生活水平

occurred (发生) 填入意为"生活水平发生了"，occurred 的主语应是事件 (improvement, change)，"水平"无所谓发生；且下句 this improvement 表明本句已交代"上升"这一事实，occurred 无法提供这个前提。occurred 的真正位置在 29 题。

29. They do not agree, however, on when this improvement __(29)___.

【答案】 **K) occurred** (动词)

【词性槽】 从句主语 this improvement 后缺谓语 → 动词 (过去式)

【依据】 **improvement occurred: 改善"发生", 与 when 天然搭配**

occurred 填入得 when this improvement occurred (这一改善何时发生) ——occur (发生) 的主语正是事件类名词, improvement occurred 是自然搭配; 且本句讨论的就是时间分歧 (史学家 agree 总体上升了, 但不 agree "何时"), "何时发生"语义满分。

【竞争词】 c) earned 及物动词无宾语, 且"改善被挣得"语义不通

earned 必须带宾语 (earn sth.), 空后什么都没有; 即便理解成被动"改善被挣得"也不符合英语表达习惯。when 引导的时间疑问与"挣得"毫无语义联系, occurred 才是"何时"问题的标准动词。

30. historians have attempted to define __(30)___ what "standard of living" means.

【答案】 **F) exactly** (副词)

【词性槽】 动词 define 与宾语从句之间 → 副词修饰 define

【依据】 **define exactly: 精确界定, 呼应下句"幸福无法测量"**

exactly 填入得 define exactly what "standard of living" means (精确定义"生活水平"的含义)。下一句立刻给出理由: They all seem to agree that it should mean happiness, but happiness is impossible to measure.——正因为概念模糊难测, 史学家才要努力把它定义"精确", exactly 与这段的语义走向严丝合缝。

【竞争词】 m) probably 语义冲突: 定义是确定性动作, 不能"大概地定义"

probably (大概、可能) 表不确定, 而 define (下定义) 本身就是为消除不确定——"试图大概地定义"自相矛盾。本句语气是史学家主动的学术努力, 不是猜测。

o) typically 方向不合: 此处讲定义的精确度, 不讲惯例

typically (通常地) 强调"按惯例", 而本句焦点是 define 的程度 (定义得多精确), "通常地定义"答非所问。typically 真正的用武之地在下一空 (31), 它描述的是"史学家通常采用什么指标"。两个副词空相邻, 正是命题人故意设置的近位干扰。

31. Instead, historians __(31)__ use "real income" as the measure for the standards of living.

【答案】 **O) typically** (副词)

【词性槽】 主语 historians 与谓语 use 之间 → 副词

【依据】 **typically: 通常采用, 陈述学界的惯例做法**

typically 填入得 historians typically use "real income" as the measure (史学家通常以"实际收入"为衡量标准)。句首 Instead 承接上句"幸福无法测量": 既然幸福测不了, 史学界的惯常做法就是退而用实际收入——typically 描述的正是这种通行惯例, 与上文 They all seem to agree 的"共识"语气一致。

【竞争词】 M) **probably** 语气不合: 作者在陈述事实, 非推测

probably (大概、可能) 填入意为"史学家可能使用实际收入", 但本段是作者对史学界的客观陈述 (前有 They all seem to agree, 后有具体的 real income 定义展开), 不是作者的猜测; 用 probably 会把确定事实降格为推测, 与行文语气矛盾。

32. Real income is money __(32)__ and then adjusted according to the cost of living.

【答案】 **C) earned** (动词)

【词性槽】 money 后与 adjusted 并列 → 过去分词作后置定语

【依据】 **money earned: 挣到的钱, 正合 real income 的定义**

earned 填入得 money earned and then adjusted according to the cost of living (挣到的钱, 再按生活成本加以调整) ——这正是"实际收入"的标准定义: 名义收入 (你挣的钱) 剔除物价因素。earned 作后置定语修饰 money, 语法语义双通。即便不认得 real income 这个术语, 靠"并列形态+词库只剩它"也能锁定。

33. After __ (33) __ debate and analysis of the average income, historians have agreed to disagree...

【答案】 **G) exhausting** (形容词)

【词性槽】 介词 After 后、名词 debate 前 → 形容词作定语

【依据】 **exhausting debate: 旷日持久、令人疲惫的争论，呼应首段“最古老之争”**

exhausting 填入得 After exhausting debate and analysis (在令人筋疲力尽的辩论与分析之后) ——本词的最大佐证在全文开头: The oldest debates were over whether the standards of living rose or fell. 这场争论从工业革命延续至今, 称得上“旷日持久、令人疲惫”; 且本句结果是 historians have agreed to disagree (只好同意“保留分歧”), 正是争到疲惫仍无定论的写照。

【竞争词】 **B) deteriorating 搭配不当: deteriorate 指情况变坏, 不修饰 debate**

deteriorating (不断恶化的) 描述的是局势、健康、关系的变坏, “恶化的辩论”不是英语的自然搭配; 考生易把“争论越来越久”误译为“争论恶化”, 这是母语思维代入了——文章只说争论持久, 没说争论变质。

L) peculiar 无中生有: 无任何语境支持“奇怪的辩论”

peculiar (奇怪的) 填入意为“在奇怪的辩论之后”, 全文对这场争论的描述是“大、老、难”, 唯独没有“奇怪”。它是纯靠词性对来凑数的干扰项, 识破靠一句: 文中有没有对应语义支撑? 没有就不选。

【易错】 最具迷惑性的错误词是 **B)** —— 把“争论旷日持久”母语翻译成“争论恶化”。考生读到史学家争了两百年, 容易用中文“愈演愈烈”去套 deteriorating (恶化的)。但 deteriorate 在英语里惯常修饰 situation/health/relationship, 指“质量变坏”, 不修饰 debate; 文章也只说争论“古老、重大”, 从不说它“变质”。防坑口诀: 拿不准的形容词, 问“英语里它常和谁搭配”——debate 常与 exhausting/heated 同行, 不与 deteriorating 同行, exhausting 才对。

34. Instead, they have decided to __(34)__ how the Industrial Revolution was affected by other events.

【答案】 J) interpret (动词)

【词性槽】 decide to 后接原形动词，且空后带 how 宾语从句 → 及物动词原形

【依据】 interpret + how 从句，顺接"史学家的研究动作"

interpret 意为"解读、解释"，interpret how the Industrial Revolution was affected by other events 即"解读工业革命如何受其他事件影响"。上文刚说史学家对经济增长快慢 historians have agreed to disagree, Instead 一转：他们转而决定去"解读"另一个问题——主语是历史学家，动作是研究性动作，interpret 完全贴合。

【竞争词】 E) enhance 搭配不成立：enhance 只接名词宾语

enhance (增强、提升) 是及物动词但只能接名词性宾语 (enhance the quality)，不能接 how 引导的从句；且"历史学家增强工业革命如何被影响"语义荒谬——史学家研究历史，不改变历史。

H) experience 语义不通：今人无法"体验"历史事件

experience 作动词意为"亲身经历、体验"，历史学家不可能亲身"体验"两百年前工业革命如何被其他事件影响；experience 也不接 how 从句作学术讨论的对象。

35. They have determined that the Industrial Revolution had an overall positive __(35)__, but it quite possibly was neutralized by negative events

【答案】 D) effect (名词)

【词性槽】 形容词 positive 后、had 的宾语位 → 名词

【依据】 positive effect 是固定搭配，且呼应下文 neutralized

effect 填入得 an overall positive effect (总体上的积极影响)，是英语里最常见的评价框架；更关键的是后半句 but it quite possibly was neutralized by negative events such as wars, high taxes, and rapid population growth——"积极影响被负面事件抵消"，effect 与 neutralized 形成自然的因果呼应。

【竞争词】 H) experience 主客体错位：经历属于人，影响才属于事件

experience 作"经历、体验"讲时，其主体必须是有感受的人 (如 the workers' experience)；本句主语是 the Industrial Revolution 这一历史事件，历史事件对人的生活产生的是"影响"而非"体验"。且 experience 无法被下文 negative events neutralized 呼应，逻辑链断裂。

全文主旨

工业革命到底提高还是降低了工人阶级生活水平

开篇即亮出全文争议：One of the biggest controversies over the Industrial Revolution is how it affected the working class. 随后摆出两派观点——一方认为生活水平下降、资本家压榨工人，另一方认为生活水平上升、消费环境友好。后文历史学家围绕"如何衡量生活水平"展开：用 real income 作指标、承认争论无果，最终得出 the Industrial Revolution had an overall positive __(35)__ 但可能被负面事件抵消的结论。抓住"争议双方 + 最终定调偏正面"这条主线，后面多个空 (28、35) 的词义方向就有了裁判。

DISTRACTORS · 干扰词复盘

这 5 个词始终没被任何空选用

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边，却不该填进任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

B) **deteriorating** 最像 33，也像 28——两处都靠"全文定调"识破

deteriorating (恶化的) 一身两用：作形容词可混进 33 修饰 debate，作动词可混进 28 让"生活水平恶化"。识破靠主旨：全文最终定调是 the standards of living __(28)__ 处的"总体上升"与 an overall positive __(35)__, "恶化"与两条定调线都冲突；且 deteriorating debate 不是英语自然搭配。

E) **enhance** 最像 34——原形动词且词义"高大上"，败在接不了从句

enhance (增强) 是写作高频词，考生见 decide to ___ 容易顺手填它。但空后是 how the Industrial Revolution was affected by other events 的从句，enhance 只能接名词宾语；且史学家研究历史而非"增强"历史。识破口诀：动词空先看宾语形态，从句宾语一票否决。

H) **experience** 最像 35——positive experience 看着顺，主客体错了位

experience 是 35 空唯一的名词竞争者：an overall positive experience 单看语法也通。但"体验"的主体必须是人，本句主语是 the Industrial Revolution；且下文 neutralized by negative events 呼应的是"影响"被抵消，不是"体验"被抵消。识破靠问一句：这个动作/属性属于谁？

L) **peculiar** 纯词性凑数项，27、33 两个形容词空都能混进去

peculiar (奇怪的) 是词库里最"闲"的词：词性是形容词，哪儿都能放，但全文是冷静的学术讨论，没有任何语境支持"奇怪的商品"或"奇怪的辩论"。识破靠一条铁律：形容词必须有文中语义支撑，找不到支撑的凑数词果断弃。

M) **probably** 最像 30/31——副词三兄弟里语气最“安全”的一个，恰恰最不合

probably（大概）常被当成“不会错”的保守选择。但 30 空 define 是确定性动作（不能“大概地定义”），31 空是作者陈述史学界的实际做法（Instead 引出确定事实，非推测）。两个副词空都要“确定”语气，probably 的“不确定”反而处处碰壁。识破靠读作者语气：陈述还是推测，上下文信号词（Instead、agree）会告诉你。

Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

The Star Quality of New Zealand's Great Barrier Island

A) I was glad I had such terrible jetlag. Wide awake at 3:30 am with our nine-year-old daughter on our lodge balcony, I stared for hours at the most incredible night sky I've ever seen before the dawn slowly started to rub out the stars on the horizon and the multiple shooting stars faded away.

我很庆幸自己有如此严重的时差反应。凌晨三点半，我和九岁的女儿清醒地坐在旅舍的阳台上，凝望着我见过的最不可思议的夜空，数小时后，黎明才开始缓缓擦去地平线上的星星，天空中接连划过的流星也渐渐消失。

B) We were going to my wife's big family reunion in Auckland, New Zealand, but when we found out that Great Barrier Island, just off the coast, had been recently awarded Dark Sky Sanctuary status—a typically remote area that has an "exceptional or distinguished quality of starry nights"—we thought it would be the perfect place to relax before our busy schedule. It's the first island and only the fourth location in the world to achieve this status.

我们原本要去新西兰奥克兰参加我妻子家族的大型聚会，但得知离海岸不远的大屏障岛最近获评为暗夜天空保护区——这是一类通常地处偏远、拥有“非凡或卓越星空质量”的地区——我们便觉得这里会是我们在繁忙行程开始前放松身心的理想之地。这是全球第一个获此殊荣的岛屿，也是全球第四个获此殊荣的地点。

C) After a 28-hour flight with two travel-sick children, our hearts sank when we saw the tiny twin engine 10-seater that was to take us the 90km across the Hauraki Gulf to Great Barrier Island. But we needn't have worried. Whether it was the gravity force of the plane climbing or the noise of the

engine, it put our three-year-old daughter instantly to sleep until we bumped down on the grass at Claris Airport. Our first empty sick bag against all the odds... Things were looking up.

经历了乘坐飞机二十八小时、还要照顾两个晕车的孩子之后，当我们看到那架将带我们飞越豪拉基湾、前往大屏障岛的小型双引擎十座飞机时，心都凉了半截。然而，我们其实不必担心。无论是飞机爬升时的重力作用，还是引擎的噪声，都让我们三岁的女儿立刻睡着了，一直睡到飞机在克拉里斯机场的草地上颠簸着降落。第一只空着的呕吐袋，实在出乎意料.....看来事情开始顺利起来了。

- D) Great Barrier Island has no public facilities and the 950 people living there (though only about half permanently) rely on solar and wind energy, and bottled gas for cooking. There are no streetlights. There are no cash machines or banks. The police force comprises a husband and wife, and there's one postman. It's not just the lack of light but the lack of noise that's so delightful on this unique and gorgeous scene. It was first discovered by East Polynesians about 700 years ago and the Maori name for the island is Aotea. Captain Cook gave the island its European name, because it acts as a barrier between the Pacific and the Hauraki Gulf.

大屏障岛没有公共设施，岛上生活的950人（不过只有大约一半人常住）依靠太阳能和风能供电，做饭则使用瓶装燃气。岛上没有路灯，也没有自动取款机或银行。警察队伍由一对夫妻组成，邮递员也只有一人。这个独特而美丽的地方令人愉悦的，不仅是没有灯光，还有那份宁静无声。大约700年前，东波利尼西亚人最先发现了这里，岛屿的毛利语名称是Aotea。库克船长为它取了欧洲名称，因为它像一道屏障，横亘在太平洋和豪拉基湾之间。

- E) The climate here is subtropical(亚热带的) like Auckland's. The island boasts a beautiful wilderness with dense forests, glorious, unspoilt sandy beaches and plenty of bays and a few mountainous areas where there are good walking tracks among the wetlands and valleys. You can birdwatch, dive, surf and boat. The best beaches are on the eastern side of the island where the surf is better, too. The sheltered western side is where you'll find the best diving and boating. Lots of people come here for the fantastic fishing spots around the island. Like a lot of spots in New Zealand, there are whale-watching trips and you might just catch sight of sharks.

这里的气候和奥克兰一样属于亚热带气候。岛上有美丽的荒野、茂密的森林、壮丽而未遭破坏的沙滩，以及众多海湾和几处山地；湿地和山谷之间还有很好的步道。你可以观鸟、潜水、冲浪和乘船游览。最好的海滩位于岛的东侧，那里的冲浪条件也更好。西侧较为避风，是潜水和划船的最佳去处。许多人来到这里，是因为岛屿周围有绝佳的垂钓地点。和新西兰许多地方一样，这里也有观鲸之旅，你还可能看到鲨鱼。

- F) It's rare to find an island that really does feel undiscovered—but this is it. When one of my wife's relations, who comes here regularly, found out that we'd been there, he whispered to us, only half-joking: "Shh—don't tell anyone!" The locals are a relaxed and friendly bunch—a lot of them told us that it's like what Waiheke Island (now in effect a suburb of Auckland) was in the 1970s when it was a commune of artists and people wanting to escape the city.

很少有哪座岛屿真的给人一种尚未被发现的感觉，但这里就是这样。我妻子的一位经常来这里的亲戚得知我们去过那里后，半开玩笑地压低声音对我们说：“嘘——别告诉任何人！”当地人都很放松友善，他们中的许多人告诉我们，这里就像20世纪70年代的怀赫科岛——如今它实际上已经成了奥克兰的一个郊区——当时那里还是艺术家和想逃离城市的人们聚居的地方。

- G) Our guide for some of our stay was the inestimable Hilde Hoven, a Dark Sky ambassador who runs Good Heavens with Deborah Kilgallon and Orla Cumisky. They bring their Dobsonian telescope and

beanbags (it's hard work staring up wide-eyed in wonder without neck support) and, our elder daughter was glad to hear, hot chocolate to wherever you are on the island. "It's odd but when the light readings were done," said Hilde, explaining how the island was awarded its special status, "they found there was more light pollution on the northern side coming from Fiji, which is about 3,000km away, than Auckland to the south. It's pretty dark!"

我们在岛上逗留期间，有一部分时间由不可多得的向导希尔德·霍文带领。她是一名暗夜天空大使，与黛博拉·基尔加伦和奥拉·卡明斯基共同经营Good Heavens。她们会把多布森望远镜和豆袋椅带到岛上的任何地方（没有颈部支撑，睁大眼睛仰望星空、惊叹不已可是很辛苦的事），还会带上我们大女儿听说后很高兴的热巧克力。“这很奇怪，但在进行光照测量时，”希尔德解释该岛如何获此特殊称号时说，“他们发现，北侧受到来自斐济的光污染比南侧奥克兰造成的光污染还要严重，而斐济距离这里大约3000公里。这里真是够黑的！”

- H) Beginning their astronomical PowerPoint demonstration using a green laser pointer, Hilde and Orla showed us the Messier 4 spherical cluster(星团) with white dwarf stars(白矮星), Saturn and its rings, the Southern Cross and the Milky Way, which stretched across the sky. Our daughter was especially taken with Hilde's narrating of the Maori myth of Māui's fish hook to explain the shape of Scorpius. In the fable, Māui hauled the North Island of New Zealand from the bottom of the ocean with his hook.

希尔德和奥拉用绿色激光笔开始了她们的天文学PowerPoint演示，向我们展示了包含白矮星的M4球状星团、土星及其光环、南十字座和横跨天空的银河。我们的女儿尤其喜欢希尔德讲述的毛利人关于毛伊鱼钩的神话，她用这个故事来解释天蝎座的形状。传说中，毛伊用他的鱼钩把新西兰北岛从海底拖了上来。

- I) We stayed at Mount St Paul's Estate, a luxurious lodge run by the friendly Chris and Teara, both from Canada. Teara used to be a chef at the Langham in Auckland and so dinner, eaten around a huge circular table (made of one of the most ancient trees in the world), was every bit as mouth-watering as you'd expect. Eating pancakes on the balcony overlooking the unspoilt white sandy beach was a great way to start the day.

我们住在圣保罗山庄园，这是一家由友善的克里斯和蒂娅拉经营的豪华旅舍，他们两人都来自加拿大。蒂娅拉曾在奥克兰的朗廷酒店担任厨师，因此，围坐在一张巨大的圆桌旁（桌子由世界上最古老的树木之一制成）享用的晚餐，果然美味得令人垂涎。清晨在阳台上吃着松饼，俯瞰着未经破坏的白色沙滩，是开始一天生活的绝佳方式。

- J) Another highlight was an hour-long walk to Kaitoke hot pools in the centre of the island, through wetlands and a forest, where we whiled away a good hour sitting in the pools shaded from the heat by layers of delicate umbrella-like plants.

另一个亮点是步行一小时穿过岛中心的湿地和森林，前往凯托克温泉。在那里，我们坐在池中消磨了整整一个小时，层层精巧的伞状植物为我们遮挡着炎热。

- K) We also loved visiting the potter(陶艺家) Sarah Harrison, who showed us round her studio at Shoal Bay harbour, and her many pots and jugs, plates and bowls and colourful mosaics(马赛克). In her work, she also uses a lot of materials found on the beach. Our elder daughter loved the gorgeous hidden pool at Medlands beach where the water is separated from the sea in a private rock pool. Other high points were the ancient pōhutukawa trees and the incredible views of Okiwi Basin and

Whangapoua beach from the top of Windy Canyon, just a 10-minute hike through a narrow valley up some steep wooden steps on the eastern side of the island.

我们还很喜欢拜访陶艺家莎拉·哈里森。她带我们参观了自己位于肖尔湾港口的工作室，以及她制作的许多陶罐、壶、盘子、碗和彩色马赛克。她的作品还大量使用海滩上找到的材料。我们的女儿特别喜欢梅德兰兹海滩那处美丽的隐秘水池，那里有一个私密的岩石水池，将池水与大海隔开。其他亮点还包括古老的新西兰圣诞树，以及从Windy Canyon顶端眺望奥基维盆地和旺阿波瓦海滩时所见的壮丽景色。前往那里只需从岛东侧一条狭窄的山谷中穿行，沿着陡峭的木阶梯步行十分钟即可。

- L) Apparently the island council turned down famous musician Paul McCartney's application to buy a property at Great Barrier Island because of the unwelcome attention he would have brought. You can see why he wanted to come here; equally, the island knows exactly what kind of star watching it prefers.

据说，岛屿议会拒绝了著名音乐家保罗·麦卡特尼购买大屏障岛房产的申请，因为他会带来人们不希望看到的关注。你可以理解他为什么想来这里；同样，这座岛也很清楚自己偏爱的究竟是哪种“观星”。

Part III Section C (1)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

P1 Is organic food worth the higher price? It's the classic grocery store dilemma. On the one hand, your family dinner table deserves only the best. On the other hand, your wallet can only stretch so far. 有机食品是否值得更高的价格？这是杂货店购物时经典的两难选择。一方面，家人的餐桌只配得上最好的食物。另一方面，你的钱包也只能承受有限的开支。

P2 Whether or not to buy organic is a personal decision, said Mike von Massow, professor of Food Agriculture.

食品与农业学教授迈克·冯·马索说，是否购买有机食品是个人的决定。

P3 Science won't give a clear-cut answer to the question of whether organic food is "better". There are often trade-offs(权衡) and answers become less definitive depending on the product under consideration.

对于有机食品是否“更好”这个问题，科学无法给出明确的答案。这里面往往存在权衡，而且根据所考虑的产品不同，答案也会变得不那么确定。

P4 One thing is definitive: Organic and conventionally grown food are equally nutritious. From a nutrition point of view, there is no difference between organic and traditionally grown products.

有一点是确定的：有机食品和常规种植的食品营养价值相同。从营养角度看，有机产品与传统种植的产品之间没有差别。

P5 Organic products don't necessarily have fewer pesticides(杀虫剂)—in fact, they may have more. There is also no big difference between organic and non-organic products from a food-safety perspective. Even organic growers use pesticides. Testing shows little if any pesticide remains on conventionally grown products.

有机产品未必含有更少的杀虫剂，事实上，它们所使用的杀虫剂可能更多。从食品安全角度看，有机产品与非有机产品之间也没有很大差别。即使是有机种植者也会使用杀虫剂。检测表明，常规种植的产品上残留的杀虫剂即使有，也非常少。

P6 In fact, organic farmers often use larger quantities of pesticide because they can only use the natural variety of insect-killers. Chemical pesticides generally kill a much wider range of pests(害虫) than any single natural pesticide.

事实上，有机农民往往使用数量更多的杀虫剂，因为他们只能使用天然种类的杀虫剂。与任何一种天然杀虫剂相比，化学杀虫剂通常能够杀灭范围广得多的害虫。

P7 The use of animal waste in organic agriculture can also be a factor in the spread of bacteria like E. coli and salmonella. Over the past 10 years, Canada has seen more food-safety recalls for organic products, proportionally, than for conventional products.

在有机农业中使用动物排泄物，也可能成为大肠杆菌和沙门氏菌等细菌传播的一个因素。在过去10年里，加拿大有机产品被召回的食品安全事件占比高于常规产品。

P8 On the whole, organic agriculture may have a smaller environmental footprint. That's mostly because the risk of groundwater contamination from organic farming is lower. Organic farmers never use neonics, the controversial pesticides that have been linked to shrinking bee populations worldwide.

总体而言，有机农业对环境的影响可能较小。这主要是因为有机农业造成地下水污染的风险较低。有机农民从不使用新烟碱类农药，而这种备受争议的杀虫剂一直被认为与全球蜜蜂数量减少有关。

P9 Traditional agriculture has been making "dramatic improvements" to reduce its impact on the environment.

传统农业一直在进行“显著的改进”，以减少其对环境的影响。

P10 It isn't a black-and-white picture, though.

不过，情况并非非黑即白。

P11 Organic farming is much less efficient when it comes to land use, although yields vary considerably depending on the crop.

在土地利用方面，有机农业的效率低得多，尽管产量会因作物不同而有很大差异。

P12 On the other hand, advocates of organic farming argue yields and efficiency could be significantly improved if the food industry devoted as much research and money to organic farming as it does conventional agriculture.

另一方面，有机农业的支持者认为，如果食品行业像投入常规农业那样投入同等多的研究和资金用于有机农业，那么产量和效率就可能得到显著提高。

题目与逐题解析

46. What is the classic grocery store dilemma?
- A) Whether or not one should eat organic food.
 - B) Whether or not one can stretch their wallet far.
 - C) Organic food costs more but it certainly tastes better.
 - D) One wants the best food but their budget is limited.

经典的杂货店困境是什么？

- A) 是否应该吃有机食品。 B) 一个人是否能让自己的钱包撑得住。
C) 有机食品价格更高，但味道确实更好。 D) 一个人想要最好的食物，但预算有限。

【答案】 D (细节题)

【判型】 What is the classic grocery store dilemma? 没有 infer/suggest/imply 等推断标记，而是直接询问文中某一表述指什么。

【拆句】 What is the classic grocery store dilemma? 是一个简单的主系表疑问句，主干为 What is the dilemma, 无否定、比较或从句陷阱。

【定位】 On the one hand, your family dinner table deserves only the best. On the other hand, your wallet can only stretch so far.

一方面，你家餐桌上的人只配吃最好的；另一方面，你的钱包只能撑到这么多。

【选项】 A) 偷换概念

A 项说'是否应该吃有机食品'，这是文章讨论的大话题，而非 the classic grocery store dilemma 所指的具体两难处境。

B) 以偏概全

B 项只提到'钱包能撑多远'，把原文预算受限的一面单独拿出来，却丢掉了'想要最好的食物'这一面，不能完整解释 dilemma。

C) 无中生有

C 项说有机食品'当然更好吃'，但原文 P1 只提到' deserves only the best'，并未说明 best 指味道，更无 certainly tastes better 的依据。

D) ✓ 正确

your family dinner table deserves only the best ↔ **One wants the best food**

your wallet can only stretch so far ↔ **their budget is limited**

D 项把 On the one hand ... On the other hand ... 的两侧都概括进去，既提到'想要最好的食物'，也提到'预算有限'。

47. What do we learn about organic food from science?

- A) Whether it is any better remains uncertain.
- B) Whether it is healthier is under consideration.
- C) Whether it is more nutritious than conventional food is arguable.
- D) Whether it is going to replace conventional food is still unclear.

科学研究让我们了解到有机食品的哪些情况？

- A) 它是否更好仍不确定。 B) 它是否更健康仍在研究之中。 C) 它是否比常规食品更有营养尚有争议。
D) 它是否会取代常规食品仍不清楚。

【答案】 A (推断题)

【判型】 What do we learn about organic food from science? 用 learn 提问，表面像细节，实则要求把科学观点概括后推出。

【拆句】 What do we learn about organic food from science? 主干为 What do we learn about A from B, about 引出对象，from 引出信息来源，无复杂从句。

【定位】 Science won't give a clear-cut answer to the question of whether organic food is 'better'.
科学不会对'有机食品是否更好'这个问题给出一个明确的答案。

【选项】 A) ✓ 正确

Science won't give a clear-cut answer ↔ **Whether it is any better remains uncertain.**
whether organic food is 'better'] ↔ **Whether it is any better**

A 项 'Whether it is any better remains uncertain' 准确概括了 Science won't give a clear-cut answer to the question of whether organic food is 'better'. 的核心含义。

B) 偷换概念

B 项说'是否更健康仍在考虑中'，但原文说的是科学没有 clear-cut answer，而不是该问题'正在考虑'。

C) 与原文相反

C 项说'是否更有营养还可争论'，但 Organic and conventionally grown food are equally nutritious. 已明确给出结论：两者营养相同，不存在可争论空间。

D) 无中生有

D 项说'是否会取代传统食品仍不清楚'，但全文没有讨论 organic food 取代 conventional food 的问题，属于无中生有。

48. What does the passage say about organic and non-organic products as far as food safety is concerned?

- A) Their difference is the conventions used to test them.
- B) They differ in how much pesticide remains on them.
- C) One relies on pesticides whereas the other does not.
- D) There is no substantial difference between the two.

就食品安全而言，文章对有机产品和非有机产品作何说明？

- A) 二者的区别在于检测它们所采用的规范。 B) 二者在所残留农药的多少方面存在差异。
- C) 一者依赖农药，而另一者不依赖农药。 D) 二者之间没有实质性差异。

【答案】 D (细节题)

【判型】 What does the passage say about organic and non-organic products as far as food safety is concerned? 要求找文章对某具体问题的明确说法。

【拆句】 What does the passage say about organic and non-organic products as far as food safety is concerned? 中 as far as ... is concerned 是固定搭配，意为'就.....而言'，把讨论范围限定在食品安全。

【定位】 There is also no big difference between organic and non-organic products from a food-safety perspective.

从食品安全的角度来看，有机产品和非有机产品之间也没有很大差别。

【选项】 A) 偷换概念

A 项说'差异在于测试它们的惯例'，但原文 P5 没有任何关于 testing conventions 的讨论，conventional 与 conventions 被强行混淆。

B) 与原文相反

B 项说'两者在农药残留量上有差异'，但 Testing shows little if any pesticide remains on conventionally grown products. 表明传统种植产品上的农药残留极少，且总体结论是没有 big difference。

C) 与原文相反

C 项说'一种用农药，另一种不用'，但 Even organic growers use pesticides. 明确说明有机种植者也使用农药。

D) ✓ 正确

no big difference ↔ **no substantial difference**

from a food-safety perspective ↔ **as far as food safety is concerned**

D 项 'There is no substantial difference between the two' 与 There is also no big difference between organic and non-organic products from a food-safety perspective. 几乎逐词对应。

49. What does the author say about organic farming?

【答案】 C (细节题)

【判型】 What does the author say about organic farming? 问的是作者对有机农业的具体看法，可在文中找到直接陈述。

【拆句】 What does the author say about organic farming? 为简单疑问句，about organic farming 限定话题范围，无否定或比较结构。

【定位】 On the whole, organic agriculture may have a smaller environmental footprint.
总体而言，有机农业可能对环境的影响更小。

【选项】 A) 张冠李戴

A 项说'有机农业可能因全球蜜蜂数量减少而受指责'，但原文 Organic farmers never use neonics, the controversial pesticides that have been linked to shrinking bee populations worldwide. 说的是有机农业不用导致蜜蜂减少的农药，反而应是被肯定的。

B) 以偏概全

B 项说'它在运营中最小化使用有争议的农药'，但原文只提到有机农民 'never use neonics'，并未说'最小化使用所有争议农药'，且 P5-P6 还指出有机农业使用更多天然农药。

C) ✓ 正确

organic agriculture ↔ **organic farming**

have a smaller environmental footprint ↔

impact the environment less than conventional farming

C 项 'It may impact the environment less than conventional farming' 与 On the whole, organic agriculture may have a smaller environmental footprint. 语义完全对应。

D) 与原文相反

D 项说'它污染地下水程度与传统农业相当'，但 the risk of groundwater contamination from organic farming is lower 明确说有机农业地下水污染风险更低。

- D) 它们会大幅降低对环境造成的成本。

【答案】 **B** (细节题)

【判型】 What do advocates of organic farming argue about its yields and efficiency? 问支持者对某具体问题的论点。

【拆句】 What do advocates of organic farming argue about its yields and efficiency? 主干为 What do advocates argue about A, advocates of organic farming 是动作主体, its yields and efficiency 是讨论对象。

【定位】 On the other hand, advocates of organic farming argue yields and efficiency could be significantly improved if the food industry devoted as much research and money to organic farming as it does conventional agriculture.

另一方面，有机农业的支持者认为，如果食品行业像投入传统农业那样把同样多的研究和资金投入有机农业上，产量和效率可能会显著提高。

【选项】 A) **偷换概念**

A 项说'随着新技术出现，产量和效率会快速提升'，但原文条件为 'research and money'，并非 new technologies。

B) **✓ 正确**

devoted as much research and money to organic farming as it does conventional agriculture ↔
with more research and investment
significantly improved ↔ **improve remarkably**

B 项 'They would improve remarkably with more research and investment' 准确对应 yields and efficiency could be significantly improved if ... devoted as much research and money ... 的条件与结果。

C) **无中生有**

C 项说'产量和效率会伴随着巨大健康收益而实现'，但原文支持者只讨论 yields and efficiency，未提及 health benefits。

Part III Section C (2)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage Two

Questions 51 to 55 are based on the following passage.

P1 It is still controversial whether we are fundamentally generous or selfish and whether these tendencies are shaped by our genes or environment.

关于我们从根本上说是慷慨还是自私，以及这些倾向是由我们的基因还是环境塑造的，目前仍存在争议。

P2 Some evidence points to humans being born cooperative. At later stages in life we routinely work together to reach goals and help out in times of need.

一些证据表明，人类生来就具有合作倾向。在生命的后期阶段，我们通常会共同努力实现目标，并在他人有需要时提供帮助。

P3 Yet instances of selfish behavior are also plenty. One recent study tested people's willingness to set aside selfish interests to reach a greater good. It found that being selfish was more advantageous than cooperating. The benefit may be short-lived, however. Another study showed that players who cooperated did better in the long run.

然而，自私行为的例子也比比皆是。最近的一项研究测试了人们为了实现更大的共同利益而搁置自私利益的意愿。研究发现，自私比合作更有利。不过，这种好处可能是短暂的。另一项研究表明，从长远来看，进行合作的参与者表现得更好。

P4 It seems that human nature supports both pro-social and selfish traits(特征). Genetic studies have made some progress toward identifying their biological roots. By comparing identical twins, who share nearly 100 percent of their genes, and non-identical twins, who share about half, researchers have found

overwhelming evidence for genetic effects on behaviors. In these twin studies, identical and non-identical twins are asked, for example, to split a sum of money with a peer. Such studies often also rely on careful psychological assessments and DNA analysis.

看来，人性同时支持亲社会特征和自私特征。遗传学研究已经在确定这些特征的生物学根源方面取得了一些进展。通过比较基因几乎百分之百相同的同卵双胞胎和基因约有一半相同的异卵双胞胎，研究人员发现了行为受遗传因素影响的压倒性证据。在这些双胞胎研究中，研究人员会要求同卵双胞胎和异卵双胞胎，例如，将一笔钱分给一名同伴。这类研究通常还依赖于严谨的心理评估和DNA分析。

P5 Other work highlights specific genes as key players. My colleagues and I recently identified a gene linked to altruistic(利他的) behavior and found that a particular variant of it was associated with more selfish behavior in preschoolers.

其他研究则强调了某些具体基因所发挥的关键作用。我的同事和我最近发现了一个与利他行为有关的基因，并发现该基因的某一特定变体与学龄前儿童更自私的行为有关。

P6 According to evolutionary scientists, cooperative behavior may have evolved first among relatives to promote the continuation of their genetic line. As communities diversified, mutual support could have broadened to include individuals not linked by blood. Another possibility is that humans cooperate to gain some advantage, such as boosting reputation. Finally, evolutionary processes take place at the group level. Groups of highly cooperative individuals have higher chances of survival because they can work together to reach goals that are unattainable to less cooperative groups.

根据进化科学家的观点，合作行为可能首先在亲属之间进化出来，以促进其遗传谱系的延续。随着群体日益多样化，相互支持可能扩大到包括没有血缘关系的个体。另一种可能性是，人类通过合作来获得某种优势，例如提升声誉。最后，进化过程也会发生在群体层面。高度合作的个体组成的群体具有更高的生存机会，因为他们能够共同实现那些合作程度较低的群体无法实现的目标。

P7 Yet almost no behavior is entirely genetic, even among identical twins. Culture, schooling and parenting are important determinants of cooperation. Thus, the degree to which we act cooperatively or selfishly is unique to each individual and depends on a variety of genetic and environmental influences. 然而，几乎没有任何行为完全由遗传决定，即使是在同卵双胞胎之间也是如此。文化、学校教育和父母养育方式都是影响合作的重要因素。因此，我们表现得合作或自私的程度因人而异，并取决于多种遗传和环境因素的影响。

题目与逐题解析

51. What is the finding of one recent study about being selfish?

- A) It may bring certain benefits in the short term.
- B) It usually yields more disadvantages than advantages.
- C) It serves individual interest rather than a collective's.
- D) It may give way to cooperating in the long run.

最近一项关于自私行为的研究发现了什么？

- A) 短期内可能带来某些好处。
- B) 通常弊大于利。
- C) 满足个人利益而非集体利益。
- D) 长期来看可能让位于合作。

【答案】A (细节题)

【判型】 题干What is the finding of ...?直接询问某研究的客观结论，属于对文中具体信息的查找。

【拆句】 题干What is the finding of one recent study about being selfish?是主系表特殊疑问句：What（表语）+ is（系动词）+ the finding of one recent study about being selfish（主语），整体询问关于 being selfish 的研究发现。

【定位】 One recent study tested people's willingness to set aside selfish interests to reach a greater good. It found that being selfish was more advantageous than cooperating. The benefit may be short-lived, however.

一项近期研究测试了人们是否愿意搁置自私利益以实现更大的善。研究发现，自私比合作更有利。然而，这种好处可能是短暂的。

【选项】 A) ✓ 正确

being selfish was more advantageous than cooperating ↔ **bring certain benefits**

The benefit may be short-lived, however. ↔ **in the short term**

It may bring certain benefits in the short term.把原文的'more advantageous'和'short-lived'分别同义替换为'bring certain benefits'和'in the short term'，且保留了may的委婉语气。

B) 与原文相反

It usually yields more disadvantages than advantages.与原文'being selfish was more advantageous than cooperating'直接矛盾。

C) 偷换概念

It serves individual interest rather than a collective's.把实验设计中的'selfish interests'和'greater good'篡改为研究结论，但原文并未说研究发现自私服务于个人而非集体。

D) 张冠李戴

It may give way to cooperating in the long run.借用了原文'in the long run'，但把'players who cooperated did better in the long run'说成'selfish may give way to cooperating'，改变了主语与语义。

52. What have researchers found by studying identical and non-identical twins?

A) They are overwhelmingly different in the amounts of genes.

B) One's behavior is largely determined by their genetic traits.

C) One's biological roots can be identified by their genes.

D) They differ from each other in their behavior patterns.

研究人员通过研究同卵和异卵双胞胎发现了什么？

A) 两者在基因数量上存在极大差异。 B) 一个人的行为在很大程度上由其遗传特征决定。

C) 一个人的生物学根源可以通过其基因确定。 D) 他们在行为模式上彼此不同。

【答案】 B （细节题）

【判型】 题干What have researchers found ...?询问研究人员的具体发现，属于细节题。

【拆句】 题干What have researchers found by studying identical and non-identical twins?是what引导的特殊疑问句，主语researchers，谓语have found，by studying...twins为方式状语，询问通过双胞胎研究得到的发现。

【定位】 By comparing identical twins, who share nearly 100 percent of their genes, and non-identical twins, who share about half, researchers have found overwhelming evidence for genetic effects on behaviors.

通过比较基因几乎100%相同的同卵双胞胎和约一半基因相同的异卵双胞胎，研究人员发现了行为受基因影响的压倒性证据。

【选项】 A) 偷换概念

They are overwhelmingly different in the amounts of genes.将原文对双胞胎基因共享比例的客观描述改写成研究结论，且改变了比较对象。

B) ✓ 正确

genetic effects on behaviors ↔ **behavior is largely determined by their genetic traits**
overwhelming evidence ↔ **largely determined**

One's behavior is largely determined by their genetic traits.是'overwhelming evidence for genetic effects on behaviors'的同义概括，'largely'与'overwhelming'在程度上对应。

C) 偷换概念

One's biological roots can be identified by their genes.中的'biological roots'来自本段背景句，而'can be identified'夸大了研究进展，不是双胞胎研究的直接发现。

D) 无中生有

They differ from each other in their behavior patterns.在原文没有对应信息，原文关注的是基因对行为的影响，而非双胞胎行为模式之间的差异。

53. What did the author and colleagues identify in their recent research?

- A) A gene-related selfish behavior in preschool children.
- B) Key factors that determine one's altruistic behavior.
- C) A specific gene associated with altruistic behavior.
- D) Roles played by genes in shaping one's character.

作者及其同事在最近的研究中发现了什么？

- A) 学龄前儿童一种与基因相关的自私行为。 B) 决定一个人利他行为的关键因素。
- C) 一种与利他行为相关的特定基因。 D) 基因在塑造一个人的性格方面所发挥的作用。

【答案】 C (细节题)

【判型】 题干What did the author and colleagues identify ...?询问具体识别出的内容，属于细节题。

【拆句】 题干What did the author and colleagues identify in their recent research?是what引导的特殊疑问句，主语the author and colleagues，谓语did...identify，in their recent research为范围状语，询问近期研究中识别出的对象。

【定位】 My colleagues and I recently identified a gene linked to altruistic(利他的) behavior and found that a particular variant of it was associated with more selfish behavior in preschoolers. 我和我的同事最近识别出一种与利他行为相关的基因，并发现它的某种变体与学龄前儿童的自私行为有关。

【选项】 A) **以偏概全**

A gene-related selfish behavior in preschool children.只截取了定位句后半句，忽略了作者首先'identified a gene linked to altruistic behavior'这一核心对象。

B) **过度推断**

Key factors that determine one's altruistic behavior.用复数'Key factors'和'determine'，把原文仅识别的一个基因及其关联上升为决定利他行为的多个关键因素，过度推断。

C) **✓ 正确**

identified a gene linked to altruistic(利他的) behavior ↔

A specific gene associated with altruistic behavior.

a gene ↔ **A specific gene**

A specific gene associated with altruistic behavior.将'identified'转换为'associated'，'a gene'具体化为'a specific gene'，其余成分一致。

D) **过度推断**

Roles played by genes in shaping one's character.用'shaping one's character'替换了原文'altruistic behavior'，并把范围扩大到'genes in shaping character'，属于上位的过度泛化。

54. What do we learn from evolutionary scientists about cooperative behavior?

- A) It may have initially originated in individuals linked by blood.
- B) It may have caused the diversification of communities.
- C) It helps to build relationships among blood-related people.
- D) It guarantees the achievement of goals otherwise unattainable.

关于合作行为，进化科学家告诉了我们什么？

- A) 它最初可能起源于有血缘关系的个体之间。 B) 它可能导致了群体的多样化。
- c) 它有助于在有血缘关系的人之间建立关系。 D) 它保证实现原本无法实现的目标。

【答案】 **A** (细节题)

【判型】 题干What do we learn from evolutionary scientists about ...?要求获取进化科学家的具体观点，属于细节题。

【拆句】 题干What do we learn from evolutionary scientists about cooperative behavior?是what引导的特殊疑问句，'do we learn from evolutionary scientists'为谓语部分，'about cooperative behavior'限定讨论对象。

【定位】 According to evolutionary scientists, cooperative behavior may have evolved first among relatives to promote the continuation of their genetic line.

根据进化科学家的观点，合作行为可能首先在亲属之间演化，以促进其基因谱系的延续。

【选项】 A) ✓ 正确

cooperative behavior may have evolved first among relatives ↔

It may have initially originated in individuals linked by blood.

may have evolved ↔ **may have initially originated**

It may have initially originated in individuals linked by blood.将'relatives'替换为'individuals linked by blood'，将'evolved first'替换为'initially originated'，且保留了'may'。

B) 偷换概念

It may have caused the diversification of communities.将原文'As communities diversified, mutual support could have broadened'中的时间伴随关系改写成因果关系。

C) 偷换概念

It helps to build relationships among blood-related people.把原文'promote the continuation of their genetic line'改写为'build relationships among blood-related people'，从'基因延续'变为'建立关系'，改变了目的。

D) 过度推断

It guarantees the achievement of goals otherwise unattainable.用'guarantees'替换了原文'higher chances'和'can work together'中的可能性，属于程度上的过度推断。

55. What can we infer from the last paragraph?

- A) Cooperative behavior is evident among identical twins.
- B) One is born either cooperative or non-cooperative.
- C) Genes determine one's tendency to cooperate.
- D) Cooperative behavior may be cultivated.

我们可以从最后一段推断出什么？

- A) 同卵双胞胎之间存在合作行为。 B) 一个人天生就是合作的或不合作的。
- C) 基因决定一个人合作的倾向。 D) 合作行为可以后天培养。

【答案】 D (推断题)

【判型】 题干What can we infer from the last paragraph?中的infer表明需要从末段信息推导出言外之意。

【拆句】 题干What can we infer from the last paragraph?是what引导的特殊疑问句，'can we infer'表示推断，'from the last paragraph'限定推断范围。

【定位】 Yet almost no behavior is entirely genetic, even among identical twins. Culture, schooling and parenting are important determinants of cooperation. Thus, the degree to which we act cooperatively or selfishly is unique to each individual and depends on a variety of genetic and environmental influences.

然而，几乎没有行为是完全由基因决定的，即使在同卵双胞胎中也是如此。文化、学校教育以及养育方式是合作的重要决定因素。因此，我们表现出合作或自私的程度因人而异，并取决于多种基因和环境影响。

【选项】 A) 无中生有

Cooperative behavior is evident among identical twins.在末段没有对应信息，原文只说'almost no behavior is entirely genetic, even among identical twins'，并未讨论同卵双胞胎中合作行为是否明显。

B) 与原文相反

One is born either cooperative or non-cooperative.用'either...or'表达先天固定二分，与原文'depends on a variety of genetic and environmental influences'及'unique to each individual'相矛盾。

C) 与原文相反

Genes determine one's tendency to cooperate.只看见'genetic'却忽略了'not entirely genetic'和'environmental influences'，属于抓半句的相反理解。

D) ✓ 正确

Culture, schooling and parenting are important determinants of cooperation. ↔

Cooperative behavior may be cultivated.

depends on a variety of genetic and environmental influences ↔ **may be cultivated**

Cooperative behavior may be cultivated.把'Culture, schooling and parenting are important determinants'概括为'may be cultivated'，没有超出原文范围。

Part IV

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

中国有句老话："一日为师，终身为父"。在中国人的观念里，老师不仅传授知识，更教给学生做人的道理。在古代，学生初次见老师时要举行隆重的仪式，足见老师地位之高。为弘扬尊师的优良传统，中国从1985年开始将每年的9月10日定为教师节。在这一天，学生以各种方式表达对老师的敬意。尊师是中华民族的传统美德，在当今社会得到了发扬光大。

参考译文

整篇参考英译是复盘资产，考卷上只印中文原文——四六级 Part IV 翻译按整篇「表达通顺连贯、用词准确、语法正确」四档评分。

There is an old Chinese saying: "A teacher for a day is a father for a lifetime." In the eyes of Chinese people, teachers not only impart knowledge, but also teach students how to be a good person. In ancient times, students had to hold a grand ceremony when they met their teacher for the first time, which was enough to show the high status of teachers. To carry forward the fine tradition of respecting teachers, China has observed September 10 of each year as Teachers' Day since 1985. On this day, students express their respect for teachers in various ways. Respecting teachers is a traditional virtue of the Chinese nation, and it has been carried forward in today's society.

【衔接】第4句与第5句之间：用 On this day 回指教师节

第4句末刚出现 Teachers' Day，第5句 在这一天 直接译 On this day 放句首，天然形成回指衔接，不必重复 September 10 或 the festival——英文靠 this 这类指示词勾连上下文，考生要有意地让「这 / 那 / 其」落到 this/that/these 上。

第6句内部：用 it 承接 Respecting teachers

第6句前后两半共享主语 尊师，后半句不再重复 Respecting teachers，改用 and it has been carried forward...，代词 it 承接前文的动名词短语，避免同一主语两遍造成的臃肿。

第3句与第4句之间：古今顺序即逻辑

在古代 与 从1985年开始 构成从古到今的时间线，英文 In ancient times... / To carry forward..., China has...since 1985 按原顺序排列即可，时间词本身承担衔接功能，无需硬加 And then；强行加连接词反而生硬。

逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

【主旨】介绍中国尊师传统与教师节由来的文化说明文

全段围绕「尊师」展开：先引谚语 一日为师，终身为父 立观点，再讲 在中国人的观念里 老师的角色、古代拜师礼，最后落到 定为教师节 与当今现实。这是四级汉译英最典型的中国文化介绍类语体：客观陈述事实与传统，用词平实正式，不需要口语化或文学化表达。

【时态】一般现在时

通篇在客观介绍一种至今仍成立的观念与习俗——老师不仅传授知识，更教给学生做人的道理、学生以各种方式表达对老师的敬意 说的都是常态事实，故全篇以一般现在时为默认时态。仅两处确有需要才偏离：在古代 指过去→用一般过去时；从1985年开始 持续到现在→用现在完成时。

【译法】教师节

统一译作 Teachers' Day：约定俗成的法定节日译名，注意是复数 teachers 加撇号的所有格（不是 Teacher's Day，也不是 Teachers Day），Day 大写。全篇 教师节 只用这一种写法。

尊师

统一译作 respecting teachers（动名词短语，意译）：为弘扬尊师的优良传统 里作定语，用 of respecting teachers；尊师是中华民族的传统美德 里作主语，直接用 Respecting teachers。同一个文化词全篇保持同一译法，避免一处 respect teachers、一处 honoring teachers 混用。

中华民族

统一译作 the Chinese nation：约定俗成译名，尊师是中华民族的传统美德 中「的」译为 of 短语 a traditional virtue of the Chinese nation。

1. 中国有句老话："一日为师，终身为父"。

【主干】There is an old Chinese saying 引出谚语（主语策略：There be）

中国有句老话 不是说「中国拥有话」，而是说「（在中国）存在一句老话」——表存在，英文最地道的骨架是 There be 句型：There is（谓语）an old Chinese saying（真主语）。冒号后的谚语 一日为师，终身为父 作为 saying 的内容直接接在后面。

【降级】引语整体作同位内容，无需拆解

一日为师，终身为父 是 saying 的具体内容，英文惯例是冒号后直接接引号原文，相当于同位语，不需要另造从句。谚语本身内部「一日 / 终身」对仗，译成 A teacher for a day is a father for a lifetime，用 for a day / for a lifetime 两个介词短语保住对仗感，而不是逐字硬译 one day be teacher。

【语法】时态

回指全篇基调用一般现在时：谚语是超越时间的常理，There is、is 都用现在时；千万不要因为「老话」听起来古老就用过去时 There was——谚语讲道理永远用现在时。

冠词

saying 是可数名词单数且首次出现、非特指→前面加 an (old 元音开头)：an old Chinese saying；谚语内部 a teacher / a father 均为泛指「任何一个」，用不定冠词 a。

单复数

「一日为师，终身为父」讲的是任何一个个体的情形，a teacher、a father、a lifetime 都用单数；考生易顺手写成 teachers/fathers 复数，反而破坏对仗。

【译文】There is an old Chinese saying: "A teacher for a day is a father for a lifetime."

2. 在中国人的观念里，老师不仅传授知识，更教给学生做人的道理。

【主干】teachers not only impart...but also teach... (主语策略：原句主语)

中文主语明确：老师不仅传授知识，更教给学生做人的道理 中做动作的是「老师」→主语 teachers (泛指教师这一类人，用复数)；核心动词有两个「传授」「教给」，由「不仅.....更.....」并列为共同谓语：not only impart knowledge, but also teach students..., 宾语分别是 knowledge 和 students。

【降级】「在中国人的观念里」降为介词短语，「做人的道理」译为不定式短语

在中国人的观念里 是范围状语，降级为句首介词短语 In the eyes of Chinese people，不要另起 In Chinese people's concept is... 这种残句；做人的道理 是「教给学生」的内容，译成 how to be a good person (疑问词+不定式作宾语)，比 the principles of being a person 更口语地道且不易写错。

【语法】时态

回指全篇基调用一般现在时：老师不仅传授知识 说的是教师这一角色的常态职责，impart / teach 用原形。

主谓一致

主语 teachers 为复数泛指，谓语 impart、teach 均用动词原形，不能加 -s；考生常受「老师」中文无单复数影响，随手写成 the teacher imparts，与后文 students 复数搭配失衡。

单复数

「老师」「学生」都是泛指一类人→teachers、students 复数且不加 the (复数泛指表类别时前面裸奔)；knowledge 是不可数名词，绝不能写成 knowledges。

【译文】In the eyes of Chinese people, teachers not only impart knowledge, but also teach students how to be a good person.

3. 在古代，学生初次见老师时要举行隆重的仪式，足见老师地位之高。

【主干】 **students had to hold a grand ceremony** (主语策略：原句主语)

主干取自 学生初次见老师时要举行隆重的仪式：做动作的是「学生」→主语 students；核心动词「举行」→谓语 hold (「要」表必须，译为情态化的 had to hold)；宾语 a grand ceremony。后半句 足见老师地位之高 不另立主干，留给降级处理。

【降级】 「初次见老师时」降为时间状语从句，「足见.....」降为which非限定定语从句

「初次见老师时」→ when they met their teacher for the first time，作时间状语挂在主干后；足见老师地位之高 是对整件事的评论，英文惯用 which 引导的非限定定语从句承接：which was enough to show the high status of teachers (which 指代前面整件事)。「地位之高」这个「之」字结构不要硬译成 so high status，转写为名词短语 the high status of teachers 或宾语从句 how high teachers' status was。

【语法】 时态

本句是全篇基调的第一处正当偏离：在古代 明确指过去，主从句都切一般过去时——had to hold、met、was enough to show。考生最易犯的错就是沿用上句的现在时 hold，时间词出现在句首时必须警觉。

主谓一致

when 从句主语 they 指代 students，谓语 met 用过去式与主句一致；which 从句的 be 动词跟前面整件事（单数概念）→用 was。

单复数与冠词

ceremony 可数，「一场隆重的仪式」→a grand ceremony；their teacher 指每个学生拜的那一位老师，用单数即可；status 此处不可数，the high status 不加 -s。

【译文】 In ancient times, students had to hold a grand ceremony when they met their teacher for the first time, which was enough to show the high status of teachers.

4. 为弘扬尊师的优良传统，中国从1985年开始将每年的9月10日定为教师节。

【主干】 **China has observed September 10 as Teachers' Day** (主语策略：原句主语)

主干取自 中国从1985年开始将每年的9月10日定为教师节：动作发出者是「中国」→主语 China；核心动作「(定为 / 把.....当作节日来过)」→谓语 has observed (observe a day = 过某个纪念日，可延续，配 since 1985)；宾语 September 10, as Teachers' Day 作宾语补足语。「每年的」→ of each year 作后置定语。

【降级】 「为弘扬.....」降为不定式目的状语，「从1985年开始」降为since短语

为弘扬尊师的优良传统 表目的，降级为句首不定式 To carry forward the fine tradition of respecting teachers (「尊师」按全局词表统一用 respecting teachers，「弘扬」用 carry forward，比 promote 更贴「优良传统」)；从1985年开始 降级为句尾介词短语 since 1985，不要译成 from 1985 began 这种中式结构。

【语法】时态

从1985年开始 = 从过去持续到现在→用现在完成时 has observed, 这是全篇基调的第二处正当偏离。注意动词必须可持续: observe / celebrate 年年重复成立; 若用 designate (一次性指定) 就得改成 In 1985, China designated... 一般过去时, 二者只能选一套, 不能写成 has designated...since 1985。

主谓一致

主语 China 是单数国家名→助动词用 has, 不是 have。

专有名词写法

教师节 按词表统一写 Teachers' Day: 复数 teachers + 撇号, Day 大写; September 10 月份首字母大写。这是阅卷一眼可见的拼写硬伤点。

【译文】 To carry forward the fine tradition of respecting teachers, China has observed September 10 of each year as Teachers' Day since 1985.

5. 在这一天, 学生以各种方式表达对老师的敬意。

【主干】 students express their respect (主语策略: 原句主语)

学生以各种方式表达对老师的敬意 主语明确是「学生」→students; 核心动词「表达」→express; 宾语「敬意」→their respect (respect 表「敬意」时不可数)。这是典型的主谓宾简单句骨架。

【降级】「在这一天」「以各种方式」都降为介词短语, 「对老师的」用for引出

「在这一天」→ On this day 句首时间状语 (自然回指上句的 Teachers' Day, 衔接交给第三步); 「以各种方式」→ in various ways 句尾方式状语; 对老师的敬意 中「对.....的敬意」英文固定搭配 respect for teachers, 用介词 for 引出对象, 不要译成 to teachers' respect。

【语法】时态

回指全篇基调用一般现在时: 每年的教师节都如此, 是反复发生的常态→express 用原形。

单复数

ways 前有 various (多种的) →必须用复数 ways; students、teachers 均为泛指复数; respect 表敬意不可数, 不加 -s。

介词搭配

「以.....方式」用 in (in various ways), 不用 with; 「对某人的敬意」用 respect for sb.; 「在这一天」用 On (具体某天用 on, 不用 in)。介词是主体考生重灾区, 每个介词都按固定搭配核对一遍。

【译文】 On this day, students express their respect for teachers in various ways.

6. 尊师是中华民族的传统美德, 在当今社会得到了发扬光大。

【主干】 Respecting teachers is a traditional virtue (主语策略: 原句主语)

尊师是中华民族的传统美德 中「尊师」是动作短语作主语, 英文动词不能直接作主语, 要动名词化→Respecting teachers (动名词短语作主语, 视为单数); 谓语 is; 表语 a traditional virtue of the Chinese nation (「中华民族」按词表统一译法)。

【降级】「得到了发扬光大」转为and并列分句的被动谓语，「在当今社会」降为介词短语

在当今社会得到了发扬光大 与前半句共享主语「尊师」，用 and it has been carried forward 承接 (it 指代 Respecting teachers, 避免重复动名词短语)；「发扬光大」= 被弘扬光大，英文须用被动 has been carried forward；「在当今社会」→ in today's society 句尾状语。

【语法】时态

得到了发扬光大 中「得到了」表至今已实现的结果→用现在完成时 has been carried forward；前半句「是美德」是永恒判断→is 用一般现在时，与全篇基调一致。一句之内两种时态各有依据，不是随意切换。

语态

「发扬光大」的承受者是「尊师」→被动语态 has been carried forward；若写成 has carried forward 就变成「尊师弘扬了别人」，意思全反。

主谓一致

动名词短语 Respecting teachers 作主语视为单数→is、has；考生易被 teachers 复数带偏写成 are/have。

冠词

virtue 可数，「一种传统美德」→a traditional virtue；the Chinese nation 特指中华民族→加 the。

【译文】 Respecting teachers is a traditional virtue of the Chinese nation, and it has been carried forward in today's society.
