词数：_____ 用时：_____ 想问 Chat 的一处：_____

原创四级阅读 完整文章

四级真题同考点原创改编训练（非历年真题原题）。社区工具借用方案，人物与方案均为教学设定。文章和题目独立创作，不是原文换词。

全文 336 词；P1–P6 为定位标签。校准参照 2021 年 12 月第 1 套 Section C Passage One 的长度、句法、条件、费用关系及反对理由。

P1 A town council is considering replacing its weekend repair service with a tool bank. Residents would borrow equipment to fix furniture and other household objects themselves. Supporters describe the proposal as a cheap way to reduce waste. If enough residents join, it may become a regular public service. However, the plan has not yet been approved, and participation is voluntary.

P2 The council would no longer need to pay a professional to repair each item. That appears to be a considerable saving. But borrowers would have to purchase replacement parts, clean the tools and pay a small charge for damaged equipment. Some expenses would therefore be transferred from the council to residents rather than removed altogether.

P3 For a household that already has repair skills, borrowing a tool could still be good value. An inexperienced user, however, might spend several hours on a job that a professional could finish quickly. A low borrowing fee does not necessarily mean a low total cost once time and materials are included.

P4 Local repair workers have raised a different objection. They fear that the new arrangement would make their remaining service less efficient. Instead of receiving objects ready for repair, they might first have to inspect unsuccessful attempts and find out which parts had been changed. This extra work could reduce the number of repairs completed in a day.

P5 Other questions concern the booking system, which would record users' names and addresses. Some residents have asked how this information will be protected. The council has promised to explain its policy before opening the bank, but it has not yet decided whether records will be kept after tools are returned.

P6 One possible compromise is to offer short training sessions and keep professional help available. This would cost more than simply putting tools on shelves, but it could prevent a small problem from becoming an expensive one. Before declaring the scheme a success, the council needs to consider who saves money, who takes on the burden, and whether the service actually becomes more useful.

参考答案 旧词 新词和语法

正确同义表达可接受；不按示范逐字扣分，语义与结构需完整。

旧词

1. follow the rules

2. share resources with others

3. think independently / think for themselves

4. One reason is that ...

5. provide students with help / provide help for students

6. compensate→补偿；7. productivity→生产率／工作效率。

新词

1. library；2. campus；3. last；4. warn。

5. transfer→转移；6. burden→负担；7. objection→反对意见／异议；8. efficient→效率高的。

基础语法

1. Reading this information carefully can help students follow the rules.
Reading this information carefully 整体作主语；也可用 the information。help 后跟(to) follow 均可。

2. This information is useful, so students should use it.
this/the information，不用 those；is 与 it 都指信息。也可写 The information...。

3. Students should read the rules carefully and explain them accurately.
carefully 修饰 read，accurately 修饰 explain；两个都要检查。them 指复数 rules。

4. Teachers organize a tour to introduce the library to new students.
老师介绍图书馆给新生；若用 help，正确可写...to help new students learn about the library。

5. The school plans to organize a tour. The tour will last two hours.
单数 school→plans；活动持续用 last；人花时间才用 spend。

6. The book can help students (to) understand campus rules.
help sb. (to) do，understand 用原形；书帮助学生理解，理解动作由学生完成。

参考答案 小检测

1. library
检查完整词形。

2. last
本日只考动词义。

3. 转移
只要求识别，不强制默写。

4. 反对意见；异议
不是客观的 objective。

5. The guide provides information, but the information is not always accurate.
也接受...but it is not always accurate，it 明确指 information；不把对象换成 guide。

6. Sharing these resources can help us save time.
完整行动短语作主语；也接受 Sharing these resources helps us save time。

7. We should think independently and check our work carefully.
think for ourselves 也可；必须同时处理 careful。

8. If students check information carefully, they can make better decisions.
完整条件与结果；结果具体且与检查信息相关。

9. We share a guide to explain the rules to new members.
我们解释规则给成员；不改成成员解释规则。

10. The students will be warned if they do not follow the rules.
will be warned，去掉多余 are（若自行加上）；也可用 If...置前。本题只复现一个固定被动表达。

第 5 题用 it 可以，前提是清楚指回 information；后半句说的是信息，不能把内容换成指南的性质。

句子题的自我修正保留在旁边，交 Chat 时区分原始答案与修改。

参考答案 翻译和结构练习

翻译

1. The school plans to organize a meeting to explain campus rules to new students.
school 单数→plans；学校解释给新生。to explain 表目的。

2. Checking this information carefully can help students avoid mistakes.
Checking this information carefully 完整作主语；this/the information；carefully 修饰 checking。

3. These books contain useful information, but the information is not always accurate.
后半句也可 but it is not always accurate，it 指 information。信息不可数，不用 those information。

4. If students follow these rules and share resources with others, they can make good use of the library.
follow 及时提取；others 表示其他人；the library；条件与结果说的是同一批学生。

作文结构

1. I would recommend this guide because its advice is practical.

2. The book shows students how to check information carefully.

3. The book shows them how to check information carefully.

4. It is important for students to follow the rules.

微段落与推荐短文没有唯一答案。检查：介绍书的具体内容；理由支持推荐；recommend 后有对象；because 后有完整句；shows 人 how to 原形。

推荐短文说读者能得到什么帮助；不能只写健康很重要，也不能把题目改成举办一场未来活动。简化范文在教学 Markdown，不另贴第二份标准作文答案。

阅读解析与订正记录

原创题参考答案：1 B；2 D。此成绩只反映本次原创练习，不等同陌生整卷 CET4 分数。

1 定位 P2：borrowers would have to purchase replacement parts...；Some expenses would therefore be transferred from the council to residents...。

对应：council no longer need to pay→lower council spending；borrowers pay / expenses transferred→residents bear some costs。省钱与承担费用涉及两方，并非费用消失。

A 把 P1 的 If...may 变为必然，并扩大到 all professional services；C 忽略 P2–P3 中的材料、时间与费用；D 把有条件的损坏收费扩大到每位居民。

2 定位 P4：first have to inspect unsuccessful attempts...；This extra work could reduce the number of repairs completed in a day。

对应：extra work→extra tasks；reduce the number of repairs completed→reduce the amount of work they complete。D 是工人的反对理由。

A 来自 P5 个人信息主题，但那是居民关心的用户资料，不是 P4 工人反对理由；B 把 P6 可能培训方案变成对工人的强制要求；C 与 P2 自购零件相反。
