#### Section A

**Directions:** In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Junk-food lovers who try to cut back on fries or chocolate may experience symptoms similar to drug withdrawal, a new study suggests.

Researchers found that people attempting to cut down on eating highly processed foods experience some of the same 26 and psychological symptoms—such as mood swings, anxiety, headaches and poor sleep—as those 27 smoking cigarettes or using drugs, according to the study.

The new study 28 the first evidence that these withdrawal-like symptoms can occur when people cut down on highly processed foods, said lead study author Erica Schulte.

Based on the participants' self-reported symptoms, withdrawal symptoms were 29 more intense between the second and fifth days after attempting to reduce junk-food consumption, which 30 the time span people live through during drug withdrawal.

The idea that food may be addictive after "heavy" use by some individuals is a 31 subject, Schulte said. Although prior studies in animals and humans have shown some biological and behavioral similarities between substance-use disorders and addictive-like consumption of highly processed foods, no studies have looked at whether reducing junk food can 32 withdrawal symptoms in people, she noted. Raising

33 that people may experience irritability(烦躁) or headaches when cutting down on junk food can help individuals 34 coping strategies in advance, Schulte noted. The findings may also 35 light on the barriers people face when changing eating habits—barriers that may play a role in people dropping out of treatments, she said.

### Giving a better phone interview

- A) These days, phone interviews are an unavoidable part of the job interview process, and for good reason: They save time and effort. But that doesn't mean that phone calls require zero energy on the part of the candidate. Many companies treat phone screening as the official first round of the hiring process. That means candidates are expected to go into them prepared with as much information as possible about the company, position, and their own skills and strengths.
- B) A big mistake people often make is talking about their personal lives. Don't talk about your personal life unless you're directly asked a question about what you like to do in your off-hours. "The point of a phone interview is to focus on getting to know a candidate's professional experience and goals," says McKenzie Roark, campus talent specialist at Lithko Contracting. "A recruiter is trying to see if they are the best fit for a role, and learning about their personal life doesn't help. For example, when asked where you see yourself in five years, we don't want to know that you hope to be married or that you want to buy a new house. That is nice, but that isn't relative to anything professional."
- C) It might be tempting to cross something off your to-do list while on a phone interview, but recruiters and hiring managers can easily tell if your attention is elsewhere. Many interviewers are annoyed to see people who decide to multitask while on the phone interview. There are candidates who wash dishes, go for walks, or do grocery shopping during the interview. Needless to say, this doesn't reflect well on your level of interest in the position you're interviewing for.
- D) The question regarding pay is also best avoided. To be frank, it's simply too early in the process for you to be the one who brings up salary expectations. "Chances are if a candidate is participating in a phone interview, this is the first time they have talked with the company, and the first call isn't the appropriate time to talk about 'what's in it for you,'" says Justina Strnad, the Talent Acquisition Manager for Shiftgig. "Trust

me, if you are a great candidate and make it to the next step, the hiring team is going to be very transparent about what's in it for you later on."

- E) "After wrapping up a phone interview, it is typical that the interviewer will ask the candidate if they have any questions. I can't stress this enough: ALWAYS ask questions," says Roark. "If we have had a great phone interview and then we wrap up and they don't have any questions for me, it pretty much ruins the whole interview. It tells me that the candidate is uninterested in the role, which in reality might not be the case at all," she notes. But surely, if you're interested in a job, you can think of something to ask your interviewer.
- F) It seems basic, but surprisingly, a lot of people are late to phone interviews. "About a quarter of the people with whom I schedule phone interviews aren't on time," says Sophie Cikovsky, who handles U.S. recruiting for Infinite Global. "While this bothers me personally, it's also indicative of someone who isn't very detail-oriented," she explains. "In order to identify this early in the hiring process, I started asking all candidates a few years ago to call me as opposed to calling them at an agreed-upon time. That way, if I hear from them at 1:13 p.m. or 12:49 p.m. instead of our planned 1:00 p.m. interview time, I have an early indicator that they might not be a great fit."
- G) "Make sure you test your headset and connection before dialing in," recommends Roark. "There is nothing more frustrating for a recruiter who has a structured interview guide in place having to repeatedly ask the same question over and over because they could not understand your answer due to dropped signals." Test-call a friend beforehand, or even call yourself from a landline if necessary; it will take less than a minute.
- H) You might be eager to get your point across or talk about your experience, but interrupting the interviewer is awkward and rude. "Interviewing can be stressful, and sometimes that stress manifests itself in speaking too fast, speaking too loud, talking over the interviewer, or attempting to answer the interviewer's question before they have actually finished asking the question," says Chris Dardis, a recruiting expert. "Don't do this." There's a big difference between being assertive(自信的) and being aggressive, and interviewers can always recognize it.
- I) It's tough not to say things like "um," "uh," and "like" in everyday speech, but these verbal habits become much more pronounced when speaking on the phone, says Dardis. "In face-to-face interviews, they're not as noticeable, because there are other things like your hair, suit, or body language to distract people." But in a phone interview, the only thing you have to go on is what you say and how you say it. "That's why it's so important to eliminate these words from your speech when doing a phone interview."
- J) Not knowing anything about the company or job you're interviewing for is way more obvious than you'd think. "Many people think that they don't have to put as much effort into researching the role or the company," says Steve Pritchard, an HR consultant. And if you have your laptop in front of you during the interview to do a few quick searches, they won't know the difference, right? Not exactly. "Seasoned interviewers will know whether an interviewee is researching while on the phone. The interviewer can often even hear the typing as they ask the question," he adds.
- K) "The key to success during a phone interview is clear and concise answers," says Dardis. "People's attention spans tend to be shorter over the phone. You don't want your future employer to lose interest in the conversation." He recommends practicing answers to questions you know will be asked ahead of time in order to be clear on what you're going to say. That way, you can prevent talking in an aimless manner.

36. Interviewees are advised not to ask questions about pay during a phone interview.

37. Experienced interviewers will know if an applicant is searching for information online while talking on the phone.
38. Many employers regard the phone interview as the first step of the official recruiting process.
39. Applicants who don't ask questions at the end of an interview most probably ruin their chance of getting the position.
40. The interviewee should test their phone connection before they call the interviewer.
41. It is annoying to the interviewer to find the applicant doing other tasks while being interviewed.
42. To pass a phone interview, the most important thing is to answer questions clearly and concisely.
43. If you fail to call the interviewer on time, they might not see you as a suitable candidate.
44. Applicants should avoid talking about their personal lives if the interviewer has only asked about their professional background and goals.
45. It is impolite for an interviewee to interrupt the interviewer in the phone conversation.

## Section C

**Directions:** *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

### Passage One

**Questions 46 to 50 are based on the following passage.**

Disgust is a universal human emotion. One type of disgust is called physical disgust, which protects us from eating or touching things that could be dangerous for us, such as raw meat or insects. Children experience physical disgust from a very early age, but do not achieve an understanding of the concept until they are around four years old.

Some researchers maintain that there is another type of disgust, called moral disgust, that protects us from engaging in activities that can be perceived as morally wrong. Examples of moral disgust are stealing, lying or cheating.

However, not all academics think that moral disgust really exists. Some say that when we refer to disgust in relation to moral issues, we are using disgust as a metaphor(隐喻), and what we are feeling is in reality anger.

If moral disgust appears quite late in development, it makes sense to think that there is actually a social component to it. Children learn about emotions in many different ways. Of special relevance are parents-children conversations about emotions. Indeed, children whose parents talk about emotions often have a better emotional understanding than children whose parents do not discuss emotions often.

However, there are no studies that have examined how parents and children talk about disgust. This is what we set up to examine in our study.

We asked 68 English-speaking mothers and their four-, six- or eight-year-old children to discuss some stories about moral and physical disgust. Our preliminary findings show mothers and children do talk about disgust, but mainly about physical disgust and not so much about moral disgust.

When we asked mothers and children to discuss moral issues, such as whether it is OK to play with a child who has stolen someone else's snack, they linked this type of moral wrongdoing with the emotion of anger and not disgust.

Does this mean that moral disgust does not exist? Some researchers suggest moral disgust exists in adults. Our findings suggest that moral disgust is either understood at a later age or is only used metaphorically, if at all, in children as old as eight years.

46. What does the passage tell us about physical disgust?
- A) It is an emotion as contrasted with thoughts.
  - B) It is a concept beyond children's understanding.
  - C) It is a mechanism to keep us from being harmed.
  - D) It is an experience gained from any form of danger.
47. How do some researchers perceive moral disgust?
- A) It tends to appear in various forms of wrongdoing.
  - B) It is just as annoying to people as physical disgust.
  - C) It is a term used by common folk to describe anger.
  - D) It stops people from doing anything morally wrong.
48. Why does moral disgust appear quite late in children's development?
- A) It needs to be learnt through social interactions.
  - B) They have little control over its learning process.
  - C) It is too complex for them to acquire.
  - D) Their parents seldom talk about emotions.
49. What did the author and his colleagues want to examine in their experiment?
- A) What parents tell children against moral wrongdoing.
  - B) What parents and children link moral wrongdoing to.
  - C) How moral disgust is seen by children aged 4, 6 and 8.
  - D) How disgust is discussed between parents and children.
50. What can we infer about moral disgust from the author and his colleagues' findings?
- A) It is a notion hardly comprehensible to children.
  - B) It rarely exists in children younger than eight.
  - C) It is a term most parents use when talking to children.
  - D) It exists in adults with a strong sense of justice.

## Passage Two

Questions 51 to 55 are based on the following passage.

After finding out details about a stranger, we mistakenly think that they also know about us. As a result, we act more honestly around them, according to a recent study in *Nature*.

Past research has found that we tend to assume social relationships are reciprocal(相互的). Most of the time, this assumption is accurate: someone you think of as a friend will usually consider you a friend too. But

sometimes our social ties are more one-sided: for example, you might learn something about a stranger who doesn't know you at all. Researchers Anuj Shah and Michael LaForest wondered whether our tendency to believe that social ties are reciprocal could lead us to mistakenly feel that a stranger does actually know us.

In a series of lab-based studies, this is exactly what the researchers found. When we know about strangers, we erroneously think they also know about us. But the really interesting finding came when the researchers stepped out of the lab, to conduct a field experiment. The team developed leaflets(传单) containing fairly ordinary information about local community police officers, such as their favourite food, hobbies, or reasons for joining the police force. They then sent out these leaflets to every apartment in a number of housing developments in disadvantaged areas. The officers themselves also dropped off cards to local residents containing similar information.

Two months later, the researchers surveyed residents at these housing developments as well as control areas that did not receive leaflets or outreach cards. Residents were asked to imagine that they had committed a crime and how likely it would be that local officers would find out about it. They also rated how well the officers in the area knew them.

The team found that residents of the developments that had received the leaflets believed it more likely that local officers would find out about illegal activity than residents of the control areas. Even more strikingly, the team found that immediately after the leaflet distribution, there were fewer criminal complaints and arrests in the areas around the developments that had received the leaflets than around the control developments.

51. What is the finding of a recent study in Nature?

- A) People are more honest with those who know them than with total strangers.
- B) People we want to have detailed information about are keen to know about us.
- C) People who get to know about a person wrongly assume the person knows them too.
- D) People who are familiar with each other tend to behave honestly in their everyday dealings.

52. What does the passage say about the assumption that social relationships are reciprocal?

- A) It is more the exception than the rule.
- B) It does not hold true in every situation.
- C) It does not apply to complex relationships.
- D) It is more accurate in one-sided social ties.

53. What did Anuj Shah and Michael LaForest want to find out about the belief that social relationships are reciprocal?

- A) Whether it may resolve misunderstandings about social ties.
- B) Whether it could help develop one's relationships with strangers.
- C) Whether it could help strengthen interpersonal relationships.
- D) Whether it may lead to false assumptions about a stranger.

54. When did Anuj Shah and Michael LaForest find something really interesting in their research?

- A) During lab-based studies.
- B) During a field experiment.
- C) While investigating local residents' crime.
- D) While talking to police officers nearby.

55. What happened in the areas around the housing developments subjected to the studies?

- A) They saw fewer crimes than the control developments.
- B) They witnessed a swifter elimination of illegal activities.
- C) Local police responded more quickly to criminal complaints than before.
- D) Local police related better to residents there than to those in other areas.

## Part IV

## Translation

(30 minutes)

**Directions:** *For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.*

在中国传统文化中，亲朋好友之间互赠礼物是人际交往的一种重要礼节 (etiquette)。赠送礼物不仅是物质的馈赠，更是情感的表达，是维系人际关系的重要纽带。一份精心挑选、符合接受者喜好的礼物，往往能加深彼此的感情。中国人遵循"礼尚往来" (mutually exchanging courtesies)的传统，接受礼物时会表达谢意，并适时回赠礼物，以增进彼此的融洽关系。

Part I

**Directions:** Suppose you are invited to put forward a proposal to the university on how to make students' campus life easier. You are now to write an essay to make your proposal. You will have 30 minutes to write the essay. You should write at least 120 words but not more than 180 words.

【参考范文·121 词】 写作无唯一标准答案，以下为达标示范

I am honored to submit a proposal on how to make students' campus life easier. As daily routines grow more demanding, small improvements in campus services can save students considerable time and energy.

First, the university could develop a one-stop mobile app that integrates course schedules, room bookings, and exam arrangements. This would spare students the trouble of switching between multiple platforms. Second, extending library opening hours and adding more self-study spaces during examination periods would reduce overcrowding. Third, improving shuttle-bus frequency between teaching buildings and dormitories would make commuting less stressful.

These practical measures, if implemented, would significantly ease students' daily pressures. I sincerely hope the university will consider this proposal and take steps toward a more convenient campus life.

Part III Section A

**Directions:** In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on **Answer Sheet 2** with a single line through the centre. You may not use any of the words in the bank more than once.

Junk-food lovers who try to cut back on fries or chocolate may experience symptoms similar to drug withdrawal, a new study suggests.

一项新研究表明，试图少吃薯条或巧克力的垃圾食品爱好者可能会出现类似于药物戒断的症状。

Researchers found that people attempting to cut down on eating highly processed foods experience some of the same 26 and psychological symptoms—such as mood swings, anxiety, headaches and poor sleep—as those 27 smoking cigarettes or using drugs, according to the study.

据该研究称，研究人员发现，试图减少高度加工食品摄入的人，会经历一些与戒烟或戒毒者相同的生理和心理症状，例如情绪波动、焦虑、头痛和睡眠不佳。

The new study 28 the first evidence that these withdrawal-like symptoms can occur when people cut down on highly processed foods, said lead study author Erica Schulte.

该研究的主要作者埃里卡·舒尔特表示，这项新研究首次证明，当人们减少摄入高度加工食品时，可能会出现类似戒断的症状。

Based on the participants' self-reported symptoms, withdrawal symptoms were 29 more intense between the second and fifth days after attempting to reduce junk-food consumption, which 30 the time span people live through during drug withdrawal.

根据参与者自述的症状，在尝试减少垃圾食品摄入后的第二天至第五天之间，戒断症状明显更为强烈，这与人们经历药物戒断时所持续的时间跨度相近。

The idea that food may be addictive after "heavy" use by some individuals is a 31 subject, Schulte said. Although prior studies in animals and humans have shown some biological and behavioral

similarities between substance-use disorders and addictive-like consumption of highly processed foods, no studies have looked at whether reducing junk food can 32 withdrawal symptoms in people, she noted. Raising 33 that people may experience irritability(烦躁) or headaches when cutting down on junk food can help individuals 34 coping strategies in advance, Schulte noted. The findings may also 35 light on the barriers people face when changing eating habits—barriers that may play a role in people dropping out of treatments, she said.

舒尔特说，某些人“大量”食用食物后可能对其产生依赖，这一观点颇具争议。她指出，尽管此前针对动物和人类的研究已经显示，物质使用障碍与对高度加工食品的成瘾样摄入之间存在一些生物学和行为上的相似之处，但还没有研究考察过减少垃圾食品摄入是否会在人身上引发戒断症状。舒尔特指出，提高人们对减少垃圾食品摄入时可能出现烦躁或头痛的认识，有助于个人提前制定应对策略。她说，这些发现还有助于揭示人们在改变饮食习惯时所面临的障碍，而这些障碍可能会导致人们中途退出治疗。

26. experience some of the same (26) and psychological symptoms

【答案】 **I) physical** 形容词

【词性槽】 与 psychological 并列修饰 symptoms，需形容词

【依据】 **physical 与 psychological 构成「身与心」对举**

physical (身体的) 与 psychological symptoms (心理症状) 正是「身心」对举；且空后例证 such as mood swings, anxiety, headaches and poor sleep 中的 headaches, poor sleep 就是身体症状，例证直接印证答案。

【竞争词】 **C) controversial 评价性形容词与 psychological 不在同一维度**

controversial (有争议的) 是对事物的评价，与 psychological 不在同一分类维度，无法并列修饰 symptoms；它真正对应的是 (31) 的 a (31) subject。

**E) monstrous 「骇人的」色彩过强、原文无依据**

monstrous (巨大的/骇人的) 程度与感情色彩都过重，原文只是客观描述症状，没有任何「骇人」的依据。

27. as those \_\_(27)\_\_ smoking cigarettes or using drugs

【答案】 **L) quitting** (动词)

【词性槽】 those 的后置定语，与 using 并列的现在分词

【依据】 **quit smoking 戒烟，固定搭配**

quitting 与空前 smoking cigarettes 构成 quit smoking (戒烟) 这一近乎绑死的搭配：those \_\_(27)\_\_ smoking cigarettes or using drugs 指「戒烟或戒毒的人」，正好对应全文「戒断」主题。

【竞争词】 **B) canceling cancel 接「安排」不接「习惯」**

canceling 意为「取消」，宾语是会议、订单、计划等安排好的事；烟瘾是「戒掉」不是「取消」，cancel smoking 不是搭配。

【易错】 最具迷惑性的错误词是 **B)** —— canceling 词性、词义都沾边。canceling 与 quitting 同为 -ing、都含「停止」义，是本卷最阴的干扰。防坑：盯住空前宾语——quit smoking 是固定搭配，cancel 不接习惯类宾语。

28. The new study \_\_(28)\_\_ the first evidence that these withdrawal-like symptoms can occur

【答案】 **F) offers** (动词)

【词性槽】 单数主语后缺谓语，需三单动词

【依据】 **offer evidence 提供证据，研究报道标配**

offers 意为「提供」：The new study \_\_(28)\_\_ the first evidence 句意「这项新研究提供了首个证据」，study + offer + evidence 是学术报道高频搭配，that 从句正是证据的内容。

【竞争词】 **G) parallels 「研究平行于证据」主宾逻辑不成立**

parallels 作动词意为「与……相似/平行」，其主语和宾语应是两个可比较的事物；study parallels the evidence (研究相似于证据) 逻辑不通。它真正的归宿是 \_\_(30)\_\_。

29. withdrawal symptoms were \_\_(29)\_\_ more intense between the second and fifth days

【答案】 **N) significantly** (副词)

【词性槽】 空在比较级 more intense 前，修饰程度，只能副词

【依据】 **significantly more** 表「显著更」，研究报告程度的标准语气

significantly (显著地) 修饰 more intense，正是研究报告里描述程度差异的标配表达：  
withdrawal symptoms were \_\_(29)\_\_ more intense between the second and fifth days 句意「戒断症状在第 2 到第 5 天显著更强烈」，与有限时间段完全自洽。

【竞争词】 H) permanently 「永久地」与有限时间段自相矛盾

permanently 意为「永久地」，表时间长度而不表程度强弱；原文 between the second and fifth days 明确给出一个有限的时间段，「永久地更强烈」既与时间范围打架，也接不了比较级 more intense。

【易错】 最具迷惑性的错误词是 H) —— 副词二选一的抛硬币陷阱。permanently 是全卷唯二副词，只看词性不读句意的考生会在这里抛硬币。防坑：副词要连同被修饰成分和句中时间词一起读——between the second and fifth days 与「永久」矛盾，significantly 才表程度。

30. which \_\_(30)\_\_ the time span people live through during drug withdrawal

【答案】 **G) parallels** (动词)

【词性槽】 which 定语从句缺谓语，需三单动词

【依据】 **parallels** 表「与.....相平行/对应」，是 similar to 的动词版

parallels 句意「(第 2~5 天最强) 这与人们戒毒时熬过来的时间跨度相平行/对应」，呼应首段 symptoms similar to drug withdrawal 的「相似于戒毒」主线——parallels 正是 similar to 的动词说法。

31. The idea that food may be addictive after "heavy" use by some individuals is a \_\_(31)\_\_ subject

【答案】 **C) controversial** (形容词)

【词性槽】 冠词 a 后、名词 subject 前，典型定语位需形容词

【依据】 「有争议的话题」，与 Although 让步转折呼应

controversial 修饰 subject (话题)：后文 Although prior studies in animals and humans have shown some biological and behavioral similarities between substance-use disorders and addictive-like consumption of highly processed foods, no studies have looked at whether reducing junk food can \_\_(32)\_\_ withdrawal symptoms in people 的让步转折正说明这个话题「有争议」——有相似证据，却无直接研究。

【竞争词】 E) monstrous 「骇人的话题」色彩与学术语气不符

monstrous 意为「骇人的/巨大的」，学术报道里不会说一个 subject 「骇人」；全文语气客观，monster 的强烈色彩无处安放。

32. no studies have looked at whether reducing junk food can \_\_(32)\_\_ withdrawal symptoms in people

【答案】O) trigger (动词)

【词性槽】情态动词 can 后接原形及物动词

【依据】trigger withdrawal symptoms 引发戒断症状

trigger 意为「引发、触发」，trigger + 症状是医学心理语境的常见搭配：whether reducing junk food can \_\_(32)\_\_ withdrawal symptoms in people 句意「减少吃垃圾食品是否会引发戒断症状」，正是首段 experience symptoms similar to drug withdrawal 提出的研究问题。

【竞争词】J) prepare 「准备症状」语义荒谬

prepare 是「准备」，其宾语应是计划、策略、餐食等人可支配之物；prepare withdrawal symptoms (准备戒断症状) 逻辑不通——没有人去「准备」症状。

33. Raising \_\_(33)\_\_ that people may experience irritability(烦躁) or headaches when cutting down on junk food can help individuals \_\_(34)\_\_ coping strategies in advance

【答案】A) awareness (名词)

【词性槽】及物动词 Raising 后缺宾语，且带 that 同位语从句，需名词

【依据】raise awareness 提高认识，固定搭配

awareness 与句首 Raising 构成 raise awareness (提高认识) 这一高频固定搭配，that 从句正是「认识」的内容：人们戒掉垃圾食品时可能烦躁或头痛——提高这种认识，才能帮助下文的 prepare coping strategies。

【竞争词】D) emptiness 「提高空虚」语义荒谬

emptiness (空虚) 作 raise 的宾语不成语义——「提高空虚感」既不是搭配，也与「帮助人们提前准备应对策略」的积极目的相悖。

K) prospects prospects 接不了 that 同位语从句

prospects (前景) 虽能勉强接 raise，但 prospects 后接 that 同位语从句很别扭——that 从句的内容 (人会烦躁头痛) 无法说明「前景」；而 awareness that..... (意识到.....) 天衣无缝。

34. can help individuals \_\_(34)\_\_ coping strategies in advance

【答案】J) prepare (动词)

【词性槽】help sb (to) do 结构中接原形动词

【依据】prepare coping strategies 提前准备应对策略

prepare 与宾语 coping strategies 搭配自然：help individuals \_\_(34)\_\_ coping strategies in advance 句意「帮助人们提前准备好应对策略」，句末的 in advance 与 prepare 的「提前」语义恰好呼应。

35. The findings may also \_\_(35)\_\_ light on the barriers people face when changing eating habits

【答案】 **M) shed** (动词)

【词性槽】 情态动词 may 后接原形动词，且与 light on 构成动宾框架

【依据】 **shed light on 是固定搭配「阐明」**

shed 与空后的 light on the barriers 构成固定短语 shed light on (阐明、使清楚)：「这些发现也可以阐明人们改变饮食习惯时面对的障碍」，与全文「戒断症状是改变饮食习惯的障碍」的主旨完全贴合。

【竞争词】 J) prepare prepare light on 搭配不成立

prepare 后接名词表「准备某物」，prepare light on the barriers 既不成语义、也不是任何固定搭配。

O) trigger trigger 接后果类宾语，不接 light on

trigger 意为「引发」，宾语多为症状、反应、危机等后果类名词；trigger light 不是搭配，「引发光」语义不通。它真正的归宿是 \_\_(32)\_\_ 的 trigger withdrawal symptoms。

全文主旨

### 新研究：戒掉垃圾食品会引发类似戒毒的戒断症状

全文围绕一项新研究展开，开篇即定调：Junk-food lovers who try to cut back on fries or chocolate may experience symptoms similar to drug withdrawal, a new study suggests.——减少吃高度加工食品，会出现类似戒烟戒毒的戒断症状（情绪、身体反应及出现时间都与戒毒相似）。后文每个空的词义判断，都要贴着这条「戒断类比」主线走。

词库 15 词里有 5 个是命题人埋的干扰词——它们词性看着也对、词义也沾点边，却不该填进任何一个空。下面逐个剖析它们最像哪个空的答案、为什么是陷阱。

B) **canceling** 最像 \_\_ (27) \_\_ 的答案

canceling 与正确答案 quitting 同为 -ing 形态、都含「停止」意味，词性完全合格，是本卷最阴的干扰。识破：cancel 的宾语是会议/订单等「安排」，戒烟的固定搭配是 quit smoking，cancel smoking 不成立——见 those \_\_ (27) \_\_ smoking cigarettes or using drugs。

D) **emptiness** 最像 \_\_ (33) \_\_ 的凑数名词

emptiness 是词库里少数抽象名词，看着能接 Raising。识破：raise awareness 是固定搭配，「提高空虚」语义荒谬，且与帮助人们应对戒断的主旨相悖。

E) **monstrous** 最像 \_\_ (26) \_\_、\_\_ (31) \_\_ 的形容词

monstrous 词性与两处空位都对，「巨大的」看着能修饰 symptoms 或 subject。识破：它是强烈感情色彩词，全文是客观研究报告，无任何「骇人」依据——语气不符即排除。

H) **permanently** 最像 \_\_ (29) \_\_ 的副词

permanently 是全卷仅有的两个副词之一，\_\_ (29) \_\_ 二选一时天然有 50% 诱惑。识破：permanently 表时间长度，与 between the second and fifth days 的有限时间段矛盾，且不表程度、接不了 more intense。

K) **prospects** 最像 \_\_ (33) \_\_ 的名词

prospects (前景) 能勉强接 raise，词性也对。识破：prospects 后接 that 同位语从句别扭，that 从句的内容 (人会烦躁头痛) 无法说明「前景」——that 从句的归属是最后裁判。

### Giving a better phone interview

A) These days, phone interviews are an unavoidable part of the job interview process, and for good reason: They save time and effort. But that doesn't mean that phone calls require zero energy on the part of the candidate. Many companies treat phone screening as the official first round of the hiring process. That means candidates are expected to go into them prepared with as much information as possible about the company, position, and their own skills and strengths.

如今，电话面试已成为求职面试流程中不可避免的一部分，而且理由很充分：它们能够节省时间和精力。但这并不意味着电话面试不需要候选人付出任何努力。许多公司把电话筛选视为招聘流程的正式第一轮。这意味着，候选人应当做好充分准备，尽可能多地掌握有关公司、职位以及自身技能和优势的信息。

B) A big mistake people often make is talking about their personal lives. Don't talk about your personal life unless you're directly asked a question about what you like to do in your off-hours. "The point of a phone interview is to focus on getting to know a candidate's professional experience and goals," says Mckenzie Roark, campus talent specialist at Lithko Contracting. "A recruiter is trying to see if they are the best fit for a role, and learning about their personal life doesn't help. For example, when asked where you see yourself in five years, we don't want to know that you hope to be married or that you want to buy a new house. That is nice, but that isn't relative to anything professional."

人们常犯的一个大错误是谈论自己的私生活。除非对方直接问及你在业余时间喜欢做什么，否则不要谈论自己的私生活。Lithko Contracting 的校园人才专员 Mckenzie Roark 说：“电话面试的重点是了解候选人的职业经历和目标。招聘人员想要判断候选人是否最适合某个职位，而了解其私生活并没有

帮助。例如，当我们问你希望自己五年后处于什么状态时，我们不想知道你希望那时已经结婚，或者想买一套新房。这些当然都很好，但与职业方面没有关系。”

- C) It might be tempting to cross something off your to-do list while on a phone interview, but recruiters and hiring managers can easily tell if your attention is elsewhere. Many interviewers are annoyed to see people who decide to multitask while on the phone interview. There are candidates who wash dishes, go for walks, or do grocery shopping during the interview. Needless to say, this doesn't reflect well on your level of interest in the position you're interviewing for.

在电话面试时，你可能会想顺便完成待办事项中的某一项，但招聘人员和招聘经理很容易看出你的注意力是否放在别处。许多面试官都对那些决定在电话面试期间一心多用的人感到恼火。有些候选人会在面试时洗碗、散步或买菜。不用说，这并不能很好地体现你对所应聘职位的兴趣程度。

- D) The question regarding pay is also best avoided. To be frank, it's simply too early in the process for you to be the one who brings up salary expectations. "Chances are if a candidate is participating in a phone interview, this is the first time they have talked with the company, and the first call isn't the appropriate time to talk about 'what's in it for you,'" says Justina Strnad, the Talent Acquisition Manager for Shiftgig. "Trust me, if you are a great candidate and make it to the next step, the hiring team is going to be very transparent about what's in it for you later on."

关于薪酬的问题也最好避免提出。坦率地说，现在还处于流程的早期阶段，不适合由你主动提出薪资预期。Shiftgig 人才招聘经理 Justina Strnad 说：“如果候选人正在参加电话面试，很可能这是他们第一次与公司交谈，而第一次通话并不适合讨论‘这对你有什么好处’。相信我，如果你是一名优秀的候选人，并且进入了下一阶段，招聘团队之后会非常透明地告诉你能得到什么。”

- E) "After wrapping up a phone interview, it is typical that the interviewer will ask the candidate if they have any questions. I can't stress this enough: ALWAYS ask questions," says Roark. "If we have had a great phone interview and then we wrap up and they don't have any questions for me, it pretty much ruins the whole interview. It tells me that the candidate is uninterested in the role, which in reality might not be the case at all," she notes. But surely, if you're interested in a job, you can think of something to ask your interviewer.

Roark 说：“电话面试结束时，面试官通常会问候选人是否有任何问题。我再怎么强调也不为过：一定要提问。如果我们进行了一次很棒的电话面试，最后结束时对方却没有任何问题要问我，那几乎会毁掉整个面试。这会让我觉得候选人对这个职位不感兴趣，而实际上可能完全不是这样。”不过，如果你确实对一份工作感兴趣，肯定能想到一些问题来询问面试官。

- F) It seems basic, but surprisingly, a lot of people are late to phone interviews. "About a quarter of the people with whom I schedule phone interviews aren't on time," says Sophie Cikovsky, who handles U.S. recruiting for Infinite Global. "While this bothers me personally, it's also indicative of someone who isn't very detail-oriented," she explains. "In order to identify this early in the hiring process, I started asking all candidates a few years ago to call me as opposed to calling them at an agreed-upon time. That way, if I hear from them at 1:13 p.m. or 12:49 p.m. instead of our planned 1:00 p.m. interview time, I have an early indicator that they might not be a great fit."

这似乎是基本要求，但令人意外的是，很多人参加电话面试时会迟到。负责 Infinite Global 美国招聘工作的 Sophie Cikovsky 说：“和我约定电话面试的人中，大约有四分之一无法准时参加。”她解释说：“虽然这件事让我个人感到恼火，但它也说明这个人可能不太注重细节。为了在招聘流程早期发现这一点，几年前我开始要求所有候选人在约定时间打电话给我，而不是由我打给他们。这样一来，如

果我在下午1点13分或中午12点49分接到他们的电话，而不是在原定的下午1点面试时间接到，我就能及早判断他们可能并不十分适合这个职位。”

- G) "Make sure you test your headset and connection before dialing in," recommends Roark. "There is nothing more frustrating for a recruiter who has a structured interview guide in place having to repeatedly ask the same question over and over because they could not understand your answer due to dropped signals." Test-call a friend beforehand, or even call yourself from a landline if necessary; it will take less than a minute.

Roark 建议：“拨入电话前，务必测试耳机和连接状况。对于一名已经准备好结构化面试提纲的招聘人员来说，最令人沮丧的事情莫过于由于信号中断而听不清你的回答，只能一遍又一遍地重复询问同一个问题。”事先给朋友打个测试电话，或者必要时用座机给自己打电话；这不会花费超过一分钟。

- H) You might be eager to get your point across or talk about your experience, but interrupting the interviewer is awkward and rude. "Interviewing can be stressful, and sometimes that stress manifests itself in speaking too fast, speaking too loud, talking over the interviewer, or attempting to answer the interviewer's question before they have actually finished asking the question," says Chris Dardis, a recruiting expert. "Don't do this." There's a big difference between being assertive(自信的) and being aggressive, and interviewers can always recognize it.

你可能急于表达自己的观点或谈论自己的经历，但打断面试官既尴尬又无礼。招聘专家 Chris Dardis 说：“面试可能会令人紧张，而这种压力有时会表现为说话过快、声音过大、打断面试官，或者在面试官还没有真正问完问题之前就试图回答。不要这样做。”自信与咄咄逼人之间存在很大差别，面试官总能分辨出来。

- I) It's tough not to say things like "um," "uh," and "like" in everyday speech, but these verbal habits become much more pronounced when speaking on the phone, says Dardis. "In face-to-face interviews, they're not as noticeable, because there are other things like your hair, suit, or body language to distract people." But in a phone interview, the only thing you have to go on is what you say and how you say it. "That's why it's so important to eliminate these words from your speech when doing a phone interview."

Dardis 说，在日常谈话中，人们很难不说“嗯”“呃”和“就是”之类的话，但用电话交谈时，这些口头习惯会明显得多。“在面对面面试中，这些表达没有那么引人注目，因为还有头发、西装或肢体语言之类的其他因素会分散人们的注意力。”但在电话面试中，你能依靠的只有你说了什么以及你是如何表达的。“因此，进行电话面试时，从谈话中去掉这些词语非常重要。”

- J) Not knowing anything about the company or job you're interviewing for is way more obvious than you'd think. "Many people think that they don't have to put as much effort into researching the role or the company," says Steve Pritchard, an HR consultant. And if you have your laptop in front of you during the interview to do a few quick searches, they won't know the difference, right? Not exactly. "Seasoned interviewers will know whether an interviewee is researching while on the phone. The interviewer can often even hear the typing as they ask the question," he adds.

对所面试的公司或职位一无所知，其明显程度远超你的想象。人力资源顾问 Steve Pritchard 说：“许多人认为，他们不必花太多精力去了解职位或公司。”而且，如果面试时你把笔记本电脑放在面前，快速搜索几项信息，他们不会察觉其中的区别，对吧？并非如此。“经验丰富的面试官会知道面试者是否在通话时进行搜索。面试官提问时，甚至常常能听到你打字的声音。”他补充道。

K) "The key to success during a phone interview is clear and concise answers," says Dardis. "People's attention spans tend to be shorter over the phone. You don't want your future employer to lose interest in the conversation." He recommends practicing answers to questions you know will be asked ahead of time in order to be clear on what you're going to say. That way, you can prevent talking in an aimless manner.

Dardis 说：“电话面试取得成功的关键是回答清晰、简洁。人们在电话中的注意力持续时间往往更短。你不希望未来的雇主对这场谈话失去兴趣。”他建议，提前练习那些你知道面试官会提出的问题的回答，以便明确自己要说什么。这样一来，你就能避免漫无目的地讲话。

## 陈述句与逐句解析

36. Interviewees are advised not to ask questions about pay during a phone interview.

建议面试者不要在电话面试期间询问薪酬问题。

【答案】 **D** 段（强锚点）

【锚点】 questions about pay

【定位】 The question regarding pay is also best avoided. To be frank, it's simply too early in the process for you to be the one who brings up salary expectations. "Chances are if a candidate is participating in a phone interview, this is the first time they have talked with the company, and the first call isn't the appropriate time to talk about 'what's in it for you,'" says Justina Strnad, the Talent Acquisition Manager for Shiftgig.

关于薪资的问题也最好避开。坦率地说，现在就让求职者主动提出薪资期望还为时过早。‘如果候选人正在参加电话面试，这很可能是他们第一次与公司交谈，第一次通话并不是讨论‘这对你有什么好处’的合适时机，’Shiftgig的人才招聘经理Justina Strnad说。

【改写】 not ask questions about pay ↔ **The question regarding pay is also best avoided**

同义改写：not ask → best avoided

during a phone interview ↔ **if a candidate is participating in a phone interview 与 the first call**

场景锁定：电话面试初次通话

【改写】 Experienced interviewers ↔ Seasoned interviewers

【定位】 "If we have had a great phone interview and then we wrap up and they don't have any questions for me, it pretty much ruins the whole interview. It tells me that the candidate is uninterested in the role, which in reality might not be the case at all," she notes.

如果我们进行了一次很棒的电话面试，然后结束收尾时他们对我没有任何问题，那基本上就毁了整场面试。这告诉我候选人对这个职位不感兴趣，而现实中可能根本不是这样，'她说。

Test-call a friend beforehand, or even call yourself from a landline if necessary; it will take less than a minute.

罗克建议：'务必在拨入前测试你的耳机和连接。对于已经准备好结构化面试指南的招聘人员来说，没有什么比因为信号中断而反复问同一个问题更令人沮丧的了。'提前给朋友打个测试电话，必要时甚至用座机给自己打；这花不到一分钟。

在电话面试时顺便划掉待办事项可能很诱人，但招聘人员和用人经理很容易看出你的注意力是否在别处。许多面试官对有人在电话面试时决定一心多用感到恼火。有候选人在面试时洗碗、散步或采购杂货。

达迪斯说：'电话面试成功的关键是清晰简洁的回答。人们在电话中的注意力往往更短。你不想让未来雇主对谈话失去兴趣。'他建议提前练习那些你知道会被问到的问题，以便清楚自己要说什么。这样你就能避免漫无目的地说话。

如果未能按时给面试官打电话，他们可能不会认为你是合适的候选人。

【答案】 **F** 段 (强锚点)

【锚点】 call the interviewer on time

【定位】 "About a quarter of the people with whom I schedule phone interviews aren't on time," says Sophie Cikovsky, who handles U.S. recruiting for Infinite Global. "While this bothers me personally, it's also indicative of someone who isn't very detail-oriented," she explains. "In order to identify this early in the hiring process, I started asking all candidates a few years ago to call me as opposed to calling them at an agreed-upon time. That way, if I hear from them at 1:13 p.m. or 12:49 p.m. instead of our planned 1:00 p.m. interview time, I have an early indicator that they might not be a great fit."

无限环球美国招聘负责人索菲·西科夫斯基说：'我安排电话面试的人中大约有四分之一不准时。虽然这让我个人很烦，但也说明这个人不太注重细节。为了在招聘早期识别这一点，几年前我开始让所有候选人给我打电话，而不是我在约定时间给他们打。这样，如果他们在下午1:13或12:49联系我，而不是我们约定的下午1:00，我就有一个早期指标表明他们可能不太合适。'

【答案】 **B** 段 (强锚点)

【锚点】 personal lives / professional background and goals

【定位】 "The point of a phone interview is to focus on getting to know a candidate's professional experience and goals," says McKenzie Roark, campus talent specialist at Lithko Contracting. "A recruiter is trying to see if they are the best fit for a role, and learning about their personal life doesn't help. For example, when asked where you see yourself in five years, we don't want to know that you hope to be married or that you want to buy a new house. That is nice, but that isn't relative to anything professional."

Lithko Contracting校园人才专家麦肯齐·罗克说：'电话面试的重点是了解候选人的职业经历和目标。招聘人员想判断他们是否最适合该职位，而了解个人生活没有帮助。例如，当被问到五年后你看到自己在哪里时，我们不想知道你想结婚或想买新房。这很好，但与任何职业内容无关。'

【改写】 avoid talking about their personal lives ↔

**Don't talk about your personal life 与 learning about their personal life doesn't help**

面试者在电话交谈中打断面试官是不礼貌的。

【答案】 **H** 段 (强锚点)

【锚点】 interrupt the interviewer

【定位】 You might be eager to get your point across or talk about your experience, but interrupting the interviewer is awkward and rude. "Interviewing can be stressful, and sometimes that stress manifests itself in speaking too fast, speaking too loud, talking over the interviewer, or attempting to answer the interviewer's question before they have actually finished asking the question," says Chris Dardis, a recruiting expert. "Don't do this." There's a big difference between being assertive(自信的) and being aggressive, and interviewers can always recognize it.

你可能急于表达观点或谈论经验，但打断面试官既尴尬又粗鲁。招聘专家克里斯·达迪斯说：'面试可能有压力，有时这种压力表现为说话太快、太大声、打断面试官，或在面试官还没问完问题时就试图回答。不要这样做。'自信与咄咄逼人之间有很大区别，面试官总能识别出来。

【改写】 It is impolite for an interviewee to interrupt the interviewer ↔

**interrupting the interviewer is awkward and rude**

同义改写: impolite → rude

in the phone conversation ↔ **Interviewing can be stressful... talking over the interviewer**

场景展开

【辨邻】 **K** clear and concise answers 与 prevent talking in an aimless manner 都涉及口头表达质量，但主题是内容简洁；题干问的是'打断面试官不礼貌'，这是 interrupting the interviewer is awkward and rude。

Part III Section C (1)

**Directions:** *There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.*

### Passage One

**Questions 46 to 50 are based on the following passage.**

P1 Disgust is a universal human emotion. One type of disgust is called physical disgust, which protects us from eating or touching things that could be dangerous for us, such as raw meat or insects. Children experience physical disgust from a very early age, but do not achieve an understanding of the concept until they are around four years old.

厌恶是一种普遍存在于人类身上的情绪。厌恶有一种类型被称为生理性厌恶，它保护我们不去食用或触摸可能对我们有害的东西，例如生肉或昆虫。儿童从很小的时候就会产生生理性厌恶，但直到大约四岁时才会理解这一概念。

P2 Some researchers maintain that there is another type of disgust, called moral disgust, that protects us from engaging in activities that can be perceived as morally wrong. Examples of moral disgust are stealing, lying or cheating.

一些研究人员认为，厌恶还有另一种类型，即道德性厌恶，它保护我们不参与那些可能被视为道德错误的活动。道德性厌恶的例子包括偷窃、撒谎或作弊。

P3 However, not all academics think that moral disgust really exists. Some say that when we refer to disgust in relation to moral issues, we are using disgust as a metaphor(隐喻), and what we are feeling is in reality anger.

然而，并非所有学者都认为道德性厌恶确实存在。有些人说，当我们将厌恶与道德问题联系起来时，我们是在把厌恶当作隐喻，而实际上我们感受到的是愤怒。

P4 If moral disgust appears quite late in development, it makes sense to think that there is actually a social component to it. Children learn about emotions in many different ways. Of special relevance are parents-children conversations about emotions. Indeed, children whose parents talk about emotions often have a better emotional understanding than children whose parents do not discuss emotions often.

如果道德性厌恶在发展过程中出现得相当晚，那么认为它实际上包含社会因素就是合理的。儿童通过许多不同的方式了解情绪。其中尤其相关的是亲子之间关于情绪的谈话。事实上，父母经常谈论情绪的儿童，其情绪理解能力通常优于父母不常讨论情绪的儿童。

P5 However, there are no studies that have examined how parents and children talk about disgust. This is what we set up to examine in our study.

然而，还没有研究考察过父母和儿童是如何谈论厌恶的。这正是我们在研究中着手考察的问题。

P6 We asked 68 English-speaking mothers and their four-, six- or eight-year-old children to discuss some stories about moral and physical disgust. Our preliminary findings show mothers and children do talk about disgust, but mainly about physical disgust and not so much about moral disgust.

我们邀请了68位讲英语的母亲及其四岁、六岁或八岁的孩子，让他们讨论一些有关道德性厌恶和生理性厌恶的故事。我们的初步研究表明，母亲和孩子确实会谈论厌恶，但主要谈论的是生理性厌恶，而较少谈论道德性厌恶。

P7 When we asked mothers and children to discuss moral issues, such as whether it is OK to play with a child who has stolen someone else's snack, they linked this type of moral wrongdoing with the emotion of anger and not disgust.

当我们让母亲和孩子讨论道德问题时，例如与偷了别人的零食的孩子一起玩是否可以，他们把这种道德错误与愤怒这种情绪联系起来，而不是与厌恶联系起来。

P8 Does this mean that moral disgust does not exist? Some researchers suggest moral disgust exists in adults. Our findings suggest that moral disgust is either understood at a later age or is only used metaphorically, if at all, in children as old as eight years.

这是否意味着道德性厌恶并不存在？一些研究人员认为，成年人存在道德性厌恶。我们的研究表明，八岁及以下的儿童要么在更晚的年龄才理解道德性厌恶，要么根本不使用道德性厌恶，即使使用，也只是将其作为隐喻。

- B) 它是一个超出儿童理解能力的概念。
- C) 它是一种防止我们受到伤害的机制。
- D) 它是从任何形式的危险中获得的一种体验。

**【答案】 C** (细节题)

【判型】 What does the passage tell us about physical disgust?是在问文章对physical disgust的客观说明，不涉及推理、态度或主旨。

【拆句】 What does the passage tell us about physical disgust?是主谓宾结构的特殊疑问句，主语the passage，谓语tell，间接宾语us，直接宾语由what充当，about physical disgust限定话题范围，无否定、比较等陷阱。

【定位】 One type of disgust is called physical disgust, which protects us from eating or touching things that could be dangerous for us, such as raw meat or insects.

厌恶感的一种类型被称为生理厌恶，它保护我们不去吃或触碰可能对我们有危险的东西，比如生肉或昆虫。

【选项】 A) 偷换概念

It is an emotion as contrasted with thoughts.在原文Disgust is a universal human emotion.基础上添加了未出现的"as contrasted with thoughts"，把客观陈述偷换成对立关系。

B) 与原文相反

It is a concept beyond children's understanding.截取了do not achieve an understanding of the concept until they are around four years old中的否定，却忽略"until around four"，将"暂时未理解"反转为"永远无法理解"。

C) ✓ 正确

physical disgust, which protects us from eating or touching things that could be dangerous for us

↔ It is a mechanism to keep us from being harmed.

It is a mechanism to keep us from being harmed.与protects us from eating or touching things that could be dangerous for us形成语法层面的同义改写，是最佳选项。

D) 偷换概念

It is an experience gained from any form of danger.将定位句中的"protects us from eating or touching things that could be dangerous"改为"experience gained from danger"，把防御机制篡改为经验来源，且any form of danger绝对化。

47. How do some researchers perceive moral disgust?

- A) It tends to appear in various forms of wrongdoing.
- B) It is just as annoying to people as physical disgust.
- C) It is a term used by common folk to describe anger.
- D) It stops people from doing anything morally wrong.

一些研究人员如何看待道德厌恶？

- A) 它往往会出现在各种形式的不良行为中。
- B) 它和身体厌恶一样令人厌烦。
- C) 这是普通人用来描述愤怒的一个术语。
- D) 它阻止人们做任何道德上错误的事情。

【答案】 D (细节题)

【判型】 How do some researchers perceive moral disgust?是在问some researchers对moral disgust的具体看法，属于文中可直接找到的事实。

【拆句】 How do some researchers perceive moral disgust?是特殊疑问句，主语some researchers，谓语perceive，宾语moral disgust；how询问方式/看法，整体结构平直。

【定位】 Some researchers maintain that there is another type of disgust, called moral disgust, that protects us from engaging in activities that can be perceived as morally wrong.

一些研究者认为还存在另一种厌恶，称为道德厌恶，它保护我们不去做那些可能被视为道德错误的行为。

【选项】 A) 以偏概全

It tends to appear in various forms of wrongdoing.把Examples of moral disgust are stealing, lying or cheating.中的举例包装成"moral disgust本身以多种形式出现"，混淆了"触发它的行为"与"它本身"。

B) 无中生有

It is just as annoying to people as physical disgust.使用just as...as结构，但原文从未比较两种厌恶的annoying程度，也未评价其是否annoying。

C) 张冠李戴

It is a term used by common folk to describe anger.源于Some say that when we refer to disgust in relation to moral issues, we are using disgust as a metaphor(隐喻), and what we are feeling is in reality anger., 但该观点是some academics而非some researchers，且common folk缩小了原句we的范围。

D) ✓ 正确

protects us from engaging in activities that can be perceived as morally wrong ↔

**It stops people from doing anything morally wrong.**

It stops people from doing anything morally wrong.与protects us from engaging in activities that can be perceived as morally wrong.在语义场和语法结构上均对应，是正确项。

48. Why does moral disgust appear quite late in children's development?

A) It needs to be learnt through social interactions.

B) They have little control over its learning process.

C) It is too complex for them to acquire.

D) Their parents seldom talk about emotions.

为什么道德厌恶在儿童的发展过程中出现得相当晚？

A) 它需要通过社会互动来学习。 B) 他们对其学习过程几乎没有控制力。

C) 它对他们来说过于复杂，难以掌握。 D) 他们的父母很少谈论情绪。

【答案】 A (推断题)

【判型】 Why does moral disgust appear quite late in children's development?不是直接引用某个事实句，而是要求从文中因果解释中推进一步。

【拆句】 Why does moral disgust appear quite late in children's development?是why引导的特殊疑问句，主语moral disgust，谓语appear，状语quite late in children's development；询问原因，需在定位句附近找因果解释。

【定位】 If moral disgust appears quite late in development, it makes sense to think that there is actually a social component to it. Children learn about emotions in many different ways.  
如果道德厌恶在成长过程中出现得相当晚，那么认为它实际上具有社会成分是合理的。儿童以多种学习方式学习情绪。

【选项】 A) ✓ 正确

social component to it. Children learn about emotions in many different ways ↔

**It needs to be learnt through social interactions.**

It needs to be learnt through social interactions.是原文因果链的一步推理，既未跳跃也未添加新信息。

B) 无中生有

They have little control over its learning process.引入control概念，但原文Children learn about emotions in many different ways只说学习方式多，未涉及控制程度。

C) 过度推断

It is too complex for them to acquire.用too...to结构把原文的"late"和"social component"臆断为复杂度问题，原文未出现complex或acquire difficulty。

D) 与原文相反

Their parents seldom talk about emotions.与children whose parents talk about emotions often have a better emotional understanding than children whose parents do not discuss emotions often.直接相反，原文强调父母经常谈情绪。

49. What did the author and his colleagues want to examine in their experiment?

- B) 父母和孩子会把道德不当行为与什么联系起来。
- C) 4岁、6岁和8岁的儿童如何看待道德厌恶。
- D) 父母和孩子之间如何谈论厌恶。

【答案】 D (细节题)

【判型】 What did the author and his colleagues want to examine in their experiment?直接询问研究目的，文中有明确对应句。

**【拆句】** What did the author and his colleagues want to examine in their experiment?是what引导的特殊疑问句，主语the author and his colleagues，谓语want to examine，in their experiment限定范围；did提示过去时，对应文中已完成的研究。

**【定位】** However, there are no studies that have examined how parents and children talk about disgust. This is what we set up to examine in our study.

然而，还没有研究考察过父母和孩子如何谈论厌恶。这正是我们研究要考察的问题。

**【选项】** A) 偷换概念

What parents tell children against moral wrongdoing.把how parents and children talk about disgust中的talk about disgust替换为tell children against moral wrongdoing，范围收窄且改变了话题。

B) 答非所问

What parents and children link moral wrongdoing to.对应的是they linked this type of moral wrongdoing with the emotion of anger and not disgust.，这是实验结果，不是作者想考察的问题。

C) 偷换概念

How moral disgust is seen by children aged 4, 6 and 8.把four-, six- or eight-year-old children中的年龄信息放大为研究核心，但原文研究的是父母与孩子如何谈disgust，而非儿童如何看待moral disgust。

D) ✓ 正确

how parents and children talk about disgust ↔

**How disgust is discussed between parents and children.**

How disgust is discussed between parents and children.与how parents and children talk about disgust. This is what we set up to examine in our study.逐成分对应，完全等值。

50. What can we infer about moral disgust from the author and his colleagues' findings?

- A) It is a notion hardly comprehensible to children.
- B) It rarely exists in children younger than eight.
- C) It is a term most parents use when talking to children.
- D) It exists in adults with a strong sense of justice.

从作者和他的同事的研究结果中，我们可以推断出关于道德厌恶的什么信息？

- A) 这是一个儿童几乎无法理解的概念。
- B) 八岁以下的儿童很少有道德厌恶。
- C) 这是大多数父母与孩子交谈时使用的一个术语。
- D) 它存在于具有强烈正义感的成年人身上。

**【答案】** A (推断题)

**【判型】** What can we infer about moral disgust from the author and his colleagues' findings?要求从研究发现中概括出隐含结论。

**【拆句】** What can we infer about moral disgust from the author and his colleagues' findings?是what引导的特殊疑问句，can infer表示推断，about moral disgust限定对象，from the author and his colleagues' findings限定推理依据；需要在结论句基础上做一步概括。

**【定位】** Our findings suggest that moral disgust is either understood at a later age or is only used metaphorically, if at all, in children as old as eight years.

我们的发现表明，道德厌恶要么在更晚的年龄才能被理解，要么即便存在，在八岁儿童中也只被隐喻式地使用。

**【选项】** A) ✓ 正确

either understood at a later age or is only used metaphorically, if at all, in children as old as eight years

↔ **It is a notion hardly comprehensible to children.**

It is a notion hardly comprehensible to children.是结论句的一步同义转述，未过度延伸。

B) 偷换概念

It rarely exists in children younger than eight.把only used metaphorically, if at all中的使用方式篡改为存在频率，且younger than eight与原文as old as eight不一致。

C) 与原文相反

It is a term most parents use when talking to children.与do talk about disgust, but mainly about physical disgust and not so much about moral disgust.直接相反，父母并不常使用moral disgust一词。

D) 无中生有

It exists in adults with a strong sense of justice.虽然提到Some researchers suggest moral disgust exists in adults., 但"with a strong sense of justice"是原文没有的信息。

Part III Section C (2)

**Directions:** There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on **Answer Sheet 2** with a single line through the centre.

### Passage Two

Questions 51 to 55 are based on the following passage.

P1 After finding out details about a stranger, we mistakenly think that they also know about us. As a result, we act more honestly around them, according to a recent study in *Nature*.

《自然》杂志近期发表的一项研究显示，在了解到陌生人的一些情况后，我们会错误地认为对方也了解我们。因此，我们在他们面前会表现得更加诚实。

P2 Past research has found that we tend to assume social relationships are reciprocal(相互的). Most of the time, this assumption is accurate: someone you think of as a friend will usually consider you a friend too. But sometimes our social ties are more one-sided: for example, you might learn something about a stranger who doesn't know you at all. Researchers Anuj Shah and Michael LaForest wondered whether our tendency to believe that social ties are reciprocal could lead us to mistakenly feel that a stranger does actually know us.

以往的研究发现，我们往往认为社会关系是相互的。大多数时候，这一假设是准确的：你认为是朋友的人通常也会把你当作朋友。但有时我们的社会关系更具单向性：例如，你可能了解到一个完全不认识你的陌生人的一些情况。研究人员阿努杰·沙阿和迈克尔·拉福里斯特想知道，我们相信社会关系具有相互性的倾向，是否会导致我们错误地觉得陌生人确实了解我们。

P3 In a series of lab-based studies, this is exactly what the researchers found. When we know about strangers, we erroneously think they also know about us. But the really interesting finding came when the researchers stepped out of the lab, to conduct a field experiment. The team developed leaflets(传单) containing fairly ordinary information about local community police officers, such as their favourite food,

hobbies, or reasons for joining the police force. They then sent out these leaflets to every apartment in a number of housing developments in disadvantaged areas. The officers themselves also dropped off cards to local residents containing similar information.

研究人员通过一系列实验室研究发现，事实正是如此。当我们了解到陌生人的一些情况时，会错误地认为他们也了解我们。但真正有趣的发现出现在研究人员走出实验室进行一项实地实验之后。研究团队制作了一些传单，内容是当地社区警察的较为普通的信息，例如他们最喜欢的食物、兴趣爱好或加入警察队伍的原因。随后，他们将这些传单发放到不发达地区若干住宅小区的每一套公寓。警察本人也向当地居民发放了载有类似信息的卡片。

P4 Two months later, the researchers surveyed residents at these housing developments as well as control areas that did not receive leaflets or outreach cards. Residents were asked to imagine that they had committed a crime and how likely it would be that local officers would find out about it. They also rated how well the officers in the area knew them.

两个月后，研究人员对这些住宅小区的居民以及未收到传单或宣传卡片的对照区域居民进行了调查。研究人员要求居民设想自己实施了一项犯罪，并评估当地警察发现这件事的可能性有多大。他们还对当地警察对自己的了解程度进行了评价。

P5 The team found that residents of the developments that had received the leaflets believed it more likely that local officers would find out about illegal activity than residents of the control areas. Even more strikingly, the team found that immediately after the leaflet distribution, there were fewer criminal complaints and arrests in the areas around the developments that had received the leaflets than around the control developments.

研究团队发现，收到传单的住宅小区居民认为当地警察发现违法活动的可能性高于对照区域的居民。更令人惊讶的是，研究团队发现，在传单发放后不久，收到传单的住宅小区周边地区的犯罪报案数和逮捕人数都少于对照小区周边地区。

【拆句】 What is the finding of a recent study in Nature? 是主系表结构的特殊疑问句，主语为 the finding of a recent study in Nature，结构平铺直叙，无隐藏否定或比较陷阱。

**【定位】** After finding out details about a stranger, we mistakenly think that they also know about us.  
在了解到一个陌生人的一些细节后，我们错误地认为他们也了解我们。

**【选项】** A) **比较结构警惕对象与方向**

People are more honest with those who know them than with total strangers. 把原文的诚实对象从陌生人偷换成熟人，并将比较对象反向设置。

B) **无中生有**

People we want to have detailed information about are keen to know about us.  
中的 want 与 keen 是原文没有的主观意愿，属于无中生有。

C) **✓ 正确**

After finding out details about a stranger ↔ **People who get to know about a person**  
we mistakenly think that they also know about us ↔

**wrongly assume the person knows them too**

People who get to know about a person wrongly assume the person knows them too. 与 After finding out details about a stranger, we mistakenly think that they also know about us. 在语义上完全等价，仅做了代词和词汇替换。

- B) 它并非在每种情况下都成立。
- C) 它不适用于复杂的关系。
- D) 在单向社会关系中，这一假设更加准确。

**【答案】** B (细节题)

**【判型】** What does the passage say about the assumption... 要求回到原文找关于该 assumption 的具体描述，属于局部信息提取。

**【拆句】** What does the passage say about the assumption that social relationships are reciprocal? 中 that 引导同位语从句修饰 assumption，整体是主谓宾结构，无复杂从句嵌套。

**【定位】** Past research has found that we tend to assume social relationships are reciprocal. Most of the time, this assumption is accurate: someone you think of as a friend will usually consider you a friend too. But sometimes our social ties are more one-sided: for example, you might learn something about a stranger who doesn't know you at all.

过去的研究发现，我们倾向于认为社会关系是相互的。大多数时候这一假设是准确的：你视为朋友的人通常也视你为朋友。但有时社会关系更单向：例如，你可能了解到一个根本不认识你的陌生人的某些事情。

**【选项】** A) 与原文相反

It is more the exception than the rule. 表示互惠假设多为例外，但原文说 Most of the time 是准确的，因此该选项与原文相反。

B) ✓ 正确

Most of the time, this assumption is accurate: someone you think of as a friend will usually consider you a friend too. But sometimes our social ties are more one-sided

↔ **It does not hold true in every situation.**

It does not hold true in every situation. 没有绝对化，也没有扩大范围，恰好对应 Most of the time... But sometimes... 的语义。

C) 无中生有

- A) Whether it may resolve misunderstandings about social ties.
- B) Whether it could help develop one's relationships with strangers.
- C) Whether it could help strengthen interpersonal relationships.
- D) Whether it may lead to false assumptions about a stranger.

- A) 它是否可以消除对社会关系的误解。
- B) 它是否有助于发展自己与陌生人的关系。
- C) 它是否有助于加强人际关系。
- D) 它是否可能导致对陌生人的错误假设。

**【答案】** D (细节题)

**【判型】** What did Anuj Shah and Michael LaForest want to find out... 聚焦于研究者的研究意图，属于局部细节。

**【拆句】** What did Anuj Shah and Michael LaForest want to find out about the belief that social relationships are reciprocal? 中 that social relationships are reciprocal 为同位语从句，修饰 belief，整体询问过去的研究目的。

**【定位】** Researchers Anuj Shah and Michael LaForest wondered whether our tendency to believe that social relationships are reciprocal could lead us to mistakenly feel that a stranger does actually know us.

研究者 Anuj Shah 和 Michael LaForest 想知道，我们相信社会关系是互惠的这种倾向，是否让我们误以为一个陌生人确实认识我们。

**【选项】** A) 与原文相反

Whether it may resolve misunderstandings about social ties. 用 resolve misunderstandings 替换了原文的 lead to mistakenly feel，方向完全相反。

B) 无中生有

Whether it could help develop one's relationships with strangers. 中的 develop relationships 是原文没有的积极目的，属于无中生有。

C) 偷换概念

Whether it could help strengthen interpersonal relationships. 同样引入 strengthen interpersonal relationships 这一积极结果，偏离原文的研究问题。

D) ✓ 正确

our tendency to believe that social relationships are reciprocal could lead us to mistakenly feel that a stranger does actually know us

↔ **Whether it may lead to false assumptions about a stranger.**

Whether it may lead to false assumptions about a stranger. 中的 it 指代 the belief that social relationships are reciprocal，lead to false assumptions 对应原文的 lead us to mistakenly feel，是对研究问题的精确概括。

54. When did Anuj Shah and Michael LaForest find something really interesting in their research?

- A) During lab-based studies.
- B) During a field experiment.
- C) While investigating local residents' crime.
- D) While talking to police officers nearby.

- B) 在一次实地实验期间。
- C) 在调查当地居民的犯罪情况时。
- D) 在与附近的警察交谈时。

**【答案】** B (细节题)

**【判型】** When did Anuj Shah and Michael LaForest find something really interesting in their research? 要求回到原文定位 really interesting 对应的具体阶段。

**【拆句】** When did Anuj Shah and Michael LaForest find something really interesting in their research? 为 when 引导的特殊疑问句，主语为研究者，谓语为 find something really interesting，结构清晰。

**【定位】** But the really interesting finding came when the researchers stepped out of the lab, to conduct a field experiment.

但真正有趣的发现出现在研究者走出实验室、开展实地实验的时候。

**【选项】** A) **转折后的内容权重高于转折前**

During lab-based studies. 对应的是前文提到的实验室研究，而原文用 But 转折指出真正有趣的发现来自 field experiment.

B) **✓ 正确**

when the researchers stepped out of the lab, to conduct a field experiment ↔

**During a field experiment.**

During a field experiment. 与 when the researchers stepped out of the lab, to conduct a field experiment. 在时间上完全对应，是对原文的精确概括。

C) **张冠李戴**

While investigating local residents' crime. 对应的是第4段中居民被问及犯罪的调查环节，而非第3段中 really interesting finding 发生的时机。

D) **偷换概念**

While talking to police officers nearby. 中的 talking 是原文未描述的行为，警察只是发放传单和卡片，并未与居民交谈。

55. What happened in the areas around the housing developments subjected to the studies?

A) They saw fewer crimes than the control developments.

B) They witnessed a swifter elimination of illegal activities.

C) Local police responded more quickly to criminal complaints than before.

D) Local police related better to residents there than to those in other areas.

在研究所涉及的住宅开发项目周边地区发生了什么？

A) 这些地区的犯罪案件少于对照住宅项目周边地区。 B) 这些地区见证了非法活动更快地被遏制。

C) 当地警方比以前更快地回应了犯罪投诉。

D) 当地警方与那里的居民相处得比与其他地区的居民更好。

**【答案】** A (细节题)

**【判型】** What happened in the areas around the housing developments subjected to the studies? 要求提取实验后相关区域的具体变化。

**【拆句】** What happened in the areas around the housing developments subjected to the studies? 中 subjected to the studies 为过去分词短语作后置定语，修饰 housing developments，整体询问某地发生的事件。

【定位】 Even more strikingly, the team found that immediately after the leaflet distribution, there were fewer criminal complaints and arrests in the areas around the developments that had received the leaflets than around the control developments.

更令人惊讶的是，研究小组发现，在发放传单后，收到传单的小区周边地区的犯罪投诉和逮捕数量都少于对照小区周边地区。

【选项】 A) ✓ 正确

there were fewer criminal complaints and arrests in the areas around the developments that had received the leaflets than around the control developments

↔ They saw fewer crimes than the control developments.

They saw fewer crimes than the control developments. 中的 fewer crimes 对应 fewer criminal complaints and arrests, control developments 与原文原词一致，概括准确。

B) 过度推断

They witnessed a swifter elimination of illegal activities. 中的 swifter 是原文没有的速度含义，属于过度推断。

C) 偷换概念

Local police responded more quickly to criminal complaints than before. 把 fewer criminal complaints 错误地解释为警方响应速度提升，原文并未比较警方反应时间。

D) 过度推断

Local police related better to residents there than to those in other areas. 把犯罪投诉和逮捕减少归结为警民关系更好，但原文并未评价警民关系。

Part IV

**Directions:** For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on **Answer Sheet 2**.

在中国传统文化中，亲朋好友之间互赠礼物是人际交往的一种重要礼节 (etiquette)。赠送礼物不仅是物质的馈赠，更是情感的表达，是维系人际关系的重要纽带。一份精心挑选、符合接受者喜好的礼物，往往能加深彼此的感情。中国人遵循“礼尚往来” (mutually exchanging courtesies) 的传统，接受礼物时会表达谢意，并适时回赠礼物，以增进彼此的融洽关系。

### 参考译文

整篇参考英译是复盘资产，考卷上只印中文原文——四六级 Part IV 翻译按整篇「表达通顺连贯、用词准确、语法正确」四档评分。

In traditional Chinese culture, exchanging gifts among relatives and close friends is an important form of etiquette in interpersonal communication. Giving gifts is not only a material offering, but also an expression of affection, and an important bond that maintains interpersonal relationships. Such a carefully chosen gift that suits the recipient's preferences can often deepen mutual affection. Chinese people follow the tradition of reciprocity (mutually exchanging courtesies): when receiving gifts, they express their gratitude and return gifts at an appropriate time, so as to enhance their harmonious relationship.

## 【衔接】句1到句2：近义换说避重复

两句主语同为赠礼：句1已用 exchanging gifts，句2换近义 giving gifts，既避免机械重复又自然承接；句2内部用 not only... but also... 把 赠送礼物不仅是物质的馈赠，更是情感的表达 的递进逻辑显化出来。

## 句2到句3：Such 钩回上文

句3的 一份精心挑选、符合接受者喜好的礼物 正是上文所说的礼物，整篇定稿中句首用 Such a carefully chosen gift，借指示词 such 把话题钩回前两句，比光秃秃的 A gift 更连贯。

## 句4内部：时间与目的显化

接受礼物时会表达谢意，并适时回赠礼物，以增进彼此的融洽关系 隐含时间、并列、目的三层逻辑，英文分别用 when receiving...、and return...、so as to enhance... 写出来，读者一眼看清动作顺序与意图。

## 逐句解析

一整段连排中文、无段落标记无题号——把它切成一句句翻译单元本身就是解题动作，句前 N. 为逐句解析自切的句序号（非考卷题号），与卷面中文逐字对应。

## 【主旨】传统赠礼文化介绍

本段介绍中国传统文化中亲友互赠礼物这一习俗及其人情功能，属典型的文化介绍语体。开篇 在中国传统文化中，亲朋好友之间互赠礼物是人际交往的一种重要礼节 即为全段定调：客观陈述一种延续至今、普遍存在的文化现象，不是叙历史、讲故事。因此用词风格应平实正式，判断句与客观陈述句为主。

## 【时态】一般现在时

通篇是对一种至今仍通行的客观习俗的介绍与评价，如 赠送礼物不仅是物质的馈赠，更是情感的表达，讲的是现在仍然成立的普遍事实，故全篇默认用一般现在时；连 接受礼物时会表达谢意 这类习惯性场景也用一般现在时表惯常，不偏离基调。

## 【译法】礼节

拟译 etiquette——原文已在 一种重要礼节 (etiquette) 中直接给出注释，照用最稳。注意 etiquette 作不可数名词，表示一种礼节要说 an important form of etiquette，不能写 an important etiquette。

## 礼尚往来

定为 the tradition of reciprocity，并保留原文所给注释 mutually exchanging courtesies（见中国人遵循“礼尚往来” (mutually exchanging courtesies) 的传统）。考场上直接用注释或 reciprocity，不自造拼音、不另编译法。

## 互赠礼物/赠送礼物

全篇反复出现的核心动作：句1 亲朋好友之间互赠礼物 强调双向，用 exchanging gifts；其后泛指行为用 giving gifts。二者同源、前后呼应，避免一会儿 send gifts 一会儿 present gifts 换来换去。

## 人际关系

统一译 interpersonal relationships（是维系人际关系的重要纽带）；注意与 人际交往 区分，后者指交往行为，译 interpersonal communication，两词各定一版、全篇不混用。

1. 在中国传统文化中，亲朋好友之间互赠礼物是人际交往的一种重要礼节 (etiquette)。

**【主干】 互赠礼物是礼节** (主语策略：原句主语)

中文核心动词是判断动词是字，其前的 亲朋好友之间互赠礼物 是动作性主语，英文用动名词短语 Exchanging gifts among relatives and close friends 顶上，谓语 is，表语 an important form of etiquette——主干即 Exchanging gifts ... is an important form of etiquette。

**【降级】 三处修饰各降级**

主干之外三处成分各自降级安放：在中国传统文化中 是范围，译介词短语 In traditional Chinese culture 放句首作状语；亲朋好友之间 译介词短语 among relatives and close friends 挂在动名词后；人际交往的一种重要 译 in interpersonal communication 作后置成分，不把一长串定语堆在名词前。

**【语法】 主谓一致**

动名词短语 Exchanging gifts 作主语视为单数，谓语用 is 不用 are——主体考生极易被 gifts 带成复数。

**冠词与可数性**

一种礼节译 an important form of etiquette：etiquette 是不可数名词，不能写 an etiquette，要借 form of 来表达一种。

**时态**

回指全篇基调：客观陈述普遍事实，用一般现在时 is。

**【译文】 In traditional Chinese culture, exchanging gifts among relatives and close friends is an important form of etiquette in interpersonal communication.**

2. 赠送礼物不仅是物质的馈赠，更是情感的表达，是维系人际关系的重要纽带。

**【主干】 赠送礼物是三重身份** (主语策略：原句主语)

核心结构是判断句 赠送礼物不仅是物质的馈赠，更是情感的表达：主语用动名词 Giving gifts，谓语 is，馈赠、表达、纽带三个表语共用这一个 is，不必每截重复它是——主干 Giving gifts is not only ... but also ...。

**【降级】 三个是字并一链**

中文连下三个判断（不仅是物质的馈赠，更是情感的表达，是维系人际关系的重要纽带），英文不能平铺成三个句子：前两个用 not only... but also... 并列表语 a material offering 与 an expression of affection；第三个用 and an important bond 接在同一条链上，其中 维系人际关系的 降成后置定语 that maintains interpersonal relationships，而不是另起一个它是开头的分句。

### 【语法】平行结构

not only... but also... 两边词性必须对仗：都是名词短语（a material offering 与 an expression of affection），不能一边名词、一边塞个句子。

### 单复数与冠词

三个表语都是可数身份名词，各带 a 或 an；bond 后接定语从句时，从句谓语 maintains 跟 bond 的单数一致，别写成 maintain。

### 时态

仍回指全篇基调，用一般现在时 is 与 maintains。

**【译文】 Giving gifts is not only a material offering, but also an expression of affection, and an important bond that maintains interpersonal relationships.**

3. 一份精心挑选、符合接受者喜好的礼物，往往能加深彼此的感情。

**【主干】 礼物加深感情**（主语策略：原句主语）

核心动词是 加深，主语是礼物（A gift），往往 降为频度与情态色彩，谓语译 can often deepen，宾语彼此的感情译 mutual affection——主干 A gift can often deepen mutual affection。

**【降级】 两个定语一前一后**

名词礼物前叠了两个定语（一份精心挑选、符合接受者喜好的礼物）：精心挑选只有两个字，用过去分词 carefully chosen 放名词前；符合接受者喜好是个小句，前置会头重脚轻，降级为定语从句 that suits the recipient's preferences 挂名词后。

**【语法】 冠词**

一份礼物是泛指任何一份这样的礼物，用 A carefully chosen gift，不用 The。

### 单复数与所有格

接受者指任何一位收礼人，用单数加所有格 the recipient's preferences；preferences 用复数表各类喜好。

### 时态

讲一般规律，can deepen 是一般现在时范畴，与全篇基调一致。

**【译文】 A carefully chosen gift that suits the recipient's preferences can often deepen mutual affection.**

4. 中国人遵循“礼尚往来” (mutually exchanging courtesies) 的传统，接受礼物时会表达谢意，并适时回赠礼物，以增进彼此的融洽关系。

**【主干】 中国人遵循传统**（主语策略：原句主语）

主语 中国人 译 Chinese people（复数），核心谓语是遵循，译 follow，宾语传统译 the tradition；礼尚往来 降成 of reciprocity 作 tradition 的后置定语——主干 Chinese people follow the tradition of reciprocity。

## 【降级】后续动作各就各位

主句之后中文连排三个动作，按功能分级：接受礼物时会表达谢意 拆成时间状语 when receiving gifts 加谓语 express their gratitude；并适时回赠礼物 与表达谢意并列，用 and return gifts at an appropriate time 共用一个主语；以增进彼此的融洽关系 表目的，降级为不定式 so as to enhance their harmonious relationship——三层都挂在一个主句上，不另起新句。

## 【语法】主谓一致

Chinese people 是复数主语，谓语 follow、express 一律不加 s；people 作人们讲永远是复数，这是主体考生高频错点。

## 专名译法统一

礼尚往来按通读时定好的 the tradition of reciprocity 译，并把原文注释 mutually exchanging courtesies 照用，不自造拼音、不临时换译。

## 时态

描述一贯遵循的习俗，follow、express、return 全用一般现在时；接受礼物时用 when receiving 的省略状语，与主句自然衔接，无需单独变时态。

**【译文】 Chinese people follow the tradition of reciprocity (mutually exchanging courtesies): when receiving gifts, they express their gratitude and return gifts at an appropriate time, so as to enhance their harmonious relationship.**
