四级 · 真题卷第2套 · 2026年6月

Part I

Writing

(30 minutes)

Directions: Suppose your university newspaper is inviting submissions from the students for its coming edition on future applications of robots on campus. You are now to write an essay for submission. You will have 30 minutes to write the essay. You should write at least 120 words but not more than 180 words.

Part II

Listening Comprehension

(25 minutes)

Section A

Directions: In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 1 and 2 are based on the news report you have just heard.

1. A) She was born months after the end of World War I.
B) She has been living in her house throughout her life.
C) She suffered a great deal during the Second World War.
D) She is a 102-year-old woman living in Somerset Village.
2. A) She has been persuaded by the estate agent.
B) She needs the money badly for her health.
C) She is leaving Glastonbury Village.
D) She is moving to a nursing home.

Questions 3 and 4 are based on the news report you have just heard.

3. A) The navy's timely arrival.
B) His rich sailing experience.
C) The word HELP written on the boat.
D) His use of a mirror to send a signal.
4. A) He lost all consciousness.
B) He was in good condition.
C) He was too distressed to pick himself up.
D) He entirely abandoned himself to despair.

Questions 5 to 7 are based on the news report you have just heard.

5. A) Their efforts to provide social services have been ignored.
B) They have been criticized by the Denver school board.
C) They have taken various steps to get more funding.
D) Their enrollment has been on a noticeable decline.
6. A) Approve criteria for closing schools with decreased funding.
B) Enroll 3,000 fewer elementary and middle school students.
C) Decide which elementary and middle schools to close.
D) Alter its per-pupil funding policy on a rational basis.
7. A) To enable the district to remain competitive.
B) To avoid a negative impact on its economy.
C) To keep the district free of debt.
D) To obtain the expected funding.

Section B

Directions: *In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.*

Questions 8 to 11 are based on the conversation you have just heard.

8. A) To book tickets for a musical.
B) To enquire about the price of cats.
C) To pay for her afternoon flight to London.
D) To have her personal computer repaired.
9. A) He frequents the Lion Theatre.
B) He knows how to sell things well.
C) He is a computer science expert.
D) He is away on a business trip.
10. A) They are sold at a discount.
B) They are in low demand.
C) They are no longer available.
D) They are not too expensive.
11. A) Heights.
B) Circus.
C) Wild animals.
D) Dark nights.

Questions 12 to 15 are based on the conversation you have just heard.

12. A) He finds it bothersome to reply.
B) He has switched off his phone.
C) He hasn't got the time to text back.
D) He doesn't know how to respond.
13. A) His lack of sufficient sleep at night.
B) His addiction to mobile phone games.
C) His excessive use of the mobile phone.
D) His high frequency of surfing the net.
14. A) Shopping online and paying for his purchases.
B) Communicating with friends on social media.
C) Exploring whatever content to his liking.
D) Sharing and posting pictures and videos.
15. A) She prefers chatting with others online to meeting them.
B) There are few physical stores near where she lives.
C) Ordering meals online is a great convenience to her.
D) She needs to talk with her friends and family far away.

Section C

Directions: *In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on Answer Sheet 1 with a single line through the centre.*

Questions 16 to 18 are based on the passage you have just heard.

16. A) It is now narrowing.
B) It keeps increasing.
C) It has remained huge.
D) It will soon disappear.
17. A) It is fluctuating between 5-7%.
B) It is slowing down for everyone.
C) It is faster for those who stay in their jobs.
D) It is inadequate for dealing with inflation.
18. A) Booming.
B) Stabilizing.
C) Struggling.
D) Cooling.

Questions 19 to 21 are based on the passage you have just heard.

19. A) They have smaller amounts of nutrients than unprocessed diets.
B) Their contribution to calorie consumption is hard to determine.
C) They account for nearly half of the average American diet.
D) Their low price and convenience negatively impact health.
20. A) A strong desire to overeat.
B) A lack of nutrients like fiber.
C) A higher risk of cancer and obesity.
D) A greater intake of sugar and salt.
21. A) Eat more quickly.
B) Feel full sooner.
C) Chew thoroughly.
D) Swallow bit by bit.

Questions 22 to 25 are based on the passage you have just heard.

22. A) By attributing them to current cultural influences.
B) By attributing them to conservative thinking.
C) In terms of new genetic findings.
D) In terms of personal preferences.
23. A) Sharing with women the chores they see necessary.
B) Dividing housework that is demanding for women.
C) Performing household tasks that they enjoy.
D) Doing tasks that are physically challenging.
24. A) The large within-group differences.
B) The great similarities across groups.
C) The researchers' subjective biases.
D) The noticeable overgeneralizations.
25. A) They seem to be universal.
B) They impact people's whole life.
C) They shape one's role in society.
D) They appear at an early age.

Part III

Reading Comprehension

(40 minutes)

Section A

Directions: *In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding*

letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

It may sound surprising, but people who are supersensitive to coffee's bitter taste actually drink more of it, a new study finds.

This sensitivity isn't 26 a matter of taste, either, but rather is influenced by a person's genetic makeup, the researchers said in the study.

"You'd expect that people who are particularly sensitive to the bitter taste of caffeine would drink less coffee," said study senior researcher Marilyn Cornelis. "The 27 results of our study suggest coffee consumers acquire a taste for or an ability to detect the bitterness of caffeine due to the learned positive 28 brought out by caffeine."

Put another way, people who have a 29 ability to taste the bitterness of coffee learn to associate "good things with it," Cornelis said. This finding is surprising, given that bitterness often serves as a warning mechanism to 30 people to spit out harmful substances, the scientists said.

Researchers conducted the study to understand how genetics influences people's 31 of tea, coffee and alcohol which tend to taste bitter, said lead researcher Jue Sheng Ong.

"While all bitter flavors may seem the same, we 32 the bitterness of Brussels sprouts(抱子甘蓝), quinine(奎宁) and caffeine 33," Ong told Live Science. "The degree to which we find these flavors bitter is, in part, determined by your genes."

People with the genes to taste the bitterness of green vegetables are more likely to prefer tea to coffee. In 34, people who were more sensitive to quinine's bitter flavors and those found in green vegetables tended to 35 coffee.

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Exercise and Dementia

A) If this doesn't encourage you to squeeze in a workout today, nothing will: a new study from Sweden shows that women who were highly fit in mid-life were nearly 90% less likely to get dementia(失智) decades later.

- B) After initial exercise tests in middle age, researchers followed the women for 44 years. Both groups lived just as long, but those who could ride an exercise bike at a fast rate for 6 minutes in the initial test had a much lower risk of dementia later on than those who couldn't complete the workout.
- C) The study, published Wednesday in the journal *Neurology*, couldn't prove that exercise prevented dementia, and the findings aren't a surprise—it's long been known there's a correlation between exercise and decreased dementia risk—but the results were particularly dramatic. About 5% of the women with the highest peak workload—those who were able to bike the hardest over those 6 minutes—developed dementia, compared to 25% of those with medium fitness and 45% who weren't fit enough to finish the test, the study found. Overall, women who were highly fit compared to those who were moderately fit decreased their risk of dementia by 88%. The few highly fit women who did develop dementia became symptomatic at age 90 on average, 11 years later than the moderately fit.
- D) "I'm very surprised that the finding was so strong," said Ingmar Skoog, the paper's senior author and a psychiatry(精神病学) professor at The University of Gothenburg in Sweden. "It really shows the importance of exercise."
- E) Dementia, as defined in medical dictionaries, is a broad term that describes a loss of thinking ability, memory, attention, logical reasoning, and other mental abilities. These changes are severe enough to interfere with social or occupational functioning. Dementia isn't a disease. Instead, it's a group of symptoms caused by other conditions. It happens when the parts of your brain used for learning, memory, decision making, and language are damaged or diseased. About 5%-8% of adults over age 65 have some form of dementia. This percentage doubles every 5 years after 65. As many as half of people in their 80s have some form of dementia.
- F) Dementia is not temporary confusion or forgetfulness that might result from an infection that heals without treatment. It can also come from an underlying(潜在的) illness or side effects of medications. Dementia typically gets worse over time. People with dementia have problems with thinking and remembering that affect their ability to manage their daily life.
- G) Dementia is typically associated with declines in cognitive function. Yet researchers have found an association between dementia and declines in hearing and other basic sensory functions.
- H) Though the study mentioned above was fairly small (only 191 women took the initial fitness test, which means it's hard to maintain statistical significance while breaking the group down into sub-categories of more or less fit), it does give us hope that dementia can be prevented or delayed through exercise in one's middle age.
- I) Alzheimer's(阿尔茨海默症) and other dementias are believed to begin 15-20 years before symptoms even appear, so it makes sense that exercising in mid-life would affect the risk, Skoog said. Exercise alone is not likely to prevent Alzheimer's, but the study shows people are not helpless in the face of one of the most feared, costliest and common diseases of old age, he added. And the same activities that help prevent Alzheimer's—including avoiding smoking, getting adequate exercise and sleep and eating a healthy diet—also prevent heart disease, he said, making them even more worthwhile. "You can do something yourself to decrease your odds," Skoog said.
- J) Maintaining a healthy lifestyle in mid-life, decades before disease sets in, makes sense, said David Knopman, a fellow of the American Academy of Neurology, who was not involved in the study. "I suspect it's a dose," said Knopman, also associate director of the Alzheimer's Disease Research Center at Mayo Clinic in

Rochester, Minnesota. "Starting in late life is better than not starting at all, but starting in mid-life seems to offer a larger benefit."

- K) Although it is not entirely clear why exercise helps put off or prevent Alzheimer's, Knopman said it's likely that exercise maintains good blood flow to the brain. "When the brain is healthier from a vascular(血管的) point of view, it can absorb more Alzheimer's pathogen(病原体) before people become symptomatic," he said.
- L) The message isn't that everyone needs to run marathons in middle age, Knopman said, but a healthy lifestyle pays off.
- M) This type of study can't say exactly what kind of exercise is best, or how much is needed—only a study that has a placebo(安慰剂) group and tracks people going forward can do that, said Keith Fargo, director of scientific programs and outreach at the non-profit Alzheimer's Association. "The literature has not yet settled on an amount or type of exercise that is going to be key, although the bulk of literature has suggested that aerobic(有氧的) exercise is what you need to be doing," he said. That doesn't mean you have to compete in marathons but "more than a 10-min dog walk" would be a good idea, Fargo said.
- N) Several lifestyle studies are getting underway soon, including one backed by the Alzheimer's Association called the US POINTER study, which will offer at-risk adults, ages 60-79, a series of lifestyle interventions(干预) to see if they impact Alzheimer's risk. That and other Alzheimer's-related studies are always looking for volunteers to participate, he said.
- O) In the next three to five years, these studies should allow researchers to provide clearer recommendations for exercise and other lifestyle modifications that might reduce Alzheimer's risk, such as sleep, diet and social activities, Fargo said. But it's already quite clear that exercising at any point in life is better for your brain than not exercising at all, Fargo added.
- P) "If you don't want to have dementia when you're 80, the time to start getting fit is now," he said. "It may not necessarily give you a longer life, but there's a compelling body of work that it will give you more good years."
36. It is typical for dementia to worsen with the passage of time.
37. According to Knopman, the study gives the message that a healthy lifestyle is beneficial, but not that all the middle-aged need heavy exercise.
38. The results of a new study will encourage middle-aged women to find time exercising however busy they are.
39. Hopefully, one can postpone or prevent dementia by exercising in their mid-life.
40. In a few years, researchers should be able to offer clearer advice on exercise and other lifestyle changes for reducing the incidence of Alzheimer's.
41. Dementia refers to a loss of multiple mental abilities such as memory and logical reasoning.
42. One researcher believes that exercise may keep the brain well supplied with blood.
43. Medical literature has not concluded as to what exercise or how much exercise is crucial, although it generally agrees that people should do aerobic exercise.
44. It has long been common knowledge that exercise correlates with reduced risk of dementia.

45. Activities helpful in the prevention of Alzheimer's also prevent heart disease.

Section C

Directions: *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

Passage One

Questions 46 to 50 are based on the following passage.

People who systematically underestimate themselves and their own performance suffer from the so-called Impostor Phenomenon. They think that any success is due to external circumstances or just luck and chance. Those people live in constant fear that their "deception" will be exposed.

It is common for people to question their abilities now and again. A healthy amount of reflection and self-doubt can protect a person from acting impulsively. However, there are people who are permanently plagued by a massive amount of self-doubt despite delivering a good performance. They think that all of their successes are not a product of their skill or hard work, instead they attribute their own successes to external circumstances, for example, to luck and chance, or believe that their performance is massively overestimated by others. Failures, on the other hand, are always internalised as the result of their own shortcomings.

Psychologists from Martin Luther University Halle-Wittenberg examined the topic for the first time under real-life conditions. Seventy-six participants completed a range of intelligence tests and received positive feedback on them, regardless of their actual performance. They were then asked why they think they did so well.

The study showed two things: First, the self-reported degree of Impostor Phenomenon is not related to actual measured intelligence or performance. Secondly, the test supported the assumption that people with a tendency to exhibit the Impostor Phenomenon devalue their objectively measured performance and attribute positive results to external causes such as luck and chance, but not to their own abilities. These results are also completely unrelated to age and gender.

A permanent underestimation of one's own abilities is often accompanied by the fear that this supposed intellectual deception will be exposed sooner or later and that they will pay the price for this. The Impostor Phenomenon was first described in 1978 by US psychologists Pauline Clance and Suzanne Imes. They observed that there is a particularly high number of successful women who do not think they are very intelligent. The Impostor Phenomenon is not defined as a mental illness. However, people who suffer from it show a higher vulnerability to depression.

46. What do we learn from the passage about people who suffer from the so-called Impostor Phenomenon?

- A) They systematically underestimate their chances of success.
- B) They tend to attribute their achievements to good fortune.
- C) They seem to live in constant fear of being deceived.
- D) They generally rely on luck and chance for success.

47. What do people with a healthy amount of reflection and self-doubt tend to do?
- A) Credit all their successes to hard work.
 - B) Strive hard to perfect their skills.
 - C) Refrain from acting on impulse.
 - D) Deliver a better performance.
48. What do Impostor Phenomenon sufferers often do according to psychologists from Martin Luther University Halle-Wittenberg?
- A) Attribute their accomplishments to others.
 - B) Deny their actual measured intelligence.
 - C) Claim to have confidence in their own abilities.
 - D) Mark down their objectively rated performance.
49. What happens when a person permanently underestimates their own abilities?
- A) They will focus their attention on external factors.
 - B) They will be fearful of potential consequences.
 - C) They will count on good fortune for success.
 - D) They will keep improving their own skills.
50. What did US psychologists Pauline Clance and Suzanne Imes say about Impostor Phenomenon sufferers?
- A) They are more liable to have depression.
 - B) They seldom realise their potential fully.
 - C) They will develop mental illnesses.
 - D) They will pay higher prices one day.

Passage Two

Questions 51 to 55 are based on the following passage.

Music is a universal language. In every culture and country, you will find music. It is vitally important across the globe and has the potential to bring people together in peace and harmony. One of my favorite experiences in music is seeing musicians from different cultures come together and perform as a group. When each culture brings its own unique qualities to the group, an entirely new sound is achieved. This can create extraordinary results. People can communicate with each other using music as the common language.

One common musical thread between cultures is known as the pentatonic scale. It is astonishing how many cultures share this tool in approaching music. The pentatonic scale consists of five notes; "penta-" meaning 5, and "tonic" meaning tone or note. This scale can be found in music everywhere including that of Native Americans, Africans, and Asians. It is also found in popular music, blues, jazz, and rock. Using this five-note scale, musicians from around the globe have a medium through which they can relate, communicate, perform, and ultimately understand each other.

Music is tied to specific perceptual(感知的), mental, and emotional faculties, including language (all societies put words to their songs), motor control (people in all societies dance), sound analysis (all musical systems have a distinct pitch and quality), and aesthetics(美感) (their tunes and rhythms are balanced between repetitiveness and chaos).

There is no known society that existed without music. Although each culture has their own specific style and approach to music, you will find that the purposes behind music are very similar across the board. Music essentially serves to express or change emotions. It can cheer you up, sadden you, anger you or excite you. Music is often ceremonial: used in religion, ceremony, and celebration. Music can simply be recreational: entertaining, joyful and fun. Any way you have used music, it is almost certain that every other culture has used music in the very same way. And that is something that bonds all of us. We all share a deep love for music and it has the power to unite us.

51. In what way is music important?

- A) It is able to create novel and extraordinary emotions.
- B) It has the power to unite people throughout the world.
- C) It allows different cultural groups to sing in harmony.
- D) It is the only language favored by all peoples of the world.

52. Why does the author like to see musicians from different cultures perform together?

- A) Their musical experience can be compared.
- B) A novel language can be created.
- C) Their unique skills can be displayed.
- D) Fantastic results can be achieved.

53. What does the passage say about the pentatonic scale?

- A) It is present in music all around the world.
- B) It is helpful to understanding music.
- C) It is the basis for musicians' creation.
- D) It is a medium for ordinary people to relate.

54. What is the fundamental role of music in people's life?

- A) To bring them together.
- B) To show their identity.
- C) To express their emotions.
- D) To keep them entertained.

55. In what aspect is music similar throughout the world?

- A) The way people respond to it.
- B) The role it plays in society.
- C) The joy it brings to people.
- D) The way it is made use of.

Part IV

Translation

(30 minutes)

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分, 蕴含着热情有礼的待客之道。为了招待客人, 主人会根据客人的口味和喜好准备丰富精致的菜肴。就餐座位的安排非常讲究, 主人坐在正对大门的位

Part I

Directions: Suppose your university newspaper is inviting submissions from the students for its coming edition on future applications of robots on campus. You are now to write an essay for submission. You will have 30 minutes to write the essay. You should write at least 120 words but not more than 180 words.

【参考范文 • 146 词】 写作无唯一标准答案，以下为达标示范

Robots are no longer figures from science fiction; in the near future, they are likely to become common helpers on university campuses. As the university newspaper invites students to imagine future applications of robots on campus, I believe intelligent machines will mainly reshape our campus life in three areas: library services, laboratory assistance, and daily guidance.

First, in the library, robots could locate, fetch, and even deliver requested books to reading rooms, saving students valuable study time. Second, in science labs, robotic assistants might handle repetitive experiments or dangerous chemicals, allowing students to focus on analysis and innovation. Third, robots placed around the campus could provide real-time directions and campus information for visitors and freshmen, reducing confusion during busy periods.

Of course, these technologies should serve people rather than replace human interaction. If universities introduce robots wisely, campus life will become more efficient, safe, and welcoming.

【参考译文】

机器人不再是科幻小说里的角色；在不久的将来，它们很可能成为大学校园里的常见帮手。校报邀请学生们畅想机器人在校园的未来应用，我认为智能机器主要将从三个方面重塑我们的校园生活：图书馆服务、实验室辅助和日常指引。

首先，在图书馆里，机器人可以定位、取书，甚至把所需书籍送到阅览室，从而节省学生宝贵的学习时间。其次，在科学实验室中，机器人助手可以处理重复性实验或危险化学品，让学生专注于分析和创新。第三，放置在校园各处的机器人可以为访客和新生提供实时路线指引和校园信息，减少繁忙时段的混乱。

当然，这些技术应该为人类服务，而不是取代人际互动。如果高校明智地引入机器人，校园生活将变得更高效、更安全、更友好。

【第1段】引入趋势并亮中心。首句用 Robots are no longer figures from science fiction 引入趋势，第二句回扣题目中的 future applications of robots on campus，第三句用 I believe ... will mainly reshape ... in three areas 给出中心论点并预告三个分论点，落实了“引入+中心句”方法。

【第2段】三点论证支撑中心。用 First/Second/Third 衔接图书馆、实验室、校园导览三个场景；每个场景都说明机器人具体做什么 (locate, fetch, deliver / handle repetitive experiments / provide real-time directions)，并点出价值 (saving time / allowing focus / reducing confusion)，对应“主题句+举例+价值句”的展开法。

【第3段】限定态度并收束。先用 Of course 做限定，指出机器人应 serve people rather than replace human interaction，再用 If universities introduce robots wisely 给出条件性展望，避免结论空洞，落实了“让步/限定+总结+展望”方法。

ANALYSIS • 审题与立意

这道题到底要写什么、立意是什么

动笔前先钉死本题的核心写作任务与读者语域，再定中心立意与要展开的要点——这些是本题特有的内容判断，不是通用套路。

核心任务

投稿论说未来校园机器人应用

本题要求考生为校报即将出版的专题写一篇文章，主题是 future applications of robots on campus，必须往前看、写“未来可以怎么用”，而不是罗列现在已经存在的机器人。

读者 • 语域

校报读者·正式书面语

文章投给 your university newspaper，读者是本校师生；身份是投稿学生，语域为正式书面英语，可略带热情，但不能像私人聊天或演讲稿。

中心立意

机器人将重塑校园服务与学习生活

中心立场：未来机器人将在图书馆、实验室和校园导引等场景中提升效率与安全，而不是取代人与人之间的交流。

要展开的要点

1. 图书馆智能服务

机器人在图书馆帮助找书、送书，节省学生时间，让学习资源更易获取。

2. 实验室科研辅助

机器人承担重复性或危险实验操作，让学生专注于数据分析与创新思考。

3. 校园导览与信息咨询

机器人为访客和新生提供实时指引，减少校园生活中的信息障碍。

STRUCTURE • 谋篇与逐段

怎么分段、每段写什么、能套哪些句架

按写作家族给出现成的段落框架（每段承担什么功能），并为每段配可直接套用的 功能句架（留出填本题内容的空位）。段序与上方参考范文——对应。

第 1 段 引入+中心论点

由机器人进校园的趋势引入，回应 future applications of robots on campus，并亮明本文中心：机器人将在三方面重塑校园生活。

第 2 段 分论点论证

用三个具体场景（图书馆、实验室、校园导引）展开，每个场景说明应用方式和价值，形成主体段。

第 3 段 总结+态度

归纳机器人应服务于人而非取代人际互动，给出谨慎乐观的展望。

第 1 段 机器人将成校园帮手

点出机器人正从科幻走向现实，未来将在图书馆服务、实验辅助和校园导览三方面改变校园生活。

引入趋势 · ... are no longer ...; in the near future, they are likely to become ...

亮明观点 · I believe ... will mainly reshape ... in three areas: ..., ..., and ...

第 2 段 三个校园应用场景

分别写图书馆借还书服务、实验室重复/危险操作辅助、校园导览与信息咨询，每点都落到提升效率或安全。

分点衔接 · First, ... Second, ... Third, ...

说明功能 · ... could / might ... , allowing / saving ...

引出价值 · This will enable students to focus on ...

第 3 段 服务于人+谨慎乐观

强调机器人是辅助工具，合理使用能让校园更高效、安全、友好。

限定态度 · Of course, these technologies should serve people rather than replace ...

总结展望 · If ... wisely, ... will become more ...

REVIEW · 自检避坑

本题在四个评分维度怎样算达标、容易在哪丢分

按阅卷四维（内容切题 / 结构连贯 / 语言准确 / 字数格式）给出本题达标要点，并把最容易踩的低分写法摆出来 + 给改法 —— 这是写作版的「狠拆诱人错项」。

内容切题

紧扣 future 与 campus 两个题眼

本题最易写成现有机器人介绍或脱离校园的空泛议论。自查时确保每段都落在校园场景，并用 could / might / are likely to 等表达未来性。

结构连贯

三段功能分明

首段亮观点并预告三个方向，中段用 First/Second/Third 分点，尾段做限定并展望，整体推进清晰。

语言准确

避免空泛口语

本文用 intelligent machines / robotic assistants / real-time directions 等具体表达替代了 robots are very useful 这类空泛说法。

字数格式

控制在硬性区间

题目要求 at least 120 words but not more than 180 words，自查时优先保证不低于下限，再控制不超过上限。

典型低分写法 · 反面示例与改法

错写现状

反面示例：Now we can see many robots in our life. They sweep the floor and deliver food. This makes life easier. 问题：全文讲“现在”的机器人，偏离 future applications 题眼。修正：In the near future, robots are likely to help students locate books, assist with experiments, and guide visitors on campus.

场景空泛

反面示例：Robots are very useful. They can help us study and work. They make our campus better. 问题：没有具体场景和价值说明。修正：In the library, robots could fetch requested books, saving students time between shelves and reading rooms.

写成故事

反面示例：Last night I dreamed of a robot. It walked with me to the classroom and told me jokes. I felt very happy. 问题：变成个人故事，没有论点。修正：Robots could guide freshmen around the campus, reducing confusion and helping them settle in quickly.

Part II

Listening Comprehension

(25 minutes)

Section A

Directions: In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 1 and 2 are based on the news report you have just heard.

1 A 104-year-old woman is selling the house she has lived in since she was two years old. Nancy Gifford was born months after the end of the First World War, and spent 102 years living in her three-bedroom house in the Somerset Village of Street. She is now putting it on the market, having lived in it through the Second World War and the invention of television.

一名104岁的女子正在出售她从两岁起就一直居住的房子。南希·吉福德出生于第一次世界大战结束几个月后，在萨默塞特郡斯特里特村的这栋三居室房屋中生活了102年。如今，她准备将房子挂牌出售；她曾在这里度过第二次世界大战时期，也见证了电视的发明。

2 Her family bought the house for £200 in 1921. And it is now priced at some £170,000. According to the Bank of England's inflation calculator, £200 in 1921 would be worth £7,750 today. According to the estate agent, the house was built in 1882 and originally featured a well for the entire road. Except for some changes in the toilet and wash area, much of the house remains the same. Mrs. Gifford is selling the house and moving to a nursing home in nearby Glastonbury because of her health.

她的家人于1921年以200英镑买下了这栋房子，而如今房子的售价约为17万英镑。根据英格兰银行的通货膨胀计算器，1921年的200英镑相当于如今的7750英镑。据房地产经纪人介绍，这栋房子建于1882年，

最初设有一口供整条街使用的水井。除厕所和盥洗区有所改动外，房屋的大部分仍保持原样。由于健康原因，吉福德夫人正在出售房子，并搬到附近格拉斯顿伯里的养老院。

1. A) She was born months after the end of World War I.
B) She has been living in her house throughout her life.
C) She suffered a great deal during the Second World War.
D) She is a 102-year-old woman living in Somerset Village.

【题目】 What does the news report say about Nancy Gifford?

【翻译】 新闻报道对南希·吉福德作了什么说明？

- A) 她出生于第一次世界大战结束几个月后。 B) 她一生都住在自己的房子里。
C) 第二次世界大战期间，她遭受了巨大的痛苦。
D) 她是一名居住在萨默塞特村的102岁女性。

【答案】 A (细节题) She was born months after the end of World War I.

【定位】 Nancy Gifford was born months after the end of the First World War, and spent 102 years living in her three-bedroom house in the Somerset Village of Street.

南希·吉福德出生于第一次世界大战结束数月后，并在萨默塞特郡斯特里特村的一栋三居室房屋里住了102年。

【信号】 首段人物定义句。 新闻首段在抛出事件（104岁老妇卖房）后，用 Nancy Gifford was born months after the end of the First World War 给出人物关键身份信息，直接回应题干所问。

【替换】 Nancy Gifford was born months after the end of the First World War ↔

She was born months after the end of World War I.

同义替换：the First World War = World War I

【排除】 B) 原词陷阱

原文说 the house she has lived in since she was two years old, 并非一生都在此居住; She has been living in her house throughout her life. 把起点从两岁偷换为'一生'。

借用原文: the house she has lived in since she was two years old

C) 过度推断

原文仅说 having lived in it through the Second World War, 表示她经历了二战, 但并未说她 suffered a great deal; She suffered a great deal during the Second World War. 把'经历'强改为'遭受巨大痛苦'。

借用原文: having lived in it through the Second World War

D) 偷换概念

原文说 Nancy Gifford 是 A 104-year-old woman, 且 spent 102 years living in her three-bedroom house in the Somerset Village of Street; She is a 102-year-old woman living in Somerset Village. 把居住时长误植为年龄, 同时把 Somerset Village of Street 简化为 Somerset Village。

借用原文: A 104-year-old woman

2. A) She has been persuaded by the estate agent.

B) She needs the money badly for her health.

C) She is leaving Glastonbury Village.

D) She is moving to a nursing home.

【题目】 Why is Mrs. Gifford selling the house?

【翻译】 吉福德夫人为什么要出售这所房子?

A) 她被房地产经纪人说服了。 B) 她因健康问题急需这笔钱。

C) 她要离开格拉斯顿伯里村。 D) 她要搬到养老院去。

【答案】 D (细节题) She is moving to a nursing home.

【定位】 Mrs. Gifford is selling the house and moving to a nursing home in nearby Glastonbury because of her health.

吉福德夫人因为健康原因, 正在出售房屋并搬到附近格拉斯顿伯里的一家养老院。

【信号】 because of 因果信号。 答案句以 because of her health 结尾, 直接回答 Why; 卖房与搬去养老院是并列结果, 健康才是原因。

【替换】 Mrs. Gifford is selling the house and moving to a nursing home in nearby Glastonbury because of her health

↔ **She is moving to a nursing home.**

因果同构: 卖房是为搬去养老院

【排除】 A) 原词陷阱

原文 According to the estate agent, the house was built in 1882... 只说明中介提供了房屋信息，并未说 Mrs. Gifford 是被中介说服卖房；She has been persuaded by the estate agent. 把'中介存在'曲解为'被中介说服'。

借用原文：According to the estate agent

B) 偷换概念

原文 because of her health 说明健康是原因，但并未说她 needs the money badly；She needs the money badly for her health. 把'因健康搬家'偷换成'因健康急需钱'。

借用原文：because of her health

C) 与原文相反

原文说 moving to a nursing home in nearby Glastonbury，即她要搬去格拉斯顿伯里；She is leaving Glastonbury Village. 把'搬入附近格拉斯顿伯里'说成'离开格拉斯顿伯里'，方向相反。

借用原文：moving to a nursing home in nearby Glastonbury

Questions 3 and 4 are based on the news report you have just heard.

1 The navy rescued a man who survived 24 days floating in the sea on a boat by eating tomato sauce and vegetable powder. The man, 47, wrote the word "HELP" in English on the boat, which was key to his rescue.

海军救起了一名男子，他靠食用番茄酱和蔬菜粉，在一艘船上漂浮海上生存了24天。这名47岁的男子在船上用英语写下了“HELP”一词，这对他的获救起到了关键作用。

2 The man told authorities that his experience began in December when currents swept the sailboat out to sea while he was making repairs. To survive, the man collected rainwater with a cloth. He had to constantly remove water from the boat to prevent it from sinking. He also tried to light a fire to send a distress signal without success. Finally, a plane passed by and he signaled with a mirror. He said the navy told him that he was spotted when the plane passed again. The sailboat was abandoned at sea when the man was picked up by a nearby merchant ship. He was found in good health but had lost weight.

这名男子告诉当局，他的遭遇始于12月，当时他正在维修帆船，洋流将帆船冲向了大海。为了生存，他用一块布收集雨水。他不得不不断将船里的水排出去，以防船只沉没。他还试图生火发出求救信号，但没有成功。最后，一架飞机经过时，他用镜子发出了信号。他说，海军告诉他，飞机再次经过时发现了。这名男子被附近的一艘商船救起时，帆船已被遗弃在海上。 he 被发现时身体状况良好，但体重有所下降。

3. A) The navy's timely arrival.

B) His rich sailing experience.

C) The word HELP written on the boat.

D) His use of a mirror to send a signal.

【题目】 What does the news report say was key to the man's rescue?

【翻译】新闻报道说，什么是救出那名男子的关键？

- A) 海军及时赶到。 B) 他丰富的航海经验。 C) 船上写着“救命”二字。
D) 他用镜子发出信号。

【答案】C (细节题) The word HELP written on the boat.

【定位】The man, 47, wrote the word "HELP" in English on the boat, which was key to his rescue.

这名47岁的男子在船身上用英文写下了"HELP" (救命) 一词，而这正是他获救的关键。

【信号】非限制性定语从句 'which was key to his rescue' 直接点题。which was key to his rescue 把前文的 'wrote the word "HELP" in English on the boat' 明确标注为获救关键，是新闻中少见的显性答案标记。

【替换】wrote the word "HELP" in English on the boat ↔ The word HELP written on the boat

动作名词化 + 核心信息保留

【排除】A) 原词陷阱

The navy's timely arrival 中的 navy 确实出现在录音中，但原文只说 The navy rescued a man，海军是执行救援的一方，而非 'key to his rescue' 所指的原因。

借用原文：The navy rescued a man

B) 未提及

His rich sailing experience 中的 sailing experience 在整段录音中没有任何对应信息，属于无中生有。

D) 原词陷阱

His use of a mirror to send a signal 中的 mirror 确实在 he signaled with a mirror 中出现，但这是男子在飞机经过时的求救尝试；原文明确说 key 是 HELP，镜子只是另一条求生手段。

借用原文：he signaled with a mirror

4. A) He lost all consciousness.

B) He was in good condition.

C) He was too distressed to pick himself up.

D) He entirely abandoned himself to despair.

【题目】What do we learn about the man when he was rescued?

【翻译】关于那名男子获救时的情况，我们了解到什么？

- A) 他完全失去了意识。 B) 他的状况良好。 C) 他因过度悲痛而无法站起身来。
D) 他完全陷入了绝望。

【答案】B (细节题) He was in good condition.

【定位】He was found in good health but had lost weight.

他被发现时身体状况良好，但体重减轻了。

【信号】新闻结尾总结人物状态的收束句。 He was found in good health 中的 was found 是被救后的总结性动词，in good health 直接回应题干 'when he was rescued' 的状态询问。

【替换】 in good health ↔ **He was in good condition**
近义形容词替换

【排除】A) 偷换概念

He lost all consciousness 中的 lost 可能让考生联想到 had lost weight，但 weight 与 consciousness 是完全不同的概念，属于偷换概念。

借用原文：had lost weight

C) 未提及

He was too distressed to pick himself up 中的 distressed 与 pick himself up 在录音中均未出现，且与 'in good health' 的正面评价相反。

D) 原词陷阱

He entirely abandoned himself to despair 中的 abandoned 可能让考生联想到 The sailboat was abandoned at sea，但原文主语是 sailboat（船被遗弃），选项却把它改成 He abandoned himself（自暴自弃），且 despair 在录音中从未出现。

借用原文：The sailboat was abandoned at sea

Questions 5 to 7 are based on the news report you have just heard.

1 The board of Denver public schools is set to close several elementary and middle schools to make up for a decreased budget caused by declining enrollment. The specific schools will be announced in the coming days, a district spokesperson said.

丹佛公立学校董事会将关闭数所小学和初中，以弥补因入学人数下降而减少的预算。学区发言人表示，具体关闭的学校将在未来几天内公布。

2 The school board approved criteria to close schools with fewer than 215 students, as well as schools with fewer than 275 students and a projected decline in enrollment. In the next three years, the district expects to enroll 3,000 fewer elementary and middle school students, it said. "3,000 students may not seem like that many students, but to a budget where you're receiving per-pupil funding, that's about 36 million dollars," district spokesperson Scott Pribble said. "We know that there are impacts and it's heartbreaking and difficult work. But in order for the district to stay out of debt, it's a step that needs to be taken," he said. The district said the decreased budget means it cannot provide the same mental health supports, social and emotional services or specialized programming to schools with lower enrollment.

学校董事会批准了关闭学校的标准：学生人数少于215人的学校，以及学生人数少于275人且预计入学人数还会下降的学校。学区表示，未来三年，预计小学和初中的学生人数将减少3,000人。学区发言人斯科特·普里布尔说：“3,000名学生可能看起来并不算多，但对于一个按照学生人数获得拨款的预算来说，这大约意味着3,600万美元。”他说：“我们知道这会带来影响，这项工作令人心碎，也十分艰难。但为了让学区避免陷入债务，这是必须采取的一步。”学区表示，预算减少意味着无法再为入学人数较少的学校提供同等水平的心理健康支持、社会与情感服务或专业课程。

5. A) Their efforts to provide social services have been ignored.
B) They have been criticized by the Denver school board.
C) They have taken various steps to get more funding.
D) Their enrollment has been on a noticeable decline.

【题目】 What do we learn about the elementary and middle schools to be closed in Denver?

【翻译】 关于丹佛将要关闭的小学和初中，我们了解到什么？

- A) 它们为提供社会服务所作的努力一直被忽视。
B) 它们一直受到丹佛教育委员会的批评。 c) 它们采取了各种措施来获得更多资金。
D) 它们的入学人数一直在明显减少。

【答案】 D (细节题) Their enrollment has been on a noticeable decline.

【定位】 The board of Denver public schools is set to close several elementary and middle schools to make up for a decreased budget caused by declining enrollment.

丹佛公立学校董事会准备关闭几所中小学，以弥补因入学人数下降而造成的预算减少。

【信号】 因果信号 **caused by**。答案句中 caused by declining enrollment 直接给出关闭学校的 causal chain: 预算减少 ← 入学下降 ← 学校关闭。

【替换】 declining enrollment ↔ **Their enrollment has been on a noticeable decline.**

同义替换 declining = on a noticeable decline

【排除】 A) **原词陷阱**

选项 A 说‘提供社会服务的努力被忽视’，但录音末句只说 cannot provide the same mental health supports, social and emotional services, 是预算不足导致无法提供，并非努力被忽视；social services 这个词录音确实念到了，但语义与选项不符。

借用原文: social and emotional services

B) **未提及**

选项 B 说学校被校董会批评，但录音中校董会是作出关闭决定的主体，并未出现 criticized 的语义，属于无中生有。

C)

选项 C 说学校采取各种措施争取资金，但录音讲的是‘因预算减少而关校’，没有提到学校主动 steps to get more funding, 属于无中生有。

-
6. A) Approve criteria for closing schools with decreased funding.
B) Enroll 3,000 fewer elementary and middle school students.
C) Decide which elementary and middle schools to close.
D) Alter its per-pupil funding policy on a rational basis.

【题目】 What does the Denver district expect to do in the next three years?

【翻译】丹佛学区预计在未来三年内会做什么？

- A) 批准在资金减少的情况下关闭学校的标准。 B) 小学和初中的入学人数减少三千名。
C) 决定关闭哪些小学和初中。 D) 根据合理原则调整其按学生人数拨款的政策。

【答案】B (细节题) Enroll 3,000 fewer elementary and middle school students.

【定位】In the next three years, the district expects to enroll 3,000 fewer elementary and middle school students, it said.

该地区表示，在未来三年内，预计中小学入学人数将减少3000人。

【信号】时间信号 + 数字信号。答案句中 In the next three years 与 expects to enroll 3,000 fewer 形成时间与数字的双重信号，直接对应题干。

【替换】enroll 3,000 fewer elementary and middle school students ↔

Enroll 3,000 fewer elementary and middle school students.

原词复现

【排除】A)

选项 A 说‘批准关闭标准’，但录音中 The school board approved criteria 用一般过去时，表示已经批准，不是 expect to do 的未来动作。

借用原文：The school board approved criteria

C) 答非所问

选项 C 说‘决定关闭哪些中小学’，但录音中 The specific schools will be announced in the coming days 指近期宣布，不是 in the next three years 的预期动作；属于答非所问。

借用原文：The specific schools will be announced in the coming days

D) 偷换概念

选项 D 说‘改变 per-pupil funding 政策’，但录音只是用 per-pupil funding 解释预算计算方式，并未说要 alter policy，属于偷换概念。

借用原文：per-pupil funding

7. A) To enable the district to remain competitive.

B) To avoid a negative impact on its economy.

C) To keep the district free of debt.

D) To obtain the expected funding.

【题目】Why are some schools in Denver to be closed according to the district spokesperson?

【翻译】据学区发言人称，丹佛的一些学校为什么将被关闭？

- A) 使该学区能够保持竞争力。 B) 避免对其经济造成负面影响。 C) 使该学区不负债。
D) 获得预期的资金。

【答案】C (细节题) To keep the district free of debt.

【定位】 "We know that there are impacts and it's heartbreaking and difficult work. But in order for the district to stay out of debt, it's a step that needs to be taken," he said.

‘我们知道这会带来影响，这是令人心碎且艰难的工作。但为了让学区不负债，这是必须采取的一步，’他说。

【信号】 目的信号 in order for... to stay out of debt. 发言人先用 But 转折，再用 in order for the district to stay out of debt 点明关闭学校的根本目的，答案落点在 stay out of debt。

【替换】 stay out of debt ↔ **To keep the district free of debt.**

同义替换 stay out of = keep... free of

【排除】 A) 未提及

选项 A 说‘让学区保持竞争力’，但录音全文未出现 competitive / competition 等词，属于无中生有。

B) 原词陷阱

选项 B 说‘避免对经济造成负面影响’，但录音中 there are impacts 是承认影响存在，并未说 avoid negative impact on its economy; impact 原词出现，但语义被扭曲。

借用原文：there are impacts

D) 原词陷阱

选项 D 说‘为了获得预期资金’，但录音讲的是预算减少、按 per-pupil funding 计算缺口，关闭学校是为了 stay out of debt（减少支出/避免负债），而不是 obtain funding（获得资金）；funding 原词出现，但目的被替换。

借用原文：decreased budget

Section B

Directions: In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 8 to 11 are based on the conversation you have just heard.

1 M: Good afternoon, Theatre Bookings International. My name's Philip. How may I help you today?

M: 下午好，这里是国际剧院订票中心。我叫菲利普。今天有什么可以帮您的吗？

2 W: Oh, good afternoon. My name's Helen. I've been trying to book tickets for the musical Cats in London on the evening of May the 28th, but I can't get the computer to accept my card payment. I've tried three times, but it just doesn't want to take it.

W: 哦，下午好。我叫海伦。我一直想预订5月28日晚上在伦敦观看音乐剧《猫》的票，但电脑就是不接受我的信用卡付款。我已经试了三次，可它就是不肯接受。

3 M: That's OK, madam. I can book it and take the payment over the phone if that's not a problem for you.

M: 没关系, 女士。如果您不介意的话, 我可以帮您预订, 并通过电话收取票款。

4 W: That would be wonderful. I'm not very good with computers. My husband usually does all of these things, but he is in Italy on a business trip until next Thursday, and I know how quickly these things can sell out.

W: 那太好了。我不太会用电脑。这些事情通常都是我丈夫处理的, 但他要到下周四才结束在意大利的出差, 而我知道这些票很快就会售罄。

5 M: They do indeed, madam. Firstly, can you confirm that it's the performance of Cats on May the 28th at the Lion Theatre in London at 7:30 pm?

M: 确实如此, 女士。首先, 您能确认一下, 是5月28日晚上7点30分在伦敦狮子剧院上演的《猫》吗?

6 W: Yes, that's the one, and I will need two tickets please, not too close to the front.

W: 是的, 就是那场。我需要两张票, 谢谢, 位置不要离前排太近。

7 M: Actually, all the tickets at the front are already sold out anyway. But I can offer you two upstairs near the middle. I assume that you don't want to be too high up.

M: 实际上, 前排的票已经全部售罄了。不过我可以给您安排楼上的两张票, 位置靠近中间。我想您应该不想坐得太高吧。

8 W: Oh, my goodness, no. I'm scared of heights, and you can never see anything if you are too high up anyway.

W: 哦, 天哪, 当然不想。我恐高, 而且坐得太高的话, 反正什么也看不清。

9 M: No problem, madam. I'll reserve those for you now, and all we need after that is the details of your card number and your full name, and then we are done.

M: 没问题, 女士。我现在就为您预留那两个座位, 之后我们只需要您的卡号和全名, 办完这些就可以了。

8. A) To book tickets for a musical.

B) To enquire about the price of cats.

C) To pay for her afternoon flight to London.

D) To have her personal computer repaired.

【题目】 Why does the woman call the man?

【翻译】 这位女士为什么给这位男士打电话?

A) 预订音乐剧的票。 B) 询问猫的价格。 C) 支付她下午飞往伦敦的航班费用。

D) 维修她的个人电脑。

【答案】 A (细节题) To book tickets for a musical.

【定位】 I've been trying to book tickets for the musical Cats in London on the evening of May the 28th, but I can't get the computer to accept my card payment.

我一直在尝试预订5月28日晚上伦敦音乐剧《猫》的门票，但电脑不接受我的银行卡支付。

【信号】 被问者直接说明来电目的。女士在第二段直接说 I've been trying to book tickets for the musical Cats，这是对话开头最典型的“说明来意”句型，答案落在此处。

【替换】 book tickets for the musical Cats ↔ **To book tickets for a musical.**

同义替换：具体剧名概括为 musical

【排除】 B) **原词陷阱**

选项 B 的 cats 盗用了录音原词 Cats，但录音中 Cats 是音乐剧名，不是宠物猫，更不存在“询问猫的价格”。

借用原文：the musical Cats

C) **张冠李戴**

选项 C 的 London 和 afternoon 都是录音里出现的词（in London 与问候语 good afternoon），但录音说的是伦敦的演出，不是下午的航班，属于把地点词和时间词张冠李戴。

借用原文：in London

D) **原词陷阱**

选项 D 的 computer 盗用了 the computer to accept my card payment，但女士说电脑只是不接受支付，并没有说要修电脑，核心目的仍是订票。

借用原文：I can't get the computer to accept my card payment

9. A) He frequents the Lion Theatre.

B) He knows how to sell things well.

C) He is a computer science expert.

D) He is away on a business trip.

【题目】 What do we learn about the woman's husband?

【翻译】 关于这位女士的丈夫，我们了解到什么？

A) 他经常去狮子剧院。 B) 他知道如何很好地销售东西。 C) 他是计算机科学专家。

D) 他出差了。

【答案】 D (细节题) He is away on a business trip.

【定位】 My husband usually does all of these things, but he is in Italy on a business trip until next Thursday, and I know how quickly these things can sell out.

我丈夫通常做这些事，但他现在在意大利出差，要到下周四才回来，而且我知道这些票卖得很快。

【信号】转折 but 后出关键信息。女士说 My husband usually does all of these things, but..., 转折词 but 之后 usually 所暗示的“常规情况”被颠覆，真正要考的丈夫当前状态落在 but 后面。

【替换】he is in Italy on a business trip ↔ He is away on a business trip.

同义替换：具体地点概括为 away

【排除】A) 原词陷阱

选项 A 的 Lion Theatre 盗用了 the Lion Theatre in London，但那是 Cats 演出的剧院，与丈夫是否常去无关。

借用原文：the Lion Theatre in London

B) 未提及 选项 B 的 sell things well 在录音中没有对应表述，属于无中生有。

C) 张冠李戴

选项 C 的 computer 盗用了 the computer 与 I'm not very good with computers，但录音只说女士自己不擅长电脑，并未说丈夫是电脑专家。

借用原文：I'm not very good with computers

10. A) They are sold at a discount.

B) They are in low demand.

C) They are no longer available.

D) They are not too expensive.

【题目】What does the man say about the tickets at the front?

【翻译】这位男士对前排的票说了什么？

A) 这些票打折出售。 B) 这些票需求量很低。 C) 这些票已经没有了。

D) 这些票并不太贵。

【答案】C (细节题) They are no longer available.

【定位】Actually, all the tickets at the front are already sold out anyway.

其实，前排的票反正都已经卖完了。

【信号】Actually 引出事实修正。男士先用 But I can offer you two upstairs near the middle 给出替代方案，随后用 actually 进一步说明原因——前排票已售罄，答案句就在 actually 之后。

【替换】all the tickets at the front are already sold out ↔ They are no longer available.

同义替换：sold out = no longer available

【排除】A) **未提及** 选项 A 的 discount 在录音中没有对应信息，属于无中生有。

B) **与原文相反**

选项 B 说“需求低”，但录音说 all the tickets at the front are already sold out，说明需求很高，选项与原文相反。

借用原文：all the tickets at the front are already sold out anyway

D) **未提及**

选项 D 的 not too expensive 涉及价格评价，但录音中完全没有讨论票价高低。

11. A) Heights.

B) Circus.

C) Wild animals.

D) Dark nights.

【题目】What does the woman say she is scared of?

【翻译】这位女士说她害怕什么？

A) 高处。 B) 马戏团。 C) 野生动物。 D) 漆黑的夜晚。

【答案】A (细节题) Heights.

【定位】I'm scared of heights, and you can never see anything if you are too high up anyway.

我恐高，而且坐得太高的话根本什么都看不见。

【信号】直接陈述 **scared of**。女士说 I'm scared of heights, scared of 是题目关键词的直接复现，答案紧随其后。

【替换】I'm scared of heights ↔ Heights.

原词复现

【排除】B) **未提及**

选项 B 的 Circus 与音乐剧主题相近，但录音中没有提到马戏团，属于利用话题场制造的无中生有干扰。

C) **偷换概念**

选项 C 的 Wild animals 盗用了音乐剧名 Cats 给人的动物联想，但录音根本没有提到野生动物。

借用原文：the musical Cats

D) **未提及**

选项 D 的 Dark nights 在录音中没有对应内容，属于常见恐惧意象的凭空设置。

Questions 12 to 15 are based on the conversation you have just heard.

1 W: Hi, John, why haven't you answered my text messages lately?

W: 嗨，约翰，你最近怎么一直没回复我的短信？

2 M: Oh, I didn't know you had sent any. I turned off my phone almost a week ago and haven't turned it back on since then.

M: 哦，我不知道你发过短信。我差不多一周前就把手机关了，之后一直没再开机。

3 W: Why would you do something like that, when our phones make our lives so much more convenient?

W: 手机我们的生活方便了这么多，你为什么要做这种事呢？

4 M: Well, I downloaded an APP that recorded how much time I spent on my phone. And I was shocked to realize I was using my phone an average of 8 hours a day, and on my worst day, I used it for 12 hours.

M: 嗯，我下载了一个应用程序，可以记录我花在手机上的时间。得知自己平均每天用手机8个小时，我感到很震惊；最严重的一天，我用了12个小时。

5 W: Were you addicted to mobile phone games? I had a friend who was, and he sometimes played them all day and into the night.

W: 你是不是沉迷于手机游戏？我有个朋友就是这样，他有时会从白天一直玩到深夜。

6 M: No, my problem was I was spending too much time on social media, messaging friends and commenting on other people's posts.

M: 不，我的问题是花太多时间在社交媒体上，给朋友发消息，还评论别人的帖子。

7 W: I do all of that too, as well as shopping online and paying for everything with my phone. That is really why I don't see how anyone could live without a mobile phone. How do you buy things or communicate with your friends?

W: 我也做这些事，还会网上购物，用手机支付所有东西。这正是我无法想象没有手机人们要怎么生活的原因。你怎么购物，怎么和朋友联系呢？

8 M: Since I stopped using my phone, I go to physical stores and pay in cash. I've actually met friends for meals at cafés and restaurants.

M: 自从我不再使用手机后，我会去实体店购物，用现金付款。实际上，我还和朋友在咖啡馆和餐馆见面吃饭。

9 W: That's great for you, but my friends and family don't live in this city, so we can't see each other often, and I don't have any choice but to chat with them online.

W: 这对你来说很好，但我的朋友和家人都不住在这座城市，所以我们不能经常见面，我只能和他们在网上聊天。

12. A) He finds it bothersome to reply.

B) He has switched off his phone.

C) He hasn't got the time to text back.

D) He doesn't know how to respond.

【题目】 Why hasn't the man answered the woman's text messages lately?

【翻译】男士最近为什么没有回复女士发来的短信？

- A) 他觉得回复短信很麻烦。 B) 他已经关掉了手机。 C) 他没有时间回复短信。
D) 他不知道该如何回应。

【答案】B (细节题) He has switched off his phone.

【定位】Oh, I didn't know you had sent any. I turned off my phone almost a week ago and haven't turned it back on since then.

哦，我不知道你发了短信。我大概一周前关掉了手机，之后就没再打开过。

【信号】直接应答 + 关键动作。女人一开口就问为何没回短信，男人用 I turned off my phone almost a week ago and haven't turned it back on since then. 直接给出原因，这是对话中被问者的核心应答句。

【替换】I turned off my phone almost a week ago and haven't turned it back on since then. ↔

He has switched off his phone.

同义词替换 (turn off = switch off)

【排除】A) 未提及 男人从未表达回复短信令他厌烦，属于无中生有。

C) 未提及

录音中男人说的是『我不知道你发了短信』和『关机』，没有提到没时间回短信。

D) 原词陷阱

录音说 I didn't know you had sent any., 是『不知道你发了短信』，选项 He doesn't know how to respond. 把不知对象偷换成『不知如何回应』。

借用原文：I didn't know you had sent any.

13. A) His lack of sufficient sleep at night.

B) His addiction to mobile phone games.

C) His excessive use of the mobile phone.

D) His high frequency of surfing the net.

【题目】What was the man shocked to realize after he downloaded the APP?

【翻译】男士下载应用程序后震惊地意识到了什么？

- A) 自己夜间睡眠不足。 B) 自己沉迷于手机游戏。 C) 自己过度使用手机。
D) 自己上网的频率很高。

【答案】C (细节题) His excessive use of the mobile phone.

【定位】Well, I downloaded an APP that recorded how much time I spent on my phone. And I was shocked to realize I was using my phone an average of 8 hours a day, and on my worst day, I used it for 12 hours.

嗯，我下载了一个记录手机使用时长的APP。我震惊地发现我平均每天用手机8小时，最多的一天用了12小时。

【信号】 题干关键词原词复现 + 数据强调。男人的话里出现 shocked to realize, 与题干 shocked to realize 原词呼应, 后面 8 hours a day、12 hours 用具体数字凸显『使用过度』。

【替换】 I was using my phone an average of 8 hours a day, and on my worst day, I used it for 12 hours. ↔
His excessive use of the mobile phone.

数字概括为『过度使用』

recorded how much time I spent on my phone ↔ **His excessive use of the mobile phone.**

时间记录映射到使用强度

【排除】 A) **张冠李戴**

女人提到自己的朋友玩手机游戏『all day and into the night』, 这说的是朋友, 不是男人的情况。

借用原文: he sometimes played them all day and into the night.

B) **原词陷阱**

女人问 Were you addicted to mobile phone games?, 男人回答 No, my problem was I was spending too much time on social media..., 选项 His addiction to mobile phone games. 直接盗用问句原词, 却被明确否定。

借用原文: Were you addicted to mobile phone games?

D) **未提及**

录音只提到 social media / messaging / commenting, 没有说 surfing the net, 属于用近义概念捏造。

14. A) Shopping online and paying for his purchases.

B) Communicating with friends on social media.

C) Exploring whatever content to his liking.

D) Sharing and posting pictures and videos.

【题目】 **What did the man spend much time doing with his phone?**

【翻译】 男士花了很多时间用手机做什么?

A) 网上购物并为所购商品付款。 B) 在社交媒体上与朋友交流。

C) 浏览自己喜欢的各种内容。 D) 分享和发布图片及视频。

【答案】 **B** (细节题) Communicating with friends on social media.

【定位】 No, my problem was I was spending too much time on social media, messaging friends and commenting on other people's posts.

不, 我的问题是我花了太多时间在社交媒体上, 给朋友发消息、评论别人的帖子。

【信号】 否定后的真正落点。女人先猜测是游戏, 男人用 No, my problem was I was spending too much time on social media, messaging friends and commenting on other people's posts. 纠正并给出真实答案, 否定词 No 后面才是考点。

【替换】 spending too much time on social media, messaging friends ↔

Communicating with friends on social media.

动名词短语同义替换

【排除】 A) **张冠李戴**

选项 Shopping online and paying for his purchases. 来自女人说的 shopping online and paying for everything with my phone, 不是男人的行为。

借用原文: shopping online and paying for everything with my phone.

C) **未提及** 录音没有提到 exploring content / whatever to his liking.

D) **偷换概念**

录音说 commenting on other people's posts, 选项 Sharing and posting pictures and videos. 添加了 pictures and videos, 并把 commenting 换成 sharing, 属于偷换概念。

借用原文: commenting on other people's posts.

15. A) She prefers chatting with others online to meeting them.

B) There are few physical stores near where she lives.

C) Ordering meals online is a great convenience to her.

D) She needs to talk with her friends and family far away.

【题目】 **Why does the woman say she has to use her mobile phone?**

【翻译】 女士为什么说自己不得不使用手机?

A) 比起与他人见面, 她更喜欢在网上与他人聊天。 B) 她居住地附近几乎没有实体店。

C) 网上订餐给她带来了极大的便利。 D) 她需要和远方的朋友及家人交谈。

【答案】 **D** (细节题) She needs to talk with her friends and family far away.

【定位】 That's great for you, but my friends and family don't live in this city, so we can't see each other often, and I don't have any choice but to chat with them online.

这对你很好, 但我的朋友和家人不住在这个城市, 所以我们不能经常见面, 我别无选择, 只能和他们在线聊天。

【信号】 **but 后的不得已理由**。女人先肯定男人的做法, 随即用 but my friends and family don't live in this city... I don't have any choice but to chat with them online 给出自己的难处, but 与 have no choice but to 共同标出答案落点。

【替换】 my friends and family don't live in this city, so we can't see each other often ↔

She needs to talk with her friends and family far away.

『不住同城』替换为『far away』

I don't have any choice but to chat with them online ↔

She needs to talk with her friends and family far away.

『不得不聊』对应『需要聊』

【排除】 A) 原词陷阱

录音说 I don't have any choice but to chat with them online, 是客观无奈; 选项 She prefers chatting with others online to meeting them. 却说她更喜欢线上聊天, 改变了语义极性。

借用原文: I don't have any choice but to chat with them online.

B) 张冠李戴

选项 There are few physical stores near where she lives. 借用了男人说的 I go to physical stores and pay in cash., 但说话人与话题都不属于女人。

借用原文: I go to physical stores and pay in cash.

C) 答非所问

录音中女人提到的是 shopping online / paying for everything, 没有提到 ordering meals online, 且这也不是她必须使用手机的核心理由。

Section C

Directions: In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A), B), C) and D). Then mark the corresponding letter on **Answer Sheet 1** with a single line through the centre.

Questions 16 to 18 are based on the passage you have just heard.

1 If U.S. workers want to switch jobs, they'd better do it now. Last year, job switchers earned far higher wage increases than those staying in their jobs. But the gap is now closing. A three-month moving average of annual wage increases from the Atlanta Federal Reserve Bank's Wage Tracker shows that U.S. job switchers got the highest wage increase last July, when the measure touched 8.5%. Since then, it has gone up and down, and has been going steadily down since November. The gap in wage gains between people who switched jobs and those who stayed in their jobs is now closing. On average, people who changed jobs have almost always gotten better pay raises than those who stayed. But in the past, the difference was usually around one percentage point. In July though, the gap widened to 2.6 percentage points.

如果美国工人想换工作, 最好现在就行动。去年, 跳槽者的工资涨幅远高于留在原岗位的人。但如今这一差距正在缩小。亚特兰大联邦储备银行工资追踪器显示, 美国跳槽者年度工资涨幅的三个月移动平均值在去年7月达到最高, 当时触及8.5%。此后, 该指标有所起伏, 并自11月以来持续下降。跳槽者与留在原岗位者之间的工资涨幅差距如今正在缩小。平均而言, 换过工作的人几乎总是比留在原岗位的人获得更高的加薪幅度。但过去两者之间的差距通常约为一个百分点, 而在7月, 这一差距扩大到了2.6个百分点。

2 But now wage growth is slowing down for everyone, and job switchers are getting smaller wage bumps in their new jobs. At the moment, those who change jobs get an average 7.3% raise every year, while those who stay get a 5.4% raise. That suggests the demand for workers has reached, or is at least nearing, its peak. The labor market is likely cooling, because even a shortage of workers isn't

overcoming the historic imbalance between employers and employees in the U.S. The volume of income that workers take home as a proportion of what the U.S. economy produces is still falling.

但现在每个人的工资增速都在放缓，跳槽者在新工作中获得的加薪幅度也越来越小。目前，换工作的人平均每年加薪7.3%，而留在原岗位的人加薪5.4%。这表明，对工人的需求已经达到或至少接近峰值。劳动力市场可能正在降温，因为即使存在工人短缺，也无法克服美国雇主与雇员之间历史性的失衡。工人带回家的收入总额占美国经济产出的比例仍在下降。

16. A) It is now narrowing.
B) It keeps increasing.
C) It has remained huge.
D) It will soon disappear.

【题目】 What does the passage say about the gap in wage gains between job switchers and those who stay in their jobs?

【翻译】 这篇文章对换工作者与留在原岗位者工资涨幅之间的差距作何说明？

A) 如今正在缩小。 B) 一直在扩大。 C) 一直非常悬殊。 D) 很快就会消失。

【答案】 A (细节题) It is now narrowing.

【定位】 But the gap is now closing.

但这个差距现在正在缩小。

【信号】 转折 but 后直接给出结论。But the gap is now closing. 中 But 承接前一句“跳槽者去年工资涨幅更高”，转折后才是当前真实趋势；后文又重复 The gap in wage gains between people who switched jobs and those who stayed in their jobs is now closing., 形成强调。

【替换】 the gap is now closing ↔ It is now narrowing.

同义替换 closing = narrowing

【排除】 B) 与原文相反 录音说差距在 closing，而 It keeps increasing. 说持续扩大，正好相反。

C) 张冠李戴

录音提到过去差距通常约 one percentage point，七月扩大到 2.6 percentage points，但这些都是铺垫；It has remained huge. 把过去某一时刻的较大差距偷换成“一直很大”，与 now closing 矛盾。

借用原文：In July though, the gap widened to 2.6 percentage points.

D) 过度推断

closing 只表示“缩小”，不等于“完全消失”；It will soon disappear. 把趋势推向极端，录音未提。

17. A) It is fluctuating between 5-7%.
B) It is slowing down for everyone.
C) It is faster for those who stay in their jobs.
D) It is inadequate for dealing with inflation.

【题目】 What do we learn about wage growth now?

【翻译】 关于目前的工资增长，我们了解到什么？

- A) 在5%至7%之间波动。 B) 对所有人来说都在放缓。
C) 留在原岗位的人工资增长更快。 D) 不足以应对通货膨胀。

【答案】 B (细节题) It is slowing down for everyone.

【定位】 But now wage growth is slowing down for everyone, and job switchers are getting smaller wage bumps in their new jobs.

但现在所有人的工资增长都在放缓，跳槽者在新工作中获得的工资涨幅也变小了。

【信号】 But now 时间转折 + for everyone 绝对化表述。 But now wage growth is slowing down for everyone 中 But now 把话题拉回当下，for everyone 给出全称范围，是细节题中最直接的答案信号。

【替换】 wage growth is slowing down for everyone ↔ **It is slowing down for everyone.**

原句复现

【排除】 A) 原词陷阱

录音提到 7.3% 和 5.4%，而 It is fluctuating between 5-7%. 把这两个数字捏成一个“5%-7% 之间波动”的说法，但录音说的是两类人各自的平均涨幅，并非整体在 5-7% 之间波动。

借用原文：those who change jobs get an average 7.3% raise every year, while those who stay get a 5.4% raise.

C) 与原文相反

录音说跳槽者 7.3%、留任者 5.4%，即跳槽者更快；It is faster for those who stay in their jobs. 把比较对象的关系说反了。

借用原文：those who change jobs get an average 7.3% raise every year, while those who stay get a 5.4% raise.

D) 未提及

录音全文未出现 inflation 一词，It is inadequate for dealing with inflation. 是利用考生常识（工资增长跑不赢通胀）编造的无中生有选项。

18. A) Booming.
B) Stabilizing.
C) Struggling.
D) Cooling.

【题目】 What is the labor market likely doing according to the passage?

【翻译】 根据文章，劳动力市场可能正在发生什么？

A) 蓬勃发展。 B) 趋于稳定。 C) 举步维艰。 D) 降温。

【答案】 D (细节题) Cooling.

【定位】 The labor market is likely cooling, because even a shortage of workers isn't overcoming the historic imbalance between employers and employees in the U.S.

劳动力市场可能在降温，因为即使工人短缺也无法扭转美国雇主与雇员之间长期存在的平衡。

【信号】 结论句 + because 因果解释。The labor market is likely cooling 位于段落中部，是作者给出的判断；后接 because 解释原因，进一步确认该句为结论落点。

【替换】 The labor market is likely cooling ↔ **Cooling.**

原词复现

【排除】 A) 与原文相反

录音说市场 likely cooling, Booming. 表示繁荣火热，方向完全相反；且录音提到 demand for workers has reached or is nearing its peak, 暗示上升空间已尽。

借用原文：The labor market is likely cooling

B) 偷换概念

录音说 cooling (降温), Stabilizing. 说稳定，是两个不同的状态；降温意味着从高点回落，稳定则意味着保持不变。

C) 未提及

录音没有提到 labor market 在 struggling；文中说的是工资增长放缓、市场降温，这是周期性描述，并非“struggling (挣扎)”这种带有困难色彩的评价。

Questions 19 to 21 are based on the passage you have just heard.

1 Highly processed foods—the kinds made with lots of sugar, fat and salt—make up as much as 60% of the average American diet. But a new study shows that their low price and convenience come at a cost to health. The study found that when people ate a highly processed diet, they consumed about 500 more calories per day than they did when they ate a less processed diet. They also gained two pounds over two weeks, even though both diets had the same amounts of nutrients, like sugar, fat, fiber and salt.

高度加工食品，即含有大量糖、脂肪和盐的食品，占美国人平均饮食的比例高达60%。但一项新的研究表明，这类食品低廉的价格和便利性是以健康为代价的。研究发现，人们食用高度加工的饮食时，每天摄入

的热量比食用加工程度较低的饮食时多约500卡路里。尽管两种饮食所含的营养成分，如糖、脂肪、纤维和盐，数量相同，他们在两周内仍增重了两磅。

2 It wasn't a shock to find highly processed foods weren't healthy; other research has linked them to a higher risk of cancer and obesity. What was unexpected was that sugar, fat and salt didn't seem to be what caused people to overeat. This is the first trial that demonstrates that there is something about highly processed foods—independent of those nutrients—that causes people to overeat. The study also found that, when eating a highly processed diet, people ate faster. This could be one reason why they gained more weight. Highly processed food tends to be softer, which makes it easier to chew and swallow. One theory is that if you're eating more quickly, you're not giving your guts enough time to signal to your brain that you've had enough calories and that you're full. By the time the brain gets that signal, you've already overeaten.

研究发现高度加工食品不健康并不令人震惊；其他研究已将这类食品与更高的癌症和肥胖风险联系起来。出乎意料的是，糖、脂肪和盐似乎并不是导致人们过量进食的原因。这是首项证明高度加工食品中存在某种与这些营养成分无关、会导致人们过量进食的因素的试验。研究还发现，人们食用高度加工的饮食时，进食速度更快。这可能是他们体重增加更多的一个原因。高度加工食品往往质地更软，因此更容易咀嚼和吞咽。一种理论认为，如果进食速度更快，肠道就没有足够的时间向大脑发出信号，告诉大脑你已经摄入了足够的热量并且已经吃饱。等大脑收到这个信号时，你已经吃得过量了。

19. A) They have smaller amounts of nutrients than unprocessed diets.
B) Their contribution to calorie consumption is hard to determine.
C) They account for nearly half of the average American diet.
D) Their low price and convenience negatively impact health.

【题目】 What does a new study show about highly processed foods?

【翻译】 关于高度加工食品，一项新研究表明了什么？

- A) 与未加工饮食相比，其中的营养成分含量更低。 B) 它们对热量摄入的贡献难以确定。
C) 它们约占美国人平均饮食的一半。 D) 它们价格低廉且方便，这对健康有负面影响。

【答案】 D (细节题) Their low price and convenience negatively impact health.

【定位】 But a new study shows that their low price and convenience come at a cost to health.

但一项新研究表明，它们低廉的价格和便利是以健康为代价的。

【信号】 研究结论信号句。录音用 a new study shows that 引出结论，其后 their low price and convenience come at a cost to health 直接对应选项 D 的核心语义。

【替换】 their low price and convenience come at a cost to health ↔

Their low price and convenience negatively impact health.

同义替换：以健康为代价=对健康有负面影响

【排除】 A) 与原文相反

录音明确说 both diets had the same amounts of nutrients, 即两种饮食营养成分相同; 选项 A 却说 smaller amounts of nutrients, 与原文相反。

借用原文: both diets had the same amounts of nutrients

B) 未提及

录音只提到 they consumed about 500 more calories per day, 给出了具体数字, 从未说 contribution to calorie consumption is hard to determine.

C) 偷换概念

录音说 make up as much as 60% of the average American diet, 而 nearly half 约等于 50%, 数字被偷换; 同时它用了 average American diet 这一原词来增强诱惑力。

借用原文: make up as much as 60% of the average American diet

-
20. A) A strong desire to overeat.
B) A lack of nutrients like fiber.
C) A higher risk of cancer and obesity.
D) A greater intake of sugar and salt.

【题目】 What are highly processed foods linked to, according to other research?

【翻译】 根据其他研究, 高度加工食品与什么有关?

- A) 强烈的过量进食欲望。 B) 缺乏纤维等营养素。 C) 较高的癌症和肥胖风险。
D) 摄入更多的糖和盐。

【答案】 C (细节题) A higher risk of cancer and obesity.

【定位】 It wasn't a shock to find highly processed foods weren't healthy; other research has linked them to a higher risk of cancer and obesity.

发现加工食品不健康并不令人惊讶; 其他研究已把它们与更高的癌症和肥胖风险联系起来。

【信号】 其他研究关联句。 录音中 other research has linked them to 是明显的考点信号, 后面的 a higher risk of cancer and obesity 即为问题所问的关联内容。

【替换】 a higher risk of cancer and obesity ↔ A higher risk of cancer and obesity.

关键短语直接复现

【排除】 A) 张冠李戴

录音先说 other research has linked them to a higher risk of cancer and obesity, 随后才讲新试验发现 'causes people to overeat'; 选项 A 把 'overeating' 这个结果张冠李戴到 other research 上。

借用原文: causes people to overeat

B) 与原文相反

录音 both diets had the same amounts of nutrients, like sugar, fat, fiber and salt 说明营养成分含量相同, 选项 B 却说 A lack of nutrients like fiber, 与原文相反。

借用原文: both diets had the same amounts of nutrients, like sugar, fat, fiber and salt

D) 偷换概念

录音 sugar, fat and salt didn't seem to be what caused people to overeat 表明糖、脂肪、盐并非导致暴食的原因; 选项 D 却说 'A greater intake of sugar and salt', 把原文的否定/排除偷换成了肯定的健康风险关联。

借用原文: sugar, fat and salt didn't seem to be what caused people to overeat

21. A) Eat more quickly.

B) Feel full sooner.

C) Chew thoroughly.

D) Swallow bit by bit.

【题目】 What do people tend to do when eating highly processed foods?

【翻译】 人们食用高度加工食品时往往会怎么做?

A) 吃得更快。 B) 更快产生饱腹感。 C) 充分咀嚼。 D) 一小口一小口地吞咽。

【答案】 A (细节题) Eat more quickly.

【定位】 The study also found that, when eating a highly processed diet, people ate faster.

研究还发现, 当人们吃高度加工的饮食时, 他们吃得更快。

【信号】 研究发现的行​​为结果。 录音用 The study also found that 引出另一项发现, 其后 people ate faster 直接回答题干所问的行为。

【替换】 people ate faster ↔ Eat more quickly.

同义替换: ate faster = eat more quickly

【排除】 B) 与原文相反

录音 you're not giving your guts enough time to signal to your brain that you've had enough calories and that you're full 说明大脑更晚收到饱腹信号；选项 B 说 Feel full sooner，与原文相反。

借用原文：you're not giving your guts enough time to signal to your brain that you've had enough calories and that you're full

C) 偷换概念

录音 Highly processed food tends to be softer, which makes it easier to chew and swallow 只说更容易咀嚼吞咽，并未说人们会 chew thoroughly；恰恰相反，软食更可能减少咀嚼。

借用原文：Highly processed food tends to be softer, which makes it easier to chew and swallow

D) 偷换概念

录音 easier to chew and swallow 表示吞咽更容易、更快，而选项 D 'Swallow bit by bit' 暗示慢、分小口吞，语义相反。

借用原文：easier to chew and swallow

Questions 22 to 25 are based on the passage you have just heard.

1 Women continue to spend more time than men taking care of children and doing chores around the house. This is generally attributed to backward thinking and conservative values. But new research shows that such differences could be linked to differences in the preferences of males and females.

女性照顾孩子和做家务的时间仍然多于男性。这通常被归因于落后的思想和保守的价值观。但新的研究表明，这种差异可能与男性和女性偏好的不同有关。

2 The new study looked at how men and women were dividing work at home and why they divided it that way. In general, both men and women took more responsibility for tasks they liked. For example, men liked yard care and home maintenance more than women. They leaned toward wanting primary responsibility for such tasks. The researchers stated that differences in enjoyment of household and childcare tasks matched how men and women chose to split tasks. The researchers added that there was not a single childcare task that men liked more than women. Keep in mind, however, that, as with any research on group differences, there were large within-group differences. The study's authors concluded that differences in men's and women's time spent on childcare and household tasks do not mean dissatisfaction. The authors noted that previous research revealed gender differences in attitudes towards family and career. These differences appear as early as six years old. Girls that age already show more interest in helping and caring for others than boys do, and they already exhibit a greater orientation toward family versus career.

这项新研究考察了男性和女性如何分配家务，以及他们为何以这种方式分配。总的来说，男性和女性都会对自己喜欢的任务承担更多责任。例如，男性比女性更喜欢庭院维护和房屋维修。他们更倾向于希望主要负责此类任务。研究人员指出，男性和女性对家务及照顾孩子等任务的享受程度差异，与他们选择如何分配任务相吻合。研究人员还补充说，没有一项照顾孩子的任务是男性比女性更喜欢的。不过需要注意的是，与所有关于群体差异的研究一样，群体内部也存在很大的个体差异。该研究的作者得出结论，男性和

女性在照顾孩子及处理家务上所花时间的差异，并不意味着他们对此感到不满。作者指出，先前的研究揭示了男性和女性在家庭与事业态度方面存在差异。这些差异最早在六岁时就会出现。这个年龄的女孩已经比男孩表现出更浓厚的帮助和照顾他人的兴趣，并且已经表现出相较于事业更偏向家庭的倾向。

22. A) By attributing them to current cultural influences.

B) By attributing them to conservative thinking.

C) In terms of new genetic findings.

D) In terms of personal preferences.

【题目】 How do people generally account for differences between men and women in the amount of time spent on housework?

【翻译】 人们通常如何解释男女在花费于家务上的时间方面存在的差异？

A) 将其归因于当今的文化影响。 B) 将其归因于保守思想。

C) 从新的遗传学发现的角度解释。 D) 从个人偏好的角度解释。

【答案】 B (细节题) By attributing them to conservative thinking.

【定位】 Women continue to spend more time than men taking care of children and doing chores around the house. This is generally attributed to backward thinking and conservative values. But new research shows that such differences could be linked to differences in the preferences of males and females.

女性仍然比男性花更多时间照顾孩子和做家务。这通常被归因于落后思想和保守价值观。但新研究表明，这种差异可能与男性和女性的偏好差异有关。

【信号】 观点对比结构。答案句藏在转折之前：前一句 This is generally attributed to backward thinking and conservative values. 给出'通常看法'，But new research shows that such differences could be linked to differences in the preferences of males and females. 引出转折后的新研究。题干问 generally，所以取 but 前的内容。

【替换】 backward thinking and conservative values ↔ conservative thinking.

同义概括

This is generally attributed to ↔ By attributing them to conservative thinking.

结构改写

【排除】 A) 偷换概念

A 项 By attributing them to current cultural influences. 把录音里的 conservative values 改头换面成'当代文化影响', 原文说的是'保守'而非'当代文化', 方向相反。

C) 未提及

C 项 In terms of new genetic findings. 中的 genetic 在原文完全没有出现, 录音只提到 preferences, 属于凭空捏造。

D) 原词陷阱

D 项 In terms of personal preferences. 确实是录音原词 preferences of males and females, 但它属于 but 之后的新研究发现, 不是题干问的'人们通常'的看法。看到原词就想选是第一大陷阱。

借用原文: preferences of males and females

23. A) Sharing with women the chores they see necessary.

B) Dividing housework that is demanding for women.

C) Performing household tasks that they enjoy.

D) Doing tasks that are physically challenging.

【题目】 What did men lean toward doing according to the new study?

【翻译】 根据这项新研究, 男性倾向于做什么?

- A) 与女性分担他们认为必要的家务。 B) 分担对女性来说要求较高的家务。
C) 做他们喜欢的家务。 D) 做体力上具有挑战性的家务。

【答案】 C (细节题) Performing household tasks that they enjoy.

【定位】 In general, both men and women took more responsibility for tasks they liked. For example, men liked yard care and home maintenance more than women. They leaned toward wanting primary responsibility for such tasks.

总体而言, 男性和女性都会对自己喜欢的任务承担更多责任。例如, 男性比女性更喜欢庭院护理和房屋维修。他们倾向于想要主要负责这类任务。

【信号】 研究结论+例证。 答案信号是 In general, both men and women took more responsibility for tasks they liked. 这一研究总括句, 随后用 men liked yard care and home maintenance more than women 举例支撑。

【替换】 tasks they liked ↔ **Performing household tasks that they enjoy.**

同义词替换

took more responsibility for ↔ **Performing household tasks that they enjoy.**

动作概括

【排除】 A) 未提及

A 项 Sharing with women the chores they see necessary. 中的 see necessary 在原文中没有对应表述，属于无中生有。

B) 偷换概念

B 项 Dividing housework that is demanding for women. 把录音里'男女共同选择自己喜欢的任务'改成了'对女性来说繁重的家务'，demanding 在原文没有依据。

D) 未提及

D 项 Doing tasks that are physically challenging. 看似能解释 yard care / home maintenance，但原文从未用 physically challenging 描述这些任务，考生若凭常识推断就会掉坑。

24. A) The large within-group differences.

B) The great similarities across groups.

C) The researchers' subjective biases.

D) The noticeable overgeneralizations.

【题目】 What should we keep in mind as regards any research on group differences?

【翻译】 关于任何有关群体差异的研究，我们应牢记什么？

A) 群体内部存在的巨大差异。 B) 不同群体之间存在的巨大相似性。

C) 研究人员的主观偏见。 D) 明显的过度概括。

【答案】 A (细节题) The large within-group differences.

【定位】 Keep in mind, however, that, as with any research on group differences, there were large within-group differences.

然而，请记住，正如任何关于群体差异的研究一样，群体内部也存在很大的差异。

【信号】 提醒信号词 keep in mind。 答案句以 Keep in mind, however, 开头，直接对应题干 keep in mind，后面跟的就是注意事项。

【替换】 large within-group differences ↔ The large within-group differences.

原词复现

as with any research on group differences ↔ The large within-group differences.

题干同义对应

【排除】 B) 与原文相反

B 项 The great similarities across groups. 说'群体间高度相似', 而原文 large within-group differences 强调的是'群体内差异大', 方向相反。

借用原文: large within-group differences

C) 未提及

C 项 The researchers' subjective biases. 中的 subjective biases 在原文没有提到, 原文强调的是群体内部差异, 不是研究者偏见。

D) 过度推断

D 项 The noticeable overgeneralizations. 是对群体差异研究可能存在的问题的推断, 但原文只说 within-group differences 大, 并未说这是 overgeneralization。

25. A) They seem to be universal.

B) They impact people's whole life.

C) They shape one's role in society.

D) They appear at an early age.

【题目】 What did previous research reveal about gender differences in attitudes toward family and career?

【翻译】 以往的研究揭示了人们对家庭和职业的态度存在怎样的性别差异?

A) 这种差异似乎是普遍存在的。 B) 这种差异影响人们的一生。

C) 这种差异塑造了一个人在社会中的角色。 D) 这种差异在很小的年龄就会出现。

【答案】 D (细节题) They appear at an early age.

【定位】 The authors noted that previous research revealed gender differences in attitudes towards family and career. These differences appear as early as six years old.

作者指出, 先前的研究揭示了人们在家庭和职业态度上的性别差异。这些差异早在六岁时就出现。

【信号】 研究结论句。 答案信号是 previous research revealed, 直接对应题干 previous research reveal; 后一句 These differences appear as early as six years old. 给出具体特征。

【替换】 appear as early as six years old ↔ **They appear at an early age.**

概括改写

【排除】A) 过度推断

A 项 They seem to be universal. 把原文的性别差异推断为'普遍存在', 但原文只提到 six years old 就出现, 并未说 universal。

B) 未提及

B 项 They impact people's whole life. 中的 whole life 在原文没有对应表述, 原文只提到六岁出现, 未说影响一生。

C) 偷换概念

C 项 They shape one's role in society. 把 attitudes towards family and career 偷换成 role in society, 扩大了概念范围。

Nancy Gifford was born months after the end of the First World War, and spent 102 years living in her three-bedroom house in the Somerset Village of Street.

第1段, 第2句

句式采用了考研与四六级阅读中非常常见的“主语 + 过去时谓语 + 时间状语 + and + 动词 + 时间 + v-ing”结构, 高度典型且易于复用。

According to the Bank of England's inflation calculator, £200 in 1921 would be worth £7,750 today.

第2段, 第3句

“According to... + 主语 + would be worth...” 是阅读理解与写作中极常见的引用数据及跨时代价值对比的高频典型句式。

According to the estate agent, the house was built in 1882 and originally featured a well for the entire road.

第2段, 第4句

“介词短语插入语 + 主语 + 被动谓语 + 连词并列主动谓语” 是阅读理解中非常典型的描述性句式。

Except for some changes in the toilet and wash area, much of the house remains the same.

第2段，第5句

句首介词短语表例外/范围 + 主系表主干是英语中极为常见的说明性句式，复用性很高。

The man told authorities that his experience began in December when currents swept the sailboat out to sea while he was making repairs.

第2段，第1句

主句带宾语从句且宾语从句中嵌套状语从句的结构，在四六级和考研阅读的叙事/新闻类长难句中极其常见，具有很高的复用价值。

He said the navy told him that he was spotted when the plane passed again.

第2段，第6句

主句 + 转述宾语从句 + 被动 + 时间状语从句的组合属于高考与四六级阅读理解中极其高频出现的经典嵌套句型。

The sailboat was abandoned at sea when the man was picked up by a nearby merchant ship.

第2段，第7句

“主句 + when引导的时间状语从句”且结合双被动结构，属于英语阅读与考试中极具代表性的基础叙事句型。

What does the news report say was key to the man's rescue?

第3题 题干

该句型属于非常典型的插入疑问句式（疑问词 + 助动词 + 主语 + 谓语动词 + 从句其余部分），在四六级与考研真题阅读听力中高频出现，迁移价值极高。

He was too distressed to pick himself up.

第4题，C

"too... to..." 是中学及四级考试中极为高频的常考句式，具有很高的迁移与复用价值。

The board of Denver public schools is set to close several elementary and middle schools to make up for a decreased budget caused by declining enrollment.

第1段，第1句

采用 "be set to do sth" 句型结合后置目的状语与分词修饰，属于阅读理解和新闻报道中极为高频且规范的典型句式。

"We know that there are impacts and it's heartbreaking and difficult work. But in order for the district to stay out of debt, it's a step that needs to be taken," he said.

第2段，第4句

本句涵盖了 "there be" 存在句、主系表结构、目的状语短语、宾语从句及定语从句，成分丰富，非常适合用于练习识别形式主语、复杂表语及非谓语修饰。

The district said the decreased budget means it cannot provide the same mental health supports, social and emotional services or specialized programming to schools with lower enrollment.

第2段，第5句

主句动词引出多层省略引导词的宾语从句是英语新闻报导和学术阅读中极高频出现的典型句式，方法迁移价值极高。

They have taken various steps to get more funding.

第5题，C

"主谓宾 + 不定式短语作目的状语"是英语写作与阅读中最基础、最频繁出现的典型句型之一，掌握后迁移复用价值极高。

Why are some schools in Denver to be closed according to the district spokesperson?

第7题题干

特殊疑问句叠加 "be to be done" 计划被动结构是各类英语考试中高频出现的典型句式，掌握其主干提取方法具有极高的可迁移性。

I've been trying to book tickets for the musical Cats in London on the evening of May the 28th, but I can't get the computer to accept my card payment.

第2段，第3句

句中的 "have been doing" 完成进行时表达以及 "get sth. to do sth." 复合宾语搭配均为四六级及各类考试的高频常考句式，具备很强的迁移价值。

M: They do indeed, madam.

第5段，第1句

这是日常交际和对白中非常典型的简短强调回应句型。

Firstly, can you confirm that it's the performance of Cats on May the 28th at the Lion Theatre in London at 7:30 pm?

第5段，第2句

该句是日常沟通、信息确认及听力考试场景中极具代表性的高频句式，可复用性强。

M: Actually, all the tickets at the front are already sold out anyway.

第7段，第1句

句中“名词 + 介词短语作后置定语”以及“be + 过去分词”被动表达均属于各类英语考试听力与阅读中最基础、高频的典型句式，迁移价值高。

I'm scared of heights, and you can never see anything if you are too high up anyway.

第8段，第2句

使用 and 连接并列句并在后句跟 if 条件从句是日常与考试中极常见的经典句式，高度典型且易于复用。

I'll reserve those for you now, and all we need after that is the details of your card number and your full name, and then we are done.

第9段，第2句

“主句 + and + 主语（带定语从句）+ is + 表语 + and + 结果分句”是日常沟通与考试听说中高频出现的典型复合表达。

I turned off my phone almost a week ago and haven't turned it back on since then.

第2段，第2句

“一般过去时交代动作 + 现在完成时交代影响/延续”是四六级与日常表达中极其常见的高频经典句式，极具迁移价值。

W: Why would you do something like that, when our phones make our lives so much more convenient?

第3段，第1句

句子涵盖了疑问倒装、介词短语作后置定语以及使役动词 make 带宾语和宾语补足语等典型语法点，非常适合句子成分划分练习。

M: Well, I downloaded an APP that recorded how much time I spent on my phone.

第4段，第1句

“主句 + 定语从句 + 宾语从句”的层层修饰结构在四六级听力和阅读中极为常见，属于掌握后可高度复用的经典句式。

M: No, my problem was I was spending too much time on social media, messaging friends and commenting on other people's posts.

第6段，第1句

“My problem was + 从句”是英语口语与真题写作、阅读中极其常见的句型，后接分词短语补充说明的表达方式高度典型。

That is really why I don't see how anyone could live without a mobile phone.

第7段，第2句

“That is why...” 加疑问词引导从句的嵌套组合在各类英语考试中极其常见，具有很高的学习迁移价值。

M: Since I stopped using my phone, I go to physical stores and pay in cash.

第8段，第1句

“状语从句 + 主句并列谓语”是英语写作与考试中高频出现的典型句式，掌握其连词切分与并列成分分析方法具有很高的迁移价值。

W: That's great for you, but my friends and family don't live in this city, so we can't see each other often, and I don't have any choice but to chat with them online.

第9段，第1句

多重并列句结合 "have choice but to do" 表达现实转折与无奈逻辑，是日常交流与考试写作中高频出现的典型句式，迁移复用价值高。

He finds it bothersome to reply.

第12题，A

"主语 + 谓语 + 形式宾语 + 补足语 + 不定式"是各类英语考试中高频考查的典型句型，具有极强的可迁移性。

What did the man spend much time doing with his phone?

第14题 题干

"What did + 主语 + spend + 时间 + doing ..."为日常英语学习及各类考试中极具代表性的特殊疑问句型，掌握其分析方法具有很高的迁移价值。

She prefers chatting with others online to meeting them.

第15题，A

"prefer ... to ..." 是各大英语考试中极为高频且标准的对比句型，对于掌握非谓语动词及介词搭配具有很强的代表性和迁移价值。

A three-month moving average of annual wage increases from the Atlanta Federal Reserve Bank's Wage Tracker shows that U.S. job switchers got the highest wage increase last July, when the measure touched 8.5%.

第1段，第4句

主句 + that 宾语从句 + 逗号 when 定语从句是四六级与考研阅读中极其常见的数据报道类典型句式，可迁移性强。

Since then, it has gone up and down, and has been going steadily down since November.

第1段，第5句

"since" 短语搭配完成时态的结构在阅读理解中极其常见，具有很强的结构代表性与迁移价值。

On average, people who changed jobs have almost always gotten better pay raises than those who stayed.

第1段，第7句

句中“名词 + 后置定语从句 + 比较级 + than对比项（含定语从句）”的结构在各类英语阅读与写作中频繁出现，属于高度典型的常考句式。

At the moment, those who change jobs get an average 7.3% raise every year, while those who stay get a 5.4% raise.

第2段，第2句

“those who ... while those who ...”是各类英语考试及阅读文献中极其高频出现的对比句型，极具代表性和复用迁移价值。

That suggests the demand for workers has reached, or is at least nearing, its peak.

第2段，第3句

在四六级与考研英语阅读中，“That suggests + 宾语从句”是极具代表性的数据与观点引出句式，且并列谓语结构具有很高的复用价值。

The labor market is likely cooling, because even a shortage of workers isn't overcoming the historic imbalance between employers and employees in the U.S.

第2段，第4句

“主句 + because 原因状语从句”是外刊与各类英语考试中极其高频的典型因果句式，掌握其结构对于阅读理解与写作表达均有极高的迁移价值。

The volume of income that workers take home as a proportion of what the U.S. economy produces is still falling.

第2段，第5句

“核心名词 + 定语从句 + 复杂介词短语 + 谓语”是四六级与考研真题阅读中最典型的修饰分隔结构，掌握后迁移价值极高。

What is the labor market likely doing according to the passage?

第18题 题干

本句结构属于各类英语阅读理解题干中极为高频、标准的提问句式，掌握其倒装与成分拆解具有极高的迁移复用价值。

Highly processed foods—the kinds made with lots of sugar, fat and salt—make up as much as 60% of the average American diet.

第1段，第1句

采用典型的“主语 + 一同位语/插入语 + 谓语 + 数量宾语”结构，属于四六级与考研阅读中非常高频的科普及社会类文章句式。

The study found that when people ate a highly processed diet, they consumed about 500 more calories per day than they did when they ate a less processed diet.

第1段，第3句

“研究发现 + 宾语从句（内含实验组与对照组条件对比）”是四六级与考研阅读中科普、学术类文章极其高频的典型真题句式。

They also gained two pounds over two weeks, even though both diets had the same amounts of nutrients, like sugar, fat, fiber and salt.

第1段，第4句

“主句 + even though让步状语从句 + 介词短语举例”是英语四六级及考研阅读中阐述科学实验与反常数据的常考句式，具有较高的迁移复用价值。

What was unexpected was that sugar, fat and salt didn't seem to be what caused people to overeat.

第2段，第2句

"What was... was that..." 为四六级与考研阅读中极常见的强调与观点转折引导句型，高度典型且具有很强的迁移价值。

This is the first trial that demonstrates that there is something about highly processed foods—independent of those nutrients—that causes people to overeat.

第2段，第3句

虽然时态非常简单，但其多重嵌套从句结构与“that”的多重语法功能识别极具训练价值，整体非常推荐作为结构拆解的重点练习句。

This could be one reason why they gained more weight.

第2段，第5句

"This could be one reason why..." 属于阅读与写作中的高频典型句式，掌握其主系表与定语从句的结合具有很高的复用价值。

Highly processed food tends to be softer, which makes it easier to chew and swallow.

第2段，第6句

"which" 引导非限定性定语从句修饰全句、以及 "make + it + 形容词 + 不定式" 形式宾语结构均属于四六级与考研英语中高频出现的典型常考句式，迁移复用价值极高。

One theory is that if you're eating more quickly, you're not giving your guts enough time to signal to your brain that you've had enough calories and that you're full.

第2段，第7句

本句覆盖了双宾语结构 ("giving your guts time")、不定式作后置定语 ("to signal...") 以及并列宾语从句等丰富成分，是练习长难句成分划分与层级拆解的高价值例句。

By the time the brain gets that signal, you've already overeaten.

第2段，第8句

"By the time + 从句（一般现在时），主句（完成时）" 是四六级及考研英语中高频考查的经典时态搭配句式。

They account for nearly half of the average American diet.

第19题，C

'主语 + 短语动词 + 数量短语 + of 后置定语' 属于阅读理解和写作中高频出现的典型数据描述句式，具备较强迁移价值。

What are highly processed foods linked to, according to other research?

第20题 题干

特殊疑问句中疑问词充当后置介词宾语的结构在阅读与听力中非常普遍，掌握 "be linked to" 搭配与 "according to" 状语具有很高的复用与迁移价值。

What do people tend to do when eating highly processed foods?

第21题 题干

"特殊疑问句 + when doing... 状语从句省略"是四六级与考研英语阅读及写作中高频出现的典型句式，迁移复用价值高。

Women continue to spend more time than men taking care of children and doing chores around the house.

第1段，第1句

句中 "主语 + continue to do + 比较级 + 方式/范围状语" 的结构在四六级与考研英语阅读真题中高度高频，具有极强的迁移复用价值。

This is generally attributed to backward thinking and conservative values.

第1段，第2句

"This is attributed to ..." 是各类英语考试阅读与写作中极高频出现的归因表达典型句式，复用价值极高。

The new study looked at how men and women were dividing work at home and why they divided it that way.

第2段，第1句

句式 "研究 + 关注 + how 从句 + and why 从句" 是四六级与考研英语阅读中介绍学术研究背景极高频出现的典型表达模式，迁移复用性极强。

In general, both men and women took more responsibility for tasks they liked.

第2段，第2句

句首介词短语作状语、并列连词短语作主语以及定语从句省略关系词均属于阅读理解中极具代表性的高频典型句式。

For example, men liked yard care and home maintenance more than women.

第2段，第3句

"For example + 主谓宾 + more than..." 是英语说明文与议论文中极为高频的举例论证与对比典型句式。

The researchers added that there was not a single childcare task that men liked more than women.

第2段，第6句

"主句动词 + that 宾语从句 + 名词 + that 定语从句" 是四六级与考研真题阅读中高频出现的典型复合句结构，迁移复用价值极高。

Girls that age already show more interest in helping and caring for others than boys do, and they already exhibit a greater orientation toward family versus career.

第2段，第11句

"主句 + 比较从句 + and + 并列主句" 属于高频考查句型，其中 "more ... than ..." 比较结构及助动词代指前文动词的用法在阅读理解与写作中极具代表性。

How do people generally account for differences between men and women in the amount of time spent on housework?

第22题 题干

"How do people account for..." 是四六级与考研阅读中极其高频的疑问表达模式，其后接多重介词与非谓语动词修饰的结构极具代表性。

What did men lean toward doing according to the new study?

第23题 题干

特殊疑问句叠加 "lean toward doing" 和 "according to..." 是阅读理解与听力题干中极高频出现的典型句式，掌握后复用迁移价值高。

They seem to be universal.

第25题，A

"主语 + seem to be + 形容词" 是极为高频且典型的系表结构表达，具有很高的复用和迁移价值。

Part III Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

It may sound surprising, but people who are supersensitive to coffee's bitter taste actually drink more of it, a new study finds.

一项新的研究发现，这听起来可能令人惊讶，但那些对咖啡苦味极其敏感的人实际上喝的咖啡更多。

This sensitivity isn't 26 a matter of taste, either, but rather is influenced by a person's genetic makeup, the researchers said in the study.

研究人员在这项研究中表示，这种敏感性也不只是味觉问题，而是受到一个人基因构成的影响。

"You'd expect that people who are particularly sensitive to the bitter taste of caffeine would drink less coffee," said study senior researcher Marilyn Cornelis. "The 27 results of our study suggest coffee consumers acquire a taste for or an ability to detect the bitterness of caffeine due to the learned positive 28 brought out by caffeine."

“你可能会认为，那些对咖啡因苦味特别敏感的人会少喝咖啡。”该研究的资深研究员玛丽莲·科内利斯说，“我们的研究结果却恰恰相反，这表明，由于咖啡因带来的后天习得的积极强化作用，咖啡饮用者逐渐喜欢上了咖啡因的苦味，或者具备了辨别这种苦味的能力。”

Put another way, people who have a 29 ability to taste the bitterness of coffee learn to associate "good things with it," Cornelis said. This finding is surprising, given that bitterness often serves as a warning mechanism to 30 people to spit out harmful substances, the scientists said.

换句话说，科内利斯说，那些对咖啡苦味的感知能力更强的人会学着把“美好的事物与之联系起来”。科学家们表示，鉴于苦味通常会起到警示作用，使人们吐出有害物质，这一发现令人惊讶。

Researchers conducted the study to understand how genetics influences people's 31 of tea, coffee and alcohol which tend to taste bitter, said lead researcher Jue Sheng Ong.

首席研究员邬觉生说，研究人员开展这项研究，是为了了解基因如何影响人们对茶、咖啡和酒精的饮用量，因为这些饮品往往尝起来是苦的。

"While all bitter flavors may seem the same, we 32 the bitterness of Brussels sprouts(抱子甘蓝), quinine(奎宁) and caffeine 33 ," Ong told Live Science. "The degree to which we find these flavors bitter is, in part, determined by your genes."

邬觉生告诉《生命科学》：“尽管所有苦味似乎都一样，但我们会分别感知抱子甘蓝、奎宁和咖啡因的苦味。我们觉得这些味道有多苦，部分取决于你的基因。”

People with the genes to taste the bitterness of green vegetables are more likely to prefer tea to coffee. In 34 , people who were more sensitive to quinine's bitter flavors and those found in green vegetables tended to 35 coffee.

拥有能够感知绿色蔬菜苦味的基因的人更有可能偏爱茶而不是咖啡。此外，那些对奎宁的苦味以及绿色蔬菜中的苦味更敏感的人往往会避免喝咖啡。

26. This sensitivity isn't (26) a matter of taste, either, but rather is influenced by a person's genetic makeup

【答案】 **N) simply** (副词)

【词性槽】 be 动词后、名词短语前，主系表已完整，只缺副词

【依据】 **not simply...but rather...**“不仅仅是.....而是.....”与后半句呼应

后半句 but rather is influenced by a person's genetic makeup 用 but rather 转弯，前半句就需要一个“仅仅”来铺垫：这种敏感不仅仅是味觉问题，而是受基因影响。simply 与 but rather 是英文论证里的经典搭配。

【竞争词】 B) approximately “不大约是”自相矛盾

approximately“大约”表模糊估计，与 isn't 的明确否定冲突，“不大约是一个味觉问题”语义别扭。

M) separately 句中无可“分别”的多个对象

separately“分别地”需要至少两个并列对象（如 33 空的三种苦味），本句只谈“这种敏感”一件事，无处“分别”。

27. The __ (27) __ results of our study suggest coffee consumers acquire a taste for or an ability to detect the bitterness of caffeine

【答案】 **I) opposite** 形容词

【词性槽】 The 与名词 results 之间需形容词定语

【依据】 结果与预期“相反”：预期少喝，实际多喝

前一句刚给出预期 You'd expect that people who are particularly sensitive to the bitter taste of caffeine would drink less coffee（你以为敏感者会少喝），而首段事实是 actually drink more of it（实际多喝）——结果与预期正好相反，opposite results 精准收口。

【竞争词】 O) targeted “有针对性的结果”无中生有

targeted results 暗示研究“瞄准了”某个目标对象，上下文没有任何“靶向”信息，纯属看着高级就选的干扰。

【易错】 最具迷惑性的错误词是 **O)** —— targeted 词性对、词形高级，最易顶替 opposite。The __ (27) __ results of our study 填 targeted 读起来也顺，但全段是“预期少喝 would drink less coffee vs 实际多喝 actually drink more of it”的反转结构，答案必须落在 opposite 上。防坑：形容词空先找上下文的逻辑信号词（expect/actually/surprising），别被“高级感”带走。

28. due to the learned positive __(28)__ brought out by caffeine

【答案】 **L) reinforcement** (名词)

【词性槽】 形容词 positive 后需名词作中心词

【依据】 **positive reinforcement** “积极强化”，解释“越敏感越爱喝”的心理机制

前半句说喝咖啡的人 acquire a taste for or an ability to detect the bitterness of caffeine (习得对苦味的喜爱)，原因是咖啡因带来的习得性“积极强化”——心理学固定术语 positive reinforcement，正对应下段 learn to associate "good things with it" 的“把好东西与之挂钩”。

【竞争词】 **H) omission** “积极遗漏”语义自相矛盾

positive omission 既不是固定搭配也不合逻辑，咖啡因“带来遗漏”无法解释人们为何学会喜欢苦味。

K) prospect **positive prospect** 看似通顺但接不上机制

“积极前景”语法上能站住，但 prospect 指对将来的预期，而这里解释的是“咖啡因让人上瘾般喜欢”的即时心理奖励机制，且 prospect 不会由咖啡因 brought out (带来)。

【易错】 最具迷惑性的错误词是 **K)** —— positive prospect 搭配感强，最易顶替 positive reinforcement。the learned positive __(28)__ brought out by caffeine 填 prospect 语法无误，但“前景”是面向未来的预期，无法被咖啡因“带来”，也和下句 learn to associate "good things with it" 的强化机制脱节。防坑：遇到“形容词+空”疑似术语时，先想学科固定搭配 (positive reinforcement)，再用下文的解释句验证。

29. people who have a __(29)__ ability to taste the bitterness of coffee

【答案】 **G) heightened** (形容词)

【词性槽】 冠词 a 与名词 ability 之间需形容词定语

【依据】 **heightened ability** “增强的味觉能力” = 首段 **supersensitive** 的同义改写

首段说 people who are supersensitive to coffee's bitter taste，本段用另一种说法复述：拥有“增强的”品尝咖啡苦味能力的人——heightened 正是 supersensitive 的形容词化同义替换，科普文换词复述同一概念的套路。

【竞争词】 **I) opposite** “相反的能力”无从谈起

opposite 需要一个明确的对立对象 (如 27 空的 opposite results 对应“预期结果”)，ability 没有“相反的能力”这种说法；它的归宿是 27 空。

O) targeted **targeted ability** 搭配生硬且偏离“敏感度”主线

targeted “有针对性的”多修饰 attack/therapy 等带目标对象的动作，修饰 ability 既不生造也不呼应全文反复强调的 sensitive。

30. bitterness often serves as a warning mechanism to __(30)__ people to spit out harmful substances

【答案】 **F) convince** (动词)

【词性槽】 不定式 to 后接动词原形，且要能带“sb to do”

【依据】 **convince sb to do sth: 警告机制“促使”人吐出有害物质**

bitterness often serves as a warning mechanism to __(30)__ people to spit out harmful substances 讲的是苦味的生理功能——警告人别吃有毒东西，机制“说服/促使”人们吐出有害物质，convince people to spit out 结构与语义双贴合。

【竞争词】 c) avoid 结构不接 sb to do, 且逻辑相反

avoid 后只接名词或 doing, 不能说 avoid people to spit out; 若理解成“避免吐出有害物质”，与“警告机制保命”的语义恰好拧反。它真正的归宿是 35 空。

j) perceive perceive 不带 sb to do, 语义也不通

perceive“察觉”的宾语是事物不是“人 + to do”，“察觉人们吐出有害物质”不是警告机制的功能。它真正的归宿是 32 空。

31. Researchers conducted the study to understand how genetics influences people's __(31)__ of tea, coffee and alcohol which tend to taste bitter

【答案】 **D) consumption** (名词)

【词性槽】 所有格 people's 后、of 短语前，需名词

【依据】 **consumption of tea, coffee and alcohol = 对三样饮品的“饮用/消费”**

全文第一句就是 people who are supersensitive to coffee's bitter taste actually drink more of it——研究的核心变量就是“喝多少”，consumption 正是 drink 的名词化，consumption of 与三样饮品搭配天经地义。

【竞争词】 h) omission “对饮品的遗漏”与主题无关

omission 意为“省略/遗漏”，研究的是基因如何影响人们喝什么、喝多少，与“遗漏”毫不沾边。

k) prospect prospect of 指向未来，不指向饮用行为

prospect“前景、可能性”接 of 时表示“……的可能”，基因影响的是现实的饮用行为而非饮品的“前景”。

l) reinforcement “对饮品的强化”语义不搭

reinforcement“强化”虽属本篇话题词（28 空用它），但“基因影响人们对茶咖酒的强化”说不通，强化的载体是咖啡因带来的心理效应，不是这三样饮品本身。

32. While all bitter flavors may seem the same, we __(32)__ the bitterness of Brussels sprouts(抱子甘蓝), quinine(奎宁) and caffeine __(33)___

【答案】 J) perceive (动词)

【词性槽】 主语 we 后缺谓语，需现在时动词

【依据】 “我们分别感知三种苦味”，与 seem the same 构成让步转折

整句 While all bitter flavors may seem the same, we __(32)__ the bitterness of Brussels sprouts(抱子甘蓝), quinine(奎宁) and caffeine __(33)__: 虽然苦味看似一样，但我们其实是“感知/分辨”它们（而且分别地感知），perceive 正是“察觉味道差异”的专用词，与下句“苦味程度由基因决定”衔接。

【竞争词】 E) converted 时态冲突且“转变苦味”语义不通

邻居动词 may seem 是现在时，we converted 突然跳过去式，时态打架；且“我们转变了三种物质的苦味”也不是这段在说的感知机制。

33. we __(32)__ the bitterness of Brussels sprouts(抱子甘蓝), quinine(奎宁) and caffeine __(33)___

【答案】 M) separately (副词)

【词性槽】 句末空、主谓宾齐全，缺修饰动词的副词

【依据】 对三种并列苦味“分别地”感知，与上下句严丝合缝

上句说 While all bitter flavors may seem the same（所有苦味看似一样），下句说 The degree to which we find these flavors bitter is, in part, determined by your genes.（程度由基因决定），中间正是“我们分别地感知抱子甘蓝、奎宁和咖啡因的苦味”——separately 把“看似一样”与“程度各异”两头都接上。

【竞争词】 B) approximately “大约”修饰列举不通

宾语是三种清清楚楚并列的物质，没有可供“大约”估计的数量或程度，代入后句子语义垮掉。

34. In __(34)__, people who were more sensitive to quinine's bitter flavors and those found in green vegetables tended to __(35)__ coffee.

【答案】 **A) addition** (名词)

【词性槽】 介词 In 后、逗号前，需名词构成句首衔接语

【依据】 固定搭配 in addition“此外”，承接上段并列递进

上段刚说完一类人 People with the genes to taste the bitterness of green vegetables are more likely to prefer tea to coffee.，本句再补充另一类敏感人群，中间正缺“此外”——in addition 是英语里最常用的段落衔接短语之一。

【竞争词】 D) consumption in consumption 不成衔接短语

consumption 意为“消费/饮用”，填进去是“在消费中”，与上下句的并列递进关系无关。

H) omission omission 语义不搭

omission 是“遗漏”，“在遗漏中”既不是固定短语，也无法连接上下文。

K) prospect in prospect 意为“在望”，逻辑不符

in prospect 虽存在但表“可能发生、在望”，本句是在补充另一组既成事实的人群，不是预测未来。

L) reinforcement in reinforcement 不构成衔接

reinforcement“强化”填入后“在强化中”语义不通，且它真正的归宿是 28 空的 positive reinforcement。

35. tended to __(35)__ coffee

【答案】 **C) avoid** (动词)

【词性槽】 tended to 后接动词原形

【依据】 对苦味更敏感的人倾向于“避开”咖啡，与 prefer tea to coffee 同向

段首刚说 People with the genes to taste the bitterness of green vegetables are more likely to prefer tea to coffee. (这类基因的人更爱茶不爱咖啡)，本句顺着说“对奎宁和蔬菜苦味更敏感的人倾向于避开 avoid 咖啡”，两句同向互证；这与首段咖啡人群的“反常识多喝”形成对照组。

【竞争词】 J) perceive “倾向于感知咖啡”语义不通

perceive 的对象是味道、刺激等可感知物，coffee 作为饮品是“喝”的对象；“倾向于察觉咖啡”既不能与上句 prefer tea to coffee 构成同向对照，也不合常识搭配。

全文主旨

对咖啡苦味越敏感的人反而喝得越多，原因是基因与“积极强化”

开篇即抛出全文的反常识结论：people who are supersensitive to coffee's bitter taste actually drink more of it, a new study finds.。后文都是围绕这一发现解释机制：敏感度由基因决定，爱喝是因为咖啡因带来了“习得性的积极强化”。把这句话当工作台，后面凡涉及“结果方向”（27 空 opposite）、“敏感人群行为”（35 空 avoid）的空，都要回这里对答案。

DISTRACTORS · 干扰词复盘

这 5 个词始终没被任何空选用

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边，却不该填进任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

B) **approximately** 最像 26 或 33 的副词备胎，靠“大约”万金油感骗人

它与 simply、separately 同为副词，26 空 isn't __(26)__ a matter of taste 和 33 空 caffeine __(33)__ 语法上都塞得进；识破法：approximately 只修饰数量/程度估计，这两处既没有数字也没有可估计的程度，代入即别扭。

E) **converted** 最像 32 空，动词栏里唯一的形态陷阱

32 空 we __(32)__ the bitterness of Brussels sprouts(抱子甘蓝), quinine(奎宁) and caffeine __(33)__ 缺谓语动词，converted 词性沾边；识破法：邻居动词 may seem 是现在时，且“我们转变了苦味”语义不通——谓语空先查时态、再查词义。

H) **omission** 最像 31 空的名词，靠 -tion 词尾装学术

31 空 people's __(31)__ of tea, coffee and alcohol 要名词，omission 词性对、词尾还和正确答案 consumption 撞脸；识破法：把“对茶咖酒的遗漏”译出来读，与全文“喝多喝少”的主题完全无关，立刻排除。

K) **prospect** 最像 28 空, positive prospect 看着像搭配

28 空 the learned positive __(28)__ brought out by caffeine, “积极前景”语法通顺, 迷惑性最强; 识破法: prospect 指向“对未来的预期”, 而语境要的是咖啡因当下“带来” (brought out) 的心理奖励, 且下文 learn to associate "good things with it" 解释的是强化机制而非前景。

O) **targeted** 最像 27 或 29 空, 形容词里看着最“高级”的选项

27 空 The __(27)__ results 与 29 空 a __(29)__ ability 语法上都容得下 targeted; 识破法: targeted 需要上下文出现“目标对象”才成立, 两处均无靶向信息, 而 27 有 expect-actually 反转、29 有 supersensitive 同义链, 各归各主。

"You'd expect that people who are particularly sensitive to the bitter taste of caffeine would drink less coffee," said study senior researcher Marilyn Cornelis.

第3段, 第1句

综合其高度典型的常考句式与适中的嵌套难度, 非常适合作为中低水平学员突破长难句结构拆解与时态层级分析的重点推荐练习句。

"The opposite results of our study suggest coffee consumers acquire a taste for or an ability to detect the bitterness of caffeine due to the learned positive reinforcement brought out by caffeine."

第3段, 第2句

属于非常典型的学术英语及考研阅读真题句式 (主语 + 动词 + 省略that的宾语从句 + 原因状语/后置定语), 学后迁移应用能力极强。

Put another way, people who have a heightened ability to taste the bitterness of coffee learn to associate "good things with it," Cornelis said.

第4段，第1句

主语+定语从句+谓语+宾语+引述标签是科普报道和四六级、考研真题高频出现的典型句式，复用价值极高。

This finding is surprising, given that bitterness often serves as a warning mechanism to convince people to spit out harmful substances, the scientists said.

第4段，第2句

这是学术新闻与四六级/考研阅读中极其高频的句式结构，即“研究结论 + given that 背景从句 + 专家引述”，具有极高的方法迁移价值。

Researchers conducted the study to understand how genetics influences people's consumption of tea, coffee and alcohol which tend to taste bitter, said lead researcher Jue Sheng Ong.

第5段，第1句

“研究行为 + 目的状语 + 宾语从句 + 定语从句 + 专家引语”的组合是英语新闻报道与四六级、考研阅读真题中极高频出现的标准句式，具有极高的迁移复用价值。

"While all bitter flavors may seem the same, we perceive the bitterness of Brussels sprouts(孢子甘蓝), quinine(奎宁) and caffeine separately," Ong told Live Science.

第6段，第1句

“让步状语从句 + 核心观点 + 说话人归属句”是科普与学术新闻中极其常见的引用句型，迁移价值高。

"The degree to which we find these flavors bitter is, in part, determined by your genes."

第6段，第2句

在四六级与考研真题中，“抽象名词 + to which/in which 定语从句 + 被动谓语”是极为高频的学术说明文句式，代表性极强。

People with the genes to taste the bitterness of green vegetables are more likely to prefer tea to coffee.

第7段，第1句

主语后接长定语修饰、配合 "be more likely to do A to B" 比较结构的句式在英语四六级与考研英语阅读中高频出现，具有极高的迁移示范价值。

In addition, people who were more sensitive to quinine's bitter flavors and those found in green vegetables tended to avoid coffee.

第7段，第2句

“名词 + 关系代词引导的长定语从句 + 谓语动词”是四六级与考研英语阅读理解中极高频出现的主干分隔句式，具有极强的代表性和迁移价值。

Part III Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on **Answer Sheet 2**.

Exercise and Dementia

- A) If this doesn't encourage you to squeeze in a workout today, nothing will: a new study from Sweden shows that women who were highly fit in mid-life were nearly 90% less likely to get dementia(失智) decades later.

如果这还不能鼓励你今天挤出时间锻炼，那就没有什么能做到了：瑞典一项新研究显示，中年时期身体素质很高的女性，几十年后患失智症的可能性几乎降低了90%。

- B) After initial exercise tests in middle age, researchers followed the women for 44 years. Both groups lived just as long, but those who could ride an exercise bike at a fast rate for 6 minutes in the initial test had a much lower risk of dementia later on than those who couldn't complete the workout.

研究人员在对这些女性进行最初的中年运动测试后，跟踪了她们44年。两组人的寿命一样长，但在最初测试中能够以较快速度骑健身自行车持续6分钟的女性，后来患失智症的风险远低于那些无法完成这项锻炼的女性。

- C) The study, published Wednesday in the journal *Neurology*, couldn't prove that exercise prevented dementia, and the findings aren't a surprise—it's long been known there's a correlation between exercise and decreased dementia risk—but the results were particularly dramatic. About 5% of the women with the highest peak workload—those who were able to bike the hardest over those 6 minutes—developed dementia, compared to 25% of those with medium fitness and 45% who weren't fit enough to finish the test, the study found. Overall, women who were highly fit compared to those who were moderately fit decreased their risk of dementia by 88%. The few highly fit women who

did develop dementia became symptomatic at age 90 on average, 11 years later than the moderately fit.

这项研究于周三发表在《神经病学》杂志上。研究无法证明运动能够预防失智症，而且这一发现也并不令人意外——运动与失智症风险降低之间存在相关性，这一点早已为人所知——但研究结果尤其显著。研究发现，在峰值负荷最高的女性中，也就是能够在这6分钟内以最大强度骑车的女性，约有5%患上了失智症；相比之下，中等健康水平的女性中这一比例为25%，而身体素质不足以完成测试的女性中这一比例为45%。总体而言，与身体素质中等的女性相比，身体素质很高的女性患失智症的风险降低了88%。少数患上失智症的高健康水平女性平均在90岁时出现症状，比健康水平中等的女性晚11年。

- D) "I'm very surprised that the finding was so strong," said Ingmar Skoog, the paper's senior author and a psychiatry(精神病学) professor at The University of Gothenburg in Sweden. "It really shows the importance of exercise."

“我非常惊讶这一发现如此显著，”该论文的高级作者、瑞典哥德堡大学精神病学教授英格玛·斯库格说，“这确实显示了运动的重要性。”

- E) Dementia, as defined in medical dictionaries, is a broad term that describes a loss of thinking ability, memory, attention, logical reasoning, and other mental abilities. These changes are severe enough to interfere with social or occupational functioning. Dementia isn't a disease. Instead, it's a group of symptoms caused by other conditions. It happens when the parts of your brain used for learning, memory, decision making, and language are damaged or diseased. About 5%-8% of adults over age 65 have some form of dementia. This percentage doubles every 5 years after 65. As many as half of people in their 80s have some form of dementia.

医学词典所定义的失智症是一个广义术语，用来描述思考能力、记忆力、注意力、逻辑推理能力以及其他精神能力的丧失。这些变化严重到足以妨碍社会活动或职业功能。失智症并不是一种疾病，而是一组由其他病症引起的症状。当大脑中负责学习、记忆、决策和语言的部分受到损伤或患病时，就会发生失智症。65岁以上的成年人中，约有5%至8%患有某种形式的失智症。65岁以后，这一比例每5年翻一番。80多岁的人中，最多有一半患有某种形式的失智症。

- F) Dementia is not temporary confusion or forgetfulness that might result from an infection that heals without treatment. It can also come from an underlying(潜在的) illness or side effects of medications. Dementia typically gets worse over time. People with dementia have problems with thinking and remembering that affect their ability to manage their daily life.

失智症并不是由未经治疗便自行痊愈的感染所导致的暂时性混乱或健忘。它也可能源于潜在疾病或药物副作用。失智症通常会随着时间推移而恶化。失智症患者在思考和记忆方面存在问题，这些问题会影响他们处理日常生活的能力。

- G) Dementia is typically associated with declines in cognitive function. Yet researchers have found an association between dementia and declines in hearing and other basic sensory functions.

失智症通常与认知功能下降有关。然而，研究人员发现，失智症还与听力及其他基本感官功能的下降存在关联。

- H) Though the study mentioned above was fairly small (only 191 women took the initial fitness test, which means it's hard to maintain statistical significance while breaking the group down into sub-

categories of more or less fit), it does give us hope that dementia can be prevented or delayed through exercise in one's middle age.

尽管上述研究规模相当小（只有191名女性参加了最初的健康测试，这意味着在将参与者进一步分为健康程度较高或较低的亚组时，很难保持统计显著性），但它确实让我们看到希望：人在中年时期通过运动可以预防或延缓失智症。

- I) Alzheimer's(阿尔茨海默症) and other dementias are believed to begin 15-20 years before symptoms even appear, so it makes sense that exercising in mid-life would affect the risk, Skoog said. Exercise alone is not likely to prevent Alzheimer's, but the study shows people are not helpless in the face of one of the most feared, costliest and common diseases of old age, he added. And the same activities that help prevent Alzheimer's—including avoiding smoking, getting adequate exercise and sleep and eating a healthy diet—also prevent heart disease, he said, making them even more worthwhile. "You can do something yourself to decrease your odds," Skoog said.

斯库格说，人们认为阿尔茨海默症和其他失智症在症状出现前15至20年就已经开始形成，因此中年时期进行锻炼会影响患病风险是合理的。他补充说，单靠运动不太可能预防阿尔茨海默症，但这项研究表明，面对这种老年人最担心、代价最高且最常见的疾病之一，人们并非束手无策。他说，那些有助于预防阿尔茨海默症的相同活动，包括避免吸烟、进行充分的运动、保证充足的睡眠以及健康饮食，也能预防心脏病，因此更值得去做。“你可以通过自己的努力降低患病的可能性，”斯库格说。

- J) Maintaining a healthy lifestyle in mid-life, decades before disease sets in, makes sense, said David Knopman, a fellow of the American Academy of Neurology, who was not involved in the study. "I suspect it's a dose," said Knopman, also associate director of the Alzheimer's Disease Research Center at Mayo Clinic in Rochester, Minnesota. "Starting in late life is better than not starting at all, but starting in mid-life seems to offer a larger benefit."

没有参与这项研究的美国神经病学学会成员大卫·诺普曼说，在疾病发作前几十年，也就是中年时期保持健康的生活方式是合理的。“我怀疑这与剂量有关，”诺普曼说。他还是明尼苏达州罗切斯特市梅奥诊所阿尔茨海默病研究中心的副主任。“晚年开始总比完全不开始好，但在中年开始似乎能带来更大的益处。”

- K) Although it is not entirely clear why exercise helps put off or prevent Alzheimer's, Knopman said it's likely that exercise maintains good blood flow to the brain. "When the brain is healthier from a vascular(血管的) point of view, it can absorb more Alzheimer's pathogen(病原体) before people become symptomatic," he said.

诺普曼说，尽管人们还不完全清楚运动为何有助于推迟或预防阿尔茨海默症，但运动很可能会维持大脑良好的血液流动。“从血管状况的角度来看，当大脑更加健康时，在人们出现症状之前，它能够承受更多的阿尔茨海默症病原体，”他说。

- L) The message isn't that everyone needs to run marathons in middle age, Knopman said, but a healthy lifestyle pays off.

诺普曼说，这一信息并不是说每个人都需要在中年时期跑马拉松，而是说健康的生活方式会带来回报。

- M) This type of study can't say exactly what kind of exercise is best, or how much is needed—only a study that has a placebo(安慰剂) group and tracks people going forward can do that, said Keith Fargo, director of scientific programs and outreach at the non-profit Alzheimer's Association. "The literature has not yet settled on an amount or type of exercise that is going to be key, although the

bulk of literature has suggested that aerobic(有氧的) exercise is what you need to be doing," he said. That doesn't mean you have to compete in marathons but "more than a 10-min dog walk" would be a good idea, Fargo said.

非营利组织阿尔茨海默症协会科学项目与推广部主任基思·法戈说，这类研究无法确切说明哪种运动最好，或者需要进行多少运动；只有设置安慰剂组并对参与者进行前瞻性跟踪的研究才能做到这一点。“相关文献尚未确定某一种运动量或运动类型是关键，尽管大量文献表明，你需要进行的是有氧运动，”他说。法戈说，这并不意味着你必须参加马拉松比赛，但“遛狗超过10分钟”会是个不错的主意。

- N) Several lifestyle studies are getting underway soon, including one backed by the Alzheimer's Association called the US POINTER study, which will offer at-risk adults, ages 60-79, a series of lifestyle interventions(干预) to see if they impact Alzheimer's risk. That and other Alzheimer's-related studies are always looking for volunteers to participate, he said.

他说，几项生活方式研究很快就要启动，其中包括一项由阿尔茨海默症协会支持、名为美国 POINTER 研究的项目。该研究将为60至79岁的高风险成年人提供一系列生活方式干预，以观察这些干预是否会影响阿尔茨海默症风险。他说，这项研究以及其他与阿尔茨海默症相关的研究一直在招募志愿者参与。

- O) In the next three to five years, these studies should allow researchers to provide clearer recommendations for exercise and other lifestyle modifications that might reduce Alzheimer's risk, such as sleep, diet and social activities, Fargo said. But it's already quite clear that exercising at any point in life is better for your brain than not exercising at all, Fargo added.

法戈说，在未来三至五年内，这些研究应能让研究人员为运动以及其他可能降低阿尔茨海默症风险的生活方式改变提供更加明确的建议，例如睡眠、饮食和社交活动。但法戈补充说，目前已经相当明确的是，在人生任何阶段进行锻炼，都比完全不锻炼更有益于大脑。

- P) "If you don't want to have dementia when you're 80, the time to start getting fit is now," he said. "It may not necessarily give you a longer life, but there's a compelling body of work that it will give you more good years."

他说：“如果你不想在80岁时患上失智症，那么现在就是开始锻炼、保持健康的时候。”“这未必能让你活得更久，但大量有说服力的研究表明，它会让你拥有更多健康的岁月。”

陈述句与逐句解析

36. It is typical for dementia to worsen with the passage of time.

痴呆症通常会随着时间的推移而恶化。

【答案】 F 段（弱锚点）

【锚点】 dementia / worsen with the passage of time

【定位】 Dementia typically gets worse over time.

痴呆通常会随着时间的推移而恶化。

【改写】 It is typical ↔ **typically**

词性转换

worsen with the passage of time ↔ **gets worse over time**

同义短语替换

【辨邻】 **E** Dementia, as defined in medical dictionaries, is a broad term that describes a loss of thinking ability, memory, attention, logical reasoning, and other mental abilities 谈的是痴呆定义，虽然话题相邻，但没有“随时间恶化”的信息。

Dementia, as defined in medical dictionaries, is a broad term that describes a loss of thinking ability, memory, attention, logical reasoning, and other mental abilities

37. According to Knopman, the study gives the message that a healthy lifestyle is beneficial, but not that all the middle-aged need heavy exercise.

诺普曼认为，这项研究传达的信息是，健康的生活方式有益，但并不意味着所有中年人都需要进行剧烈运动。

【答案】 **L** 段 (强锚点)

【锚点】 Knopman / healthy lifestyle / heavy exercise

【定位】 The message isn't that everyone needs to run marathons in middle age, Knopman said, but a healthy lifestyle pays off.

Knopman说，信息并不是说每个人到中年都需要去跑马拉松，而是健康的生活方式会有回报。

【改写】 According to Knopman ↔ **Knopman said**

说话人锁定

all the middle-aged need heavy exercise ↔ **everyone needs to run marathons in middle age**

上位概括

a healthy lifestyle is beneficial ↔ **a healthy lifestyle pays off**

同义替换

【辨邻】 **J** Maintaining a healthy lifestyle in mid-life... starting in mid-life seems to offer a larger benefit 虽然也是 Knopman 谈健康生活方式，但没有题干中“不必进行 heavy exercise”这层意思。

Maintaining a healthy lifestyle in mid-life, decades before disease sets in, makes sense, said David Knopman... starting in mid-life seems to offer a larger benefit

M That doesn't mean you have to compete in marathons 虽出现 marathons，但说话人是 Fargo，不是 Knopman。

That doesn't mean you have to compete in marathons

38. The results of a new study will encourage middle-aged women to find time exercising however busy they are.

一项新研究的结果将鼓励中年女性无论多忙都抽出时间锻炼。

【答案】 **A** 段 (弱锚点)

【锚点】 new study / middle-aged women / find time exercising

【定位】 If this doesn't encourage you to squeeze in a workout today, nothing will: a new study from Sweden shows that women who were highly fit in mid-life were nearly 90% less likely to get dementia(失智) decades later.

如果这还不能促使你今天挤出时间锻炼，那什么都不会了：一项来自瑞典的新研究表明，中年时体能极高的女性晚年患失智症的几率要低近90%。

【改写】 The results of a new study ↔

a new study from Sweden shows that women who were highly fit in mid-life were nearly 90% less likely to get dementia(失智) decades later

概括复现

encourage middle-aged women to find time exercising however busy they are ↔

If this doesn't encourage you to squeeze in a workout today, nothing will

同义改写

【辨邻】 **C** The study, published Wednesday in the journal Neurology... the results were particularly dramatic 是对研究结果的客观报道，没有 A 段那种“促使你锻炼”的劝勉语气。

The study, published Wednesday in the journal Neurology... the results were particularly dramatic

P the time to start getting fit is now 是 Fargo 的行动建议，没有题干中的“new study results”作为动因。

the time to start getting fit is now

39. Hopefully, one can postpone or prevent dementia by exercising in their mid-life.

希望人们可以通过在中年时期锻炼来推迟或预防痴呆症。

【答案】 **H** 段 (弱锚点)

【锚点】 postpone or prevent dementia / mid-life exercise

【定位】 it does give us hope that dementia can be prevented or delayed through exercise in one's middle age.

它确实让我们怀有希望：痴呆可以通过中年时期的运动来预防或延缓。

【改写】 Hopefully ↔ **give us hope**

名词化

postpone or prevent dementia ↔ **prevented or delayed**

同义替换

by exercising in their mid-life ↔ **through exercise in one's middle age**

同义替换

【辨邻】 A women who were highly fit in mid-life were nearly 90% less likely to get dementia 只报告风险降低，未出现 hope / prevented or delayed 的表述。

women who were highly fit in mid-life were nearly 90% less likely to get dementia

K exercise helps put off or prevent Alzheimer's 只讨论运动对阿尔茨海默病的预防机制，没有题干中的 mid-life 限定。

exercise helps put off or prevent Alzheimer's

40. In a few years, researchers should be able to offer clearer advice on exercise and other lifestyle changes for reducing the incidence of Alzheimer's.

几年后，研究人员应该能够就通过锻炼和其他生活方式的改变来降低阿尔茨海默病发病率提出更明确的建议。

【答案】 O 段（弱锚点）

【锚点】 a few years / clearer advice / lifestyle changes

【定位】 In the next three to five years, these studies should allow researchers to provide clearer recommendations for exercise and other lifestyle modifications that might reduce Alzheimer's risk, such as sleep, diet and social activities, Fargo said.

在未来三到五年内，这些研究应能让研究人员就运动及其他生活方式调整（如睡眠、饮食和社交活动）提供更为明确的建议，以降低阿尔茨海默病风险。

【改写】 In a few years ↔ **In the next three to five years**

概括

researchers should be able to offer clearer advice ↔

allow researchers to provide clearer recommendations

同义替换

exercise and other lifestyle changes ↔ **exercise and other lifestyle modifications**

同义替换

reducing the incidence of Alzheimer's ↔ **reduce Alzheimer's risk**

同义替换

【辨邻】 N Several lifestyle studies are getting underway soon, including one backed by the Alzheimer's Association called the US POINTER study 只说明研究即将开始，没有“提供 clearer recommendations”的表述。

Several lifestyle studies are getting underway soon, including one backed by the Alzheimer's Association called the US POINTER study

M The literature has not yet settled on an amount or type of exercise 讨论的是当前文献局限，与题干的未来展望不同。

The literature has not yet settled on an amount or type of exercise

41. Dementia refers to a loss of multiple mental abilities such as memory and logical reasoning.

痴呆症指的是多种心智能力的丧失，如记忆力和逻辑推理能力。

【答案】 E 段（强锚点）

【锚点】 Dementia / loss of multiple mental abilities / memory and logical reasoning

【定位】 Dementia, as defined in medical dictionaries, is a broad term that describes a loss of thinking ability, memory, attention, logical reasoning, and other mental abilities.

正如医学词典所定义的，痴呆是一个广义术语，描述的是思考能力、记忆力、注意力、逻辑推理及其他心智能力的丧失。

【改写】 Dementia refers to ↔

Dementia, as defined in medical dictionaries, is a broad term that describes
定义句式转换

a loss of multiple mental abilities ↔

a loss of thinking ability, memory, attention, logical reasoning, and other mental abilities
上位概括

such as memory and logical reasoning ↔ **memory, attention, logical reasoning**
具体列举复现

【辨邻】 F Dementia typically gets worse over time 讨论的是病程，而非题干所问的定义。

Dementia typically gets worse over time

G Dementia is typically associated with declines in cognitive function 只提到 cognitive function，没有 memory / logical reasoning 等列举。

Dementia is typically associated with declines in cognitive function

42. One researcher believes that exercise may keep the brain well supplied with blood.

一位研究人员认为，锻炼可能使大脑保持充足的血液供应。

【答案】 K 段（强锚点）

【锚点】 exercise / brain / well supplied with blood

【定位】 it's likely that exercise maintains good blood flow to the brain.

运动很可能维持大脑良好的血液供应。

【改写】 One researcher ↔ **Knopman said**

指代锁定

exercise may keep the brain well supplied with blood ↔

exercise maintains good blood flow to the brain

同义替换

【辨邻】 J starting in mid-life seems to offer a larger benefit 是 Knopman 关于运动时机的主张，与脑部供血无关。

starting in mid-life seems to offer a larger benefit

H dementia can be prevented or delayed through exercise in one's middle age 谈的是运动效果，没有 blood flow 的机制内容。

dementia can be prevented or delayed through exercise in one's middle age

43. Medical literature has not concluded as to what exercise or how much exercise is crucial, although it generally agrees that people should do aerobic exercise.

医学文献尚未就哪种运动或多大的运动量至关重要得出结论，尽管普遍认为人们应该进行有氧运动。

【答案】 M 段（强锚点）

【锚点】 Medical literature / what exercise / how much exercise / aerobic exercise

【定位】 The literature has not yet settled on an amount or type of exercise that is going to be key, although the bulk of literature has suggested that aerobic(有氧的) exercise is what you need to be doing,

文献尚未就能起关键作用的运动量或运动类型达成共识，尽管大部分文献认为你应该进行有氧运动。

【改写】 Medical literature has not concluded ↔ **The literature has not yet settled**

同义替换

as to what exercise or how much exercise is crucial ↔

on an amount or type of exercise that is going to be key

同义替换

although it generally agrees that people should do aerobic exercise ↔

although the bulk of literature has suggested that aerobic exercise is what you need to be doing

同义替换

【辨邻】 L The message isn't that everyone needs to run marathons in middle age, Knopman said, but a healthy lifestyle pays off 是 Knopman 的观点, 与 Medical literature 的 consensus 无关。

The message isn't that everyone needs to run marathons in middle age, Knopman said, but a healthy lifestyle pays off

O In the next three to five years, these studies should allow researchers to provide clearer recommendations 讲未来展望, 不是当前文献状态。

In the next three to five years, these studies should allow researchers to provide clearer recommendations

44. It has long been common knowledge that exercise correlates with reduced risk of dementia.

长期以来, 人们普遍知道锻炼与较低的痴呆症风险相关。

【答案】 C 段 (强锚点)

【锚点】 long been common knowledge / exercise / reduced risk of dementia

【定位】 the findings aren't a surprise—it's long been known there's a correlation between exercise and decreased dementia risk

这些发现并不令人惊讶——长期以来人们都知道运动与痴呆风险降低之间存在相关性。

【改写】 It has long been common knowledge ↔ **it's long been known**

同义替换

that exercise correlates with reduced risk of dementia ↔

there's a correlation between exercise and decreased dementia risk

句式转换

【辨邻】 A women who were highly fit in mid-life were nearly 90% less likely to get dementia 是瑞典新研究的具体结果, 而非“早已知道”的 common knowledge。

women who were highly fit in mid-life were nearly 90% less likely to get dementia

H it does give us hope that dementia can be prevented or delayed through exercise in one's middle age 强调研究带来的 hope, 不是 long been known。

it does give us hope that dementia can be prevented or delayed through exercise in one's middle age

45. Activities helpful in the prevention of Alzheimer's also prevent heart disease.

有助于预防阿尔茨海默病的活动也能预防心脏病。

【答案】 I 段 (强锚点)

【锚点】 Activities / prevention of Alzheimer's / heart disease

【定位】 And the same activities that help prevent Alzheimer's—including avoiding smoking, getting adequate exercise and sleep and eating a healthy diet—also prevent heart disease, he said, making them even more worthwhile.

他说，同样有助于预防阿尔茨海默的活动——包括不吸烟、充足运动与睡眠、健康饮食——也能预防心脏病，这使它们更有价值。

【改写】 Activities helpful in the prevention of Alzheimer's ↔

the same activities that help prevent Alzheimer's

名词化

also prevent heart disease ↔ also prevent heart disease

原样复现

【辨邻】 K exercise helps put off or prevent Alzheimer's 讨论运动对阿尔茨海默的预防机制，没有 heart disease。

exercise helps put off or prevent Alzheimer's

J Maintaining a healthy lifestyle in mid-life... makes sense 讲中年健康生活方式合理，但未出现 prevent Alzheimer's 与 prevent heart disease 的对应。

Maintaining a healthy lifestyle in mid-life, decades before disease sets in, makes sense

If this doesn't encourage you to squeeze in a workout today, nothing will: a new study from Sweden shows that women who were highly fit in mid-life were nearly 90% less likely to get dementia(失智) decades later.

A段，第1句

综合来看，该句逻辑层级丰富、含有经典谓语省略与多重从句嵌套，且结构高度典型，非常适合作为中高级长难句结构拆解与主干提取的优先练习材料。

The study, published Wednesday in the journal Neurology, couldn't prove that exercise prevented dementia, and the findings aren't a surprise—it's long been known there's a correlation between exercise and decreased dementia risk—but the results were particularly dramatic.

C段，第1句

涵盖了后置定语、宾语从句、形式主语、主语从句、存现句及程度状语等极其丰富的语法成分，是非常优质的划分成分练习句。

About 5% of the women with the highest peak workload—those who were able to bike the hardest over those 6 minutes—developed dementia, compared to 25% of those with medium fitness and 45% who weren't fit enough to finish the test, the study found.

C段，第2句

该结构极具学术报告与新闻报道特征，即“实验数据 + 同位补充 + 组间对比 + 出处引用”，是考研及四六级阅读理解中极高频出现的典型句式。

Overall, women who were highly fit compared to those who were moderately fit decreased their risk of dementia by 88%.

C段，第3句

主语 + 长定语从句后置修饰 + 主句谓语 + 宾语 + 程度状语属于各类英语考试高频出现的典型长难句结构，具有极高的可迁移性和复用价值。

The few highly fit women who did develop dementia became symptomatic at age 90 on average, 11 years later than the moderately fit.

C段，第4句

主语 + 定语从句修饰 + 系表主干 + 比较级状语是各类考试真题中最具代表性的高频长难句结构之一。

These changes are severe enough to interfere with social or occupational functioning.

E段，第2句

"主语 + 系动词 + 表语 + enough to do" 是四六级与考研真题中的高频典型句式，掌握后可迁移应用至大量同类句子。

Instead, it's a group of symptoms caused by other conditions.

E段，第4句

“句首副词衔接 + 主系表 + 过去分词后置修饰”是英语阅读与写作中的高度典型句型，具备较强的可迁移性。

It happens when the parts of your brain used for learning, memory, decision making, and language are damaged or diseased.

E段，第5句

“主句 + when 状语从句”以及“名词 + 过去分词短语后置修饰 + 谓语”是各类英语考试阅读理解中最基础且高频的经典结构，具有极强的可迁移性。

Dementia is not temporary confusion or forgetfulness that might result from an infection that heals without treatment.

F段，第1句

“主句 + 后置定语从句 + 从句内嵌套定语从句”是四六级与考研阅读长难句中极具代表性的修饰展开方式，迁移复用价值高。

Dementia is typically associated with declines in cognitive function.

G段，第1句

采用了学术与科普阅读中极高频出现的“主语 + be associated with + 名词短语”句式，掌握后具有极高的迁移复用价值。

Yet researchers have found an association between dementia and declines in hearing and other basic sensory functions.

G段，第2句

“主语 + 现在完成时谓语 + 名词 + between...and...后置定语”是英语学术论著及真题阅读中汇报研究结论的极其典型的句式。

Though the study mentioned above was fairly small (only 191 women took the initial fitness test, which means it's hard to maintain statistical significance while breaking the group down into sub-categories of more or less fit), it does give us hope that dementia can be prevented or delayed through exercise in one's middle age.

H段，第1句

综合本句丰富的嵌套层级、典型的真题结构以及极高的成分训练价值，该句非常适合作为长难句结构与时态拆解的高优先级训练材料。

Alzheimer's(阿尔茨海默症) and other dementias are believed to begin 15-20 years before symptoms even appear, so it makes sense that exercising in mid-life would affect the risk, Skoog said.

I段，第1句

“引语 + 人名 said”、“be believed to do”被动表达以及 “it makes sense that...” 形式主语结构均是四六级与考研英语阅读理解中频次极高的经典句型，迁移复用性强。

Exercise alone is not likely to prevent Alzheimer's, but the study shows people are not helpless in the face of one of the most feared, costliest and common diseases of old age, he added.

I段，第2句

句式融合了外刊真题中极高频的“引语 + 引述主句”框架、转折逻辑以及省略“that”的宾语从句，属于四六级与考研英语阅读中极具代表性的典型长难句结构。

And the same activities that help prevent Alzheimer's—including avoiding smoking, getting adequate exercise and sleep and eating a healthy diet—also prevent heart disease, he said, making them even more worthwhile.

I段，第3句

本句时态虽然简单，但结构修饰极其丰富且层次分明，能极其有效地训练学生穿透复杂修饰定位句核的能力，综合推荐度极高。

Maintaining a healthy lifestyle in mid-life, decades before disease sets in, makes sense, said David Knopman, a fellow of the American Academy of Neurology, who was not involved in the study.

J段，第1句

本句是学术期刊报道或外刊新闻中极为典型的高频句式，完美示范了“学术观点 + 专家引述 + 身份修饰”的写作结构，掌握后迁移价值极高。

Although it is not entirely clear why exercise helps put off or prevent Alzheimer's, Knopman said it's likely that exercise maintains good blood flow to the brain.

K段，第1句

本句集中涵盖了形式主语、主语从句、省略引导词的宾语从句、动词不定式作宾语及后置介词短语作定语等多种核心考点，划成分训练收益极高。

"When the brain is healthier from a vascular(血管的) point of view, it can absorb more Alzheimer's pathogen(病原体) before people become symptomatic," he said.

K段，第2句

这是阅读理解中非常典型的‘科研观点/专家言论引用句’，即‘从句 + 主句 + 引导从句，直接引语 + he said’结构，在四六级和考研阅读中高频出现，具有极高的方法迁移价值。

The message isn't that everyone needs to run marathons in middle age, Knopman said, but a healthy lifestyle pays off.

L段，第1句

「否定观点A + 插入说话人 + 转折引出观点B」是英语新闻与学术议论文中高频出现的观点引用句式，迁移价值很高。

This type of study can't say exactly what kind of exercise is best, or how much is needed—only a study that has a placebo(安慰剂) group and tracks people going forward can do that, said Keith Fargo, director of scientific programs and outreach at the non-profit Alzheimer's Association.

M段，第1句

综合来看，本句长难句特征典型，主干倒装与复杂嵌套交织，同时覆盖了丰富的语法成分与典型常考句式，在结构分析与长难句突破训练中应给予最高优先度的推荐。

"The literature has not yet settled on an amount or type of exercise that is going to be key, although the bulk of literature has suggested that aerobic(有氧的) exercise is what you need to be doing," he said.

M段，第2句

本句全面覆盖了主语、谓语、宾语、表语、定语、状语等核心成分，且集中展示了关系代词 "that" 在定语从句中作主语以及连接代词 "what" 在表语从句中作宾语的典型易错点，训练收益极大。

That doesn't mean you have to compete in marathons but "more than a 10-min dog walk" would be a good idea, Fargo said.

M段，第3句

否定前观点 + 转折给出合理建议 + 引用说话人，这是四六级与考研英语阅读理解及写作中极为常见的典型句式结构。

Several lifestyle studies are getting underway soon, including one backed by the Alzheimer's Association called the US POINTER study, which will offer at-risk adults, ages 60-79, a series of lifestyle interventions(干预) to see if they impact Alzheimer's risk.

N段，第1句

这种“主句引出研究 + 逗号后跟 which 非限制性定语从句补充说明内容 + 不定式带宾语从句阐明目的”的句式是四六级与考研英语阅读中极高频出现的典型范式。

In the next three to five years, these studies should allow researchers to provide clearer recommendations for exercise and other lifestyle modifications that might reduce Alzheimer's risk, such as sleep, diet and social activities, Fargo said.

O段，第1句

句末附带引述动词（如 "... Fargo said"）并在引述内容中嵌套从句与长修饰成分，是学术新闻报道和外刊阅读中极具代表性的高频典型句式。

But it's already quite clear that exercising at any point in life is better for your brain than not exercising at all, Fargo added.

O段，第2句

形式主语从句 "it is clear that ..." 与比较级结构 "better ... than ..." 均为四六级及考研英语阅读真题的高频典型句式，学会后迁移复用价值极高。

"If you don't want to have dementia when you're 80, the time to start getting fit is now," he said.

P段，第1句

引语前置加上主句后置的叙述结构，结合‘条件从句 + 嵌套时间从句 + 主系表主句’的表达方式，属于各类英语考试长难句阅读中高频出现的典型结构。

"It may not necessarily give you a longer life, but there's a compelling body of work that it will give you more good years."

P段，第2句

转折并列句搭配 "there is a body of work that..." 这种学术与考试高频出现的证据引用表达，结构高度典型，迁移复用价值高。

According to Knopman, the study gives the message that a healthy lifestyle is beneficial, but not that all the middle-aged need heavy exercise.

第37题题干

“抽象名词 + 双重并列同位语从句（否定对比变体）”是高考、四六级及考研阅读中极具代表性的长难句句式，掌握后复用迁移价值高。

The results of a new study will encourage middle-aged women to find time exercising however busy they are.

第38题题干

鼓励某人做某事搭配与由连词引出的让步状语从句均为各类考试中高频出现的经典句式，极具迁移示范价值。

Dementia refers to a loss of multiple mental abilities such as memory and logical reasoning.

第41题题干

采用典型的“A refers to B (such as ...)”定义型句式，是阅读理解科普与学术说明文中极具代表性的高频句型。

Medical literature has not concluded as to what exercise or how much exercise is crucial, although it generally agrees that people should do aerobic exercise.

第43题 题干

“主句 + 介词宾语从句 + 状语从句（内含宾语从句）”是阅读理解与写作中极高频的复杂句式，具有很强的代表性与迁移学习价值。

It has long been common knowledge that exercise correlates with reduced risk of dementia.

第44题 题干

“It has been + 名词/形容词 + that 从句”是英语各类学术写作与考试真题中最标准、最高频出现的句型之一，具有极高的方法迁移与复用价值。

Part III Section C

Directions: *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

Passage One

Questions 46 to 50 are based on the following passage.

P1 People who systematically underestimate themselves and their own performance suffer from the so-called Impostor Phenomenon. They think that any success is due to external circumstances or just luck and chance. Those people live in constant fear that their "deception" will be exposed.

系统性低估自己及自身表现的人会受到所谓的冒名顶替现象的困扰。他们认为，任何成功都归因于外部环境，或仅仅是运气和偶然。这些人始终生活在自己的“欺骗行为”会被揭穿的恐惧之中。

P2 It is common for people to question their abilities now and again. A healthy amount of reflection and self-doubt can protect a person from acting impulsively. However, there are people who are permanently plagued by a massive amount of self-doubt despite delivering a good performance. They think that all of their successes are not a product of their skill or hard work, instead they attribute their own successes to external circumstances, for example, to luck and chance, or believe that their performance is massively overestimated by others. Failures, on the other hand, are always internalised as the result of their own shortcomings.

人们偶尔质疑自己的能力是很常见的。适度的反思和自我怀疑可以防止一个人冲动行事。然而，有些人尽管表现出色，却长期受到大量自我怀疑的困扰。他们认为，自己的所有成功都不是能力或努力的结果，而是将成功归因于外部环境，例如运气和偶然，或者认为自己的表现被他人严重高估。另一方面，他们总是把失败内化为自身缺点所导致的结果。

P3 Psychologists from Martin Luther University Halle-Wittenberg examined the topic for the first time under real-life conditions. Seventy-six participants completed a range of intelligence tests and

received positive feedback on them, regardless of their actual performance. They were then asked why they think they did so well.

来自马丁·路德大学哈勒-维滕贝格分校的心理学家首次在现实生活条件下对这一主题进行了研究。76名参与者完成了一系列智力测试，并且无论其实际表现如何，都得到了积极的反馈。随后，研究人员询问他们为何认为自己表现得如此出色。

P4 The study showed two things: First, the self-reported degree of Impostor Phenomenon is not related to actual measured intelligence or performance. Secondly, the test supported the assumption that people with a tendency to exhibit the Impostor Phenomenon devalue their objectively measured performance and attribute positive results to external causes such as luck and chance, but not to their own abilities. These results are also completely unrelated to age and gender.

研究显示了两点：第一，自我报告的冒名顶替现象程度与实际测得的智力或表现无关。第二，测试支持了这一假设：倾向于表现出冒名顶替现象的人会贬低自己客观测得的表现，并将积极结果归因于运气和偶然等外部原因，而不是自己的能力。这些结果也与年龄和性别完全无关。

P5 A permanent underestimation of one's own abilities is often accompanied by the fear that this supposed intellectual deception will be exposed sooner or later and that they will pay the price for this. The Impostor Phenomenon was first described in 1978 by US psychologists Pauline Clance and Suzanne Imes. They observed that there is a particularly high number of successful women who do not think they are very intelligent. The Impostor Phenomenon is not defined as a mental illness. However, people who suffer from it show a higher vulnerability to depression.

持续低估自己的能力，往往伴随着这样的恐惧：这种所谓的智力欺骗迟早会被揭穿，而他们也必将为此付出代价。冒名顶替现象最早由美国心理学家保琳·克兰斯和苏珊·艾姆斯于1978年描述。她们观察到，成功女性中有相当多的人认为自己并不聪明。冒名顶替现象不被定义为一种精神疾病。然而，受到这一现象困扰的人表现出更高的抑郁易感性。

题目与逐题解析

46. What do we learn from the passage about people who suffer from the so-called Impostor Phenomenon?

- A) They systematically underestimate their chances of success.
- B) They tend to attribute their achievements to good fortune.
- C) They seem to live in constant fear of being deceived.
- D) They generally rely on luck and chance for success.

关于遭受所谓冒名顶替现象困扰的人，我们从文章中了解到什么？

- A) 他们系统性地低估自己成功的可能性。
- B) 他们往往把自己的成就归因于好运。
- C) 他们似乎一直害怕受骗。
- D) 他们通常依靠运气和偶然性取得成功。

【答案】 B (细节题)

【判型】 What do we learn from the passage about people who suffer from the so-called Impostor Phenomenon? 是问'关于某类人我们能了解到什么'，答案应在文中找对该类人的直接描述。

【拆句】 What do we learn from the passage about people who suffer from the so-called Impostor Phenomenon? 是主谓宾结构的特殊疑问句；主干为 What do we learn, about 短语限定讨论对象，who 定语从句修饰 people，整体无否定、比较等陷阱。

【定位】 They think that any success is due to external circumstances or just luck and chance.
他们认为任何成功都归因于外部环境，或者仅仅是运气和机遇。

【选项】 A) 偷换概念

选项说 systematically underestimate their chances of success, 但原文是 systematically underestimate themselves and their own performance, 低估的对象从'自己和自身表现'被偷换为'成功几率', 语义不一致。

B) ✓ 正确

any success is due to external circumstances or just luck and chance ↔

tend to attribute their achievements to good fortune

tend to attribute their achievements to good fortune 准确对应 any success is due to... luck and chance, 只是把'成功归因于运气'换了说法。

C) 偷换概念

选项 live in constant fear of being deceived 利用了原文 live in constant fear 和 deception 两个词，但原文是害怕'自己的欺骗被揭穿', 不是害怕'被别人欺骗'。

D) 过度推断

选项 generally rely on luck and chance for success 说患者'依靠'运气获得成功，但原文 any success is due to external circumstances or just luck and chance 只是说他们认为'成功归因于运气', 并非真的去依靠运气。

47. What do people with a healthy amount of reflection and self-doubt tend to do?

A) Credit all their successes to hard work.

B) Strive hard to perfect their skills.

C) Refrain from acting on impulse.

D) Deliver a better performance.

拥有适度反思和自我怀疑的人往往会做什么？

A) 把所有的成功都归功于努力工作。 B) 努力使自己的技能臻于完善。 C) 避免凭冲动行事。

D) 表现得更好。

【答案】 C (细节题)

【判型】 What do people with a healthy amount of reflection and self-doubt tend to do? 询问具备某特征的人群 tend to do 什么，属于对文中具体行为信息的提取。

【拆句】 What do people with a healthy amount of reflection and self-doubt tend to do? 中 with 短语作后置定语修饰 people, tend to do 询问习惯性结果，句子平直，无复杂从句。

【定位】 A healthy amount of reflection and self-doubt can protect a person from acting impulsively.
适度的反思和自我怀疑能够防止一个人冲动行事。

【选项】 A) 张冠李戴

选项 Credit all their successes to hard work 说健康反思者把所有成功归功于努力，但原文 there are people who are permanently plagued by... self-doubt 之后说的是 IP 患者不把成功归因于自身 skill or hard work，并未说健康反思者就会归因于努力。

B) 无中生有

选项 Strive hard to perfect their skills 在原文关于健康反思者的描述中没有对应信息，属于凭空添加。

C) ✓ 正确

protect a person from acting impulsively ↔ Refrain from acting on impulse

Refrain from acting on impulse 与 protect a person from acting impulsively 语义等值，只是从'被保护不冲动'转换为'主动克制不冲动'。

D) 答非所问

选项 Deliver a better performance 暗示健康反思者会表现更好，但原文 despite delivering a good performance 是修饰 IP 患者的，与健康反思者无比较关系。

48. What do Impostor Phenomenon sufferers often do according to psychologists from Martin Luther University Halle-Wittenberg?

- A) Attribute their accomplishments to others.
- B) Deny their actual measured intelligence.
- C) Claim to have confidence in their own abilities.
- D) Mark down their objectively rated performance.

根据哈雷-维滕贝格马丁·路德大学心理学家的说法，遭受冒名顶替现象困扰的人常常会怎么做？

- A) 把自己的成就归功于他人。
- B) 否认自己经测量得出的实际智力水平。
- C) 声称自己对自身能力充满信心。
- D) 给客观评定的表现打低分。

【答案】 D (细节题)

【判型】 What do Impostor Phenomenon sufferers often do according to psychologists from Martin Luther University Halle-Wittenberg? 问的是某研究发现中患者'经常做什么'，答案应出自研究结论句。

【拆句】 What do Impostor Phenomenon sufferers often do according to psychologists from Martin Luther University Halle-Wittenberg? 主干为 What do sufferers do, according to 引出信息来源，句子结构简单，无否定比较。

【定位】 people with a tendency to exhibit the Impostor Phenomenon devalue their objectively measured performance and attribute positive results to external causes such as luck and chance, but not to their own abilities.

有表现出冒名顶替现象倾向的人会贬低他们客观测得的表现，并把积极结果归因于运气等外部原因，而非他们自己的能力。

【选项】 A) 偷换概念

选项 Attribute their accomplishments to others 说患者把成就归因于'他人', 但原文 attribute positive results to external causes such as luck and chance 说的是'运气等外部原因', external causes 不等于 others。

B) 偷换概念

选项 Deny their actual measured intelligence 说患者否认实际测得的智力, 但原文 the self-reported degree of Impostor Phenomenon is not related to actual measured intelligence or performance 只是说两者无关, 并未说患者否认智力。

C) 与原文相反

选项 Claim to have confidence in their own abilities 说患者声称对自己能力有信心, 但原文明确说患者把成功归因于外部原因 'but not to their own abilities', 说明他们并不信任自己的能力。

D) ✓ 正确

devalue their objectively measured performance ↔

Mark down their objectively rated performance

Mark down their objectively rated performance 几乎是 devalue their objectively measured performance 的同义改写, 只是换了动词和形容词。

49. What happens when a person permanently underestimates their own abilities?

- A) They will focus their attention on external factors.
- B) They will be fearful of potential consequences.
- C) They will count on good fortune for success.
- D) They will keep improving their own skills.

当一个人长期低估自己的能力时, 会发生什么?

- A) 他们会把注意力集中在外部因素上。
- B) 他们会害怕可能产生的后果。
- C) 他们会依靠好运取得成功。
- D) 他们会不断提高自己的技能。

【答案】 B (细节题)

【判型】 What happens when a person permanently underestimates their own abilities? 询问某种情况下会发生什么, 答案在原文的条件-结果句中。

【拆句】 What happens when a person permanently underestimates their own abilities? 中 when 引导时间/条件状语从句, 主句省略了 happen 的实体主语, 整体为简单因果结构。

【定位】 A permanent underestimation of one's own abilities is often accompanied by the fear that this supposed intellectual deception will be exposed sooner or later and that they will pay the price for this.

长期低估自己的能力常常伴随着一种恐惧: 这种所谓的智力欺骗迟早会被揭穿, 并且他们会为此付出代价。

【选项】 A) 答非所问

选项 focus their attention on external factors 描述的是患者对成功的外部归因，属于第 46、48 题的内容，不是长期低估能力带来的结果。

B) ✓ 正确

the fear that this supposed intellectual deception will be exposed sooner or later and that they will pay the price for this

↔ be fearful of potential consequences

be fearful of potential consequences 把原文 '害怕欺骗被揭穿、害怕付出代价' 概括为 '害怕潜在后果'，符合同义概括的替换方式。

C) 过度推断

选项 count on good fortune for success 说患者 '指望' 好运获得成功，但原文只是说他们认为成功归因于好运，并非真的把成功寄托于好运。

D) 无中生有

选项 keep improving their own skills 在文中没有对应信息，属于用常识捏造的积极结果。

50. What did US psychologists Pauline Clance and Suzanne Imes say about Impostor Phenomenon sufferers?

- A) They are more liable to have depression.
- B) They seldom realise their potential fully.
- C) They will develop mental illnesses.
- D) They will pay higher prices one day.

美国心理学家 **Pauline Clance** 和 **Suzanne Imes** 对遭受冒名顶替现象困扰的人作何评价？

- A) 他们更容易患抑郁症。
- B) 他们很少能够充分发挥自己的潜力。
- C) 他们会患上精神疾病。
- D) 他们有一天会付出更高的代价。

【答案】 A (细节题)

【判型】 What did US psychologists Pauline Clance and Suzanne Imes say about Impostor Phenomenon sufferers? 问特定人物对患者的说法，属于对文中观点句的提取。

【拆句】 What did US psychologists Pauline Clance and Suzanne Imes say about Impostor Phenomenon sufferers? 是过去时特殊疑问句，say about 后接对象，结构简单；注意 did 提示事件发生在过去。

【定位】 However, people who suffer from it show a higher vulnerability to depression.

然而，患有冒名顶替现象的人表现出更高的抑郁易感性。

【选项】 A) ✓ 正确

people who suffer from it show a higher vulnerability to depression ↔

They are more liable to have depression

They are more liable to have depression 准确对应 people who suffer from it show a higher vulnerability to depression, 把'易感性高'换成'更容易患上'。

B) 过度推断

选项 They seldom realise their potential fully 说患者很少充分发挥潜力, 原文只提到他们低估自己和害怕被揭穿, 没有明确说他们潜力发挥不足。

C) 与原文相反

选项 They will develop mental illnesses 说患者会发展成精神疾病, 但原文 The Impostor Phenomenon is not defined as a mental illness 明确说它不是精神疾病。

D) 偷换概念

选项 They will pay higher prices one day 把原文 they will pay the price for this 中的 the price 改成了 higher prices, 添加了比较含义, 改变了原意。

Part III Section C (2)

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

Passage Two

Questions 51 to 55 are based on the following passage.

P1 Music is a universal language. In every culture and country, you will find music. It is vitally important across the globe and has the potential to bring people together in peace and harmony. One of my favorite experiences in music is seeing musicians from different cultures come together and perform as a group. When each culture brings its own unique qualities to the group, an entirely new sound is achieved. This can create extraordinary results. People can communicate with each other using music as the common language.

音乐是一种通用语言。在每一种文化和每一个国家中，你都能找到音乐。音乐在全球范围内都极其重要，并且有可能以和平与和谐将人们团结在一起。我在音乐方面最喜欢的经历之一，就是看到来自不同文化的音乐家聚在一起，以一个团体的形式进行演奏。当每种文化都为这个团体带来自身独特的特质时，便会产生一种全新的声音。这可以创造出非凡的成果。人们可以用音乐作为共同语言彼此交流。

P2 One common musical thread between cultures is known as the pentatonic scale. It is astonishing how many cultures share this tool in approaching music. The pentatonic scale consists of five notes; "penta-" meaning 5, and "tonic" meaning tone or note. This scale can be found in music everywhere including that of Native Americans, Africans, and Asians. It is also found in popular music, blues, jazz, and rock. Using this five-note scale, musicians from around the globe have a medium through which they can relate, communicate, perform, and ultimately understand each other.

不同文化之间一个共同的音乐纽带被称为五声音阶。令人惊叹的是，有如此多的文化都采用这一音乐工具。五声音阶由五个音组成；“penta-”意为“5”，“tonic”意为“音调”或“音符”。这种音阶遍布各地的音乐之

中，包括美洲原住民、非洲人和亚洲人的音乐。流行音乐、蓝调、爵士乐和摇滚乐中也能找到它。借助这一五声音阶，来自世界各地的音乐家拥有了一种媒介，使他们能够相互联系、交流、演奏，并最终彼此理解。

P3 Music is tied to specific perceptual(感知的), mental, and emotional faculties, including language (all societies put words to their songs), motor control (people in all societies dance), sound analysis (all musical systems have a distinct pitch and quality), and aesthetics(美感) (their tunes and rhythms are balanced between repetitiveness and chaos).

音乐与特定的感知、心理和情感能力密切相关，包括语言能力（所有社会都会为歌曲配上歌词）、运动控制能力（所有社会中的人都会跳舞）、声音分析能力（所有音乐体系都有独特的音高和音质）以及美感（它们的曲调和节奏在重复与混乱之间保持平衡）。

P4 There is no known society that existed without music. Although each culture has their own specific style and approach to music, you will find that the purposes behind music are very similar across the board. Music essentially serves to express or change emotions. It can cheer you up, sadden you, anger you or excite you. Music is often ceremonial: used in religion, ceremony, and celebration. Music can simply be recreational: entertaining, joyful and fun. Any way you have used music, it is almost certain that every other culture has used music in the very same way. And that is something that bonds all of us. We all share a deep love for music and it has the power to unite us.

没有已知的社会是在没有音乐的情况下存在的。尽管每种文化都有自己独特的音乐风格和处理方式，但你会发现，音乐背后的目的在各个文化中大同小异。音乐本质上是用来表达或改变情感的。它可以让你振奋、使你悲伤、让你愤怒或使你兴奋。音乐常常具有仪式性：用于宗教活动、仪式和庆祝活动。音乐也可以仅仅用于娱乐：带来消遣、欢乐和乐趣。无论你以何种方式使用音乐，几乎可以肯定，其他每种文化也都以完全相同的方式使用过音乐。而这正是将我们所有人联系在一起的事物。我们都对音乐怀有深厚的热爱，而音乐拥有将我们团结起来的力量。

题目与逐题解析

51. In what way is music important?

- A) It is able to create novel and extraordinary emotions.
- B) It has the power to unite people throughout the world.
- C) It allows different cultural groups to sing in harmony.
- D) It is the only language favored by all peoples of the world.

音乐在哪一方面很重要？

- A) 它能够创造新颖而非凡的情感。
- B) 它拥有将全世界的人们团结起来的力量。
- C) 它使不同的文化群体能够和谐地歌唱。
- D) 它是全世界所有民族唯一共同喜爱的语言。

【答案】 B （细节题）

【判型】 In what way is music important? 用 In what way 询问音乐重要性的具体表现，属于对文中具体信息的考查。

【拆句】 In what way is music important? 为简单疑问句，主干是 music is important, In what way 询问方式或方面，无否定、比较等陷阱。

【定位】 It is vitally important across the globe and has the potential to bring people together in peace and harmony.

音乐在全球范围内都极为重要，并且有可能将人们凝聚在一起，实现和平与和谐。

【选项】 A) 偷换概念

选项 It is able to create novel and extraordinary emotions 把原文 This can create extraordinary results 中的 extraordinary results 偷换为 extraordinary emotions，并新增 novel，改变了原文对象。

B) ✓ 正确

has the potential to bring people together ↔ has the power to unite people
across the globe ↔ throughout the world

原文说音乐有潜力将全球人民凝聚在和平与和谐中，It has the power to unite people throughout the world 用 power 替换 potential，unite 替换 bring together，throughout the world 替换 across the globe，整体语义完全一致。

C) 过度推断

原文 bring people together in peace and harmony 中的 harmony 是比喻性的和平和谐，选项 It allows different cultural groups to sing in harmony 把它具体化为 '唱歌和谐'，并添加 sing，属于过度具体化。

D) 过度推断

原文 Music is a universal language 只说音乐是通用语言，并未说它是 the only language favored by all peoples of the world，only 与 favored 均无出处。

52. Why does the author like to see musicians from different cultures perform together?

- A) Their musical experience can be compared.
- B) A novel language can be created.
- C) Their unique skills can be displayed.
- D) Fantastic results can be achieved.

作者为什么喜欢观看来自不同文化背景的音乐家一起表演？

- A) 他们的音乐经历可以进行比较。
- B) 可以创造出一种新的语言。
- C) 他们独特的技能可以得到展示。
- D) 可以取得奇妙的成果。

【答案】 D (细节题)

【判型】 Why does the author like to see musicians from different cultures perform together?
用 Why 询问作者喜欢某现象的原因，属于因果类细节题。

【拆句】 Why does the author like to see musicians from different cultures perform together?
为 why 引导的特殊疑问句，主干是 the author likes to see musicians perform together，无复杂从句。

【定位】 One of my favorite experiences in music is seeing musicians from different cultures come together and perform as a group. When each culture brings its own unique qualities to the group, an entirely new sound is achieved. This can create extraordinary results.

我在音乐中最喜欢的经历之一，就是看到来自不同文化的音乐家聚到一起、作为一个团体表演。当每种文化都为这个团体带来自己独特的特质时，一种全新的声音就产生了。这能创造出非凡的成果。

【选项】 A) 无中生有

选项 Their musical experience can be compared 提出 '比较经历'，但原文 P1 只描述作者喜欢观看这种表演，未涉及比较。

B) 偷换概念

原文 an entirely new sound is achieved 说的是产生全新声音，选项 A novel language can be created 把 sound 偷换为 language。

C) 偷换概念

原文 each culture brings its own unique qualities to the group 强调文化特质被带入团体以创造新声音，选项 Their unique skills can be displayed 把 qualities 窄化为 skills，并把 brings 改为 displayed，重心从 '共同创造' 偏移为 '展示个人技能'。

D) ✓ 正确

This can create extraordinary results. ↔ **Fantastic results can be achieved.**

an entirely new sound is achieved ↔ **Fantastic results can be achieved.**

作者喜欢跨文化合作的原因在 This can create extraordinary results, Fantastic results can be achieved 用被动语态和 fantastic 同义改写 create extraordinary results，准确回答原因。

53. What does the passage say about the pentatonic scale?

- A) It is present in music all around the world.
- B) It is helpful to understanding music.
- C) It is the basis for musicians' creation.
- D) It is a medium for ordinary people to relate.

文章对五声音阶作了怎样的说明？

- A) 它存在于世界各地的音乐中。 B) 它有助于理解音乐。 C) 它是音乐家创作的基础。
- D) 它是普通人与之建立联系的一种媒介。

【答案】 A (细节题)

【判型】 What does the passage say about the pentatonic scale? 直接问文中关于某对象的具体说法，属于典型细节题。

【拆句】 What does the passage say about the pentatonic scale? 为 what 引导的特殊疑问句，about 的宾语 pentatonic scale 是定位核心，结构简单。

【定位】 This scale can be found in music everywhere including that of Native Americans, Africans, and Asians. It is also found in popular music, blues, jazz, and rock.

这种音阶可以在世界各地的音乐中找到，包括美洲原住民、非洲人和亚洲人的音乐。它也存在于流行音乐、蓝调、爵士乐和摇滚乐中。

【选项】 A) ✓ 正确

This scale can be found in music everywhere ↔ **It is present in music all around the world.** including that of Native Americans, Africans, and Asians ↔

It is present in music all around the world.

原文 This scale can be found in music everywhere 与 It is present in music all around the world 语义完全等值，仅表达方式不同。

B) 过度推断

原文 musicians from around the globe have a medium through which they can relate, communicate, perform, and ultimately understand each other 说的是音乐家相互理解，选项 It is helpful to understanding music 把对象扩大为 '理解音乐'，范围过宽。

C) 过度推断

原文 a medium through which they can relate 说五声音阶是交流的媒介，选项 It is the basis for musicians' creation 把 medium 提升为 basis for creation，夸大了其地位。

D) 偷换概念

原文 musicians from around the globe have a medium through which they can relate 的主体是 musicians，选项 It is a medium for ordinary people to relate 把主体换成 ordinary people。

54. What is the fundamental role of music in people's life?

- A) To bring them together.
- B) To show their identity.
- C) To express their emotions.
- D) To keep them entertained.

音乐在人们生活中的根本作用是什么？

A) 将人们团结在一起。 B) 展示他们的身份。 C) 表达他们的情感。 D) 使他们保持愉悦。

【答案】 C (细节题)

【判型】 What is the fundamental role of music in people's life? 用 What is the ... role 询问音乐的根本作用，属于细节题。

【拆句】 What is the fundamental role of music in people's life? 为 what 引导的特殊疑问句，of music in people's life 是后置定语，修饰 role，结构平铺直叙。

【定位】 Music essentially serves to express or change emotions.

音乐本质上用于表达或改变情绪。

【选项】 A) 答非所问

原文 has the potential to bring people together 与 it has the power to unite us 确实是音乐的作用，但题干问的是 fundamental role，答案应是 essentially serves to express or change emotions，A 项答非所问。

B) 无中生有

选项 To show their identity 提出 '展示身份'，但原文从未提到 identity 或相关概念。

C) ✓ 正确

Music essentially serves to express or change emotions ↔ **To express their emotions.**

原文 Music essentially serves to express or change emotions 中，express or change emotions 是音乐的本质功能，To express their emotions 提取了其中 express emotions 这一核心，对应 fundamental role。

D) 以偏概全

原文 Music can simply be recreational: entertaining, joyful and fun 提到娱乐是音乐的用途之一，但选项 To keep them entertained 把它提升为根本作用，忽略了 express or change emotions 的核心地位。

55. In what aspect is music similar throughout the world?

- A) The way people respond to it.
- B) The role it plays in society.
- C) The joy it brings to people.
- D) The way it is made use of.

世界各地的音乐在哪一方面相似？

- A) 人们对它作出反应的方式。 B) 它在社会中所发挥的作用。 C) 它带给人们的快乐。
D) 人们利用它的方式。

【答案】 D (细节题)

【判型】 In what aspect is music similar throughout the world? 用 In what aspect 询问全球音乐相似的具体方面，属于细节题。

【拆句】 In what aspect is music similar throughout the world? 为 in what aspect 引导的特殊疑问句，主干是 music is similar, throughout the world 限定范围，无复杂结构。

【定位】 Although each culture has their own specific style and approach to music, you will find that the purposes behind music are very similar across the board. Any way you have used music, it is almost certain that every other culture has used music in the very same way.

尽管每种文化都有自己独特的音乐风格和处理方式，但你会发现音乐背后的目的总体上是十分相似的。你使用音乐的任何方式，几乎可以肯定其他文化也以完全相同的方式使用过音乐。

【选项】 A) 偷换概念

原文 every other culture has used music in the very same way 说的是 '使用' 音乐的方式相同, 选项 The way people respond to it 把它改为 '回应' 音乐的方式, 动作性质改变。

B) 以偏概全

原文 the purposes behind music are very similar across the board 强调使用目的/方式相似, 选项 The role it plays in society 把它扩大为 '社会角色', 范围过宽且未突出 '方式'。

C) 以偏概全

原文 Music can simply be recreational: entertaining, joyful and fun 提到 joy 是娱乐用途的一部分, 选项 The joy it brings to people 把它提升为音乐全球相似性的方面, 范围过窄。

D) ✓ 正确

the purposes behind music are very similar across the board ↔ **The way it is made use of.**

every other culture has used music in the very same way ↔ **The way it is made use of.**

原文指出不同文化音乐的目的和使用方式非常相似, The way it is made use of 准确概括了 purposes behind music 与 used music in the same way 两者。

It is astonishing how many cultures share this tool in approaching music.

第2段, 第2句

"It + be + 形容词 + how/that/wh-从句"是各类英语考试中高频出现的标准句型, 具备极高的学习与迁移价值。

Using this five-note scale, musicians from around the globe have a medium through which they can relate, communicate, perform, and ultimately understand each other.

第2段, 第6句

句首分词状语配合 "介词 + 关系代词" 引导定语从句是四六级与考研阅读中的高频典型句式, 具有极高的迁移复用价值。

Music is tied to specific perceptual(感知的), mental, and emotional faculties, including language (all societies put words to their songs), motor control (people in all societies dance), sound analysis (all musical systems have a distinct pitch and quality), and aesthetics(美感) (their tunes and rhythms are balanced between repetitiveness and chaos).

第3段，第1句

“主句总述 + 举例列表 + 括号补充细节”是学术英语和四六级、考研阅读中高频出现的典型说明文句式，具有极高的解构与迁移训练价值。

There is no known society that existed without music.

第4段，第1句

“There is no + 名词 + that从句”是英语中极具代表性的双重否定与全盘肯定常考句式，在四六级与考研阅读中出现频率极高，掌握后复用价值大。

Although each culture has their own specific style and approach to music, you will find that the purposes behind music are very similar across the board.

第4段，第2句

句式采用了考试真题中极常见的 “Although..., you will find that...” 让步对比逻辑架构，具有极高的迁移复用价值。

Any way you have used music, it is almost certain that every other culture has used music in the very same way.

第4段，第7句

“It is + 形容词 + that 从句” 是四六级与考研写作及阅读中极高频出现的核心句型，具备极高的学习与迁移价值。

Part IV

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分，蕴含着热情有礼的待客之道。为了招待客人，主人会根据客人的口味和喜好准备丰富精致的菜肴。就餐座位的安排非常讲究，主人坐在正对大门的位置，在主人身边就座的是最重要的客人。进餐时，主人会不时地为客人添酒加菜。这种独特的餐桌礼仪已延续了数千年，对促进和谐的人际交往起到了重要的作用。

参考译文

整篇参考英译是复盘资产，考卷上只印中文原文——四六级 Part IV 翻译按整篇「表达通顺连贯、用词准确、语法正确」四档评分。

Dining etiquette is an important part of traditional Chinese culture, embodying the warm and courteous way of treating guests. To entertain guests, the host prepares rich and exquisite dishes according to their tastes and preferences. The seating arrangement is very particular: the host sits in the seat directly facing the gate, while the most important guest sits beside him. During the meal, he refills wine and adds more dishes for the guests from time to time. This unique dining etiquette has lasted for thousands of years and has played an important role in promoting harmonious interpersonal relationships.

【衔接】句1→句2：结论词在下句开头重现，总分自然衔接

句1末尾落在 待客之道 (the way of treating guests)，句2开头 为了招待客人 译 To entertain guests，恰好呼应上句的 guests 与待客之意，形成「总说礼仪内涵→分说如何待客」的总分衔接，无需另加关联词；翻译时有意让下句开头呼应上句结尾，连贯度立刻提升。

句2→句3→句4：the host 三连，末处换 he 承接

主人会根据客人的口味和喜好准备、主人坐在正对大门的位置、主人会不时地为客人添酒加菜 三句主语都是「主人」。句2、句3保留 the host (句3要与 the most important guest 对举，保留名词更清楚，句3内部已用 beside the host)，句4译文中换 he 承接 (During the meal, he refills...)，避免同一名词三遍机械重复；换代词前确认上一句主语正是 the host，指代才无歧义。

句4→句5：This 收束上文，开启总结

句5 这种独特的餐桌礼仪已延续了数千年的「这种」指代上文全部待客做法，英文 This unique dining etiquette 天然承接全篇并开启总结升华；此处不必加 In short 之类总结词，this 的指代本身就是衔接。

逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

【主旨】中华餐桌礼仪的文化介绍

这段文字整体介绍中华传统餐桌礼仪的内涵与具体做法，属客观介绍类语体：开篇 餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分 是下定义式判断句，中间几句逐一说明待客的具体做法，结尾 这种独特的餐桌礼仪已延续了数千年 给出历史纵深并作总结。全篇讲的是一种至今仍通行的习俗，用词应平实规范，不口语化。

【时态】一般现在时

通篇介绍一种当下仍然通行的习俗与一贯做法：主人会根据客人的口味和喜好准备丰富精致的菜肴与 主人会不时地为客人添酒加菜 中的「会」都表示惯例而非将来动作，故全篇主体用一般现在时；仅末句 已延续了数千年 因动作从过去持续至今，改用现在完成时，这是有依据的偏离而非时态飘忽。

【译法】餐桌礼仪

原文已随文给出官方译法 dining etiquette (餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分)，全篇统一用它，不要另造 table manners 等第二种译法；这种「随文括号注」型文化词直接照搬最稳，末句 这种独特的餐桌礼仪已延续了数千年 复现时仍用 dining etiquette。

中华文化

统一译作 traditional Chinese culture (中华优秀传统文化的重要组成部分)。「中华」用 Chinese 即可，不必译成 China's；这是四六级文化类翻译的约定俗成译法，全篇只此一处也不改。

待客之道

统一译作 the way of treating guests (蕴含着热情有礼的待客之道)。「之道」译 the way of doing sth 是意译的稳妥套路；「热情有礼」作定语并入，译 the warm and courteous way of treating guests。全篇 为了招待客人、为客人添酒加菜 中的「客人」一律用 guests，前后呼应统一。

1. 餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分，蕴含着热情有礼的待客之道。

【主干】 主干：Dining etiquette is an important part (主语策略：原句主语)

餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分 是典型的「是」字判断句，中文主语「餐桌礼仪」明确，直接译作 Dining etiquette 作主语，谓语用 is，宾语「的重要组成部分」译 an important part of traditional Chinese culture。后半句「蕴含着...待客之道」是第二个动词，先不抢谓语位置，留到降级处理。

【降级】 「蕴含」降级为现在分词 embodying

蕴含着热情有礼的待客之道 是对前半句的补充说明，逻辑主语仍是餐桌礼仪，故译成现在分词短语 embodying the warm and courteous way of treating guests，用逗号挂在主干后作伴随补充；「热情有礼」译定语 warm and courteous 修饰「待客之道」。这比 and embodies 更紧凑，也比硬拆成两句更连贯。

【语法】 时态

回指全篇基调：介绍文化事实的客观判断句，is 用一般现在时，embodying 为分词不随时态变化；依据见 餐桌礼仪 (dining etiquette) 是中华优秀传统文化的重要组成部分。

冠词

「的重要组成部分」是可数单数，译 an important part，important 以元音开头，不定冠词用 an 不用 a；漏冠词是主体考生最高频的扣分点之一。

主谓一致

主语 Dining etiquette 是单数概念，谓语用 is 不用 are；embodying 不受人称影响，无需纠结变形。

【译文】 Dining etiquette is an important part of traditional Chinese culture, embodying the warm and courteous way of treating guests.

2. 为了招待客人，主人会根据客人的口味和喜好准备丰富精致的菜肴。

【主干】 主干：the host prepares dishes (主语策略：原句主语)

主人会根据客人的口味和喜好准备丰富精致的菜肴 的核心动词是「准备」，发出者是「主人」，译 the host (泛指任何请客的主人，用 the 加单数表一类人)，谓语 prepares，宾语「菜肴」译 dishes。「为了招待客人」与「根据客人的口味和喜好」都是修饰成分，不入主干。

【降级】 目的前置句首，依据后置句尾

为了招待客人 表目的，译不定式 To entertain guests 放句首；根据客人的口味和喜好 表依据，译介词短语 according to their tastes and preferences 放句尾；「丰富精致的」两个形容词直接前置修饰 dishes: rich and exquisite dishes。整句形成「目的状语 + 主谓宾 + 依据状语」的英文序，而不是照中文语序平铺。

【语法】时态

「会」在此表一贯做法而非将来，回指全篇基调用一般现在时 prepares，不译 will prepare；判断标准：去掉「会」句子仍成立且讲的是惯例→一般现在时。见 主人会根据客人的口味和喜好准备丰富精致的菜肴。

单复数

「客人」泛指多位，用复数 guests；「口味和喜好」两样并列，tastes and preferences 都用复数；dishes 用复数表多道菜。

类指表达

「主人」指任何请客的主人这一类人，英文用 the 加单数 the host 表类指；句中 their 指代 guests，别与 the host 混。

【译文】 To entertain guests, the host prepares rich and exquisite dishes according to their tastes and preferences.

3. 就餐座位的安排非常讲究，主人坐在正对大门的位置，在主人身边就座的是最重要的客人。

【主干】 主干：The seating arrangement is very particular（主语策略：原句主语）

第一小句 就餐座位的安排非常讲究 自带主语「安排」，译 The seating arrangement，「讲究」是形容词性谓语，译 is very particular。后两小句是对「讲究」的具体分说；其中 在主人身边就座的是最重要的客人 是倒装句，须先还原成正装「最重要的客人在主人身边就座」，主语是 the most important guest，谓语 sits。

【降级】 一句总起，冒号引出两句分说

三个小句是「总说讲究+两句分说如何讲究」的关系。总起句 The seating arrangement is very particular 后用冒号引出分说：主人坐在正对大门的位置 译 the host sits in the seat directly facing the gate，「正对大门的」译 directly facing the gate 作 the seat 的后置定语；在主人身边就座的是最重要的客人 还原后译 the most important guest sits beside the host，两句分说用 while 连接显出主人与客人的对照。

【语法】时态

回指基调：描述座位安排的一贯规矩，sits 用一般现在时，见 主人坐在正对大门的位置。

冠词与最高级

「最重要的客人」是最高级，英文必须 the most important guest，the 不可省；「大门」特指宴请场地的大门，用 the gate（中式宅院大门用 gate 比 door 贴切）。

单复数

「就餐座位的安排」译 the seating arrangement，seating 为动名词不可数；guest 此处指「最重要的那一位」，用单数，与句2的 guests 不冲突。

【译文】 The seating arrangement is very particular: the host sits in the seat directly facing the gate, while the most important guest sits beside the host.

4. 进餐时，主人会不时地为客人添酒加菜。

【主干】 主干：the host refills wine and adds dishes (主语策略：原句主语)

主人会不时地为客人添酒加菜 主语「主人」沿用 the host; 「添酒加菜」是四字格，实含两个动作，拆成并列谓语 refills wine and adds dishes (为客人续酒、添菜)。「进餐时」「不时地」「为客人」都是状语，不入主干。

【降级】 三个状语各归其位

进餐时 译 During the meal 放句首点明场景; 「不时地」译固定短语 from time to time 放句尾; 「为客人」译 for the guests 紧跟谓语后。整句为「时间状语 + 主谓宾 + 对象 + 频度状语」的英文语序，不把三个状语都堆在动词前 (那是中文语序)。

【语法】 时态

「会」表习惯做法，回指基调用一般现在时，与第2句的「会」同样处理; 见 主人会不时地为客人添酒加菜。

主谓一致

主语 the host 是第三人称单数，refills 与 adds 都要加 s; 并列谓语两个动词都要随主语变形，漏掉第二个 s 是高频失误。

短语搭配

「不时地」固定译 from time to time (time 前无冠词，也不用复数 times); 「进餐时」用 During the meal 而非 In the meal, 介词 during 表「在...期间」。

【译文】 During the meal, the host refills wine and adds more dishes for the guests from time to time.

5. 这种独特的餐桌礼仪已延续了数千年，对促进和谐的人际交往起到了重要的作用。

【主干】 主干：This unique dining etiquette has lasted (主语策略：原句主语)

这种独特的餐桌礼仪已延续了数千年 主语「这种独特的餐桌礼仪」译 This unique dining etiquette (This 承接上文，兼作衔接手段)，核心动词「延续」译 has lasted。「对促进和谐的人际交往起到了重要的作用」是第二个谓语性成分，作并列谓语处理。

【降级】 「起到重要作用」作并列谓语 play a role in doing

对促进和谐的人际交往起到了重要的作用 与「延续」共用主语，译成并列谓语 and has played an important role in promoting harmonious interpersonal relationships: 「对...起到重要作用」用固定句型 play an important role in doing sth, 「促进」降级为 in 后的动名词 promoting, 「和谐的人际交往」译 harmonious interpersonal relationships 作 promoting 的宾语。两个谓语共享主语，不硬拆两句。

【语法】 时态

「已延续了数千年」动作从过去持续至今，用现在完成时 has lasted，配 for thousands of years；这是对全篇一般现在时基调的合理偏离，依据就是原文 已延续了数千年的「已」与「了」。

介词搭配

play a role in 的 in 是介词，后接 promoting 不用 promote；thousands of 表概数必须用复数 thousands 加 of（不说 thousand of）。

单复数与冠词

role 是可数单数，play an important role 的 an 不可漏（important 元音开头）；「人际交往」译 relationships 用复数表泛指各类人际往来。

【译文】 This unique dining etiquette has lasted for thousands of years and has played an important role in promoting harmonious interpersonal relationships.
